As a curative agent it has a tendency to *recruit and strengthen;* while age having contributed its genial charm, and enriched it with a delicious flavor and an oily body, it affords a pleasant incentive to the restoration or recovery of health, through the agreeable medium of a well pleased palate.

Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO.,

(Established 1778.)

Sole Proprietors, No. 19 Broad St., N. Y.

Dyspepsia Remedy

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens,* will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the ill effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

SEVEN YEARS!

The seven years of unrivalled success attending the
COSMOPOLITAN
Art Association,
have made it a household word throughout every quarter of our country.

Under the auspices of this popular Institution, over *three hundred thousand homes* have learned to appreciate—by beautiful works of art on their walls, and choice literature on their tables—the great benefits derived from becoming a subscriber.

Subscriptions are now being received in a ratio unparalleled by that of any previous year.

TERMS OF SUBSCRIPTION.

Any person can become a member by subscribing *three dollars*, for which sum they will receive

1st.—The large and superb steel engraving, 30 x 38 inches, entitled

Falstaff Mustering His Recruits,

2d.—One copy, one year, of that elegantly illustrated magazine, the

"COSMOPOLITAN ART JOURNAL."

3d.—Four admissions, during the season, to

"The Gallery of Paintings, 548 Broadway, New York."

In addition to the above benefits, there will be given to subscribers, as gratuitous premiums, over

Five Hundred Beautiful Works of Art,

comprising valuable paintings, marbles, parians, outlines, &c., forming a truly national benefit.

THE SUPERB ENGRAVING, which every subscriber will receive, entitled "FALSTAFF MUSTERING HIS RECRUITS," is one of the most beautiful and popular ever made in this country. It is done on steel, in *fine line and stipple*, and is printed on heavy plate paper, 30 by 38 inches, making a most choice ornament, suitable for the walls of either the library, parlor or office. Its subject is the celebrated scene of Sir John Falstaff receiving in Justice Shallow's office the recruits which had been gathered for his "Ragged Regiment." It could not be furnished by the trade for less than five dollars.

The *Art Journal* is too well known to the whole country to need commendation. It is a magnificently illustrated magazine of Art, containing Essays, Stories, Poems, Gossip, &c., by the very best writers in America.

The Engraving is sent to any act of the country by mail, with safety, being packed in a cylinder, postage prepaid.

Subscriptions will be received until the Evening of January 31, 1861, at which time the books will close, and the premiums be given to subscribers.

No person is restricted to a single subscription. Those remitting $15, are entitled to five membership, and one extra Engraving for their trouble.

Subscriptions from California, the Canadas, and all Foreign Countries, must be $3.50 instead of $3, in order to defray extra postage, &c.

For further particulars send for a copy of the elegantly illustrated *Art Journal*, pronounced *the handsomest magazine in America*. It contains Catalogue of Premiums, and numerous superb engravings. Regular price, 50 cts. per number.—Specimen copies, however, will be sent to those wishing to subscribe, on receipt of 18 cents, in stamps or coin.

Address C. L. DERBY, Actuary C. A. A., 548 Broadway, New York.

N. B.—Subscriptions received received and forwarded by

FRANK W. MILLER,
Agent for Portsmouth and vicinity,
Where specimen Engravings and Art Journal can be seen.

Portsmouth, Nov. 23, 1860.

Dr. S. Swett's Vegetable Medicines.

The saving efficacy of these truly valuable medicines is daily witnessed by thousands of the first classes of society, many of whom are physicians of great success. The following are among his most popular preparations, viz:

His Panacea is unrivalled for the cure of Cancers, Scrofula, Salt Rheum, Erysipelas, Canker in the mouth or throat, Sore or inflamed eyes, and all impurities or humors of the blood. Price $1.00.

C. E. MYERS. C. E. SIMPSON.

LYMAN'S
Improved Patent Metallic Soles.
PATENTED JUNE 7, 1859.

The nature of this invention consists of a metallic sole for Boots and Shoes, which has been tested and operates admirably. No dampness penetrates through to the inside sole. This is the only device that will operate well between two soles, and is made so thin as not to interfere with the most delicately finished work. The necessity of such a device to fully accomplish the much desired object, and the direful effects arising from damp feet, are too well understood to require any comment.

Boot and shoe manufacturers and dealers in Rockingham County furnished with the soles, with right to use, at No. 24 Market Street, Portsmouth, N. H.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, DECEMBER 6, 1860.

THE PRESIDENT'S MESSAGE.

This document commences with a brief statement of our national prosperity, and then asks:

Why is it, then, that discontent now so extensively prevails, and the Union of the States, which is the source of all these blessings, is threatened with destruction?

To this Uncle Toby answers, because the slave power, which has ruled so long, has just received a powerful check, and so he comes down in great wrath, because he thinks his time is short. But Mr. Buchanan says:

The long continued and intemperate interference of the Northern people with the question of slavery in the Southern States has at length produced its natural effects.

To this, Uncle T. replies that the civilized and christian world have interfered and will *continue* to interfere with the question of slavery in the Southern States and everywhere else! whether United States or Divided States;—and this, neither presidents, nor congresses, nor slave States can prevent. The moral sense of mankind is against them.

But if the president means that any Northern *State*, by its government has attempted to interfere with Slavery in any Southern State, he will mislead every ignorant reader who believes him.

The president says:

How easy would it be for the American people to settle the slavery question forever, and to restore peace and harmony to this distracted country!

They, and they alone, can do it. All that is necessary to accomplish the object, and *all* for which the slave States have ever contended, is to be let alone, and permitted to manage their domestic institutions in their own way.

Is it all? Not quite. They have claimed that they could carry slavery into all the territories, and a miserably subservient president has said in echo to that claim, that Kansas is as much a Slave State as Carolina. They have claimed and contended that we must not only tamely see the negro stealer kidnap his victim in New England,—but that we must help him also in his work. New England with an unbroken front says No: and the slave power gnashes its teeth.

The president proceeds to say, at some length, that—

The mere election of any man to office is not just cause for a dissolution of the Union. The antecedents of the President elect are calculated to excite fears in South Carolina; but is the question of contingent danger sufficient to justify the destruction of this Government? He reviews the acts of the different Northern States, in the passage of personal liberty bills, and pronounces them unconstitutional. He says that it should not be presumed in advance that the President elect will fail to enforce the Fugitive Slave Law, as this would be unjust and contrary to Christian charity.—Let us wait for the overt act.

He then declares against the right of secession, and says that if it were admitted, the Union would be broken into fragments in less than two weeks. He quotes the language of Jackson and Madison to show that the right of secession is altogether founded on an inference not in the Constitution. The Union was designed to be perpetual, and he quotes the Constitution in support of this view. The framers of the Constitution never intended to plant in its bosom the seeds of its own dissolution; they were not guilty of the absurdity of providing for its own dissolution. The right of resistance against tyranny and oppression, however, cannot be denied. This right is asserted in the Declaration of independence, but secession is neither more nor less than revolution.

He speaks of the affairs of the State of South Carolina. He does not apprehend that an attempt will be made to seize the forts, but if in this supposition he is mistaken, the officers have orders to act strictly on the defensive. Let the responsibility rest on the heads of those who provoke the contest. He invokes his countrymen to pause before attempting to destroy the Union which has conferred so many benefits. He argues that Congress can do much to restore peace, by proposing and recommending an amendment to the Constitution for remedying existing evils. The course he recommends is to have an explanatory clause or amendment, recognizing, first, the right of property in slaves in States where slavery now or may hereafter exist. Second, the duty of protecting such rights in all the common territory, until the latter are admitted as States into the Union. Third, a like recognition of the right of the master to recover a fugitive slave. This proposed remedy should at least be tried before resorting to revolution.

In the present temper of the country and the world, it is not probable that any *new* guaranties of slavery could be woven into our national constitution. Congress may possibly propose such a thing, but even that is hardly probable.

The President, in the course of his remarks on Carolina, mentions the resignation of the District Judge, Marshal and Attorney, and very properly concludes that he can do nothing about it, without an act of Congress. He then says:

The same insuperable obstacles do not lie in the way of executing the laws for the collection of the Customs. The revenue still continues to be collected, as heretofore, at the Custom House in Charleston, and should the collector unfortunately resign, a successor may be appointed to perform this duty.

The President recommends imposing *specific* duties on imports, in place of our present clumsy *ad valorem* tariff. He also urges the passage of a law requiring an early and uniform time for choosing Representatives to Congress: and recommends an appropriation to relieve the Kansas sufferers.

Our foreign relations are represented as generally peaceful and pleasant.

CURIOSITIES OF THE CENSUS.—The census taker in Cincinnati found one family consisting of 8 boys, all born in July, the difference in their ages two years. None of them had ever been sick or had taken a particle of medicine. A woman 91 years old, who washes for a living, born in a hunter's camp, the mother of 24 children. An old silversmith, 87 years old, who still works at his trade. He also found a negro woman, a native of Porto Rico, 104 years old, who was taken to Maryland before the revolution.

ILLINOIS.—Col. Foster, the head of the Land Department of the Illinois Central Railroad Company, estimates the wheat crop of Illinois this year, at not less than twenty-five millions of bushels. At a low estimate, the corn crop of Illinois will amount to one hundred and ten millions of bushels, worth at least twenty-five millions of dollars to the producers; being of wheat and corn more than ten times the quantity produced by the whole of New England. The value of live stock is estimated at one hundred millions of dollars.

HOLD HIM!—The Atlanta Confederacy, a Douglas paper in Georgia, speaks as follows of the course to be pursued by the South in the event of Lincoln's election:

What will the South do Abraham Lincoln is elected President? We answer this interrogatory by simply stating that the South *will never permit* Abraham Lincoln to be inaugurated President of the United Statxs. This is a settled, sealed fact. Let the consequences be what they may—whether the Potomac be crimsoned in human gore, and Pennsylvania Avenue is paved ten fathoms in depth with mangled bodies; or whether the last vestige of liberty is swept from the face of the American continent, the South will never submit to the humiliation of the inauguration of Abraham Lincoln.

"Mercy on us! what a bloody-minded fellow!"

A REPLY.—While Mr. Douglas was speaking at Mobile, Ala., a secessionist put the question to him whether, if Lincoln should tender him an office, he would accept it. The questioner was satisfied with the following reply:

Mr. Douglas—I have only to say that I cannot believe that any man who is called a gentleman, would, under any circumstances, put such questions to me. (Immense applause.) There is no language with which I can express my scorn and contempt for the wretch who would intimate that in any contingency I would take an office under Lincoln. (Applause.) The man who would propound such a question to me would sell himself in an instant to Lincoln or any other man who would offer him his price. (Great applause.)

☞ Such is the crowded state or the Paris thoroughfares, that during the past year five thousand persons have been wounded and seven hundred killed, by the vehicles of all kinds which fill the streets and render the crossings of the latter almost impossible to pedestrians. The creation of underground railways and of crossing bridges for foot passengers is proposed, and will probably be decided upon.

SUDDEN DEATH.—On Thanksgiving day, Miss Abigail Stone of Cambridgeport dined with her brother, Peter R. L. Stone, and the evening left to return home, in apparent health. Upon reaching the door of her house on River street, she fell upon the steps, and died immediately after being conveyed within. Death is supposed to have resulted from disease of the heart. Deceased was 61 years of age.

☞ Two great boys, or young men, beat each other black and blue, near Wells, Me. on Tuesday; they came over a hundred miles for the purpose, attended by a large number of sympathizing friends. Particulars not worth mentioning, except that one got beat a little more than the other.

☞ A terrible assault, with intent to murder, signalized the Thanksgiving anniversary in Northampton. A young man, son of Mr. Wells of Nonotuck House hotel, while excited by liquor, assailed Mr. Clark, a livery stable keeper near by, first knocking him down with the blow upon the head with a brass faucet, and then jumping upon him with a dirk, and his victim was rescued.

☞ Somebody says, "Florida will go out."—Well, says Uncle Toby, it would have been far better for the country, if she had never come in;—but now that she has cost so many millions of money, it may possibly take two to make that bargain about how she goes out.

—OF—

Neil Ward was burnt to death at a fire in Portland, Sunday night. He leaves a family.

CONGRESS.

TUESDAY, Dec. 4.

SENATE.—The message was read by Mr. Glosbrenner, the President's private Secretary.

After the reading of the message, Mr. Clingman of North Carolina moved that it be printed. He thought it fell short in investigating the causes of the present crisis. The President elect was known to be a dangerous man, and his party would eventually control the Government, the Supreme Court included. He did not think the southern States had acted precipitately. In his judgment a number of States would secede within sixty days. In South Carolina the submission party was small. The wisest thing Congress could do is to divide the public property as fairly as possible, after paying the public debt.

Mr. Crittenden replied. He hoped the example of the gentleman would not be followed, or we had better not have come here at all. The Union was worthy of great sacrifices and concessions, and he looked forward to disunion with fear, dismay and trembling. They must search for means of reconciliation and harmony. He hoped there would be no angry debates. North Carolina had always carried the olive branch of peace.

Mr. Clingman approved the desire to preserve the Union, but when the Union ceases to protect North Carolina, she will bid it good by.

The usual copies were ordered to be printed. Adj.

HOUSE.—The annual estimates of the Secretary of the Treasury were referred to the Committee on Ways and Means.

The message was read by Mr. Forney, Clerk of the House.

After the reading of the message, Mr. Sherman moved that it be referred to the Committee of the Whole, and that the printing of 20,000 copies of the same be referred to the Com. on Printing.

Mr. Boteler offered an amendment that so much of the message as relates to the peculiar condition of the country be referred to a committee of one from each State, to report at any time.

Mr. McClernand offered an amendment that so much of the message as relates to the grievances between slaveholding States, and the proposal by Congress of amendments to the Constitution for ratification by the several States, and the question of State secession, be referred to a committe of one from each State to be appointed by the Speaker, such committee to report by bill or amendments to the Constitution upon each subject, particularly whether legislation or amendment to the Constitution is necessary to give prompt, full and certain effect to the article in the Constitution concerning fugitives from slavery.

Mr. Boteler declined Mr. McClernand's amendment.

Mr. Sherman proposed to Mr. Boteler that the committee should consist of fifteen in all instead of one from each State.

Cries—Oh, no!

Mr. Bocock raised a point of order with reference to Mr. Boteler's amendment, that the committee could not report at any time without a suspension of the rules.

The Speaker decided in favor of Mr. Bocock, but the latter withdrew his objection, and Messrs. Curry and Burnett renewed it.

Mr. Morris of Illinois offered an amendment, which was read for information, that we are unalterably attached to the Union, and recognize in it the primary cause of our present greatness and prosperity, and that as yet having seen nothing either in the election of Mr. Lincoln, or any other sourcee to justify its dissolution, we pledge our sacred honor to maintain it.

Objected to.

After some suggestions the question was taken on Mr. Boteler's amendment.

Mr. Singleton of Mississippi declined voting, his State having called a Convention to consider the matter.

Mr. Jones of Georgia declined voting for a similar reason; also Mr. Hawkins of Florida.

Mr. Morris of Illinois raised a point of order that while a question was pending it was out of order to open a debate.

Messrs. Clopton of Alabama and Gartrell of Georgia also declined voting.

Mr. Curry of Alabama attempted to address the House, but was ruled out of order.

Mr. Miles of South Carolina said his State was out of the Union except by mere form, therefore her delegation took no interest in this question.

This remark was received with good humor.

Mr. Pugh of Alabama also declined voting.

Mr. Boteler's amendment was adopted—yeas 145, nays 38.

The House then agreed to Mr. Sherman's motion with Mr. Boteler's amendment thereto.

Mr. Morris of Illinois endeavored to introduce his resolution, but it was objected to, and the House adjourned.

☞ The funeral of Sir Charles Napier took place Nov. 12, at Catherington, near Merchistounhall, Hants. Beyond the fact of the deceased being borne to the grave by eight seamen, who had served under his command during the greater part of his professional career, the whole proceedings were of a private and unostentatious character.

☞ Catherine Connor, a girl fifteen years old, was sent to the Penitentiary at Syracuse for six months on Saturday, for stealing children's books from the ante-rooms of public schools in that city. she had filched over one hundred and fifty of the articles.

☞ A proclamation in the Halifax Gazette recommends the observance of Thursday, the 6th day of December, as a day of Thanksgiving throughout Nova Scotia, for the especial favors of Providence during the present year.

BALTIMORE, Dec. 4.—The Putnam Phalanx arrived here to-day. At the military dinner one of the officers, in response to the Mayor, said that "we should meet secession at the point of the bayonet," which caused much ill-feeling.

3 MERCANTILE LYCEUM.

The Third Lecture of the Fifth Course before the Portsmouth Mercantile Library Association, will be given AT THE TEMPLE,

COKE FOR SALE,

At the PORTSMOUTH GAS WORKS, at 20 cts. per barrel, cash on delivery, during the month of December. J. TRUNDY, Agent.

BUT ONE WEEK.

DR. B. C. PERRY,

THE CELEBRATED DERMATOLOGIST,

In accordance with the repeated solicitations he has received from some of the first citizens of Portsmouth during his stay in Portland, having closed his office in Portland after a successful practice of five months, has concluded to remain one week in PORTSMOUTH—when all who are suffering from

Loss of Hair, Premature Blanching, or any Disease of the Scalp,

can consult him.

DR. PERRY is prepared to treat successfully the following diseases, all of which are productive of a loss of hair.

Debilitation of the External Skin, Suppressed Secretion, Irritation of the Scalp, Dandruff or Thickened Secretion, Inflammation of the Sensitive Skin, Matterated Secretion, Hair Eater, Distended or Swollen Roots, and Premature Blanching.

This is the only method based upon Physiological principles which has ever been presented to the public for the restoration of the hair.

Dr. Perry's Theory of treating Diseased Scalps and Restoring the Hair.—There are eighteen diseases of the head and scalp, that cause a loss of of hair, and in some cases premature blanching, each requiring in its treatment different remedies. Where loss of hair has resulted from any of those diseases, the first thing to be done is to remove the disease by a proper course of treatment, restore the scalp to its normal condition, keep the pores open so the secretion can pass off, and in every follicle that is open, new strands of hair will make their appearance

The philosopy of premature blanching is this: Iron and Oxygen are the principle constituents of Dark hair, Lime and Magnesia of Light hair. When the suppressed secretion between the skins contains an excess of Lime, it is taken up by the strands, causing the hair to turn white; by opening the pores the accumulation of Lime passes off with the secretions, the natural components of the hair resume their ascendancy, and the hair assumes its natural color.

Because persons have tried various preparations for the hair, and have been deceived by them, and in some cases their difficulty made worse by their use, they should not be discouraged. The one preparation system for any class of diseases, must necessarily be a failure. No one compound can be available for a dozen or more diseases; it may remove some difficulties—in other cases useless, in some positively injurious.

Dr. Perry's method is in accordance with the law of cause and effect. He makes a personal examination, ascertains what disease of the scalp has or is producing a loss of hair or premature whitening, prescribes such remedies, according to its nature and requirements, as will remove the disease. Hence his great success in treating capilliary diseases.

ALL CONSULTATIONS FREE.

Dr. Perry is now ready to receive visitors at

EXCHANGE HALL,
Exchange Buildings, same entrance with Chronicle Office.
Portsmouth, Dec. 3, 1860.

Rheumatism in Its Worst Forms
CAN BE RELIEVED!

Portsmouth, Dec. 6, 1860.

Special Notices.

Catarrh is the most difficult of any of the Diseases of the Breathing Organs to relieve or to cure. The Rev. Joshua Leavitt, editor of the Independent of New York, who had the Catarrh for more than twenty years, has been cured by using Dr. J. R. Stafford's Olive Tar and Iron and Sulphur Powders, which are advertised in this paper. His testimonial is published in a pamphlet among others equally prominent who have been cured of Bronchial Throats and Lung difficulties, which will be sent *free by mail.*

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to taste*, the active principle of the herbs being combined with sugar in the neat confectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists.

nov28 dawâm

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affection, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail to moderate excesses and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, send for a pamphlet to the Agent. One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail. nov28 dawâm

Sold by W. R. PRESTON and all druggists.

WISTAR'S BALSAM WILD CHERRY

Coughs, Colds, Bronchitis, Asthma, Croup, Whooping Cough, Quinsy, and the numerous as well as dangerous diseases of the *Throat, Chest* and *Lungs*, prevail, in our changeable climate, at all seasons of the year; few are fortunate enough to escape their baneful influence. How important, then, to have at hand a certain antidote to all these complaints. Experience proves that this existe in *Wistar's Balsam* to an extent not found in any other remedy; however severe the suffering, the application of this soothing, healing and wonderful Balsam at once vanquishes the disease, and restores the sufferer to wonted health.

From a Respectable Druggist.

PORTSMOUTH, Aug. 3, 1860.

Messrs. S. W. FOWLE & CO., Boston,—

Gents:—Please send me a fresh supply of WISTAR'S BALSAM OF WILD CHERRY. We are selling large quantities of this long celebrated remedy for *Coughs and Colds*, and it bids fair to outlive most of the so-called specifics which now in vogue. We can confidently recommend it as a remedy for what it is intended. Very truly yours,

NATHAN P. THACHER.

Mr. D. H. TEAGUE, of Turner Village, Writes the proprietors of this great remedy, as follows:

TURNER VILLAGE, ME., July 31, 1860.

Messrs. SETH W. FOWLE & CO., Bost.....—

Gents:—I do not hesitate to recommend DR. WISTAR'S BALSAM OF WILD CHERRY for *coughs* and *pulmonary affections*, having used it in my family for many years with great satisfaction; indeed it has done more good than all the other remedies I have tried, and their name is legion. If all the patent medicines in the market possessed but a portion of the merit of this excellent Balsam, there would be no occasion to condemn them as humbugs.

The medicine is also used by many of my friends and acquaintances in this town, and they have found it invaluable; and I hope that others who suffer may give it a fair trial. Very respectfully,

D. H. TEAGUE.

Prepared by SETH W. FOWLE & CO., Boston;

SOLD BY

PRESTON, KIMBALL, HUTCHINGS, J. H. THACHER, N. P. THACHER, Portsmouth; JAMES P. PACKARD, Greenland; S. BLANSON, Jr., New Market; PORTER & TRING and WM. B. SANFORD, Exeter; J. W. GREEN, Hampton Falls; and by dealers every where. e25 3w

KINGSTON, March 10, 1841.—"This may certify that my son has had a humor which made its appearance when he was but a few days old; and it grew worse, causing large swellings and running sores. He has been cured by the use of Dr. Swett's Panacea and Humor Wash."

T. CURRIER.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, PORTSMOUTH, N. H., No. 1 School St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and others of his popular remedies, will be promptly attended to.

A CLEAN FACE

Local.

DR. PERRY.—Many prematurely gray or partially bald gentlemen and ladies in this city have been eagerly awaiting the arrival of Dr. B. C. Perry, the celebrated Dermatologist or Hair Doctor. Consequently we take pleasure in stating that the Doctor is in town, after some delay in receiving his baggage; his office in Exchange Hall, on the same floor with the Chronicle Counting Room.

He is the only man that we have ever heard of, making a speciality of diseases of the Hair and Scalp; and has received great patronage and high commendation from the citizens of Portland during his five months' stay there. His stay in Portsmouth will be necessarily limited, as he intends to open his office in Boston by the fifteenth of this month.

Respecting his ability to treat capiliary difficulties, he offers the most satisfactory testimonials as to his success in curing diseased scalps, restoring lost hair, and warding off premature blanching; and we would advise those of our citizens who require treatment for loss of hair, to call and see the Doctor, and judge for themselves.

☞ The lecture of Wendell Phillips before the Mercantile Lyceum, on Tuesday evening, was an eloquent tribute to the memory and fame of the hero and patriot of St. Domingo, Toussaint L'Ouverture, who from a slave became a general, a lawgiver, a benefactor, and finally a martyr to the cruelty and tyranny of Napoleon Bonaparte.

The lecturer was fully up to his usual high standard of perspicuous and forcible oratory; he was heard with strict attention by all, and with approbation by many.

☞ The "Sale" at the Court Street Chapel, will be continued this (Thursday) afternoon, from 2 to 5 o'clock, only.

BLOOD SPILT FOR SECESSION.—The Cadets of the Georgia Millitary Institute, whilst firing a salute at Montgomery, Alabama, participating in the secession excitement, had two premature explosions of a cannon, whilst in the act of loading. At the first explosion, Cadet D. K. Love, of Cambell county, cut off his little finger, drove a portion of the wadding entirely through his forearm, between the bones, and another portion into the fleshy part above the elbow. Some half hour afterwards, the Cadets returned to their exercise, and in firing the same gun an exactly similar explosion occurred, by which Cadet Henry G. Osborne of Richmond county, a grandson of Mrs. Dunning, of Savannah, had the flesh and tendons on the inside of his forearm dreadfully lacerated.

Sterling exchange having again become quite unsaleable at New Orleans, business in cotton is almost entirely suspended.—Prices have declined and become quite nominal, and this, together with embarrassments among the factors, has checked the movement of cotton to market.

The last news from Europe reports very heavy cotton markets there, the advance in the bank rate to 6 per cent. having checked buying. The Manchester spinners are well stocked at present, and will be able to hold aloof during the period of depression.

A WOMAN BURNT TO DEATH.—The Lafayette (Indiana) Courier says, Mrs. Catharine Gray, a widow lady, eighty years of age residing in the southern part of the town, was burned to death under circumstances of a peculiarly distressing character. On Thursday evening she invited a little boy in the neighborhood to keep her company for the night, and, after tucking him carefully under the covers, kneeled down at the bedside to say her prayers.—While in this position, her dress took fire from the candle, and in an instant she was enveloped in flames. The fire communicated to the curtains of the bed, and intent upon the preservation of the child and forgetful of herself, she fought the flames until her hands were burnt to a blister, and succeeded in dragging the little fellow into the middle of the room. The affrighted boy broke from her embrace and ran to the nearest neighbors. The alarm was promptly given, but before aid could be procured, the poor woman had been burnt past recovery.

MRS. PARTINGTON ON MAYORALTY.—"As for their putting a man up for the morality," said Mrs. Partington, with reflection and benignity beaming from her spectacles, "I am glad they are going to do it, for its no use in hiding the fact that there is wickedness in high places, when the very children on the tops of the mortal houses, swear in a manner to make one's blood stand on end to hear 'em. I am glad they are looking after the morality." She subsided, like a spent wave on a mill pond, and turned her attention to her Thanksgiving pies, just in season to extricate the big spoon from Ike, who was coaxing lion to taste the meat for the mince pies.—*Bos. Sat. Eve. Gaz.*

NEW YORK, Dec. 4.—Steamer R. R. Cuyler brought sixty passengers from Savannah, sent back by the authorities of that city.

Two men and six horses were drowned in Newtown Creek this morning, by the bridge falling under the weight of a marble monument which was being hauled over it.

NEW ORLEANS, Dec. 4.—Mexican dates of the 1st state that the Liberals were investing the capital, and would probably take it. A proclamation for a new President has been issued.

☞ The Pope has sent an autograph letter to Count Cavour, pointing out to him the fact that an active Protestant propagandism is going on in Naples, and requesting him to check it; a request to which Cavour is not at all inclined to pay any heed.

Thomas Wallace's cow, in North Norwich, has had nine calves in fourteen months—four at one litter and five at another. She must have had an instinctive notion that the cattle disease was prevalent, and some one must make up for the loss.

☞ In California women have a right to demand that their sewing machines should be exempt from seizure, on the same principle that secures to farmers and mechanics their implements of industry.

The effect of climate on the human system is shown in a striking manner by the inhabitants of Australia, who in the course of two or three generations lose the corpulance characteristic of Englishmen, and become a tall, gaunt, raw-boned race, like the inhabitants of our southern States.

☞ The official vote of Rhode Island is: Lincoln, 12,024; Douglas, 7536; scattering, 24.

One of the 'oldest inhabitants,' with which the country abounds, assures an exchange the "approaching Winter, from the scarcity of beech and hickory nuts, will be a mild and open one."

Snow is one foot deep in Montreal, and sleighing is excellent.

NOTICE—TO NEW SUBSCRIBERS.

All persons who may now pay $4 for the Daily Chronicle, or $1 for the Weekly Chronicle, for the year 1861,—will be furnished with the paper without charge, from this time to Jan. 1. tf

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

Bread, Biscuit, Cakes and Puddings, going through the process of baking, change all the substance of Herrick Allen's Gold Medal Saleratus into carbonic acid gas, which then passes away, so that there is not a particle of it remaining in the food in which it is used, thereby making it perfectly wholesome and healthy, and peculiarly adapted to weak stomachs and dyspeptic persons. Grocers and druggists sell it.

Found at last, a remedy that not only relieves, but cures consumption and its numerous satellites, which revolve around it in the shape of coughs, colds, influenza, bronchitis, &c. This remedy is *Dr. Wistar's Balsam of Wild Cherry.*

OLD SOUTH CHURCH.

"If the Lord will," meetings for worship and religious reading will be held at the "OLD SOUTH" MEETING HOUSE on SUNDAYS, at the regular hours.

The chief object of these meetings is to attract the attention and interest of persons not connected with any existing religious organization, and to excite and strengthen the feeling of the important bearing of these things on individual and social welfare.

It is designed that these operations shall embody the plan of a Free Church; at the same time giving an opportunity to all such persons who would *prefer* to contribute towards its expenses and for its permanent establishment, to do so.

Also it is not proposed to call personally for any outside aid—but if there are persons who would like to favor the enterprise, the first necessary application of a few (and but a few) dollars, would be to set the glass and slightly improve the outside of the building, thus preventing it from being any longer a disgrace to the city, and the Parish between whom and it are connected so many venerable associations.

In regard to the style of the services, the present method of most Congregational Churches will be varied by the introduction of the reading of the Psalms in alternate verses by the congregation—and for the present, in the absence of any regular preacher, to use the best published sermons.

The first one used will be the first great Gospel Sermon ever preached, which was from the mouth of our Lord Jesus Christ—"the Sermon on the Mount." A. J. PENHALLOW,
in behalf of the cause.

N. B.—It is requested that all who can do so conveniently, should bring Bibles and Hymn Books. If singing is bad, it will be by depending on ourselves.

Persons who would be subject, from the condition of the building, to cold and sickness, had better not defer attendance for one or two Sabbaths, until some better arrangements can be made. dec4 daw 1w*

J. F. SHORES, JR., No. 1 CONGRESS BLOCK, has just opened a large variety, comprising *seventy* subjects, of

Ambrotype Copies of Fine Engravings.

These copies are taken from the best impressions, mostly early proofs, and are put up in a neat and substantial manner.

The quality and tone of the copies have been greatly improved, and they are now placed before the public with confidence that their merit will insure a hearty welcome for them.

My friends and the public are invited to "drop in" and examine them, and also the fine lot of *Stereoscopic Pictures* now on hand.

Just the thing for a Christmas or New Year's Present.

ALMANACS & REGISTERS FOR 1861.

J. F. SHORES, Jr., No. 1 Congress Block, has lately received—

The Old Farmer's Almanac for 1861. By R. B. Thomas.
Farmer's Almanac for 1861. By Dudley Leavitt.
The Annual Register of Rural Affairs for 1861. By J. J. Thomas.
The Family Christian Almanac for 1861.
The New Hampshire Register for 1861. By G. Parker Lyon.

DIARIES FOR 1861.

J. F. SHORES, Jr., No. 1 Congress Block, has just received a full supply of DIARIES for 1861, comprising 20 patterns, in various styles of binding, and printed with 3, 2, 1 day to a page.—Price from 17 cts. to $1.25 each.

Fresh Arrival Mediterranean Produce.

25 boxes Layer and Bunch RAISINS.
25 half boxes " " "
25 quarter " " "
25 boxes Valencia Raisins, nice article for cooking.
50 lbs. Preserved CITRON. [ing.
200 lbs. CURRANTS. 500 lbs. DATES.
10 boxes LEMONS.

Fresh Spices, Whole and Ground.

Cloves, Cassia, Mace, Ginger, Allspice & Nutmegs.

ANOTHER NEW STOVE

THE MODEL COOK

FOR WOOD OR COAL,

MADE BY

THE BARSTOW STOVE COMPANY

Of Providence, R. I.

The novel—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking giving an oven nearly 3 ft. long! or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven, with a tin roaster in front of the fire, are obvious, viz:

1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is the most durable, tasteful and useful.

2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking oven.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires; or it can be used for a hot closet when not required for baking or roasting.

5th. By this extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time the stove occupies no more room on the floor.

John Trundy, Esq., one of our most practical and scientific mechanics, who has had large experience in the construction of stove patterns in years past, and has for many years been using one of the Stewart Stoves, has purchased one of the MODEL COOKS, and after a fair trial pronounces it far superior to the Stewart or any stove he has ever seen, for economy, convenience and dispatch. We might also refer to several other parties who are using the stove, and who award it the very highest praise.

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be *the* stove for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is wanted.

We have nought to say against any other stove, believing that a man can sell his own goods without depreciating his neighbor's; but this we do say, that we honestly believe this is the *best stove that can be found in the world;* and what is more, we think others will agree with us after a trial of it. We invite any one to examine the stove, whether they wish to purchase or not.

For sale, with a great variety of

Furnaces, Ranges, Cooking, Office and Parlor Stoves; Coal Hods, Sifters, Funnel, Stove-Repairing Pieces, Parlor Grates, Etc.

Cook Stoves.

Autocrat of the Kitchen.—35,000 *in use*

THE ORIGINAL P. P. STEWART,

FUEL-SAVING AND COMFORT-PRODUCING LARGE OVEN, SUMMER AND WINTER

AIR-TIGHT COOKING STOVE,

FOR WOOD & ANTHRACITE OF BITUMINOUS COAL

Improved in 1859 with New and Extra Large Flues, and by the addition of the Celebrated Patent Double Sheet Bottom Flue.

Attention is invited to the following Points of Superiority:

DURABILITY.—*Lasting*, with proper care, at least 20 years. Stoves are now in use that were set up in 1838.

CAPACITY.—Baking, broiling, boiling, roasting and all other culinary operations performed *at the same time*. A barrel of flour baked into bread with a single fire.

ECONOMY.—Saving the cost of the stove in 2 or 3 years in the item of fuel.

VENTILATION OF OVEN.—In the Stewart Stove alone the front doors open directly into the oven (protected by letters patent,) securing a direct draft through the top of the oven, by means of perforated holes in the doors and back flues. It will be borne in mind, that, as the heated air always rises, this method of ventilation is the only one of any value whatever.

ENTIRE CONTROL OF HEAT.—The heat generated by the stove, may be held therein and used, or thrown into the room, at pleasure.

THE DOUBLE SHEET BOTTOM FLUE.—By which a compressing and inverting action of heat is obtained, and the oven more evenly and efficiently heated than by any other known invention.

BROILING.—Performed *on the top*, and without the possibility of smoke entering the room.

HOT WATER RESERVOIR AND WARMING CLOSET.—Both useful and convenient, supplied by the waste heat and without extra fuel.

WATER BACK.—An arrangement for supplying hot water for the bath room equal to any range.

Beware of the numerous worthless imitations now in market. See that the name of P. P. Stewart is on each stove. No other is genuine.

THE FUGITIVE SLAVE IN CANADA.—*Toronto, C. W., Dec. 3.*—It is reported that the Attorney General favors the surrendering of the fugitive slave Jones to the American authorities. The Globe says if this is done fugitive slaves will not be safe in Canada.

☞ The Mechanical Bakery, an experiment of much public interest, goes into operation in Boston, this week.

The population of Kentucky, as reported by the United States Marshall, is 1,156,000, being an increase of about 17 per cent, in the last ten years.

MOTHERS

It must be obvious not only to you, but to every attentive and intelligent person, that the first discomforts, pains and sufferings arise from a disordered condition of their bowels, and in this connection, we present to your notice, for the alleviation and cure of these diseases, a remedy known by

Dr. EATON'S INFANTILE CORDIAL,

Prepared from a formula used by Dr. Eaton with remarkable success during several years' practice. We know it to be a most reliable and efficacious remedy for infantile complaints, and cheerfully recommend it with confidence to the superiority over every other preparation of the kind. It is particularly recommended,

FOR CHILDREN TEETHING,

And at this period of infantile life, when your anxious hearts are pained by witnessing the sufferings of your little ones, it will be found invaluable in *Soothing the Pain, Allaying Irritation, Reducing Inflammation and Relieving all Pain. FOR DISEASES ATTENDING TEETHING, such as Diarrhœa, Dysentery, Griping in the Bowels, Vomiting in the Stomach, Wind, Colic, and Cold in the Head*, we confidently offer this as a certain relief and cure in every case when given in time. It will invariably regulate the stomach and bowels, and its importance in this respect can hardly be estimated.

IN CONVULSIONS,

From which more infants have died than from any other disease, the little sufferer is relieved *instantaneously*, as if by magic; and in this great complaint alone, its intrinsic value is proved that it has been recommended from one family to another, until the name of DR. EATON'S INFANTILE CORDIAL has become familiar as a household word." We now ask your attention to a subject of vital interest to yourself, as well as to your suffering child. DR. EATON'S INFANTILE CORDIAL contains

NO MORPHINE OR OPIATE,

Of any kind, or of whatever nature, a fact which we are fully warranted in saying cannot be said of any other preparation for infantile diseases, at this time before the public. We feel bound to inform the mothers of our country, Mothers are becoming convinced of this truth, and of the sad and blighting consequences which are certain to result from the use of narcotics disguised in the form of quieting remedies; their continued administration being invariably followed by stupefaction and constipation of the bowels, and fatal effections of the brain. Here in DR. EATON'S INFANTILE CORDIAL differs from every other remedy.

DOES NOT CONSTIPATE

The Bowels, neither does it act by deadening the sensibilities of your children, but naturally, from its rare medicinal qualities, by removing all pain and cause of disease. We earnestly recommend you, therefore, to lose no time in procuring a bottle, that you may have at hand a remedy which will never fail to relieve your child in time of need. *It is perfectly harmless, and cannot injure the most delicate infant.*

Take none but DR. EATON'S INFANTILE CORDIAL. *This you can rely upon.* Price 25 cts. per bottle.

Prepared only by **CHURCH & DUPONT.**
No. 320 Broadway, New York.
And sold by them, and all respectable Druggists.
Sold to Portsmouth by PRESTON, THACHER, HUTCHINGS and KIMBALL. s6 1y

THE ONLY PREPARATION
Having Proof so Strong and Direct
as to
Expel the Doubts of All.

For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all cases of baldness, to strengthen the weak scalp and brain; but all woo have used it, unite in testifying that it will preserve the hair from being gray, nap from falling to any age, as well as restore.—Read the following:—

Oak Grove, S. C., June 24, 1859.

Prof. O. J. Wood:—Dear:—Your Hair Restorative is rapidly gaining public favor in this section of country. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test.

During the year 1854, I was so unfortunate as to be thrown from my saddy against a rock near the roadside, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. Dread the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally by defeated every prescription advanced.

These and no other circumstances induced me to resort to your worthy "Hair Restorative," which I tried very sparingly at first, fearing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. Dread the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally by defeated every prescription advanced.

I was so unfortunate as to be thrown from my saddy against a rock near the roadside, from which my head received a most terrible blow, causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. Dread the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally by defeated every prescription advanced.

Yours, very respectfully,
M. J. WRIGHT, M. D.

Jeffersonian Office, Phillipi, Va., Dec. 12, 1859.

Professor O. J. Wood:—Dear Sir: I feel it my duty as well as my pleasure, to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, (a lawyer) has been bald for about ten years of youth; so much so, that he was compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and he is very well known in our adjoining counties, many persons can testify to the truth of this statement. I give this to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents.

Yours, &c.,
THOMPSON SURGHNOR.

Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable.

The Restorative is put up in bottles of three sizes viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 60 per cent. more in proportion, and retails for $3 a bottle.

CONCENTRATED LEAVEN,
FOR MAKING
Bread, Tea Cakes
All kinds of Pastry, &c., &c.,
MANUFACTURED BY
EDW. CHAMBERLIN & CO.,
Proprietors of Shawmut Chemical Works,
NO. 33 INDIA STREET, BOSTON.

CONCENTRATED LEAVEN is the result of careful chemical researches. All its ingredients are prepared in the highest state of purity, and compounded with a view to produce bread of a far better quality, and in much less time, than by any other process, and the manufacturers submit it with entire confidence to the judgment of discriminating house keepers, bakers, &c., &c.

Bread of all kinds, made by using CONCENTRATED LEAVEN, is lighter, more palatable and nutritious; has an agreeable, natural taste; is less liable to sour; will retain its moisture longer than by any other process, and the whole preparation for the oven need not exceed ten minutes.

It is valuable because it is not perishable, and may be rendered available in places and at times when yeast is not within reach, or at sea. In all climates, and under all circumstances it may be adopted, thus obviating all difficulty of procuring yeast or other ferment, which is frequently of an inferior quality, rendering the bread more or less unwholesome.

It is also valuable as regards economy, as it has been ascertained that a saving is effected in the flour of not less than 16 per cent. In the common process, much of the saccharine matter is lost by being converted into carbonic acid gas, or spirit, and the waste is incurred solely for the purpose of generating gas to raise the dough. By using CONCENTRATED LEAVEN, this waste is avoided, and the gas obtained in a manner equally efficacious. Fermentation, as has been stated, destroys a portion of the saccharine matter; thus a barrel of flour weighing 196 pounds, which by the common method ordinarily makes about 250 lbs. of bread, will produce 290 lbs., thus effecting the very important saving of 16 per cent. in the quantity of flour. By conformity to the directions on each package, any person capable of ordinary attention may conduct the process, and the result will invariably be highly satisfactory.

CERTIFICATE FROM DR. HAYES.

Assayer to the State of Massachusetts.

"I have analyzed the Concentrated Leaven manufactured by Messrs. Edw. Chamberlin & Co., and find it to be perfectly free from all deleterious substances, and possessing a decided superiority over other preparations of the kind. It is perfectly healthy, and I cordially recommend it to the public as a valuable article for the bread. It produces light bread, without consuming the sugar or any other principle in the flour, perfectly; and the same weight of flour will produce more sweet, palatable bread than can be obtained through the aid of yeast; while for cakes and pastry it is invaluable, as it saves all risk, and much time while pastry cook.

The testimonials made by me confirm the statements of the manufacturers, and prove this compound worthy of public approval and extended use.

A. A. HAYES, M. D., *State Assayer.*
16 Boylston st., Boston, Sept. 25, 1860."

HOW TO USE IT.

We append a few recipes, but it may be used with great advantage in all other kinds of cake, also in fruit puddings and other pastry.

BREAKFAST AND TEA ROLLS.—Two or three teaspoonfuls of Leaven (according to the quality of the flour,) to one quart of flour; mix thoroughly by passing twice or three times through a sieve; rub in a piece of butter of half the size of an egg, and make the paste the paste with cold milk or water, (milk is preferable,) lately sifted enough to permit rolling out. Much kneading should be avoided. Cut into desired form, and place immediately into a hot oven, and bake quickly.

LOAF BREAD.—The same proportions of Leaven and flour sifted together as above; omit the butter, and make the paste stiff enough to hand out into a loaf, and bake immediately in a slow oven.

GRAHAM BREAD.—Three teaspoonfuls of Leaven to one quart of wheat meal, sifted together; add two eggs and about a gill of molasses; make the paste thin with milk, and bake in a slow oven.

BROWN BREAD.—Three teaspoonsful of Leaven in one pint of flour, and one pint of corn meal, all well sifted together; add two eggs and about a gill of molasses; make the paste thin with milk, and bake in a slow oven.

BUCKWHEAT CAKES.—Flour and milk sufficient to make one quart of batter; add one egg, ben three teaspoonsfuls of Leaven; beat to a froth, and stir into the batter.

DUMPLINGS.—Sift together one quart of flour and two teaspoonsfuls of Leaven; rub in a piece of butter half as large as an egg; mix with cold milk or water, and boil ten minutes.

CHAMBER STREET CAKE.—Sift together two large cups of flour and two teaspoonsfuls of Leaven; add one egg, one cup of milk or water, and a half of sugar; mix with cold water or milk to a stiff batter, and spice to suit the taste, and bake immediately.

CINCINNATI SPONGE CAKE.—Two cups of white sugar, beaten with the yolks of six eggs—the whites of six eggs beaten to a froth; then beat all together; add two cups of sifted flour, one cup of water, and three teaspoonfuls of leaven; flavor with two teaspoonsful of essence of lemon, and bake in a quick oven.

MUFFINS.—Sift together one quart of flour and three tea spoonsfuls of Leaven; rub in one teacupful of butter; add a cup and a half of white sugar, and spice to suit the taste; mix stiff enough to roll out, and bake quick.

ELECTION CAKE.—One quart of flour and three teaspoonfuls of Leaven sifted together; add one cup of butter, one pound of raisins, two cups of white sugar, and one teaspoonful of cinnamon; mix with cold milk to a stiff batter, and bake in a slow oven.

CORN CAKE.—One pint each of flour and Indien meal, and three teaspoonsfuls of Leaven, well sifted together: add one gill of molasses and two eggs; mix thin with milk, and bake in a slow oven.

CUP CAKE.—Five cups of flour and three teaspoonsfuls of Leaven, sifted together; add one cup of butter, two of sugar, and two eggs, all well beat together; add milk, and two sugar; fruit and spice to the taste. Bake about half an hour.

OIL JUST RECEIVED.
New Bedford Oil of excellent quality just received by S. CLEAVES & SON.

Dr. Mott's
CHALYBEATE RESTORATIVE
PILLS OF IRON.

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable form. Innoxious in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:

IN DEBILITY, NERVOUS AFFECTIONS, EMACIATION, CONSTIPATION, DIARRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, ACTIVE RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from injudicious treatment, of this tried of this preparative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their families and friends, have suddenly reappeared in the busy world as if returned from protracted travel in a distant land. Some very distinguished cases of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, spinal irritation, and hysteria, accompanied by nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In NERVOUS AFFECTIONS of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting, never over-heating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever becoming drastic or purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency, which forms them.

In the last stage of Consumption, when its cases, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant diarrhœa.

In unchecked DIARRHŒA, even when advanced to DYSENTERY, confirmed, emaciating, and apparently malignant, the effects have been equally positive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which frequently induce MISTAKED CONSUMPTION, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well-known liability to

The attention of females cannot be too confidently invited to this remedy and restorative in the cases peculiarly affecting them.

In RHEUMATISM, both chronic and inflammatory—in the latter, however, more decidedly, it has been invariably well reported, both as allevlating pain and reducing the swellings and inflammation of the joints.

In INTERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative, and in progress of time, if it be generally used in the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects.—It Good appetite and sound digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

—FOR—
FAMILY AND MEDICINAL USE.

This natural product of the most nutritious grain, recommends itself as prime tonic, in a concentrated form the *nutritive* properties of *Wheat*, and has received the highest encomiums from eminent medical authorities, as possessing qualities that are absolutely FATTENING; this *desideratum* renders it invaluable to those who are suffering from *Consumption, Consumptives, Impaired Strength, Lack of Vital Energy*, and all diseases which, in their incipient stages, require only a generous diet, and an invigorating, nourishing stimulant.

Put up in quart bottles, in iron-bound cases of one and two dozen each, and sold by all prominent Druggists, Grocers and Town Agents.

A. M. BININGER & CO.
SOLE PROPRIETORS.
No. 19 Broad Street ..... New York.

For sale in Boston by M. S. BURR & CO., SETH E. PECKER, WEEKS & POTTER, D. GOODNOW & CO., G. C. GOODWIN & CO., REED, CUTLER & CO., T. L. SMITH, S. PIERCE & CO., STEPHEN WEEKS, C. S. DAVIS & CO. s4 Tu Th & Sa

BININGER'S
OLD KENTUCKY
BOURBON
"1849 RESERVE"

The *established popularity* of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky Whiskey.

Being distilled in 1848, and manufactured expressly for use with great care, it can be relied upon as a *strength pure* stimulant, and peculiarly effective for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a carminative agent it has a tendency to *recruite and strengthen*; while age having contributed its genial charm, and enriched it with a delicious flavor and a mellow body, it affords a pleasant incentive to the preservation or recovery of health, through the agreeable medium of a well pleased palate.

Put up in a variety of attractive forms, in ironbound cases of one and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO.
(Established 1778.)
Sole Proprietors, No. 19 Broad St., N. Y.

Dyspepsia Remedy

DR. DARIUS HAM'S
AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance, It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who from the injudicious use of liquors, have become dejected, and their nervous system shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

Dose.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.
One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.
One dose will remove the most distressing pains of Colic, either in the Stomach or Bowels.
A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.
Persons who are troubled with Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

SEMI-BARBAROUS LAWS OF SOUTH CAROLINA.—On the 29th ult., a communication was submitted to the South Carolina Legislature from the Commissioner appointed to codify the criminal laws of the State, in which the Commissioner remarks upon the "semi-barbarous" statutes of South Carolina as follows:—

After reducing the existing enactments to a system, preparatory to their final arrangement, I found them, as a whole, exceedingly meagre and antiquated, quite unworthy the name of a Code. Many entirely obsolete, *and breathing the spirit of a semi-barbarous age, still survive on the statute book.* Offenses now comparatively insignificant are denounced with the severest penalties; while others, having their origin in the present immense commercial development, are unnoticed, and, by their impunity, sap the foundations of social morality. As an instance of the former, you will remember the well known case of Antonio Dew, who, in 1857, was convicted and sentenced to be hanged for picking a pocket, but so utterly irreconcilable was the infliction of such a penalty with the feelings of the age, that the Judge, the Attorney General, the jury and the bar unanimously joined in requesting the interposition of the pardoning power, though there was no doubt of the prisoner's guilt. This statute, it is true, has been repealed, but the existence of a law to a period so recent is an illustration of the incongruity between the ideas of a former age and the existing state of manners. As instances of the latter, it will be sufficient to remind you that such serious offences as the destruction of a will, be it ever so malicious, or a breach of trust, be it ever so fraudulent and disastrous, are not crimes by the laws of South Carolina.

GARDINER'S
Rheumatic and Neuralgia Compound.
A sure cure for Rheumatism and Neuralgia in its worst forms.

The undersigned hereby certify that they have used "Gardiner's Rheumatic and Neuralgia Compound" for the cure of Rheumatism and Neuralgia, and have in every case found immediate and permanent relief. We have full confidence in its healing qualities, and would recommend it to all who are afflicted with those harrassing diseases as one of the safest and best medicines ever offered to the public.

S. HANCOCK, Jr., 20 South Market street, Boston; W. H. ALLEN, Boston; HENRY A. FULLER, 18 South Market street, Boston; SML WALES, Jr., City Hotel, Boston; GEORGE H. PLUMMER, 1 Maverick Square, East Boston; HENRY D. GARDINER, Webster street, East Boston; ABRAM WEBSTER, Webster street, Boston; Capt. CHAS. G. DOLLIVER, East Boston.

The best medicine for the disease I ever saw.—C. A. SMITH, No. 1 Old State House, Boston.

Have been afflicted with Rheumatism in its worst form and was entirely cured by the use of one bottle.—A. W. BRYANT, Matthews' Building, Commercial street, Boston.

Gardner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

After suffering with Rheumatism for twenty years, I was entirely cured by the use of two bottles of Gardiner's Rheumatic and Neuralgia Compound.—NORMAN T. AYERS, 76 Franklin St., Boston.

The Rheumatic and Neuralgia Compound has been taken by hundreds of people for Scrofulous Humors, with great benefit. It may be given to children with perfect safety.

LYMAN'S
Improved Patent Metallic Soles.
PATENTED JUNE 7, 1859.
The nature of this invention consists of a metallic sole for Boots and Shoes, which has been tested and operates admirably. No dampness penetrates through to the inside sole. This is the only device that will operate well between two soles, and is made so as not to interfere with the most delicately finished work. The necessity of such a device to fully accomplish the much desired object, and the direful effects arising from damp feet, are too well understood to require any comment.
Boot and shoe manufacturers and dealers in Rockingham County furnished with the soles, with right to use, at No. 24 Market Street, Portsmouth, N. H. J. C. CARR.

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, DECEMBER 7, 1860.

AN ALARM.—The Boston Courier of Thursday contains this editorial item:

Imagine a parcel of monkeys in a tree, chattering, pelting each other with nuts, and skipping from limb to limb, while a man below is cutting down the tree with an axe—the tree already beginning to tremble to its impending fall—and we have a type and illustration of the recklessness of a large portion of the press and people of Massachusetts at this moment, and their utter ignorance of, or unconcern for, the imminent dangers which menace the country.

A part of the parable is explained by itself, viz.: Massachusetts is the tree, and her people are the monkeys; but who is the man with the axe? Is it Caleb Cushing? or Old Abe, the rail-splitter? or General Quattlebum of South Carolina?

We don't think that all three of them could cut it down if they would. Old Abe certainly would not if he could, for the monkeys have just given him a unanimous vote.

A SERIOUS JOKE.—The Natchez Free Trader having proposed as a punishment to the North, that the payment of northern debts be suspended, and that the indebtedness be paid into the State treasury, upon which the State should issue bonds, payable when hostilities are over, the Natchez Courier rather jokingly remarks:—

The idea of more Mississippi bonds is rather peculiar. She issued two sets, and repudiated them both; she was sued in her own courts upon them, after she had invited suit, and judgment rendered against her, and she has repudiated payment of the judgments; and to crown the whole, we understand, after she employed counsel to defend these suits, she repudiated the counsel fees.

BUYING CUBA.—The Boston Traveller, speaking of Mr. Buchanan's paragraph in the Message, says he "reiterates his suggestion, that we should purchase Cuba, Spain having no more idea of selling that valuable piece of property than England has of selling Wales; and under the existing condition of things, the suggestion is exquisitely ridiculous. If we should buy Cuba on one first of April, would she have the right to secede, less the Moro and other forts of Havana, on the next first of April? We have already paid enough for Louisiana, Florida, and other States that talk of seceding, without making any more such bargains. Before we purchase or conquer more foreign countries, we should like to be assured that we can keep possession of what we may acquire by the expenditure of blood or gold. There ought to be no more blind bargains made, nor buying of territory to be peopled by future enemies of the nation. There has one good thing grown out of the secession movement, and that is, that hereafter our acquisitions will not be used to create communities that shall be hostile to their very creators.—There is something supremely insolent in the conduct of certain States that have favored disunion, after having been brought into existence, and nourished into wealth, by the Union's power."

☞ According to the Report of the Post Master General, hereafter all letters not prepaid are to be sent at once to the dead-letter office. The system of registering valuable letters is pronounced a failure. The Government assumes no responsibility whatever for loss of letters thus registered, and bearing a mark to indicate their valuable character; such letters, says the Postmaster General, rather invite depredations than prevent them. The amount of Fowler's defalcation is said to be $170,947,67. The official bond of Fowler, payment of which is resisted by his bondsmen is denominated a secret compact between these sureties and the principal.

CONCORD, N. H., Dec. 5th.

MEETING OF THE PRESIDENTIAL ELECTORS.—The Presidential Electors for New Hampshire, chosen on the 6th of November last, met on Tuesday, Dec. 4th, in the Council Chamber. The entire College was present, as follows:—John Sullivan, Ebenezer Stevens, David Gillis, Nathaniel Tolles and Daniel Blaisdell; and organized by the choice of Hon. John Sullivan as President of the College, and by the appointment of B. F. Prescott as Secretary. Greenleaf J. Prescott was appointed doorkeeper. On motion of Mr. Gillis, adjourned to Wednesday.

On Wednesday, met according to adjournment, at 10 o'clock. On a motion of Mr. Blaisdell, the Electors proceeded to give the vote for President and Vice President of the United States. Abraham Lincoln and Hannibal Hamlin having all the votes cast, it was declared accordingly.

Edward Carleton of Littleton, was appointed messenger, to take the vote to Washington. On motion of Mr. Blaisdell, a vote of thanks was tendered to Hon. John Sullivan, for the able manner in which he presided over their deliberations. Adjourned *sine die*. G. J. P.

LOUISVILLE, Ky., Dec. 4.—The Lunatic Asylum at Hopkinsville was burnt on Friday. Loss $200,000.

CONGRESS.

WEDNESDAY, Dec. 5.

SENATE.—Mr. Powell moved that the political portion of the message be referred to a special committee.

Mr. Green introduced a resolution that the Committee on the Judiciary be instructed to inquire into the propriety of providing by law for the establishment of an armed police in the border slave States for the efficient execution of the fugitive slave law and also to protect them from invasion. It was made the special order for Monday.

Mr. Hale said that he understood the message to declare in the first place that South Carolina had just cause for seceding, and in the second place that she had no right to secede. The President had failed to look the thing in the face by not pointing out the remedy, and we must look to the ballot box or war to terminate the difficulties. South Carolina considers disunion a settled thing, and is arming. Gentlemen listen to their passions rather than convictions. The coming culmination points to civil war, and we must look the thing straight in the face. The South refuses to submit to the coming administration.

Mr. Brown—You go right and we go left, and vice versa.

Mr. Iverson—The Southern States will disclaim all allegiance. Five States will go out before the 4th of March. It is policy for them to get out of the Union before the Black Republicans can use their power.—The talk about repealing the personal liberty laws will not prevent their going out. They intend to go out peaceably if they can, forcibly if they must. The next twelve months will see the establishment of a prosperous and powerful Southern Confederacy If the North attempts to coerce, war will ensue, and if the Senator from New Hampshire wants it we will give it. We are preparing to fight for our liberties, our rights and our honor. The South were united, and he hoped the North would see the policy of letting them go, and make treaties with them, rather than attempt to coerce them. Both sides would then live in greater friendship. If we are enemies the sooner we separate the better. If war comes we shall be prepared to meet the myrmidons of the abolitionists.

Mr. Davis was in favor of printing the message. So long as the South remains in alliance with the North threats are of no avail.

Mr. Wigfall claimed for the States the constitutional right to act on their own responsibility, and gave notice of his intention to introduce a resolution to ascertain whether an order had gone from the War Department in reference to the Government property in South Carolina. He believed the President would precipitate the measure he intends avoiding.

Mr. Saulsbury of Delaware said that as his State was the first to enter the Union, it would be the last to do any act or countenance any act leading to a separation.—(Applause.) It would be time enough for the Representatives of Delaware to say her course would be when the Union was destroyed.

The report of the Secretary of State was received. Adj.

The galleries were densely crowded, and the Union sentiments uttered during the debate were warmly applauded.

HOUSE.—Mr. Sherman reported a bill making an appropriation for invalid and other pensioners, and a bill for the support of West Point. Referred to the Com. of the Whole.

Mr. Grow's motion to reconsider the vote referring the Homestead bill to the Committee of the Whole was adopted, and the bill was then brought up for immediate action. Mr. Grow explained the bill at some length, and moved the previous question.—The bill was finally passed—132 against 76.

Mr. Colfax unsuccessfully attempted to get his post route bill before the House.

The House then went into Committee of the Whole on the Military Academy Bill.

Mr. Curtis' amendment that the Cadets be not required to study over four years was rejected.

The Pension Bill was then read and with the Military Academy bill was passed.

Various portions of the message were appropriately referred.

☞ The Biddeford Journal gives a glowing account of the "grand Republican demonstration in York" on Wednesday evening, Nov. 21. There was a torch-light procession, of two hundred or more torches, including the Kittery Wide Awakes,—with the South Berwick Band; illuminations of many houses; and a grand collation, of which more than 400 persons partook plentifully. A salute of fifty guns was also fired.

WINTER "came in like a lamb," certainly, this time—and that it *has* come, the merry jingling of the sleigh bells in our streets is the principal evidence. Tuesday night brought us snow enough to make tolerable slipping for light sleighs, and although the ground is frozen but little, the foundation is good, and it may stay—but the weatherwises doubt it.

☞ The beautiful new sleigh just put on our streets, to circulate Bread from Geo. W. Plumer's Bakery, is from the carriage-manufactory of Wm. C. Hatch & Co., of this city; as was also the fine cart which has been running, the past summer, in the same employ.

WASHINGTON, Dec. 5.—The Treasury has suspended payment. Its funds are exhausted, and government officers and employees are unpaid.

The disunionists exult as they predict the ruin of the Government, and the Conservatives and Union men take a gloomy view of the matter.

☞ Number of deaths in Portsmouth in November, eight:

Males four—aged 4 months, 16 mos., 36 years, 52.

Females four—aged 1 year, 12, 22, 24.

POLICE COURT, Dec. 4.—Before Justice Odell—John Campbell was tried for breaking, entering and stealing from the schooner Village Maid, lying in this port, 2 table covers, 1 roll of cotton cloth, 4 lbs. sheet lead, with various other articles; and was ordered to recognize in the sum of $300 to appear at the April term of the S. J. Court, in Exeter. For lack of sureties, he was committed to jail.

He has been out of jail only a few days. He was fined sometime ago, for a drunken assault on a citizen; went to jail for nonpayment; was discharged by the Judges of the S. J. Court; now steals again, and goes to jail for the winter; in the spring probably to the State's prison.

LATE FROM ITALY.—By the steamer Canadian, dates to Nov. 22.

The clergy of the Neapolitan provinces were paying homage to Victor Emanuel.

The Cardinal Archbishop of Naples was about to return to his See.

The rumors of a new Sardinian loan were contradicted.

The Dowager Queen of Naples with the young Princess had arrived in Rome.

It was reported that General Guyon had declared that he would not deliver the material left behind from the Bourbon troops who took refuge in the Roman States, either to Francis Second or to Victor Emanuel. Negotiations were, however, progressing on the subject.

The siege of Gaeta continued. The batteries of Cappucaini and Santa Agota had been placed in a position to reduce the place. The Piedmontese bombarded the suburbs on the 12th. The Neapolitan troops continued to fight, but the defection among the staff officers was increasing.

The further resistance of the Bourbon troops was paralyzed by the insubordination of the troops and the confusion which prevailed. It was believed that the complete evacuation of Gaeta had been resolved on.

The Castle of Ritterstein, near Munich, was prepared for the reception of Francis Second.

The statement was current that the British Government had intimated to France its intention of recognizing the new Kingdom of Italy, and that Napoleon had signified his willingness, provided it was postponed until the King of Naples had evacuated Gaeta.

Sardinia claims the cannon taken from the 16,000 Neapolitans disarmed in the Papal territory, but a commission composed of French and Sardinian officers had been appointed to settle all questions connected with this matter.

Reactionary movements had taken place. It was stated that five Neapolitan provinces were in a state of siege on account of the movements of the anti-annexationists. The province of Alvarez had risen in insurrection.

LATEST.—Londonderry, Nov. 23.—Dispatches from Naples, Thursday, say that Francis Second burnt a bloodyessel on Wednesday, and that a steamer had arrived from Gaeta for medical assistance.

The Queen mother and children had left for Civita Vecchia.

☞ News from Europe, via Londonderry, Nov. 23.

The Prince of Wales had resumed his studies at Oxford. He was received there with much rejoicing.

There was considerable excitement in London on the 21st. It was caused by a report that the Emperor Napoleon had quietly arrived in England and would reach London that afternoon. The railroad stations were besieged, but it turned out to be a hoax.

Financial affairs underwent an important change on the 21st, in consequence of an arrangement having been consummated by which the Bank of England lends two millions sterling in gold to the Bank of France, on condition that there be as security, deposit of silver to an equal amount. The arrangement caused great buoyancy in the funds, and an advance in consols of 1-4 to 3-8 per cent. The Times city article hopes the arrangement will terminate the prevailing uncertainties in the money market, and lead to an early reduction by the Bank of England of its rate of discount.

The result of the Presidential contest was commented on with satisfaction by the English press.

The Empress Eugenie had arrived in Scotland and was temporarily sojourning in Edinburg preparatory to visiting the Duke of Hamilton.

The Empress Eugenie was expected to return to France by the 10th of December.

The Brazilian war corvette Donna Isabel had been wrecked on the way from Marseilles to Lisbon, and it was reported had gone to pieces. Twenty-three officers and one hundred seamen were lost.

FROM CALIFORNIA.—*St. Joseph, Mo., Dec.* 5.—The Pony Express from San Francisco, Nov. 24, has arrived.

Major Scott of the army died in San Francisco.

Brig G. S. Cabot had capsized at Mendozino. The mate and six of the crew were lost. A boat with 5 men who were going to the rescue was capsized and lost.

Hon. Delazon Smith, late U. S. Senator, died in Portland, Oregon, on the 18th.

Large numbers of Chinese had arrived in Portland who were driven from the mines in the British possessions by the Indians.

The woolen factory at Salem was running day and night manufacturing fabrics which find ready market.

A serious riot occurred at the Victoria Theatre on the 3d ult. The whites undertook to expel a negro from the theatre, when a party of negroes, armed with clubs came to the rescue of the latter. A number of whites were knocked down and kicked. The theatre was set on fire during the melee by the explosion of a lamp. The negroes drove out the whites, but were in turn repulsed. Some of the negroes had firearms. Order was restored by the police after the arrest of the principal rioters. One hundred negroes were engaged in the riot. Another attack on the theatre was planned for the 10th. A large police force would be on hand.

NOTICE—TO NEW SUBSCRIBERS.

All persons who may now pay $4 for the Daily Chronicle, or $1 for the Weekly Chronicle, for the year 1861,—will be furnished with the paper without charge, from this time to Jan. 1st.

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

Bread, Biscuit, Cakes and Puddings, going through the process of baking, change all the substance of Herrick Allen's Gold Medal Saleratus into carbonic acid gas, which then passes away, so that there is not a particle of it remaining in the food in which it is used, thereby making it perfectly wholesome and healthy, and peculiarly adapted to weak stomachs and dyspeptic persons. Grocers and druggists sell it.

Found at last, a remedy that not only relieves, but cures consumption and its numerous satellites, which revolve around it in the shape of coughs, colds, influenza, bronchitis, &c. This remedy is *Dr. Wistar's Balsam of Wild Cherry.*

To the Hon. Judge of Probate for the County of Rockingham.

Respectfully represents David S. Wilson, of Chester, in said County, that William T. Heath, late of Hampstead, and last an inhabitant in said County, died lately deceased intestate, having at the time of his death estate in said County.

That the widow and next of kin have neglected for more than thirty days after the death of the said William T. Heath, and still neglect, to take administration on said estate.

That your petitioner is creditor to said estate, but declines administration thereon, and nominates Francis V. Dow, of Hampstead, as a suitable person for that trust.

Wherefore he prays that administration thereof may be granted to the said Francis V. Dow, accordingly. DAVID S. WILSON.

Dated the twentieth day of September, 1860.

ROCKINGHAM, SS.—Probate Office at Exeter, in said County, December 3d, A. D. 1860.

Upon the foregoing Petition it is *Ordered*, that a hearing be had thereon at a Court of Probate to be holden at Exeter, in said County, on the Wednesday next following the third Tuesday of February next, at ten o'clock A. M.; and that the Petitioner notify all persons concerned or interested therein to appear at said Court, and show cause, if any they have, why the prayer of said petition should not be granted, by causing said petition and this order to be published three weeks successively in the Portsmouth Chronicle, a newspaper printed at Portsmouth, in said County, the last publication whereof to be at least thirty days prior to said Court.

By order of the Judge,

S. D. WINGATE, Register of Probate.

STRAYED.

On the premises of the subscriber are two YEARLING HEIFERS, one light, the other dark red. The owner is requested to give immediate attention to this notice. RICHARD PICKERING.

Newington, Dec. 6th, 1860.

STRAY LAMB.

Came into my enclosure in Greenland, Tuesday, Dec. 4, a LAMB, which the owner can have by proving property and paying charges, to the subscriber. B. O. HAM.

BUT ONE WEEK.

DR. B. C. PERRY,

THE CELEBRATED DERMATOLOGIST,

In accordance with the repeated solicitations he has received from some of the first citizens of Portsmouth during his stay in Portland, having closed his office in Portland after a successful practice of five months, has concluded to remain one week in PORTSMOUTH—when all who are suffering from

Loss of Hair, Premature Blanching, or any Disease of the Scalp,

can consult him.

DR. PERRY is prepared to treat successfully the following diseases, all of which are productive of a loss of hair.

Debilitation of the External Skin, Suppressed Secretion, Irritation of the Scalp, Dandruff or Thickened Secretion, Inflammation of the Sensitive Skin, Mattorated Secretion, Hair Eater, Distended or Swollen Roots, and Premature Blanching.

This is the only method based upon Physiological principles which has ever been presented to the public for the restoration of the hair.

Dr. Perry's Theory of treating Diseased Scalps and Restoring the Hair.—There are eighteen diseases of the head and scalp, that cause a loss of hair, and in some cases premature blanching, each requiring in its treatment different remedies. Where loss of hair has resulted from any of those diseases, the first thing to be done is to remove the disease by a proper course of treatment, restore the scalp to its normal condition, keep the pores open so the secretion can pass off, and in every follicle that is open, new strands of hair will make their appearance.

The philosophy of premature blanching is this: Iron and Oxygen are the principle constituents of Dark hair, Lime and Magnesia of Light hair. When the suppressed secretion between the skins contains an excess of Lime, it is taken up by the strands, causing the hair to turn white; by opening the pores the accumulation of Lime passes off with the secretions, the natural components of the hair resume their ascendancy, and the hair assumes its natural color.

Because persons have tried various preparations for the hair, and have been deceived by them, and in some cases their difficulty made worse by their use, they should not be discouraged. The one preparation system for any class of diseases, must necessarily be a failure. No one compound can be available for a dozen or more diseases; it may remove some difficulties—in other cases useless, in some positively injurious.

Dr. Perry's method is in accordance with the law of cause and effect. He makes a personal examination, ascertains what disease of the scalp has or is producing a loss of hair or premature whitening, prescribes such remedies, according to its nature and requirements, as will remove the disease. Hence his great success in treating capillary diseases.

ALL CONSULTATIONS FREE.

Dr. Perry is now ready to receive visitors at

EXCHANGE HALL,

Exchange Buildings, same entrance with Boston Shoe Office.

Portsmouth, Dec. 3, 1860.

OLD SOUTH CHURCH.

"If the Lord will," meetings for worship and religious reading will be held at the "OLD SOUTH" MEETING HOUSE on SUNDAYS, at the regular hours.

The chief object of these meetings is to attract the attention and interest of persons not connected with any existing religious organization, and to create and strengthen the feeling that it is important bearing of these things on individual and social welfare.

It is designed that these operations shall embody the plan of a Free Church; at the same time giving an opportunity to all such persons as would *prefer* to contribute towards its expenses and for its permanent establishment, to do so.

Also it is not proposed to call personally for any outside aid—but if there are persons who would like to favor the enterprise, the first necessary application of a few (and but a few) dollars, would be to set the glass and slightly improve the outside of the building, thus preventing it from being any longer a disgrace to the city, and the Parish between whom and it are connected so many venerable associations.

In regard to the style of the services, the present method of most Congregational Churches will be varied by the introduction of the reading of the Psalms in alternate verses by the congregation—and for the present, in the absence of any regular preacher, to use the best published sermons.

The first one used will be the first great Gospel Sermon ever preached, which was from the mouth of our Lord Jesus Christ—"the Sermon on the Mount." A. J. PENHALLOW,

in behalf of the cause.

N. B.—It is requested that all who can do so conveniently, should bring Bibles and Hymn Books. If singing is had, it will be by depending on voluntary aid.

Persons who would be subject, from the condition of the building, to cold and sickness, had perhaps best defer attendance for one or two sabbaths, until some better arrangements can be made. dec4 daw 1w*

YOU CAN'T FIND

AN ARTICLE THAT SUITS AS WELL AS

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE

Apothecaries and consumers all testify that

IT IS THE ONLY RELIABLE ARTICLE

FOR THE BALD AND GREY.

Read the testimony from Kentucky.

PADUCAH, KY., Feb. 1, 1860.

Mr. W. A. BELL—Dear Sir:—I have used HEIMSTREET'S INIMITABLE HAIR RESTORATIVE, and am satisfied from an experience in all other preparations for the like purpose, that *it is the only article ever before the public worth purchasing.*

Yours truly, JOHN D. DALY.

PADUCAH, KY., July 27, 1860.

MESSRS. W. E. HAGAN & CO., Troy, N. Y.,

Gents:—Above please find statement of Mr. John C. Daly, merchant of our city, in regard to HEIMSTREET'S INIMITABLE HAIR RESTORATIVE. This testimony is given after having used most of the preparations now before the public, *claiming* to be Hair Restoratives, and must *be considered conclusive* as to the merits of the *Inimitable*. Am out of the large size. Forward by railroad double the quantity we had before. Very truly yours,

W. A. BELL.

Portsmouth, Dec. 6, 1860.

Special Notices.

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. K. FRYE and all druggists. nov28 dawtw

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of

SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail to moderate excesses and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, send for a pamphlet to the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail. nov28 dawtw

Sold by W. R. PRESTON and all druggists.

WISTAR'S BALSAM WILD CHERRY

Coughs, Colds, Bronchitis, Asthma, Croup, Whooping Cough, Quinsy, and the numerous as well as dangerous diseases of the *Throat, Chest* and *Lungs*, prevail, in our changeable climate, at all seasons of the year; few are fortunate enough to escape their baneful influence. How important, then, to have at hand a certain antidote to all these complaints. Experience proves that this exists in *Wistar's Balsam* to an extent not found in any other remedy; however severe the suffering, the application of this soothing, healing and wonderful Balsam at once vanquishes the disease, and restores the sufferer to wonted health.

From a Respectable Druggist.

MESSRS. S. W. FOWLE & CO., Boston.

Gents:—Please send me a fresh supply of WISTAR'S BALSAM OF WILD CHERRY. We are selling large quantities of this long celebrated remedy for *Coughs and Colds*, and it bids fair to outlive most of the so-called specifics which are now in vogue. We can confidently recommend it as a remedy for what it is intended. Very truly yours,

NATHAN P. THACHER.

Mr. D. H. TEAGUE, of Turner Village,

Writes the proprietors of this great remedy, as follows:

TURNER VILLAGE, ME., July 31, 1860.

Messrs. SETH W. FOWLE & CO., Boston.

Gents:—I do not hesitate to recommend DR. WISTAR'S BALSAM OF WILD CHERRY for *coughs* and *pulmonary affections*, having used it in my family for many years with great satisfaction; indeed it has done more good than all the other remedies I have tried, and their name is legion. If all the patent medicines in the market possessed but a portion of the merit of this excellent Balsam, there would be no occasion to condemn them as humbugs.

The medicine is also used by many of my friends and acquaintances in this town, and they have found it invaluable; and I hope that others who suffer may give it a fair trial. Very respectfully,

D. H. TEAGUE.

Prepared by SETH W. FOWLE & CO., Boston;

SOLD BY

PRESTON, KIMBALL, HUTCHINGS, J. H. THACHER, N. P. THACHER, Portsmouth; JAMES P. PACKER, Greenland; S. HANSON, JR. New Market; PORTER & THING and WM. B. SAFFORD, Exeter; J. W. GREEN, Hampton Falls; and by dealers everywhere. e26 4w

SIMPSON & NEIL.

Local.

Messrs. Editors:—It is hoped that our efficient City Marshal, in the discharge of his duties during the winter months, will endeavor, so far as is in his power, to enforce the law relating to the clearing of snow and ice from sidewalks. We take pride in knowing that we have better walks than almost any other city of its size in New England; but if a large part of them are allowed to be blockaded for weeks, so that they are almost impassable, then the middle of the street will be preferred, as is often the case by pedestrians.

The first snow storm has left heaps in many places, that if not attended to in season, will remain, with addditions by every storm, until they cause as prominent a nuisance as the slaughter houses, or a dry goods box left half a day on the curb stone.

EQUALITY.

☞ Prof. Tripp's Lecture, to be delivered at the Temple next Tuesday evening, is to be on Garibaldi and Italy, in which events are noticed to latest dates.

The lecturer and his lectures in general are highly recommended by Dr. Sears, Edward Everett, Rev Drs. Bellows of New York and Kirk of Boston, Agassiz, Geo. N. Bigelow, Home Journal, Boston Courier, Journal and Traveller, Nantucket Inquirer and Mirror, &c.

In the lecture now to be given, on Garibaldi and Italy, the public will have, not only the interest belonging the lecturer and his first class recommendations and references, but also that interest which belongs to some of the most stirring events of our times.

THE CHAPEL OF ST. MARY: by the author of the "Rectory of Moreland"—is the title of a new tale, just published in a neat and beautiful volume of 400 pages, by J. E. Tilton & Co., and sold in Portsmouth by J. H. Foster.

It bears on its title page these two poetical mottoes:

"Common as light is love,
And its familiar voice wearies not ever."—*Shelley.*

"Suffer me not, in any want,
To seek refreshment from a plant
Thou didst not set; since all must be
Plucked up whose growth is not in Thee."

These mottoes are a fair key to the character and purpose of the book, which is one of the best of its class, a real novel, full of sentiment, with a strong moral and religious tendency.

The execution of the work, in its literary and mechanical departments is excellent; clear and tasteful throughout, beautifully imprinted on paper of snowy whiteness.

☞ The illustrations in Peterson's Magazine for January, are certainly richly worth the price of the number—and the book is always good, as all the ladies know.

☞ The Rockingham Weekly Chronicle, containing a summary of the news of the week, this day published, and for sale at the Chronicle Counting Room: price 3 cents; $1 per year, in advance.

RICHMOND, VA., Nov. 5.—The Electoral College met to-day, when the Breckinridge Electors, believing that Mr. Bell had carried the State, magnanimously resigned, whereupon the vote of the College was cast for Bell and Everett.

NAVAL.—The U. S. steamer Mystic, the the sloops-of-war Constellation and Portsmouth, and the store vessel Supply, sailed from Kinhomho, (Africa,) October 3, for Loando.

"Life is short" were the last words of Mr. Ball, as he stepped on the train, with a friend, at Francisville, Iowa, last week. His foot slipped, and the train being in motion, the next moment he was a mangled corpse.

☞ Hon. Amos Tuck has received and forwarded to Kansas Forty Seven Dollars, contributed by the Second Congregational Society in Exeter, N. H.

The manufacturers of Philadelphia have resolved that selling domestic goods on tick don't pay: and they hope to abolish the system.

☞ Rev. Silas Farrington has resigned his pastoral charge of the Unitarian society in Concord, N. H., he preached his farewell sermon last Sabbath.

THEY KNOW IT!
ONLY NOT ALL OF THEM!

And for that reason we invite the citizens of Portsmouth and vicinity to favor us with a call, and examine our Stock of Ready-Made Clothing for Men's and Boys' wear, which is made up under our own supervision by hand work, not using any machine, as other tailors do.

Our stock is made up of the latest styles and goods. We offer these goods at 25 per cent. less than any one else.

Men's Sack Overcoats at 25 per cent. less.

ANOTHER NEW STOVE

THE MODEL COOK

FOR WOOD OR COAL,

MADE BY

THE BARSTOW STOVE COMPANY

Of Providence, R. I.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking giving an oven nearly 3 ft. long! or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven, with a tin roaster in front of the fire, are obvious, yiz:

1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is the most durable, tasteful and useful.

2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking oven.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires; or it can be used for a hot closet when not required for baking or roasting.

5th. By this extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time the stove occupies no more room on the floor.

John Trundy, Esq., one of our most practical and scientific mechanics, who has had large experience in the construction of stove patterns in years past, and has for many years been using one of the Stewart Stoves, has purchased one of the MODEL COOKS, and after a fair trial pronounces it far superior to the Stewart or any stove he has ever seen, for economy, convenience and dispatch. We might also refer to several other parties who are using the stove, and who award it the very highest praise.

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be *the* stove for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is wanted.

We have nought to say against any other stove, believing that a man can sell his own goods without depreciating his neighbor's; but this we do say, that we honestly believe this is the *best stove that can be found in the world;* and what is more, we think others will agree with us after a trial of it. We invite any one to examine the stove, whether they wish to purchase or not.

For sale, with a great variety of

Cook Stoves.

Autocrat of the Kitchen.—35,000 *in use*

THE ORIGINAL P. P. STEWART,

FUEL-SAVING AND COMFORT-PRODUCING LARGE OVEN, SUMMER AND WINTER

AIR-TIGHT COOKING STOVE,

FOR WOOD & ANTHRACITE OR BITUMINOUS COAL

Improved in 1859 with New and Extra Large Flues, and by the addition of the Celebrated Patent Double Sheet Bottom Flue.

Attention is invited to the following Points of superiority:

DURABILITY.—Lasting, with proper care, at least 20 years. Stoves are now in use that were set up in 1838.

CAPACITY.—Baking, broiling, boiling, roasting and all other ordinary operations performed *at the same time.* A barrel of flour baked into bread with a single fire.

ECONOMY.—Saving the cost of the stove in 2 or 3 years in the item of fuel.

VENTILATION OF OVEN.—In the Stewart Stove alone the front doors open directly into the oven protected by (letters patent,) securing a direct draft through the *top of the oven,* by means of perforated holes in the doors and back flues. It will be borne in mind, that, as the heated air always rises, this method of ventilation is the only one of any value whatever.

ENTIRE CONTROL OF HEAT.—The heat generated by the stove, may be held therein and used, or thrown into the room, at pleasure.

THE DOUBLE SHEET BOTTOM FLUE.—By which compressing and inverting action of heat is obtained, and the oven more evenly and efficiently heated than by any other known invention.

BROILING.—Performed *on the top,* and without the possibility of smoke entering the room.

HOT WATER RESERVOIR AND WARMING CLOSET.—Both useful and convenient, supplied by the waste heat and without extra fuel.

WATER BACK.—An arrangement for supplying hot water for the bath room equal to any range.

Beware of the numerous worthless imitations now in market. See that the name of P. P. Stewart is on each stove. No other is genuine.

MOTHERS

It must be obvious not only to you, but to every attentive and intelligent person, that the first diseases of infants arise chiefly from a disordered condition of their bowels, and in this connection, we present to your notice, for the alleviation and cure of these diseases, a remedy known as

Dr. EATON'S INFANTILE CORDIAL,

Prepared from a formula used by Dr. Eaton with remarkable success during several years practice. We know it to be a most reliable and efficacious remedy for infantile complaints, and one trial alone will convince you of its superiority over every other preparation of the kind. It is particularly recommended

FOR CHILDREN TEETHING,

And at this period of infantile life, when your anxious hearts are pained by witnessing the sufferings of your little ones, it will be found invaluable in *Softening the Gums, Reducing Inflammation and Relieving at Pain. FOR DISEASES AT TENDING TEETHING*, such as *Diarrhea, Dysentery, Griping in the Bowels, Acidity of the Stomach, Wind, Colic*, and *Cold in the Head*, we confidently offer this as a certain relief and cure in every case when given in time. It will invariably regulate the stools, and regulate the bowels, the importance in this respect can hardly be estimated.

IN CONVULSIONS,

From which more infants are said to die than from any other disease, the little sufferer is relieved *instantaneously*, as if by magic; and in this connection, we insist, its intrinsic value is such that it has been recommended from family to another, until the name of DR. EATON'S INFANTILE CORDIAL, has become "familiar as a household word." We now ask your attention to a subject of vital interest to yourself, as well as to your suffering child. DR. EATON'S INFANTILE CORDIAL contains

NO MORPHINE OR OPIATE,

Or any kind, or of whatever nature, a fact which we are fully warranted in in stating, is not the case with any other preparation for infantile diseases, at this time before the public. We find that throughout the country, Mothers are becoming aroused to the truth, and of the sad and blighting consequences which are certain to result from the use of narcotics disguised in the form of quieting remedies; their continued administration being invariably followed by stupefaction and constipation of the bowels, ending oftentimes in convulsions. Here in DR. EATON'S INFANTILE CORDIAL differs from every other remedy.

DOES NOT CONSTIPATE

The Bowels, neither does it act by deadening the sensibilities of your children, but naturally, thru its rare medicinal qualities, by removing all pain and cause of disease. We earnestly recommend you, therefore, to lose no time in procuring a bottle, that you may have at hand a remedy which will never fail to relieve your little one in distress. *It is perfectly harmless, and cannot injure the most delicate infant.*

Take none but DR. EATON'S INFANTILE CORDIAL. *This you can rely upon.* Price 25 cts per bottle.

Prepared only by **CHURCH & DUPONT**, No. 409 Broadway, New York.

And sold by them, and all respectable Druggists.

Sold in Portsmouth by PRESTON, THACHER, HUTCHINGS and KIMBALL. s6 ly

---

THE ONLY PREPARATION

Having Proof so Strong and Direct as to Expel the Doubts of All.

For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all cases of eruptions, and diseases of the scalp and brain; but all woo have used it, unite in testifying that it will prevent the hair from being gray, and from falling to any age, as well as restore.—Read the following—

Oak Grove, S. C., June 24, 1859.

Prof. O. J. Wood:—Dear Sir:—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test.

During the year 1854, I was so unfortunate as to be thrown from my buggy against a rock near the roadside, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. From the time I first discovered the dropping, however, up to the time of this disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally defeated in every pre-cription advanced.

These and no other circumstances induced me to resort to your worthy "Hair Restorative," which I have every reason to believe, produced a very happy result; two months after the first application. I had as beautiful a head of young hair as I ever saw, for which I certainly owe you my sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself is very, is not a little.

You can publish this if you think proper.

Yours, very respectfully,

M. J. WRIGHT, M. D.

Jeffersonian Office, Pulaski, Va., Dec. 12, 1859.

Professor O. J. Wood:—Dear Sir: I feel it my duty as well as my pleasure, to state to you the following circumstance, which you may use as you think proper. A gentleman of this place, (a lawyer,) had been bald ever since his early youth; so much so, that he felt compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using one bottle, found his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement. I give this to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents.

&c., &c.,

THOMPSON SURGHNOR.

Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair in its original color, since the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

HumPhreys' Specific Homeopathic Remedies

For the People.

THE REMEDIES are carefully prepared under the direct supervision and inspection of Prof. HUMPHREYS, to order simple, and yet the most healing want of the public, namely, remedies for all the more common and simple ailments of life.

A moment's reflection will show that a vast majority of diseases from which we suffer and die, were, at their commencement, simple and trifling. A mere chill, a slight diarrhea, a pain in the side, or a headache, or hoarseness, at first easily cured and subdued, in time becomes a consumption, a fever, a dangerous dysentery, Croup or other dread disease, which all the powers of medicine fail to arrest.

Herein these remedies supply a great public want. Being so simple, so pure, so free from any ability to take—pleasant, so as to cause no repugnance—safe, and hence occasioning no risk, while the curative effects are so speedy and certain. They are taken, and as once the spell is broken and the danger allayed.

Experience has amply confirmed the use of these remedies for families and individuals generally, and THE MOST SIMPLE AND CONVENIENT, THE MOST PROMPT AND RELIABLE.

Thousands are now using them, having been for some five years past, in every section of the country, with almost invariable success. All speak in the highest terms of their simplicity and certainty, and among our hundreds of agents the uniform testimony is, that they give good satisfaction to their customers.

N. B.—Nos. Nos. 1 to 15 are small size, Nos. 16 to 31 large size, and in making up a $2 or $1 case this must be remembered. The vials are uniform in size, and the boxes, except Nos. 1 to 15 for a VIAL-CASE, no attention is necessary on this point.

OUR REMEDIES BY MAIL OR EXPRESS.

Look over the list; make up a case of what kind you choose, and inclose the amount in a current note or stamps by mail to our address, at 562 Broadway, New York, and the medicine will be duly returned by mail or express free of charge.

VETERINARY HOMEOPATHY.

Humphreys' Specific Homeopathic Remedies for Horses, Cattle, Sheep, Hogs, Dogs, &c.

The case contains ten Specific Remedies suitable for all common ailments to which domestic animals are subject, together with a complete manual of directions for use, so plain and simple that every farmer or boy can readily understand. The remedies are put up in large one-oz. vials of liquids, and the entire set, and Book, will be sold at $3. Single vials, with directions, at $1 each. Sent by mail or express, free of charge, on receipt of the price.

Price of book singly 50 cents.

AGENTS WANTED for the sale of our Remedies in every town or community in the United States. Address

Also, PIGS FOR SALE as above.

Dr. Mott's

CHALYBEATE RESTORATIVE

PILLS OF IRON.

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:

IN DEBILITY, NERVOUS AFFECTIONS, EMACIATION.S CONSTIPATION, DIARRHEA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MENSES STRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from chronic causes, the pale, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which there is no name, are cured.

In NERVOUS AFFECTIONS of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and over-heating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency, which forms them.

In DYSPEPSIA, innumerable as are its causes, a single box of this Chalybeate Pills has sufficed for the most habitual cases, including the attendant *Costiveness*.

In unchecked DIARRHŒA, even when advanced to DYSENTERY, confirmed, exhausting, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate INCIPIENT CONSUMPTION, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well-known liability.

The attention of females cannot be too confidently recommended this remedy and restorative, in the cases peculiarly affecting them.

In RHEUMATISM, both chronic and inflammatory, it has proved, however, more decidedly, it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. It **speedily disposes of every trifling sequelle of strength, with an unusual disposition for** active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

R. B. LOCKE & CO., General Agents,

apr17 339 Broadway, N. Y.

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.

With a view of meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often even needed by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling our entire stock of this celebrated wine of importation, from one of the most responsible houses in France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character. Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and will only be sold by prominent druggins, grocers and town agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks,

Dyspepsia Remedy

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing fame. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Coffe Pains, Wind in the Stomach, or Pains in the Bowels, **Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens,** Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other disorganizations of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and dejected spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Headache.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind Colic, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Personswho, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will tone them up, make them healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 25 cents, or 1 shilling.

General Depot, 48 Water street, New York.

HUNTING MATCH.—One day recently, the sporting fraternity of Manchester, N. H., were thrown into a state of great excitement, from the fact that a Match Hunt was coming off. Mr. Turney, with his 16 knights of the game bag, and Mr. Clement, with a like number, were to contend for a big supper, the party bagging the smallest count, to have the privilege of paying for it. The woods, for miles around, were scoured from midnight to the next setting sun. Every blue jay that was foolish enough to answer the hunter's decoy was as surely murdered, and every poor chip squirrel whose empty stomach tempted him from his nest, was a lucky fellow if he got back alive. Evening draws nigh; the weary gunners return, their bags well nigh bursting with game—yes, they are all in. The game was up, counters were chosen, who at once commenced their task, and reported as follows: Mr. Turney and suite, 276, Mr. Clement and suite, 976, showing Mr. Clement 700 ahead. Conspicuous in the pile were 44 grey squirrels, 14 rabbits, 12 partridges, 4 muskrats, 1 mink, with about half a bushel of red squirrels, blue jays, &c., making a mighty big pile of game, such as is seldom seen in these parts.

THREATS BY COWARDS.—Most persons who threaten, are cowards. Illustration: a writer from Illinois, for the N. Y. Even-Post, says:—

I mentioned that Mr. Lincoln had already quite a large correspondence with the South. There are many of his letters from that quarter which the country ought to see. Missives which no decent man could write are abundant: their postmarks reveal the fact that the vocabulary of Billingsgate is not confined to the Five Points and Marshal Rynders' office. Unfortunately, the ear-marks of some of them show that their writers are not devoid of education, if destitute of decency. Letters threatening death, in all its forms, as the penalty of his high position, are more abundant still. They are, of course, mainly *anonymous*, though a *few* bear real names. Some are signed in hieroglyphics said to be known only to the "Sacred Order" or "Southern Brotherhood," which threaten Mr. Lincoln with a sudden and untimely taking-off. A few are ornamented with sketches of executions by the gibbet, assassination by the stiletto, or death by a lightning stroke; and in nearly all the theology of the writers is indicated by rude caricatures of the devil, ready with his three pronged fork to receive and pitch into everlasting fire the body of the unfortunate Lincoln, whose offence consists in the belief that human slavery is a wrong. He is not, I am glad to say, annoyed by these. Assured that no man who will write anonymous and threatening letters, is worthy of being feared, he tosses all such aside, as he says, to illustrate at some future day the comical side of his Administration.

FOUND DEAD.—A correspondent of the Haverhill Republican says:—

"Harvey Merrill, about 30 years old, was found dead in the road about a mile from Bath village. He came in the cars from Woodsville, Friday evening, and started on foot from the Bath depot, with his valise in hand, for Landaff. He sat down his valise, undressed himself, and proceeded on about a quarter of a mile entirely naked, where his body was found near the fence beside the road. His clothes, watch, money and valise were all found safe, just as he had left them. He leaves a wife and one child, who were on a visit to her friends in Landaff, where he intended to go. He was a very respectable young man, of temperate habits and good character, son of Moses Merrill, formerly of Landaff.

☞ Father Chiriquy became famous one day by a revolt from the Catholic church, and the settling of a colony of his disciples—converted Catholics—in Illinois. It seems that his parish are of the convertible kind, for while he has been absent a short time seeking material aid in Europe, many of them have been reconverted, some to Episcopalians, and others to Baptists. He attempted to install them all as Presbyterians, and they accepted that for a season, but it is now found that many of them will be scattered before his return.

POSITION DEFINED.—There has been some curiosity to know what is represented in politics by the New York Daily World. We find in the Charleston Courier something to satisfy this curiosity. One of the editors of the World has introduced himself by letter to the Charleston plotters of treason, and liberal extracts of his letter have been published. In this document the position of the World is defined as follows: "You are at liberty to say that not one of the editors of the World voted for Lincoln, and its publisher would have no hesitation in owning slaves."

WASHINGTON, Dec. 4.—The Speaker will announce the select committee on the President's message on Monday next. In the meantime he will confer with the State delegations.

The opposition to the Homestead bill was from the southern members, including those from prospectively seceding States.

New Photographic Establishment.

Having fitted and furnished in modern style, large, pleasant and commodious rooms, the subscriber is prepared to furnish all who wish with Sun Pictures of every description, from the smallest Miniature to life-size Portraits. Photographs finished in India Ink, Water and Oil Colors, by the best artists in the country. Old Daguerreotypes, &c., copied any size desired.

The subscriber having had many years' experience, from the old Daguerreotype down to the present time, keeping pace with every useful improvement, a success almost unprecedented has heretofore attended him; and by strict attention to business, and fair dealing he hopes to merit a share of public patronage.

All work from the establishment warranted to be of the first order, both for finish and durability. Prices as low as in Boston, or any other place where first-class work is performed.

Having a large skylight, pictures can be taken late in the day, and equally as well in cloudy as in fair weather. The public are respectfully invited to call and examine specimens, at **17 Pleasant Street**, opposite the New Custom House.

J. E. SMALL.

Portsmouth, August 6, 1860.

Clothing, Clothing, Clothing!
PRICES TO SUIT THE TIMES.
FALL AND WINTER GOODS,

The subscriber having just laid in a superior stock of Fall and Winter Goods, cordially invites the citizens of Portsmouth and vicinity to come and inspect a splendid assortment of
Beavers, Broadcloths, Fancy Doeskins and Cassimeres.
With a nice lot of Silk and other Vestings.
He would also call attention to his large stock of
READY-MADE CLOTHING,
consisting of
English Beaver OVERCOATS, and Broadcloth and other coats, with a great variety of PANTS & VESTS, all of his own manufacture, and which will be sold at the lowest possible cash prices. He has also laid in a complete assortment of
GENT'S FURNISHING GOODS,
Consisting of Fine Shirts, Undershirts, Bosoms, Drawers, Collars, Black Silk Cravats, Neckties, &c. with a good stock of
VALISES, CARPET BAGS, OIL CLOTHES, &c.
Garments of the latest style made at short notice at
54 Market St., Portsmouth.
EPHRAIM GREEN.

All Ready for the Fall Campaign.

C. E. MYERS & CO.
Are now opening the best selected stock of Goods
FOR FALL AND WINTER WEAR
ever shown to their customers, consisting in part
—OF—
COTTONADES, PETERSHAMS, SHAGS, ENGLISH BEAVERS, TRICOS, FINE BROADCLOTHS, BLACK AND FANCY DOESKINS, VELVET VESTINGS, &c.
We have also hand a fine stock of READY MADE CLOTHING, and are constantly making additions thereto. Our FURNISHING GOODS department is remarkably complete, comprising UNDER SHIRTS AND DRAWERS, GLOVES, HOSIERY, BOOTS, SHOES, TRUNKS AND VALISES, OIL AND RUBBER CLOTHING.
We take this opportunity to inform the public that, owing to the unusual dullness of the times, we are selling our Goods at about one-half of our usual profit.
This is no humbug. Call and be convinced at
No. 89 Market St. & 2 Bow St.
C. E. MYERS. C. E. SIMPSON.

LYMAN'S
Improved Patent Metallic Soles.
PATENTED JUNE 7, 1859.
The nature of this invention consists of a metallic sole for Boots and Shoes, which has been tested and operates admirably. No dampness penetrates through to the inside sole. This is the only device that will operate well between two soles, and is made so thin as not to interfere with the most delicately finished work. The necessity of such a device to fully accomplish the much desired object, and the direful effects arising from damp feet, are too well understood to require any comment.
Boot and shoe manufacturers and dealers in Rockingham County furnished with the soles, with right to use, at No. 24 Market Street, Portsmouth, N. H. J. C. CARR.

The Best Calf Fleece-Lined, Fur Top GLOVES
Ever offered in this market, can be had at
No. 8 Market Street.
N. B.—You can see them in the window as you pass.
J. WOODMAN MOSES,
TAILOR AND DRAPER.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, DECEMBER 7, 1860.

ELEVENTH ANNUAL REPORT OF THE PORTSMOUTH CITY MISSION.

The work of a city missionary, though continually varying in detail, must, in its general characteristics, have much of sameness; so that in many respects, the report of one year might apply with equal truth to another. Looking at our work in its most striking features, we might tire of plodding continually over the same ground; while, in another point of view, we find each day filled with new incidents, and making unexpected demands upon us.

We have very deeply felt the loss of our early, able supporters, Rev. Drs. Peabody and Lamson, within the present year; but trust we shall find in our new pastors, warm and sympathizing friends.

In prosecuting our work, we have tried to make our visits productive of moral and religious good; particularly where sickness, or other affliction had, in any measure, softened the heart: and hope, that in some instances at least, our efforts have proved successful. Quite a number of those who have been under our care, have within the year, passed from earth; the last days of some of whom were cheered with blessed anticipations of future rest. It has ever been our endeavor to call most frequently where there was the most hope of doing good, particularly on those who sent for us. But it has not always been possible for us to accomplish all we gladly would have done. To give satisfaction to all, is more than we can hope for.

Many seem to regard the Mission as mainly a charity fund, of which the missionary is the agent, or dispenser. They cannot appreciate his moral and religious influence in their families, nor understand how small is the amount of means placed at his disposal, compared with the demands made upon him for aid. The recipient could not be happier than we, were it all ways in our power to meet deserving want; but it is not. Within the present week, for instance, we have been twice called upon for warm outside garments for invalids, and were very happy in each case to know just where to procure the desired article. But supposing a third equally deserving case had been presented to us, we might have found it utterly impossible to supply the need. So it may sometimes happen that we find ourselves unable to meet the wants of some one, while a less urgent case has but just before been supplied.

We are also obliged to discriminate between families who spend all they can get for intoxicating drinks, and such as are industrious, making the most of what is given them. The children are, in both cases, the objects of our care, altho' it is not always in our power to make them comfortable.—There are children in our streets, for whom there seems but little hope, unless some place could be provided where they might be taken entirely from parental influence.

Often have we wished for some temporary home here, not only for destitute children, but for young females who, having been led aside from virtue, are apparently desirous of being restored to the paths of rectitude; yet who cannot be safely trusted without the discipline of some temporary home-influence. In some cases we have found homes for such as were fast getting beyond control. One or two of these have been sent back as unmanageable; but in most instances, we are happy to say, they appear to be doing well.

Three little motherless children were given up to us by their father, to be sent to the Temporary Home in Boston. We took them to our house, where they remained a few days, to be fitted up, and were then forwarded to the Home. The same day they all broke out with the small pox, without our having known of their being exposed to it. We have great reason for gratitude, however, that none in this place took the disease of them; and, through the timely exertions of the matron and friends of the Home, it was prevented from spreading to any extent among the children there. These three little girls were among the company sent out last Summer, from Boston, to Lebanon, Ohio. They were each of them adopted into good homes in that neighborhood, within a mile of each other.

We also got three boys from this place admitted into the same company. Two of them have good homes there and are doing well. The third, we are sorry to say, ran away from a good home which had been there provided for him, and we have not since heard from him. Our hope is that a kind Providence still watches over him, and that he may either return to the home of his adoption, or fall in with some humane person who may yet gain an influence over him for good.

While it is pleasant to think of the many children whom we have thus been enabled to aid, we must express our regret that we still have among us some who ought at once to be sent to the Reform School, as the only hope of saving them. We think very highly of our Reform School at Manchester.—In visiting that Institution, last May, we were exceedingly interested in our interviews with the boys. We found them cheerful, contented and happy. Many of them expressed to us a determination to overcome their former vicious habits, and in future to lead virtuous and useful lives. The School is well managed by its efficient Board of Trustees and Superintendent, and is doing an excellent work for those who enjoy its advantages. But we regret that it should not be purely a State institution; as, judging from what we see in this city, there are multitudes who would be saved by it, were it not for the expense incurred by the city or town which sends them. Still, we think it would be economy for any town or city to pay the requisite fee, rather than risk the consequences of allowing evil-disposed youth to grow up without restraint.

We are glad to know that a new organization of the Sons of Temperance has recently been formed here, and hope it may accomplish much good. If such a public spirit could now be awakened as would shut up our dram-shops, and thus remove the temptation which, on almost every street, by night and by day, is assailing those who are ill prepared to resist it, there would indeed be cause for rejoicing. Till this is done, there will be found in our midst men, and women too, who will sacrifice all domestic comfort, and render their families miserable, for the sake of gratifying this unnatural appetite. Nor need we be surprised to hear that many of our youth are being drawn into this fearful vortex.

We deeply feel the importance of laboring for the good of children. Every effort in our power has been made to induce parents to keep them in school. Many have been aided with clothing, and many others ought to be. Friends have been very kind in sending in garments to us; but still the call is for more. Particularly at the present time is there a great demand for jackets and pants.

While we gladly help to keep children in every Sabbath school to which they claim to belong, the Mission School is more particularly under our care. We are still blessed with the services of Mr. Edward P. Kimball as Superintendent, and of a faithful band of teachers from different denominations; and the school is in a prosperous condition. Owing to the difficulty of warming so large a room, the school has been removed for the Winter from the Old South to the room of the Young Men's Christian Association, where we trust it will continue to prosper and prove a rich blessing to many.

At the Almshouse our visits have been continued as in former years. The sick and others have been visited at their rooms, and have uniformly received our advice and instructions with apparent gratitude. We have attended the funerals of those who have died there, and have always taken these occasions to impress upon the living the nature and importance of a preparation for eternity.

The prisoners in our jails have always been included among those we try to benefit. From time to time they have been conversed with, counselled, and frequently furnished with tracts. Within the present year an effort has been made to secure for them a permanent library, which now amounts to about three hundred volumes.

Among the seamen we have ever been happy to do what we could. Two United States ships have visited our port this year, the Macedonian and the Marion. With the crews of these ships we spent much time, trying to guard them against the evils of intemperance and kindred vices to which they would be exposed. Many of them profited by our advice and, in more than one case, we had letters of gratitude from them after they had reached their homes. Several others who preferred to pursue their own course, came to us afterwards, expressing deep regret that they had not followed our counsel, and informing us that they had lost the last cent of the proceeds of their whole voyage. We have also received letters from several whom we had counselled in former years, thanking us for our timely advice, and assuring us that they were still profiting by it. We also visited the United States ship Cumberland which lately sailed from this port, giving the crew such advice as we could, and leaving with them such useful reading matter as we were able to procure. Many seamen have also called upon us within the year, and been aided as we had opportunity. A young seaman, with his thigh badly fractured, was brought to our port a few weeks since. We have several times visited him during his illness, and, by the aid of the Ladies' Seamen's Friend Society, are now about to send him to his home in a distant part of Maine.

Every year increases the number of wandering paupers—persons professing to be passing through our city to some distant locality, or who have come here to solicit aid for the support of their absent families. Finding themselves continually directed to us, they come in many cases, seeming to claim assistance as their right. It is often extremely difficult to know what to do with persons of this class. We know nothing of their previous history, or their real condition at present. Their story may be true or it may be false. Some are no doubt honest, but, in more than one instance, we have watched the proceedings long enough to find that they did not hesitate to make false and contradictory statements, and sometimes to represent themselves under different names. A case of this kind has recently occurred in the female stranger whose dishonesty was so fully exposed a few days since in our Daily paper. She called at our dwelling, at a time when we were out. From the statements she then made, her honesty was doubted, yet she was urged to call again. From this time, however, she studiously avoided us, and we were unable to have a personal interview with her. But from the character of the statements which she made to some of those to whom she applied for aid. We were satisfied she was an impostor, and expressed this opinion to several persons.

Then we have strangers coming here for employment, who have or say they have, exhausted all their means in seeking it elsewhere. In several instances we have taken such in, and kept them till we could procure situations for them. Past experience in this matter has made us rather cautious; still we could point to more than one who, within the year, have come to us strangers and destitute, but have now good situations, where they are doing well both for themselves and their employers.

It is impossible, however, to give more than a brief outline of our labors during the year. There is much which cannot be put on paper, which can be properly appreciated by those parties alone for whom the labor was performed.

The following are our statistics for the present year:

Visits to the Alms House	33
Visits to the Prisons	30
Visits to the Sick	278
Whole number of visits in the city	2123
Funeral Services	35
Children furnished with Homes	32
Strangers assisted to reach their Homes	49
Garments distributed	1236
Bibles given away	48
Testaments given away	100

Seven ships have within the year been furnished by us with Bibles and Testaments from our City Bible Society.

The following is our cash account:

Received from various sources	$352.00
Expended for the benefit of the poor:	
For groceries and fuel	$190.25
For shoes and dry goods	92.55
For Mission Sabbath School	17.50
For the comfort of the sick	41.85
For seamen	7.60
To aid strangers in reaching their homes	2.85
Total	$352.00

Provisions and dry goods have also been received by us and distributed among the poor to the amount of $40.

The Ladies' General Charitable Society still continues as formerly a valuable auxiliary to the Mission. Their contributions the last year amounted to $99.55. Of this sum $35 was expended for shoes, $32 for various kinds of dry goods, $20 for provisions and wood, $8.25 for work, including nursing the sick; and $3 was loaned, and has not been returned. Their committees have also performed a great amount of individual labor in the form of visiting, etc., which cannot be so easily estimated, but which has told largely upon the comfort and moral improvement of the poor.

The Humane Society are also still prosecuting their benevolent work—preparing garments for the aged and young children, and ever ready to lend us a helping hand. The Howard Benevolent Society have also distributed orders to the amount of $348.—Nor should we forget the Ladies' Seamen's Friend Society, who have much aided us in their department of our labor. We would also gratefully acknowledge the continued co-operation of the City Government and Overseers of the Poor, by whom we have been materially aided in our work.

We are also under great obligation to various benevolent individuals; some of whom have devoted much time to visiting among the poor, others furnishing comforts for the sick, or sending them delicacies from their own tables. Merchants have in several instances sent us donations in goods; families have sent us donations in clothing. For all these favors, in behalf of the poor, we would here express our hearty thanks. And if by our labors we have done anything to lessen the sum of human suffering, or to elevate our fellow men in the scale of moral being, we desire to ascribe all the glory of that Redeemer who was anointed to preach the gospel to the poor, to bind up the broken-hearted, and whose sympathies are still alive to every form of human woe.

N. MEDBERY, City Missionary.

Portsmouth, Dec. 1, 1860.

SECRETARY'S REPORT.

It has been suggested that although the valuable and interesting report of the City Missionary gives a full account of the labors of the Mission, and bears such conclusive evidence to the necessity there is among us for such a devoted laborer, and follower of Him who went about doing good—yet it may not be generally understood in what way the Society, in whose employ he is, is maintained and governed.

The first idea of the Ministry at Large was originated by Rev. Dr. Tuckerman, in Boston, about the year 1830, when his attention was drawn to the large numbers in that city, not connected in any way with any religious Society, and who in their suffering and sin, could only be reached by one who would go to them, and not wait to have his christian services called for. He devoted himself with great earnestness and marked success to this work, and to its advocacy, and in a short time, several other laborers were appointed to it; and have ever since been maintained in that city.

The example was speedily imitated in various places, and about the year 1839, a similar ministry was started here, which employed the services of Rev. Charles Shackford, and afterward, Rev. Mr. Ball,—after this, for a while, it stipulated sum was paid towards the support of the minister at the Old South, he adding to his parochial duties, that of a visitor to those not connected with any other parish.

But in 1850 an earnest effort was made by these devoted laborers in their Master's vineyard (who have since removed from this portion of it to equally earnest labors in other fields,) Rev. Messrs. Peabody, Lamson and Clarke, to resuscitate the former or organize a new society. They enlisted all the other clergymen of the place, secured the services of Rev. Amos Abbott, and this society was established. Mr. Abbott remained here until the summer of 1856, when he was succeed by the present Missionary, whose services have been yearly increasing in value, as all know who have listened to the successive reports of the last few years.

The original plan has been but slightly modified since its adoption. The several clergymen of the city are *ex officio* members of the Board of Directors, together with a layman from each of the several denominations. From these a President, Vice President, Treasurer and Secretary are annually chosen. The Board of Directors holds quarterly meetings, at which the Missionary makes report of his operations during the 3 preceding months, and where the best methods of promoting the objects of the Mission are discussed. Between the times of these meetings, the Missionary is in constant intercourse with the President and other officers, and other meetings are called, if at any time thought expedient by them.

The funds for the support of the Mission are raised by subcription—papers being circulated at the annual meetings, and among the religious Societies, several of which become responsible through three representatives at the Board of Directors, for a definite amount. What is thus raised is wholly independent of that which may be put at Mr. Medbery's disposal for charitable purposes,—of the disposal of which, he has given so good an account. The salary paid him has always been a very inadequate recompense for his indefatigable labors, being only $600;—and to meet this the present year, we have been obliged to encroach upon a small legacy left by the late Mr. Samuel Sheafe, which had hitherto been kept intact, and ought still to be so held. The report of the Treasurer, John Knowlton, Esq., is in brief, as follows:—

On hand at commencement of year, the legacy just mentioned and interest thereon	$105.18
Rec'd subscriptions at annual meeting, at North Church	313.60
Additional subscriptions from various religious societies	275.31
Total	$694.00
Paid Mr. Medbery	600.00
Paid office rent	25.00
Printing report, collecting, etc.	24.50
Total	649.50
Balance legacy on hand	$44.50

We trust, therefore, that those who have hitherto given, in aid of this good cause, will feel the necessity of continuing or enlarging their subscriptions, and that many new names will be added to the list.

JOSEPH H. FOSTER.

PENNSYLVANIA OIL BUSINESS.—The underground oil business in Pennsylvania is getting to be a business of such magnitude that several old whalemen from New Bedford are said to have struck their harpoons into it, as not requiring so long voyages, nor so great risks, and yet furnishing a much more sure catch than the whaling business. It is believed to be real and permanent, and men of capital are investing in it. A Pittsburg paper of recent date states that in one day no less than 1300 barrels of oil arrived from the great oil country at the head of the Alleghany, one thousand barrels on flats and three hundred by steamor. Four hundred and fifty barrels are to be sent to Boston, and one hundred to Cincinnati. The oil is now worth about twenty-eight cents per gallon.

THIRTY THOUSAND APPLES ON A SINGLE TREE. Wm. R. May, of Pomfret, Ct., picked 40 bushels of apples from one tree. He had the curiosity to count the number of apples in one peck, and found 190, making 760 in one bushel, and consequently 30,400 apples grew upon the tree.

☞ Advices from St. Petersburg report the river Neva full of ice, and the navigation at Cronstadt was stopped.

You needn't have such a reverence for truth as always to stand at an awful distance from it.

SPIRITUALISM.

Mr. GREENLEAF, Trance-Speaking Medium, will Lecture at
MERCANTILE HALL,
On SUNDAY, Dec. 9th, Afternoon and Evening;
Collection taken to defray expenses.

FISH AND ONIONS.
250 bushels ONIONS.
150 qtls. POLLOCK FISH.
100 boxes SMOKED HERRING.
For sale by S. L. RUSSELL,
36 Water Street.

DR. B. C. PERRY,
THE CELEBRATED DERMATOLOGIST,
In accordance with the repeated solicitations he has received from some of the first citizens of Portsmouth during his stay in Portland, having closed his office in Portland after a successful practice of five months, has concluded to remain one week in PORTSMOUTH—when all who are suffering from
Loss of Hair, Premature Blanching, or any Disease of the Scalp,
can consult him.
DR. PERRY is prepared to treat successfully the following diseases, all of which are productive of a loss of hair.
Debilitation of the External Skin, Suppressed Secretion, Irritation of the Scalp, Dandruff or Thickened Secretion, Inflammation of the Sentive Skin, Maternal Secretion, Hair Eater, Distended or Swollen Roots, and Premature Blanching.
This is the only method based upon Physiological principles which has ever been presented to the public for the restoration of the hair.
Dr. Perry's Theory of treating Diseased Scalps and Restoring the Hair.—There are eighteen diseases of the head and scalp, that cause a loss of of hair, and in some cases premature blanching, and recognizing its treatment different from others. Where loss of hair has resulted from any of those diseases, the first thing to be done is to remove the disease by a proper course of treatment, restore the scalp to its normal condition, keep the pores open so the secretion can pass off, and in every follicle that is open, new strands of hair will make their appearance
The philosophy of premature blanching is this: Iron and Oxygen are the prime constituents of Dark hair, Lime and Magnesia of Light hair. When the suppressed secretion between the skins contains an excess of Lime, it is taken up by the strands, causing the hair to turn white; by opening the pores the accumulation of Lime passes off with the secretions, the natural components of the hair resume their ascendancy, and the hair assumes its natural color.
Because persons have tried various preparations for the hair, and have been deceived by them, and in some cases their difficulty made worse by their use, they should not be discouraged. The one preparation system for any class of diseases, must necessarily be a failure. No one compound can be available for a dozen or more diseases; it may remove some difficulties—in other cases useless, in some positively injurious.
Dr. Perry's method is in accordance with the law of cause and effect. He makes a personal examination, ascertains what disease of the scalp has or is producing a loss of hair or premature whitening, prescribes such remedies, according to its nature and requirements, as will remove the disease. Hence his great success in treating capillary diseases.
ALL CONSULTATIONS FREE.
Dr. Perry is now ready to receive visitors at
EXCHANGE HALL,
Exchange Buildings, same entrance with Chronicle Office.
Portsmouth, Dec. 3, 1860.

OLD SOUTH CHURCH.
"If the Lord will," meetings for worship and religious reading will be held in the "OLD SOUTH" MEETING HOUSE on SUNDAYS, at the regular hours.
The chief object of these meetings is to attract the attention and interest of persons not connected with any existing religious organization, and to excite and strengthen the feeling of the important bearing of these things on individual and social welfare.
It is designed that these operations shall embody the plan of a Free Church; at the same time giving an opportunity to all such persons as would *prefer* to contribute towards its expenses and for its permanent establishment, to do so.
Also it is not proposed to call personally for any outside aid—but if there are persons who would like to favor the enterprise, the first necessary application of a few (and but a few) dollars, would be to set the glass and sidelight improve the outside of the building, thus preventing it from being any longer a disgrace to the city, and the Parish between whom and it are connected so many venerable associations.
In regard to the style of the services, the present method of most Congregational Churches will be varied by the introduction of the reading of the Psalms in alternate verses by the congregation—and for the present, in the absence of any regular preacher, to use the best published sermons.
The first one used will be the first great Gospel Sermon ever preached, which was from the mouth of our Lord Jesus Christ—"the Sermon on the Mount." A. J. FENALLOW,
in behalf of the cause.
N. B.—It is requested that all who can do so conveniently, should bring Bibles and Hymn Books. If singing is had, it will be by depending on volunteers.
Persons who would be subject, from the condition of the building, to cold and sickness, had perhaps best defer attendance for one or two Sabbaths, until some better arrangements can be made. dec4 dw 1w*

THE GREAT INVENTION!

CLOTHING WITHOUT SEAM
MOSES & DOWNIE
Would respectfully invite the attention of the public to this new article of Clothing, they having been appointed sole Agents for the sale of the same. These fabrics are all woven in the wool, without any seam, and the system which they combines the greatest elasticity with the greatest strength, will neither shrink nor stretch out of shape, nor crack; are nearly or entirely
WATER-PROOF,
And in point of warmth, durability, cheapness and all other desirable qualities, they are decidedly superior to any other style, as all who test them must admit.
Please call and examine for yourself, at the
Sign of the Big Number,
MARKET ST., **87** PORTSMOUTH, N. H.
And a large assortment of Seasonable Cloth, CASSIMERES, DOESKINS and VESTINGS, with the usual variety of trimmings.
☞ Particular attention paid to custom work.

BACHMAN & CO.,
21 Market St.

CLOAKS,
CLOAKS,
CLOAKS,
CLOAKS,
Of every style and quality made to order, at the shortest notice.
50 Different Patterns constantly on hand.
Black Beaver Cloth from New York auctions, at $1 25, worth $2.
Ladies desirous of saving money, will do well to call on us before purchasing elsewhere.
BACHMAN & CO.

ONIONS.
200 bushels of "Silver Skins" for sale by
dec6 MAJOR HOOPER & SON

Special Notices.

KINGSTON, March 10, 1841.—"This may certify that my son has had a humor which made its appearance when he was but a few days old; and it grew worse, causing large swellings and running, worse. He has been cured by the use of Dr. Swett's Panacea and Humor Wash."
T. CURRIER.
Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, PORTSMOUTH, N. H., No. 1 School St., for his Panacea, Cough Drops, Cancerine, Rheumatic Compound and Family Pills, and others of his popular remedies, will be promptly attended to.

Catarrh is the most difficult of any of the Diseases of the Breathing Organs to relieve or to cure. The Rev. Joshua Leavitt, editor of the Independent of New York, who had the Catarrh for more than twenty years, has been cured by using Dr. J. R. Stafford's Olive Tar and Iron and Sulphur Powders, which are advertised in this paper. His testimonial is published in a pamphlet among others equally decisive, who have been cured of chronic Throats and Lung difficulties, which will be sent *free by mail.*

THE INFANTILE CORDIAL.—We notice our druggists have received a supply of DR. EATON'S INFANTILE CORDIAL, which every mother should have. It is said to contain no paregoric or opiate of any kind whatever, and of course must be invaluable for all infantile complaints. It is also said that it will allay all pain, whether in the gums in process of teething, and at the same time regulate the bowels. Let all mothers and nurses who have endured anxious days and sleepless nights, procure a supply and be at once relieved.

Eruptions, Salt Rheum, Erysipelas.
It is now generally admitted that all eruptive diseases depend upon some internal or constitutional cause. Washes, ointments or washes for them is a sure way to injure the system, and only to drive in, not to cure the disease. But HUMPHREY'S SPECIFIC HOMEOPATHIC SALT RHEUM PILLS are a true specific for all such diseases. They cure Salt Rheum, Barber's Itch, Erysipelas, Pimples on the face, Ringworm, and Nettle Rash, by curing the causes upon which they depend, and restoring the skin to a state of health and purity. Hence not only is the disease cured, but the softness and beauty of the complexion restored.
Price, 25 cents per box, with directions. Six boxes $1.
Sent by mail or express, free of charge, on receipt of the price.
Address, DR F. HUMPHREYS & CO.,
562 Broadway, New York.
Sold in Portsmouth by THACHER.
See advertisement in another column.

Bryan's Pulmonic Wafers!
THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.
The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all ordinary cases of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.
Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov28 dawlm

The Great English Remedy!
Sir Jas Clarke's celebrated Female Pills
Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.
The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publicating; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail to moderate excesses and to remove obstructions*, from whatever cause. They are perfectly harmless, and will not injure the most delicate constitution.—For particulars, send for a pamphlet to the Agent. One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail. nov28 dawlm
Sold by W. R. PRESTON and all druggists.

WISTAR'S BALSAM WILD CHERRY
Coughs, Colds, Bronchitis, Asthma, Croup, Whooping Cough, Quinsy, and the numerous as well as dangerous diseases of the *Throat, Chest* and *Lungs*, prevail, in our changeable climate, at all seasons of the year; few are fortunate enough to escape their baneful influence. How important, then, to have at hand a certain antidote to all these complaints. Experience proves that this exists in *Wistar's Balsam* to an extent not found in any other remedy; however severe the suffering, the application of this soothing, healing, and celebrated remedy for *Coughs and Colds*, and it bids fair to outlive most of the so-called specifics which are now in vogue. We can conscientiously recommend it as a remedy for what it is intended Very truly yours,
NATHAN P. THACHER.

Mr. D. H. TEAGUE, of Turner Village,
Writes the proprietors of this great remedy, as follows:
TURNER VILLAGE, ME., July 31, 1850.
Messrs. SETH W. FOWLE & CO., Boston:
Gents:—I do not hesitate to recommend DR. WISTAR'S BALSAM OF WILD CHERRY for *coughs* and *pulmonary affections*, having used it in my family for many years with great success. I believe it has done more good than all the other remedies I have tried, and their name is legion. If the patent medicine in the world possessed but a portion of the merit of this excellent Balsam, there would be no occasion to condemn them as humbug.
The medicine is also used by many of my friends and acquaintances in this town, and they have found it invaluable; and I hope that others who suffer may give it a fair trial. Very respectfully,
D. H. TEAGUE.
Prepared by SETH W. FOWLE & CO., Boston;
SOLD BY
PRESTON, KIMBALL, HUTCHINGS, J. H. THACHER, N. P. THACHER, Portsmouth; JAMES F. PACKER, Greenland; S. HANSON, Jr., New Market; PORTER & TRING and WM. B. SANFORD, Exeter; J. W. GREEN, Hampton Falls; and by dealers everywhere. s24 4w

REMOVAL.
ANDREW LOWD
has removed his
Harness, Saddlery and Trunk Store
—TO—
No. 32 1-2 Congress Street,
Same Building with WILLIAM BODGE, and nearly opposite the Old Stand.
Where he is ready to attend to all business in his line as usual—in the best manner and at the low est rates.
Grateful for long and liberal past patronage, he would solicit a continuance in his new and improved quarters.
Portsmouth, Nov. 27, 1860.

Local.

In Board of Aldermen, Thursday, Dec. 6.—Committee on Claims made report on several bills.

Com. on Gas Lights reported in favor of gas lights on Liberty Bridge. Adopted.

The following resolution was offered:

Resolved, That Daniel R. Rogers be charged for the land he is about to enclose from Congress street, in the erection of his new building, now about to be built, in the same ratio that the City paid to Capt. Nathan Godfrey for land in widening Vaughan street opposite his premises, the present year.

The resolution was laid on the table.

Voted, That the Collector of Taxes be authorized and directed to advertise all real estate on which taxes remain unpaid on the 20th of February next.

Voted, That the pay of Steward of City Hose Co. be $7 per year. Adj.

☞ In the U. S. *Senate*, on Thursday, Dec. 6, a resolution was offered, for a committee of 13, on the slavery part of the Message. It was laid over.

In the *House*, the Committee, of one from each State, was appointed, on the same part of the message. Mr. Tappan is the member for New Hampshire.

Both Houses adjourned to Monday.

When Senator Gwin went to the polls in San Francisco, to vote, the crowd actually compelled him to make oath of his citizenship before they would let his vote go in. They jostled him about, insulted him with cries that he was a "Mississippi pauper," taunted him with having lost his right to vote by defeating the Pacific Railroad, and generously used him with a harshness and disrespect that, coupled with the result in the State, will no doubt induce him to return to his cotton plantation and let the placers alone. It was Irishmen principally that made jest of his senatorial dignity in this way; and at this poll, the Gwin ticket got 119 out of over 1600 votes. How are the mighty fallen!

New York, Dec. 7.—The Post Office Department sent, yesterday, stamps sufficient to supply the Charleston Post Office till July next, in response to an order from the Postmaster at Charleston.

The Committee on Ways and Means will report a now ten million treasury note bill on Monday, and put it through without opposition.

The general opinion is that the committee of thirty-three will effect nothing.

A dispatch to the Herald says that so severe are Southern men upon Mr. Millson, that a bloody conflict came near being the result of a conversation at one of the hotels, in which Mr. Millson, who moved the adjournment of the House yesterday, was called a "d——d Black Republican."

Mr. Washburn of Ill. was refused his pay at the Treasury Department yesterday, but on threatening to have his draft protested, got the whole amount.

Mr. Seward on the Message.—The Washington correspondent of the N. Y. Post says:

The Message was playfully, but quite happily hit off by Mr. Seward, just after the reading, when some friends of the President asked him what he thought of it. "I think," said the New York Senator, "the President has conclusively proved two things: 1st, that no State has a right to secede unless it wishes to; and 2d, that it is the President's duty to enforce the laws unless somebody opposes them."

Columbia, S. C., Dec. 5.—During the discussion in the Legislature yesterday, with regard to establishing an Ordinance Bureau, Mr. Rhett said that there had been for several years in Charleston, eight large Paixhan guns, which might, perhaps, be used in taking the forts. The military force of the State was stated during the debate to be 65,000 men.

The House has passed the bill authorizing a call for 10,000 volunteers.

Explosion of a Ship's Magazine.—*New York, Dec.* 6.—The magazine of the Spanish frigate at the Navy Yard in Brooklyn exploded this evening, killing two or three persons, and horribly wounding ten or twelve others. The vessel was set on fire, but the flames were extinguished before doing great damage. The quantity of powder in the magazine was small.

Chaplains in the Navy.—*Augusta, Ga., Dec.* 5.—The Georgia Methodist Conference has appointed a committee to prepare an address, condemnatory of the custom of the Navy in requiring the Episcopal form of religious service.

This is mere idle wind, if all the southern people are going to "let the Union slide," or rather slide out of it themselves.

Union Meeting in Philadelphia.—*Philadelphia, Dec.* 6.—The city council has requested the mayor to call a public meeting in order that the citizens of this city may express their adhesion to the Union. A committee of six from each branch were appointed to carry out this request.

Financial.—*New York, Dec.* 6.—Money outside of the banks is rather dearer today, owing to the continued movement of gold to the South. About one million has been lost since yesterday. Boston bank checks sold to-day at two per cent. discount.

Canal Navigation.—*St. Catharines, C. W., Dec.* 5.—The Welland Canal is almost impassable from the snow which fell yesterday and the ice which was made last night. The navigation will probably be stopped to-night.

Manchester, N. H., Dec. 6.—Nicholas Carrol, an Irishman, was to day at noon crushed against a post by a runaway horse. He is in a dying condition. He has a wife and five children.

New Orleans, Dec. 5.—The contemplated meeting of the merchants did not come off. The banks continue firm.

Croton Water Pipes Burst.—*New York, Dec.* 6.—The two Main Croton Pipes in the Fifth Avenue burst last night. It will require from three to six days to make repairs. The city, in the meanwhile, is short of an allowance of water, the water being cut off from all manufacturing establishments. Many, including the newspaper establishments, are obliged to obtain a supply from Brooklyn.

Gloucester.—The money pressure occasioning a large and rapid decline in the prices of mackerel, operates badly upon the fishing interest of Gloucester. If the times had continued as favorable as they were a month ago, the fisheries of 1860 could not have been regarded as very successful.—Now the fish have not only fallen in value, but there is no demand for them, and many of the "cheresmen" belonging to other towns cannot sell at any rates.

Trenton, N. J., Dec. 5.—The Electoral College of the State met yesterday, and cast four votes for Lincoln and three for Douglas.

NOTICE—TO NEW SUBSCRIBERS.

All persons who may now pay $4 for the Daily Chronicle, or $1 for the Weekly Chronicle, for the year 1861,—will be furnished with the paper without charge, from this time to Jan. 1. tf

YOU CAN'T FIND

AN ARTICLE THAT SUITS AS WELL AS

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE

Apothecaries and consumers all testify that

IT IS THE ONLY RELIABLE ARTICLE FOR THE BALD AND GREY,

Read the testimony from Kentucky.

Paducah, Ky., July 27, 1860.

Mr. W. A. Bell—Dear Sir:—I have used Heimstreet's Inimitable Hair Restorative, and am satisfied from an experience in all other preparations for the like purpose, that *it is the only article ever before the public worth purchasing.*

Yours truly, John G. Daly.

Paducah, Ky., July 27, 1860.

Messrs. W. E. Hagan & Co., Troy, N. Y.,

Gents:—Above please find statement of Mr. John G. Daly, merchant of our city, in regard to Heimstreet's Inimitable Hair Restorative. This testimony is given after having used most of the preparations now before the public, *claiming* to be Hair Restoratives, and *must be considered conclusive* as to the merits of the *Inimitable*. Am out of the large size. Forward by railroad double the quantity we had before. Very truly yours

W. A. Bell.

Sold everywhere; price 50 cts. and $1 per bottle.

ANOTHER NEW STOVE

THE MODEL COOK

FOR WOOD OR COAL,

MADE BY

THE BARSTOW STOVE COMPANY

Of Providence, R. I.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking giving an oven nearly 3 ft. long! or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven, with a tin roaster in front of the fire, are obvious, viz:

1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is the most durable, tasteful and useful.

2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking oven.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires; or it can be used for a hot closet when not required for baking or roasting.

5th. By this extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time the stove occupies no more room on the floor.

John Trundy, Esq., one of our most practical and scientific mechanics, who has had large experience in the construction of stove patterns in years past, and has for many years been using one of the Stewart Stoves, has purchased one of the MODEL COOKS, and after a fair trial pronounces it far superior to the Stewart or any stove he has ever seen, for economy, convenience and dispatch We might also refer to several other parties who are using the stove, and who award it the very highest praise.

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be *the* stove for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is wanted.

We have nought to say against any other stove, believing that a man can sell his own goods without depreciating his neighbor's; but this we do say, that we honestly believe this is the *best stove that can be found in the world*; and what is more, we think others will agree with us after a trial of it. We invite any one to examine the stove, whether they wish to purchase or not.

For sale, with a great variety of

Furnaces, Ranges, Cooking, Office and Parlor Stoves! Coal Hods, Sliters, Funnel, Stove-Repairing Pieces, Parlor Grates, Etc.

Autocrat of the Kitchen.—35,000 *in use*

THE ORIGINAL P. P. STEWART,

FUEL-SAVING AND COMFORT-PRODUCING LARGE OVEN, SUMMER AND WINTER

AIR-TIGHT COOKING STOVE,

For Wood & Anthracite or Bituminous Coal

Improved in 1859 with New and Extra Large Flues, and by the addition of the Celebrated Patent Double Sheet Bottom Flue.

Attention is invited to the following Points of Superiority:

Durability.—Lasting, with proper care, at least 20 years. Stoves are now in use that were set up in 1838.

Capacity.—Baking, broiling, boiling, roasting and all other culinary operations performed *at the same time.* A barrel of flour baked into bread with a single fire.

Economy.—Saving the cost of the stove in 2 or 3 years in the item of fuel.

Ventilation of Oven.—In the Stewart Stove alone the fresh air is drawn directly into the oven (protected by letters patent,) securing a direct draft through the *top of the oven*, by means of perforated holes in the doors and back flues. It will be borne in mind, that, as the heated air always rises, this method of ventilation is the only one of any value whatever.

Entire Control of Heat.—The heat generated by the stove, may be held therein and used, or thrown into the room, at pleasure.

The Double Sheet-Bottom Flue.—By which a compressing and inverting action of heat is obtained, and the oven more evenly and efficiently heated than by any other known invention.

Broiling.—Performed *on the top*, and without the possibility of smoke entering the room.

Hot Water Reservoir and Warming Closet.—Both useful and convenient, supplied by the waste heat and without extra fuel.

Water Back.—An arrangement for supplying hot water for the bath room equal to any range.

Beware of the numerous worthless imitations now in market. See that the name of P. P. Stewart is on each stove. No other is genuine.

URIAH BLAISDELL,
43 and 45 MARKET STREET.

Morning Chronicle.

☞ H. K. Oliver, Agent of the Lawrence cotton factory, and State Treasurer elect of Massachusetts, a veteran musical amateur, has found leisure amid business cares to compile a book of psalmody, 317 pages in extent, omitting the usual Elementary schedule, in which he considers many admirable tunes are embodied, which other collections have almost wholly ignored.—Oliver Ditson & Co. are the publishers.

HAYTI.—Thayer & Eldridge of Boston, have in press a GUIDE TO HAYTI, by James Redpath, published under the auspices of President Geffrard, which will embrace a History of that country, its Constitution unabridged, essays on its Natural History, Mineral Wealth, People, Resources, Religion, Revenue, Commerce, Laws, &c., all the Official Documents in relation to the great Emigration Scheme, which is now attracting so much attention from our colored classes, everywhere. No book has been published on Hayti in the United States for thirty years, nor in England for more than twelve years. A volume on Hayti, therefore, is much needed at this time. Two editions of the Guide will be published. Prices Fifty cents for the "Emigrant's Edition," and One Dollar for the "Geffrard Edition," including postage.

POSITION OF THE SOUTHERN METHODISTS.—"We have lately had occasion," says the Charleston Courier, "to report the position and actions, severally, of the Baptist Associations of Alabama and South Carolina, as officially defined by resolutions concurrently asserting the duty and policy of immediate secession.

"Indications that have reached us from many sources, by letter and by personal testimony, assure us that the Methodist Episcopal Church (South) in this State, connected, as it is, with the first great movement of ecclesiastical separation, is overwhelmingly, if not unanimously, on the same platform."

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington,
Under the act of 1837.
79 STATE, OPPOSITE KILBY ST., BOSTON

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantage for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would say that he has abundant reason to believe, and can prove that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during the two years past, has enabled him to accumulate a valuable collection of specifications and official decisions relative to patents. These, with a select and extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHAS. MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that cannot apply to a person more competent and trustworthy, and more capable of putting the application in a form to secure for them an early and favorable consideration of their claims." EDMUND BURKE,
Late Commissioner of Patents
BOSTON, February 8, 1858.

"Mr. R. H. Eddy has made for me, within the last THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unanswerable proof of great talent and ability as his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

From Sept 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided IN HIS FAVOR, by the Commissioner of Patents.
Boston, Jan. 1, 1859. R. H. EDDY.

GARDINER'S
Rheumatic and Neuralgia Compound.
A sure cure for Rheumatism and Neuralgia in its worst form.

The undersigned hereby certify that they have used "Gardiner's Rheumatic and Neuralgia Compound" for the cure of Rheumatism and Neuralgia, and have in every case found immediate and permanent relief. We have full confidence in its healing qualities, and would recommend it to all who are afflicted with those harrassing diseases, as one of the safest and best medicines ever offered to the public.

S. HANCOCK, Jr., 20 South Market street, Boston; W. H. ALLEN, Boston; HENRY A. FULLER, 18 South Market street, Boston; SM. WALKER, Jr., City Hotel, Boston; GEORGE H. PLUMMER, 1 Maverick Square, East Boston; HENRY D. GARDINER, Webster street, East Boston; ABRAM WEEKS, Webster street, Boston; Capt. CHAS. G. DOLLIVER, East Boston.

The best medicine for the disease I ever saw.—C. A. SMITH, No. 1 Old State House, Boston.

Have been afflicted with Rheumatism in its worst form and was entirely cured by the use of one bottle.—A. W. BRYER, Matthews' Building, Commercial street, Boston.

Gardner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

A lame suffering with Rheumatism for twenty years, I was entirely cured by the use of two bottles of Gardiner's Rheumatic and Neuralgia Compound.—NORMAN T. AYERS, 75 Franklin St., Boston.

The Rheumatic and Neuralgia Compound has been taken by hundreds of people for Scrofulous Humors, with great benefit. It may be given to children with perfect safety.

At wholesale by MACY & JENKINS, 67 Liberty st., New York; M. S. BURR & CO., 26 Tremont street, Boston.

Principal Depot—57 Kilby st., Boston.
None genuine unless signed by
CHAS. F. GARDINER.

Sold in Portsmouth by PRESTON, THACHER and KIMBALL; and by Apothecaries generally throughout the country. aug1 lyeod W

THE Remedies are carefully prepared under the direct supervision and inspection of Prof. HUMPHREYS, in order to meet the want and long realized want of the public, namely, remedies for all the more common and simple ailments of life.

A moment's reflection will show that a vast majority of diseases from which we suffer and die, were, at their commencement, simple and trifling. A mere cold, a slight diarrhea, a pain in the side, or a headache, at their appearance, at first easily cured and subdued, in time becomes a consumption, a fever, a dangerous dysentery, Croup or other disease, which all the powers of medicine fail to arrest.

Herein these remedies supply a great public want. Being on hand, simple, so you know at once what to take—cheap, so as to cause no expenditure—safe, and hence occasioning no risk, while the curative effects are positive and certain, they are taken, and at once the spell is broken and the danger allayed.

Experience has amply confirmed the use of these remedies for families and private persons, as being THE MOST PROMPT AND RELIABLE.

Thousands are and have been using them for some time past, in every section of the country, with almost invariable success. All speak in the highest terms of their simplicity and certainty, and many are loud in their praise of them; the uniform testimony is, that they give good satisfaction to their customers.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.

RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic s*, and cannot fail to meet the wants of the debilitated.

It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhoea, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

The very best Physicians in Boston have said "*but it is the best preparation of Bitters that has ever been offered to the public.*"

Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

For further particulars reference is made to the printed circulars.

—FOR SALE BY—

CHARLES H. ATWOOD

Dr. Mott's
CHALYBEATE RESTORATIVE
PILLS OF IRON.

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical authorities, both in Europe and the United States and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise pickly complexions indicate its necessity in almost every conceivable case. Immediate in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:

IN DEBILITY, NERVOUS AFFECTIONS, EMACIATION, CONSTIPATION, DIARRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, and all RHEUMATIC MEMBRANE TRANSITION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Persons bedridden, so far as have become forgotten in their own neighborhoods, have suddenly reappeared in the busy world as if returned from protracted travel in a distant land. Some very aged patrons of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical cases, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In NERVOUS AFFECTIONS or all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously aperient, without being drastic or over-heating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a violent purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual in treatment a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the chronic congestion, one trial of this remedy will convince.

In DYSPEPSIA, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant *Costiveness*.

In unchecked DIARRHŒA, even when advanced to DYSENTERY, confirmed, emaciating, and apparently mortal, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating night sweats, hectic flushes, which generally indicate INCIPIENT CONSUMPTION, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, this medicated iron has had a more than the good effect of the most cautiously balanced preparations of iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In RHEUMATIC MEMBRANE and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating the acute and lingering swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must necessarily rival, if not supersede, all other remedies. Diffusive and its progress in the new settlements of the West, will probably be one of high renown and popularity.

No remedy has ever been discovered, in the whole history of medicine, which exerts such strength, happy, and fully restorative effects.—Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

R. B. LOCKE & CO., General Agents.

BININGER'S
OLD DOMINION
WHEAT-TONIC
—FOR—
FAMILY AND MEDICINAL USE.

This natural product of the most nutritious grain, recommends itself as prescribing in a *convalescent* state, the *milder properties of Wheat*, and has received the highest encomiums from eminent medicinal authorities, as possessing qualities that are absolutely a DESIDERATUM; this *deteriorated* renders it invaluable to those who are suffering from *Consumption, Lung Complaints, Impaired Strength, Lack of Vital Energy*, and all diseases which, in their incipient stages, require only a generous diet, and an invigorating, nourishing stimulant.

Put up in quart bottles, in iron-bound cases of one and two dozen each, and sold by all prominent Druggists, Grocers and Town Agents

BININGER'S
OLD KENTUCKY
BOURBON
"1849 RESERVE"

The *established popularity* of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky whiskey.

Being distilled in 1849, and manufactured expressly for us with great care, it can be relied upon as *strictly pure* stimulant, and peculiarly effective for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency to *recreate* and *strengthen*; while age having contributed its genial charm, and enriched it with a delicious flavor and aroma, it affords a most pleasant incentive to the preservation or recovery of health, through the agreeable medium of a well pleased palate.

Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and sold by all first class druggists, grocers and town agents. A. M. BININGER & CO.,
(Established 1778.)

DR. DARIUS HAM'S
AROMATIC INVIGORATING SPIRIT.
Dyspepsia Remedy

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Headache, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirum Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.
One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.
One dose will remove the most distressing pains of Colic, either in the stomach or bowels.
A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.
Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipation, too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will quicken, invigorate, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the cadaverous face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, isa trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, and sells at 50 cents, qts. $1.

Morning Chronicle.

AN AWFUL MUDDLE.—A correspondent of the Columbia (S. C.) Times gives the following melancholy illustration of the uncertainty of the types. A young gentleman by the name of Conkey, having been united by the holy bonds of wedlock, sent the marriage notice, with a verse of his own composition, to the printer for publication, as follows:

"MARRIED—At Gosham, July 28, A. Conkey, Esq., Attorney at Law, to Miss Euphemia Wiggins, both of Gosham.
Love is the union of two hearts
That beat in softest melody;
Time, with its ravages, imparts
No bitter fusion to its ecstacy."

Mr. Conkey looked with much anxiety for the issue of the Gosham Sentinel, in order to see his name in print. The compositor, into whose charge the notice was placed, happened to be on a spree at the time, and made some wonderful blunders in setting it up—thus:

"MARRIED—At Gosham, July 28, A Donkey, Esq., Eternally at Law, to Mr. Ephemia Piggins, both of Goosham.
Love's an onion of two heads,
That belts in softest melony;
Time with its cabbages imparts
No better fusion to its ecstacy."

Rev. Mr. Spurgeon, the London revivalist, believes in that sort of spiritual direction which the early Quakers professed to follow, and which was more common among religionists of various kinds in ancient times than in these days of "the pride of human reason." In a recent letter to the Boston Watchman and Reflector, after mentioning his descent from Quakers who suffered persecution for of their opinions, Mr. Spurgeon says, "I imagine that I am frequently affected by this old Quaker blood, for I believe in the Holy Spirit's monitions to a larger extent than it were wise to speak of to a mingled audience. I know that I have had repeated warnings and suggestions, and often when I have essayed to preach in a certain town; the Spirit has not suffered me to do so, while on the other hand I have done many things for no other reason, and with no other apparent justification than the inward moving of the Holy Ghost. This may be strange to others, to me it is a habit of life; and if once I feel the motion which I account to be Divine, no human argument can prevent my attempting to obey the message."

HAPPY WOMEN.—A happy woman! is she not the very sparkle and sunshine of life? A woman is happy because she can't help it—whose smile the coldest sprinkle of misfortune cannot dampen. Men make a terrible mistake when they marry for beauty, for talent, or for style; the sweetest wives are those who possess the magic secret of being content under any circumstances. Rich or poor, high or low, it makes no difference; the bright little fountain of joy bubbles up just as musically in their hearts. Do they live in a log cabin? the fire light that leaps up on its humble hearth becomes brighter than the gilded chandeliers in an Aladdin palace. Was ever the stream of life so dark and unpropitious that the sunshine of a happy face falling across its turbid tide would not awaken an answering gleam? Why, these joyous tempered people don't know half the good they do.

The capital of pillars of the Corinthian order had its origin in a simple incident about 540 B. C. On the death of a young maid of Corinth, her lover gathered the ornaments she had most valued when living, and placed them in a wicker basket, covered by a tile, upon her tomb. Close to her grave an acanthus had taken root, and the flowers shooting forth in the spring, its leaves twined around the basket, and convolved beneath the tile in the form of volutes. Attracted by this display, Callimachus, the founder of the Corinthian order, made it the model of his capital; the tile being the abacus, the folinge of the acanthus the volutes, and the whole forming the capital which adorns his column.

☞ The statement that 1500 men in Baltimore have volunteered to aid the secessionists of the cotton States, is a hoax.

Rheumatism in Its Worst Forms CAN BE RELIEVED!

RHEUMATISM CAN BE CURED!

TRY ZOLLICOFFER'S ANTI-RHEUMATIC CORDIAL!

When faithfully tried, it does good.
It has been very successful in this vicinity.—Several wonderful cures have been performed.

RARE CHANCE
TO INVEST IN A SAFE AND PROFITABLE BUSINESS.
The subscriber, having to devote his time to other business, offers for sale the Lease, Stock and Good Will of his STOVE AND TIN WARE ESTABLISHMENT, No. 61 Market Street. Terms easy, and made known on application to
oct20 FRANK JONES

New Photographic Establishment.
Having fitted and furnished in modern style, large, pleasant and commodious rooms, the subscriber is prepared to furnish all who wish with Sun Pictures of every description, from the smallest Miniature to life-size Portraits. Photographs finished in India Ink, Water and Oil Colors, by the best artists in the country. Old Daguerreotypes, &c., copied any size desired.
The subscriber having had many years' experience, from the old Daguerreotype down to the present time, keeping pace with every useful improvement, a success almost unprecedented has heretofore attended him; and by strict attention to business and fair dealing he hopes to merit a share of public patronage.
All work from the establishment warranted to be of the first order, both for finish and durability. Prices as low as in Boston, or any other place where first-class work is performed.
Having a large skylight, pictures can be taken late in the day, and equally as well in cloudy as in fair weather. The public are respectfully invited to call and examine specimens, at 17 Pleasant Street, opposite the New Custom House.
J. E. SMALL.
Portsmouth, August 6, 1860.

EPHRAIM GREEN.

All Ready for the Fall Campaign.
C. E. MYERS & CO.
Are now opening the best selected stock of Goods
FOR FALL AND WINTER WEAR
ever shown to their customers, consisting in part
—OF—
COTTONADES, PETERSHAMS, SHAGS, ENGLISH BEAVERS, TRICOS, FINE BROADCLOTHS, BLACK AND FANCY DOESKINS, VELVET VESTINGS, &c.
We have also on hand a fine stock of READY MADE CLOTHING, and are constantly making additions thereto. Our FURNISHING GOODS department is remarkably complete, comprising UNDER SHIRTS AND DRAWERS, GLOVES, HOSIERY, BOOTS, SHOES, TRUNKS AND VALISES, OIL AND RUBBER CLOTHING.
We take this opportunity to inform the public that, owing to the unusual dullness of the times, we are selling our Goods at about one-half of our usual profit.
This is no humbug. Call and be convinced at
No. 39 Market St. & 2 Bow St.
C. E. MYERS. C. E. SIMPSON.

LYMAN'S
Improved Patent Metallic Soles.
PATENTED JUNE 7, 1859.
The nature of this invention consists of a metallic sole for Boots and Shoes, which has been tested and operates admirably. No dampness penetrates through to the inside sole. This is the only device that will operate well between two soles, and is made so thin as not to interfere with the most delicately finished work. The necessity of such a device to fully accomplish the much desired object, and the material effects arising from damp feet, are too well understood to require any comment.
Boot and shoe manufacturers and dealers in Rockingham County furnished with the soles, with right to use, at No. 24 Market Street, Portsmouth, N. H. J. C. CARR.

The Best Calf Fleece-Lined, Fur Top
GLOVES
Ever offered in this market, can be had at
No. 8 Market Street.
N. B.—You can see them in the window as you pass.

BRICK! BRICK!!
50,000 Hard Brick, for sale by
S. L. RUSSELL,
o 36 Water street.

GEORGE W. PLUMER'S
NEW BAKING ESTABLISHMENT.
SHOPS: No. 22 CONGRESS STREET, and No. 31 STATE STREET.
Orders from neighboring towns and the country promptly attended to.
Having taken the Shop and Bake House, No. 31 STATE STREET, formerly occupied by Mr. S. N. Plumer, the subscriber offers to his patrons
ON TUESDAY, MARCH 27th,
at that place, and also at the new Shop, corner of Congress and Fleet streets, (next door to Jackson & Co.'s Express Office,) a good assortment of all kinds of Bread, Cake and Pastry, including Ship Bread, Crackers, &c., &c.
The Bake House on State street will be open every Sunday morning, for supplying customers with Bread, Beans, &c., as usual.
Baking for Families carefully attended to.
In addition to our Shops, we shall with our Cart, on Tuesday morning, commence supplying customers at their doors. Our agent, Mr. GEO. F. WILDES, will attend to all orders delivered him.
Grateful for past favors, we would respectfully solicit a share of the public patronage.
GEORGE W. PLUMER.

Morning Chronicle.

Portsmouth, N. H.

MONDAY, DECEMBER 10, 1860.

WASHINGTON, Dec. 7.—The President to-day explicitly expressed his determination to send no more troops to the forts near Charleston. He said everything would be done on his part to avoid a collision.

Major Alexander has made no request for reinforcements, and it is represented that the best feeling exists between the garrison at Fort Moultrie and the citizens of Charleston.

The editorial letter of the Boston Atlas dated Washington Dec. 6, says,—

In the House all is, as yet, suppressed feeling, which may not find an expression until the special committee shall have reported. Then, no matter what the report may be, the conflict must commence here. It is certain that the free States will never yield to the insolent and unrighteous demands made for the nationalizing of human slavery, and it seems equally certain that the State of South Carolina will secede within a fortnight. Nobody here now believes that the President will do his duty in enforcing the collection of customs at Charleston. He ought immediately to reinforce the garrison at Fort Moultrie, which he has been notified is altogether insufficient to protect the place. Col. Anderson, who is in command, is a brave officer, and will do his duty, but he has only fifty men, when he ought to have five hundred. If the revolutionists are permitted to seize upon the harbor and the forts at Charleston, then there is no alternative—either the rebels must be subdued by the strong arm of federal power, or the government is practically broken down and stripped of all power to maintain itself.

A lady in South Carolina writes to a relative in New York:

You have heard that our servants all love their masters, and their masters' families, and would lay down their lives for them—that the colored race in the South prefer slavery to freedom—that they would not be free if they could, &c., &c. That is but the *poetry* of the case, the *reality* consists in sleeping upon our arms at night—in doubly bolting and barring our doors—in establishing and maintaining an efficient patrol force—in buying watch-dogs and taking turns in watching our sleeping children, to guard them and ourselves from the vengeance of these same "loving servants"—a vengeance which, though now smoldering, is liable to burst out at any moment, to overwhelm the State in spite of the Palmetto flags or State precautions. They have already learned enough to give them an idea of what is going on in the State and nation, and this knowledge they have not gained from Abolitionists, as some suppose, but from the conversation of their owners indirectly held in their presence. They have already heard of Lincoln's election, and have heard also that he is for giving them their liberty, and you may imagine the result.

It is well known that all papers, periodicals, and books, from the North, known or supposed to be anti-slavery in *any* degree, have been systematically shut out from South Carolina, so far as they could be, for the last twenty years, ever since the famous bonfire in Charleston.

The knowledge of Northern feeling, therefore, possessed by the whites of Carolina, comes through the dirt-eating press of the north, and the satanic press of the centre. From the constant perversions of these papers, the white people of Charleston infer 1, that every republican is an abolitionist; and secondly, that every Abolitionist agrees exactly in his views with Garrison and John Brown, Redpath and Gerrit Smith.

Though these notable men are by no means agreed together, in views or action, the dirt eaters have systematically and purposely overlooked all distinction, and during the late canvas, they have repeatedly represented that Lincoln's election would be an endorsement of all their anti-slavery views, and that he might probably try to carry out their measures.

From hearing the white men talk, the negroes of Carolina are no doubt almost as ignorant as their masters, of what Northern freemen think of slavery,—and what they mean to do.

☞ At a meeting held in Lowell on Tuesday evening, for the purpose of "affording an opportunity for a survey of the moral condition of the city," Hon. Linus Child said: —"There is more intemperance in Lowell than ever before. The females of the mills are addicted to dissipation to some extent, so are some of the public school children. Liquor is sold openly and boldly on the Sabbath, even, and flows almost as freely as water in the canals."

THE POLICY OF SOUTH CAROLINA.—The Washington correspondent of the Philadelphia Press, says, under date of Thursday, that the last advices from South Carolina are cheering. The leaders of the secession movement contemplate no attack upon the public property of the United States government, but will restrain the mob in any assault. They will secede, but will do nothing more till their case is laid before the President and Congress.

EMIGRATION FROM IRELAND.—The Western, Ireland, Star alleges that the exodus still continues. Even at this late period of the season it is scarcely a whit abated. The rush is still outward, and America seems to be the chief destination of those leaving the country. The stream of emigration from Liverpool still continues to flow as rapidly as in June or July.

PROPHECY AND FULFILLMENT.

BY WILLIAM S. WILLEY.

I wish to present to the minds of your readers a woman that is brought to view in the 17th and 18th chapters of Revelation. Here is presented to John a woman, in panorama, from two distinct stand points.—The first stand-point is brought to view in the first verse, when the angel comes to him and talks with him, and says, "*Come hither*, and I will show unto you the judgment of the great whore that sits on many waters, with whom the kings of the earth have committed fornication, and the inhabitants of the earth have been made drunk by the wine of her fornication." I would say here, a woman in prophecy is a symbol of a church.

The first question that arises is, does John see this woman in her judgment? The fifteenth verse of the 17th chapter settles this question, for the angel says to John, "The waters thou sawest where the whore sitteth, are people, and multitudes, and nations and, tongues." Then it is very clear that John saw this woman or church, sitting or located among the nations of the earth, that speak the different tongues, when she receives her judgment. John does not give any account of seeing waters when he saw the woman on the beast.

Before I bring the mind to the point of time in chronology, in which the woman shall receive her judgment, I want to carry the mind to John's next stand-point, where he says in the third verse he is carried away in the spirit into the wilderness, and saw a woman sit on a scarlet-colored beast, having seven heads and ten horns. I wish to say, a beast in prophecy is a symbol of a kingdom or government.

This woman brought to view is arrayed in costly apparel, and decked with costly jewelry, and has a golden cup in her hand, and she is drunken with the blood of the martyrs of Christ.

It appears to me that she is far from being naked at this time that John sees her. John's stand-point here in the wilderness is when five of the seven heads had fallen or done their work in supporting the woman, as is brought to view in the eighth verse.

The sixth head or government, as is represented by the one that now is, brought to view in the tenth verse, must have been Austria, and John's stand-point must have been before Austria had granted free toleration, for the reason that John saw the woman drunken with the blood of the saints.

The seventh head or government, and the last one which was to support the woman or church, was to have two heads, and yet not to be reckoned but one; and it is represented as a government that shall exist, then shall not exist, and then shall exist a second time, as is brought to view in the eleventh verse. This same government is brought to view as having received a deadly wound, and then to be healed. I think we need not go far back in history to find a government that will answer the description, and that is the French government, with the Napoleon that was, and the Napoleon that now is; and past history shows that both Napoleons, with their government, have been associated with a church that will answer the description brought to view by the woman, given in the prophecy. In the ninth verse, the woman is coupled in with seven heads and seven mountains. In the eighteenth verse she is represent d to be the great city that reigneth over the kings of the earth.

This represents to my mind that the woman or church that is supported or protected by the seven heads or governments, is associated with a city that sits on seven hills. There is one, and that is the city of Rome, which will answer the description.

The angel says to John in the sixteenth verse, that the ten horns on the beast that he saw, should "hate the woman and make her desolate and naked, and eat her flesh and burn her with fire, for God hath put it in their hearts to fulfill his will."

It is very evident these horns cannot execute judgment as long as the woman sits on the beast, for while the woman sits on the beast, she is protected by that government, for if the horns attempt to, there would be war at once between the two powers, and the angel's testimony would be destroyed, for he says in the 11th and 13th verses, "They shall agree and give their power and strength to the beast. It is very evident to me that this ten horns or kings, as explained, are the Italian States, with their leaders. The question is, where does the woman sit now, in 1860? I answer, on the waters, and give my reasons.

The French governmeat, with its present head, as symbolized by the beast, has had a standing army in Italy since 1848. At that time the Pope got frightened, and went away in disguise, and when the Pope went back, the French army went back with him to Rome, and has protected him and his interests.

And by so doing the French government has protected the Catholic church and her interests, for the Pope is the head of the church. In 1859, while the war was going on in Europe, between Austria and Sardinia, with Garibaldi, the French army, with Napoleon at the head, went and joined in with Sardinia and Garibaldi. At this time the bishops and cardinals consulted the Pope, in regard to his safety. The Pope's reply was that Napoleon would take care of him.

In the 18th chapter, 7th verse, the angel in explaining to John, says this woman shall say, "I sit a queen, and am no widow, and shall see no sorrow." This language was very appropriate in 1859, when she had a husband to look after her and her interests. In 1860 she *cries* out to the Catholic powers for help, and says she expects to die by the bullet of the assassin. The Catholic papers acknowledge the most holy fathers to be in great trouble.

What has her husband, or the French government, done, that cared for her last year? Napoleon has increased his army in Rome, but not to protect the Pope or church against the ten horns or Italians, for while they have been desolating and making her naked, by taking her territory and army from her, the French army has not interfered. Some may say they do protect the Pope in the city of Rome. There is no evidence of that, for there has not been any assault on the city. It appears that the French army is there; to keep out all the powers that might feel disposed to render help to the Pope.

Napoleon has declared there shall be no intervention, and he will take good care there is none, and at the same time let the ten horns or Italians do the work that is assigned them to do, and finish it in the time appointed that it shall be done.

The angel says to John in the 18th chapter, 8th verse, that "her plagues shall come in one day, death, and mourning, and famine; and she shall be utterly burned with fire; for strong is the Lord God who judgeth her." Now we have come to John's first stand-point, where he saw the judgment of the woman or church.

The time given for the work to be done is one day, and that one is a prophetic day which is one year. Some may say this means a literal day of twenty-four hours. This is not possible, for there is too much work, and the Italians have been more than that already. It may be said it means an indefinite period of time. That would be too much like human nature, and not like God in his past dealings, when he has given definite time. It may be said that the woman is still on the beast, and the ten horns have not commenced their work. This may be possible. The evidence is so clear that it makes it very certain to my mind that the woman is not on the beast, and the work has already commenced. If I knew what time in the year 1860 Napoleon and the Pope dissolved their union, or the Italians commenced to strip the Pope of his rights, I should know at what time in 1861 the work would be finished.

The angel tells John in the 18th chapter, when the shipmasters saw the smoke of her burning, they were to say, "In one hour is thy judgment come." One hour in prophecy is fifteen days. I understand by this it will be fifteen days from the time the city of Rome is taken by the Italians to the time it is burned.

The last news I heard from Italy, the Italian army was at Gaeta, and it must be victorious there; and whether they go into winter quarters there or not, I cannot say. But they must go to Venice, which is part of the Austrian empire now, but was formerly part of Italy; and there they must be victorious, to fulfill the prophecy, for the angel says the ten horns, Italy, shall give their kingdom to the beast, which is France. Therefore Italy must be free from all other powers; and when this is known in Europe, that France has accomplished her object, which the first Napoleon attempted to do, in consolidating the two countries together, the fou: angels which are brought to view in another part of Revelation, will let go the four winds. Wind is a symbol of war; the four angels are the symbols of the four nations that formed the Congress of nations in 1815. Those nations are England, Austria, Russia and Prussia.

I say again, when these four nations see what France has accomplished, they will commence war, and probation will be over with the human family, and the last saint sealed for the kingdom which is to come. I wish to return to the point I left. The Italian army, part of them being at Gaeta, the work they have to do is at Venice, Rome being situated between the two places, I think they will take Rome before they go to Venice. As to the life of the Pope, prophecy is silent upon it.

When I look at the work that was to be done in Italy, and the work that is already done there, it appears that it will not take one month to finish it. I have one more object in view, in bringing this judgment before the public mind. There is one more judgment associated with the one I have been giving in detail, and it is called the day of judgment; and I can say, with the knowledge I have of what is written in the Bible, that there is not another event spoken of from Genesis to Revelation, that is to intervene between the two judgments I spoke of. There is chapter after chapter that is not and will not be fulfilled till after the judgment takes place. As far as I am concerned with the judgment, I am going up there, standing on a foundation which is safe, not belonging to any organized church. I have many reasons why I do not belong to any. I will give three: 1st, Christ has not given permission for tares to be in his church, but has in the world; second, the angel, in explaining to John about the woman on the beast, says "she is the mother of harlots." All we have to do then is to trace back the genealogy of the present organized churches, and we shall find they came out of the Catholic church. So you see we do no injustice to the organized Protestant churches to call them harlots, while their outward character is very appropriate to the name. Not but what I do think there is good wheat among them and the Catholic church, and it will not stay among them long. And when we trace back the genealogy of the mother, we come out in the Babylonian government, when church and state were united.

The third reason is, that the angel's message, brought to view in the 18th chapter of Revelation, is now due to the members of Christ's church, which is yoked up together with Babalonion worship, which is the confusion of doctrines of men, which are not in harmony with the doctrine and commandments given to the fathers, which foundation "patriarchs, prophets and apostles built their hopes upon, Christ being the chief corner stone;" they could give a reason of them, if they had to lose their heads for so doing.

I leave the subject, wait patiently, attend to my business, and watch the elements as they surge.

THE ACCIDENT TO THE NEW YORK WATER PIPES.—The bursting of the two Croton water mains in New York Thursday, was caused by the immense mass of rock and earth piled upon them. The grade in that locality is about twenty-five feet, and instead of filling in with earth, as required by his agreement, it seems that the contractor filled in with rock. As the city will be deprived of the power of extinguishing fires for several days, much apprehension is felt, and great watchfulness is urged upon the people.

TO LET.

HOUSE No. 13 Chapel street. Apply to MATHES & ARRVELL, 48 Market street.

BAD CONDUCT.—At a fire in Norwhich, Ct., on Monday night, the firemen refused to do their duty, *because* the city authorities had recently ordered a steam fire engine. In our opinion the city authorities owe it to the honor of the city, to *order* these firemen from their fire department as soon as they possibly can.—*Lawrence Jour.*

MR. GUTHRIE AND SECESSION.—Hon. James Guthrie made a Union speech at Louisville, week before last. He took moderate ground on questions of the day, distributing his favors equally between North and South, and then in regard to the proper course for Kentucky to pursue, said:—

"Here, on the South side of the Ohio, a middle State, with the free States on the one side and the South upon the other, what have we to gain out of the Union, and shall we be driven or forced into antagonism with either section? We naturally take sides with those whose interests are identical with our own, but we will not fight the battles of South Carolina while she is safe at home in bed!"

200 bushels of "Silver Skins" for sale by
dec5 MAJOR HOOPER & SON

DR. B. C. PERRY,

THE CELEBRATED DERMATOLOGIST,

In accordance with the repeated solicitations he has received from some of the first citizens of Portsmouth during his stay in Portland, having closed his office in Portland after a successful practice of five months, has concluded to remain one week in PORTSMOUTH—when all who are suffering from

Loss of Hair, Premature Blanching, or any Disease of the Scalp,

can consult him.

DR. PERRY is prepared to treat successfully the following diseases, all of which are productive of a loss of hair.

Debilitation of the External Skin, Suppressed Secretion, Irritation of the Scalp, Dandruff or Thickened Secretion, Inflammation of the Sensitive Skin, Matter-tied Secretion, Hair Eater, Distended or Swollen Roots, and Premature Blanching.

This is the only method based upon Physiological principles which has ever been presented to the public for the restoration of the hair.

Dr. Perry's Theory of treating Diseased Scalps and Restoring the Hair.—There are eighteen diseases of the head and scalp, that cause a loss of of hair, and in some cases premature blanching, each requiring in its treatment different remedies. Where loss of hair has resulted from any of those diseases, the first thing to be done is to remove the disease by a proper course of treatment, restore the scalp to its normal healthy state, by opening the pores so the secretion can pass off, and in every follicle that is open, new strands of hair will make their appearance.

The philosopy of premature blanching is this: Iron and Oxygen are the principle constituents of Dark Hair, Lime and Magnesia of Light hair. When the suppressed secretion between the skins contains an excess of Lime, it is taken up by the strands, the portion of the hair which is by opening the pores so the accumulation of Lime passes off with the secretions, the natural components of the hair resume their secondancy, and the hair assumes its natural color.

Because persons have tried various preparations for the hair, and have been deceived by them, and in some cases their difficulty made worse by their use, they should not be discouraged. The one preparation system for any class of diseases, must necessarily be a failure. No one compound can be available for a dozen or more diseases; it may remove some difficulties—in other cases useless, in some positively injurious.

Dr. Perry's method is in accordance with the law of cause and effect. He makes a personal examination, ascertains what disease of the scalp has or is producing a loss of hair or premature whitening, prescribes such remedies, according to its nature and requirements, as will remove the disease. Hence his great success in treating capilliary diseases.

ALL CONSULTATIONS FREE.

Dr. Perry is now ready to receive visitors at
EXCHANGE HALL,
Exchange Buildings, same entrance with Chronicle Office.
Portsmouth, Dec. 3, 1860.

3 MERCANTILE LYCEUM.

The Third Lecture of the Fifth Course before the Portsmouth Mercantile Library Association, will be given AT THE TEMPLE,

FISH AND ONIONS.

250 bushels ONIONS.
150 qls. POLLOCK FISH.
100 boxes SMOKED HERRING.
For sale by S. L. RUSSELL,
38 Water Street.

Special Notices.

KINGSTON, March 10, 1841.—"This may certify that my son has had a humor which made its appearance when he was but a few days old; and it grew worse, causing large swellings and running sores. He has been cured by the use of Dr. Swett's Panacea and Humor Wash."
T. CURRIER.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders addressed to DR. SIMEON SWETT, PORTSMOUTH, N. H., No. 1 School St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and others of his popular remedies, will be promptly attended to.

Catarrh is the most difficult of any of the Diseases of the Breathing Organs to relieve or to cure. The Rev. Joshua Leavitt, editor of the Independent of New York, who had the Catarrh for more than twenty years, has been cured by using Dr. J. S. Stafford's Olive Tar and Iron and Sulphur Powders, which are advertised in this paper. His testimonial is published in a pamphlet among others equally prominent who have been cured of chronic Throats and Long difficulties, which will be sent *free by mail.*

THE INFANTILE CORDIAL.—We notice our druggists have received a supply of DR. EATON'S INFANTILE CORDIAL, which every mother should have. It is said to contain no paregoric or opiate of any kind whatever, and of course must be invaluable for all infantile complaints. It is also said that it will allaye all pain, and soften the gums in process of teething, and at the same time regulate the bowels. Let all mothers and nurses, who have endured anxious days and sleepless nights, procure a supply and be at once relieved.

Eruptions, Salt Rheum, Erysipelas.—It is now generally admitted that all eruptive diseases depend upon some internal or constitutional cause, and that to use ointments or washes for them is a sure way to drive the system, and only a drive in, not to cure the disease. But HUMPHREYS' SPECIFIC HOMEOPATHIC SALT RHEUM PILLS are a true specific for all such diseases. They cure Salt Rheum, Barber's Itch, Erysipelas, Pimples on the face, Ringworm, and Nettle Rash, by curing the cause upon which they depend, and restoring the skin to a state of health and purity. Thus not only is the disease cured, but the softness and beauty of the complexion restored.
Price, 25 cents per box, with directions. Six boxes $1.
Sent by mail or express, free of charge, on receipt of the price.
Address, DR. F. HUMPHREYS & CO.,
562 Broadway, New York.
Sold in Portsmouth by THACHER.
See advertisement in another column.

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.
Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov28 dawSm

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail to moderate excesses and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution—For particulars, send for a pamphlet to the Agent. One dollar and six cents in stamps sent to any authorized agent, will insure a bottle, by return mail. nov28 dawSm
Sold by W. R. PRESTON and all druggists.

WISTAR'S BALSAM WILD CHERRY

Coughs, Colds, Bronchitis, Asthma, Croup, Whooping Cough, Quinsey, and the numerous as well as dangerous diseases of the *Throat, Chest* and *Lungs*, prevail, in our changeable climate, at all seasons of the year; few are fortunate enough to escape their baneful influence. How important, then, to have at hand a certain antidote to all these complaints. Experience proves that this exists in *Wistar's Balsam* to an extent not found in any other remedy; however severe the suffering, the application of this soothing, healing and wonderful Balsam at once vanquishes the disease, and restores the sufferer to wonted health.

From a Respectable Druggist.

PORTSMOUTH, Aug. 8, 1860.
MESSRS. S. W. FOWLE & CO., Boston.—
GENTS:—Please send us a fresh supply of WISTAR'S BALSAM OF WILD CHERRY. We are selling large quantities of this long celebrated remedy for *coughs and colds*, and it bids fair to outlive most of the so-called specifics which are now in vogue. We can confidently recommend it as a remedy for what it is intended. Very respectfully,
NATHAN P. THACHER.

Mr. D. H. TEAGUE, of Turner Village, Writes the proprietors of this great remedy, as follows:

TURNER VILLAGE, ME., July 31, 1860.
MESSRS. SETH W. FOWLE & CO., Boston:—
GENTS:—I do not hesitate to recommend DR. WISTAR'S BALSAM OF WILD CHERRY for *coughs* and *pulmonary affections*, having used it in my family for many years with great satisfaction. Indeed it has done more good than all the other remedies I have tried, and their name is legion. If all the patent medicines in the market possessed but a portion of the merit of this excellent Balsam, there would be no occasion to condemn them as humbugs.
The medicine is also used by many of my friends and acquaintances in this town, and they have found it invaluable; and I hope that others who suffer may give it a fair trial. Very respectfully,
D. H. TEAGUE.

Prepared by SETH W. FOWLE & CO., Boston;
SOLD BY
PRESTON, KIMBALL, HUTCHINGS, J. H. THACHER, N. P. THACHER, Portsmouth; JAMES, P. PACKER, Greenland; S. HANSON, JR., New Market; PORTER & TRING and WM. H. SAFFORD, Exeter; J. W. GREEN, Hampton Falls; and by dealers everywhere. e25 4w

Same Building with WILLIAM BODGE, and nearly opposite the Old Stand,
Where he is ready to attend to all business in his line as usual—in the best manner and at the lowest rates.
Grateful for long and liberal past patronage, he would solicit a continuance in his new and improved quarters.
Portsmouth, Nov. 27, 1860.

Local.

☞ About 7 o'clock on Saturday evening, fire was discovered in the back part of the State Street school-house—set under the back stair-way on Court street. No great damage was done, as it was promptly extinguished. It is said to have originated by a boy placing a hod or pan of coals from the stove, in the entry.

☞ An advertisement that the Firemen of Portsmouth are to give a grand entertainment of tableaux, vocal and instrumental music, &c., at the Temple on Wednesday evening next—was received too late for to-day's Chronicle.

☞ The Lady's Almanac for 1861, a perfect gem of a minature book, is just published by Chase, Nichols & Hill, Boston; and sold by J. H. Foster, Portsmouth.

One of the novelties in the book, is the series of Illustrated Fashion plates, for 150 years.

In 1700, long waists, full skirts, trailing full half a yard behind.

In 1725, fuller skirts, a little shortened.

In 1750, full hooped skirts, long waist before, no waist behind.

In 1775, no hoops, scant gown, gigantic head dress, high heeled shoes.

In 1796, dashy head dresses and short waisted slouchy dress.

In 1800, neater every way, clothes just to the floor.

In 1825, scant dresses, long waist.

It is rather singular that the *shortest* dress exhibited, touches the ground; inasmuch as it has been the fashion, at least twenty years of the last fifty, for women to wear their skirts clear of the mud by a hand breath or two, and sometimes to wear them quite short; as convenient a fashion, if not as graceful, as the present usage of having them very long and then having the fair wearers pull them up half a yard or so, and carry them along in the hands or round the upper hoops.

SAD FATE OF DESERTERS.—Four men recently deserted from the Second Infantry, stationed at Fort Ripley, says a letter from St. Cloud, Minnesota. One of them reached the settlements safe, but was discovered, when he revealed the fact that three others were behind on the prairie. Two were afterward found by a haystack, and having lain out all night somewhat intoxicated, one had frozen his feet and the other his hands. The third was found lying upon the ground frozen and lifeless. A part of his clothing was torn off him, and his hand tightly grasped a whiskey canteen, and held it but a few inches from his face. He appeared to have perished in a fit of helpless intoxication, and presented a sickening aspect.

WIFE OF THE PRESIDENT ELECT.—A correspondent of the N. Y. World, writing from Illinois, thus refers to Mrs. Lincoln, wife of the President elect:—

The future lady of the White House is, perforce, a personage to whom just now the liveliest interest attaches. That she will adorn and grace even the exalted position to which she bids fair to succeed, none who have had the fortune to see her can doubt. She is yet apparently on the advantageous side of forty, with a face upon which dignity and sweetness are blended, and an air of cultivation and refinement to which familiarity with the courtly drawing rooms of London or the aristocratic saloons of Paris would hardly lend an added grace. She is admirably calculated to preside over our Republican court. If one were permited so far to describe her personal appearance as to meet half way the respectful curiosity which is generally felt upon the subject, the description would be: that she is slightly above the medium stature, with brown eyes, clearly cut features, delicate, mobile, expressive, rather distinguished in appearance than beautiful, conveying to the mind generally an impression of self possession, stateliness and elegance. I distrust my own opinion upon subjects of the kind, but I concur in the belief prevalent hereabouts, that she will make as admirable a leader of the stately dames and lovely demoiselles of the national capital, as the most fastidious social martinet could desire.

INTER-STATE CONVENTIONS.—Sundry States of this confederacy are, it appears, about to hold conventions, and to send commissioners to each other's conventions. We presume that this is not a farce, and that the conventions and commissioners are expected to accomplish something. We therefore call the attention of President Buchanan to the 10th section, article 2, of the Federal Constitution, wherein are the following words:—

"No State shall, without the consent of Congress, * * * enter into any agreement or compact with any other State or with a foreign power."

POLITICAL.—At a meeting of the New York Republican State Committee on Tuesday, in Albany, Ex-Senator Dart offered a series of resolutions, reaffirming the position of the Republican party, congratulating the country upon the success of the Chicago nominees, and declaring strongly against any retrograde movement. The resolutions were acted upon at an adjourned meeting of the committee on Wednesday, and unanimously adopted.

The New York Post has a dispatch from Sacramento, Cal., Nov. 24, via Fort Kearney, Dec. 5, which states that full returns of the Presidential election have been received. They make California and Oregon sure for Lincoln.

SERVED HIM RIGHT.—A man glorying in the euphonious name of Bull Frog, charged with stealing a shawl, was sentenced to labor six months in the chain gang, in Cincinnati, the other day. It is a disputed point at the West, whether his name *or the theft* induced so heavy a sentence.

Victor Emanuel was expected to go to Palermo on the 26th. A deputation had presented him with the result of the voting in Umbria and the Marches.

The Piedmontese Parliament was to be convened and forthwith dissolved in order to be replaced by an Italian Parliament.

☞ Prof. Tripp's Lecture, to be delivered at the Temple next Tuesday evening, is to be on Garibaldi and Italy, in which events are noticed to latest dates.

The lecturer and his lectures in general are highly recommended by Dr. Sears, Edward Everett, Rev Drs. Bellows of New York and Kirk of Boston, Agassiz, Geo. N. Bigelow, Home Journal, Boston Courier, Journal and Traveller, Nantucket Inquirer and Mirror, &c.

In the lecture now to be given, on Garibaldi and Italy, the public will have, not only the interest belonging the lecturer and his first class recommendations and references, but also that interest which belongs to some of the most stirring events of our times.

NOTICE—TO NEW SUBSCRIBERS.

All persons who may now pay $4 for the Daily Chronicle, or $1 for the Weekly Chronicle, for the year 1861,—will be furnished with the paper without charge, from this time to Jan. 1. tf

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

ANOTHER NEW STOVE

THE MODEL COOK

FOR WOOD OR COAL,

MADE BY

THE BARSTOW STOVE COMPANY

Of Providence, R. I.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking giving an oven nearly 3 ft. long! or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven, with a tin roaster in front of the fire, are obvious, viz:

1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is the most durable, tasteful and useful.

2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking oven.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires: or it can be used for a hot closet when not required for baking or roasting.

5th. By this extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time the stove occupies no more room on the floor.

John Trundy, Esq., one of our most practical and scientific mechanics, who has had large experience in the construction of stove patterns in years past, and has for many years been using one of the Stewart Stoves, has purchased one of the MODEL COOKS, and after a fair trial pronounces it far superior to the Stewart or any stove he has ever seen, for economy, convenience and dispatch We might also refer to several other parties who are using the stove, and who award it the very highest praise.

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be *the* stove for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is wanted.

We have nought to say against any other stove, believing that a man can sell his own goods without depreciating his neighbor's; but this we do say, that we honestly believe this is the *best stove that can be found in the world;* and what is more, we think others will agree with us after a trial of it. We invite any one to examine the stove, whether they wish to purchase or not.

For sale, with a great variety of

Furnaces, Ranges, Cooking, Office and Parlor Stoves; Coal Hods, Sitters, Funnel, Stove-Repairing Pieces, Parlor Grates, Etc.

Cook Stoves.

Autocrat of the Kitchen.—35,000 *in use*

THE ORIGINAL P. P. STEWART,

FUEL-SAVING AND COMFORT-PRODUCING LARGE OVEN, SUMMER AND WINTER

AIR-TIGHT COOKING STOVE,

FOR WOOD & ANTHRACITE OR BITUMINOUS COAL

Improved in 1859 with New and Extra Large Flues, and by the addition of the Celebrated Patent Double Sheet Bottom Flue.

Attention is invited to the following Points of Superiority:

DURABILITY.—Lasting, with proper care, at least 20 years. Stoves are now in use that were set up in 1838.

CAPACITY.—Baking, broiling, boiling, roasting and all other culinary operations performed at *the same time.* A barrel of flour baked into bread with a single fire.

ECONOMY.—Saving the cost of the stove in 2 or 3 years in the item of fuel.

VENTILATION OF OVEN.—In the Stewart Stove alone the fresh dome opens directly into the oven (protected by letters patent,) securing a direct draft through the *top of the oven,* by means of perforated holes in the doors and back flues. It will be borne in mind, that, as the heated air always rises, this method of ventilation is the only one of any value whatever.

ENTIRE CONTROL OF HEAT.—The heat generated by the stove, may be held the gain and used, or thrown into the room, at pleasure.

THE DOUBLE SHEET BOTTOM FLUE.—By which a compressing and inverting action of heat is obtained, and the oven more evenly and efficiently heated than by any other known invention.

BROILING.—Performed on *the top,* and without the possibility of smoke entering the room.

HOT WATER RESERVOIR AND WARMING CLOSET.—Both useful and convenient, supplied by the waste heat and without extra fuel.

WATER BACK.—An arrangement for supplying hot water for the bath room equal to any range.

Beware of the numerous worthless imitations now in market. See that the name of P. P. Stewart is on each stove. No other is genuine.

URIAH BLAISDELL,

43 and 45 MARKET STREET.

SEVEN YEARS!

The seven years of unrivalled success attending the

COSMOPOLITAN

Art Association,

have made it a household word throughout every quarter of our country.

Under the management of this popular Institution, over *three hundred thousand homes* have learned to appreciate—by beautiful works of art on their walls, and choice literature on their tables—the great benefits derived from becoming a subscriber.

Subscriptions are now being received in a ratio unparalleled by that of any previous year.

TERMS OF SUBSCRIPTION.

Any person can become a member by subscribing *two dollars*, for which sum they will receive

1st.—The large and superb steel engraving, 30 x 38 inches, entitled

Falstaff Mustering His Recruits,

2d.—One copy, one year, of the elegantly illustrated magazine, the

"COSMOPOLITAN ART JOURNAL."

3d.—Four admissions, during the season, to

"The Gallery of Paintings, 548 Broadway, New York."

In addition to the above benefits, there will be given to subscribers, as gratuitous premiums, over

Five Hundred Beautiful Works of Art,

comprising valuable paintings, marbles, parians, outlines, &c., forming a truly national benefit.

THE SUPERB ENGRAVING, which every subscriber of will receive, entitled "FALSTAFF MUSTERING HIS RECRUITS," is one of the most beautiful and popular ever sent to this country. It is done on steel, in *fine line and stipple*, and is printed on heavy plate paper, 30 by 38 inches, making a most choice ornament, suitable for the walls of either the library, parlor or office. Its subject is the celebrated scene of Sir John Falstaff receiving in Justice Shallow's office the recruits who had been gathered for his "Ragged Regiment." It could not be furnished by the trade for less than five dollars.

The *Art Journal* is too well known to the whole country to need commendation. It is a magnificently illustrated magazine of Art, containing Essays, Stories, Poems, Gossip, &c., by the very best writers in America.

The Engraving is sent to any art of the country by mail, with safety, *being packed in a cylinder*, postage prepaid.

Subscriptions will be received until the Evening of January 31, 1861, at which time the books will close, and the premiums be given to subscribers.

No person is restricted to a single subscription. Those remitting $15, are entitled to five membership, and one extra Engraving for their trouble.

Subscriptions from California, the Canadas, and all Foreign Countries, must be $3.00 instead of $2, in order to defray extra postage, &c.

For further particulars send for a copy of the elegantly illustrated *Art Journal*, pronounced *the handsomest magazine in America*. It contains Catalogue of Premiums, and numerous superb engravings. Regular price, 50 cts. per number.—Specimen copies, however, will be sent to those wishing to subscribe, on receipt of 15 cents, in stamps or coin.

Address C. L. DERBY, Actuary C. A. A., 548 Broadway, New York.

N. B. Subscriptions received received and forwarded by

FRANK W. MILLER,

Agent for Portsmouth and vicinity,

Where specimen Engravings and Art Journal can be seen.

Portsmouth, Nov. 23, 1860.

THE ONLY PREPARATION

Having Proof so Strong and Direct

AS TO

Expel the Doubts of All.

For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all cases of eruptions, and diseases of the scalp and brain; but all too have named it, unite in testifying that it will preserve the hair from being gray, and from falling to any age, as well as restore.—Read the following:—

Oak Grove, S. C., June 24, 1859.

Prof. O. J. Wood:—Dear:—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test.—

During the year 1854, I was so unfortunate as to be thrown from my ambly against a rock near the roadside, from which my head received a most terrible blow, causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. From the effect first discovered in the dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and a thought, independ-ent of the nature of the disease, but was finally defeated in every prescription advanced.

Time and no other remedy could, indeed me to resort to your worthy "Hair Restorative," which I have every reason to believe, produced a very happy result; and, to be brief, after the first application, I had as beautiful a head of young hair as I ever saw, for which I certainly owe you my sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself to say, is not a little.

You can publish this if you think proper.

Yours, very respectfully,

M. J. WRIGHT, M. D.

Jeffersonian Office, Phillipi, Va., Dec. 12, 1859.

Professor O. J. Wood:—Dear Sir: I feel it my duty as well as my pleasure, to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, (a lawyer,) has been bald ever since his early youth; so much so that he has been compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much, and after using one or three more bottles, his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and he is very well known throughout adjoining counties, many persons can testify to the truth of this statement; I give this to you at the request of Mr. Bradford. You can tell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents.

Yours, &c.,

THOMPSON SURGHNOR.

Dr. Wood—Dear Sir:—Permit me to express the obligations I am under for the entire restoration of my hair to its original color, and that too, of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable.

B. THALEBERG.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds half a pint, twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent more in proportion, and retails for $3 a bottle.

AMBROTYPE COPIES!

J. F. SHORES, JR., No. 1 CONGRESS BLOCK, has just opened a large variety, comprising several subjects, of

Ambrotype Copies of Fine Engravings.

These copies are taken from the best impressions, usually early proofs, and are put up in a neat and substantial manner.

The quality and tone of the copies have been greatly improved, and they are now placed before the public with confidence that their merit will ensure a hearty welcome for them.

My friends and the public are invited to "drop in" and examine them, and also the fine lot of *Stereoscopic Pictures* now on hand.

Just the thing for a Christmas or New Year's Present.

NOTICE.

All persons having demands against the undersigned will please have them with Mr. JOHN S. HARVEY, No. 47 Congress St., for settlement, and those indebted will please pay him.

Humphreys' Specific Homeopathic Remedies for the People

THE Remedies are carefully prepared under the direct supervision and prescription of Prof. HUMPHREYS, in order to meet that great and long realized want of the public, namely, remedies for all the more common and simple ailments of man.

A moment's reflection will show that a vast majority of diseases from which we suffer and die, were, at their commencement, simple and trifling. A mere cold, a slight diarrhea, a pain in the side, or a headache, or hoarseness, at first easily cured and subdued, in the progress to consumption, a fever, a dangerous dysentery, Croup or other disease, which all the powers of medicine fail to arrest.

Herein these remedies supply a great public want. Being on hand, simple, so you know at once what to take—pleasant, so as to cause no repugnance, safe, and hence occasioning no risk, while the curative effects are positive and certain, they are taken, and at once the spell is broken and the danger alayed.

Experience has amply confirmed the use of these remedies in families and private persons, as being THE BEST IN USE, THE MOST SIMPLE AND CONVENIENT, THE MOST PROMPT AND RELIABLE.

Thousands are and have been using them for some five years past, in every section of the country, with almost invariable success, and speak in the highest terms of their efficacy, certainty, and among our hundreds of agents the uniform testimony is, that they give good satisfaction to their customers.

LIST OF

HUMPHREYS' SPECIFIC HOMEOPATHIC REMEDIES

No.		Price of Single Boxes—cents
1.	Cures Fever, Congestion, and Inflammation	25

ATWOOD'S QUININE TONIC BITTERS,

The Best Aromatic Tonic ever offered to the Public.

RECOMMENDED BY THE FACULTY

For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of Quinine, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic s*, and cannot fail to meet the wants of the debilitated.

It is valid tonic to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the debilitated nervous system after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhoea, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

One of the very best physicians in Boston has said "*but it is the best preparation of Bitters that has ever been offered to the public.*"

Put up in half pints as well as quart bottles, in order that all may convince themselves of its superior merits.

For further particulars reference is made to the printed circulars.

Boston, Sept 1, 1860.—eS 3awly

Dr. Mott's

CHALYBEATE RESTORATIVE

PILLS OF IRON.

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:

IN DEBILITY, NERVOUS AFFECTIONS, EMACIATION, CONSTIPATION, DIARRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease, or of the continued diminution of nervous and muscular power, in chronic complaints, one trial of this restorative has proved successful to an extent which no description could venture attention would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly reappeared in the busy world as if returned from protracted travel in a distant land. Some very signal instances of this kind are attested of females, who suffered emaciated forms of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In NERVOUS AFFECTIONS of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and over-heating; and gently, regularly aperient, even in the most obstinate cases of constipation without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency, which forms them.

In DYSPEPSIA, innumerable as are its causes, a single box of Mott's Chalybeate Pills has often sufficed for the most habitual cases, including the attendant *Costiveness*.

In unchecked DIARRHŒA, even when advanced to the last stage, accompanied, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the LEUCORRHŒA, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate INCIPIENT CONSUMPTION, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, this medicinal iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in cases of nervous debility affecting them.

In RHEUMATISM, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

To MARRIED PERSONS it must be necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects.—Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 25 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

BININGER'S OLD KENTUCKY BOURBON "1849 RESERVE"

The established popularity of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky Whiskies.

Being distilled in 1848, and manufactured expressly for us with great care, it can be relied upon as a *strictly pure* stimulant, and peculiarly effective for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency to *recruit* and *strengthen*; while age has long contributed its genial virtues, and enriched it with a delicious flavor and an oily body, it affords a pleasant incentive to the preservation or recovery of health, through the agreeable medium of a well pleased palate.

Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO.,

(Established 1772.)

Dyspepsia Remedy

DR. DARIUS HAM'S AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney or Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—I wine glass full as often as necessary.

One dose will remove Hard Spirits.

One dose will cure Heartburn.

Three doses will cure Indigestion.

One dose will give you a good appetite.

One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the sinking load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness, &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual course, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, as trial, and to induce this, he has put up the INVIGORATING SPIRIT in just bottles, at 50 cents, qts $1.

THEIR RIGHTS.—The Catholics are uneasy at the distinction made between them and Protestants in the Courts, as witnesses. Judge Lord, a short time since, threatened to punish Mr. Thomas Ronan, of Newbury-port, unless he would kiss the "book." It was not enough for him to hold up his hand and tell the truth like other men. Others have been annoyed in the same way, and a movement is on foot to bring the matter before the next legislature, praying that there may be no distinction among men on account of their religious belief. They never get into the Jurors' seats, and they think it hard that they should not be on an equality on the witness stand.—*Herald.*

It is well known that many Irish when being sworn in the common way, will not scruple to falsify their statements; but when sworn on their own Roman church bible, with a cross on it, will change their story, change color, and exhibit fear.

In New Hampshire they are usually sworn like others—but in cases of any consequence, every man should be bound as far as he can be, by his own superstition or fact.

NEW YORK GOSSIP.—By Burleigh, of the Boston Journal:—The low Democracy of the city carried all before them in the municipal election. The tax payers were too full of panic—too full of their personal troubles and too much occupied with the affairs of the nation to attend to their own business but it is quite probable that some of them will wake up before the year is out. The Japanese bill will now be paid; the election only stood in the way.

Ullman's opera season went up as a rocket and came down as a stick—one night of plenty and a week of dearth. Thin house—no moon—general muss—laying down the scepter—a public abdication—mark the week at the Academy of Music. New York has no taste for the opera, and never had; Christy is more to the real taste of the city. As some men eat olives and as Mrs. Douglas tried to like clams in Rhode Island, the elite of New York have tried to like the opera—but they can't.

DON'T CAREY THEIR OWN GUNS.—A young lady from Vermont, teaching in a town in Georgia, writes to her parents thus:

The people here are very much excited over the election of Mr. Lincoln. Yesterday they formed a military company among the young men, with a view to the exigencies of the hour, and to-day they came out to drill The most remarkable part of the performance to a Yankee girl was to see each soldier have a negro to carry his gun.

The chivalrous soldiers should look out, or these negroes may fire these guns, as well as carry them, and that too, in the wrong direction.

THE BOBBIN BOY.—The fruits of the "Bobbin Boy" are beginning to appear. In a village about twenty-five miles from Boston, several youth read the book when it was first issued, and they immediately decided to form a "debating club" like Nat's. At first no spectators were admitted to their discussions; but soon the doors were thrown open and the public welcomed. Every week the hall is filled with parents and other friends, delighted to witness the progress these boys of fifteen or sixteen years of age are making in the excellent exercise of debating.—*Boston Transcript.*

Herrick Allen's Gold Medal Saleratus is far superior to super-carbonate of soda, and may be used in the same manner, with cream tartar, and for all other purposes where soda is used. It is perfectly healthy, and requires less in quantity. Try one paper, and you will never have any other. Grocers and Druggists sell it.

There is another article in the market put up in similar colored papers. Do not be deceived by it. See that the name of HERRICK ALLEN is on the wrapper, and no mistake can occur. Manufactured by Allen & Taylor, corner of Canal and Centre streets, New York, and sold at wholesale by Israel Nash & Co., Boston. M&F is

Rheumatism in Its Worst Forms
CAN BE RELIEVED!

RARE CHANCE
TO INVEST IN A SAFE AND PROFITABLE BUSINESS.

The subscriber, having to devote his time to other business, offers for sale the Lease, Stock and Good Will of his STOVE AND TIN WARE ESTABLISHMENT, No. 61 Market Street. Terms easy, and made known on application to
oct20 FRANK JONES.

New Photographic Establishment.

Having fitted and furnished in modern style, large, pleasant and commodious rooms, the subscriber is prepared to furnish all who wish with Sun Pictures of every description, from the smallest Miniature to life-size Portraits. Photographs finished in India Ink, Water and Oil Colors, by the best artists in the country. Old Daguerreotypes, &c., copied any size desired.

The subscriber having had many years' experience, from the old Daguerreotype down to the present time, keeping pace with every useful improvement, a success almost unprecedented has heretofore attended him; and by strict attention to business, and fair dealing he hopes to merit a share of public patronage.

All work from the establishment warranted to be of the first order, both for finish and durability. Prices as low as in Boston, or any other place where first-class work is performed.

Having a large skylight, pictures can be taken late in the day, and equally as well in cloudy as in fair weather. The public are respectfully invited to call and examine specimens, at **17 Pleasant Street,** opposite the New Custom House.
J. E. SMALL.
Portsmouth, August 6, 1860.

C. E. MYERS. C. E. SIMPSON.

LYMAN'S
Improved Patent Metallic Soles.
PATENTED JUNE 7, 1859.

The nature of this invention consists of a metallic sole for Boots and Shoes, which has been tested and operates admirably. No dampness penetrates through to the inside sole. This is the only device that will operate well between two soles, and is made so thin as not to interfere with the most delicately finished work. The necessity of such a device to fully accomplish the much desired object of the hygienic effects arising from damp feet, are too well understood to require any comment.

Boot and shoe manufacturers and dealers in Rockingham County furnished with the soles, with right to use, at No. 24 Market Street, Portsmouth, N. H. **J. C. CARR.**

The Best Calf Fleece-Lined, Fur Top
GLOVES

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, DECEMBER 11, 1860.

PRO-SLAVERY PREACHING.—According to an item which we have already published, Dr. Nehemiah Adams of Boston, came out in his Thanksgiving sermon, to the surprise of his people, in the defense of the divine right of slavery, from the text—"Out of the north an evil shall break forth upon all the inhabitants of the land."—From this text Dr. Adams delivered a strong pro-slavery sermon, in which after stating that the abuses of the system of slavery were to be deplored and depreciated, he argued that slavery is a *divine institution*, recognized as such in the Bible; and claimed that there would be no peace or quietness in the land until the community come to recognize and treat it as such.

A friend at our elbow suggests, that if slavery be a *divine* institution, in any such sense as that we must reverence it as a work of God, then Wilberforce, Clarkson, Franklin, Jefferson and others, who contended against slavery and the slave trade, must have done so at the instigation of the devil,—and wishes to know what Dr. Adams thinks of it, and President Lord also, if he would look at it.

In the mean time, we give the following extract from the Congregational Journal, on the text and Dr. Adams' use of it.

If the reader will turn to the chapter from which the text of the sermon is selected, and read the context, he will see that the evil which should break "forth upon all the inhabitants of the land" was predicted upon Judah and Jerusalem as a just recompense for their sins. The Prophet goes on to say, "For lo I will call all the families of the kingdoms of the North saith the Lord, and they shall come and they shall set every one on his throne at the entering of the gates of Jerusalem and against all the walls thereof around about and against all the cities of Judah. And I will utter my judgments against them touching all their wickedness who have forsaken me and have burned incense unto other gods, and worshiped the work of their own hand." The evil therefore which should come from the north upon the south was the righteous judgment of God for the sin of idolatry.

It seems to us that such a use of the language of the Prophet cannot be justified even upon the most liberal rules of accommodation, and that it is a perversion of scripture.

SAD SKATING ACCIDENTS.—An unusual number of cases of drowning of lads by venturing on thin ice have occurred this season. At Rindge, N. H., on Thanksgiving Day, Granville B., aged 14, and Sabin P., aged 11 years, sons of Mr. Austin Brailford, were drowned while skating. They had permission to skate on the edge of the pond, but the eldest ventured too far out and fell through. His brother went to his relief and both perished.

At Troy, N. H., on the day before Thanksgiving, two sons of Stephen B. Farrar—Johnnie S., aged 12 years, and Charlie D., aged 10 years—were missing. The father heard that they had gone to skate upon a small pond. On approaching the spot, he saw the boys' caps on the ice, when he rushed forward, and before he was aware of it had stepped into the hole where his sons had fallen, and was himself nearly half an hour in the water, whence he extricated himself with much difficulty. He went to the village, procured help, and the dead bodies of his two sons were hooked out from the bottom of the pond, where they had been some four hours.

NEW HAMPSHIRE ITEMS.—At Sutton, on Wednesday last, while Mr. Louis Barker was away from home, his wife went into a neighbor's, leaving two children in the house, the oldest only five years of age. When the mother returned, the house was in flames, and before the children could be rescued they were both suffocated by the smoke. The house was entirely destroyed.

The house, barn, and all the outbuildings of John T. Churchill of Brookfield, were burnt on Sunday evening last, with all their contents, including 22 head of cattle, 1 horse, 10 tons of hay, and all the household furniture. The family were absent at a meeting, and it is not known how the fire originated. No insurance.

MARYLAND.—A State Convention of the Douglas Democracy of Maryland was held at Baltimore on Thursday, at which a series of resolutions declarative of fidelity to the union of the States, were adopted. The aggressive laws of the Northern States are deprecated, and at the worst, they will defend the State of Maryland in and not out of the Union. They request Gov. Hicks to convene the Legislature when, in his judgment, the necessity of the crisis requires it.

STAND FIRM.—In the course of a prayer, offered on Sunday, by Rev. Dr. Kirk, at the Mt. Vernon Church, Boston, he "prayed there would be no sacrifice of principle for an unhallowed peace."

☞ The Lady's Almanac, for 1861, a beautiful minature annual, just published, is for sale at Mr. Shores' bookstore.

SECESSION.

Ex-President Pierce, in his published letter, dated at Lowell, 26th Nov. ult., on "the fearful crisis," seems to be greatly alarmed at the prospect of the secession of some of the slave States from the Union. His remarks may tend to frighten some weak, timid men and women, but can have no such effect upon the enlightened freemen of the North, who, knowing their rights, dare maintain them. He says, "In case of disruption, we shall all be involved in common financial embarrassment and ruin, and I fear, in common desolation, so much more appalling than any attendant upon mere sacrifice of property, that one involuntarily turns even from its contemplation." We have often heard such croakings before, when the oligarchy threatened to dissolve the Union. But the truth is, that it is not in the power even of a majority of the slave States to dissolve the union of seventeen free States with a population now six times larger than that of the thirteen colonies which gained our National Independence. Suppose that the States most deeply affected with the leprosy of slavery should be separated from the body-politic, would that affect the health and welfare of the other States, which would still maintain our form of government and the constitution, framed by the wisest American statesmen, which would require no essential alteration except that of expunging two clauses having reference to slavery? We would not disgrace that sacred instument by inserting the amendments proposed by President Buchanan, which, if adopted, would convert human beings—slaves—into "*property*" in the States and Territories of the United States,—compel the free States to deliver fugitive slaves back to their masters, and protect the master's "property" in all the territories,—declare the fugitive slave bill to be constitutional, and all the State laws in conflict with it, null and void.

It is needless to say that the free States can never entertain these proposals, without dishonoring themselves in the eyes of the civilized world. The compromise would be all on one side. Such concessions would calm down the arrogant oligarchy for a time; but granted, more would ere long be required, and if refused, secession would be threatened.

Secession would be treason against federal government, but there would be no way to punish the traitors, certainly not by the Southern tribunals justifying the rebellion. In our judgment it would be the best policy for the free States, instead of raising an army to compel obedience to the laws of the Federal government, to let the rebelling States secede, and remain out of the Union, until they should repent of measures ruinous only to themselves. The industrial pursuits of the free States would not be injured—our commerce with foreign countries,—our manufactures, arts and sciences would not be affected, nor our educational and religious institutions. Our trade at the Southern ports might receive a temporary check should non-intercourse be adopted by the new nation ruled by despotic power; but such a measure, destructive to the vital interests of southern planters and merchants, could not long be enforced. Trade is carried on by individuals, not by states or nations.

The public property may be fairly divided—the navigation of the Mississippi, flowing from free states, will ever be free—and should the seceding States be allowed to collect duties on goods imported into their own ports, the amount would be far less than what has been heretofore expended for their benefit. And should they carry into effect their theory of free trade, while their exports would be taxed for the support of foreign governments, they must lay a land tax and impose excise duties for the support of the new government. Nor could they then monoplize two thirds of the most lucrative offices, as they long have done, and they would have to pay their own Postal expenditures, and appoint their own Postmasters. Let them secede, should they so elect, and suffer the free states to live in peace and prosperity. PAX.

THE RUMORED INSURRECTION IN KENTUCKY.—It has been announced through the medium of a dispatch that a white man and fifteen slaves had been hanged at Burkesville, Cumberland county, Ky., upon conviction of plotting an insurrection. A letter from that place to the Louisville Journal, dated the 29th ult., does not speak of the execution, and the Journal is disposed to doubt the entire correctness of the story.

☞ The Richmond Enquirer, in a recent article, makes the demand not only that slave property be protected in all the Territories, but that laws be passed declaring and protecting the right of slaveholders to travel and sojourn in northern States, accompanied by their slaves.

THE KANSAS TROUBLES.—*St. Louis, Dec.* 8.—It is reported that Montgomery is entrenched at Mound City, 300 strong, determined on fight. Harney is at Fort Scott, and desires the assistance of Frost's command. It is thought that he will then be able to capture Montgomery.

For the Chronicle.

A CONFESSION.—The old adage of "murder will out," is a truthful one, and the following incident shows that a person who has committed murder, is so disturbed by the inward monitor, conscience, that he is rendered incapable of retaining the secret, and sooner or later, will confess his crime.

In the summer of 1859, the writer was stopping for a short time in the metropolis of New England, and during his sojourn, was the guest of Policeman Smith, who often solicited his company in his adventures as an officer. One stormy night, we were sitting around a blazing fire, in the Police Station House, 11th Ward, enjoying a smoke from our meerschaums, spinning yarns, and having a sociable time, when a heavy and earnest rap was heard at the door.

"Some one in trouble," muttered Davis; "come in," says Smith.

The call was responded to by the entrance of a well known respectable merchant of the city, who was then doing an extensive business on one of the principal streets of Boston. He took a seat by the side of Smith, and in a cool and collected manner, informed him that he had a *confession* to make. Our curiosity was excited, and after a moment's pause, he related the following occurence:

"One month ago to-night, just as I was about leaving the store, a rascal who had many times annoyed me by insults and assaults, came in and presented his bill, which I had several times repudiated, never having owed him anything except hatred, which increased at every visit, until at last I determined to place him where he would subject me to no further trouble." The visitor drew a deep sigh, and then proceeded with his development. "I warned him to depart, but he only continued to provoke me by demanding the settlement of *that bill*. 'I will settle you, you miscreant,' said I; 'you have annoyed me enough; it has arrived at that point where forbearance ceases to be a virtue; now, you die!' and suiting the action to the word, I gave him a blow which laid him lifeless at my feet.—The rest need not be told; and now I admit that it was life destroyed by malice aforethought, premeditated and planned.—My conscience would not allow me rest, so I satisfy it by making before the officers of justice, this awful confession."

"What was the name of this person, and please state the exact hour when the murder was committed," said Mr. Smith, preparing to register the same in the massive record book of crime.

"It was a *mosquito* whose life I destroyed; I don't recollect the exact moment when it happened," drawled the merchant weg.

"Sold, and got the change in coppers," exclaimed Davis, amidst the general laughter which followed this unexpected conclusion. After taking a cigar apiece, the merchant and I withdrew, leaving the policemen laughing over the "sell." C.

PERLEY, in a late waif from Washington, says:—

The honorable gentleman in Congress from the fractious States, who so nonchalantly decline to aid in the transaction of business, have no scruples about receiving their pay for "services renderd" as Senators or as Representatives. And Senor Manuel A. Otero, who represents the Territory of New Mexico, with its slave code, all ready to become a State in the "Southern Confederation," has already presented half a dozen petitions for relief from the United States, for certain hidalgos of his vicinage.

We also find that Hon. A. B. Longstreet, appointed on Howell Cobb's recommendation to attend the International Statistical Congress, which met at London in July last, did nothing to entitle him to the generous payment of his "little bill." The South Carolinian found on taking his seat that another delegate was of African descent, so he retired in high dudgeon, and Lord Brougham showed him up for so doing. Yet the Honorable delegate presented his account, which was paid, but the Secretary of the Treasury tells us that his refusal to earn his pay "received the entire approbation of his government."

New Orleans, Dec. 8.—Advices from Texas state that there is an understanding between the members of the Legislature of that State, that the Legislature shall meet at Austin on the 17th of December without a formal call from Governor Houston. It is also understood that the Legislature will call a State Convention.

☞ The voting in the electoral colleges and the latest returns from the Pacific States confirm our recent estimate of the Presidential result, as follows:

For Lincoln and Hamlin	180
For Breckinridge and Lane	72
For Bell and Everett	39
For Douglas and Johnson	12
Whole electoral vote	303
Lincoln over all	57

☞ The indebtedness of the Platner & Smith paper-making firm, at Lee, Mass., recently suspended, is near half a million dollars. At a meeting of the creditors this week they offered to take fifty cents on the dollar for their claims, payable without interest at different periods within three years: and with this compromise Mr. Smith will resume business and try his luck once more.

SOUTHERN SENTIMENTS.—Judge Hopkins of Mobile, Ala., writes:—

"In several of the States immigrant aid societies exist, and are actively employed in receiving our slaves, whether flying alone or conducted by abolitionists."

This must be news to most people, at the North. The Judge also writes of the powers claimed by Lincoln and his followers, which have no other sources than in fanaticism and the higher law."

"Should they yield to the bitter enmity they feel for us, they would immediately appoint a sufficient number of higher law professors to constitute a majority of the Judges of the Supreme Court of the United States.

"Our forbearance heretofore has commanded the admiration of the world; but our abandonment of the only remedy for the consummated wrong would only subject us to contempt and indelible disgrace, as well as lasting oppression."

It is no wonder that the people of Alabama are excited when their sources of information have been so poor that their Judges make such statements.

In one place in Alabama, the people are severely censured because they resolved that they were opposed to secession unless a majority of the slaveholding States concur, yet pledging themselves to go with her heartily, if she does secede.

The Mobile Tribune is of the conviction that the fact of Lincoln's having both branches of Congress is but an aggravation of the outrage, in the consideration of his being elected under such circumstances.

The Baltimore Annual Conference of the Methodist Church asserts as a consequence of the amendment to the discipline by the recent General Conference that the General Conference has separated from the Church, and by the said act the nonconcurring conferences are assumed to be the Methodist Church proper.

Senator Clay of Alabama says he is for separating from the North immediately, and will either treat or fight with us. He says:—

"Of course we cannot live under the same government with these people unless we could control it. They are the most bitter, relentless, and vindictive enemies we have on earth; and will not only subjugate, but utterly destroy us."

The Governor of North Carolina congratulates the people of that State that the comparisons between railroads similarly situated, will never fail to show the superior cheapness of slave labor in the construction of railroads. Patrick will no more be needed in the South.

The Montgomery (Ala.) Mail says it has become a stern duty to expel from the State "every enemy of our institutions, no matter what his phraseology and conduct."

Senator Slidell, having discovered that he had engaged passage on the same boat with Mr. Douglas, to go up the Mississippi, had his baggage taken off, and took passage on another boat.—*Atlas.*

THE SPECIAL COMMITTEE.—*New York, Dec.* 9.—The Herald Washington correspondent says that the Special Committee of the House will meet on Tuesday. South Carolina and Florida will probably not be represented. Mr. Corwin, the Chairman, is in favor of conciliation. There was a stronger Union sentiment exhibited in Washington on Saturday than at any time previous.

It is *rumored* that Jefferson Davis has received a dispatch from Mr. Lincoln to the effect that he is preparing a letter defining his position, which will give entire satisfaction to the South.

[A very improbable rumor.]

☞ A handloom weaver, one Charles Lawson, of Dumferline, Scotland, has invented a machine for weaving Brussels and velvet pile carpets and table-covers, which, it is predicted, will cause a revolution in those branches of manufacture.

☞ The prosecution against J. Egbert Farnham for piracy in his well-known connection with the slave yacht Wanderer, has been discontinued, and a *nolle pros.* entered in the U. S. Court in the district of Savannah, Ga.

Dr. Perry, at Exchange Hall, in this city, is the only man in this country who treats the various *diseases* which destroy the Hair, upon physiological principles. He practised five months in Portland, previous to coming here, and our exchanges from that city earnestly recommend his system to all who are afflicted with capillary difficulties.

Herrick Allen's Gold Medal Saleratus is far superior to super-carbonate of soda, and may be used in the same manner, with cream tartar, and for all other purposes where soda is used. It is perfectly healthy, and requires less in quantity. Try one paper, and you will never have any more. Grocers and Druggists sell it.

There is another article in the market put up in similar colored papers. Do not be deceived by it. See that the name of HERRICK ALLEN is on the wrapper, and no mistake can occur. Manufactured by Allen & Taylor, corner of Canal and Centre streets, New York, and sold at wholesale by Israel Nash & Co., Boston. M&F is

FIREMEN'S ENTERTAINMENT!

GRAND VOCAL & INSTRUMENTAL

CONCERT,

WITH TABLEAUX VIVANTS!

The Firemen of Portsmouth will give their first entertainment for the season,

AT THE TEMPLE

On WEDNESDAY EVENING, Dec. 12,

On which occasion they will present a series of beautiful Tableaux, illustrating the different scenes of the Fireman's Life.

—Also,—

Singing, Dancing and Recitations.

A QUARTET CLUB will introduce some new and popular songs, &c.

TICKETS 15 CENTS—to be had at J. H. LOCKE'S, and at the door.

Doors open at 6½; Concert to commence at 7½.

LOST.

On Saturday evening, between the North Church and Vaughan street, a LEATHER WALLET, containing sixteen dollars, in gold and bills. The finder will receive a liberal reward on leaving the same at the Chronicle Office.

DR. B. C. PERRY,

THE CELEBRATED DERMATOLOGIST,

In accordance with the repeated solicitations he has received from some of the first citizens of Portsmouth during his stay in Portland, having closed his office in Portland after a successful practice of five months, has concluded to remain one week in PORTSMOUTH—when all who are suffering from

Loss of Hair, Premature Blanching, or any Disease of the Scalp,

can consult him.

DR. PERRY is prepared to treat successfully the following diseases, all of which are productive of a loss of hair.

Debilitation of the External Skin, Suppressed Secretion, Irritation of the Scalp, Dandruff or Thickened Secretion, Inflammation of the Sensitive Skin, Matterated Secretion, Hair Eater, Distended or Swollen Roots, and Premature Blanching.

This is the only method based upon Physiological principles which has ever been presented to the public for the restoration of the hair.

Dr. Perry's Theory of treating Diseased Scalps and Restoring the Hair.—There are eighteen diseases of the head and scalp, that cause a loss of of hair, and in some cases premature blanching, each requiring in its treatment different remedies. Where loss of hair has resulted from any of those diseases, the first thing to be done is to remove the disease by a proper course of treatment, restore the scalp to its normal condition, keep the pores open, so the secretion can pass off, and in every follicle that is open, new strands of hair will make their appearance.

The philosophy of premature blanching is this: Iron and Oxygen are the principle constituents of Dark hair, Lime and Magnesia of Light hair. When the suppressed secretion between the skins contains an excess of Lime, it is taken up by the strands, causing the hair to turn white; by opening the pores the accumulation of Lime passes off with the secretions, the natural components of the hair resume their ascendancy, and the hair assumes its natural color.

Because persons have tried various preparations for the hair, and have been deceived by them, and in some cases their difficulty made worse by their use, they should not be discouraged. The one preparation system for any class of diseases, must necessarily be a failure. No one compound can be available for a dozen or more diseases; it may remove some difficulties—in other cases useless, in some positively injurious.

Dr. Perry's method is in accordance with the law of cause and effect. He makes a personal examination, ascertains what disease of the scalp has or is producing a loss of hair or premature whitening, prescribes such remedies, according to its nature and requirements, as will remove the disease. Hence his great success in treating capillary diseases.

ALL CONSULTATIONS FREE.

Dr. Perry is now ready to receive visitors at

EXCHANGE HALL,

Exchange Buildings, same entrance with Chronicle Office.

Portsmouth, Dec. 3, 1860.

3 MERCANTILE LYCEUM.

The Third Lecture of the Fifth Course before the Portsmouth Mercantile Library Association, will be given AT THE TEMPLE,

On TUESDAY EVENING, Dec. 18th,

By REV. WM. R. ALGER,

SUBJECT:—"The Old Chivalry and the New; or the Martial Knighthood of the Middle Ages, and the Moral Knighthood of the Nineteenth Century."

At the PORTSMOUTH GAS WORKS, at 20 cts. per barrel, cash on delivery, during the month of December. J. TRUNDY, Agent.

MILK 5 CENTS A QUART.

Of the best quality, constantly for sale at NO. 28 CONGRESS STREET, opposite the Franklin House. JAMES R YEATON.

Special Notices.

KINGSTON, March 10, 1841.—"This may certify that my son has had a tumour which made its appearance when he was but a few days old; and it grew worse, causing large swellings and running sores. He has been cured by the use of Dr. Swett's Panacea and Humor Wash."

T. CURRIER.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, PORTSMOUTH, N. H., No. 1 School St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and others of his popular remedies, will be promptly attended to.

Catarrh is the most difficult of any of the Diseases of the Breathing Organs to relieve or to cure. The Rev. Joshua Leavitt, editor of the Independent of New York, who had the Catarrh for more than twenty years, has been cured by using Dr. J. R. Stafford's Olive Tar and Iron and Sulphur Powders, which are advertised in this paper. His testimonial is published in a pamphlet among others equally prominent who have been cured of chronic Throats and Lung difficulties, which will be sent *free by mail.*

Eruptions, Salt Rheum, Erysipelas.

It is now generally admitted that all eruptive diseases depend upon some internal or constitutional cause, and that to use ointments to washes for them is a sure way to injure the system, and only to drive in, not to cure the disease. But HUMPHREY'S HOMEOPATHIC SPECIFIC SALT RHEUM PILLS are a true specific for all such diseases. They cure Salt Rheum, Barber's Itch, Erysipelas, Pimples on the face, Ringworm, and Nettle Rash, by curing the cause upon which they depend, and restoring the skin to a state of health and purity. Thus not only is the disease cured, but the softness and beauty of the complexion restored.

Price, 25 cents per box, with directions. Six boxes $1.

Sent by mail or express, free of charge, on receipt of the price.

Address, DR F. HUMPHREYS & CO., 562 Broadway, New York.

Sold in Portsmouth by THACHER.

See advertisement in another column.

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMA, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are pleasant to the taste, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov28 dawâm

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail to moderate excesses and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution—For particulars, send for a pamphlet to the Agent. One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail. nov28 dawâm

Sold by W. R. PRESTON and all druggists.

WISTAR'S BALSAM WILD CHERRY

Coughs, Colds, Bronchitis, Asthma, Croup, Whooping Cough, Quinsy, and the numerous as well as dangerous diseases of the *Throat, Chest and Lungs*, prevail, in our changeable climate, at all seasons of the year; few are fortunate enough to escape their baneful influence. How important, then, to have at hand a certain antidote to all these complaints. Experience proves that this exists in *Wistar's Balsam* to an extent not found in any other remedy; however severe the suffering, the application of this soothing, healing and wonderful Balsam at once vanquishes the disease, and restores the sufferer to wonted health.

From a Respectable Druggist.

PORTSMOUTH, Aug. 3, 1860.

Messrs. S. W. FOWLE & CO., Boston,—

Gents—Please send me a fresh supply of WISTAR'S BALSAM OF WILD CHERRY. We are selling large quantities of this long celebrated remedy for *Coughs and Colds*, and it bids fair to outsell most of the so-called specifics which are now in vogue. We can confidently recommend it as a remedy for what it is intended. Very truly yours,

NATHAN P. THACHER.

Mr. D. H. TEAGUE, of Turner Village,

Writes the proprietors of this great remedy, as follows:

TURNER VILLAGE, ME., July 31, 1860.

Messrs. SETH W. FOWLE & CO., Boston:—

Gents:—I do not hesitate to recommend DR. WISTAR'S BALSAM OF WILD CHERRY for *coughs* and *pulmonary affections*, having used it in my family for many years with great satisfaction; indeed it has done more good than all the other remedies I have tried, and their name is legion. If all the patent medicines in the market possessed but a portion of the merit of this excellent Balsam, there would be no occasion to condemn them as humbugs.

The medicine is also used by many of my friends and acquaintances in this town, and they have found it invaluable; and I hope that others who suffer may give it a fair trial. Very respectfully,

D. H. TEAGUE.

Prepared by SETH W. FOWLE & CO., Boston;

SOLD BY

PRESTON, KIMBALL, HUTCHINGS, J. H. THACHER, N. F. THACHER, Portsmouth; JAMES P. PACKER, Greenland; S. HANSON, JR., New Market; PORTER & THING and W. B. SANFORD, Exeter; J. W. GREEN, Hampton Falls; and by dealers everywhere. 25 1.c

REMOVAL.

ANDREW LOWD

has removed his

Also, a lot of SECOND-HAND SLEIGHS, with one or two seats, for sale cheap,—including several pairs of extra strong runners; for farm or other work.

Apply to FRANK W. MILLER.

Portsmouth, Dec. 10th, 1860.

Local.

☞ We learn that the following gentlemen are the aspirants for the office of Postmaster in this city:—Marcellus Bufford, Joseph P. Morse, Jonathan Dearborn and Albert Laighton.

Messrs. Joseph B. Upham and Lory Odell are the most prominent candidates for the Collectorship at this port.

It is generally conceded that Hon. Thos. L. Tullock will be the successful candidate for the Navy Agent's office.

The programme is satisfactorily arranged by those interested, but some must be disappointed, and perhaps all, if the "powers that are to be" see fit to make a different disposal.

☞ The second lecture of the Course for the benefit of the Freewill Baptist Society, is to be given at the Temple this (Tuesday) evening, by Prof. A. Tripp, of Roxbury—on "Garibaldi and Southern Italy." Tickets for Course, only 50 cents; for the evening, 15 cents. Lecture at half past 7, as usual. Season tickets are to be preferred, as the remainder of the course will be equally valuable with the beginning.

POLICE COURT, *Dec.* 10.—Before Justice Odell—Chas. Gray and Joseph Carlton, of this city, were found guilty of assault on Lincoln Rokes of Greenland, on Saturday evening, Dec. 8; and sentenced to 30 days' imprisonment in common jail, to pay half cost of prosecution, taxed at $8 80, and give bonds in the sum of $50 for good behavior till April term of Court. They were committed to jail.

SARGENT'S ORIGINAL DIALOGUES.—This is a collection for School and Family Reading,—by Epes Sargent, author of "the Standard Speaker," "the Standard Reader, &c.,"—Third thousand. Just published by John L. Shorey, Boston; sold by James F. Shores, jr., Portsmouth.

All who know anything of Epes Sargent, as editor and author, are aware that he is the proper man to undertake a work of this kind;—and he has done it most successfully.

There are 55 dialogues in the book, with ample directions and illustrations for positions, pronunciation, &c.

In the preface, the author thus shows the purpose of the book, viz. for action,—for which, let us say, its contents are admirably fitted.

The objection made to most of the dialogues composed for juvenile representation is, that, however respectable in the *reading*, they fail of effect in the *acting*.—Mere conversations, not vivified by the dramatic element, are found to be tedious. The author has endeavored to give as little cause as possible for a complaint so frequently brought. In many cases the full significance of what he has written can hardly be made apparent until the piece is *put into action*.

WASHINGTON, Dec. 10.—The announcement of a letter from Mr. Lincoln to Jefferson Davis is a false report.

The programme of the disunionists is probably to leave federal relations in the hands of commissioners for settlement, which will not interrupt the collection of the revenue or postal arrangement, and thus avoid a collision.

Then the border States will endeavor to bring about a pacification by proposing terms to the North, and threatening to form a Southern Confederacy if the terms are not accepted.

Meanwhile the financial screws are to be tightened and Northern men promise demonstrations of popular sentiment sympathizing with the South.

☞ A plan, attributed to Gen. Lamar of Mississippi, contemplates separate and simultaneous conventions in all the Southern States, which will adopt the present government of the United States, and invite all the other States to join them, with the hope that New England will remain out.

☞ A writer in the Columbus (Ga.) Times deprecates the disruption of the Union, but says if it must be destroyed, he is as he ever has been, in favor of setting up a constitutional monarchy. At all events he is for trying "no new experiments."

GOOD QUARTERS.—A man who usually spends his winters in the Newburyport Alms House got drunk the other day and received the usual sentence—four months to the "Alms House." His employer rebuked him for his apparent folly. He turned and replied—"Last winter I had first-rate quarters there, and I didn't know how long I should have work, and thought as there was a great rush there this winter, that I must go early before it was crowded and I lost my rooms, therefore I got drunk." It proved to be a matter of arangement between him and his brother; he was to get drunk, his brother was to complain and obtain the witness fee, and both of them, as soon as they could were to get into the work-house together. They were almost born there; the family have been paupers almost ever since the settlement in 1635, and they have spent half their days in the same "good quarters."—*Herald.*

LEAVENWORTH, Dec. 7.—Fort Scott advices of the 3d state that the Federal troop, acting as a posse comitatus to the marshals had arrested seven persons engaged in the late murders. No resistance was offered.

☞ The Washington correspondent of the New York Tribune says:

An intimate friend of Mr. Lincoln's, who left him within the past week, states that he was assured that no member of his Cabinet had yet been determined on. All speculations sent out from Washington are inspired by personal objects.

THE WINTER IN EUROPE.—A Vienna letter of the 11th, says:

"So heavy has been the fall of snow and so great the drift, that we have been cut off from all communication with the outer world during eight and forty hours."

NOTICE—TO NEW SUBSCRIBERS.

All persons who may now pay $4 for the Daily Chronicle, or $1 for the Weekly Chronicle, for the year 1861,—will be furnished with the paper without charge, from this time to Jan. 1. tf

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

Why will you suffer? Dyspepsia is a brief but comprehensive term for the numerous diseases which affect the stomach, liver, and, in fact, the whole system. Until Dr. Greene discovered the *Oxygenated Bitters*, medical science had exhausted itself in vain attempts to cure this disease.

Atwood's Quinine Tonic Bitters,—the best Aromatic Tonic ever offered to the public.—All the Druggists have it. See advertisement.

BININGER'S GENUINE Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital* importance to those requiring it for family use and invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling at reasonable rates, a Brandy of our own importation, from one of the most responsible houses in France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

ANOTHER NEW STOVE

THE MODEL COOK

FOR WOOD OR COAL,

MADE BY

THE BARSTOW STOVE COMPANY

Of Providence, R. I.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking giving an oven nearly 3 ft. long! or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, *by extending the oven, with a tin roaster in front of the fire*, are obvious, *viz:*

1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is the most durable, tasteful and useful.

2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking oven.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires: or it can be used for a hot closet when not required for baking or roasting.

5th. By this extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time the stove occupies no more room on the floor.

JOHN Trundy, Esq., one of our most practical and scientific mechanics, who has had large experience in the construction of stove patterns in years past, and has for many years been using one of the Stewart Stoves, has purchased one of the MODEL COOKS, and after a fair trial pronounces it far superior to the Stewart or any stove he has ever seen, for economy, convenience and dispatch We might also refer to several other parties who are using the stove, and who award it the very highest praise.

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be *the* stove for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is wanted.

We have nought to say against any other stove, believing that a man can sell his own goods without depreciating his neighbor's; but this we do say, that we honestly believe this is the *best stove that can be found in the world;* and what is more, we think others will agree with us after a trial of it. We invite any one to examine the stove, whether they wish to purchase or not.

For sale, with a great variety of

Furnaces, Ranges, Cooking, Office and Parlor Stoves; Coal Hods, Sifters, Funnel, Stove-Repairing Pieces. Parlor Grates, Etc.

FARMING UTENSILS,

SHEET IRON, COPPER AND TIN MANUFACTORY.

Stoves Repaired, and Job Work, generally, promptly attended to.

Cook Stoves.

Autocrat of the Kitchen.—35,000 *in use*

THE ORIGINAL P. P. STEWART,

FUEL-SAVING AND COMFORT-PRODUCING LARGE OVEN, SUMMER AND WINTER

AIR-TIGHT COOKING STOVE,

FOR WOOD & ANTHRACITE OF BITUMINOUS COAL

Improved in 1859 with New and Extra Large Flues, and by the addition of the Celebrated Patent Double Sheet Bottom Flue.

Attention is invited to the following Points of Superiority:

DURABILITY.—Lasting, with proper care, at least 20 years. Stoves are now in use that were set up in 1838.

CAPACITY.—Baking, broiling, boiling, roasting and all other culinary operations performed *at the same time.* A barrel of flour baked into bread with a single fire.

ECONOMY.—Saving the cost of the stove in 2 or 3 years in the item of fuel.

VENTILATION OF OVEN.—In the Stewart Stove alone the front doors open directly into the oven (protected by letters patent,) securing a direct draft through the pans of the oven, instead of perforated holes in the doors and back flues. It will be borne in mind, that, as the heated air always rises, this method of ventilation is the only one of any value whatever.

ENTIRE CONTROL OF HEAT.—The best generated by the stove, may be held therein and used, or thrown into the room, at pleasure.

THE DOUBLE SHEET BOTTOM FLUE.—By which a compressing and inverting action of heat is obtained, and the oven more evenly and efficiently heated than by any other known invention.

BROILING.—Performed *on the top*, and without the possibility of smoke entering the room.

HOT WATER RESERVOIR AND WARMING CLOSET.—Both useful and convenient, supplied by the waste heat and without extra fuel.

WATER BACK.—An arrangement for supplying hot water for the bath room equal to any range.

Beware of the numerous worthless imitations now in market. See that the name of P. P. Stewart is on each stove. No other is genuine.

SEVEN YEARS!

The seven years of unrivalled success attending the

COSMOPOLITAN

Art Association,

have made it a household word throughout every quarter of our country.

Under the auspices of this popular Institution, over *three hundred thousand homes* have learned to love the beautiful works of art on their appreciate—by beautiful works of art on their walls, and choice literature on their tables—the great benefits derived from becoming a subscriber.

Subscriptions are now being received in a ratio unparalleled by that of any previous year.

TERMS OF SUBSCRIPTION.

Any person can become a member by subscribing *three dollars*, for which sum they will receive

1st.—The large and superb steel engraving, 30 x 38 inches, entitled

Falstaff Mustering His Recruits,

2d.—One copy, one year, of that elegantly illustrated magazine, the

"COSMOPOLITAN ART JOURNAL."

3d.—Four admissions, during the season, to

"The Gallery of Paintings, 548 Broadway, New York."

In addition to the above benefits, there will be given to subscribers, as gratuitous premiums, over

Five Hundred Beautiful Works of Art,

comprising valuable paintings, marbles, parians, outlines, &c., forming a truly national benefit.

THE SUPERB ENGRAVING, which every subscriber will receive, entitled "FALSTAFF MUSTERING HIS RECRUITS," is one of the most beautiful and popular ever made in this country. It is done on steel, in *fine line and stipple*, and is printed on heavy plate paper, 30 by 38 inches, making a most choice ornament, suitable for the walls of either the library, parlor or office. Its subject is the celebrated scene of Sir John Falstaff receiving in Justice Shallow's office the recruits which had been gathered for his "Ragged Regiment." It could not long be furnished by the trade for less than five dollars.

The *Art Journal* is too well known to the whole country to need commendation. It is a magnificently illustrated magazine of Art, containing Essays, Stories, Poems, Gossip, &c., by the very best writers in America.

The Engraving is sent to any art of the country by mail, with safety, being packed in a cylinder, postage prepaid.

Subscriptions will be received until the Evening of January 31, 1861, at which time the books will close, and the premiums be given to subscribers.

No person is restricted to a single subscription. Those remitting $15, are entitled to five memberships, and one extra Engraving for their trouble.

Subscriptions from California, the Canadas, and all Foreign Countries, must be $3.50 instead of $3, in order to defray extra postage, &c.

For further particulars send for a copy of the elegantly illustrated *Art Journal*, pronounced the *handsomest magazine in America*. It contains Catalogue of Premiums, and numerous superb engravings. Regular price, 50 cts. per number. Specimen copies, however, will be sent to those wishing to subscribe, on receipt of 18 cents, in stamps or coin.

Address C. L. DERBY, Actuary C A. A., 548 Broadway, New York.

N. B.—Subscriptions received received and forwarded by

THE ONLY PREPARATION

Having Proof so Strong and Direct

as to

Expel the Doubts of All.

For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give their unqualified sanction, and recommend it for all cases of eruptions, and diseases of the scalp and brain; but all woo have used it, unite in testifying that it will preserve the hair from being gray, and from falling to any age, as well as restore. Read the following:—

Oak Grove, S. C., June 24, 1859.

Prof. O. J. Wood:—Your "Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test:—

During the year 1854, I was so unfortunate as to be thrown from my sulky against a rock near the roadside, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally defeated in every prescription advanced.

These and no other circumstances induced me to record to your worthy "Hair Restorative," which I have every reason to believe, produced a very happy result: two months after the first application, I had as beautiful a head of young hair as I ever saw, for which I certainly owe you my sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself to say, is not a little.

You can publish this if you think proper.

Yours, very respectfully,

M. J. WRIGHT, M. D.

Jeffersonian Office, Pittsfield, Va., Dec. 12, 1859.

Professor O. J. Wood:—Dear Sir: I feel it my duty as well as my pleasure, to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, (a lawyer,) has been bald ever since his early youth; so much so, that he was compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement; I give this to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents. Yours, &c.,

THOMPSON SURGHNOR.

Dr. Wood—Dear Sir:—Permit me to express the obligations I am under for the entire restoration of my hair to its original color, about the time of my arrival in the United States. My hair daily becoming gray, but upon the application of your Hair Restorative it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable. S. THALBERG.

The Restorative is put up in bottles of three sizes viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

Wholesale agents for Boston, George C. Goodwin & Co., Potter & Weeks; M. S. Burr & Co.; and J. F. Holman, No. 2 Tremont Temple.

Sold, wholesale and retail, in Portsmouth, by J H THACHER, W. R. PRESTON, and by all good Druggists and Fancy Goods Dealers.

AMBROTYPE COPIES!

J. F. SHORES, Jr., No. 1 CONGRESS BLOCK, has just opened a large variety, comprising *nearly* subjects, of

Ambrotype Copies of Fine Engravings.

These copies are taken from the best impressions, mostly early proofs, and are put up in a neat and substantial manner.

The quality and tone of the copies have been greatly improved, and they are now placed before the public with confidence that their merit will insure a hearty welcome for them.

My friends and the public are invited to "drop in" and examine them, and also the fine lot of *Stereoscopic Pictures* now on hand.

Just the thing for a Christmas or New Year's Present.

NOTICE.

All persons having demands against the undersigned will please leave them at Mr. JOHN S. HARVEY, No. 47 Congress St., for settlement;—and those indebted will please pay him.

Humphreys' Specific Homeopathic Remedies for the People

THE Remedies are carefully prepared under the direct supervision and inspection of Prof. HUMPHREYS, in order to meet that great and long realized want of the public, namely, remedies for all the more common and simple ailments of life.

Experience and reflection will show that a vast majority of diseases from which we suffer and die, were, at their commencement, simple and trifling. A mere cold, a slight diarrhea, a pain in the side, or a headache, or hoarseness, at first easily cured and subdued, in time becomes a consumption, a fever, a dangerous dysentery, Croup or other disease, which all the powers of medicine fail to arrest.

Herein these remedies supply a great public want. Being on hand, simple, so you know all once what to take—pleasant, so as to cause no repugnance—safe, and hence occasioning no risk; while the curative effects are positive and certain, they are taken, and at once the spell is broken and the danger allayed.

Experience has amply confirmed the use of these remedies for families and private persons, as being THE MOST IN USE, THE MOST SIMPLE AND CONVENIENT, THE MOST PROMPT AND RELIABLE.

Thousands are and have been using them for some five years past, in every section of the country, with almost invariable success. All speak in the highest terms of their simplicity and efficacy, and many hundreds of agents the uniform testimony is, that they give good satisfaction to their customers.

LIST OF HUMPHREYS' SPECIFIC HOMEOPATHIC REMEDIES

No.		Price of Single Boxes—cents
1.	—Cures Fever, Congestion, and Inflammation—Heat, Pain, Restlessness	25

ATWOOD'S QUININE TONIC BITTERS,

The Best Aromatic Tonic ever offered to the Public.

RECOMMENDED BY THE FACULTY

For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic* s, and cannot fail to meet the wants of the debilitated.

It is a mild tonic to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous system after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhoea, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

It is used by very best Physicians in Boston and vicinity, in preference to all as quart bottles, in order that all may convince themselves of its superior merits.

For further particulars reference is made to the printed circulars.

Dr. Mott's CHALYBEATE RESTORATIVE PILLS OF IRON.

An aperient and Stomachic preparation of IRON purified of Oxygen and Alloy by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States as recommended in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of Blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Immunities in all maladies in which it has been tried—It has proved absolutely curative in each of the following complaints, viz:

In DEBILITY, NERVOUS AFFECTIONS, EMACIATION'S CONSTIPATION DIARRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCLOSIS, SALT RHEUM, MENSIS INSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods have suddenly reappeared in the busy world as if returned from protracted travel in a distant land. Some very distinguished cures of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In NERVOUS AFFECTIONS of all kinds, and for persons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorous tonic, without being exciting and over-heating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without being a drastic purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also operates to exert a distinct and specific action, by dispersing the local tendency, which forms them.

In DYSPEPSIA, innumerable are its cases, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the affrighted dyspeptic.

In unchecked DIARRHŒA, even when advanced to DYSENTERY, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate the PHTHISIC CONSUMPTION, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of the iodine, or any of their well-known iodine preparations of iodine, without any of their well-known liability.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In RHEUMATISM, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

So remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects.—Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box: for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

BININGER'S OLD KENTUCKY BOURBON "1849 RESERVE"

The *established popularity* of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Western Whiskies.

Being distilled in 1848, and manufactured expressly for us with great care, it can be relied upon as a *strictly pure* stimulant, and peculiarly effective for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency to *recreate* and *strengthen*; while age having contributed its genial charm, and enriched it with a delicious flavor and aroma, it offers a pleasant incentive to the preservation or recovery of health, through the agreeable medium of a well pleased palate.

Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and sold by all druggists, Grocers and town agents. A. M. BININGER & CO.,

(Established 1775.)

Dyspepsia Remedy

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subjected to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.

One dose will remove all Bad Spirits.

One dose will cure Headache.

Three doses will cure Indigestion.

One dose will give you a good appetite.

One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of potent liquors, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to a female countenance.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

SEVEN YEARS!

The seven years of unrivalled success attending the
COSMOPOLITAN
Art Association,
have made it a household word throughout every quarter of our country.
Under the auspices of this popular Institution, *over three hundred thousand homes* have learned to appreciate—by beautiful works of art on their walls, and choice literature on their tables—the great benefits derived from becoming a subscriber.
Subscriptions are now being received in a ratio unparalleled by that of any previous year.
TERMS OF SUBSCRIPTION.
Any person can become a member by subscribing *three dollars*, for which sum they will receive
1st.—The large and superb steel engraving, 30 x 38 inches, entitled
Falstaff Mustering His Recruits,
2d.—One copy, one year, of that elegantly illustrated magazine, the
"COSMOPOLITAN ART JOURNAL."
3d.—Four admissions, during the season, to
"The Gallery of Paintings, 548 Broadway, New York."
In addition to the above benefits, there will be given to subscribers, as gratuitous premiums, over
Five Hundred Beautiful Works of Art,
comprising valuable paintings, marbles, parians, outlines, &c., forming a truly national benefit.
THE SUPERB ENGRAVING, which every subscriber will receive, entitled "FALSTAFF MUSTERING HIS RECRUITS," is one of the most beautiful and popular ever made in this country. It is done on steel, in *fine line and stipple*, and is printed on heavy plate paper, 30 by 38 inches, making a most choice ornament, suitable for the walls of either the library, parlor or office. Its subject is the celebrated scene of Sir John Falstaff receiving in Justice Shallow's office the recruits which had been gathered for his "Ragged Regiment." It could not be furnished by the trade for less than five dollars.
The *Art Journal* is too well known to the whole country to need commendation. It is a magnificently illustrated magazine of Art, containing Essays, Stories, Poems, Gossip, &c., by the very best writers in America.
The Engraving is sent to any part of the country by mail, with safety, being packed in a cylinder, postage prepaid.
Subscriptions will be received until the Evening of January 31, 1861, at which time the books will close, and the premiums be given to subscribers.
No person is restricted to a single subscription. Those remitting $15, are entitled to five memberships, and one extra Engraving for their trouble.
Subscriptions from California, the Canadas, and all Foreign Countries, must be $3.50 instead of $3, in order to defray extra postage, &c.
For further particulars send for a copy of the elegantly illustrated *Art Journal*, pronounced *the handsomest magazine in America*. It contains Catalogue of Premiums, and numerous superb engravings. Regular price, 50 cts. per number.—Specimen copies, however, will be sent to those wishing to subscribe, on receipt of 18 cents, in stamps or coin.
Address C. L. DERBY, Actuary C. A. A., 546 Broadway, New York.
N. B.—Subscriptions received received and forwarded by
FRANK W. MILLER,
Agent for Portsmouth and vicinity,
Where specimen Engravings and Art Journal can be seen.
Portsmouth, Nov. 23, 1860.

Dr. S. Swett's Vegetable Medicines.

The saving efficacy of these truly valuable medicines is daily witnessed by thousands of the first classes of society, many of whom are physicians of great success. The following are among his most popular preparations, viz:
His **Panacea** is unrivalled for the cure of Cankers, Scrofula, Salt Rheum, Erysipelas, Canker in the mouth or throat, Sore or inflamed eyes, and all impurities or humors of the blood. Price $1.00.
Cordial of Dandelion, Spikenard and Boneset,—a remedy unsurpassed for the Liver and Heart Complaint, Costiveness, Dizziness and Pain in the Head, Stomach and Side, and the whole family of Consumptive complaints. Price 75 cents.
Rheumatic Compound, for the cure of Rheumatism in all its stages, phases and names, of Acute and Chronic, Gout, Neuralgia, Lumbago, &c., &c. This compound he has proved to be the surest remedy for these complaints that he has tried or known during the whole 40 years of his study and practice of medicine. Price $1.00.
His **Family Pills** are warranted paramount to any in the market as a safe, easy and effectual Physic. Price 25 cents.
His **Conserve** cures the Piles, Headache and Costiveness, and is the surest remedy for worms in young or old. Price 25 cents
Portsmouth ---- No. 1 School Street.
N. B.—All Cash orders promptly attended to and a liberal discount to those who buy to sel again. oct6
Cough Drops for Phthisic, Colds, Asthma, Croup, Whooping and Chin Coughs, and all diseases of the Lungs. Price of small bottles, 38 cts; large, 50 cents.
Hundreds of certificates of cures by these innocent, but effectual medicines are received, many of which are printed on his circular which accompanies the medicines. These, with others of
DR. SIMEON SWETT'S MEDICINES

RARE CHANCE
TO INVEST IN A SAFE AND PROFITABLE BUSINESS.
The subscriber, having to devote his time to other business, offers for sale the Lease, Stock and Good Will of his STOVE AND TIN WARE ESTABLISHMENT, No. 61 Market Street. Terms easy, and made known on application to
oct20 FRANK JONES

New Photographic Establishment.
Having fitted and furnished in modern style, large, pleasant and commodious rooms, the subscriber is prepared to furnish all who wish with Sun Pictures of every description, from the smallest Miniature to life-size Portraits. Photographs finished in India Ink, Water and Oil Colors, by the best artists in the country. Old Daguerreotypes, &c., copied any size desired.
The subscriber having had many years' experience, from the old Daguerreotype down to the present time, keeping pace with every useful improvement, a success almost unprecedented has heretofore attended him; and by strict attention to business, and fair dealing he hopes to merit a share of public patronage.
All work from the establishment warranted to be of the first order, both for finish and durability. Prices as low as in Boston, or any other place where first-class work is performed.
Having a large skylight, pictures can be taken late in the day, and equally as well in cloudy as in fair weather. The public are respectfully invited to call and examine specimens, at **17 Pleasant Street,** opposite the New Custom House.

We take this opportunity to inform the public that, owing to the unusual dullness of the times, we are selling our Goods at about one-half of our usual profit.
This is no humbug. Call and be convinced at
No. 39 Market St. & 2 Bow St.
C. E. MYERS. C. E. SIMPSON.

LYMAN'S
Improved Patent Metallic Soles.
PATENTED JUNE 7, 1859.
The nature of this invention consists of a metallic sole for Boots and Shoes, which has been tested and operates admirably. No dampness penetrates through to the inside sole. This is the only device that will operate well between two soles, and is made so thin as not to interfere with the most delicately finished work. The necessity of such a device to fully accomplish the much desired object, and the direful effects arising from damp feet, are too well understood to require any comment.
Boot and shoe manufacturers and dealers in Rockingham County furnished with the soles, with right to use, at No. 24 Market Street, Portsmouth, N. H. **J. C. CARR.**

The Best Calf Fleece-Lined, Fur Top GLOVES
Ever offered in this market, can be had at

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, DECEMBER 12, 1860.

THOMAS JEFFERSON.

Most readers may remember the quotation from President Jefferson, to this purpose, speaking of Slavery:—

"I tremble for my Country, when I reflect that God is just, and that his justice cannot sleep forever!"

The following vehement exhortation was penned in France, on learning the passage of the Slave Bill in Virginia, without the adoption of his concerted amendment.

"What a stupendous, what an incomprehensible machine is man! who can endure toil, famine, stripes, imprisonment, and death itself, in vindication of his own liberty, and, the next moment, be deaf to all those motives whose power supported him through his trial, and inflict on his fellow men a bondage, one hour of which is fraught with more misery, than ages of that which he rose in rebellion to oppose! But we must await, with patience, the workings of an overruling Providence, and hope that that is preparing the deliverance of these our suffering brethren. When the measure of their tears shall be full, when their groans shall have involved heaven itself in darkness, doubtless a God of justice will awaken to their distress, and by diffusing light and liberality among their oppressors, or at length, by his exterminating thunder, manifest his attention to the things of this world, and that they are not left to the guidance of a blind fatality."

The following paragraph in allusion to the same transaction of the legislature, was written at the age of seventy-seven. Time but added emphasis to his appalling predictions, and strengthened his attachment to the plan of redemption originally proposed by him.

"It was found that the public mind would not yet bear the proposition, nor will it bear it even at this day, (1821.) Yet the day is not distant, when it must bear and adopt it, or worse will follow. Nothing is more certainly written in the book of fate, than that these people are to be free; nor is it less certain, that the two races, equally free, cannot live in the same government. Nature, habit, opinion have drawn indelible lines of distinction between them.—It is still in our power to direct the process of emancipation and deportation, peaceably, and in such slow degree, as that the evil will wear off insensibly, and their place be, *pari passu*, filled up by free white laborers. If, on the contrary, it is left to force itself on, human nature must shudder at the prospect held up. We should in vain look for an example in the Spanish deportation, or deletion of the Moors. This precedent would fall far short of our case."

THE YOUTHFUL MAIL ROBBER.—The lad Hudson, arrested at Chicago for robbing the mails on the Burlington railroad of some $15,000, is son of a worthy clergyman living near Detroit, and his true name is Cambell. He robbed the bags by affecting to be asleep on them, while he was slyly at work crushing apart the packages inside, and by working the letters down to the mouth drew them out one by one. He never opened a bag, and yet once actually abstracted the entire contents, leaving nothing but the wrapping paper and twine inside, to the great mystification of the Post Office clerks. He confesses his sins with tears and prayers, more particularly that for the sake of his dear old mother his true name and fate may not be made known.

THE KENTUCKY REQUISITION CASE.—The Louisville Journal states that the refusal of Gov. Dennison of Ohio to deliver up a Kentucky fugitive from justice, who had been indicted for stealing slaves, on the ground that it was no crime under Ohio laws, is sustained by a Kentucky precedent, in which a Governor refused to comply with a requisition for a fugitive, indicted for kidnapping a free negro in Indiana, on the ground that it was no crime under Kentucky laws.

NEW YORK, Dec. 10.—A young man, 20 years of age, giving his name as Alfred Buchanan, has confessed that he murdered Mrs. Shancks. He was arrested.

Fredericks, first mate of the slaver Cora, has escaped from custody.

The Washington correspondent of the Commercial, telegraphs that the feeling in favor of conciliation has made rapid strides since Saturday. The danger of immediate secession is considered passed. The same correspondent also says that the President has accepted Mr. Cobb's resignation.

AN IMPERIAL COMPLIMENT TO AN AMERICAN OFFICER.—Captain Maffitt, so successful in capturing slavers, has received an autograph letter from the Emperor Napoleon, expressing his admiration and thanks.—*Boston Courier.*

Exactly so, and a very beautiful compliment; but it comes at a curious time, just when "the land of the *free*" is boiling like a pot, for fear slavery should be made to "roost lower."

☞ Nicholas Carroll, a very estimable man, was killed by a runaway horse in Manchester, N. H., on Thursday. His remains were taken to Blackstone, Mass., for interment.

☞ Peter Woodworth, a clerk in Stewart's store, New York city, has been arrested for supporting a mistress and all her family, out of stealings from his shelves. He didn't get the girl's father a coat pattern, as desired of him, and so the old man "blowed on him."

For the Chronicle.

COMMENTS ON THE PRESIDENT'S MESSAGE.—About one-half of it is an argument in favor of the perpetuation of slavery in the fifteen slave States, and its extension over the vast territories of the United States, and as a natural sequence, ultimately over all the other eighteen States, as well as new States yet to be formed and admitted into the Union. Our inference is, that the argument is designed to support and justify the President's recommendation of an "explanatory amendment of the Constitution on three special points"—viz. that the amended constitution shall give the right of *property* in slaves in the States where it (the right of property) now exists, or may *hereafter* exist"—that is to say, in all new States hereafter to be formed, or any of the existing States that should hold to the doctrine of property in their fellow-beings. 2d. That, in substance, the amended constitution should protect this property; in other words, the Federal Government should be required to do it, under the constitutional sanction and obligation, in all the territories now free. 3d. A constitutional recognition of the *rights* of the master to have his slave, escaping, &c., delivered back to him; and, to cap the climax, that the present fugitive slave bill, now so clearly unconstitutional in its requirements of freemen, to be declared in that sacred instrument (whose pages are not now stained with the words slave or slavery) to be constitutional!

The Slave Oligarchy have for years held that the present constitution confers their right to property in slaves, wherever they may be, and that the right has been sanctioned by the Supreme Court; also that the fugitive slave bill of 1793 is constitutional. President Buchanan says that the slave bill of 1850 is "substantially the same." If so, his proposed amendments could confer no additional rights — and therefore would be superfluous. But the doctrine is a fallacy. We all know that ur glorious constitution was based on human rights, on civil and political freedom, and intended to secure their blessings to all then inhabiting, and who might in the lapse of time dwell upon this free land.

Let all our citizens now calmly and seriously reflect and deliberate, for the crisis demands it. Should the proposed amendments be adopted, they would radically change the structure of the government.—'Slavery would be triumphant over freedom, —a proud, self-conceited, and arrogant, oligarchy would continue to rule in our national councils, and dictate our future policy. The bright glory of the Republic would soon fade away. "By such a dread catastrophe," in the language of the President, "the hopes of the friends of freedom throughout the world would be destroyed, and a long night of leaden despotism, (an oligarchy would be still more oppressive) would enshroud the nations. Our example for more than eighty years would not only be lost, but it would be quoted as conclusive proof that man is unfit for self-government."

Is this language too strong? Even now it is the Southern doctrine that "slavery is the corner-stone in the temple of freedom" —"it is the substratum of society"—"it is justified by the word of God"!!! Such language has often been used on the floor of Congress. Even at the present day the civilized, Christian world stigmatize our nation for tolerating the God-abhorred institution. But grant the amendments, and the spirit of the Constitution will depart, leaving only the mouldering parchment. PAX.

THE PRINTER BOY, or How Ben Franklin made his Mark:—an Example for Youth:—is the title of a new Holiday Book, and a book of all days for boys, just published by J. E. Tilton & Co. Boston, and for sale by J. H. Foster, Portsmouth. The author is Mr. Wm. M. Thayer, who is also the author of the Bobbin Boy, Tales from the Bible, &c.

The Printer Boy is written in the same attractive style with the Bobbin Boy, viz. Narrative and Dialogue intermixed: and while it does not depart from the well-known Life of Franklin as to matters of fact, it is put so completely into a new dress as to have the charms of a new work.

It treats of Franklin's early life only, as best befitting a boy's book;—and is a perfectly safe book, of the interesting class, to be put into a boy's hand.

☞ The brewery of Hoffman & Curtis, No. 360 Greenwich street, New York, was damaged by fire on Saturday morning to the extent of $25,000. Fortunately the *alcohol*, of which there was a large quantity on the premises, did not take fire.

☞ George Matthewson, Esq., Superintendent of the Cocheco Print Works, and proprietor of the Eureka Powder Works, died Saturday morning at his residence in Dover, N. H. Mr. Matthewson was a delegate from New Hampshire to the Chicago Convention.

☞ The Boston Post and Courier exult over Mr. Wightman's election to be Mayor of Boston, as a great reaction, and with Mr. Appleton's election to Congress, a great and good thing to save the Union.

IN THE U. S. SENATE, Monday, Dec. 10,—there was a debate on the Union, Secession, and kindred topics: many senators took part in it.

Mr. Douglas said—I am ready to act with anybody who looks to the settlement of this question, or that will preserve the Constitution. (Applause.)

Mr. Sumner said he held a copy of a letter which was written under circumstances that looked like the present distracted state of affairs. It was a private letter of General Jackson, written on the first of May, 1833, to Rev. Mr. Crawford. The following is an extract: "I have had a laborious task here, but nullification is dead, and its actors and contrivers will be remembered by the people to be execrated by the people for their wicked designs," &c. The extract ends as follows: "The Tariff was only a pretext for disunion, and a Southern Confederacy the real object. The next pretext will be the negro or slavery question."

Mr. Benjamin asked whether the intent of the amendment was to indicate the opinion on the part of the gentleman offering it that force should be employed against a State.

Mr. King said the sentiment of his State was that the Union shall be preserved.—He believed that secession was another name for insurrection and rebellion. This resistance to the laws will meet with the penalty that the laws can inflict.

In the HOUSE, there was a debate on the composition of the select committee.

Mr. Hawkins gave additional reasons for not serving on the select committees.

He said that Florida could not be forced to remain in the Union

Mr. *Vallandigham* was in favor of excusing Mr. Hawkins. The Committee was raised to promote peace, and it was inconsistent to coerce members to serve. He said no Democrat from the Northwest was on the Committee. The Northwest did not intend to be dependent upon the South or the East, and if the people of that section could not otherwise get to the sea, they will *cleave* their way to it with the *sword*.

Mr. McClernand of Illinois did not believe that the government could be dissolved by any one of its parties. The government was stronger than is generally believed. He was amazed that no Democrat from the West was on the Committee, but did not wish to excuse Mr. Hawkins.

Mr. Sherman, from the Committee on Ways and Means, reported a bill authorizing the issue of ten millions dollars in treasury notes of not less than $100 denomination, the faith of the United States being pledged for the redemption, and the money thus authorized, to be borrowed from time to time, as may be deemed expedient. The bill after some debate was passed.

Without taking the question on Mr. Hawkins' request, the House adjourned.

CAPTURE OF A SLAVER.—Advices from the African squadron, says the Boston Advertiser, report the capture of another slaver with seven hundred and five Africans on board. She is called the Barque Cora, and hails from New York. She was taken about eighty miles off the Congo river, by the United States corvette Constellation, a person calling himself Loretto Ring, but supposed to be named Latham, proclaiming himself her master. A Spanish and an American crew were on board. The slaver was sent to Monrovia with a prize crew, where she will be turned over to the government agent. During the chase she made every exertion to escape, showing no light, and throwing overboard her boats, hatches, spare spars, and in fact clearing her spar deck of everything moveable to lighten the vessel. She was amply fitted out for a long voyage, and in her cabin was found every luxury suitable for a tropical climate, consisting of the choicest wines, preserved meats, fruits, &c.

The Journal of Commerce says the barque was owned by Messrs. E. D. Morgan & Co. of New York (Gov. Morgan's firm) up to May 4th, 1860. At that date the firm transferred the ownership to one John Latham, who at once represented owner and master, and who cleared her fifteen days after the transfer with the usual assorted cargo, for the African trade.—Before she got to sea she was seized by the Custom House authorities as a suspicious vessel, and obliged to give bonds to the amount of $23,000, which bonds are supposed to be good, as the District Attorney rejected seven applications before the security was made satisfactory.

OLD NICK.—The Knickerbocker Magazine New York; the oldest monthly, by long odds, in the country; and the only exclusively literary one—the favorite publication of the sort, over all others perhaps —is to be better than ever for 1861. The January number is out, and is much enlarged, crowded with good things. And in addition to all this—for $3, you get a beautiful engraving of "Robert Burns writing his Cotter's Saturday night," or a "Merry Making in the olden time," each $2 and $3 pictures. See specimens of book and picture, at J. H. Locke's.

☞ The attempt to introduce music into the schools of Philadelphia has failed. The friends of the movement are much grieved at this—as all friends of children ought to be.

☞ A writer in the Mobile Tribune proposes to raise $150,000 by private subscription, for the establishment of a State armory in Alabama.

☞ The breaks in the Croton water pipes have been repaired, and the New Yorkers now obtain their usual supply.

FROM THE SOUTH.—*Charleston, S. C., Dec.* 10.—Senator Clay has tended his resignation to Gov. Moore of Alabama, to go into effect on the 4th of March next, unless Alabama sooner secedes.

Columbia, S. C., Dec. 10.—In reference to the proposed Commissioners from the border States, the Guardian says it is a useless measure. The Convention will not listen to persuasion from any quarter.

Milledgeville, Ga., Dec. 10.—Governor Brown has written a long letter in favor of secession.

Washington, Dec. 10.—There is no doubt of Mr. Cobb's resignation. He leaves on Thursday for Georgia, where he is a candidate for the State Convention.—He did not attend the last three meetings of the Cabinet.

FROM UTAH.—*St. Louis Dec.* 10.—The Utah Legislature held a special session on the 12th of November, for the purpose of assigning by law the respective judicial districts of the Federal Judges, but neglecting to provide the necessary funds, the Governor refused to approve the bill and the session broke up.

The Federal officers in Utah have petitioned the Commisioner for Indian Affairs, for treaties with the Indian tribes in Utah.

NEW YORK, Dec. 11.—Henry Benatus, a sailor, was murdered last night by Phillip Collins, while quarreling about the price of some liquor. Collings was arrested.

LEVEE.—*Concord, N. H., Dec.* 11.—At a meeting of the Governor's Horse Guard, held at the Phenix Hotel in this city last evening, arrangements were perfected for giving a grand military and civic levee on the 8th of January next.

NEW YORK, Dec. 10.—The steamer "Huntsville" arrived here yesterday from Savannah, with eighty-six steerage passengers sent back by the authorities.

CHARLESTON, S. C., Dec. 8.—It is reported that great activity prevails in Fort Monltrie. The movements of the garrison seem to indicate that an attack from the secessionists is anticipated.

☞ Full election returns from California give Lincoln 38,702; Douglas 38,060;—Breckinridge 34,041; Bell 8794.

☞ Fowler & Wells, of New York, have just published a new edition, revised and enlarged, of the Illustrated Self Instructor in Phrenology and Physiology.

FIREMEN'S ENTERTAINMENT!

GRAND VOCAL & INSTRUMENTAL

CONCERT,

WITH TABLEAUX VIVANTS!

The Firemen of Portsmouth will give their first entertainment for the season,

AT THE TEMPLE

On WEDNESDAY EVENING, Dec. 12,

On which occasion they will present a series of beautiful Tableaux, illustrating the different scenes of the Fireman's Life.

—Also,—

Singing, Dancing and Recitations.

A QUARTET CLUB will introduce some new and popular songs, &c.

TICKETS 15 CENTS — to be had at J. H. LOCKE'S, and at the door.

Doors open at 6½; Concert to commence at 7½.

THE LIFE OF ANDREW JACKSON,

BY JAMES PARTON,

Author of "Life of Aaron Burr," etc.

Three Volumes, 686 to 724 pages each, with Steel Portraits.

CROWN OCTAVO EDITION.—Cloth Binding, $5; Sheep $6.75; Half Calf, $9; Full Calf, $12.

SUBSCRIBERS' EDITION, Royal Octavo, (*sold by subscription only*) Cloth, $7.50; Sheep, $9; H lf Calf, $12; Full Calf, $15.

Mr. Parton has been several years engaged in the preparation of this work, and has bestowed upon it the most careful research and investigation. The first volume of the Subscribers' Edition was issued a year since; the second was published last spring, and the third and last is now completed. Of the first and second volumes, the press have spoken in the warmest commendation.

"The life of Andrew Jackson was indeed an eventful one, and events that were moulded into his career, as a pioneer, a general and a statesman, are among the most important in the history of our country."—*Taunton Gazette.* "Almost all that relates to him is peculiar, extraordinary and interesting."—*Ancenia Times.*

"Those who have been most familiar with the career of Andrew Jackson, will be surprised at the mass of new matter the author has collected."—*Boston Journal.* "It exhausts the subject."—*New York Day Book.*

"It is an honest book throughout."—*Nashville Union.* "It is equally free from the spirit of detraction, on the one hand, and of unmixed glorification, on the other. Failings and virtues are alike faithfully delineated."—*Western Christian Advocate.*

"One of the most readable of books. Every page is alive. It is as romantic as a mediæval romance, and yet has the advantage of being true."—*Home Journal.* "Possesses a degree of interest which can scarcely be overstated."—*New York World.* "A fresher, livelier account was never written of any hero by any author."—*Boston Advertiser.* "No work of fiction could be better fitted to hold the attention and bear the mind along with a sustained enthusiasm, than this account of the real life of one of our own countrymen."—*Boston Post.* "From cover to cover, the work is intensely interesting."—*Philadelphia Item.* "Perfectly fascinating."—*New York Day Book.* "The narrative is flowing and charming. We confess having read the whole (one volume) in two prolonged sittings."—*Harper's Weekly.* "The most difficult task was where and how to part company with it."—*New York Crayon.* "Of intense and permanent interest."—*New York Observer.* "The most interesting personal and political history ever written of any public man in this country."—*Pennsylvanian* "His style is fairly eloquent with vividness and energy. His account of the defence of New Orleans, from its inception to its climax, interests more deeply than a tale of chivalry, or an oriental romance."—*Albany Times.* "One of the most interesting and instructive books we have ever read."—*Russell's Magazine, (Charleston, S. C.)* "A Life indeed, and before which the conventional and common place biographies of modern times sink into stupidity and insignificance."—*New York Journal of Commerce.*

ALSO JUST PUBLISHED,

THE LIFE AND TIMES OF PHILIP SCHUYLER.—By Benson J. Lossing. Vol 1. Crown 8 vo., 492 pages. With steel portraits. Cloth, $1.50.

"For the first time a genuine biography of Gen. Schuyler is written. The character and services of this efficient laborer for our country, as well as the established reputation of Mr. Lossing as a writer on kindred topics, give to the book no ordinary interest and value. The work will be complete in two volumes.

ITALY; FROM THE EARLIEST PERIOD TO THE PRESENT DAY. By John S. C. Abbott. Crown 8vo., 597 pages. With Steel Portrait. Cloth, $1.50.

This volume is one of the series of Mr. Abbott's Monarchies of Continental Europe, of which Austria and Russia have previously appeared. The volumes are of uniform style and price, but each distinct in itself.

PUBLISHED BY

MASON BROTHERS,

NOS. 5 & 7 MERCER ST., NEW YORK.

For sale by booksellers generally. d3t w

DR. B. C. PERRY,

THE CELEBRATED DERMATOLOGIST,

T. CURRIER.

In accordance with the repeated solicitations he has received from some of the first citizens of Portsmouth during his stay in Portland, having closed his office in Portland after a successful practice of five months, has concluded to remain one week in PORTSMOUTH—when all who are suffering from

Loss of Hair, Premature Blanching, or any Disease of the Scalp,

can consult him.

DR. PERRY is prepared to treat successfully the following diseases, all of which are productive of a loss of hair.

Debilitation of the External Skin, Suppressed Secretion, Irritation of the Scalp, Dandruff or Thickened Secretion, Inflammation of the Sensitive Skin, Matterated Secretion, Hair Eater, Distended or Swollen Roots, and Premature Blanching.

This is the only method based upon Physiological principles which has ever been presented to the public for the restoration of the hair.

Dr. Perry's Theory of treating Diseased Scalps and Restoring the Hair.—There are eighteen diseases of the head and scalp, that cause a loss of hair, and in some cases premature blanching, each requiring in its treatment different remedies. Where loss of hair has resulted from any of those diseases, the first thing to be done is to remove the disease by a proper course of treatment, restore the scalp to its normal condition, keep the pores open so the secretion can pass off, and in every follicle that is open, new strands of hair will make their appearance

The philosophy of premature blanching is this: Iron and Oxygen are the principle constituents of Dark hair, Lime and Magnesia of Light hair. When the suppressed secretion between the skins contains an excess of Lime, it is taken up by the strands, causing the hair to turn white; by opening the pores the accumulation of Lime passes off with the secretions, the natural components of the hair resume their ascendancy, and the hair assumes its natural color.

Because persons have tried various preparations for the hair, and have been deceived by them, and in some cases their difficulty made worse by their use, they should not be discouraged. The one preparation system for any class of diseases, must necessarily be a failure. No one compound can be available for a dozen or more diseases; it may remove some difficulties—in other cases useless, in some positively injurious.

Dr. Perry's method is in accordance with the law of cause and effect. He makes a personal examination, ascertains what disease of the scalp has or is producing a loss of hair or premature whitening, prescribes such remedies, according to its nature and requirements, as will remove the disease. Hence his great success in treating capillary diseases.

ALL CONSULTATIONS FREE.

Dr. Perry is now ready to receive visitors at

EXCHANGE HALL,

Exchange Buildings, same entrance with Chronicle Office.

Portsmouth, Dec. 3, 1860.

3 MERCANTILE LYCEUM.

The Third Lecture of the Fifth Course before the Portsmouth Mercantile Library Association, will be given AT THE TEMPLE,

On TUESDAY EVENING, Dec. 18th,

By REV. WM. R. ALGER,

SUBJECT:—"The Old Chivalry and the New; or the Martial Knighthood of the Middle Ages, and the Moral Knighthood of the Nineteenth Century."

The following Lecturers have been engaged:

WILLIAM WALLACE SILVESTER.
MRS. CAROLINE H. DALL.
A. D. RICHARDSON, Esq.

MILK 5 CENTS A QUART.

Of the best quality, constantly for sale at NO 23 CONGRESS STREET, opposite the Franklin House. JAMES R YEATON.

Special Notices.

KINGSTON, March 10, 1841.—"This may certify that my son has had a humor which made its appearance when he was but a few days old; and it grew worse, causing large swellings and running sores. He has been cured by the use of Dr. Swett's Panacea and Humor Wash."

T. CURRIER.

Hundreds of testimonials on hand might be added, evincing the many cures by Dr. Swett's medicine. All orders directed to DR. SIMEON SWETT, PORTSMOUTH, N. H., No. 1 School St., for his Panacea, Cough Drops, Conserve, Rheumatic Compound and Family Pills, and others of his popular remedies, will be promptly attended to.

Catarrh is the most difficult of any of the Diseases of the Breathing Organs to relieve or to cure. The Rev. Joshua Leavitt, editor of the Independent of New York, who had the Catarrh for more than twenty years, has been cured by using Dr. J. R. Stafford's Olive TAR and Iron and Sulphur Powders, which are advertised in this paper. His testimonial is published in a pamphlet among others equally prominent who have been cured of chronic Throats and Lung difficulties, which will be sent *free by mail.*

Eruptions, Salt Rheum, Erysipelas.

It is now generally admitted that all eruptive diseases depend upon some internal or constitutional cause, and that to see ointments or washes for them is a sure way to injure the system, and only to drive in, not to cure the disease. "But HUMPHREY'S SPECIFIC HOMEOPATHIC SALT RHEUM PILLS are a true specific for all such diseases. They cure Salt Rheum, Barber's Itch, Erysipelas, Blotches on the face, Ringworm, and Nettle Rash, by curing the cause upon which they depend, and restoring the skin to a state of health and purity. Thus not only is the disease cured, but the softness and beauty of the complexion restored.

Price, 25 cents per box, with directions. Six boxes $1.

Sent by mail or express, free of charge, on receipt of the price.

Address, DR F. HUMPHREYS & CO.,
562 Broadway, New York.

Sold in Portsmouth by THACHER.
See advertisement in another column.

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the most degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov28 dawâm

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Hysterics, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail to moderate excesses and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, send for a pamphlet to the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle by return mail. nov28 dawâm

Sold by W. R. PRESTON and all druggists.

WISTAR'S BALSAM WILD CHERRY

Coughs, Colds, Bronchitis, Asthma, Croup, Whooping Cough, Quinsy, and the numerous as well as dangerous diseases of the *Throat, Chest* and *Lungs*, prevail, in our changeable climate, at all seasons of the year; few are fortunate enough to escape their severe attacks. It is very important, then, to have at hand a certain antidote to all these complaints. Experience proves that this exists in *Wistar's Balsam* to an extent not found in any other remedy; however severe the suffering, the application of this soothing, healing and wonderful Balsam at once vanquishes the disease, and restores the sufferer to wonted health.

From a Respectable Druggist.

PORTSMOUTH, Aug. 3, 1860.

Messrs. S. W. FOWLE & CO., Boston.—

Gents:—Please send me a fresh supply of WISTAR'S BALSAM OF WILD CHERRY. We are selling large quantities of this long celebrated remedy for *Coughs and Colds*, and it bids fair to outlive most of the so-called specifics which now is vogue. We can confidently recommend it as a remedy for what it is intended. Very truly yours,

NATHAN G. PIKE.

Mr. D. H. TEAGUE, of Turner Village,

Writes the proprietors of this great remedy, as follows:

TURNER VILLAGE, ME., July 31, 1860.

Messrs. SETH W. FOWLE & CO., Boston.—

Gents:—I do not hesitate to recommend DR. WISTAR'S BALSAM OF WILD CHERRY for *coughs and colds*. I have used it in my family, and they have lately for many years with great satisfaction; indeed it has done more good than all the other remedies I have tried, and tried many in legion. If all the patent medicines in the market possessed but a portion of the merit of this excellent Balsam, there would be no occasion to condemn them as humbugs.

The medicine is also used by many of my friends and acquaintances in this town, and they have found it invaluable; and I hope that others who suffer may give it a fair trial. Very respectfully,

D. H. TEAGUE.

Prepared by SETH W. FOWLE & CO., Boston;

SOLD BY

PRESTON, KIMBALL, HUTCHINGS, J. H. THACHER, N. E. THACHER, PORTSMOUTH; JAMES P. PACKER, Greenland; S. A. SMITH, Jr., New Market; PORTER & THING and WM. B. SAUFORD, Exeter; J. W. GREEN, Hampton Falls; and by dealers everywhere. 2m

REMOVAL.

NEW SLEIGHS of the latest styles and best manufacture, on hand or furnished to order.

Also, a lot of SECOND-HAND SLEIGHS, with one or two seats, for sale cheap.—including several pairs of extra strong runners; for farm or other work.

Apply to **FRANK W. MILLER.**

Portsmouth, Dec. 10th, 1860.

Local.

☞ On Monday night, a soldier of the marine corps deserted his post as sentry at the Navy Yard here, and absconded. A seaman who was brought prisoner in the U. S. ship Marion, on charge of striking an officer, was sick, and placed in the hospital; and the invalid, with the marine put to keep guard over him, ran off together.—They probably took the boat of the Yard watchman, which was found at Kittery next morning. $120 reward was offered for their recovery; but we did not hear of their capture up to Tuesday evening.

Other soldiers have also deserted from this station within a few months—one while standing sentry at the bridge, having laid down his arms and fled.

A Bad Fall.—Mr. Phineas D. Hoyt, of this city, a carpenter, while at work at M. Fisher & Co.'s Brewery, Tuesday afternoon, fell from a staging—and his right arm was badly fractured from the elbow down, and his hip severely bruised. Dr. Oliver speedily attended him.

Too Bad—that there has not been a sleigh built in Portsmouth for the past season. There ought to be hundreds, or thousands.

Too Bad, Again—that while Portsmouth capitalists and mechanics are constantly turning out such superior ships—they should have to go to Boston for the rigging. Neither Portsmouth nor, we believe, Newburyport now has a rope-walk in operation.

☞ The sleighing is now (Tuesday) about as good as ever we have it; but the weather is almost too cold to allow of its being improved or enjoyed much.

☞ The lower floor of Mr. T. S. Nowell's Shoe Manufactory building, is now fitted up for two stores; and as they are opposite the south front of the new custom house and post office, and will be let for a small rent, they will doubtless be occupied speedily. The custom and retail shoe store will not come there, as was proposed.

☞ At a meeting of the Republicans of Ward 2 in this city, held in the Court House on Monday, E. M. Brown Pres., R. K. Oxford Sec., the following gentlemen were chosen to attend the several Conventions:

State Convention, to be held at Concord, Jan. 8th,—Messrs. Wm. P. Jones, E. M. Brown, John E. Salter, John Knowlton 2d, James Odiorne, Chas. H. Hayes.

Senatorial Convention, to be held at Portsmouth, Jan. 22,—C. W. Brewster, Albert L. Jones, Israel Kimball, Jonathan Dearborn, Brackett Hutchings, R. K. Oxford.

Congressional Convention, to be held at Dover, Dec. 12,—L. D. Spalding, Hampti Kenney, John H. Broughton, Jos. W. Neal, Samuel Rowell, John H. Broughton.

Councillor and County Convention, to be held at Exeter, Jan. 15th,—Albert Laighton, Marcellus Bufford, Lewis W. Brewster, B. F. Webster, Moses Yeaton, James L. Pray.

☞ The Firemen of Portsmouth announce a benefit entertainment at the Temple this (Wednesday) evening, with a varied and attractive order of exercises. Success to them—a full house, and a full purse afterwards.

Acknowledgement.—The subscriber would gratefully acknowledge the receipt of two dollars for the benefit of the poor, from some unknown friend, through the Post-office. N. Medbery.
Portsmouth, Dec. 11, 1860.

We would add, that several of the old benefactors of the poor have removed from the city,—and yet we have the poor. Shall not new friends be raised up?

Man Choked to Death.—Patrick Norton, a laboring man, who resided in Roxbury, Mass., was dining upon mutton on Saturday, when he attempted to swallow too large a piece and was choked: the man died in his chair before the arrival of the physician. Deceased was about forty-five years of age.

Short Notice.—The Newburyport Herald of Tuesday says:—

Gen. Cushing will conclude his address on the "state of the Union," at 10 o'clock *this morning*, at Market Hall. He leaves at 12 o'clock to attend to urgent business in the Supreme Court at Washington, which is the reason of this short notice.

City Elections.—On Monday, several cities in Massachusetts held their municipal elections. Boston elected Wightman, Union, by 3000 majority; Lowell, Sargent, Republican; Roxbury, Gaston, Union;—Worcester, Isaac Davis, Citizens'; Lynn, Breed, do.; Newburyport, Davenport, do.

☞ A New York girl who wanted to "see life," went into a dance house ball the other night, in male attire, and danced more than six hours before she was discovered and arrested. The police made her pay $10 to be let off. She said she did it just for the fun of the thing, so to see how such institutions were conducted; and she probably found out.

☞ The "snaik" seen in Silver Lake, Wyoming County, N. Y., three years ago, and described in such grand style in the papers of the western New York as to attract thousands to the Lake, proves to have been made of India rubber. It was a very successful deception.

Attempt to Burn the Capitol of Alabama.—On the forenoon of the 27th ult., an attempt was made to burn the State House at Montgomery, Ala. The fire was set in a room filled with old books and papers, and other combustible material. It was discovered by a colored boy named Elias, who promptly gave an alarm, by means of which the building was saved without much difficulty.

☞ Thomas Jackson, a lad of 14 years, met with a coasting accident at Worcester on Thursday night, from which he died the next morning. His sled struck a curb stone, and he was thrown ubon the ground with great violence, striking on his breast. His injuries were internal.

Courageous Deed.—At the fire in Hudson street, New York, on Thursday morning, Michael Norton, the pugilist, dashed into a room on fire, took out a female in his arms and, after several unsuccessful attempts, carried her to the roof, and finally delivered her into the hands of her friends, who witnessed his movements from below. He is known among the "fancy" by the sobriquet of "Crow," and he has a right to crow now.

New Cotton Factory.—The Lynn Reporter says that preliminary steps have been taken for the establishment of a steam cotton factory in South Danvers. It is to be called the Peabody Manufacturing Company, and to have a capital of four hundred thousand dollars.

☞ Rev. O. T. Lanphear, of Exeter, is to deliver the opening lecture of the Hampton Lyceum, at their new Town Hall, this (Wednesday) evening.

Dr. Perry, at Exchange Hall, in this city, is the only man in this country who treats the various *diseases* which destroy the Hair, upon physiological principles. He practised five months in Portland, previous to coming here, and our exchanges from that city earnestly recommend his system to all who are afflicted with capillary difficulties.

NOTICE—TO NEW SUBSCRIBERS.

All persons who may now pay $4 for the Daily Chronicle, or $1 for the Weekly Chronicle, for the year 1861,—will be furnished with the paper without charge, from this time to Jan. 1. tf

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or Engraved in the best manner.

Why will you suffer? Dyspepsia is a brief but comprehensive term for the numerous diseases which affect the stomach, liver, and, in fact, the whole system. Until Dr. Greene discovered the *Oxygenated Bitters*, medical science had exhausted itself in vain attempts to cure this disease.

Atwood's Quinine Tonic Bitters,—the best Aromatic Tonic ever offered to the public.—All the Druggists have it. See advertisement.

MARRIAGES.

ANOTHER NEW STOVE
THE MODEL COOK
FOR WOOD OR COAL,
MADE BY
THE BARSTOW STOVE COMPANY
Of Providence, R. I.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking giving an oven nearly 3 ft. long! or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven, with a tin roaster in front of the fire, are obvious, ys:

1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is the most durable, tasteful and useful.

2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking oven.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires; or it can be used for a hot closet when not required for baking or roasting.

5th. By this extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time the stove occupies no more room on the floor.

John Trundy, Esq., one of our most practical and scientific mechanics, who has had large experience in the construction of stove patterns in years past, and has for many years been using one of the Stewart Stoves, has purchased one of the MODEL COOKS, and after a fair trial pronounces it far superior to the Stewart or any stove he has ever seen, for economy, convenience and dispatch We might also refer to several other parties who are using the stove, and who award it the very highest praise.

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be *the* stove for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is wanted.

We have nought to say against any other stove, believing that a man can sell his own goods without depreciating his neighbor's; but this we do say, that we honestly believe this is the *best stove that can be found in the world;* and what is more, we think others will agree with us after a trial of it. We invite any one to examine the stove, whether they wish to purchase or not.

For sale, with a great variety of
Furnaces, Ranges, Cooking, Office and Parlor Stoves; Coal Hods, Sifters, Funnel, Stove-Repairing Pieces, Parlor Grates, Etc.

Cook Stoves.

Autocrat of the Kitchen.—35,000 *in use*
THE ORIGINAL P. P. STEWART,
FUEL-SAVING AND COMFORT-PRODUCING LARGE OVEN, SUMMER AND WINTER
AIR-TIGHT COOKING STOVE,
For Wood & Anthracite or Bituminous Coal
Improved in 1859 with New and Extra Large Flues, and by the addition of the Celebrated Patent Double Sheet Bottom Flue.

Attention is invited to the following Points of Superiority:

Durability.—Lasting, with proper care, at least 20 years. Stoves are now in use that were set up in 1836.

Capacity.—Baking, broiling, boiling, roasting and all other culinary operations performed *at the same time.* A barrel of flour baked into bread with a single fire.

Economy.—Saving the cost of the stove in 2 or 3 years in the item of fuel.

Ventilation of Oven.—In the Stewart Stove alone the front doors open directly into the oven protected by flues, thus securing a direct draft through the *top of the oven,* by means of perforated holes in the doors and back flues. It will be borne in mind, that, as the heated air always rises, this method of ventilation is the only one of any value whatever.

Entire Control of Heat.—The heat generated by the stove, may be held therein and used, or thrown into the room, at pleasure.

The Double Sheet Bottom Flue.—By which a compressing and inverting action of heat is obtained, and the oven more evenly and efficiently heated than by any other known invention.

Broiling.—Performed *on the top,* and without the possibility of smoke entering the room.

Hot Water Reservoir and Warming Closet.—Both useful and convenient, supplied by the waste heat and without extra fuel.

Water Back.—An arrangement for supplying hot water for the bath room equal to any range.

Beware of the numerous worthless imitations now in market. See that the name of P. P. Stewart is on each stove. No other is genuine.

THE ONLY PREPARATION

Having Proof so Strong and Direct as to

Expel the Doubts of All.

For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all cases of eruptions, and diseases of the scalp and brain; but all woo have used it, unite in testifying that it will preserve the hair from falling or turning gray, and from falling to any age, as well as restore.—Read the following:—

Oak Grove, S. C., June 24, 1859.

Prof. O. J. Wood:—Dear Sir:—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test:—

During the year 1854, I was so unfortunate as to be thrown from my saddy against a rock near the roadside, from which my head received the most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was foiled by defeated in every prescription advised.

These and no other circumstances induced me to resort to your worthy "Hair Restorative," which I have every reason to believe, produced a very happy result: two months after the first application, I had as beautiful a head of young hair as I ever saw, for which I am now two years my sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself to say, is not a little.

You can publish this if you think proper.

Yours, very respectfully,

M. J. WRIGHT, M. D.

Jeffersonian Office, Phillipi, Va., Dec. 12, 1859.

Professor O. J. Wood:—Dear Sir: I feel it my duty as well as my pleasure, to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, (a lawyer,) has been bald ever since his early youth; so much so, that he was compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and he is very well known in our adjoining counties, many persons can testify to the truth of this statement. I give this to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents.

THOMPSON SURGHNOR.

Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair to its original color, and that the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative it has resumed its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable.

The Restorative is put up in bottles of three sizes viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds a little more than a pint, and in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent more in proportion, and retails for $3 a bottle.

Humphreys' Specific Homeopathic Remedies for the People

These Remedies are carefully prepared under the direct supervision and inspection of Prof. HUMPHREYS, in order to meet that great and long felt want of the public, namely, remedies for all the more common and simple ailments of life.

A moment's reflection will show that a vast majority of diseases from which we suffer and die, were, at their commencement, simple and trifling. A mere cold, a slight diarrhea, a pain in the side, or a headache, or hoarseness, at first easily cured and subdued, in time becomes a consumption, a fever, a dangerous dysentery, Croup or other disease, which all the power of medicine fail to arrest.

Herein these remedies supply a great public want. Being on hand, simple, so you know at once what to take—pleasant, so as to cause no repugnance—safe, and hence occasioning no risk, while the curative effects are positive and certain, they are taken, and at once the spell is broken and the danger allayed.

Experience has amply confirmed the use of these remedies for families and private persons, as they are the very ones to meet every ordinary contingency, THE MOST PRUDENT AND RELIABLE.

Thousands are and have been using them for some five or six years, with the action of the country, with almost invariable success. All speak in the highest terms of their simplicity and certainty, and almost hundreds of agents for the uniform satisfaction they give good satisfaction to their customers.

ATWOOD'S QUININE TONIC BITTERS.

The Best Aromatic Tonic ever offered to the Public.

RECOMMENDED BY THE FACULTY

For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic*, and cannot fail to meet the wants of the debilitated.

It is a mild tonic to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhea, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

One of the very best Physicians in Boston has said "*I think it the best preparation of Bitters that has ever been offered to the public.*"

Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

For further particulars reference is made to the printed circulars.

Dr. Mott's

CHALYBEATE RESTORATIVE

PILLS OF IRON.

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States as prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of Blood, Indigestion, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:

In DEBILITY, NERVOUS AFFECTIONS, HEMATINGS, CONSTIPATION, DIARRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly reappeared in the busy world as it returned from protracted travel in a distant land. Some very remarkable instances of this kind attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical suppression, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In NERVOUS AFFECTIONS of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorous yet mild, without being acrid, drying and over-heating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

Of this latter property, among others, which make it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency, which forms them.

In DYSPEPSIA, incurable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant wakefulness.

In unchecked DIARRHŒA, even when advanced to DYSENTERY, confirmed, emaciating, and apparently malignant, the effects have been equally prompt and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which mark the incipient CONSUMPTION, in this remedy has allayed the alarm of friends and physicians, in several very gratifying and inter esting instances.

In SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of the most advanced preparations of iodine, without any of their well-known liability to

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In RHEUMATISM, whether chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as allevianting and reducing the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must necessarily be a great remedy and energetic substitute, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects—from the complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

BININGER'S OLD DOMINION WHEAT-TONIC

—FOR—

FAMILY AND MEDICINAL USE.

This natural product of the most nutritious grain, recommends itself as presenting in a concentrated form the nutritive properties of Wheat, and has received the highest encomiums from eminent medicinal authorities, as possessing qualities that are absolutely REMARKABLE; this *combination* renders it invaluable to those who are suffering from *Consumption, Lung Complaints, Impaired Strength, Lack of Vital Energy*, and all diseases which, in their incipient stages, require only a generous diet, and an invigorating, nourishing Stimulant.

Put up in quart bottles, in iron-bound cases of one and two dozen each, and sold by all prominent Druggists, Grocers and Town Agents.

BININGER'S OLD KENTUCKY BOURBON "1849 RESERVE"

The *established popularity* of this CHOICE OLD WHISKEY, and the *best proof* of its remarkable superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky Whiskeys.

Being distilled in 1848, and manufactured expressly for us with great care, it can be relied upon as a *strictly pure* stimulant, and peculiarly adaptive for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency to *recruit and strengthen*; while age having contributed its genial charm, and enriched it with a delicious flavor and aroma, the body, it affords a pleasant incentive to the preservation or recovery of health, through the agreeable medium of a well pleased palate.

Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and sold by prominent Grocers, Druggists and town agents. A. M. BININGER & CO.,

Dyspepsia Remedy

DR. DARIUS HAM'S AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.
One dose will remove a Cold Spell.
One dose will remove Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the depressing pains of Dyspepsia.
One dose will remove the distressing and disagreeable feeling of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.
One dose will remove the most distressing pains of Colic, either in the stomach or bowels.
A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles at the low price of 50 cts. per bottle.

SEVEN YEARS!

The seven years of unrivalled success attending the
COSMOPOLITAN
Art Association,
have made it a household word throughout every quarter of our country.

Under the auspices of this popular Institution, over *Seven Thousand Homes* have learned to appreciate—by beautiful works of art on their walls, and choice literature on their tables—the great benefits derived from becoming a subscriber.

Subscriptions are now being received in a ratio unparalleled by that of any previous year.

TERMS OF SUBSCRIPTION.

Any person can become a member by subscribing *three dollars*, for which sum they will receive

1st.—The large and superb steel engraving, 30 x 28 inches, entitled

Falstaff Mustering His Recruits,

2d.—One copy, one year, of that elegantly illustrated magazine, the

"COSMOPOLITAN ART JOURNAL."

3d.—Four admissions, during the season, to

"The Gallery of Paintings, 548 Broadway, New York."

In addition to the above benefits, there will be given to subscribers, as gratuitous premiums, over

Five Hundred Beautiful Works of Art,

comprising valuable paintings, marbles, parians, outlines, &c., forming a truly national benefit.

THE SUPERB ENGRAVING, which every subscriber will receive, entitled "FALSTAFF MUSTERING HIS RECRUITS," is one of the most beautiful and popular ever made in this country. It is done on steel, in *fine line and stipple*, and is printed on heavy plate paper, 30 by 28 inches, making a most choice ornament, suitable for the walls of either the library, parlor or office. Its subject is the celebrated scene of Sir John Falstaff receiving in Justice Shallow's office the recruits which had been gathered for his "Ragged Regiment." It could not be furnished by the trade for less than five dollars.

The *Art Journal* is too well known to the whole country to need commendation. It is a magnificently illustrated magazine of Art, containing Essays, Stories, Poems, Gossip, &c., by the very best writers in America.

The Engraving is sent to any part of the country by mail, with safety, being packed in a cylinder, postage prepaid.

Subscriptions will be received until the Evening of January 31, 1861, at which time the books will close, and the premiums be given to subscribers.

No person is restricted to a single subscription. Those remitting $15, are entitled to five membership, and one extra Engraving for their trouble.

Subscriptions from California, the Canadas, and all Foreign Countries, must be $3.50 instead of $3, in order to defray extra postage, &c.

For further particulars send for a copy of the elegantly illustrated *Art Journal*, pronounced *the handsomest magazine in America*. It contains Catalogue of Premiums, and numerous superb engravings. Regular price, 50 cts. per number.—Specimen copies, however, will be sent to those wishing to subscribe, on receipt of 18 cents, in stamps or coin.

Address C. L. DERBY, Actuary C. A. A., 548 Broadway, New York.

N. B.—Subscriptions received received and forwarded by

FRANK W. MILLER,
Agent for Portsmouth and vicinity,
Where specimen Engravings and Art Journal can be seen.

Portsmouth, Nov. 23, 1860.

Dr. S. Swett's Vegetable Medicines.

The saving efficacy of these truly valuable medicines is daily witnessed by thousands of the first classes of society, many of whom are physicians of great success. The following are among his most popular preparations, viz:

His **Pannacea** is unrivalled for the cure of Cancers, Scrofula, Salt Rheum, Erysipelas, Canker in the mouth or throat, Sore or inflamed eyes, and all impurities or humors of the blood. Price $1,00.

C. E. MYERS. C. E. SIMPSON.

LYMAN'S
Improved Patent Metallic Soles.
PATENTED JUNE 7, 1859.

The nature of this invention consists of a metallic sole for Boots and Shoes, which has been tested and operated satisfactorily. No dampness penetrates through to the inside sole. This is the only device that will operate well between two soles, and is made so thin as not to interfere with the most delicately finished work. The necessity of such a device to fully accomplish the much desired object, and the disastrous effects arising from damp feet, are too well understood to require any comment.

Boot and shoe manufacturers and dealers in Rockingham County furnished with the soles, ready for use, at No. 24 Market Street, Portsmouth, N. H. **J. C. CARR.**

The Best Calf Fleece-Lined, Fur Top
GLOVES

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, DECEMBER 13, 1860.

THE QUESTION before the Country, was, shall the people be allowed to choose any man for President who is not subservient to the slave power?

The fire-eaters said, No! if you do, we will secede.

The people went on and chose him: and now the question is, *will* they secede?

This question has been answered in *words* by the fire-eaters, who say, yes we will;—and by President Buchanan, who says for substance,—you are right,—but please not go ahead! if you do, I shall not stop you.

In *action* they have not yet done much but resign a few offices; one case of which, the resignation of Mr. Cobb from the U. S. Treasury, is the only good thing he has done in the Cabinet. And here comes up another question, viz.—is that a free country, in which one-tenth of the people can dictate to the nine-tenths, how they must vote, and whom they must not elect?

CONDITION OF WHITE LABOR IN THE SLAVE STATES.—Senator Hammond, in an address before the South Carolina Institute, once said:

Of the three hundred thousand white inhabitants of South Carolina, there are 50,000 whose industry, such as it is, is not adequate to procure them honestly such a living as every white person is entitled to. Some of them maintain a feeble and injurious competition with slave labor; some can scarcely be said to work at all; they obtain a precarious subsistence by occasional jobs, by hunting, by fishing, sometimes by plundering fields, and too often by what is in its effects far worse—trading with slaves, and inducing them to plunder for their benefit.

JOHN M. BOTTS ON SECESSION.—Mr. Botts, in his recent letter, declares he will have no part in the wickedness of secession; thinks that Virginia will not secede. He says the position of South Carolina is bold, daring, flat-footed rebellion against, and treason to the rest of the States. He thinks the only question involved in the Carolina imbroglio, is whether it is worth while to keep her in the Union. He believes that the Federal laws should be enforced in South Carolina, notwithstanding an ordinance of secession, and is bitter on the secession party.

THE FORT SCOTT AFFAIR. — S. J. Crawford of Garnett county, K. T., has arrived at St. Louis, having left Fort Scott on Thursday last. He says:

Montgomery has not been away from his farm for weeks, until within a few days past, when he went to Lawrence. The two or three cases of hanging which took place in that part of the State were the work of the celebrated Dr. Jennison and a small gang of Jay-hawkers. Mr. Crawford states that the present troubles in that part of the Territory have arisen from the discontent of a number of settlers on the New York reservation lands. He says the reports furnished by Judge Williams were fabrications from beginning to end.

AN APPRENTICE BOY at work in Lawrence, at $3 per week, was heard the other day to say that he would not continue work unless his pay was raised, as he could get as much as that at the House of Correction. When expostulated with, and advised to *earn* four dollars before demanding an increase of pay, he doggedly replied that he would earn no more than he received, if he could possibly avoid it.

The Lawrence Journal remarks:—

The end of that young man can be easily guessed. Though by no means old, the writer has had no little experience and observation in regard to the course which apprentices ought to pursue. We have learned that labor is a blessing which returns to its votaries, food, clothing, and every necessary and comfort of life. A wish to live without labor—or a desire to receive two dollars where only one is earned, is but a step removed from the disposition to steal a dollar whenever an opportunity presents. To get along easily, make the best of your situation, whatever that may be. Be industrious, frugal, economical, always living within your means. Go to your work with alacrity, and never cease to identify your interests with those of your employer.—This course will soon become a habit,—one which will adorn you through life, ensuring the respect of your employer, and affording a richer consolation to yourself than would any advantage, however great, obtained by unfair means over your employer. Merit the reward before you ask for it. No person ever pursued this course without gaining respect—no one ever pursued the opposite, for any great length of time, without being distrusted, and finally, cast out from every decent or respectable workshop as a drone and an eye-servant.

Uncle Toby remembers one fellow-apprentice of his in Boston, who avowed the bad principle above described; acted upon it; and got into a penitentiary for forgery, before he was 25 years old.

FOUND DEAD.—Constantine Goldthwait was found dead in his bed, at his residence in Northbridge Centre, on Friday morning. A physician decided that the cause of his death was heart disease, and that he had been dead some hours. No inquest was deemed necessary. He was fifty-three years old, and had not been entirely well for some years; but no particular difficulty at the time was known except a bad cold.

For the Chronicle.

COMMENTS ON THE PRESIDENT'S MESSAGE.—No. 2.—If the false constructions now put upon it [the Constitution] are countenanced, what further may not be expected to uphold the slave power? Man shall hold *as property* his fellow-man, created in the image of God—man created "a little lower than the angels"—man to whom the Almighty granted authority over the face of the earth and all the inferior animals, converted by an amended constitution into goods and chattels! When the Constitution was framed, it was proposed to insert a clause revolting to public feelings. Mr. Madison said he would never consent that the *idea* that there can be *property* in man, should be inserted, and it was not. Now we concede that all the questions and arguments, pro or con, in respect to the institution, rest upon the simple question whether man can rightfully have *property* in his fellow-men? We wholly deny that under the Divine authority he can be converted into a thing—into goods and chattels. But if he can be, no race of men, whatever may be the complexion, can be exempt from the dreadful, appalling condition. The slaves of Greece and Rome were not of the African race. Many of the oligarchs, some on the floor of Congress, have dared to declare, that it would be better for Society to convert our Northern laborers into slaves! Daniel Webster replied that "we are all laborers in the North." It is too late in the day to adduce proof of the self-evident position that men are entitled to certain natural, inalienable rights—to equal rights, if not forfeited by crime.

From the President's recommendation to add an explicit constitutional declaration, that four millions of our fellow-creatures and their descendants (the complexion of all, no matter from what natural causes, will assimilate in time,) shall be converted into property, we shrink with abhorrence! Can it be that such a recommendation can come from the Chief-Executive of a great nation, although he may have put himself under the Slave Power, which elevated him to power? Before it can be adopted, every Northern sword would leap from its scabbard, and our plains would be crimsoned in blood. We invoke our countrymen to pause and deliberate before they determine to destroy this, the grandest temple which has ever been dedicated to human freedom since the world began! It has been consecrated by the blood of our Fathers, by the glories of the past, and by the the hopes of the future." It is said that the free States are required to make the degrading concessions to save the Union—to appease the imperious Oligarchy, and induce the rebelling States to return to their allegiance to the Government. If the Union was formed in order to uphold, extend, and perpetuate slavery, the greatest curse to the whole nation, it is not worth saving.

But it was entered into for no such inglorious purpose or object. And it will be preserved, and the Constitution and the government based on its principles and those of the Declaration of Independence. Twenty millions of virtuous, enlightened, untimidated freemen in eighteen free States can still exist as a great nation, having a population rapidly increasing, and will defend and preserve the present form of government, which cannot be destroyed by the separation of the diseased parts. But the indications are strong that some of the bordering slave States are too wise to madly abandon their vital interests, and desert the star-spangled banner of their country under which they have been protected, for no better reason than that negro slavery cannot, in a free country, be established upon an immoveable basis. PAX.

COLUMBIA, S. C., Dec. 11.—An animated contest occurred in the Legislature on the election of Governor. On the second ballot, when 82 was necessary to a choice, the vote stood as follows: Pickard 53, Johnson 50, Rhett 28, Jamison 27, and Townsend, Barnwell and Chesnut 1 each. The election was postponed until Wednesday next.

[This looks like an irreprepsible conflict in Carolina; but it does not look like unanimity in secession, or in anything else.]

BATON ROUGE, La., Dec. 11.—The bill has passed both Houses for the election of delegates to the convention to be held here Jan. 22.

The military bill also passed; also a bill organizing and arming volunteers. An amendment, forbidding the purchase of arms at the North, was lost.

A bill confiscating, after Jan. 1, all goods arriving from the North, the proceeds of the sale of which are to be devoted to the purchase of arms, was referred to a joint committee.

☞ The potato is spoken of as belonging to the root family. Naturalists tell us, however, that the potatoe is not a root, but an underground plant. The same is true of the common witchgrass, every joint of which is an eye ready to send out a new shoot. Cut off one of the eyes and plant it, and it will sprout up and grow. Not so with a section of a root proper.

CONTRADICTED.—*Louisville, Ky., Dec. 11.*—It is not true that Mr. Guthrie has been tendered the office of Secretary of the Treasury.

IN THE U. S. SENATE, Tuesday Dec. 11, the House bill to provide for the payment of the outstanding treasury notes, and authorizing a loan, &c., was received.

Mr. Rice was opposed to taking the bill up.

Mr. Cameron favored its consideration now.

It was taken up by a vote of 39 to 37.

Mr. Rice moved its reference to the Committee on Finance. He thought that country was looking to Congress to do something to restore harmony among the people.

There was a pure gleam of light from Boston which would ultimately have a good effect on the public mind. Let the North show a returning sense of justice.

Mr. Bigler proceeded to state that more votes were thrown in Pennsylvania and New York, than in all the States that were threatening secession. The Republican party has gained its last victory. Let us remain together.

Mr. Iverson said the South did not fear personal liberty bills or fugitive slave laws; they fear mob law most. The vote in the late contest shows the sentiment of the North, and all the Douglas-non-intervention-squatter-sovereignty party there cannot avail anything. (Laughter.) If the South is left to itself the slave population will increase in thirty years from four and a half to thirty millions, and will preponderate over the white. If the North prevails, universal emancipation will be the result of its government.

Mr. Pugh asked Mr. Iverson if he expected to continue the Union by the extraordinary speech he has just delivered.—When any State, Territory or community did not desire slavery, said Mr. Pugh, may my right arm fall from its socket before I force them to accept it.

A general interchange of views between Messrs. Davis, Wigfall, Brown and Douglas followed, pending which the Senate adjourned at 4 1-2 o'clock.

In the House, there was a debate on excusing members from the Select Committee, —and the vote was *not* to excuse them.

Mr. Smith of Virginia remarked that the silence of the Republicans was indicative of a determination to avail themselves of the powers they have obtained.

Mr. Stanton confessed he had little hope of a satisfactory result from the committee; he did not see in the existing state of things what is to be remedied by legislation.

The Republicans have elected a President, a thing which has been done every four years, and he did not see in that anything requiring legislation. If amendments to the Constitution should be proposed, he would be glad to see them, as that is the only effectual mode of doing anything.

Mr. Corwin offered a resolution which was adopted, that the Committee be empowered to employ a Secretary at $4 per day, and that it have leave to sit during the session of the House, until it shall report and be otherwise discharged.

Mr. Sherman of Ohio reported the Diplomatic and Consular appropprination bill, and also an appropriation bill for the support of the Indian Department. He also offered a resolution, which was adopted, that the Committee on Indian Affairs enquire and report whether any of the Indian Superintendents or Agents could be dispensed with. He also presented a petition of Thaddeus Hyatt for the relief of the people of Kansas.

Mr. Barrett of Missouri said the suffering in Kansas was not so great as Mr. Hyatt represented it to be, for the people in one part of that territory had given a ball at two dollars a head. (Laughter.)

Mr. Branch of North Carolina, offered a resolution, which was *adopted*, that the States be called to-morrow for bills and resolutions, and that all matters relating to the state of the Union, be referred to the Select Committee. Adj.

WASHINGTON, Dec. 11.—The House Post Office Committee this morning unanimously adopted the Overland Mail bill submitted by Mr. Colfax. It provides that the Post Master General shall advertise for proposals for carying the entire mail overland, daily, betwen St. Joseph and Sacramento, by the Central Route, from July, 1861, to July, 1865, (Denver City and Salt Lake to be supplied with a weekly mail without extra charge,) the whole expense not to exceed $800,000 per annum. Letters and papers are to be carried through in twenty days, and pamphlets and magazines in thirty days. The bill also authorizes a temporary steamship service from New York to San Francisco.

The President to-day requested the Secretary of the Navy to perform the duties of the Secretary of the Treasury in addition to his own, until a successor to Mr. Cobb is appointed.

Mr. Cobb formally took leave of the President to-day. The interview was pleasant and private.

The ten million treasury note bill which passed the House yesterday, gives power to the Secretary of the Treasury to sell them as the wants of the government may require, bids being invited by a ten days' notice.

Mr. Branch of N. C. has declined the Secretaryship of the Treasury.

Gen. Scott has prepared a plan of adjustment, which the committee of thirty-three desire should be placed before them.

The Select Committee organized to-day, the members from Arkansas, Florida and South Carolina declining to appear. Mr. Houston of Ala. urged prompt action, expressing the opinion that the committee might adopt a report which would restore the Union feeling in the South.

☞ Mr. Hamlin will tender his resignation as Senator from Maine, to take effect on the 1st of February with a retiring speech, which will, according to the correspondent of the New York Times, reflect somewhat the policy of the incoming administration.

☞ The venerable John Johnson, of Dayton, Ohio, in Washington on business before Congress, called at the office of the National Intelligencer, one day last week, for the purpose of paying his sixtieth year's subscription to that journal.

NEW BOOKS.—Walker, Wise and Company, Boston, have just published a neat 18 mo. volume in blue and gilt, entitled Pictures and Flowers for Child Lovers.—The motto line, from Jean Paul, is, "I love God and every little child." It is a rare collection of gems, in verse and prose.

The same publishers have also lately issued A Practical Illustration of Woman's Right to Labor.—To some careless reader, this may seem a dry title, and the resolve may be taken not to open the book. But the book is not a dry one by any means: on the contrary it is an interesting Autobiography of Marie E. Zakrzewska, M. D., late of Berlin, Prussia.

It is given in the form of a letter, edited by Mrs. Caroline H. Dall, who is well-known to many of our people, and who furnishes the book with a spirited introduction.

Both the books may be found at Mr. J. H. Foster's bookstore.

MANCHESTER, N. H., Dec. 11.—The election of Mayor took place to-day. David A. Bunton, Republican, received 1288 votes, and Bradbury P. Cilley, Citizens' candidate, 842. Democrats in large numbers staid away from the polls, as the party made no nomination, hoping that Col. Cilley, although a Republican, might be elected. The Democrats have made a gain of one in the Board of Aldermen, and two or three in the Common Council.

KANSAS MATTERS.—*Leavenworth, Dec. 11.*—Mound City dates of the 7th, state that the force there consisted of 180 men, and was being increased daily. All attempts to arrest Jennison and Montgomery had been futile, as they could not be found.

NEBRASKA. — *Omaha, Dec. 10.*—The House passed the bill prohibiting slavery in Nebraska with but two dissenting votes.—It will probably pass the Council.

NEW YORK, Dec. 11.—Haytien advices report the failure of a conspiracy against the government, and the hanging of the culprits, including several women and one American.

In music the slaves at the South are greatly proficient, as every one knows; but in art, says the Post they have bad taste, when once they run away, not to show any partiality for the "old masters."

☞ Rev. Thomas Whittemore, editor of the Trumpet, has so far improved in health that he has visited his office in Boston. The Trumpet says his improvement for the last seven days has been marvellous.

SHERIFF'S SALE.

State of New Hampshire,—Rockingham, ss.

Taken on execution, wherein William Rand, of Portsmouth, in said County, Esquire, is creditor, and Zena Rendall, of Portsmouth, in said County, seamstress, a debtor, and returnable to the Supreme Judicial Court next to be holden at Exeter on the 3d tuesday of January next, the following property, to wit:

1 PIANO, Gamage make, a valuable instrument, 1 mahogany SECRETARY, 1 WRITING DESK, 1 CARD TABLE, 1 4-foot MAHOGANY TABLE, 1 OTTOMAN, 1 damaged ROUND TABLE, 1 lot old FRAMES & PICTURES, 1 WASH STAND, 1 MANTLE CLOCK, 1 FEATHER BED, 2 FEATHER PILLOWS, 1 BOLSTER, 3 COTTON SHEETS 2 TABLE SPREADS, 2 STAIR CARPETS, 2 Stair Carpet COVERS, 1 old QUILT, 1 lot STRAW CARPETS.

All of the above are second-hand goods.

Also.

One large gilt frame beautiful

Thread Picture of the Declaration of Independence.

DR. B. C. PERRY,

THE CELEBRATED DERMATOLOGIST,

In accordance with the repeated solicitations he has received from some of the first citizens of Portsmouth during his stay in Portland, having closed his office in Portland after a successful practice of five months, has concluded to remain one week in PORTSMOUTH—when all who are suffering from

Loss of Hair, Premature Blanching, or any Disease of the Scalp,

can consult him.

DR. PERRY is prepared to treat successfully the following diseases, all of which are productive of a loss of hair.

Debilitation of the External Skin, Suppressed Secretion, Irritation of the Scalp, Dandruff or Thickened Secretion, Inflammation of the Sensitive Skin, Matterated Secretion, Hair Eater, Distended or Swollen Roots, and Premature Blanching.

This is the only method based upon Physiological principles which has ever been presented to the public for the restoration of the hair.

Dr. Perry's Theory of treating Diseased Scalps and Restoring the Hair.—There are eighteen diseases of the head and scalp, that cause a loss of of hair, and in some cases premature blanching, each requiring in its treatment different remedies. Where loss of hair has resulted from any of those diseases, the first thing to be done is to remove the disease by a proper course of treatment, restore the scalp to its normal condition, keep the pores open so the secretions can pass off, and in every follicle that is open, new strands of hair will make their appearance

The philosophy of premature blanching is this: Iron and Oxygen are two principle consituents of Dark hair, Lime and Magnesia of Light hair. When the suppressed secretion between the skins contains an excess of lime, it is taken up by the strands, causing the hair to turn white; by opening the pores the accumulation of Lime passes off with the secretions, the natural components of the hair resume their ascendancy, and the hair assumes its natural color.

Because persons have tried various preparations for the hair, and have been deceived by them, and in some cases their difficulty made worse by their use, they should not be discouraged. The one preparation system for any class of diseases, must necessarily be a failure. No one compound can be available for a dozen or more diseases; it may remove some difficulties—in other cases useless, in some positively injurious.

Dr. Perry's method is in accordance with the law of cause and effect. He makes a personal examination, ascertains what disease of the scalp has or is producing a loss of hair or premature whitening, prescribes such remedies, according to its nature and requirements, as will remove the disease. Hence his great success in treating capillary diseases.

ALL CONSULTATIONS FREE.

Dr. Perry is now ready to receive visitors at

EXCHANGE HALL,

Exchange Buildings, same entrance with Chronicle Office.

Portsmouth, Dec. 3, 1860.

MERCANTILE LYCEUM.

The Third Lecture of the Fifth Course before the Portsmouth Mercantile Library Association, will be given AT THE TEMPLE,

On TUESDAY EVENING, Dec. 18th,

By REV. WM. R. ALGER,

SUBJECT:—"The Old Chivalry and the New; or the Martial Knighthood of the Middle Ages, and the Moral Knighthood of the Nineteenth Century."

The following Lecturers have been engaged:

WILLIAM WALLACE SILVESTER.
MRS. CAROLINE H. DALL.
A. D. RICHARDSON, Esq.
DR. J. G. HOLLAND, ("Timothy Titcomb.")
MRS. SARAH J. LIPPINCOTT, ("Grace Greenwood."

TICKETS for the remaining lectures 75 cts.; to be obtained at the usual places.

Doors open at 7; Lecture to commence at 7½.

JOHN S. RAND,
Chairman Lecture Committee.

THE GREAT INVENTION!

CLOTHING WITHOUT SEAM

MOSES & DOWNIE

Would respectfully invite the attention of the public to this new article of Clothing, they having been appointed sole Agents for the sale of the same. These fabrics are all woven in the wool, without any seam, on the cross fibre system, which combines the greatest elasticity with the greatest strength, will neither shrink nor stretch out of shape, nor crack; are nearly or entirely

WATER-PROOF,

And in point of warmth, durability, cheapness and all other desirable qualities are unquestionably superior to any other style, as all who test them must admit.

Please call and examine for yourself, at the

Sign of the Big Number,

MARKET ST., **37** PORTSMOUTH, N. H.

NOTICE.

The undersigned, having sustained considerable damage, besides being greatly annoyed—especially on the Sabbath—by persons trespassing upon his premises; hereby forbids all persons from so trespassing hereafter, if they would avoid the penalty of the law. JOHN SIMPSON.

Greenland, Dec. 10, 1860. d&w 1wk

NOTICE.

All persons are forbidden to give credit to any one on my account, or to receive any article of property belonging to me, from any person; as I shall enforce the law in relation to such matters.

Hampton, Dec. 11, 1860. URI LAMPREY.

LOST.

On Saturday evening, between the North Church and Vaughan street, a LEATHER WALLET, containing sixteen dollars, in gold and bills. The finder will receive a liberal reward on leaving the same at the Chronicle Office.

LOST,

On Monday afternoon, Dec. 10, in Washington street, a dark FUR COLLAR. The finder will be suitably remunerated on leaving it at this office.

1 Bear Skin Robe, 1 Fox do., 2 Shawl Robes, &c.

H. F. WENDELL, Auct.

Special Notices.

Catarrh is the most difficult of any of the Diseases of the Breathing Organs to relieve or to cure. The Rev. Joshua Leavitt, editor of the Independent of New York, who had the Catarrh for more than twenty years, has been cured by using Dr. J. R. Stafford's Olive Tar and Iron and Sulphur Powders, which are advertised in this paper. His testimonial is published in a pamphlet among others equally prominent who have been cured of chronic Throats and Lung difficulties, which will be sent *free by mail.*

Eruptions, Salt Rheum, Erysipelas. It is now generally admitted that all eruptive diseases depend upon some internal or constitutional cause, and that to use ointments or washes for them is a sure way to injure the system, and only to drive in, not to cure the disease. But HUMPHREY'S SPECIFIC HOMEOPATHIC SALT RHEUM PILLS are a true specific for all such diseases. They cure Salt Rheum, Barber's Itch, Erysipelas, Pimples on the face, Ringworm, and Nettle Rash, by curing the cause upon which they depend, and restoring the skin to a state of health and purity. Thus not only is the disease cured, but the softness and beauty of the complexion restored.

Price, 25 cents per box, with directions. Six boxes $1.

Sent by mail or express, free of charge, on receipt of the price.

Address, DR. F. HUMPHREYS & CO., 562 Broadway, New York.

Sold in Portsmouth by THACHER.
See advertisement in another column.

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov28 daw3m

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Loss of Spirits, Hysterics, Sick Headache, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail in moderate excesses and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, see circulars, to be had of agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail. nov28 daw3m

Sold by W. R. PRESTON and all druggists.

WISTAR'S BALSAM WILD CHERRY

Coughs, Colds, Bronchitis, Asthma, Croup, Whooping Cough, Quinsy, and the numerous as well as dangerous diseases of the *Throat, Chest* and *Lungs*, prevail, in our changeable climate, at all seasons of the year; few are fortunate enough to escape their baneful influence. How important, then, to have at hand a certain antidote to all these complaints. Experience has proved that this *Balsam* in *Wistar's Balsam* to an extent not found in any other remedy; however severe the suffering, the application of this soothing, healing and wonderful Balsam at once vanquishes the disease, and restores the sufferer to wonted health.

From a Respectable Druggist.

PORTSMOUTH, N. H., Aug. 3, 1860.

Messrs. S. W. FOWLE & CO., Boston,

Gents:—Please send me a fresh supply of WISTAR'S BALSAM OF WILD CHERRY. I find it a selling large quantities of this long celebrated remedy for *Coughs and Colds*, and it bids fair to outlive most of the so-called specifics which are now in vogue. We can confidently recommend it as a remedy for what it is intended. Very truly yours,

NATHAN P. THACHER.

Mr. D. H. TEAGUE, of Turner Village, Writes the proprietors of this great remedy, as follows:

TURNER VILLAGE, ME., July 31, 1860.

Messrs. SETH W. FOWLE & CO., Bost.

Gents:—I do not hesitate to recommend DR. WISTAR'S BALSAM OF WILD CHERRY for *coughs and pulmonary affections*, having used it in my family for many years with great satisfaction; indeed it has done more good than all the other remedies I have used, and that too *plenty*. Of all the patent medicines in the market possessed but a portion of the merit of this excellent Balsam, there would be no occasion to condemn them as humbugs.

The medicine is also used by many of my friends and acquaintances to this vicinity, which are now in good health and purity. I hope that others who suffer may give it a fair trial. Very respectfully,

D. H. TEAGUE.

Prepared by SETH W. FOWLE & CO., Boston;

SOLD BY

PRESTON, KIMBALL, HUTCHINGS, J. H. THACHER, N. P. THACHER, Portsmouth; JAMES P. PACKER, Greenland; S. HANSON, JR., New Market; PORTER & THING and WM. B. SAFFORD, Exeter; J. W. GREEN, Hampton Falls; and by dealers everywhere. 25 4w

COKE FOR SALE,

At the PORTSMOUTH GAS WORKS, at 20 cts. per barrel, cash on delivery, during the month of December. J. THURDY, Agent.

MILK 5 CENTS A QUART.

Of the best quality, constantly for sale at NO. 28 CONGRESS STREET, opposite the Franklin House. JAMES R YEATON.

Local.

☞ The anchors and chain cables for the U. S. ship Franklin, have been received at this Navy Yard within a few days, from Washington. They were called by requisition about two years ago, during which time the Franklin, (a nice new ship,) has been quietly reposing in the shiphouse,—no orders being given to launch her. As her machinery has yet to be made; and this will cost one or two hundred thousand dollars, and occupy a couple of years or so; and no appropriation is made for it, or is soon likely to be—the Franklin will probably not be launched just yet.

BANK OF NEW HAMPSHIRE.—A large number of shares in this Bank were sold at auction by Maj. William H. Hackett, on Wednesday. The price brought at the auction was $92, including the dividend expected in January. The shares went heavy at auction; but we learn that after the sale there was a brisk demand at the auction-price, and quite a number of shares changed hands, when a few shrewd financiers had set the example of going in. The stock must be worth par, and after the present tight squeeze is over, will doubtless advance in price.

☞ The first Lecture, of the winter series, on Temperance, by the Ministers of Portsmouth, is to be given at the Temple next Sunday evening, at 7 1-2 o'clock, by Rev. Mr. Medbery, City Missionary.

A general attendance is expected.

MANY THANKS to the unknown friend who sent twenty dollars through the Post Office, for the benefit of the Brodhead M. E. Society. J. HALL.

A "COMPROMISE" ALL ON ONE SIDE.—In the late election the popular vote of the country was, as nearly as can now be ascertained, as follows: For Lincoln—that is, for the exclusion of slavery from the Territories—1,855,447; for Douglas—that is, for leaving the matter to the decision of the settlers—1,389,802; for Bell—that is, for nothing in particular, certainly not for a slave code, with the alternative of disunion—622,124; for Breckinridge—that is, for "protection to the right of property in slaves in all the common Territories, throughout their Territorial existence"—814,979. A compromise, upon which to harmonize these conflicting elements, being proposed, the first step would seem to be to ascertain as nearly as may be, the centre from which these opinions diverge. Mr. Buchanan, however, finds a shorter way. Moved by a sympathy for the weak and down-trodden, which remaining latent in his bosom through nearly three score years and ten, has now burst forth to astonish the world, the "Old Public Functionary" proposes now that the platform of a bolting minority of the Democratic party—of the smallest faction which has appeared in the canvass—shall be the happy medium upon which we shall unite and dwell together in peace and harmony! How refreshing the proposition in times like these!—*Boston Journal.*

BURIED IN THE SNOW.—We understand that Mr. Crum of West Carthage relates that, on coming with his team from Church's Mills, near the Oxbow, on Saturday, during the great snow storm, as he approached the village of Great Bend, and about a mile distant, discovered a dog, which he met, and which turned about and seemed to desire to attract his attention as he accompanied him. At a place about half a mile from the village of Great Bend the dog stopped, and seemed unwilling to have his team proceed. Mr. Grum got out of his wagon, and following the dog's directions he noticed a large drift in the road, and on examining it found three children buried in the drift! He took them into his wagon and carried them to the village, where they were properly cared for. The children seemed to be French, and not able to speak English. They were found in a place where the wind had a terrible sweep, and the snow much drifted.—*Watertown (N. Y.) Jeffersonian.*

TWO MURDERERS SENTENCED FOR LIFE.—James Hurley, convicted of murder in the second degree, in killing police officer William Loughrey at Cambridge, and Bryant Moore of Lowell, convicted of the same offence, in killing his wife, were, in the Supreme Court at Cambridge, sentenced by Chief Justice Bigelow, to the State Prison for life, preceded by a day of solitary confinement. Moore received his sentence in a downcast, sorrowful manner; but Hurley, who is an ugly fellow, exhibited audacity, recklessness and defiance. The sentence having been pronounced, he said, in a very threatening and malignant manner: "I want you to understand that a State Prison can never hold me! NEVER!" It is stated that he has a wife and children in the Deputy Warden at the State Prison, and one or two of the other officers, and is generally regarded as the most dangerous person ever sent to our State Prison.—*Atlas.*

We announced, a few days since, the death of Dr. Peter P. Woodbury, brother of the late Levi Woodbury, at Bedford, N. H. The Milford Journal states that Rev. J. Woodbury, another brother, experienced another attack of apoplexy, the third he has suffered, last week. Rev. J. T. Woodbury was formerly a lawyer, but for many years has been a settled preacher of the Orthodox church, and in point of ability was the equal of Levi.—*Newburyport Her.*

A young man named Wellington Bird, of Bethel, was on Friday last crossing the Railroad track, about two miles above Gorham, New Hampshire, with a horse and sled, when he was struck by the down passenger train and killed, the whole train passing over him. The horse was apparently uninjured. Mr. B. was taken to Gorham, and a Coroner's Inquest held, which gave a verdict, that the deceased came to his death by his own negligence, and by no fault of the road or employees.—*Portland Adv.*

ONE WEEK LATER FROM EUROPE.

The steamship Europa, from Liverpool, Dec. 1, and Queenstown, Dec. 5, brings the following intelligence:

The financial crisis in the United States had caused increased shipments of specie. The Europa takes out a considerable amount and a large shipment was expected to be made by the Atlantic. These movements had caused a renewal of gold withdrawals from the Bank.

The situation of affairs in Italy remained unchanged. The Neapolitan garrison at Gaeta had made a sortie, but were repulsed with great loss.

Why will you suffer? Dyspepsia is a brief but comprehensive term for the numerous diseases which affect the stomach, liver, and, in fact, the whole system. Until Dr. Greene discovered the *Oxygenated Bitters*, medical science had exhausted itself in vain attempts to cure this disease.

Dr. Perry, at Exchange Hall, in this city, is the only man in this country who treats the various *diseases* which destroy the Hair, upon physiological principles. He practised five months in Portland, previous to coming here, and our exchanges from that city earnestly recommend his system to all who are afflicted with capillary difficulties.

THE LIFE OF ANDREW JACKSON,

BY JAMES PARTON,

Author of "Life of Aaron Burr," etc.

Three Volumes, 686 to 734 pages each, with Steel Portraits.

CROWN OCTAVO EDITION.—Cloth Binding, $8; Sheep $6.75; Half Calf, $9; Full Calf, $12.

SUBSCRIBERS' EDITION, Royal Octavo, (*sold by subscription only.*)—Cloth, $7.50; Sheep, $9; Half Calf, $12; Full Calf, $15.

Mr. Parton has been several years engaged in the preparation of this work, and has bestowed upon it the most careful research and investigation. The first volume of the Subscribers' Edition was issued a year since; the second was published last spring, and the third and last is now completed. Of the first and second volumes, the press have spoken in the warmest commendation.

"The life of Andrew Jackson was indeed an eventful one, and the events that were crowded into his career, as a pioneer, a general and a statesman, are among the most important in the history of our country."—*Tuscaloosa Gazette.* "Almost all that relates to him is peculiar, extraordinary and interesting."—*Arkansas Times.*

"Those who have been most familiar with the career of Andrew Jackson, will be surprised at the mass of new matter the author has collected."—*Boston Journal.* "It exhausts the subject."—*New York Day Book.*

"It is an honest book throughout."—*Nashville Union.* "It is equally free from the spirit of detraction, on the one hand, and of unmixed glorification, on the other. Failings and virtues are alike faithfully delineated."—*Western Christian Advocate.*

"One of the most readable of books. Every page is *alive.* It is as romantic as a mediæval romance, and it has the advantage of being true."—*Boston Journal.* "Possesses a degree of interest which can scarcely be overstated."—*New York World.* "A fresher, livelier account was never written of any hero by any author."—*Boston Advertiser.* "No work of fiction could be better fitted to hold the attention and bear the mind along with a sustained enthusiasm, than this account of the real life of one of our own countrymen."—*Boston Recorder.* "From first to last, the work is intensely interesting."—*Philadelphia Item.* "Perfectly fascinating."—*New York Day Book.* "The narrative is flowing and charming. We confess having read the whole (one volume) in two prolonged sittings."—*Harper's Weekly.* "The most difficult task was where and how to part company with it."—*New York Crayon.* "Of intense and permanent interest."—*New York Observer.* "The most interesting personal and political history ever written of any public man in this country."—*Pennsylvanian.* "His style is fairly eloquent with vividness and energy. His account of the defence of New Orleans, from its inception to its climax, interests more deeply than a tale of chivalry, or any romance."—*Lewiston Times.* "One of the most interesting and instructive books we have ever read."—*Russell's Magazine, (Charleston, S. C.)* "A life indeed, and a life which the conventional and common-place biographies of modern times sink into stupidity and insignificance."—*New York Journal of Commerce.*

ALSO JUST PUBLISHED,

THE LIFE AND TIMES OF PHILIP SCHUYLER.—By Benson J. Lossing. Vol 1. Crown 8 vo., 492 pages. With steel portrait. Cloth, $1.50.

"For the first time a genuine biography of Gen. Schuyler is written. The character and services of this efficient laborer for our country, as well as the established reputation of Mr. Lossing as a writer on kindred topics, give to the book no ordinary interest and value. The work will be complete in two volumes.

ITALY; FROM THE EARLIEST PERIOD TO THE PRESENT DAY. By John S. C. Abbott. Crown 8vo., 587 pages. With Steel Portrait. Cloth, $1.50.

This volume is one of the series of Mr. Abbott's Monarchies of Continental Europe, of which Austria and Russia have previously appeared. The volumes are of uniform style and price, but each distinct in itself.

ANOTHER NEW STOVE

THE MODEL COOK

FOR WOOD OR COAL,

MADE BY

THE BARSTOW STOVE COMPANY

Of Providence, R. I.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking giving an oven nearly 3 ft. long! or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven, with a tin roaster in front of the fire, are obvious, viz:

1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is the most durable, tasteful and useful.

2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking oven.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires; or it can be used for a hot closet when not required for baking or roasting.

5th. By this extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time the stove occupies no more room on the floor.

John Trundy, Esq., one of our most practical and scientific mechanics, who has had large experience in the construction of stove patterns in years past, and has for many years been using one of the Stewart Stoves, has purchased one of the MODEL COOKS, and after a fair trial pronounces it far superior to the Stewart or any stove he has ever seen, for economy, convenience and dispatch. We might also refer to several other parties who are using the stove, and who award it the very highest praise.

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be *the* stove for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is wanted.

We have nought to say against any other stove, believing that a man can sell his own goods without depreciating his neighbor's; but this we do say, that we honestly believe this is the *best stove that can be found in the world;* and what is more, we think others will agree with us after a trial of it. We invite any one to examine the stove, whether they wish to purchase or not.

For sale, with a great variety of

Furnaces, Ranges, Cooking, Office and Parlor Stoves; Coal Hods, Sifters, Funnel, Stove-Repairing Pieces, Parlor Grates, Etc.

Cook Stoves.

Autocrat of the Kitchen.—35,000 in use

THE ORIGINAL P. P. STEWART,

FUEL-SAVING AND COMFORT-PRODUCING LARGE OVEN, SUMMER AND WINTER

AIR-TIGHT COOKING STOVE,

FOR WOOD & ANTHRACITE OR BITUMINOUS COAL

Improved in 1859 with New and Extra Large Flues, and by the addition of the Celebrated Patent Double Sheet Bottom Flue.

Attention is invited to the following Points of Superiority:

DURABILITY.—Lasting, with proper care, at least 20 years. Stoves are now in use that were set up in 1838.

CAPACITY.—Baking, broiling, boiling, roasting and all other culinary operations performed *at the same time.* A barrel of flour baked into bread with a single fire.

ECONOMY.—Saving the cost of the stove in 2 or 3 years in the item of fuel.

VENTILATION AND VENT.—In the Stewart Stove alone the front doors open directly into the oven (protected by letters patent,) securing a direct draft through the oven, by means of perforated holes in the doors and back flues. It will be borne in mind, that, as the heated air always rises, this method of ventilation is the only one of any value whatever.

ENTIRE CONTROL OF HEAT.—The heat generated by the stove, may be held therein and used, or thrown into the room, at pleasure.

THE DOUBLE SHEET BOTTOM FLUE.—By which a compressing and inverting action of heat is obtained, and the oven more evenly and efficiently heated than by any other known invention.

BROILING.—Performed *on the top,* and without the possibility of smoke entering the room.

HOT WATER RESERVOIR AND WARMING CLOSET.—Both useful and convenient, supplied by the waste heat and without extra fuel.

WATER BACK.—An arrangement for supplying hot water for the bath room equal to a gas range.

Beware of the numerous worthless imitations now in market. See that the name of P. P. Stewart is on each stove. No other is genuine.

THE ONLY PREPARATION
Having Proof so Strong and Direct
as to
Expel the Doubts of All.

For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all cases of eruptions, and diseases of the scalp and brain; but all woo have used it, unite in testifying that it will preserve the hair from being gray, stop from falling to any age, as well as restore.—Read the following:—

Oak Grove, S. C., June 24, 1859.

Prof. O. J. Wood:—Dear:—Your Hair Restorative is rapidly gaining popularity in this community. I have succeeded at last to lay prejudice aside, and give your Hair Restorative a perfect test.

During the year 1854, I was so unfortunate as to be thrown from my sulky against a rock near the roadside, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was entirely destroyed. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and as I thought, understanding the nature of the disease, but was finally defeated in every description advanced.

Those and no other circumstances induced me to resort to your worthy "Hair Restorative," which I now every reason to believe, produced a very happy result: two months after the first application, I had as beautiful a head of young hair as ever saw, for which I feel bound in duty to my sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself is not a little.

You can publish this if you think proper.

Yours, very respectfully,
H. J. WRIGHT, M. D.

Jeffersonian Office, Phillipi, Va., Dec. 12, 1859.

Professor O. J. Wood:—Dear Sir: I feel it my duty as well as my pleasure, to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, (a lawyer,) has been bald ever since his early youth; so much so, that he was compelled to wear a wig. He called to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement: I give this to you at the request of Mr. Bradford. You can tell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents.

THOMPSON SURGHNOR.

Dr. Wood—Dear Sir—Permit me to express the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable.

The Restorative is put up in bottles of three sizes viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds a pint and a half, and costs, more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 50 per cent more in proportion, and retails for $3 a bottle.

Humphreys' Specific Homeopathic Remedies for the People

THE Remedies are carefully prepared under the direct supervision and inspection of Prof. HUMPHREYS, in order to meet that great and long felt want of the public, namely, remedies for all the more common and simple ailments of life.

A moment's reflection will show that a vast majority of diseases from which we suffer and die, were, at their commencement, easily cured, and trifling. A mere cold, a slight diarrhea, a pain in the side, or a headache, or hoarseness, at first easily cured and subdued, in time becomes a consumption, a fever, a dangerous dysentery, Croup or other disease, which all the powers of medicine fail to arrest.

Herein these remedies supply a great public want. Being on hand, simple, so you know at once what to take—pleasant, so as to cause no repugnance—safe, and hence available in the hands of all—curative effects are positive and certain, they are taken, and at once the spell is broken and the danger allayed.

Experience has amply confirmed the use of these remedies for families and private persons, as being THE BEST IN USE, THE MOST SIMPLE AND CONVENIENT, THE MOST PLEASANT, AND THE SAFEST.

Thousands are and have been using them for some five years past, in every section of the country, with almost invariable success. All speak in the highest terms of their simplicity and certainty, and among our hundreds of agents the uniform testimony is, that they give good satisfaction to their customers.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.

RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic*, and cannot fail to meet the wants of the debilitated.

It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases, and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhea, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

One of the very best Physicians in Boston has said "*but to the best possession of Bitters that has ever been offered to the public.*"

Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

For further particulars reference is made to the printed circulars.

Dr. Mott's
CHALYBEATE RESTORATIVE
PILLS OF IRON.

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried—it has proved absolutely curative in each of the following complaints, viz:

In DEBILITY, NERVOUS AFFECTIONS, EMACIATION, CONSTIPATION, DIARRHŒA, DYSPEPSIA, DYSENTERY, INCIPIENT CONSUMPTION, SCROFULOUS TUBERCULOSIS, SALT RHEUM, MISMENSTRUATION, WHITES, CHLOROSIS, RHEUMATISM, INTERMITTENT FEVERS, PIMPLES ON THE FACE, &c.

In cases of GENERAL DEBILITY, whether the result of acute disease, or of the continued ravages of nervous and sexual exhaustion from chronic complaints, one trial of this restorative has proved successful to an extent which no description can well anticipate, which could render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have emerged in the busy world as if returned from protracted travel in a distant land. Some very signal instances of this kind are attested to. Females, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In NERVOUS AFFECTIONS of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and never costive, but invariably, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a single uncomfortable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinctly specific influence, by dispersing the local tendency, which forms them.

In DYSPEPSIA, innumerable as are its causes, and varied as are its symptoms, this chalybeate Pill has proved sufficed for the most habitual cases, including the attendant *Costiveness*.

In undue menstrual DIARRHŒA, even when advanced to DYSENTERY, confirmed, unremitting and apparently malignant, the effects have been equally decisive and astonishing.

In the final pahse, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate INCIPIENT CONSUMPTION, this remedy has allayed the alarm of friends and physicians, in several very startling and interesting instances.

In SCROFULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iron, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this mild and restorative, in the cases peculiarly affecting them.

In RHEUMATISM, both chronic and inflammatory, even when accompanied by muscular inflammation, it has been invariably well reported, both as a lasting pain and reducing the swellings and effusions of the joints and tendons.

In INTERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high return and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerted such prompt, happy, and fully restorative effects.—Good appetite, complete digestion, rapid accession of strength and flesh, with a feeling of active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

R. B. LOCKE & CO., General Agents.

BININGER'S
OLD DOMINION
WHEAT-TONIC
—FOR—
FAMILY AND MEDICINAL USE.

This natural product of the most nutritious grain, recommends itself as presenting in a *concentrated* form the *nutritive* properties of *Wheat*, and the most of the medicinal compounds of confident medicinal authorities, as possessing qualities that are absolutely PAYTRENG; this *desideratum* renders it invaluable to those who are suffering from *Consumption, Lung Complaints, Impaired Strength, Lack of Vital Energy*, and all diseases which, in their incipient stages, require only a generous diet, and an invigorating, nourishing stimulant.

Put up in quart bottles, in iron-bound cases of one and two dozen each, and sold by all prominent Druggists, Grocers and Town Agents.

BININGER'S
OLD KENTUCKY
BOURBON
"1849 RESERVE"

The *established popularity* of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention in detail the peculiarities which distinguish it from the ordinary grade of Kentucky Whiskeys.

Distilled in 1849, and manufactured expressly for us with great care, it can be relied upon as a *strictly pure* stimulant, and peculiarly effective for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency to *recruate and strengthen*; while age having contributed its genial charm, and enriched it with a delicious flavor and an oily body, it affords a pleasant incentive to the preservation or recovery of health, through the agreeable medium of a well pleased palate.

Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO.,
(Established 1778.)

Dyspepsia Remedy

DR. DARIUS HAM'S
AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to our Dyspeptics, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Costiveness, Kidney Complaints, Low Spirits, Delirum Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, during the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, it is pleasant and safe.

It will instantly revive the most melancholy and drooping spirits, and restore the nervous, nervous and sickly to health, strength and vigor.

Persons who from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, find the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Costiveness.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.
One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.
One dose will remove the most distressing pains of Colic, either in the stomach or bowels.
A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are serious sufferers with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Personswho, from dissipating too much over night, and feel the evil effects of poisonous liquor, in violent headaches, sickness at stomach weakness, giddiness, &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

GEORGE W. PLUMER'S
NEW BAKING ESTABLISHMENT.
SHOPS: No. 22 CONGRESS STREET, and No. 31 STATE STREET.
Orders from neighboring towns and the country promptly attended to.

Having taken the Shop and Bake House, No. 31 STATE STREET, formerly occupied by Mr. S. N. Plumer, the subscriber offers to his patrons
ON TUESDAY, MARCH 27th,
at that place, and also at the new Shop, corner of Congress and Fleet streets, next door to Jackson & Co.'s Express Office, a good assortment of all kinds of **Bread, Cake and Pastry,** including **Ship Bread, Crackers, &c., &c.**

The Bake House on State street will be open every Sunday morning, for supplying customers with Bread, Beans, &c., as usual.

Baking for Families carefully attended to.

In addition to our Shops, we shall with our Cart, on Tuesday morning, commence supplying customers at their doors. Our agent, Mr. GEO. F. WILDES, will attend to all orders delivered him.

Grateful for past favors, we would respectfully solicit a share of the public patronage.
GEORGE W. PLUMER.

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, DECEMBER 14, 1860.

For the Chronicle.

THE MESSAGE—SECESSION.

The President admits that "no single act has ever passed Congress, unless we may possibly except the Missouri Compromise, impairing in the slightest degree, the rights of the South to their property in slaves." He might have referred to numerous acts of Congress passed for the purpose of strengthening, extending and perpetuating the institution. Even now, slavery exists in the District of Columbia only in virtue of one of the first Congressional statutes. Assuming that there may be property in man, and that "like all other property, the owners have a right to take their slaves into the common territories, and hold them under the protection of the Constitution," he denies that Congress or the State Legislatures can impair the rights of property in slaves. First prove that slaves are property, like goods and chattels. When a claimant exhibited his paper title to a slave, to a Vermont judge, the latter told him that he must first show a bill of sale from God Almighty. Can any earthly tribunal reduce a man to a mere thing of bargain and sale, like a horse? If property, why should they be represented in Congress? Would the South agree that two-fifths of our black horses, as property, should increase the number of our Representatives in Congress?

While Congress has been subservient to the Southern requirements, the Message complains that State Legislatures have passed laws in conflict with the fugitive slave bill of 1850, and declares that "unless their unconstitutional and obnoxious enactments shall be repealed without unnecessary delay, it is impossible for any human power to save the Union." We trust that the Union of the eighteen free states (more soon to be added,) having now a population six times larger than that which gained our national independence, and which will be doubled in twenty-five years—States whose annual aggregate products exceed fourfold those of all the slave States,—(those of Massachusetts alone exceed in value all the cotton crop of the whole South)—States which are the bone and muscle of the Union; and whose industrial pursuits have given to them the chief wealth of the nation, and within whose borders the beacon-lights of freedom yet illumine our free land, the Union of these States, with a population sufficient to constitute a great flourishing nation, "must be preserved." For reasons well understood, the secession of some or many of the slave States could only tend to render their present deplorable condition still worse; but as an inevitable result, the overthrow of their idolized institution would gradually improve their condition, and with free labor augment, if not double, their agricultural products.

Emancipation would be a pacific measure and sure remedy for the ills and evils they now endure. It would be simply the paying the wages of labor. The President says that all for which the slave States have ever contended, is to be let alone, and permitted to manage their domestic institutions in their own way. And he says that Congress has passed no act impairing their rights, nor would the free States. We say that should they, in their anger and folly, elect to secede, "let them alone"—let them remain out of the Union until they are sensible of the loss of the blessings it has conferred upon them. Let no Northern army invade them, or molest them, unless they should send an army into a free state, a measure to which, in their prudence, they will never resort.

They would have enough to look to at home, standing upon a smothered volcano, ready to explode, should their military force be withdrawn from their protection, at a distance. Secession would be a virtual repeal of all the State legislative acts "to defeat, as alleged, the execution of the fugitive slave law," but which in truth were enacted to secure the personal rights of our free citizens against the unconstitutional requirements and severe penalties imposed upon them by the act of 1850, which is widely different in its long provisions from the less harmless act of 1793. Secession would therefore enable the slaves in the border States, to escape with impunity to a free country. PAX.

THE SOBER SECOND THOUGHT.—A letter from South Carolina, says:—

The gentleman who offered the resolutions on secession to the Presbyterian Synod, and who threatened to secede from the Synod if they were not adopted, was offered a letter of dismission, but concluded he would not take it.

Some noisy politicians may possibly come to a conclusion like this noisy parson.

COLUMBIA, S. C. Dec. 12—At the third ballot for Governor, Jamison had 28; Rhett 28; Johnson 45; Pickens 56, scattering 6. This was the only balloting that was had to-day.

The *small pox* is increasing, causing a great panic. There is a prospect of the Legislature adjourning to Charleston tomorrow.

THE CHARLESTON ELECTION.—There was evidently a screw loose in the election of the Charleston delegates to the State Convention of South Carolina. It was intended by the Rhett faction to be a completely one-sided affair, sending up a united delegation pledged to immediate secession. Accordingly, the Mercury had kept standing lists in its columns of the candidates known to be sound, from their explicit declarations, those who had not pledged themselves to instant secession, and those who had made no reply to interrogatories addressed to them. This was to intimidate opposition and to secure the return of the pledged list, with R. B. Rhett at the head. But when the returns were counted, Mr. Rhett stood the seventh on the successful list—a thousand votes behind the leading candidate—and ahead of him were actually two of the candidates who had refused to pledge themselves in favor of immediate, independent secession. Two candidates also were chosen who had not defined their position. The Mercury evidently does not like the looks of the thing, and tries to attribute it to a series of misunderstandings. But it is the first protest against the Rhett faction, and, coming from the very home of their power, is quite significant.

ATTEMPTED SLAVE INSURRECTION.—The Macon (Ga.) Telegraph publishes a letter from Fort Valley, Ga., stating that an intended rising of the slaves at Hickory Grove and vicinity, in Crawford county, was discovered on the 6th inst., and upwards of twenty negroes arrested. The negroes said they were incited by the son of Mr. Davidson, a planter, and a man named Greir, a yankee pedler living at Hickory Grove, who were also arrested. They say that their intentions were, on Tuesday, while the men were gone to the polls, to kill all the married women and children, but to keep the young women for their wives, &c., and kill the men on their return home. When the discovery of the plot was announced at Knoxville, the planters mounted their horses and made for their own firesides, and there were scarcely enough men left to count out the votes.

SOUTH CAROLINA.—The latest news from the seat of government of the new Republic, or Kingdom, makes it doubtful whether the Legislature will be able to elect a Governor by the time the new government should be organized, according to the new programme. The small pox is causing so great a panic at Columbia that it is believed the Legislature will adjourn to Charleston.

The whole number of votes given in Charleston, at the election for delegates to the Convention, was 3721: nearly 200 votes less than at an ordinary election for the Legislature. With all the secession excitement, the people appear not to have fully turned out.

☞ It is feared that some cases of actual starvation among the families of laborers working in the Brooklyn Navy Yard really exist. No money having been received from the treasury lately, payment could not of course be made, and from the provision dealer to the landlord, all refuse to trust the poor workmen. Even officers, who too often live up to their incomes, experience the most painful embarrassments from the same cause.

ORDINATION.—Rev. Daniel E. Adams was ordained at East Wilton, Dec. 5th, over the 2d Congregational church. He is the son of Rev. Darwin Adams of Paper Mill Village, and grandson of the venerable Daniel Adams, M. D., of Arithmetic memory, formerly of Mont Vernon, now resident in Keene. Mr. Adams was a graduate of the last class in the Theological Seminary, Bangor, Me. Sermon by Rev. Z. S. Barstow, D. D., Keene.

☞ The legality of arresting persons expressing Abolition or Lincoln sentiments, was tried before a New Orleans Court last week. The Court ruled that it "could see no legal grounds in the charge for the arrest of a man who casually speaks his sentiments to a friend as to whom he would vote for," and therefore discharged the accused, at the same time administering a reproof to the Mayor for arresting the individual.

AN IF IN THE WAY.—The Abbeville (S. C.) announces, very consequentially, that a regiment of troops has been fully organized in that district, "numbering 656 men, rank and file, who are ready at a moment's warning, had they the necessary arms—to march in defence of their rights." Such a want, in this section of the country, would be considered as detracting somewhat from the efficiency of a body of troops.

A NEW PROPOSITION. — The Mobile Register proposes to the slaveholding States that they shall not cast their electoral votes at all, but permit the vote for Lincoln to be unanimous. It thinks such a course would teach a "great moral lesson." But it insists that no Southern Senator or Representative in Congress should abandon his seat in Congress until the 4th of March next, but remain on guard.

CONGRESS.

WEDNESDAY, Dec. 12.

In the *Senate*, Mr. Hunter reported a bill that the law concerning outstanding treasury notes be amended by inserting 50 instead of 100, and also an amendment fixing the date for their expiring, and the interest allowed from the payment of the public lands to be set apart as security for the redemption of the notes.

Mr. Hale said the Government was pledged to redeem these notes.

Mr. Cameron said he would like to see the notes issued in sums not less than twenty dollars.

After a debate, the loan bill was cut down to three millions and passed.

Mr. Yulee gave notice of a motion for reconsideration.

The resolutions on the secession subject were taken up, and Mr. Wigfall spoke.

House.—The speaker called upon the States for propositions relative to the present state of the country.

Nearly two dozen propositions were submitted and referred to the Special Committee. Many of them were proposed amendments to the Constitution, and all of a conciliatory character. The following, among others, were presented.

Mr. Thayer of Massachusetts submitted resolutions to the effect that it is the duty of the members of the House to forget all party aims, and devote themselves honestly to the cause of the country; that the present unfriendly feeling has arisen from the usurpations of Congress and of the Executive; that the rights of American citizens are above Congress and the President, and Territorial governments shall not be compelled to derive their powers from their consent; that there should be no legislation by Congress on the subject of slavery.

Mr. English of Ind., offered a resolution providing for an equal division of the territory of the United States between the slave and free States.

Mr. Kilgore of Indiana offered a resolution providing for a trial by jury in fugitive cases, where the slave claims to be free.

Mr. Hindman of Arkansas offered an amendment to the Constitution, for the protection of slave property, and also that any State nullifying the fugitive slave law shall not be entitled to a representation in Congress until the nullifying laws are repealed.

Mr. Noel of Missouri offered a resolution looking to the abolition of the office of President, and the establishing of an Executive Council of three, &c.

Mr. Bonham of South Carolina, not expecting to remain here much longer, resigned his position on the Military Committee, and was excused.

Mr. Sherman of Ohio, reported a deficiency appropriation bill. Adj.

WASHINGTON, Dec. 12.—Ex-Governor Thomas of Maryland, now Commissioner of Patents, has accepted the Secretaryship of the Treasury.

In the Committee of Thirty-three to-day, Mr. Nelson of Tennessee submitted a proposition which he deems suitable for a basis of adjustment. Ultra southern men are inclined to reject all propositions, and declare a reconstruction of the government inevitable.

The nomination of Mr. Thomas for Secretary of the Treasury was confirmed unanimously, also that of Mr. Weller of California as Minister to Mexico.

Senator Benjamin's position is misunderstood. He is a strong secessionist.

NEW YORK, Dec. 13.—The Washington Times' correspondent says that Senator Wilson has addressed a letter to Caleb Cushing in reply to the latter's speeches, in which his record while in Congress is quoted. The letter will be printed in a few days.

Agents of newly patented arms are doing a heavy business here in supplying Southern States.

It is reported that Messrs. Wade and Wilson will soon speak on secession.

MR. CUSHING LOSING FAVOR.—A writer in the Charleston Courier, alluding to the statement of Caleb Cushing, that the captain of his brig was not directed to raise the Palmetto flag in Charleston, recommends that the subscription for a testimonial to Mr. Cushing be stopped, and that the money collected be returned to the subscribers.

CONGRESSIONAL NOMINATION.—*Dover, N. H., Dec.* 12.—At the Republican Congressional Convention for the First District, held in this city to-day, Hon. Gilman Marston was nominated for re-election by acclamation.

☞ The St. Louis News says the reported hanging of fifteen negroes and one white man at Burkesville, Ky., is untrue. The insurrection was a very small affair. One white man was arrested for attempting to excite the negroes to an outbreak, but instead of being hung was merely committed to jail to await a regular trial.

BUFFALO, N. Y., Dec. 12.—At a meeting of citizens last night, an invitation was tendered to Ex-President Fillmore to go to South Carolina as a Commissioner of Peace. Mr. Fillmore declined the invitation for the present, preferring to await the action of the contemplated convention in that State.

☞ Some of the heaviest commision houses of grain and western produce, at New York, including that of Jesse Hoyt & Co., have suspended.

FROM KANSAS.—*St. Louis, Dec.* 12.—Montgomery has not been in Mound City for the last two week. Gen. Frost intends to station a portion of his command on the two points opposite Bourbon and Linn counties. The rest are on their way home.

RESIGNATION OF JUDGE FOWLER.—The Hon. Asa Fowler has resigned his post as an Associate Justice of the Supreme Judicial Court of New Hampshire.

Howell Cobb, Mr. Buchanan's late secretary of the treasury, said, in 1851, "I deny the right of a State to secede from the Union."

☞ Late foreign news, to Nov. 29, via Londonderry. In London, the rate of discount is *lowered*, and no fears are expressed of American trade and finances.

The Bishop of Loretto has excommunicated the clergy of Santa Carta for receiving Victor Emmanuel.

Rio Janeiro mails of November have reached Lisbon. Coffee in good demand; firsts 5600; stock 49,000 bags.

Italian affairs are unchanged. It was currently reported that Francis II. had fled from Gaeta.

The Turin journals assert that diplomatic intercourse will soon be resumed between Prussia and Victor Emmanuel.

Forty volunteers from the Duchy of Castro had invaded the town of Azapendente; they disarmed the Papal soldiers, and hoisted the arms of Savoy. The Papal Governor escaped.

NULLIFICATION.—It has been further generally believed that the moment nullification took place, by rendering useless the revenue laws, for instance, the President has the power of enforcing obedience to them by placing a Collector on board a man of war and sending him to the offending port. President Jackson did this; but he was authorized by the Force bill, and not by any warrant in the Constitution.—*Eastern Argus.*

Is not the "Force Bill" passed in 1832 still alive? Was it not a general Statute remaining alive and operating with full effect until especially repealed? And if so, the weapons of Gen. Jackson are all ready for Old Abe to wield.—*Port. Adv.*

Over a year since a Mr. Drinkwater of North Yarmouth, was rendered speechless by being knocked down by an ox. His horse last week having taken fright and running away with him, in his efforts to cry "whoa," his vocal powers returned, and his attempt to stop his horse loosened his voice, and he now articulates distinctly.—*Portland Advertiser.*

☞ An extensive game dealer in Chicago has received an order for several dozen prairie chickens and a deer, to be forwarded to England for the Prince of Wales.

NEW YORK, Dec. 13.—The Kansas aid meeting last night subscribed $1254.

JOHN S. HARVEY,
dec11 1w 67 Congress Street.

DR. B. C. PERRY,

THE CELEBRATED DERMATOLOGIST,

In accordance with the repeated solicitations he has received from some of the first citizens of Portsmouth during his stay in Portland, having closed his office in Portland after a successful practice of five months, has concluded to remain one week in PORTSMOUTH—when all who are suffering from

Loss of Hair, Premature Blanching, or any Disease of the Scalp,

can consult him.

DR. PERRY is prepared to treat successfully the following diseases, all of which are productive of a loss of hair.

Debilitation of the External Skin, Suppressed Secretion, Irritation of the Scalp, Dandruff or Thickened Secretion, Inflammation of the Sensitive Skin, Matterated Secretion, Hair Eater, Distended or Swollen Roots, and Premature Blanching.

This is the only method based upon Physiological principles which has ever been presented to the public for the restoration of the hair.

Dr. Ferry's Theory of treating Diseased Scalps and Restoring the Hair.—There are eighteen diseases of the head and scalp, that cause a loss of hair, and in some instances premature blanching, each requiring in its treatment different remedies. Where loss of hair has resulted from any of those causes, the first thing to be done is to remove the disease by a proper course of treatment, restore the scalp to its normal condition, keep the pores open to the secretion can pass off, and in every follicle that is open, there a germ of hair will make their appearance

The philosophy of premature blanching is this: Iron and Oxygen are the principle constituents of Dark hair, Lime and Magnesia of Light hair. When the suppressed secretion between the skins contains an excess of Lime, it is taken up by the strands, causing the hair to turn white; by opening the pores the accumulation of Lime passes off with the secretions, the natural components of the hair resume their ascendancy, and the hair assumes its natural color.

Because persons have tried various preparations for the hair, and have been deceived by them, and in some cases their difficulty made worse by their use, they should not be discouraged. The one preparation system for any class of diseases, must necessarily be a failure. No one compound can be available for a dozen or more diseases; it may remove some difficulties—in other cases useless, in some positively injurious.

Dr. Perry's method is in accordance with the law of cause and effect. He makes a personal examination, ascertains what disease of the scalp has or is producing a loss of hair or premature whitening, prescribes such remedies, according to its nature and requirements, as will remove the disease. Hence his great success in treating capilliary diseases.

ALL CONSULTATIONS FREE.

Dr. Perry is now ready to receive visitors at

EXCHANGE HALL,

Exchange Buildings, same entrance with Chronicle Office.

Special Notices.

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most adopted mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov28 dawśm

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of

SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail in moderate excesses and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution. For particulars, send for a pamphlet to the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail. nov28 dawśm

Sold by W. R. PRESTON and all druggists.

WISTAR'S BALSAM WILD CHERRY

Coughs, Colds, Bronchitis, Asthma, Croup, Whooping Cough, Quinsy, and the numerous as well as dangerous diseases of the *Throat, Chest* and *Lungs*, prevail, in our changeable climate, at all seasons of the year; few are fortunate enough to escape their baneful influence. How important, then, to have at hand a certain antidote to all these complaints. Experience proves that this exists in *Wistar's Balsam* to an extent not found in any other remedy; however severe the suffering, the application of this soothing, healing and wonderful Balsam at once vanquishes the disease, and restores the sufferer to wonted health.

From a Respectable Druggist.

BANGOR, Me., Aug. 8, 1860.

Messrs. S. W. FOWLE & CO., Boston,

Gents:—Please send me a fresh supply of WISTAR'S BALSAM WILD CHERRY. We are selling large quantities of this long celebrated remedy for *Coughs and Colds*, and it bids fair to outlive most of the nostrums of the day, which are now in vogue. We can confidently recommend it as a remedy for what it is intended. Very truly yours,

ALLEN P. TRUE & CO.

Mr. D. H. TEAGUE, of Turner Village, Writes the proprietors of this great remedy, as follows:

TURNER VILLAGE, Me., July 31, 1860.

Messrs. SETH W. FOWLE & CO., Boston:

Gents:—I do not hesitate to recommend DR. WISTAR'S BALSAM OF WILD CHERRY for *coughs* and *pulmonary affections*, having used it in my family for many years with great satisfaction; indeed it has done more good than all the other remedies I have tried, and their name is legion. I of all the patent medicines in the market possessed but a portion of the merit of this excellent Balsam, there would be no occasion to condemn them as humbugs.

The medicine is also used by many of my friends and acquaintances in this town, and they have found it invaluable; and I hope that others who suffer may give it a fair trial. Very respectfully,

D. H. TEAGUE.

Prepared by SETH W. FOWLE & CO., Boston;

SOLD BY

PRESTON, KIMBALL, HUTCHINGS, J. H. THACHER, N. P. THACHER, Portsmouth; JAMES P. PACKER, Greenland; S. HANSON, Jr., New Market; PORTER & THING and WM. B. SAFFORD, Exeter; J. W. GREEN, Hampton Falls; and by dealers everywhere. D. H. TEAGUE— 6Śdaw

WANTED.

RARE & ANTIQUE COINS, MEDALS, VALUABLE AUTOGRAPHS, CURIOSITIES, RELICS, &c., by HENRY COOK, Coin Dealer, 74 Friend St., Boston.

Descriptive Catalogues of rare coins, &c., sent to any address on the receipt of one dime in cash or stamps.

☞ N. B.—Coins received by mail or express.

☞ The first Lecture, of the winter series, on Temperance, by the Ministers of Portsmouth, is to be given at the Temple next Sunday evening, at 7 1-2 o'clock, by Rev. Mr. Medbery, City Missionary.

Suitable Hymns are selected and will be printed. The singing will be by the Temple Choir, and the Congregation.

It is suggested that each pastor, on these occasions, be accompanied by the choir and organist of his church, respectively, to lead in the musical devotions of the evening.

AN EXPENSIVE RAILING.—The city of Salem maintained a rotten railing running along Hardy street. Richard Stickney leaned against the same, it gave way, and he was precipitated down an embankment, to his great damage. Charles F. Stickney, surviving son, has sued the city for damages, and recovered $1750.

☞ A woman in Rochester, N. Y., attempted to fill a lighted lamp with burning fluid the other evening, when the customary explosion took place and she was so terribly burned that she lived but a short time.

☞ The Rockingham Weekly Chronicle, containing a summary of the news of the week, this day published, and for sale at the Chronicle Counting Room: price 3 cents; $1 per year, in advance.

Why will you suffer? Dyspepsia is a brief but comprehensive term for the numerous diseases which affect the stomach, liver, and, in fact, the whole system. Dull Dr. Greene discovered the *Oxygenated Bitters*, medical science had exhausted itself in vain attempts to cure this disease.

Dr. Perry, at Exchange Hall, in this city, is the only man in this country who treats the various *diseases* which destroy the Hair, upon physiological principles. He practised five months in Portland, previous to coming here, and our exchanges from that city earnestly recommend his system to all who are afflicted with capillary difficulties.

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; plain, not to the taste and natural in action, and what one gains he retains. Let all those, then, who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, make of this BLOOD FOOD and be restored to health.

Catarrh is the most difficult of any of the Diseases of the Breathing Organs to relieve or to cure. The Rev. Joshua Leavitt, editor of the Independent of New York, who had the Catarrh for more than twenty years, has been cured by using Dr. J. R. Stafford's Olive Tar and Iron and Sulphur Powders, which are advertised in this paper. His testimonial is published in a pamphlet among others equally prominent who have been cured of chronic Throats and Lung difficulties, which will be sent *free by mail.*

Atwood's Quinine Tonic Bitters,—the best Aromatic Tonic ever offered to the public.—All the Druggists have it. See advertisement.

Portsmouth, Dec. 18, 1860.

THE LIFE OF ANDREW JACKSON,

BY JAMES PARTON,

Author of "Life of Aaron Burr," etc.

Three Volumes, 636 to 734 pages each, with Steel Portraits.

CHEAP OCTAVO EDITION.—Cloth Binding, $6; Sheep $6.75; Half Calf, $9; Full Calf, $12.

SUBSCRIBERS' EDITION, Royal Octavo, (*sold by subscription only.*)—Cloth, $7.50; Sheep, $9; Half Calf, $12; Full Calf, $15.

Mr. Parton has been several years engaged in the preparation of this work, and has bestowed upon it the most careful research and investigation. The first volume of the Subscribers' Edition was issued a year since; the second was published last spring, and the third and last is now completed. Of the first and second volumes, the press have spoken in the warmest commendation.

"The life of Andrew Jackson was indeed an eventful one, and the events that were crowded into his career, as a pioneer, a general and a statesman, are among the most important in the history of our country."—*Taunton Gazette.* "Almost all that relates to him is peculiar, extraordinary and interesting."—*Amesia Times.*

"Those who have been most familiar with the career of Andrew Jackson, will be surprised at the mass of new matter the author has collected."—*Boston Journal.* "It exhausts the subject."—*New York Day Book.*

"It is an honest book throughout."—*Nashville Union.* "It is equally free from the spirit of detraction, on the one hand, and of unmixed glorification, on the other. Failings and virtues are alike faithfully delineated."—*Western Christian Advocate.*

"One of the most readable of books. Every page is alive. It is as romantic as a mediæval romance, and yet has the advantage of being true."—*Home Journal.* "Possesses a degree of interest which can scarcely be overstated."—*New York World.* "A fresher, livelier account was never written of any hero by any author."—*Boston Advertiser.* "No work of fiction could be better fitted to hold the attention and bear the mind along with a sustained enthusiasm, than this account of the real life of one of our own countrymen."—*Boston Recorder.* "From first to last, the work is intensely interesting."—*Philadelphia Item.* "Perfectly fascinating."—*New York Day Book.* "The narrative is flowing and charming. We confess having read the whole (one volume) in two prolonged sittings."—*Harper's Weekly.* "The most difficult task was where and how to part company with it."—*New York Crayon.* "Of intense and permanent interest."—*New York Observer.* "The most interesting personal and political history ever written of any public man in this country."—*Pennsylvanian.* "His style is fairly eloquent with vividness and fluency. His account of the defence of New Orleans, from its inception to its climax, interests more deeply than a tale of chivalry, or an oriental romance."—*Amenia Times.* "One of the most interesting and instructive books we have ever read."—*Russell's Magazine, (Charleston, S. C.)* "A Life indeed, and before which the conventional and common-place biographies of modern times sink into stupidity and insignificance."—*New York Journal of Commerce.*

ALSO JUST PUBLISHED,

THE LIFE AND TIMES OF PHILIP SCHUYLER.—By Benson J. Lossing. Vol 1. Crown 8 vo., 492 pages. With steel portraits. Cloth, $1.50.

"For the first time a genuine biography of Gen. Schuyler is written. The character and services of this eminent worker for our country, as well as the established reputation of Mr. Lossing as a writer on kindred topics, give to the book no ordinary interest and value. The work will be complete in two volumes.

ITALY; FROM THE EARLIEST PERIOD TO THE PRESENT DAY. By John S. C. Abbott. Crown 8vo., 587 pages. With Steel Portrait. Cloth, $1.50.

This volume is one of the series of Mr. Abbott's Monarchies of Continental Europe, of which Austria and Russia have previously appeared. The volumes are of uniform style and price, but each distinct in itself.

ANOTHER NEW STOVE

THE MODEL COOK

FOR WOOD OR COAL,

MADE BY

THE BARSTOW STOVE COMPANY

Of Providence, R. I.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking giving an oven nearly 3 ft. long! or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven, with a tin roaster in front of the fire, are obvious, yis:

1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is the most durable, tasteful and useful.

2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking oven.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires; or it can be used for a hot closet when not required for baking or roasting.

5th. By this extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time the stove occupies no more room on the floor.

John Trundy, Esq., one of our most practical and scientific mechanics, who has had large experience in the construction of stove patterns in years past, and has for many years been using one of the Stewart Stoves, has purchased one of the MODEL COOKS, and after a fair trial pronounces it far superior to the Stewart or any stove he has ever seen, for economy, convenience and dispatch. We might also refer to several other parties who are using the stove, and who award it the very highest praise.

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be *the* stove for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is wanted.

We have nought to say against any other stove, believing that a man can sell his own goods without depreciating his neighbor's; but this we do say, that we honestly believe this is the *best stove that can be found in the world;* and what is more, we think others will agree with us after a trial of it. We invite any one to examine the stove, whether they wish to purchase or not.

For sale, with a great variety of

Furnaces, Ranges, Cooking, Office and Parlor Stoves; Coal Hods, Sifters, Funnel, Stove-Repairing Pieces, Parlor Grates, Etc.

Cook Stoves.

Autocrat of the Kitchen.—85,000 *in use*

THE ORIGINAL P. P. STEWART,

FUEL-SAVING AND COMFORT-PRODUCING LARGE OVEN, SUMMER AND WINTER

AIR-TIGHT COOKING STOVE,

FOR WOOD & ANTHRACITE OR BITUMINOUS COAL

Improved in 1859 with New and Extra Large Flues, and by the addition of the Celebrated Patent Double Sheet Bottom Flue.

Attention is invited to the following Points of Superiority:—

DURABILITY.—Lasting, with proper care, at least 20 years. Stoves are now in use that were set up in 1838.

CAPACITY.—Baking, broiling, boiling, roasting and all other culinary operations performed *at the same time.* A barrel of flour baked into bread with a single fire.

ECONOMY.—Saving the cost of the stove in 2 or 3 years in the item of fuel.

VENTILATING OVEN.—In the Stewart Stove alone the front doors open directly into the oven (protected by letters patent,) securing a direct draft through the top of the oven, by the perforated holes in the doors and back flues. It will be borne in mind, that, as the heated air always rises, this method of ventilation is the only one of any value whatever.

ENTIRE CONTROL OF HEAT.—The heat generated by the stove, may be held therein and used, or thrown into the room, at pleasure.

THE DOUBLE SHEET BOTTOM FLUE.—By which a compressing and inverting action of the heat is obtained, and the oven more evenly and efficiently heated than by any other known invention.

BROILING.—Performed *on the top,* and without the possibility of smoke entering the room.

HOT WATER RESERVOIR AND WARMING CLOSET.—Both useful and convenient, supplied by the waste heat and without extra fuel.

WATER BACK.—An arrangement for supplying hot water for the bath room equal to any range.

Beware of the numerous worthless imitations now in market. See that the name of P. P. Stewart is on each stove. No other is genuine.

PROF. WOOD'S

RESTORATIVE CORDIAL

—AND—

BLOOD RENOVATOR,

Is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, vitalizes and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted *as to act in perfect accordance with the laws of nature, and cheer and invigorate the weakest stomach*, and tone up the digestive organs, and allay all nervous and other irritation. It is also *perfectly* exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and blended in such a manner as to secure. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical science, and also by all who have suffered from debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous to which poor humanity is constantly liable. Such, for example, as the following: Consumption, Bronchitis, Indigestion, Dyspepsia, Loss of Appetite, Faintness, Nervous Irritability, Neuralgia, Palpitation of the Heart, Melancholy, Hypochondria, Night Sweats, Lassitude, Giddiness, and all that class of cases, so fearfully fatal if unattended to in time, called *Female Weaknesses and Irregularities*. Also Liver Derangements or Torpidity, and Liver Complaints, Diseases of the Kidneys, Scalding or Inconvenience of the Urine, or any general derangement of the Urinary Organs, Pain in the Back, Side, and between the Shoulders, predisposition to Slight Colds, Hacking and Continued Coughs, Shortness of Breath, Difficulty of Breathing, and indeed we might enumerate many more still, but we have space only to say, it will not only cure all the above, including Chills and Fever, but prevent all attacks from Miasmatic Influences, and cure the diseases at once, if already attacked. And as it acts upon the biliary system, removing the Liver to action, promoting, in fact, all the excretions and secretions of the system, it will infallibly prevent any deleterious consequences following, from sudden change of climate and water; hence all travellers should take a bottle with them, and all should take a tablespoonful at least before eating. As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits, students, ministers and literary men. And all ladies not accused to much out-door exercise should always use it. If they will, they will find an agreeable, pleasant and efficient remedy against those ills which rob them of their beauty; for beauty cannot exist without health, and health cannot exist where the menses often go down to a premature grave rather than let their condition be known in time, the latter are often so mixed up with the excitements of business that if it were not for you they would travel in the same downward path, until too late to avoid their fatal fall. We speak advisedly in this, as we are confidently appeal; for we are sure your never-failing affection will unerringly point you to Prof. Wood's Restorative Cordial and Blood Renovator as the remedy which should always be on hand in time of need.

O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St. Louis. For sale sold by all good Druggists. Price $1 per bottle.

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, United States of 1857.

78 STATE, OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all papers and drawings for patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The subscriber believes he can prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a rare collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHAS. MAGRUDER, Commissioner of Patents.

"I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of giving their application in a form to secure for them an early and favorable consideration at the Patent Office." KIMMON PECKER, Late Commissioner of Patents.

BOSTON, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend his services to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at a reasonable charges." JOHN TAGGART.

From Sept 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

Boston, Jan. 1, 1860. **R. H. EDDY.**

The seven years of unrivalled success attending the

COSMOPOLITAN

Art Association,

have made it a household word throughout every quarter of our country.

Under the auspices of this popular Institution, *over three hundred thousand homes* have learned to appreciate—by beautiful works of art on their walls, and choice literature on their tables—the great benefits derived from becoming a subscriber.

Subscriptions are now being received in a ratio unparalleled by that of any previous year.

TERMS OF SUBSCRIPTION.

Any person can become a member by subscribing *three dollars*, for which sum they will receive

1st.—The large and superb steel engraving, 30 x 38 inches, entitled

Falstaff Mustering His Recruits,

2d.—One copy, one year, of that elegantly illustrated magazine, the

"COSMOPOLITAN ART JOURNAL."

3d.—Four coupons, during the season, to

"The Gallery of Paintings, 548 Broadway, New York."

In addition to the above benefits, there will be given to subscribers, as gratuitous premiums, over

Five Hundred Beautiful Works of Art,

comprising valuable paintings, marbles, partaues, outlines, &c., forming a truly national benefit.

NO. 33 INDIA STREET, BOSTON.

CONCENTRATED LEAVEN is the result of careful chemical researches. All its ingredients are prepared in the highest state of purity, and compounded with a view to produce bread of a far better quality, and in much less time, than by any other process, and the manufacturers submit it with entire confidence to the judgment of discriminating house-keepers, bakers, &c., &c.

Bread of all kinds, made by using CONCENTRATED LEAVEN, is lighter, more digestible and nutritious; has an agreeable, natural taste; is less liable to sour; will retain its moisture longer than by any other process, and the whole preparation for the oven need not exceed ten minutes.

It is valuable because it is not perishable, and may be rendered available in the land at times when yeast is not within reach, as at sea. In all climates, and under all circumstances it may be adopted, thus obviating the difficulty of procuring yeast or other ferment, which is frequently of an inferior quality, rendering the bread more or less unwholesome.

It is also valuable as regards economy, as it has been ascertained that a saving is effected in the flour of not less than 1 pound per cent. In common process, much of the saccharine of the flour is lost by being converted into carbonic acid gas, or spirit, and the waste is incurred solely for the purpose of generating gas to raise the dough. By using CONCENTRATED LEAVEN, this waste is avoided, and the gas obtained in a manner equally efficacious, and perfectly healthy, is evolved, destroyes a part of the flour or meal, and, in consequence, a barrel of flour weighing 196 pounds, which by the common process of ordinary fermentation, 250 lbs. gives by this process 230 lbs., thus effecting the very important saving of 16 per cent. in the quantity of flour. By conforming to the directions on each package, any person capable of ordinary attention may conduct the process, and the result will invariably be highly satisfactory.

CERTIFICATE FROM DR. HAYES,

Assayer to the State of Massachusetts.

"I have analyzed the Concentrated LEAVEN manufactured by Messrs. Chamberlin & Co., with regard to its purity and efficiency of action in producing the effect of yeast in distending dough and thereby rendering it fit for making bread. This article is blameless, and differs from perfectly pure materials, which leave nothing but a vegetable salt, which is essentially a desirable food in the bread, and raises the dough without consuming the sugar or any other principle in the flour, perfectly; and the same weight of yeast will produce more sweet and palatable bread than can be obtained through the aid of yeast; while for cakes and pastry it is invaluable, as it saves all risk, and is entirely free from the effects of yeast.

The experiments made by me confirm the statements of the manufacturers, and prove this compound worthy of public approval and extended use. Respectfully,

A. A. HAYES, M. D., *State Assayer.*

15 Boylston st., Boston, Sept. 25, 1860."

HOW TO USE IT.

We append a few recipes, but it may be used with great advantage in all other kinds of cake, as in Pastry, Dumplings, and all other cases.

BREAKFAST AND TEA ROLLS.—Two or three teaspoonsfuls of Leaven (according to the quantity of the dough) to every 1 qt. of flour; mix thoroughly by passing two or three times from a sieve; rub in a piece of butter of half the size of an egg, and make the paste into a stiff dough with milk or water, (milk is preferable,) very stiff enough to permit rolling out. Much kneading should be avoided. Cut into desired form, and place immediately into a hot oven, and bake quickly.

LOAF BREAD.—The same proportions of Leaven and flour sifted together as above; omit the butter, and make up the whole quantity of bread into a loaf, and bake immediately in a slow oven.

GRAHAM BREAD.—Three teaspoonfuls of Leaven to one quart of wheat meal, sifted together; add two eggs and about a gill of molasses; make the paste thin with milk, and bake in a slow oven.

BROWN BREAD.—Three teaspoonsful of Leaven in one pint of flour, and one pint of corn meal, all well sifted together; add two eggs and about a gill of molasses; make the paste thin with milk, and bake slowly.

BUCKWHEAT CAKES.—Flour and milk sufficient to make a thin batter; add one egg, then three teaspoonsfuls of Leaven; beat to a froth, and cook quick.

DUMPLINGS.—Sift together one quart of flour and two teaspoonsfuls of Leaven; rub in a piece of butter half as large as an egg; mix with cold milk or water, and boil ten minutes.

CHAMBER STREET CAKE.—Sift together two pints of flour and two teaspoonsfuls of Leaven; put in half a cup of butter and a cup and a half of sugar; mix with cold water or milk to a stiff batter, and spice to suit the taste, and bake immediately.

CINCINNATI SPONGE CAKE.—Two cups of white sugar, beaten to a froth with six eggs—the whites of six eggs beaten to a froth; then beat all together; add three cups of sifted flour, one teaspoonful of cream tartar, one teaspoonful of leaven; flavor with two teaspoonsful of essence of lemon, and bake in a quick oven.

JUMBLES.—Sift together one quart of flour and two teaspoonsfuls of Leaven; rub in one teacupful of butter; add a cup and a half of white sugar, and spice to suit the taste; mix stiff enough to roll, and bake quick.

ELECTION CAKE.—One quart of flour and three teaspoonsfuls of Leaven sifted together; add a cup of butter, one pound of currants, two cups of white sugar, and one teaspoonful of cinnamon; mix with cold milk to a stiff batter, and bake in a slow oven.

CORN CAKE.—One pint each of flour and Indian meal and three teaspoonsfuls of Leaven, well sifted together: add one gill of molasses and two eggs; mix thin with milk, and bake in a slow oven.

CUP CAKE.—Five cups of flour and three teaspoonsfuls of Leaven sifted together; add one cup of butter, two of sugar, and two eggs, all well beat together; mix with milk; then add a cup of currants, and spice to suit the taste. Bake about half an hour.

LADIES' CAKE.—Three quarters of a pound of flour and four teaspoonsfuls of Leaven sifted together; one pound of sugar and six ounces of butter beaten to a cream; the white of eight eggs well beaten, and the juice of one lemon, mix with milk.

WEBSTER CAKE.—Five cups of flour, three teaspoonsfuls of Leaven, three cups of sugar, one of butter, one of milk, and two eggs; fruit and spice to the taste. Bake about half an hour.

For Sale by Grocers Generally.

ATWOOD'S

QUININE TONIC

BITTERS,

The Best Aromatic Tonic ever offered

RECOMMENDED BY THE FACULTY

For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonics* and *stomachics*, and cannot fail to meet the wants of the debilitated.

It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

One of the very best Physicians in Boston has said "*but it is the best preparation of Bitters that has ever been offered to the public.*"

Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

For further particulars reference is made to the printed circulars.

Portsmouth, N. H., Nov. 27, 1860.

BLOOD FOOD

The attention of Invalids, Physicians, Clergymen, scientific men, and the public generally, is respectfully solicited to the merits of this chemical preparation, containing **Iron, Sulphur** and **Phosphorus,** and which is identical in its composition with the **Hematic Globule,** or *red blood.*—In all diseases accompanied with

DEBILITY,

pale countenance and nervous derangement, analyses of the blood show a deficiency of the red globules. Redundancy of these, gives a red tint of the skin, is always indicative of health; while a pale, wax-like skin and countenance,—which evinces a considerable deficiency of the red globules,—accompanies a diseased organism. Preparations of **Iron** have been given for the purpose of supplying the red globules, but we contend that **Iron** alone, **Sulpur** alone, or **Phosphorus** alone, will not meet the deficiency in every case, but that a judicious combination of all these elements is necessary to restore the blood to its normal standard. This point, never before attained, has been reached in the **Blood Food,** and its discovery ranks as one of the most scientific and important of the age. Its effects in

CONSUMPTION

are to soften the cough, brace the nerves, strengthen the system, allay the prostrating night sweats, increase the physical and mental energy, enrich the blood by restoring the lacking red globules, increase the appetite, restore the color, and clothe the skeleton frame with flesh. The **Blood Food** will be found a specific to all *CHRONIC DISEASES of the THROAT or LUNGS,* such as *Asthma, Bronchitis, Coughs, &c.* Public speakers and singers will find it of great utility in clearing and strengthening the vocal organs. In *Dyspepsia, Liver Complaint, Costiveness, Epilepsy, Fits, Scrofula, Gravel, St. Vitu's Dance, Fever and Ague, &c.,* its efficacy is marked and instantaneous. In no cases is it more efficacious than in the beneficial effects of this remedy so conspicuous as in those harrassing

FEMALE COMPLAINTS

to which the gentler sex are liable, and which tend to so undermine their health, and make them difficult *Menstruation, Green Sickness, Whites, &c.,* especially when these complaints are accompanied with pain or weakness in the back, loss of the skin, depression of spirits, debility, palpitation, want of appetite, and nervous prostration. We have the utmost confidence in recommending the **Blood Food** to all who may be conscious of a loss of vitality or energy, and to those whose occupations or pursuits are such as to induce *premature wear,* either of the mind or body, and we deem it our duty to say that in all cases of *Weakness and Pain* in the back and parts of the *Kidneys and Bladder,* this preparation has a claim upon the attention of sufferers which cannot be over-estimated. A faithful trial will be found the most convincing proof in regard to its efficacy that could be asked for. With the above remarks, and with the numerous testimonials we have in its favor, we offer the "**Blood Food**" to the confidence of the afflicted, knowing that it will be acknowledged as pre-eminent over all other preparations, patant or officinal, in point of medicinal virtues, and by giving the Theory upon which this remedy is founded, also certificates of remarkable cures will be sent free when desired. We forward the **Blood Food** to any part of the United States or Canadas upon receipt of price—$1 per bottle, $6 for six bottles. Be careful in all cases to take none but that having our fac-simile signature upon the wrapper. None other is genuine.

Prepared only by **CHURCH & DUPONT,**

No. 409 Broadway, New York.

And sold by them, and all respectable Druggists.

Sold in Portsmouth by PRESTON, THACHER, HUTCHINGS and KIMBALL. s6 1y

BININGER'S

GENUINE

Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for **Family** use and Invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant,* when all other remedies fail, we are now bottling and selling at reasonable rates, a Brandy of our own importation, from one of the most responsible houses in France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be used in quality and character as a Cognac. Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and sold by prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighths and Quarter Casks.

Dyspepsia Remedy

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Cold Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Fever and Ague, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens,* will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.

One dose will relieve the Cold Pains.

One dose will cure Heartburn.

Three doses will cure Indigestion.

One dose will give you a good appetite.

One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirits, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of the Kidneys, Bladder or Urinary Organs.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirits three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual system and restore the Bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

Morning Chronicle.

COSTLY STATES.—The Exeter News Letter says:—

The right of secession, at pleasure, has as clamorous advocates in Florida and Texas, as South Carolina; only there is not that *apparent* unanimity; for in the *king* State the influence of the *nobility* suppresses just now even a doubtful aspiration. Uncle Sam, or the old Thirteen, paid *five* millions for Florida, and *fifteen* for Louisiana. The United States of 1844 paid *ten* millions for Texas, and at a later period about *twenty* millions for New Mexico, Utah California and Arizona. The expense of securing these territories and paying their taxes, probably amount to 100 per cent. over the first cost, and revenue derived.—According to the new doctrine, any of these States or Territories may *slip out of the Union* at pleasure—the *United* States have no longer any rights, and may whistle for any recommendation. "If they are to come to us only that they may fly off at their pleasure, let us see who will vote millions for the next slice of territory prepared for mutification."

There is generally some good mixed up with much evil, as well as evil with good. The good, at present weighs heavily, in that the *Cuban* question is settled for the present, at least! One thing is certain, if oaths to support the constitution and laws are good for anything, the United States property and the United States revenue, in any or all the States desirous of seceding, must be respected until the terms of peaceable division can be arranged, which must be a work of time. Any infringment would be *insurrection*.

FORNEY'S VIEWS.—Col. Forney, in his paper, has an elaborate article on the great topic, closing as follows:

"Let the Republicans do their utmost, consistent with their attachment to their party and their country at the same time. Let the friends of the Union in the North, accumulate upon the enemies of the Union in the South, all manner of evidences of affection for the Constitution and the Union. And if, after all, the Southern Secessionists refuse the proffers of the Northern people, and insist upon breaking up this government, let the consequences be upon their own heads. In that event they will find not only a united people in the free States against them, but they must conduct their doubtful experiment of a slave Republic with the voice of Christendom against them."

In 1851, the *second* time South Carolina *threatened the Union*, W. W. Boyce, a distinguished character of the State, now a violent secessionist, wrote a letter to a Southern Convention, full of common sense and against any such movement. He is now nine years older, but not nine years wiser. Hear him in 1851:—

"South Carolina cannot become a nation. God makes nations, not man. You cannot extemporise a nation out of South Carolina. It is simply impossible; we have not the resources."

He goes on to speak of the costly machinery of a National Government, excessive taxes, insecurity, depreciation of property, slavery as doomed, &c.—all which are just as valid in '60 as in '51. One of the first acts of S. Carolina, when a nation, will doubtless be to open the African slave trade.

☞ A writer in the London Shipping Gazette styles the iron screw steamships, now extensively employed in navigating the waters of Northern Europe, as "sea going coffins." No less than six or seven of them were lost (five foundered) in a gale October 3d and 4th, the loss of life amounting to about two hundred persons.

SIX MILLIONS of the confiscated property of the Bourbons, in Naples, has been devoted by Garibaldi, (and confirmed by Victor Emanuel) to the political victims, now liberated, of the government, as some remuneration for their sufferings in dungeons and banishment. Revolutions have a wonderful effect in emptying *Bastiles*.—While Garibaldi declines at present all preferment, his Proclamation before resigning, speaks of the expectation of a serious war at hand, (probably referring to Austria, and the necessary annexation of the remaining portion of Italy, Venetia,) and that he will be ready for the contest.

☞ Elizabeth M. Smith, of Burlington, N. J., has invented and patented an improvement in reaping and mowing machines, for throwing them in and out of gear by means of the driver's seat. When the driver takes his seat on the machine, his weight throws it into gear, and when he leaves, the machine is thrown out of gear.

OUR COUNTRY has increased in size more than three-fold since the close of the Revolutionary War. The United States have a territorial extent nearly ten times as large as that of Great Britain and France combined. The American Republic is one-sixth only less in extent than the area covered by the fifty nine empires, states and republics of Europe.

The advice in the following may be useful just now: Take an ordinary paint brush or sponge and rub over the glass once or twice a day a little alcohol, and it will keep the glass as free from ice as in the middle of summer, and it will also give as good a polish as can be got in any other way.

READ!—READ!—READ!

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, DECEMBER 15, 1860.

MAJORITIES—AND THIRD PARTIES.—It is very well known that Buchanan and Lincoln have both been elected by *minorities of the people*, though both by a constitutional majority of electoral votes.

Well: we don't remember that the Black Republicans, as some blackguards call them, made any howling, either over Mr. Buchanan's election, or over the fact that a popular majority voted against him.

But now, another man's ox is gored, and such a bellowing and howling is set up, as might shatter weak nerves, and crack brittle skulls.

One writer, a comparatively calm one, in the Boston Courier, states the minority grievance as follows, and hints at the remedy.

My attention was attracted to the official returns of the *Popular* vote in the late Presidential contest, and it occurred to me that the time had arrived, when by some alteration of the Constitution of the country, laws could be enacted whereby the voice of the people might elect the Chief Magistrate of the nation. The returns are:

	Popular Vote	Electoral Vote
For Lincoln	1,855,407	180
Douglas	1,369,803	12
Breck.	854,979	72
Bell	622,824	39
	4,723,012	303

Now you will easily perceive by what a tremendous minority of the popular vote Lincoln was elected; and it does appear that the present method of electing is a great gerrymandering affair, as Mr. L.'s absolute minority is 972,198.

Could the attention of the *South* be called to these facts, I think that they might, in conjunction with the North, pass such laws, and so amend our Constitution as to allow the *majority* to rule.

The old laws and old constitution worked very well, it seems, till slavery got a rebuke:—but the *present* laws are new, and the *majority* laws were *old*, but repealed, and the *plurality* laws were enacted,—by whom? Not by Abolitionists, for they had not the power; not by the Republican party, for that had no existence.

The laws in nearly or quite all the Northern States, used to require *majorities*, or more than half the whole number of votes, to choose Electors, and Representatives to Congress, as well as most State and County officers.

When the Liberty or Anti Slavery party came up, it was ridiculed at first; but it increased, and soon began to defeat one party and another, to make coalitions, and disturb the current of affairs. Then, in State after State, the two great parties (now deceased) joined their forces together, and passed plurality laws, to crush out the third party, and to crush out abolitionism at the same time.

Well, there has been considerable of a crush—and the old parties are squat down as flat as a pancake;—but of the *four* parties which have just voted, the most anti-slavery party of the whole, comes out No. 1,—the *unfriendly legislation* party of Mr. Douglas is No. 2,—and the *third* party now is the slave territory party,—while the Union party ranks No. 4.

This is a curious piece of political history, on which every reader may make his own comments. And quite as curious is the fact, that, while the Boston Courier's correspondent thinks to heal the breach by a *Southern* vote for *majorities*,—the South Carolina fire-eaters' doctrine is, at this moment, that majorities are not to be trusted, but they, the *wise minority*, should rule.

☞ A large Union meeting was held in Philadelphia on Thursday; at which Mayor Henry presided, and compromise resolutions were passed, as a peace offering to the secession threateners.

The resolutions were amended so as to call a convention of *all* the States, instead of the secession States only. Speeches were made by Mayor Henry, J. B. Ingersoll, Judge Woodward, and Charles E. Lex. The latter stated, although he would prefer a slight modification of the Fugitive Slave Law, yet, as it was the law of the land, it should be submitted to. This was also the sentiment of Gov. Curtin. He also read a dispatch from the Governor of Maryland, denying that he had called an extra session of the Legislature. The meeting was large, enthusiastic, and evidently conservative in its tone.

NEW HAMPSHIRE has her election in March, so that people do not recover from the November election before they commence the Spring campaign. The Democrats, often beaten, seem endowed with mortal life in New Hampshire, and having the distracted condition of the country in their favor, they are girding on their armor for a "big fight" on Governor and representatives to Congress. There is no State in the Union where the Republicans are so well organized as in New Hampshire, and none where they need be, for it is only by the most constant vigilance that they maintain their superiority at the polls.—*Herald.*

☞ A Walking Match of half a mile, between yearling colts sired by Tom Carpenter and Old Columbus,—on the Chelsea track, was won in 6:44, by the Carpenter colt.

NAVAL CORRESPONDENCE.

U. S. SHIP PORTSMOUTH, St. Paul de Loando, West Coast of Africa, Oct. 10th.

Dear Chronicle:—It is now nearly eighteen months since we sailed from the harbor of Portsmouth: and to-day for the first first time I have had the pleasure of reading your paper, June 21st, and after reading the news contained in it I thought I would let you know the news of this Coast. We are all enjoying good health, and have been since we left. We have only lost two men; one died at Porto Praya in May last, and the other, poor fellow, fell overboard at Cape Palma, shortly after leaving Portsmouth.

We have had seven summary court-martials, and one general court-martial. The latter came off yesterday and the prisoner was found guilty, and had all his pay taken from him, and he was sent home in the store-ship Relief.

Flag-ship Constellation sailed from this this place yesterday, on a cruise down the coast. She took the American bark Cora with 705 slaves on board, near the River Congo, on her last cruise. The Sumpter and Mystic are now at this place. The Mohican and San Jacinto are now on a cruise for three months. The San Jacinto has taken the brig Storm King of New York, with 600 slaves on board, and the Mohican captured a bark with 987 on board, and we (the ship Portsmouth) have sent home two brigs and one bark, on suspicion. So you will see that the slave trade is very active here;—and the English have taken three cargoes and sent them to St. Helena. This coast is lined with vessels;—they come with the pretence of trading for palm oil, and as they have clear papers from the New York Custom House, we cannot touch them; so the next we hear of them they have taken their slaves, and with a good wind, in a few hours they are out of all danger of the cruisers. Where one is taken with slaves on board, ten get clear. It is not for want of cruising that we have not taken a full one, for we have not been in port a month at a time since we went into commission; and there is not a place in this part of the coast but we have looked at.

We arrived here on the 4th, and sail again to-morrow for a cruise of three months. We are now very busy taking stores on board from the Relief. She sails in a few days for New York; she is to take the crew of the bark Cora to that city.—The Cora has proceeded to Monrovia with the negroes, and sails thence for Norfolk

I am proud to say that we have as comfortable a ship as there is in the Navy; and as for her sailing qualities, we have seen nothing to beat us. Our captain is a noble man; he will not see any of the crew abused, and does his best to make us all comfortable. A few days ago we were lying at Ambreze, with the British ship Archer, one of the fastest ships in the English Navy; the captain of her sent a message to our captain, stating that he would like to try our sailing qualities;—which was accepted, and it was not long before we sailed around her.

We all expect to be ordered home early in the coming Spring; if so, we shall probably arrive in the month of July or August We shall all be glad enough when the day arrives for us to set sail for the States again; for we can see nothing on this dismal coast. Two years is long enough to be here. We went to Madeira last Spring, to give liberty; we arrived there on the 1st of June; had a glorious time after being penned up so long, and on the 2d of July we set sail again for the coast.—We called at Porto Grande to take the mail; thence to Porto Praya, to take the remainder of the stores, left behind by some of our ships; thence to Princess Island, to take wood and water; then sailed for this place, and arrived on the last of August. Since our arrival, we have cruised through the month of September, near Kabenda, which is a great slave depot.—Here the yacht Wanderer took in her slaves. A PORTSMOUTH BOY.

One half the world doesn't know how the other half lives. A woman was found in her cold, dark room, in New York city, the other day, weak and emaciated with sickness, with her four little children huddled together with her upon a straw pallet, with scarcely a rag to cover the nakedness of any of them. Her drunken husband had stripped them of everything, to buy rum for himself, and his cruelties to her had caused premature child birth, in which she had been unattended, and from the effects of which she was dying. The brute was arrested and the sufferers cared for.

And in Janesville, Wis., also, a poor woman was found dead in her miserable hovel, her body frozen stiff, and huddled around the stove in the room, her three children, naked and in a starving condition.

BURYING BEES.—The French bury their hives during the winter, as the most effectual mode of preserving their bees. For this purpose a trench is dug to the depth of a yard, a layer of gravel laid in the bottom of the trench, a table placed on the gravel, and the hives ranged on the table and covered with straw on all sides. The trench is then filled with earth, lightly shovelled in, and the bees are left to themselves until the return of warm weather.

☞ In the U. S. SENATE, Thursday, Dec. 13, the Loan bill, as amended and received from the House, was taken up and the Senate concurred in the amendment.

The report of the joint committee on the affairs of the Military Academy at West Point was ordered to be printed.

The resolutions on the state of the Union were taken up, Mr. Wigfall continuing his speech.

HOUSE.—The Speaker appointed Mr. Hughes on the Military Committee, in place of Mr. Bonham.

Mr. Morris of Ill. asked leave to introduce a Union resolution, concluding as follows:—"Declaring a regard for the perpetuity of the Union of more value than the temporary triumphs of any party or of any man; that whatever evils or abuses exist ought to be corrected in the Union, in a peaceful and constitutional manner; that we believe the Union has sufficient power to redress every wrong and enforce every right, and that it is our patriotic duty to stand by it as our hope in peace and defence in war."

Mr. Curry of Ala. objected unless it be referred to the select committee.

Mr. Morris—I have not the slightest idea of allowing it to be buried in the coffin of that committee.

Mr. Curry persisted in his objection.

The House took up the Treasury Note bill as returned from the Senate, agreeing to the amendment reducing the denomination to $50, and also the amendment fixing the rate of interest, but extending it to all the notes under this law.

WASHINGTON, Dec. 13.—The House Committee of Thirty-three met to-day, and took action on that portion of the President's Message relative to the pending difficulties.

Mr. Rust of Arkansas offered a resolution that the existing discontent and growing hostility of the southern people to the Federal Government were greatly to be regretted, and whether without just cause or not, any reasonable or proper constitutional remedies or effectual guarantees of their particular interests that may be necessary to preserve the peace and perpetuity of the Union, should be promptly and cheerfully granted.

Mr. Morrill of Vermont, offered an amendment, expunging the words "whether without just cause or not," "effectual guarantees of their peculiar interest, as recognized by the Constitution." Rejected 9 against 20.

Mr. Ferry of Connecticut moved a substitute. Rejected—8 to 23.

Mr. Rust's resolution was then adopted—22 to 8.

Mr. Davis of Mississippi declined to vote. Mr. Boyce was absent. Nays—Messrs. Adams, Ferry, Humphrey, Robinson, Tappan, Morrill, Morse and Washburne.

The South Carolina delegation are *unanimously opposed to* any attempt to interfere with the collection of the revenue or the Federal property until negotiations with the Federal government are exhausted. No additional force will be placed in any of the forts near Charleston.

The Treasury Relief bill as passed by Congress authorises the issue of notes in sums as the public exigencies require, not exceeding ten millions, the denominations to be not less than fifties, to be redeemed a year after their issue, at the rate of six per cent. per annum, provided that after maturity the interest shall cease at the expiration of sixty days' notice of readiness to redeem them. The Secretary of the Treasury is authorised to issue said notes for the payment of public creditors, or others choosing to receive them at par. The Secretary of the Treasury is also authorized to issue notes at such rates of interest as may be offered by the lowest responsible bidders, no fraction to be considered less than 1-4 per cent. The notes are transferable, and to be received in payment of duties, taxes, public land and all debts due at such time as the notes may be offered.—The power to issue and re-issue is to cease in January 1863.

Advices from Alabama state that it is doubtful whether the co-operationists or secessionists will have the control of the Convention to be held in that State. Col. Taylor, a leading Bell man, favors co-operation, and if the secession ordinance passes, the conservatives will insist on the people ratifying it.

Accounts from Georgia state that the conservatives under Stephens, Johnson and others have strong hopes of carrying the convention in that State, and the conciliatory tone of the Republicans strengthen them.

Notwithstanding the contradiction, the President a week ago *did* receive the most emphatic assurance that South Carolina would not resist the government during his administration.

WASHINGTON, Dec. 14.—The Southern members assembled at the rooms of Hon. Reuben Davis of Miss., last evening. Those present signed the following declaration:

To our Constituents:—The argument is exhausted. All hope of relief in the Union, through the agency of committees, Congressional legislation, or Constitutional amendments, is extinguished; and we trust the South will not be deceived by appearances or the pretence of new guaranties.—The Republicans are resolute in purpose to grant nothing that will or ought to satisfy the South. In our judgment, the honor, safety and independence of the Southern people can be found only in a Southern Confederacy—the inevitable result of separate State secession. The sole and primary aim of each slaveholding State ought to be a speedy and absolute separation from an unnatural and hostile Union.

(Signed.) Pugh, Clopton, Moore, Curry, Stalworth of Ala.; Iverson, Underwood, Gartrell, Jackson, Jones, Crawford, of Ga.; Hawkins of Fla.; Hindman of Ark.; Reuben Davis, Brown, Barksdale, Singleton of Miss.; Craige, Ruffin of N. C.; Benjamin, Landown of La.; Senators Yulee of Fla., and Sebastian and Johnson of Ark.

WASHINGTON, Dec. 14.—The New England Republicans and those from the Northwest firmly adhere to their avowed principles, but there is a great disposition elsewhere to make great concessions to the South. PERLEY.

WASHINGTON, Dec. 13.—There was an exciting debate in the Cabinet to-day on the demand for reinforcements at Fort Moultrie. The demand was refused. Secretary Cass spoke in its favor, and is said to be so displeased that he will resign.

It is understood that Kansas will be admitted next week.

COLUMBIA, S. C., Dec. 13.—The Senate appropriated $500,000 for secession exigencies. The secession meetings were held last night in Savannah, Columbus and Atalanta. There was generally a more conservative feeling manifested, but all favor resistance in some form.

MONTGOMERY, Ala., Dec. 13.—The Grand Jury of this county has presented the Federal Government as a worthless and impotent nuisance, for committing violations on the Constitution in the States nullifying the fugitive slave law.

DR. B. C. PERRY,

THE CELEBRATED DERMATOLOGIST,

In accordance with the repeated solicitations he has received from some of the first citizens of Portsmouth during his stay in Portland, having closed his office in Portland after a successful practice of five months, has concluded to remain one week in PORTSMOUTH—when all who are suffering from

Loss of Hair, Premature Blanching, or any Disease of the Scalp,

can consult him.

DR. PERRY is prepared to treat successfully the following diseases, all of which are productive of a loss of hair.

Debilitation of the External Skin, Suppressed Secretion, Irritation of the Scalp, Dandruff or Thickened Secretion, Inflammation of the Sensitive Skin, Matterated Secretion, Hair Eater, Distended or Swollen Roots, and Premature Blanching.

This is the only method based upon Physiological principles which has ever been presented to the public for the restoration of the hair.

Dr. Perry's Theory of treating Diseased Scalps and Restoring the Hair—There are eighteen diseases of the head and scalp, that cause a loss of of hair, and in some cases premature blanching, each requiring in its treatment different remedies. Where loss of hair has resulted from any of those diseases, the first thing to be done is to remove the disease by a proper course of treatment, restore the scalp to its normal condition, keep the pores open so the secretion can pass off, and in every follicle that is open, new strands of hair will make their appearance

The philosopy of premature blanching is this: Iron and Oxygen are the principle constituents of Dark hair, Lime and Magnesia of Light hair. When the suppressed secretion between the skins contains an excess of Lime, it is taken up by the strands, causing the hair to turn white; by opening the pores the accumulation of Lime passes off with the secretions, the natural components of the hair resume their ascendancy, and the hair assumes its natural color.

Because persons have tried various preparations for the scalp, and have been deceived by them, and in some cases their difficulty made worse by their use, they should not be discouraged. The one preparation system for any case of disease, must necessarily be a failure. No one compound can be available for a dozen or more diseases; it may remove some difficulties—in other cases useless, in some positively injurious.

Dr. Perry's method is in accordance with the law of cause and effect. He makes a personal examination, ascertains what disease of the scalp has or is producing a loss of hair or premature whitening, prescribes such remedies, according to the nature and requirements, as will remove the disease. Hence his great success in treating capilliary diseases.

ALL CONSULTATIONS FREE.

Dr. Perry is now ready to receive visitors at

EXCHANGE HALL,

Exchange Buildings, same entrance with Chronicle Office.

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents,

Late Agent of U S. Patent Office, Washington, Under the act of 1-37.

76 STATE, OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would say that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on my part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1860. **R. H. EDDY.**

MERCANTILE LYCEUM.

The Third Lecture of the Fifth Course before the Portsmouth Mercantile Library Association, will be given AT THE TEMPLE,

On TUESDAY EVENING, Dec. 18th,

Descriptive Catalogues of rare coins, &c., sent to any address on the receipt of one dime in cash or stamps.

☞ N. B.—Coins received by mail or express.

Special Notices.

Dr. Perry, at Exchange Hall, in this city, is the only man in this country who treats the various *diseases* which attend the Hair, upon physiological principles. He practised five months in Portland, previous to coming here, and our exchanges from that city earnestly recommend his system to all who are afflicted with capillary difficulties.

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then, who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, make of this BLOOD FOOD and be restored to health.

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are pleasant to the taste, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov28 dawâm

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only safe and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail to restore suppressed or to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, send for a pamphlet to the Agent. One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail. nov28 dawâm

Sold by W. R. PRESTON and all druggists.

WISTAR'S BALSAM WILD CHERRY

Coughs, Colds, Bronchitis, Asthma, Croup, Whooping Cough, Quinsy, and the numerous as well as dangerous diseases of the *Throat, Chest and Lungs*, prevail, in our changeable climate, at all seasons of the year; few are fortunate enough to escape their baneful influence. How important, then, to have at hand a certain antidote to all these complaints. Experience proves that this exists in *Wistar's Balsam* to an extent not found in any other remedy; however severe the suffering, the application of this soothing, healing and wonderful Balsam at once vanquishes the disease, and restores the sufferer to wonted health.

From a Respectable Druggist.

PORTSMOUTH, Aug. 8, 1860.

Messrs. S. W. FOWLE & CO., Boston,—

Gents:—Please send me a fresh supply of WISTAR'S BALSAM OF WILD CHERRY. We are selling large quantities of this long celebrated remedy for *Coughs and Colds*, and it has fair to outline most of the so-called specifics which are now in vogue. We can confidently recommend it as a remedy for what it is intended. Yours truly,

NATHAN P. THACHER.

Mr. D. H. TEAGUE, of Turner Village, Writes the proprietors of this great remedy, as follows:

TURNER VILLAGE, ME., July 31, 1860.

Messrs. SETH W. FOWLE & CO., Bostc.,—

Gents:—I do not hesitate to recommend DR. WISTAR'S BALSAM OF WILD CHERRY for *coughs* and *pulmonary affections*, having used it in my family for many years with great satisfaction; indeed it has done more good than all the other medicines I have tried, and their name is legion. If all the patent medicines in the market possessed but a portion of the merit of this Wild Cherry Balsam, there would be no occasion to condemn them as humbugs.

The medicine is also used by many of my friends and acquaintances in this town, and they have found it invaluable; and I hope that others who suffer may give it a fair trial. Very respectfully,

D. H. TEAGUE.

Prepared by SETH W. FOWLE & CO., Bostor.;

MARKET ST., **37** PORTSMOUTH, N. H.

THE WOMAN'S FRIEND SOAP,

The best article in the market for labor-saving. Try it and you will find it so. For sale at No. 1 Market street, by JOHN SLAYERS.

Local.

☞ On Friday evening, about half past 7 o'clock, fire was discovered in the dwelling house on Water street, occupied by the family of the late Mr. Solomon Holmes, which did no particular damage, except to create considerable excitement in that vicinity, and make a general confusion in the house. The occupants had left the premises at an early hour, and probably a spark from a candle or lamp lodged in some clothing,—hence the fire. It was fortunate that it was discovered thus early, as the tide was out, and a high wind blowing at the time, might have caused a general conflagration.

☞ The thermometer was almost down to zero, and quite down to freeze-oh! yesterday; and if "the first Friday *does* govern the month," look out for your ears "when the days begin to lengthen."

☞ For a rare opportunity to purchase nice or common Furniture; sleighs and other carriages, harnesses, fine robes, &c., belonging to a gentleman leaving the city—see Mr. Wendell's auction advertisement for this morning. A lot of second-hand sleighs are also to be sold.

Mr. Morse also advertises a Sheriff's sale of piano, furniture, pictures, &c., in Market street.

Messrs. Editors:—The concerts at the Temple on Wednesday and Thursday evenings, were given by Engine Companies Nos. 3 & 5, and by the entire Fire Department of Portsmouth. MIXON.

☞ The last chance to consult Dr. B. C. Perry on the hair is offered to the citizens of Portsmouth this day and evening, as he leaves for Boston on Monday.

☞ News from Europe to Dec. 2, via the Europa, at Halifax, which brings half a million dollars in specie.

All the financial writers canvas the prospects of the American panic.

The Times city article says the panic has reached a stage resembling some of the worst days of 1857, but leading commercial men seemed to be aware of its utter groundlessness, so that the alarm was by no means equal to the agitation.

The Times argues that the receipts of gold from England will immediately change the whole character of the New York money market.

Paris, Dec. 1.—The Pays says that the stay of Victor Emanuel in Sicily will be of short duration.

The Patrie states, that according to the latest news, insurrectionary movements were increasing in the Abruzzia.

London.—The funds have been influenced by the satisfactory character of the Bank returns. Consols advanced 1-8 per cent.

Naples, Nov. 30.—A commission composed of Sardinian and Neapolitan officers has been appointed to examine the titles of the officials of the Two Sicilies, who have adhered to the new government.

An important reactionary demonstration, caused by the priests and lazzaroni, took place yesterday. Several persons were arrested, and the demonstration was suppressed. Tranquility prevails.

Paris, Dec. 1.— The Empress Eugenie would visit the Queen at Windsor Castle on Tuesday, and depart for home in the evening.

☞ California dates to Dec. 1.

Southern secession is the all-absorbing topic. Some of the Breckinridge papers are publishing articles favoring a Pacific Republic.

The Lyceum Theatre in San Francisco has been destroyed by fire. Loss $20,000.

The Republican papers are urging the appointment of some Californian in Lincoln's Cabinet.

Many of the ministers preached Union discourses on Thanksgiving day.

British Columbia dates of the 17th state that the negroes engaged in the recent riot at Victoria were acquitted on the ground that the affair was unpremeditated.

Thirty persons were drowned by the upsetting of a canoe on Frazer river.

☞ The ordination of Rev. E. C. Hooker as pastor of the North Congregational Society, Newburyport, (late Dr. Dimmick's,) took place on Tuesday. The exercises on the occasion were by the following clergymen: Invocation and reading of Scriptures, by Rev. E. W. Allen of South Berwick, Me.; Sermon, Rev. Dr. Hooker of Fairhaven, Vt.; Ordaining Prayer, by Rev. R. Campbell of Newburyport; Charge to Pastor, by Rev. Dr. Withington of Newbury; Right Hand of Fellowship, by Rev. Mr. Plumb of Chelsea; Charge to the People, by Rev. Mr. Foster of Lowell.

☞ Dr. R. Richard Clay, having returned to New York after a very successful lecturing tour, informs his patients and the public generally, that he may be consulted, either personally or by letter, at No. 106 Bleecker street, two blocks west of Broadway.

ACCIDENT.—Mr. Thomas Langley, who was engaged in erecting an ice house in Newburyport, was severely injured by the fall of one side of the building, by which his face was ground into the frozen tan, breaking his nose and upper jaw and otherwise bruising him.

☞ Rev. James Barnaby, of Deerfield, N. H., has accepted an invitation to the pastorate of the Baptist church in Campton, N. H. He is 73 years of age, erect, nimble, and vigorous, his "eye not dim, nor his natural force abated."

The people of South Carolina commence their career of boasted independence of the North, by ordering from Connecticut all their rifles and pistols for defending themselves against the North, and from New York the whole of the Palmetto flags that are to wave over their chivalric heads in the conflict. Why can't they send on for a supply of Yankee fingers to pull their triggers for them?—*Louisville Jour.*

We advise editors of Northern newspapers to be careful how they copy the above paragraph without giving ample credit. If it should appear in a Northern paper without proper credit, it would be styled incendiary.—*Cincinnati Commercial.*

☞ The Rockingham Weekly Chronicle, containing a summary of the news of the week, this day published, and for sale at the Chronicle Counting Room: price 3 cents; $1 per year, in advance.

Why will you suffer? Dyspepsia is a brief but comprehensive term for the numerous diseases which affect the stomach, liver, and, in fact, the whole system. Until Dr. Greene discovered the *Oxygenated Bitters*, medical science had exhausted itself in vain attempts to cure this disease.

For Coughs, or for any disease of the Breathing Organs, use J. R. Stafford's Olive Tar and Iron & Sulphur Powder, which are advertised in this paper. The Olive Tar infuses Magnetism or Vitality, allaying at once any pain or oppression, and its great balsamic properties heal soreness and inflammation. The Iron and Sulphur Powders, being a soluble preparation, unite with the digestive food, and enter with it into the formation of new Blood, the Iron retaining the vital or life-giving forces in the blood, which in its circulation is diffused through the entire system.—The combined Sulphur converts the waste or worn-out particles of the blood into gases which are expelled from the body through its pores by the increased energy given to the Circulation. It is these waste or worn-out particles of blood that form Phlegm and Tubercles, and it is their acrid humor which irritates and destroys the membranes of the Throat, Bronchial Tubes, and Air Cells of the Lungs. Send for a pamphlet.

Atwood's Quinine Tonic Bitters,—the best Aromatic Tonic ever offered to the public.—All the Druggists have it. See advertisement.

MARRIAGES.

In this city, Dec. 13, by Rev. D. P. Leavitt, Mr. JOHN H. LORD, of Great Falls, to Miss SARAH J. FLIST, of Portsmouth.

In New York, Oct. 18, GEORGE W. STEVENS, of New Hampshire, to MISS ABBIE A. KELSEY, of New York.

DEATHS.

In Chelmsford, Mass., Nov. 23, DEA. SAMUEL TUCK, aged 74 years. He was a native of Brentwood, N. H., where he was baptized by Dr. Shepard, of the Baptist Church, 60 years ago.

New Photographic Establishment.

Having fitted and furnished in modern style, large, pleasant and commodious rooms, the subscriber is prepared to furnish all who wish with Sun Pictures of every description, from the smallest Miniature to life-size Portraits. Photographs finished in India Ink, Water and Oil Colors, by the best artists in the country. Old Daguerreotypes, &c., copied any size desired.

The subscriber having had many years' experience, from the old Daguerreotype down to the present time, keeping pace with every useful improvement, a success almost unprecedented has heretofore attended him; and by strict attention to business, and fair dealing he hopes to merit a share of public patronage.

All work from the establishment warranted to be of the highest order, both for finish and durability. Prices as low as in Boston, or any other place where first-class work is performed.

Having a large skylight, pictures can be taken late in the day, and equally as well in cloudy as in fair weather. The public are respectfully invited to call and examine specimens, at **17 Pleasant Street,** opposite the New Custom House.

J. E. SMALL.

ANOTHER NEW STOVE
THE MODEL COOK
FOR WOOD OR COAL,
MADE BY
THE BARSTOW STOVE COMPANY
Of Providence, R. I.
The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking giving an oven nearly 3 ft. long! or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven, with a tin roaster in front of the fire, are obvious, viz:
1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is the most durable, tasteful and useful.
2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking oven.
3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.
4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires; or it can be used for a hot closet when not required for baking or roasting.
5th. By this extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time the stove occupies no more room on the floor.
John Trundy, Esq., one of our most practical and scientific mechanics, who has had large experience in the construction of stove patterns in years past, and has for many years been using one of the Stewart Stoves, has purchased one of the MODEL COOKS, and after a fair trial pronounces it far superior to the Stewart or any stove he has ever seen, for economy, convenience and dispatch. We might also refer to several other parties who are using the stove, and who award it the very highest praise.
The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be *the* stove for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is wanted.
We have nought to say against any other stove, believing that a man can sell his own goods without depreciating his neighbor's; but this we do say, that we honestly believe this is the *best stove that can be found in the world;* and what is more, we think others will agree with us after a trial of it. We invite any one to examine the stove, whether they wish to purchase or not.
For sale, with a great variety of
Furnaces, Ranges, Cooking, Office and Parlor Stoves; Coal Hods, Sifters, Funnel, Stove-Repairing Pieces, Parlor Grates, Etc.

YOU CAN'T FIND
AN ARTICLE THAT SUITS AS WELL AS
HEIMSTREET'S INIMITABLE
HAIR RESTORATIVE
Apothecaries and consumers all testify that
IT IS THE ONLY RELIABLE ARTICLE FOR THE BALD AND GREY.
Read the testimony from Kentucky.
PADUCAH, KY., July 27, 1860.
Mr. W. A. BELL.—Dear Sir:—I have used HEIMSTREET'S INIMITABLE HAIR RESTORATIVE, and am satisfied from an experience in all other preparations for the like purpose, that *it is the only article ever before the public worth purchasing.*
Yours truly, JOHN G. DALY.
PADUCAH, KY., July 27, 1860.
MESSRS. W. E. HAGAN & CO., Troy, N. Y.,
Gents:—Above please find statement of Mr. John G. Daly, merchant of our city, in regard to HEIMSTREET'S INIMITABLE HAIR RESTORATIVE. This testimony is given after having used most of the preparations now before the public, *claiming* to be Hair Restoratives, and *must be considered conclusive* as to the merits of the *Inimitable.* Am out of the large size. Forward by railroad double the quantity we had before. Very truly yours

Cook Stoves.
Autocrat of the Kitchen.—35,000 *in use*
THE ORIGINAL P. P. STEWART,
FUEL-SAVING AND COMFORT-PRODUCING LARGE OVEN, SUMMER AND WINTER
AIR-TIGHT COOKING STOVE,
FOR WOOD & ANTHRACITE OR BITUMINOUS COAL
Improved in 1859 with New and Extra Large Flues, and by the addition of the Celebrated Patent Double Sheet Bottom Flue.
Attention is invited to the following Points of Superiority:
DURABILITY.—Lasting, with proper care, at least 20 years. Stoves are now in use that were set up in 1838.
CAPACITY.—Baking, broiling, boiling, roasting and all other cookery operations performed *at the same time.* A barrel of flour baked into bread with a single fire.
ECONOMY.—Saving the cost of the stove in 2 or 3 years in the item of fuel.
VENTILATION OF OVEN.—In the Stewart Stove alone the front doors open directly into the oven, (protected by letters patent,) securing a direct draft through the *top of the oven,* by means of perforated holes in the doors and back flues. It will be borne in mind, that, as the heated air always rises, this method of ventilation is the only one of any value whatever.
ENTIRE CONTROL OF HEAT.—The heat generated by the stove, may be held therein and used, or thrown into the room at pleasure.
THE DOUBLE SHEET BOTTOM FLUE.—By which a compressing and inverting action of heat is obtained, and the oven more evenly and efficiently heated than by any other known invention.
BROILING.—Performed *on the top,* and without the possibility of smoke entering the room.
HOT WATER RESERVOIR AND WARMING CLOSET.—Both useful and convenient, supplied by the waste heat and without extra fuel.
WATER BACK.—An arrangement for supplying hot water for the bath room equal to any range.
Beware of the numerous worthless imitations now in market. See that the name of P. P. Stewart is on each stove. No other is genuine.

Morning Chronicle.

A LARGE CORNFIELD.—George W. Ela, Esq. formerly of this city, owns the Judge Burgin farm in Allenstown, on which he had thirty acres of corn, this season, in a single field. The yield averaged a little over thirty bushels to the acre.

As a general thing the Cuban peasantry are rather poorly provided with "home comforts." their houses are huts of palm wattling and mud plastered walls, with a coat of whitewash and palm leaf thatch.—The furniture consists of a few hide seat chairs, a table of rough cedar, a large water jar, and a board nailed to the wall as a shelf for the "kitchen fixings;" perhaps a large wooden chest for the "Sunday's best," and a few yards of twine stretched from wall to wall to hang clothes on.

☞ The Province of New Brunswick, contains fifteen million of acres of land not yet cleared, about ten millions of which are still in the hands of the government.

SEVEN YEARS!

The seven years of unrivalled success attending the

COSMOPOLITAN

Art Association,

have made it a household word throughout every quarter of our country.

Under the auspices of this popular Institution, over *three hundred thousand* dollars have received the appreciation by beautiful works of art on their walls, and choice literature on their tables—the great benefits derived from becoming a subscriber

Subscriptions are now being received in a ratio unparalleled by that of any previous year.

TERMS OF SUBSCRIPTION.

Any person can become a member by subscribing *three dollars*, for which sum they will receive

1st.—The large and superb steel engraving, 20 x 26 inches, entitled

Falstaff Mustering His Recruits,

2d.—One copy, one year, of that elegantly illustrated magazine, the

"COSMOPOLITAN ART JOURNAL."

3d.—Over admissions, during the season, to

"The Gallery of Paintings, 548 Broadway, New York."

In addition to the above benefits, there will be given to subscribers, as gratuitous premiums, ove

Five Hundred Beautiful Works of Art,

comprising valuable paintings, marbles, parians outlines, &c., forming a truly national benefit.

THE SUPERB ENGRAVING, which every subscriber will receive, entitled "FALSTAFF MUSTERING HIS RECRUITS," is one of the most beautiful and popular ever made in this country. It is done on steel, in *fine line and stipple*, and is printed on heavy plate paper, 20 by 26 inches, forming the most choice ornament, suitable for the walls of either the library, par or or office. Its subject is the celebrated scene of Sir John Falstaff receiving in Justice Shallow's office the recruits which had been gathered for his "Ragged Regiment." It could not be furnished by the trade for less than five dollars.

The *Art Journal* is too well known to the whole country to need commendation. It is a magnificently illustrated monthly work of Art, containing Essays, Stories, Poems, Gossip, &c., by the very best writers in America.

The Engraving is sent to any part of the country by mail, with safety, being packed in a cylinder, postage prepaid.

Subscriptions will be received until the Evening of January 31, 1861, at which time the books will close, and the premiums be given to subscribers.

No person is restricted to a single subscription. Those remitting $15, are entitled to five membership, and one extra Engraving for their trouble.

Subscriptions from California, the Canadas, and all Foreign Countries, must be $3.50 instead of $3, in order to defray extra postage, &c.

For further particulars send for a copy of the elegantly illustrated *Art Journal*, prospectus of the *Art Journal* magazine and *Gallery*. It contains Catalogue of Premiums, and numerous superb engravings. Regular price, 50 cts. per number. Specimen copies, however, will be sent to those wishing to subscribe, on receipt of 18 cents, in stamps or coin.

Address, C. L. DERBY, *Actuary C. A. A.*, 546 Broadway, New York.

N. B.—Subscriptions received received and forwarded by

FRANK W. MILLER,

Agent for Portsmouth and vicinity,

Where specimen Engravings and Art Journal can be seen.

GARDINER'S

Rheumatic and Neuralgia Compound.

A cure cure for Rheumatism and Neuralgia in its worst form.

The undersigned hereby certify that they have used "Gardiner's Rheumatic and Neuralgia Compound" for the cure of Rheumatism and Neuralgia, and have in every case found immediate and permanent relief. We have full confidence in its healing qualities, and would recommend it to all who are afflicted with those harrassing diseases, as one of the safest and best medicines ever offered to the public.

S. HANCOCK, Jr., 20 South Market street, Boston; W. H. ALLEN, Boston; HENRY A. FULLER, 18 South Market street, Boston; SMI. WALES, Jr., City Hotel, Boston; GEORGE H. PLUMMER, 1 Haverick Square, East Boston; HENRY D. GARDINER, Webster street, East Boston; ABRAM WEEKS, Webster street, Boston; Capt. CHAS. G. DOLLIVER, East Boston.

The best medicine for the disease I ever saw.—C. A. SMITH, Nor. 1 Old State House, Boston.

Have been afflicted with Rheumatism in its worst form and was entirely cured by the use of one bottle.—A. W. BEYER, Matthews' Building, Commercial street, Boston.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

After suffering with Rheumatism for twenty years, I was entirely cured by the use of two bottles of Gardiner's Rheumatic and Neuralgia Compound.—NORMAN T. AYERS, 75 Franklin St., Boston.

The Rheumatic and Neuralgia Compound has been taken by hundreds of people for Scrofulous Humors, with great benefit. It may be given to children with perfect safety.

At wholesale by MACY & JENKINS, 67 Liberty st., New York: M. S. BURR & CO., 25 Tremont street, Boston.

Principal Depot—87 Kilby st., Boston.

None genuine unless signed by

CHAS. F. GARDINER.

Sold in Portsmouth by PRESTON, THACHER and KIMBALL; and by Apothecaries generally throughout the country. aug31 lyeod W

J. F. SHORES, Jr., No. 1 Congress Block, has just received a full supply of DIARIES for 1861, comprising 20 patterns, in various styles of binding, and printed with 2, 2, 1 day to a page.—Price from 17 cts. to $1.25 each.

CONCENTRATED LEAVEN,

FOR MAKING

Broad, Tea Cakes

All kinds of Pastry, &c., &c.,

MANUFACTURED BY

EDW. CHAMBERLIN & CO.,

Proprietors of Shawmut Chemical Works,

NO. 33 INDIA STREET, BOSTON.

CONCENTRATED LEAVEN is the result of careful chemical researches. All its ingredients are prepared in the highest state of purity, and compounded with a view to produce bread of a far better quality, and in much less time, than by any other process, and the manufacturers submit it with confidence to the judgment of discriminating house-keepers, bakers, &c., &c.

Bread of all kinds, made by using CONCENTRATED LEAVEN, is lighter, more digestible and nutritious, has an agreeable, natural taste; is less liable to sour; will retain its moisture longer than by any other process, and the whole preparation for the oven does not exceed ten minutes.

It is valuable because it is not perishable, and may be rendered available in places and at times when yeast is not within reach, as at sea. In all climates, and under all circumstances it may be adopted, thus obviating all difficulty of procuring yeast or other ferment, which is frequently of an inferior quality, rendering the bread more or less unwholesome.

It is also valuable as regards economy, as it has been ascertained that a saving is effected in the flour of not less than 16 per cent. In the common process, much of the saccharine matter in the flour is lost in converted into carbonic acid gas, or spirit, and the waste is incurred solely for the purpose of generating gas in the dough. In CONCENTRATED LEAVEN, this waste is avoided, and the gas obtained in a manner equally efficacious. Fermentation, as has been stated, destroys a part of the saccharine matter, and in consequence, a barrel of flour weighing 196 pounds, which by the common method ordinarily makes about 350 lbs. gives but 320 lbs., thus effecting the very important saving of 16 per cent. in the quantity of flour. By conformity to the directions on each package, any housewife, tho' of ordinary attention may conduct the process, and the result will invariably be highly satisfactory.

CERTIFICATE FROM DR. MAYES,

Assayer to the State of Massachusetts.

"I have analyzed the Concentrated Leaven manufactured by Messrs. Edw. Chamberlin & Co., with regard to its purity and efficiency of action in producing the effect of yeast in distending dough and thereby rendering it fit for making bread. This article is skillfully compounded from perfectly wholesome materials, which leave nothing but a vegetable salt, which is essentially a desirable food in the bread. It is also thoroughly without the sugar or any other principle in the flour, perfectly; and the same weight of flour will produce more sweet, nutritious bread than can be obtained from the aid of yeast; while for cakes and pastry it is invaluable, as it saves all risk, and much time of the pastry cook.

The experiments made by me, confirm the statements of the manufacturers, and prove this compound worthy of public approval and extensal use.

A. A. HAYES, M. D., *State Assayer*.

16 Boylston st., Boston, Sept. 25, 1860."

HOW TO USE IT.

We append a few recipes, but it may be used with great advantage in all other kinds of cake, also in fruit puddings and other pastry.

BREAKFAST APPLE CAKE.—Two or three teaspoonfuls of Leaven (according to the quality of the flour,) to one quart of flour; mix thoroughly by passing two or three times through a sieve; rub in a piece of butter of half the size of an egg, and make the paste the paste with cold milk or water, (milk is preferable,) to a stiff enough for a soft dough. Much kneading should be avoided. Cut into desired form, and place immediately into a hot oven, and bake quickly.

LOAF BREAD.—The same proportions of Leaven and flour sifted together as above; omit the butter, and make the paste stiff enough to kneed into a loaf, and bake immediately in a slow oven.

GRAHAM BREAD.—Three teaspoonfuls of Leaven to one quart of wheat meal, sifted together; add two eggs and about a gill of molasses; make the paste thin with milk, and bake in a slow oven.

BROWN BREAD.—Three teaspoonsful of Leaven to one pint of flour, and one pint of corn meal, all well sifted together; add two eggs and about a gill of molasses; make the paste thin with milk, and bake slowly.

BUCKWHEAT CAKES.—Flour and milk sufficient to make one quart of batter; add one egg, then three teaspoonfuls of Leaven; beat to a froth, and bake quickly.

DUMPLINGS.—Sift together one quart of flour and two teaspoonfuls of Leaven; rub in a piece of butter half as big as an egg; mix with cold milk or water, and boil ten minutes.

CHAMBER STREET CAKE.—Sift together two large cups of flour and two teaspoonfuls of Leaven; put in half a cup of butter and a cup and a half of sugar; mix with cold water or milk to a stiff batter, and spice to suit the taste, and bake immediately.

CINCINNATI SPONGE CAKE.—Two cups of white sugar, beaten with the yolks of six eggs—the whites of six eggs beaten to a froth; then beat all together; add one cup of sifted flour, one cup of water, and three teaspoonfuls of leaven; flavor with two teaspoonsful of essence of lemon, and bake in a quick oven.

JUMBLES.—Sift together one quart of flour and three tea spoonfuls of Leaven; rub in one teacupful of butter; add a cup and a half of white sugar, and spice to suit the taste; mix stiff enough to roll out, and bake quick.

ELECTION CAKE.—One quart of flour and three teaspoonfuls of Leaven sifted together; add a cup of butter, one pound of currants, two cups of white sugar, and one teaspoonful of cinnamon; mix with cold milk to a stiff batter, and bake in a slow oven.

COEN CAKE.—One pint each of flour and Indian meal, and three teaspoonfuls of Leaven, well sifted together; add two gill of molasses and two eggs; mix thin with milk and bake in a slow oven.

CUP CAKE.—Five cups of flour and three teaspoonfuls of Leaven, sifted together; add one cup of butter, two of sugar, and two eggs, all well beaten together; mix with milk; then add a cup of currants, and spice to suit the taste. Bake about half an hour.

LADIES' CAKE.—Three quarters of a pound of flour and four teaspoonfuls of Leaven sifted together; one pound of sugar and six ounces of butter beaten to a cream; the white of eight eggs beaten to a froth, and the juice of one lemon; mix with milk.

WEBSTER CAKE.—Five cups of flour, three teaspoonfuls of Leaven, three cups of sugar, one cup of butter, one of milk, and two eggs; fruit and spice to the taste. Bake about half an hour.

For Sale by Grocers Generally.

ATWOOD'S

QUININE TONIC

BITTERS,

The Best Aromatic Tonic ever offered to the Public.

RECOMMENDED BY THE FACULTY

For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic*s, and cannot fail to meet the wants of the debilitated.

It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhea, dysentery and cholera morbus, the public may rest assured there is nor can be another general remedy.

One of the very best Physicians in Boston has said "*but it is the best preparation of Bitters that has ever been offered to the public.*"

Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

For further particulars reference is made to the printed circulars.

BLOOD FOOD

The attention of Invalids, Physicians, Clergymen, scientific men, and the public generally, is respectfully directed to the merits of this chemical preparation, containing **Iron, Sulphur** and **Phosphorus**, and which is identical in the compound, forming the *Hematic Globules*, or *red blood*.—In all diseases accompanied with

DEBILITY,

pale countenance and nervous derangement, analyses of the blood show a deficiency of the red globules. Ruddy complexion and a rosy tint of the skin, is always indicative of health; while a pale, wax-like skin and countenance, is evidence of a considerable deficiency of the red globules,—accompanies a diseased organism. Preparations of **Iron** have been given for the purpose of supplying the *Hematic Globules*, but we contend that **Iron** alone, **Sulpur** alone, or **Phosphorus** alone, will not meet the deficiency in every case, but the judicious combination of these elements is necessary to restore the blood to its normal standard. This point, never before attained, has been reached in the **Blood Food**, and its discovery ranks as one of the most scientific and important of the age. Its effects in

CONSUMPTION

are to soften the cough, brace the nerves, strengthen the system, allay the prostrating night sweats, increase the physical and mental energy, enrich the blood by restoring the lacking red globules, increase the appetite, restore the color, and clothe the skeleton frame with flesh. The **Blood Food** will be found a specific to all *CHRONIC DISEASES of the THROAT or LUNGS*, such as *Asthma, Bronchitis, Coughs, &c.* Public speakers and singers will find it of great utility in clearing and strengthening the vocal organs. In *Dyspepsia, Liver Complaint, Dropsy, Female Weakness, Scrofula, Gravel, St. Vitus' Dance, Fever and Ague, &c.*, its efficacy is marked and instantaneous. In no case, however, are the beneficial effects of this remedy so conspicuous as in those harrassing

FEMALE COMPLAINTS

to which the gentler sex are liable, and which tend towards consumption, such as suppressed, or difficult *Menstruation, Green Sickness, Whites, &c.*, especially when these complaints are accompanied with paleness, dingy hue or pallor of the skin, depression of spirits, debility, palpitation, want of appetite, and nervous prostration. We have the most conclusive evidence, through the **Blood Food** to all who may be conscious of a loss of vitality or energy, and to those whose moral or bodily powers are impaired through *over-use*, either of the mind or body, and we deem it our duty to say that in all cases of *Weakness and Emaciation* with discharge of the *Urine* or *Bladder*, this preparation has a claim upon the attention of sufferers which cannot be over-estimated. A faithful trial will be found the most convincing proof in regard to its efficacy that could be asked for. With the above remarks, and with the numerous testimonials on hand in favor, we offer this "**Blood Food**" to the consideration of the afflicted, knowing that it will be acknowledged as pre-eminent over all other preparations, patent or official, in its curative influence. Circulars giving the Theory upon which this remedy is founded, also certificates of remarkable cures will be sent free when desired. We forward the **Blood Food** to any part of the United States or Canadas upon receipt of price—$1 per bottle, $6 for six bottles. Be careful in all cases to take none but that having our fac-similie signature on the wrapper. None other is genuine.

BININGER'S GENUINE Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling at reasonable rates, a Brandy of our own importation, from one of the most responsible houses in France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in cases containing one dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

Dyspepsia Remedy

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Dyspepsia, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance, It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to healthy strength and vigor.

Persons who from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the Delirium Tremens, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.

One dose will remove all Bad Spirits.

One dose will cure Heartburn.

Three doses will cure Indigestion.

One dose will give you a good appetite.

One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions, strengthen the muscular system, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

THE MESSAGE—SECESSION.—No.2.

But we are called upon not only to repeal the laws referred to, [the personal liberty bills,] in order to defeat secession, but we are also required to surrender up freedom of speech. The Southern States have no right to demand this concession of the Northern States, "standing on the basis of the Constitution." Nor is it true that we at the North have no more right to discuss the merits of the Southern institution than we have to discuss similar institutions in Russia or Brazil. Are we not one nation, and do we not therefore possess a perfect right to discuss any measure pertaining to the National, as well as State, welfare? But we claim, and will exercise, the same right in respect to any foreign nation—and refuse to put a padlock upon our lips.

Public opinion is a mighty lever which can move the world, and by public opinion slavery in the South is doomed to the fate which has already befallen it in the rest of the civilized world—Brazil being but half-civilized. We forbear to notice other erroneous charges in the Message, against the North.

The crisis demands that we should, with candor and strict regard to truth, consider whether secession would or would not be advantageous to our free States. It cannot be pretended that it would affect our arts and sciences, our free school system and higher seminaries of learning, the different learned professional pursuits, our virtuous, moral and political principles, our industrious habits, or our industrial pursuits generally. It could not injure essentially our trade and intercourse with the commercial world. Even a non intercourse act by the seceding States, ruinous to its citizens, could not long be carried into effect. But few of our merchants, to whom the slaveholders are now indebted, would be injured. Our agricultural products would annually be increased, and the Western States and the Canadas could furnish any needful supply of grain. Our numerous manufacturing establishments could not be materially injured. Their products are as necessary for the slave States, as cotton by barter would be to the former—but should the exchange be prohibited between them, it would be made coastwise in British bottoms, as the Southern ports would not be closed against trade with England, as no such prejudice exists against her, as against the Yankee nation. Besides, our manufactured goods are now exported to nearly all parts of the commercial world. Cotton is now only about the sixth or seventh product in value in the Union, and there may be a large supply from some of the south-western free States. The West Indies could supply some of the staples we now receive from the South.—But we need have no fears of a Southern embargo, or any such measure. Trade by barter is carried on between merchants of different nations for their mutual benefit, on which a liberal government would impose no checks. Why then should the free states feel the smallest alarm at the secession even of all the slave States? In that event, two thirds of the public revenue would no longer be expended for their benefit—millions would no longer be drawn from the public treasury for the transportation of the mails over their thinly populated, extensive domain. PAX.

Morning Chronicle.

Portsmouth, N. H.

MONDAY, DECEMBER 17, 1860.

WIGFALL AGAIN.—Mr. Wigfall of Texas made another of his peculiar speeches in the Senate on Wednesday, being greeted with much laughter from the galleries. The only way to save the Union, he thought, was to make it the imperative duty of the Federal Government to protect slave property as it protects every other species of property. He was quite hilarious over the idea that the North would accede to the demands of the South, and was greeted with laughter and "ahems." He said:

Stop within your borders flaming presses, and public speakers who excite the people against us. And I say to those States, you shall not—that is the word I choose to use, and I represent a feeling of determination in the people I represent—I say you shall not permit men to go there to excite our citizens by making John Brown speeches, and bringing strychnine within the limits of the State I represent. You shall not publish newspapers and pamphlets to incite the slaves to insurrection. You shall not publish newspapers and pamphlets to excite the non-slaveholder against the slaveholder.—We will have peace, and if you don't offer it to us, we'll quietly have our rights under the constitutional compact,or withdraw from the Union and establish a government for ourselves. If you then persist in aggression, these sovereign States will settle the question, and when you laugh at these impotent efforts, as you regard them, I tell you that Cotton is King. [Laughter in the galleries.]

Threats to clear the galleries were then made, during which Jefferson Davis apologized for the disorderlies, saying he thought too much importance was attached to the applause of the galleries.

Mr. Wigfall proceeded to enlarge upon the idea that cotton is king. Towards the close of his rambling address, he was corrected by Senator Seward. It occurred as follows:

Mr. Wigfall said the immediate cause of secession is the election of a Black Republican President. The people of the North must know that the present state of affairs was brought about by means of the Helper book, by the teachings of the Senator from New York, (Seward,) by the preachings of the pretended followers of Christ, and by teaching in your schools even the children to hate us. The Senator from New York had told his Wide Awake pretorians that their services could not be dispensed with after the election, but that they would be needed to secure the fruits of the victory.—They are half a million of men in uniform, well drilled, and the purpose of the organization is to sweep the country in which I live with fire and sword.

Mr. Seward arose and said, I want to know the ground and place where it is to take place. [Laughter in the galleries.]

Mr. Wigfall said he had seen it reported in the newspapers.

Mr. Seward replied that he did not say what was published in the newspapers. I do remember to have read a letter which I received from some unknown person of a Southern State, professing to implicate something I said in some speech of mine.—But I can't tell what I may have said, perverted so as to imply that I ever said or intimated that the Wide Awakes were being kept organized, or disciplined,or uniformed, or associated at all, to secure the fruits of their victory. I think I can say safely, I never said anything which could. I hope the Senator will excuse me. I hope he will not deem it necessary for me to put myself under any obligation to explain anything hereafter. (Applause.)

Mr. Wigfall continued, and said, the denial of the Senator is all I ask; I only saw a report of his speech.

THE SERF QUESTION IN RUSSIA.—A late number of the Brussels Nord reports from St. Petersburg that the Superior Committee, instituted for the definitive examination of the plan for emancipating the serfs, is actively at work under the presidentship of the Grand Duke Constantine, to bring that important reform to a successful issue. It is hoped that the full scheme will be submitted to the Council of the Empire in four or five weeks, and the reform will probably be carried into execution early next year. Other reforms of not less importance, as for example, the reform of the judicial tribunals and of the provincial police, are in preparation.

EXPENSES.—The N. Y. Evening Post is helping the people of South Carolina to make an estimate of the expense of setting up housekeeping for themselves. On the same basis as the U. S. army, three regiments of troops would cost $337,407 for the first month, and about $2,881,184 a year, not including ammunition, barracks or forts. This would be the cost of the first step, while the people are now taxed for a debt which amounts to about fourteen dollars per head for every white citizen.

SUPREME JUDICIAL COURT, PORTLAND. James Hall, of Brunswick, as common seller of intoxicating drinks was fined one hundred dollars and costs, and sentenced to be imprisoned in the county jail six months. Thomas M. Kinniston, of Bridgton, as common seller, was fined one hundred dollars and in default, three months in county jail—committed.

The first of all virtues is innocence; the second is modesty; and neither departs without being quickly followed by the other.

SECTIONAL MANIFESTO.

We published a part of the Manifesto of the southern *sectionalists* at Washington, on Saturday; this was agreed to on Thursday, when at the request of Hon. Reuben Davis of Miss., member of the Committee of States, the Southern members of Congress assembled at his rooms. It had already been presented to the Committee of Thirty-three who signed it. The remainder of the document reads thus:—

Mr. Davis made the following statement to the caucus:

Being a member of the Committee of Thirty-three, I state that the above witnessed dispatch was communicated to the committee this evening, and a resolution passed proposing no specific relief, eight northern States dissenting, avowedly intended to counteract the effect of the above dispatch, and as I believe, to mislead the dupe of the South. From information derived from Republican members of the Committee and other northern Representatives, I fully concur in the above dispatch. REUBEN DAVIS.

The manifesto will be immediately communicated to the several constituencies of the gentlemen named, by telegraph.

It is now ascertained with a positive degree of certainty that the following States will secede on the days named, unless they conclude to keep their conventions in session until that of Georgia meets, which is on the 18th of January, when they will all go out together:

South Carolina—Convention meets December 17; will retire from the Confederacy Dec. 18.

Alabama—Convention meets January 7; retire January 10.

Mississippi—Convention meets January 7; retire January 10.

Florida—Convention meets January 3; and will probably retire with Alabama and Mississippi.

It is expected Arkansas and Texas will not be long behind them.

The idea that any compromise can be offered that will save these States to the Union may henceforward be hopelessly abandoned.

ITEMS FROM THE BATH TIMES.—A Southern writer represents that but a small portion of the Cotton States can be cultivated for a long series of years without exhausting the soil. Our secession friends had better think of this "before they further go."

Was it honest for Southern States to go into the Charleston Convention when unwilling to abide its action? When men go into a Convention does not honor require that, if beaten, they shall submit with grace? Carrying the same principle forward another step, was it honorable for the Southern States to go into the Presidential election at all if they did not intend to submit to the verdict of the people? In going into that election with a predetermination to secede if they could not rule, did they not act upon the principle, "Heads I win, tails you lose?"

If the leading Republican papers continue coming down from their "higher law" doctrines at the same rate they have since the Southern troubles have developed, before the 4th of March they will "roost" like a nightingale—*on the ground.*

Senator Seward's Higher Law doctrine is just this; Divine Law is higher than human laws on paper. If any paper rejects this it must roost very low indeed.

Mr. Douglas received more votes in the free States than the aggegate vote of the fifteen slave States.

Exactly so: and in the same free States, Lincoln received 400,000 or 500,000 votes more than Douglas; so that the slave propaganda had more than a two-thirds vote against it; probably more than three-fourths.

☞ The New Orleans Bee says that on the 2d inst. an Irishman named Richard Lisson was placed in the lock-up in that city who had been tarred and feathered and ridden on a rail in the town of Handboro', Miss., by the Vigilance Commitee there, who have already hung a suspected Abolitionist named Macintosh, and have in jail another named David Magner. The committee sent Lisson on from Mississippi City by the steamer Crecole, consigned to the New Orleans police, with the request that he be passed on northward. Lisson, who is a gardener, says he never thought of interfering with the slaves, and he was arrested because he expressed indignation at the arrest of Magner.

TRAMPLING UPON THEIR OWN CONSTITUTIONS.—The National Intelligencer asserts that, in passing ordinances of secession, the States of South Carolina, Alabama and Mississippi will, by so doing,trample on their own Constitutions,—the State Constitutions not only specifically recognizing and requiring public officers to protect and defend the Constitution of the United States, but providing that no amendments shall be made except in a way pointed out, which the Conventions about to assemble do not meet.

ALARMING HORSE DISTEMPER.—Owners of horses in Worcester are suffering considerable anxiety, because of an epidemic which at present rages in the stables, and which has already been the death of several valuable horses. The disease is a species of lung fever, attended by unusual congestion and great debility, and usually manifests itself in a very brief space of time, one night sufficing to reduce a sound, strong animal, to a dangerous state of weakness.

☞ Benjamin H. Gay of Hillsborough has a most productive apple tree. Last year it bore thirty bushels of Baldwins, which were sold for $25 at the door.

FROM WASHINGTON.—The correspondent of the N. Y. Post says:

"Every day the good effects of the abstinence of the Republicans in Congress from discussion are more and more manifest.—Knowing that the Administration alone is responsible for the prevailing treason in the land, and that the secesh rs will refuse with contempt every overture of honorable conciliation, they sit; erfectly still, and are not displeased to see the heterogeneous party of their opponents fighting the battle out among themselves. In the Senate, for example, no men are doing more damage to the secessionists than Douglas and Iverson, the latter the most violent spokesman of the fire-eaters."

WASHINGTON, Dec. 14.—Delegations of Free Masons are here to-day from various States to honor the memory of Washington, it being the anniversary of his death.

The resignation of Gen. Cass has created a profound impression.

It is rumored that Mr. Douglas will declare in the Senate soon that it is the duty of the President to resist secession by force of arms.

There is no doubt that General Cass has resigned. The indications are that Dickinson of New York will be his successor as Secretary of State.

Little confidence is placed in the assurance that South Carolina will not resist the Federal authorities during the present administration. They are regarded as mere promises to quiet apprehensions in official quarters.

General Scott has expressed the opinion that additional forces should be sent to South Carolina for the protection of public property. The President, however, is opposed to such an increase for prudential reasons, being confident that it would only augment the present excitement.

There was an understanding in the Committee of Thirty-three, to-day, that the proceedings, excepting results, should not be revealed for publication. It is known, however, that several propositions, looking for political conciliation, were presented and read, but not acted upon. The prospect of accommodation is about the same as yesterday. In order to afford time for consideration, the committee adjourned on Monday.

The publication of the southern manifesto produced a depressing effect upon the conservatives, who say they are satisfied that the southern members are opposed to any compromise.

Mr. Perham's Pacific Railroad bill, embracing three routes, was referred to the House special committee on the subject.

Paymaster Cunningham has been ordered to the sloop-of-war Macedonian.

WASHINGTON, Dec. 15.—No Congressional action on the slavery question can be expected now.

Gen. Cass is applauded for the course he has taken, by all except secessionists.

It snows here to-day.

NEW YORK, Dec. 15.—At a meeting yesterday, a large number of Southern medical students resolved to return home with Dr. Aylete.

The steamer Clifton was burned yesterday near Rhinebeck; loss $15,000.

The Hudson river is frozen over from Albany to Rhinebeck.

☞ The Bee says a system of black mail is carried on in New Orleans by scoundrels who take advantage of the timorousness of certain persons, both residents and strangers, by threatening to denounce them as abolitionists. These rascals have fraudulently represented themselves as members of the Southern Vigilance Committee, and are believed to have raised considerable money.

☞ A girl four years old, daughter of Daniel Crowley of Newburyport, while the mother was absent from home, washing, and the father was down cellar splitting wood, played about the stove and caught her dress on fire. She was badly burned about her hands, arms, neck and head, and inhaled the flames before her father could rescue her, and he also had his hands badly burned. There is no hope that the child will survive.

☞ The Shakers at Canterbury, N. H., have constructed a barn so that the load is drawn to the upper story, and the hay is "pitched down" instead of up.—Formerly they used a grappling hook and horse power, which at four "grabs" would carry a large load to the top of the building; now they have no use for it.

THE BURCH CASE.—The termination of the celebrated Burch divorce case in favor of the lady defendant, was received with demonstrations of enthusiasm. In Chicago, where many of her friends reside, one hundred rockets were fired from the roof of the Tremont House. The trial occupied nineteen days.

☞ A French paper says that recently, as a sportsman was shooting in a forest in its department, two hares rose in opposite directions, and ran toward each other. He waited coolly until they were on the point of crossing, when he fired, and killed them both.

☞ A trotting match recently took place in Paris between the Duke de Terra Nava's American mare, and the Marquis of Talon's English horse, for £400. American blood was too much for the Englishman, and the Duke won by three hundred yards at least.

☞ A dispatch from New York, on Saturday, states that the breaking up of the Cabinet at Washington, and the threatening aspect of political affairs, caused a decline of several per cent. in stocks in New York.

☞ A meeting of prominent merchants and citizens was held in New York on Saturday, to consider the state of the Union.—It was suggested that Millard Fillmore be requested to proceed to South Carolina, as a commissioner from the State of New York, to urge temperate action and delay. Mr. F. accepts, but believes that his mission will be unsuccessful, unless he can bear with him some pledge of the conservative policy of the party about to assume the control of the general government.

Bishop Spalding of Kentucky has issued a circular warning Catholics against mixed marriages.

Some may heed the warning; but many will not; the races will mix, for better or worse; and priests can't prevent it entirely, though they may hold back some cases.

☞ Another English Prince will shortly visit this country. It is Prince Alfred, the second son of Queen Victoria, who has left the ship Euryalus, and will join the St. George, a larger vessel,which will sail early next year for the West Indies and North America.

☞ A private letter from Jerusalem says that an American Jew at New Orleans has bequeathed £10,000 for the building and endowment of almshouses for infirm and destitute Israelites in the holy city.

PLEURO PNEUMONIA.—The Boston Herald says that the Massachusetts Cattle Disease Commissioners have put an end to the surviving animals of Mr. Chenery's herd,in Belmont.

LARGE POTATOES.—Specimens of "State of Maine" potatoes, grown on the farm of Mr. Samuel W. Howe, in China, Me., measure 18 inches by 8 in circumference.

MATTERS IN KANSAS.—*St. Louis, Dec. 14.*—A special dispatch from Mound City of the 9th inst., says that all is quiet. No arrests had been made, and Montgomery and the other leaders are not to be found. General Harney had stationed two companies there, and two companies of dragoons at Fort Scott. The General wished to declare martial law, but Gov. Medary would not consent, preferring that the U. S. Marshal should make the arrests, and the prisoners be tried by martial law.

A preacher, whose text led him to speak of the prophet Jonah, among other things, said: "I am of the opinion Jonah was a cleanly old man, neither smoking nor chewing, from the fact that the fish retained him so long in his stomach. If the fish had swallowed the house where we are worshipping, he would no doubt have vomited himself to death."

A religious corporation has been established in Algeria, under the name of "The Ploughing Fathers." These monks have imposed on themselves the task of ploughing successively and gratuitously all the uncultivated portions of the soil of that colony which they will then make over to the State for the use of emigrants.

NEW YORK, DEC. 14.—Slavers Storm King and Triton were sold at auction today.

CHRISTMAS AND NEW YEAR'S

☞ N. B.—Coins received by mail or express.

Special Notices.

For Coughs, or for any disease of the Breathing Organs, use J. R. Stafford's Olive Tar and Iron & Sulphur Powder, which are advertised in this paper. The Olive Tar infuses Magnetism or Vitality, allaying at once any pain or oppression, and its great balsamic properties heal soreness and inflammation. The Iron and Sulphur Powders, being a soluble preparation, unite with the digestive food, and enter with it into the formation of new Blood, the Iron retaining the vital or life-giving forces in the blood, which in its circulation is diffused through the entire system.—The combined Sulphur converts the waste or worn-out particles of the blood into gases which are expelled from the body through its pores by the increased energy given to the Circulation. If is these waste or worn-out particles of blood that form Phlegm and Tubercles, and it is their acrid humor which irritates and destroys the membranes of the Throat, Bronchial Tubes, and Air Cells of the Lungs. Send for a pamphlet.

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then, who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov25 dawdm

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of Sir JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only safe and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure, when all other means have failed. *They never fail in moderate excesses and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, send for a pamphlet to the Agent. One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail. nov28 dawdm

Sold by W. R. PRESTON and all druggists.

WISTAR'S BALSAM WILD CHERRY

Coughs, Colds, Bronchitis, Asthma, Croup, Whooping Cough, Quinsy, and the numerous as well as dangerous diseases of the *Throat, Chest* and *Lungs*, prevail, in our changeable climate, at all seasons of the year; few are fortunate enough to escape their baneful influence. How important, then, to have at hand a certain antidote to all these complaints. Experience proves that this exists in *Wistar's Balsam* to an extent not found in any other remedy; however severe the suffering, the application of this soothing, healing and wonderful Balsam at once vanquishes the disease, and restores the sufferer to wonted health.

From a Respectable Druggist.

PORTSMOUTH, Aug. 3, 1860.

MESSRS. S. W. FOWLE & CO., Boston,—

Gents:—Please send me a fresh supply of WISTAR'S BALSAM OF WILD CHERRY. We are selling large quantities of the long celebrated remedy for *Coughs and Colds*, and it bids fair to outlive most of the so-called specifics which are now in have at hand. We can confidently recommend it as a remedy for what it is intended. Very truly yours,
NATHAN P. THACHER.

Mr. D. H. TEAGUE, of Turner Village, Writes the proprietors of this great remedy, as follows:

TURNER VILLAGE, ME., July 31, 1860.

Messrs. SETH W. FOWLE & CO., Boston:—

Gents:—I do not hesitate to recommend DR. WISTAR'S BALSAM OF WILD CHERRY for *coughs* and *pulmonary affections*, having used it in my family for many years with great satisfaction. I feel it has done more good than all the other remedies I have tried, and their name is legion. If all the patent medicines in the market possessed but a portion of the merit of this excellent Balsam, there would be no occasion to condemn them as humbugs.

The medicine is also used by many of my friends and acquaintances in this town, and they have found it invaluable; and I hope that others who suffer may give it a fair trial. Very respectfully,
D. H. TEAGUE.

Prepared by SETH W. FOWLE & CO., Boston;

SOLD BY
PRESTON, KIMBALL, HUTCHINGS, J. H. THACHER, N. P. THACHER, Portsmouth; JAMES P. PACKER, Greenland; S. HANSON, JR., New Market; TORTON & TRIPP and WM. S. SAFFORD, Exeter; J. W. GREEN, Hampton Falls; and by dealers everywhere. s25 4w

THE CITY MISSION.—The subscriber would gratefully acknowledge the receipt of five dollars for the benefit of the poor of the this city, from a citizen, through the Post Office.

He would also take this occasion to remark, that, while the calls of the poor were never more numerous or pressing, the means placed at his disposal for relieving them are far less than they were a year ago at this time. N. MEDBERY,

Dec. 15, 1860. City Missionary.

☞ Rev. Wm. R. Alger, of Boston, an able and popular lecturer, is to be the orator at the Mercantile Lyceum on Tuesday evening. His theme is one of the most attractive—and in his hands it must afford an excellent lecture.

BRUSSELS LACE.—It seems as if all artificial luxuries, "so called" must be purchased at the expense of the misery of somebody else. Mr. George Wilkes, the learned editor of Wilkes' Spirit, writes from Brussels as follows:—

Brussels devotes herself to a large number of manufactures, but that in which she is most famous, is in the manufacture of lace. In this she has no rival, and so proud is she of her proficiency, that she invites strangers to her workshops to view the miracle of its production. The work is all done by female fingers, incessantly flying among little spools, on which is wound floss as tenuous as the spider's web. And there they sit, the movers of those fingers, twining and flinging the spools through each other from morning till night, shedding the light of their bright eyes out upon the intricacy of the pattern, until the day comes when they retire in a state of pauperism upon their families, or go to the institution for the blind.

There is another branch of the manufacture, however, which is still more fatal to the eye than working on the patterns, and that branch is the preparation of the thread. To train the eye to a skill and sharpness requisite to the fineness of the thread, the workwomen are separately placed in rooms which are pitch dark, save in the admission of a single streak of light that is let in from a hole above. Under this small focus the flax is laid, and by minute attention and the concentration of all her faculties, the poor laborer performs her work.

In no Christian country is the penalty of crime so severe as this; but these poor girls go through it day by day, never murmuring, so they get their few shillings at the end of the week, and never dreaming of any other destiny than to yield up their liberty and eyesight to adorn the shoulders of harlots and coquettes, and to enable coxcombs in philosophy to spirt forth vain ecstacies on the elevating influence of the fine arts.

BREATHING AND HEALTH.—The man or animal residing on a mountain, always has a broad chest and large breathing apparatus. The City of Mexico, 9,000 feet above the level of the sea, has never contained one consumptive man not emigrating there, while the level lands of Mexico, nearer the sea, find pulmonary diseases their particular scourge. The hardy mountaineer is a common expression, and it is usually attributed to his active habits; but we have known many broadchested men residing on mountains, who indulge in excessive indolence, and the same may be observed of animals. Horses, oxen, sheep, even the wild animals in mountainous districts are found to be broad-chested; but if the God of nature had not provided the means by which the capacity of our lungs could be increased as we ascended the mountain side, every being would be forced to remain at a definedlevel.

Pu'monics who go to the island of Cuba and Santa Cruz, are materially benefited; while those who remain in the sea-coast towns, die for want of that condition which prevent the surfaces of their tubercular lungs from coming in contact with each other. As they ascend the mountain, they are called on to make respirations of greater quantities of dilated atmosphere, each respiration is required to be of the same weight, and therefore of greater bulk; this prevents the slight breathing so readily observable in the growth of pulmonic diseases at the level of the sea, and therefore the tuberculous parts never come in contact with each other, and the patient has a hope of recovery from his malady.—*Prof. Mapes.*

A PEDAGOGUE PUN-ISHED.—"You will please observe," said old school-teacher Lamwell, as he led us through his school, the other day, "the boys are required to observe the utmost attention to quietness as well as discipline." We had at this moment arrived in front of several boys standing around a water-pail, and one had just charged his mouth with the contents of the cup, while the old gentleman was stooping over to recover his pen from the floor, when another, passing along behind, snapped his fingers quick under the drinker's ear, which caused him on a sudden to eject the contents of his mouth on the pedagogue's bald pate. Standing upright, with his face and hair dripping, he shouted aloud:—"Who did that?" The party unanimously cried out, "Jim Gunn, sir." "James Gunn, what did you do that for?" Jim, appalled at the mischief he had done, muttered that it was not his fault—Tom Owen snapped him.—This changed the direction of old Lamwell's wrath, and shaking his cane portentously over Owen's head, he asked, "Did you snap Gunn?" The culprit, trembling with fear, muttered, "Yes, sir, I snapped Gunn; but I didn't know that he was loaded."

☞ In a 36 mile race, at Milpitas, Cal., for $1000 a side, between the Californian horses belonging to Alviso and Selaya, the latter won the race. At least $5000 changed hands. The race was closely contested. Time 1 hour and 48 minutes.

The meaning of the word Potomac is "river of swans," and there are many birds of the swan kind along the shores of the river.

MEMPHIS, TENN., Dec. 14.—Steamers Goody Friend and South Bend collided about forty miles above this place. The latter was sunk and several lives lost.

The Overton Block on the corner of Main and Monroe streets was burned this morning. Loss $175,000.

NEW YORK, Dec. 14.—The Times Washington correspondent says that official information has been received that Holland is preparing for the emancipation of the slaves in all her colonies by compensating the masters.

"East" life cannot be lived with impunity. In this field of waste and disorder, as in every other, God's violated law, however it may be forgotten, never fails to assert and vindicate itself. The vicious die early."

Call for Herrick Allen's Gold Medal Saleratus. Agitate until you get it. If your grocer has not got it, ask him to go to the wholesale Agent, get a box, and try it. It is the best in the world. Do not be put off with any other. Use it instead of Soda;—it is a great deal better. Try it.

There is another article in the market put up in similar colored papers. Do not be deceived by it. See that the name of HERRICK ALLEN is on the wrapper, and no mistake can occur. Manufactured by Allen & Taylor, corner of Canal and Centre streets, New York, and sold at wholesale by Israel Nash & Co., Boston. M&F is

Why will you suffer? Dyspepsia is a brief but comprehensive term for the numerous diseases which affect the stomach, liver, and, in fact, the whole system. Until Dr. Greene discovered the *Oxygenated Bitters*, medical science had exhausted itself in vain attempts to cure this disease.

Atwood's Quinine Tonic Bitters,—the best Aromatic Tonic ever offered to the public.—All the Druggists have it. See advertisement.

THE GREAT INVENTION!

CLOTHING WITHOUT SEAM

MOSES & DOWNIE

Would respectfully invite the attention of the public to this new article of Clothing, they having been appointed sole Agents for the sale of the same. These fabrics are all woven in the wool, without any seam, on the cross fibre system, which combines the greatest elasticity with the greatest strength, will neither shrink nor stretch out of shape, nor crack; are nearly or entirely

WATER-PROOF,

And in point of warmth, durability, cheapness and all other desirable qualities are unquestionably superior to any other style, as all who test them must admit.

Please call and examine for yourself, at the

Sign of the Big Number,

MARKET ST., **37** PORTSMOUTH, N. H.

ANOTHER NEW STOVE

THE MODEL COOK

FOR WOOD OR COAL,

MADE BY

THE BARSTOW STOVE COMPANY

Of Providence, R. I.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking giving an oven nearly 3 ft. long; or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven, with a tin roaster in front of the fire, are obvious, viz:

1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is the most durable, tasteful and useful.

2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking oven.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires; or it can be used for a hot closet when not required for baking or roasting.

5th. By this extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time the stove occupies no more room on the floor.

John Trundy, Esq., one of our most practical and scientific mechanics, who has had large experience in the construction of stove patterns in years past, and has for many years been using one of the Stewart Stoves, has purchased one of the MODEL COOKS, and after a fair trial pronounces it far superior to the Stewart or any stove he has ever seen, for economy, convenience and dispatch. We might also refer to several other parties who are using the stove, and who award it the very highest praise.

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be *the* stove for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is wanted.

We have nought to say against any other stove, believing that a man can sell his own goods without depreciating his neighbor's; but this we do say, that we honestly believe this is the *best stove that can be found in the world;* and what is more, we think others will agree with us after a trial of it. We invite any one to examine the stove, whether they wish to purchase or not.

For sale, with a great variety of

Furnaces, Ranges, Cooking, Office and Parlor Stoves; Coal Hods, Sifters, Funnel, Stove-Repairing Pieces, Parlor Grates, Etc.

KITCHEN FURNISHING GOODS,

FARMING UTENSILS,

SHEET IRON, COPPER AND TIN MANUFACTORY.

Stoves Repaired, and Job Work, generally, promptly attended to.

Cook Stoves.

Autocrat of the Kitchen.—35,000 in use

THE ORIGINAL P. P. STEWART,

FUEL-SAVING AND COMFORT-PRODUCING LARGE OVEN, SUMMER AND WINTER

AIR-TIGHT COOKING STOVE,

For Wood & Anthracite or Bituminous Coal

Improved in 1859 with New and Extra Large Flues, and by the addition of the Celebrated Patent Double Sheet Bottom Flue.

Attention is invited to the following Points of Superiority:

DURABILITY.—Lasting, with proper care, at least 20 years. Stoves are now in use that were set up in 1838.

CAPACITY.—Baking, broiling, boiling, roasting and all other culinary operations performed *at the same time.* A barrel of flour baked into bread with a single fire.

ECONOMY.—Saving the cost of the stove in 2 or 3 years in the item of fuel.

VENTILATION OF OVEN.—In the Stewart Stove alone the front doors open directly into the oven, protected by letters patent, securing a direct draft through the *top of the oven,* by means of perforated holes in the doors and back flues. It will be borne in mind, that, as the heated air always rises, this method of ventilation is the only one of any value whatever.

ENTIRE COMFORT OF HEAT.—The heat generated by the stove, may be held therein and used, or thrown into the room, at pleasure.

THE DOUBLE SHEET BOTTOM FLUE.—By which is compressing and inverting action of heat is obtained, and the oven more evenly and efficiently heated than by any other known invention.

BROILING.—Performed *on the top,* and without the possibility of smoke entering the room.

HOT WATER RESERVOIR AND WARMING CLOSET.—Both useful and convenient, supplied by the waste heat and without extra fuel.

HOT WATER BACK.—An arrangement for supplying hot water for the bath room equal to any range.

Beware of the numerous worthless imitations now in market. See that the name of P. P. Stewart is on each stove. No other is genuine.

nov9

PROF. WOOD'S
RESTORATIVE CORDIAL
—AND—
BLOOD RENOVATOR,

Is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the *vital* powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. *It is the only preparation ever offered to the world in a popular form so as to be within the reach of all.* No chemically and skillfully compounded *as to be the most powerful tonic, and yet so perfectly adapted as to act in perfect accordance with the laws of nature, and hence unlike the stimulant*, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, but, both by the thoroughly skilled in medical science, and also by all who have suffered from debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous to which poor humanity is constantly liable. Such, for example, as the following: Consumption, Bronchitis, Indigestion, Dyspepsia, Loss of Appetite, Faintness, Nervous Irritability, Neuralgia, Palpitation of the Heart, Melancholy, Hypochondria, Night Sweats, Languor, Giddiness, and all that class of cases, so fearfully fatal, if unattended to in time, and *Female Weaknesses and Irregularities.* Also Liver Derangements or Torpidity, and Liver Complaints, Diseases of the Kidney, Scalding or Incontinence of the Urine, or any other derangement of the Urinary Organs, Pain in the Back, Side, and between the Shoulders, predisposition to Slight Colds, Hacking and Obstinate Coughs, Emaciation, Difficulty of Breathing, and indeed we might enumerate many more still, but we have space only to say, it will not only cure all the above, following Chills and Fever, but prevent all attacks from Miasmatic Influences, and cure the diseases at once, if already attacked, and this as it acts upon the biliary system, arousing the Liver to action, promoting, in fact, all the excretions and secretions of the system, and in a healthy manner every deleterious consequences following upon change of climate and water; hence all travellers should take a bottle with them, and all should take a table-spoonful at least before eating. As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits, student, minister, and literary man. And all ladies not untomed to much out-door exercise should always use it. If they will, they will find an agreeable, pleasant, and efficient remedy against those ills which rob them of their beauty; for beauty cannot exist without health, and health cannot exist while the above irregularities continue. Then, again, the Cordial is a perfect Mother's Relief. Taken a month or two before the final trial, she will pass the dreadful period with perfect ease and safety. *There is no mistake about it—this Cordial is all we claim it—Mothers, try it!* And to you, we speak, plead, and entreat the illness or decline not only of your daughters, before it is too late, but also your sons and husbands, for while the former fade and languish, often go down to a premature grave rather than let their condition be known in time, the latter are often so absorbed in the engrossing cares of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. Be, then, persuasive in all ways vigilant, and to you we confidently appeal, for we are sure your never-failing affection will wisely point you to Prof. Wood's Restorative Cordial and Blood Renovator as the remedy which should always be on hand in time of need.

O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, South Boston, Mass., and sold by all good Druggists. Price $1 per bottle.

CONCENTRATED LEAVEN,
FOR MAKING
Bread, Tea Cakes
All kinds of Pastry, &c., &c.,
MANUFACTURED BY
EDW. CHAMBERLIN & CO.,
Proprietors of Shawmut Chemical Works,
NO. 33 INDIA STREET, BOSTON.

CONCENTRATED LEAVEN is the result of careful chemical researches. All its ingredients are prepared in the highest state of purity, and compounded with a view to produce bread of a far better quality, and in much less time, than by any other process, and the manufacturer submits it with entire confidence to the judgment of discriminating house-keepers, bakers, &c., &c.

Bread of all kinds, made by using CONCENTRATED LEAVEN, is lighter, more digestible and nutritious; has an agreeable, natural taste; is less liable to sour; will retain its moisture longer than by any other process, and the whole preparation for the oven need not exceed ten minutes.

It is valuable because it is not perishable, and may be rendered available in place and at time when yeast is not within reach, as at sea. In all climates, and under all circumstances it may be adopted, thus obviating all difficulty of procuring yeast or other ferment, which is frequently of an inferior quality, rendering the bread more or less unwholesome.

It is also valuable as regards economy, as it has been ascertained that a saving is effected in the flour of not less than 16 per cent. By our purgeon process, much of the saccharine of the flour is lost by being converted into carbonic acid gas, or spirit, and the vacuous cells rendered so as to prevent of generating gas to raise the dough. By using CONCENTRATED LEAVEN, this waste is avoided, and the gas retained in a manner entirely efficacious. Fermentation, as has been stated, destroys a part of the flour or meal, and, in consequence, a barrel of flour weighing 196 pounds, which by the common process would produce 200 lbs., this gives by this process 220 lbs., thus effecting the very important saving of 16 per cent. in the quantity of flour. Full and comfortable directions on each package, any person capable of ordinary attention may conduct the process, and the result will invariably be highly satisfactory.

CERTIFICATE FROM DR. HAYES,
Assayer to the State of Massachusetts.

"I have analyzed the Concentrated Leaven manufactured by Messrs. Edw. Chamberlin & Co., in regard to its purity and efficiency of action in producing the effect of yeast in distending dough and thereby rendering it fit for making bread. This article is entirely free from impurity from perfectly pure materials, which leave nothing but a vegetable salt, which is essentially a de sirable ingredient in the bread. It raises the dough without consuming the sugar or any other principle in the flour, perfectly; and the same weight of flour will produce more sweet, palatable bread than can be obtained through the aid of yeast; while for cakes and pastry it is invaluable, as it leaves all other ferments far in the rear.

The experiments made by me confirm the statements of the manufacturers, and prove this compound worthy of public approval and extended use. Respectfully,

A. A. HAYES, M. D., *State Assayer.*
16 Boylston st., Boston, Sept. 25, 1860."

HOW TO USE IT.

We append a few recipes, but it may be used with great advantage in all other kinds of cake, also in Pastry and Confectionery.

BREAKFAST AND TEA ROLLS.—Two or three teaspoonsfuls of Leaven (according to the quality of the flour,) to one quart of flour; mix thoroughly by passing two or three times through a sieve; rub in a piece of butter of half the size of an egg, and make the paste the paste with cold milk or water; milk is preferable; knead well enough to permit rolling out. Much kneading should be avoided. Cut into desired form, and place immediately into a hot oven, and bake quickly.

LOAF BREAD.—The same proportions of Leaven and flour sifted together as above; omit the butter, and make the paste stiff enough to knead into a loaf, and bake immediately in a slow oven.

GRAHAM BREAD.—Three teaspoonfuls of Leaven to one quart of wheat meal, sifted together; add two eggs and about a gill of molasses; make the paste thin with milk, and bake in a slow oven.

BROWN BREAD.—Three teaspoonsful of Leaven in one pint of flour, and one pint of corn meal, all well sifted together; add two eggs and about a gill of molasses; make the paste thin with milk, and bake slowly.

BUCKWHEAT CAKES.—Flour and milk sufficient to make one quart of batter; add one egg; then with two teaspoonsful of Leaven; beat to a froth, and cook quick.

DUMPLINGS.—Sift together one quart of flour and two teaspoonsfuls of Leaven; rub in a piece of butter half as large as an egg; mix with cold milk or water, and boil ten minutes.

CHAMBER STREET CAKE.—Sift together two large cups of flour and three teaspoonsfuls of Leaven; put in half a cup of butter and a cup and a half of sugar; mix with cold water or milk to a soft batter, and spice to suit the taste, and bake immediately.

CINCINNATI SPONGE CAKE.—Two cups of white sugar, beaten with the yolks of six eggs; the whites of eggs beaten to a froth; then beat all together; add three cups of sifted flour, one cup of water, and three teaspoonsfuls of leaven; flavor with two teaspoonsful of essence of lemon, and bake in a quick oven.

JUMBLES.—Sift together one quart of flour and three tea spoonsfuls of Leaven; rub in one teaspoonful. Butter; add a cupful of melted butter, sugar, and spice to suit the taste; mix stiff enough to roll out, and bake quick.

ELECTION CAKE.—One quart of flour and three teaspoonsfuls of Leaven; add one pint of sugar; add a cup of butter, one pound of currants, two cups of white sugar, and one teaspoonsful of cinnamon; mix with cold milk to a stiff batter, and bake in a slow oven.

CORN CAKE.—One pint each of flour and Indian meal, and three teaspoonsfuls of Leaven, well sifted together; add one pint of molasses and two eggs; mix thin with milk and bake in a slow oven.

CUP CAKE.—Five cups of flour and three teaspoonsfuls of Leaven, sifted together; add one cup of butter, two of sugar, and three eggs, all well beat together; mix with milk; then add a cup of currants, and spice to suit the taste. Bake about half an hour.

LADIES' CAKE.—Three quarters of a pound of flour and four teaspoonsfuls of Leaven sifted together; one pound of sugar and six ounces of butter beaten to a cream; the white of eight eggs well beaten, and the juice of one lemon; mix with milk.

WEBSTER CAKE.—Five cups of flour, three teaspoonsfuls of Leaven, three cups of sugar, one of butter, one of milk, and two eggs; fruit and spice to the taste. Bake about half an hour.

For Sale by Grocers Generally.

ATWOOD'S
QUININE TONIC BITTERS,
The Best Aromatic Tonic ever offered to the Public.

RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic s*, and cannot fail to meet the wants of the debilitated.

It is a mild *tonic* to the stomach, recommending the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous system, after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhœa, dysentery and cholaic morbus, the public may rest assured there is nor can be any better general remedy.

One of the very best Physicians in Boston has said "*but it is the best proprietary of Bitters that has ever been offered to the public.*"

Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

For further particulars reference is made to the printed circulars.

Portsmouth, N. H., Nov. 27, 1860.

BLOOD FOOD

The attention of Invalids, Physicians, Clergymen, Merchants, and the public generally, is respectfully solicited to the merits of this chemical preparation, containing **Iron, Sulphur** and **Phosphorus**, and which is identical in its composition with the *Hematic Globules*, or *red blood.*—In all diseases accompanied with

DEBILITY,

pale countenance and nervous derangement, analysis of the blood shows a deficiency of the red globules. Ruddy complexion and a rosy tint of the skin, is always indicative of health; while a pale, wax-like skin and countenance,—which evinces a considerable deficiency of the hematic globules,—accompanies a diseased organism. Preparations of **Iron** have been given for the purpose of supplying the red globules, but we contend that **Iron** alone, **Sulpur** alone, or **Phosphorus** alone, will not meet the deficiency in every case, but that a judicious combination of all these elements is necessary to restore the blood to its normal standard. This point, never before attained, has been reached in the **Blood Food**, and its discovery ranks as one of the most scientific and important of the age. Its effects in

CONSUMPTION

are to soften the cough, brace the nerves, strengthen the system, allay the prostrating night sweats, increase the physical and mental energy, enrich the blood by restoring the lacking red globules, increase the appetite, restore the color, and clothe the skeleton frame with flesh. The **Blood Food** will be found a specific in all *CHRONIC DISEASES of the THROAT or LUNGS*, such as *Asthma, Bronchitis, Coughs*, &c. Public speakers and singers will find it of great utility in clearing and strengthening the vocal organs. In *Dyspepsia, Liver Complaint, Dropsy, Eruptions, Pimples, Scrofula, Gravel, St. Vitus' Dance, Fever and Ague*, &c., its efficacy is marked and instantaneous. In cases of disease, the effects of the beneficial effects of this remedy so conspicuous as to those harrassing

FEMALE COMPLAINTS

to which gentler sex are liable, and which tend towards Consumption, such as irregularities or difficult *Menstruation, Green Sickness, Whites*, &c., especially when these complaints are accompanied with paleness, a dingy hue or yellow of the skin, depression of spirits, debility, palpitation, want of appetite, and nervous prostration. We have every confidence in recommending the **Blood Food** to all who may be conscious of a loss of vitality or energy, and to those whose mental or bodily powers are prostrated through *over-use*, either of the mind or body, and we deem it our duty to say that in all cases of *Weakness and Pain in the Back, Gravel, Diseases of the Kidneys or Bladder*, this preparation has a claim upon the attention of sufferers which cannot be overestimated. A faithful trial will be found the most convincing proof in regard to its efficacy that could be asked for. With the above remarks, and with the numerous testimonials we have in its favor, we offer the "**Blood Food**" to the attention of the afflicted, knowing that it will be acknowledged by the eminent over all other preparations, patant or official, in point of usefulness. Circulars giving the Theory upon which this remedy is founded, also certificates of remarkable cures will be sent free when desired. We forward the **Blood Food** to any part of the United States or Canadas upon receipt of price—$1 per bottle, $6 for six bottles. Be careful in all cases to take none but that having our fac-simile signature upon the wrapper. None other is genuine.

Prepared only by **CHURCH & DUPONT**,
No. 409 Broadway, New York,
And sold by them, and all respectable Druggists.

Sold in Portsmouth by PRESTON, THACHER, HUTCHINGS and KIMBALL. e6 1y

BININGER'S
GENUINE
Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.

With a *view* to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling at reasonable rates, a Brandy of our own importation, from one of the most responsible houses in France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in cases containing two dozen each; also in pipes and quarts, and is sold by all prominent druggists, grocers and tower agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

Dyspepsia Remedy

DR. DARIUS HAM'S
AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupify.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.
One dose will relieve Low Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.
One dose will remove the distressing and disagreeable effects of Wind or Flatuience, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.
One dose will remove the most distressing pains of Colic, Griping in the Stomach or bowels.
A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.
Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

INCREDIBLY DISSIPATION.

Personswho, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the cheek, and well eyes.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts at 1.

TO CAROLINA.

FROM ONE OF HER SISTERS.

Sister Carrie, my dear,
I am sorry to hear
That you are intending to leave us;
They say it's a fact,
That your trunk is all packed,
And you hope by such conduct to grieve us.

You've always been naughty,
And wilful and haughty,
Like a spoiled minx as you are;
So vain of your beauty,
Forgetful of duty
You owe to indulgent Papa.

I am sure you can't say
That you've not had your way,
In each of our family broils;
While I vow and declare
You've had your full share
In each of the national spoils.

Just wait for a season,
And listen to reason,
Nor believe what your false lovers say;
For their prayers and their sighs
And their flattering lies
Will lead you to ruin some day.

Though they promise so fair
Gay deceivers they are,
From the one whom last evening you kiss'd,
To Hammond and Rhett,
And chivalrous Keitt,
Orr, Memminger, Pickens and Gist.

Some day, all forlorn,
Bedraggled and torn,
Like the prodigal son in his need,
You will knock at the door,
And come home once more,
Nor venture again to secede.

Now be warned of your fate,
Before it's too late;
Like a dear little innocent lamb,
Come out of your pet,
And do not forget
All the kindness of good Uncle Sam.

The Palmetto tree
No shelter will be
When the dark clouds of anarchy lower;
You will long for the rest
Of your own eagle's nest,
And the strong arm of federal power.

Then, dear little Sis,
Now give me a kiss,
To make up these family jars.
Secession shall never
Our Union dissever!
Hurrah for the Stripes and the Stars!

The Chicago Tribune says Prof. O. B. Mitchell, the astronomer, narrowly escaped lynching while riding in the cars through Jackson, Miss., having exasperated a drunken Southerner by saying that he thought Lincoln would do no injustice to the South. When the train halted at Jackson, the Southerner jumped to the platform and shouted to the crowd about the station: "There's a d——d Abolitionist on the train! Lynch him! Lynch him!" Instantly, at least fifty men jumped on and commenced a search for the offensive specimen of Northern opinion; but before the professor could be pointed out, the conductor seeing the danger, pulled his bell-cord and the cars moved off, and with them the professor with a whole skin.

Clothing. Clothing. Clothing!
PRICES TO SUIT THE TIMES.

GEORGE W. PLUMER'S
NEW BAKING ESTABLISHMENT.
SHOPS: No. 22 CONGRESS STREET, and No. 31 STATE STREET.
Orders from neighboring towns and the country promptly attended to.
Having taken the Shop and Bake House, No. 31 STATE STREET, formerly occupied by Mr S. N. Plumer, the subscriber offers to his patrons
ON TUESDAY, MARCH 27th,
at that place, and also at the new Shop, corner of Congress and Pleet streets, (next door to Jackson & Co.'s Express Office,) a good assortment of all kinds of **Bread, Cake and Pastry,** including **Ship Bread, Crackers, &c., &c.**
The Bake House on State street will be open every Sunday morning, for supplying customers with Bread, Beans, &c., as usual.
Baking for Families carefully attended to.
In addition to our Shops, we shall with our Cart, on Tuesday morning, commence supplying customers at their doors. Our agent, Mr. GEO. T. WILDES, will attend to all orders delivered him.
Grateful for past favors, we would respectfully solicit a share of the public patronage.
GEORGE W. PLUMER.

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, DECEMBER 18, 1860.

For the Chronicle.

THE MESSAGE—SECESSION.—No.3.

The history of the Union, the vitality it acquired when the *people* of the United States ordained and established the Constitution, "in order to form a more perfect union, establish justice, insure domestic tranquility, provide for the common defence, promote the general welfare, and secure the *Blessings of Liberty* for themselves and their posterity," are well understood. Mark well that neither in the specified objects, nor in the provisions of that sacred instrument there is an allusion to the blessings of the institution of slavery. It is clearly a false construction put upon it, that it "guaranties" slavery, and "property" in human beings. Nor is the Union, as the Message states, the source of the great blessings which it specifies we enjoy. The Union, labor, industrial pursuits, and free institutions are means which lead to the beneficent results. But Christian statesmen look to the Author of all good, to a Superintending Providence as the source of the rich blessings and national prosperity we enjoy. The Union, if destined to entail upon the free States the evils, poverty and sufferings which everywhere meet the eye in the old slave States, would surely be an unmitigated curse. And if it can be saved now only by the base submission to the terms demanded, it would not be worth saving; for

"Base submission inviting both indignity and plunder,
Like a worm kills the oak that could have braved the thunder."

The Governor of Georgia, and the President, as the organ of the Southern sentiments, impute numerous offences against the Northern people. It is alleged that the agitation of the slavery question has inspired the slaves with vague notions of freedom. "Hence a sense of security no longer exists around the family altar." The light of knowledge gradually falls upon the benighted slaves—and penal statutes against giving them instruction cannot prevent it. It may be that the time is approaching which was predicted by Mr. Jefferson in his "Notes on Virginia," that unless slavery shall be abolished by pacific measures, blood will flow. If four millions of slaves, in a state of heathenism, had sufficient intelligence to know their natural rights, they would combine in their defence. At no time have Northern people attempted to bring on a servile insurrection, nor are they guilty of the other offences, unless the freedom of speech and of the press within our borders, and the right in and out of Congress to discuss any question pertaining to the general welfare, be an offence. It may be conceded that it is difficult in some States, to execute all the provisions of the fugitive slave bill, because some of them violate the natural and inalienable rights of our citizens, whose protection from unconstitutional requirements and the severest penalties demanded State legislation; and come what may, these laws will not be rescinded. To comply with the requirements enumerated in the Message, our twenty millions of freemen must bend their necks lowly in the dust. A surrender of these natural rights would render the remainder of little value. The heritage bequeathed to us is of priceless value. And should a fearful crisis come, and the tocsin of war summon the brave to arms, on the tented field a million of Northern bayonets might gliston in the sun.

"For freedom's rich blessings we'll fight like our sires,
Or light with our Cabinet our funeral pyres."

Despotic Power is ever aggressive, and an Oligarchy, a many-headed monster, is worse and far more oppressive than a Despotism. The aggressions have been on the side of the Oligarchy, alone responsible for the present deplorable state of things. For the alleged insecurity of life "around the family altar" they must look to the *cause* of it, not to our peaceable citizens, who are not responsible for the existence of slavery. Remove that cause, and then they may sit under their own vine and fig tree, having none to molest, or make them afraid.

PAX.

It is reported that Kansas will be re-admitted to the Union next week, all opposition having been abandoned.—*Newburyport Herald.*

Our neighbor is jocose. He must be thinking of Texas, which was *re*-annexed to the Union, to which it had never before belonged;—and now, if Senator Wigfall says truly, it is to be *re-dis*-annexed,—tho' never cut off before.

By the way, Texas was swindled into the Union at a cost of $40,000,000;—and the same grumblers now propose to swindle her out again,—"without regard to cost or expense."

☞ At the second election of Monroe, every electoral vote in New England was given for him except that of Gov. Plumer, of New Hampshire, who cast his vote for John Quincy Adams, giving as a reason that he did not wish that any one should stand on a level with Washington.

NATIONAL AFFAIRS.

We publish the President's Proclamation for a Fast Day, which comes in very opportunely, at the close of the Christmas holidays, Jan. 4.

The Boston Courier of Monday, says:

It looks now as if the National Committee would devise peace measures. It is reported from Washington that Mr. Corwin has presented a series of resolutions—which, it is said, will receive the sanction of a majority of the Republicans on the Committee—one of which resolutions pledges protection to "persons and property in the territories." This resolution, with the others foreshadowed in the despatch, covers much of the points in dispute.

The resolution looks like a backing down of anti-slavery men, in obedience to the threats and demonstration of the great slave power.

It is reported by telegraph from Augusta, Georgia, that Senator Toombs has published a letter in reference to the 5th article of the Constitution. He says the Constitution should be amended, and the amendments should be such as neither could be evaded nor *resisted* by the *abolition States*, and such as should give full and ample security to Southern rights. He adds that if the Republican party will vote for these amendments, or even a *majority* vote in good faith in favor of them, they can be easily carried through Congress, and then he thinks it would be reasonable and fair to *postpone* final action by the South until the Legislatures of the Northern States could be conveniently called together for definite action or amendment in regard to the Personal Liberty bills. If the Northern States refuse to acquiesce in this, then he urges Georgia to secede, at the latest, by the 4th of March.

There are reports to the effect that Gen. Scott has given the President an elaborate opinion in reference to the present condition of the military defences of the country, and what should be done in view of possible contingencies. He deprecates secession, he begs his own State of Virginia to pause; but if secession occurs, it will result not in the formation of two, but four distinct nationalities.

It was rumored in Boston, on Sunday, that the President contemplated abdicating the chair of State; but there is nothing in it. It is said Mr. Black will succeed Gen. Cass, and that the Attorney Generalship has been tendered to Reverdy Johnson of Baltimore.

☞ A large house in Brookfield, N. H., which was formerly occupied as a hotel, together with a barn, shed, and other outbuildings, owned by John T. Churchill, with twenty-two head of cattle, a valuable horse, a hog, farming utensils, hay and grain, and all his produce, except about twenty bushels of corn, were totally consumed by fire on Sunday evening, the 2d day of December. The horse took a premium at the State Fair at Manchester. The fire was discovered in the barn about 7 o'clock, and is supposed to have been the work of an incendiary, as no fire had been carried into the barn that evening. Loss about $5000, on which there is no insurance.

☞ The Force Bill, of Gen. Jackson's time, is *not* in force now. There *was* one clause which gave the President power to collect the revenue of any port, in a fortress, or a ship-of-war, or revenue vessel,—and another to use the army in certain cases;—but the bill itself limited those clauses to the close of a certain session of Congress;—and of course the law died long ago. There was some caution not to give the President too much power. It had not been found out then, that a President could order troops so as to make a war, which could then be included in a "lying preamble," as made by somebody else.

COLUMBIA, S. C., Dec. 15.—The South Carolina Legislature to-day elected Mr. Pickens Governor, on the sixteenth ballot. The vote stood: Pickens 82; Johnson 64; scattering 12.

The small pox is still raging here There have been several new cases since last Thursday.

☞ The well-known Downing's Hotel at Newport, R. I., a favorite resort in the summer season for sporting men, was totally destroyed by fire on Saturday night. The hotel was quite an extensive building, and the loss is large.

☞ Wendell Phillips spoke in the Music Hall, Boston, on Sunday. A mob followed him home, with hisses and threats, to save the Union. He was protected by the police, and troops were ordered to be ready.

☞ The Waterville Mail says that Rev. Dr. Sheldon, of Bath, has been engaged to preach for the Unitarians in that town, the second Sunday in each month, for the ensuing twelve months.

WASHINGTON, Dec. 15.—It is understood that the sloop-of-war Brooklyn is to be prepared for sea at once, and held ready to proceed to Charleston, to aid in defence of government forts at a moment's warning. The order has created considerable of a stir among naval men.

NEW YORK, Dec. 16.—The Herald Washington correspondent says the President declares he will defend the fortifications at Charleston against any attempt to take them.

There is no beautifier of complexion, or form, or behavior, like the wish to scatter joy and not pain around us.

TO THE PEOPLE OF THE U. S.

A RECOMMENDATION.

Numerous appeals have been made to me by pious and patriotic associations and citizens, in view of the present distracted and dangerous condition of our country, to recommend that a day be set apart for Humiliation, Fasting and Prayer, throughout the Union. In compliance with their request, and my own sense of duty, I designate *Friday, the 4th day of January*, 1861, for this purpose, and recommend that the people assemble on that day, according to their several forms of worship, to keep it as a solemn Fast.

The Union of the States is at the present moment threatened with alarming and immediate danger—panic and distress of a fearful character prevail throughout the land—our laboring population are without employment, and consequently deprived of means of earning their bread—indeed, hope seems to have deserted the minds of men. All classes are in a state of confusion and dismay; and the wisest counsels of our best and purest men are wholly disregarded.

In this, the hour of calamity and peril, to whom shall we resort for relief but to the God of our Fathers? His Omnipotent Arm only can save us from the awful effects of our own crimes and follies—our own ingratitude and guilt toward our Heavenly Father.

Let us, then, with deep contrition and penitent sorrow, unite in humbling ourselves before the Most High, in confessing our individual and national sins, and in acknowledging the justness of our punishment. Let us implore Him to remove from our hearts that false pride of opinion which would impel us to persevere in wrong for the sake of consistency, rather than yield a just submission to the unforeseen exigencies by which we are now surrounded. Let us, with deep reverence, beseech Him to restore the friendship and good will which prevailed in former days among the people of the several States; and, above all, to save us from the horrors of civil war and "blood-guiltiness." Let our fervent prayers ascend to His Throne that he will not desert us in this hour of extreme peril, but remember us as He did our fathers in the darkest days of the Revolution, and preserve our Constitution and Union, the work of their hands, for ages yet to come. An Omnipotent Providence may overrule existing evils for permanent good. He can make the wrath of man to praise Him, and the remainder of wrath He can restrain.—Let me invoke every individual, in whatever sphere of life he may be placed, to feel a personal responsibility to God and his country for keeping this day holy, and for contributing all in his power to remove our actual and impending calamities.

JAMES BUCHANAN.

Washington, Dec. 14, 1860.

STRANGE CONTRASTS.—The British papers contain numerous articles expressive of the good will and admiration of the English people for the government and people of this country. Our old foes are at this time among our strongest friends, and evidently rejoice at every indication of our prosperity. It is curious that while our ancient foe is thus full of professions of esteem, our national confederacy should be threatened from within; and that really the only enemies of the country should be found among its own citizens. On this, the Transcript well says:

A nation which has no enemies but a few of her own wilful and unruly children, ought to possess power enough to preserve itself from destruction; and there must be patriots in all parts of the Republic to whom the spectacle of States railing against the Union, and speaking of the Federal Government in terms which they would hesitate to apply to a foreign government, must be deeply mortifying.

When we remember how many difficult crises our country has passed through, and how it has surmounted dangers which seemed at the time to threaten its existence, we have ground for the hope that the present difficulties in the way of the peaceful working of the government may be overcome.

Leopold, King of the Belgians, was very ill at the last accounts, and as he was seventy years old on the 16th, his illness may possibly have a bad result. His death would be a great loss to the world, and especially to his subjects, for he is an excellent sovereign, whose example is eminently useful, and who has ably and zealously discharged the duties of his high station. He became King of the Belgians in 1831, and is now in the thirtieth year of his reign. In his youth he served in the Russian army, and was honorably distinguished in the great campaign of 1813. He married the Princess Charlotte, only child of the Prince Regent of England,—afterward George IV.,—and was created Duke of Kendal, and received other honors. This was in 1816; and the Princess Charlotte died in 1817. He refused the Greek crown in 1830, which showed him to be a man of sense, and his rule over the Belgians has confirmed the impression his conduct then created.

Col. George, who is a Democratic candidate for Congress in New Hampshire, has written a letter of pro-slavery character. It is a new version of the old legend of St. George and the dragon, the two worthies having fused.—*Trav.*

MDME. BISCACCIANTI was singing in San Francisco, at the Atheneum—a concert saloon—price of admission, *twelve and a half cents.* Oh! what a fall was there, my countrymen!—*Wilkes' Spirit.*

THE SAILORS' SNUG HARBOR FAIR, in Boston, closed Saturday evening. It has been very successful and the receipts are set down at $13,000.

The red, white, and blue—the red cheeks, the white teeth, and blue eyes of a lovely girl—are as good a flag as a young soldier in the battle of life should fight for.

☞ Mr. R. W. Boyd, of Londonderry, raised this last season 167 bushels of oats on two acres.

TO THE LADIES.

SCOVELL & GOODELL'S

SEWING MACHINES.

We beg your indulgence to the attentive perusal of the following:

This machine embraces all the improvements of other machines combined.

It will hem, fell, gather, tuck, bind and embroider.

Descriptive Catalogues of rare coins, &c., sent to any address on the receipt of one dime in cash or stamps.

☞ N. B.—Coins received by mail or express.

Special Notices.

For Coughs, or for any disease of the Breathing Organs, use J. R. Stafford's Olive Tar and Iron & Sulphur Powder, which are advertised in this paper. The Olive Tar infuses Magnetism or Vitality, allaying at once any pain or oppression, and its great balsamic properties heal soreness and inflammation. The Iron and Sulphur Powders, being a soluble preparation, unite with the digestive food, and enter with it into the formation of new Blood, the Iron retaining the vital or life-giving forces in the blood, which in its circulation is diffused through the entire system.—The combined Sulphur converts the waste or worn-out particles of the blood into gases which are expelled from the body through its pores by the increased energy given to the Circulation. If there is these waste or worn-out particles of blood they form Phlegm and Tubercles, and it is their acrid humor which irritates and destroys the membranes of the Throat, Bronchial Tubes, and Air Cells of the Lungs. Send for a pamphlet.

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then, who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov28 dawdm

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of

SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only safe and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail in moderate excesses and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, send for a pamphlet to the Agent. One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail. nov28dawdm

Sold by W. R. PRESTON and all druggists.

WISTAR'S BALSAM WILD CHERRY

Coughs, Colds, Bronchitis, Asthma, Croup, Whooping Cough, Quinsy, and the numerous as well as dangerous diseases of the *Throat, Chest* and *Lungs* prevail, in our changeable climate, at all seasons of the year; few are fortunate enough to escape their baneful influence. How important, then, to have at hand a certain antidote for all these complaints. Experience proves that this celebrated *Wistar's Balsam* to an extent not found in any other remedy; however severe the suffering, the application of this soothing, healing and wonderful Balsam at once vanquishes the disease, and restores the sufferer to wonted health.

From a Respectable Druggist.

MESSRS. S. W. FOWLE & CO., Boston.—

Gents:—Please send me a fresh supply of Wistar's BALSAM OF WILD CHERRY. We are selling large quantities of this long celebrated remedy for *Coughs and Colds*, and it bids fair to outline most of the so-called specifics which are brought vogue. We can confidently recommend it as a remedy for what it is intended. Very truly yours,

NATHAN T. CHACHER.

Mr. D. H. TEAGUE, of Turner Village,

Writes the proprietors of this great remedy, as follows:

TURNER VILLAGE, ME., July 31, 1860.

MESSRS. SETH W. FOWLE & CO., Boston:—

Gents:—I do not hesitate to recommend DR. WISTAR'S BALSAM OF WILD CHERRY for *coughs* and *pulmonary affections*, having used it in my family years with great satisfaction; indeed it has done more good than all the other remedies I have tried, and their name is legion. If all the patent medicines in the market possessed but a portion of the merit of this excellent Balsam, there would be no occasion to condemn them as humbugs.

The medicine is also used by many of my friends and acquaintances in this town, and they have found it invaluable; and I hope that others who suffer may give it a fair trial. Very respectfully,

D. H. TEAGUE.

Prepared by SETH W. FOWLE & CO., Boston.

Local.

POLICE COURT—*Monday, Dec. 17.*—Before Justice Odell.—John P. Aderson, seaman, was accused of setting fire to the dwelling house of Mary H. Holmes, on the 14th of December, 1860—and also of burglariously entering the said house at said date, and stealing a gold watch and chain from a boarder there.

Aderson plead not guilty, and was permitted to make a statement of his case; but the testimony of many witnesses against him was deemed sufficient to hold him for trial at January term of the S. J. Court at Exeter. He was accordingly held to bail in $500 on each charge, and was committed to jail.

It was proved that the house was set on fire by design; a straw bed was burnt in a closet, which was the principal seat of the fire, and the men who put out the fire threw out the other bed and bedding, from which the straw bed had been taken for kindling. Circumstances implicated Aderson, and in the opinion of the Court warranted his detention.

☞ The Temple was filled and crowded on Sunday evening, to hear Rev. Mr. Medbery's opening lecture of the Ministers' Course of Temperance Lectures for the Winter: and 200 or more had to leave the doors for lack of room.

The lecture was a plain statement of some evils of intemperance and an earnest plea for christian action on this subject.

It was attentively heard, and it is to be hoped may be useful. The opening prayer was by Rev. Mr. Eddy, and the benediction by Rev. Mr. Gage. The singing, led by the Temple Choir, and backed up in grand chorus by the congregation, had a pleasing effect.

The next lecture of the course is to be by Rev. Mr. Waterhouse, on the 30th of this month.

☞ The third lecture under the auspices of the Mercantile Library Association, will be given this (Tuesday) evening, at the Temple, by Rev. William R. Alger, of Boston, who is well known as an interesting and able speaker. We presume, as the price of the tickets is but a trifle, that many will avail themselves of the opportunity to listen to this eloquent man.

☞ On Friday last, Mr. Clement Clark, employed in the Portsmouth Steam Mill, fell through scuttle, down two stories—a distance of twenty-eight feet; fracturing both bones in the right fore arm, and dislocating the wrist. Dr. Perry was called, and with a pair of Day's splints speedily adjusted the broken limb. Mr. Clark is now doing well, being out on Sunday.

TORONTO, Dec. 15.—The decision of the Court of Queen's Bench in the extradition case of the fugitive slave Jones, was rendered this morning, in favor of giving up the slave to the U. S. authorities, one of the judges dissenting. An appeal has been made.

The prisoner is strongly guarded. No attempt at rescue has been made but great excitement prevails.

The man is not claimed as a slave, but as a criminal: the claim is treated as a mere pretext, by those who oppose his renditon.

NEW YORK, Dec. 17.—The World's Washington correspondent says a meeting of the New York Congressional delegation took strong ground in favor of the Union, and a resolution that New York will remain true to the Union was unanimously adopted.

The Herald's correspondent says Gen. Scott, accompanied by the Secretary of War, had an exciting interview with the President on Saturday, and it is rumored that the former is about to resign. It is not considered probable.

There is also a rumor that prominent Republicans are about to urge Mr. Lincoln to announce his views on the present crisis, with a view to disabuse the Southern people with regard to his position towards their Constitutional rights.

Reports are again current of an armed resistance to Lincoln's inauguration. 2500 men are said to have been recently enrolled to prevent it.

Judge Douglas will not speak at present, nor does he favor coercion until all peaceable measures are exhausted for the settlement of existing difficulties.

☞ The Lancaster Republican has a chapter of conflagrations. The dry-house at Jefferson Mills was burned, on Tuesday last. Loss about $1,000. The large saw mills at Dalton, belonging to D. H. and J. B. Sumner, were burned last Sabbath morning, with several dry-houses filled with choice lumber. The loss is large and insurance nothing. A dwelling in Pittsburgh, owned by R. W. Danforth, was burned on Monday.—Loss $600, and no insurance.

FIVE DAYS LATER FROM EUROPE.—Dates from Liverpool the 6th, and Londonderry the 7th inst.

The siege of Gaeta continued. The Sardinians have opened fire from four new batteries.

☞ Miss Susan Trask of Salem was accidentally knocked down and seriously injured, while skating on the Salem Mill Pond, Wednesday evening. She has remained insensible since the accident, and it is feared she cannot recover.

☞ Mr. George Samuel Thunder, chief engineer of the steamship Hero, stands charged with having been drunk on the day the Hero started homewards from Portland with his Royal Highness the Prince of Wales. The case is to be brought before a court martial, and it is said the accused will plead guilty, urging that as he was, so were others, and that in fact there was a state of jollity which required one victim as a scapegoat for the flock.

☞ Great preparations are making at Washington to accommodate the crowds who are expected to visit the city on the occasion of Mr. Lincoln's inauguration. A Presbyterian Church has been annexed to a hotel, to afford lodgings for the patriots. Some censorious people may think that this is a literal conversion of the house of God into a den of thieves.

☞ Rev. J. J. Bowden, Rector of St. Stephen's Episcopal Church, Pittsfield, Mass., preached a very able political sermon on Thanksgiving day which is published by request of his hearers, and is printed in the Boston Courier of Monday, where it is headed, "A Voice for the Union, —a plea for Conciliation."

☞ Schooner Prioress, Randall, on the 10th of December, picked up the schooner Minerva, a lime loaded vessel, on fire and adrift, about three miles outside the Shoals, took off sails and part of rigging, anchor, chain, &c., and towed the hull ashore at the Shoals, where it burnt up.

"FATHER KEMP'S OLD FOLKS" have been singing in Fall River, New Bedford, and Providence, during the past fortnight. They opened in New Haven, November 17th, and are to make a tour through the Southern States.

COLUMBIA, S. C., Dec. 15.—The House has adjourned to Charleston. The Senate will probably concur. But few delegates to the Convention have arrived. Mr. Hooker, Commissioner from Mississippi, and Elmore, Commissioner from Alabama, are here.—There is no doubt but that the Convention will promptly pass the secession ordinance.

ATCHISON, K. T., Dec. 15.—149,393 lbs. of flour, meal, corn and beans were received for the week ending the 12th, from Illinois, Indiana and Ohio. The town is crowded with teams from the interior, for supplies.

Why will you suffer? Dyspepsia is a brief but comprehensive term for the numerous diseases which affect the stomach, liver, and, in fact, the whole system. Until Dr. Greene discovered the *Oxygenated Bitters*, medical science had exhausted itself in vain attempts to cure this disease.

Atwood's Quinine Tonic Bitters,—the best Aromatic Tonic ever offered to the public.—All the Druggists have it. See advertisement.

ANOTHER NEW STOVE

THE MODEL COOK

FOR WOOD OR COAL,

MADE BY

THE BARSTOW STOVE COMPANY

Of Providence, R. I.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking giving an oven nearly 3 ft. long! or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven, with a tin roaster *in front* of the fire, are obvious, yis:

1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is the most durable, tasteful and useful.

2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking oven.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires; or it can be used for a hot closet when not required for *baking or roasting.*

5th. By this extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time the stove occupies no more room on the floor.

John Trundy, Esq., one of our most practical and scientific mechanics, who has had large experience in the construction of stove patterns in years past, and has for many years been using one of the Stewart Stoves, has purchased one of the MODEL COOKS, and after a fair trial pronounces it far superior to the Stewart or any stove he has ever seen, for economy, convenience and dispatch. We might also refer to several other parties who are using the stove, and who award it the very highest praise.

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be *the* stove for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is wanted.

We have nought to say against any other stove, believing that a man can sell his own goods without depreciating his neighbors; but this we do say, that we honestly believe this is the *best stove that can be found in the world;* and what is more, we think others will agree with us after a trial of it. We invite any one to examine the stove, whether they wish to purchase or not.

For sale, with a great variety of

Furnaces, Ranges, Cooking, Office and Parlor Stoves! Coal Hods, Sifters, Funnel, Stove-Repairing Pieces, Parlor Grates, Etc.

KITCHEN FURNISHING GOODS,

FARMING UTENSILS.

SHEET IRON, COPPER AND TIN MANUFACTORY.

Stoves Repaired, and Job Work, generally, promptly attended to.

Cook Stoves.

Autocrat of the Kitchen.—35,000 in use

THE ORIGINAL P. P. STEWART,

FUEL-SAVING AND COMFORT-PRODUCING LARGE OVEN, SUMMER AND WINTER

AIR-TIGHT COOKING STOVE,

FOR WOOD & ANTHRACITE OR BITUMINOUS COAL

Improved in 1859 with New and Extra Large Flues, and by the addition of the Celebrated Patent Double Sheet Bottom Flue.

Attention is invited to the following Points of Superiority:

DURABILITY.—Lasting, with proper care, at least 20 years. Stoves are now in use that were set up in 1838.

CAPACITY.—Baking, broiling, boiling, roasting and all other culinary operations performed *at the same time.* A barrel of flour baked into bread with a single fire.

ECONOMY.—Saving the cost of the stove in 2 or 3 years in the item of fuel.

VENTILATION OF OVEN.—In the Stewart Stove alone the front doors open directly into the oven, (protected by letters patent,) securing a direct draft through the *top of the oven,* by means of perforated holes in the doors and back flues. It will be borne in mind, that, as the heated air always rises, this method of ventilation is the only one of any value whatever.

ENTIRE CONTROL OF HEAT.—The heat generated by the stove, may be held therein and used, or thrown into the room, at pleasure.

THE DOUBLE SHEET BOTTOM FLUE.—By which a compressing and inverting action of heat is obtained, and the oven more evenly and efficiently heated than by any other known invention.

HOOTING.—Performed *on the top,* and without the possibility of smoke entering the room.

HOT WATER RESERVOIR AND WARMING CLOSET.—Both useful and convenient, supplied by the waste heat and without extra fuel.

WATER RACK.—An arrangement for supplying hot water for the bath equal to any range.

Beware of the numerous worthless imitations now in market. See that the name of P. P. Stewart is on each stove. No other is genuine.

nov9

PROF. WOOD'S

RESTORATIVE CORDIAL

—AND—

BLOOD REVOVATOR,

Is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, rejuvenates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to the attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted *as to act in perfect accordance with the laws of nature, and cure under this weakness,* and tone up the digestive organs, and clear all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical science, and also by all who have suffered from debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous to which poor humanity is constantly liable. Such, for example, as the following: Consumption, Bronchitis, Indigestion, Dyspepsia, Loss of Appetite, Faintness, Nervous Irritability, Neuralgia, Palpitation of the Heart, Melancholy, Hypochondria, Night Sweats, Languor, Giddiness, and all that class of cases, so fearfully fatal if unattended to in time, called *Female Weaknesses* and Irregularities. And Liver Derangements, etc or Torpidity, and Liver Complaints, Diseases of the Kidney, Scalding or Incontinence of the Urine, or any general derangement of the Primary Organs. Pain in the Back, Side, and between the Shoulders, predisposition to Slight Colds, Hacking and Continued Cough, Emaciation, Difficulty of Breathing, and debility we might enumerate many more still, but we have space only to say, it will not only cure the debility following Chills and Fevers, but also the attacks from Miasmatic Influences, and cure the diseases at once, if already attacked. And as it acts upon the biliary system, regulating the bowels, thereby promoting, in fact, all the excretions and secretions of the system, it will infallibly prevent any deleterious consequences from changes of climate and water; hence all travellers should take a bottle with them, and all should take a table-spoonful at least before eating. As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits, students, writers and literary men. And all ladies not accustomed to much out-door exercise should always use it. If they will, they will find an agreeable, pleasant, and efficient remedy against all the ills which rob them of their beauty, for beauty cannot exist without health, and health cannot exist while the above irregularities exist. Again, the Cordial is a perfect Mother's Relief. Taken a month or two before the final trial, she will pass the dangerous period with perfect ease and safety. *There is no mistake about it—this Cordial is all we claim it.—Mothers, try it.* And to you we appeal to detect the illness and decline not only of your daughters, before it is too late, but also your sons and husbands, for while the former, from false delicacy, often go down to premature graves rather than let their condition be known in time, the latter are often so mixed up with the excitement of business that if it were not for the ties that would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and the wife and sister are so, for we are sure your never-failing affection will unerringly point you to Prof. Wood's Restorative Cordial and Blood Renovator as the remedy which should always be on hand in time of need.

O. J. WOOD, Proprietor, 444 Broadway, New York, and 164 Market street, St. Louis, Mo., and sold by all good Druggists. Price $1 per bottle.

CONCENTRATED LEAVEN,

FOR MAKING

Broad, Tea Cakes

All kinds of Pastry, &c., &c.,

MANUFACTURED BY

EDW. CHAMBERLIN & CO.,

Proprietors of Shawmut Chemical Works,

NO. 53 INDIA STREET, BOSTON.

CONCENTRATED LEAVEN is the result of careful chemical researches. All its ingredients are prepared in the highest state of purity, and compounded with a view to produce bread of a far better quality, and in much less time, than by any other process. The manufacturers have built it with entire confidence to the judgment of discriminating house-keepers, bakers, &c., &c.

Bread of all kinds, made by using CONCENTRATED LEAVEN, is lighter, more digestible and nutritious; has an agreeable, natural taste; is less liable to sour; will retain its moisture longer than by any other process, and the whole preparation for the oven need not exceed ten minutes.

It is valuable because it is not perishable, and may be relied upon at all places and at times when yeast is not within reach, as at sea. In all climates, and under all circumstances it may be adopted, thus obviating all difficulty of procuring yeast or other ferment, which is frequently of an inferior quality, rendering the bread more or less unwholesome.

It is also valuable as regards economy, as it has been ascertained that a saving is effected in the flour of not less than 10 per cent. In the common process, much of the saccharine of the flour is lost by being converted into carbonic acid gas, or spirit, and the waste is incurred solely for the purpose of leavening the remaining part. By using CONCENTRATED LEAVEN, this waste is avoided, and the gas obtained in a manner equally efficacious, for leavening purposes, has been stated, to stay a part of the flour or meal, and, in consequence, a barrel of flour weighing 196 pounds, which by the common method would produce 196 lbs., by using CONCENTRATED LEAVEN, in the process 220 lbs., thus effecting the very important saving of 16 per cent. in the quantity of flour. By conforming to the directions on each package, any person capable of ordinary attention may conduct the process, and the result will invariably be highly satisfactory.

CERTIFICATE FROM DR. HAYES,

Assayer to the State of Massachusetts.

"I have analyzed the Concentrated Leaven manufactured by Messrs. Edw. Chamberlin & Co., with regard to its purity and efficacy, and find it to be in producing the effect of yeast in distending dough and thereby rendering it fit for making bread. This article is composed of ingredients from perfectly pure materials, which leave nothing in the vegetable salt, which is constantly a disease, food to the stomach, and the bread made without consuming the sugar or any other principle in the flour, perfectly; and the same weight of bread will be found more sweet, palatable and healthy than can be obtained through the aid of yeast; while for cakes and pastry it is invaluable, as it saves all risk, and is perfectly free from alum.

The experiments made by me confirm the statements of the manufacturers, and prove this compound worthy of public approval and extended use.

A. A. HAYES, M. D., *State Assayer.*

16 Boylston st., Boston, Sept. 25, 1860.

HOW TO USE IT.

We append a few recipes, but it may be used with great advantage in all other kinds of cake, as in the pastry, puddings, &c., &c.

BREAKFAST AND TEA ROLLS.—Two or three teaspoonsfuls of Leaven (according to the quality of the flour,) to one quart of flour; mix thoroughly by sifting together three times through a sieve; rub in a piece of butter of half the size of an egg, and make the paste thin with cold milk or water, (milk is preferable,) barely stiff enough to permit rolling out. Much kneading should be avoided. Cut into desired form, and place immediately into a hot oven, and bake quickly.

LOAF BREAD.—The same proportions of Leaven and flour sifted together as above; omit the butter; make the paste stiff enough to knead into a loaf, and bake immediately in a slow oven.

GRAHAM BREAD.—Three teaspoonsful of Leaven to each quart of wheat or rye meal; add one egg, and about a gill of molasses; make the paste thin with milk, and bake in a slow oven.

BROWN BREAD.—Three teaspoonsful of Leaven in one pint of flour, and one pint of corn meal, all well sifted together; add two eggs and about a gill of molasses; make the paste thin with milk, and bake slowly.

BUCKWHEAT CAKES.—Flour and milk sufficient to make one quart of batter; add one egg, ten tiny teaspoonsfuls of Leaven; beat to a froth, and cook quick.

DUMPLINGS.—Sift together one quart of flour and two teaspoonsfuls of Leaven; rub in one piece of butter the size of an egg; mix with cold milk or water, and boil ten minutes.

CHAMBER STREET CAKE.—Sift together two large cups of flour, one teaspoonful of Leaven; put in half a cup of butter and a cup and a half of sugar; mix with cold water or milk to a stiff batter, and spice to suit the taste, and bake immediately.

CINCINNATI SPONGE CAKE.—Two cups of white sugar, beaten with the yolks of six eggs—the whites of the eggs beaten to a froth; then beat all together; add three cups of sifted flour, one cup of water, and three teaspoonsfuls of leaven; flavor with two teaspoonsfuls of essence of lemon, and bake in a quick oven.

JUMBLES.—Sift together one quart of flour and three tea spoonsfuls of Leaven; rub in one piece of butter the size of an egg and a half of white sugar, and spice to suit the taste; mix stiff enough to roll out, and bake quick.

ELECTION CAKE.—One quart of flour and three teaspoonsfuls of Leaven sifted together; add a cup of butter, one pound of currants, two cups of white sugar, and one teaspoonful of cinnamon; mix with cold milk to a stiff batter, and bake in a slow oven.

CORN CAKE.—One pint each of flour and Indian meal, and three teaspoonsfuls of Leaven, well sifted together; add one cup of molasses and two eggs; mix thin with milk and bake in a slow oven.

CUP CAKE.—Five cups of flour and three teaspoonsfuls of Leaven, sifted together; add one cup of butter, one cup of sugar, two eggs, all well beat together; mix with milk; then add a cup of currants, and spice to suit the taste. Bake about half an hour.

LADIES' CAKE.—Three quarters of a pound of flour and four teaspoonsfuls of Leaven sifted together; one pound of sugar and six ounces of butter beaten to a cream; the white of eight eggs well beaten, and the juice of one lemon; mix with milk.

WEBSTER CAKE.—Five cups of flour, three teaspoonsfuls of Leaven, three cups of sugar, one of butter, one of milk, and two eggs; fruit and spice to the taste. Bake about half an hour.

For Sale by Grocers Generally.

ATWOOD'S

QUININE TONIC BITTERS,

The Best Aromatic Tonic ever offered to the Public.

RECOMMENDED BY THE FACULTY

For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic*, and cannot fail to meet the wants of the debilitated.

It is a mild tonic to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the depressive and nervous, and those suffering from wasting diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

One of the very best Physicians in Boston has said "*he has tried many bottles of Bitters that have ever been offered to the public.*"

Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

For further particulars reference is made to the printed circular.

Portsmouth, N. H., Nov. 27, 1860.

BLOOD FOOD

The attention of Invalids, Physicians, Clergymen, scientific men, and the public generally, is respectfully solicited to the merits of this chemical preparation, containing **Iron, Sulphur and Phosphorus,** and which is identical in its composition with the *Hematic Globules*, or *red blood*.—In all diseases accompanied with

DEBILITY,

pale countenance and nervous derangement, analyses of the blood show a deficiency of the red globules. Ruddy complexion, and a rosy tint of the skin, is always indicative of health; while a pale, wax-like skin and countenance,—which evinces unmistakeably a deficiency of the red globules,—accompanies a diseased organism. Preparations of **Iron** have been given for the purpose of supplying the red globules, but we contend that **Iron** alone, **Sulpur** alone, or **Phosphorus** alone, will not meet the deficiency in every case. But a judicious combination of all these elements is necessary to restore the blood to its normal standard. This point, never before attained, has been reached in the **Blood Food**, and its discovery ranks as one of the most scientific and important of the age. Its effects in

CONSUMPTION

are to soften the cough, brace the nerves, strengthen the system, allay the prostrating night sweats, increase the physical and mental energy, enrich the blood by restoring the lacking red globules, increase the appetite, restore the color, and clothe the skeleton in healthy flesh. In Nervous Debility will be found a specific in all *CHRONIC DISEASES of the THROAT or LUNGS*, such as *Asthma, Bronchitis*, etc. Public speakers and singers will find it of great utility in clearing and strengthening the vocal organs. In *Dyspepsia, Loss of Constitutional Vigor, Rheumatism, Scrofula, Gravel, St. Vitus' Dance, Fever and Ague*, &c., its efficacy is marked and instantaneous. In the class of Female Complaints, it has beneficial effects of this remedy so conspicuous as in those harrassing

FEMALE COMPLAINTS

to which the gentler sex are liable, and which lead eventually to consumption, such as suppressed or difficult *Menstruation, Green Sickness, Whites*, &c., especially when these complaints are accompanied with paleness, dizziness or languor of the skin, depression of spirits, debility, palpitation, want of appetite, and nervous prostration. We have the utmost confidence in recommending the **Blood Food** to all who may be conscious of a loss of vitality or energy, and to those whose mental or bodily powers are prostrated through *over-use*, either of the mind or body, and we deem it our duty to say that in all cases of *Weakness and Nervous Debility* as a sequelæ of the *Diseases or Habits*, this preparation has a claim upon the attention of sufferers which cannot be over-estimated. A faithful trial will be found the most convincing proof in regard to its efficacy that could be asked for. With the above remarks, and with the numerous testimonials we have in its favor, we offer the "**Blood Food**" to the consideration of the afflicted, knowing that it will be acknowledged as pre-eminent over all other preparations, patent or officinal, in point of usefulness. Green, lars giving the Theory upon which this remedy is founded, also certificates of remarkable cures will be sent free when desired. We forward the **Blood Food** to any part of the United States or Canada upon receipt of price—$1 per bottle, $6 per six bottles. Be careful in all cases to take none but that having our fac-similie signature upon the wrapper. None other is genuine.

Prepared only by **CHURCH & DUPONT,**

No. 429 Broadway, New York.

And sold by them, and all respectable Druggists.

Sold in Portsmouth by PRESTON, THACHER, HUTCHINGS and KIMBALL. s6 1y

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception, it is of *vital importance* to those requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is one of the commonest by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling and selling at reasonable rates, a Brandy of our own importation, from one of the most responsible houses in France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in case containing two dozen pints, and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

Dyspepsia Remedy

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupify.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Bowels Complaint, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.

One dose will relieve Bad Spirits.

One dose will cure Heartburn.

Three doses will cure Indigestion.

One dose will give you a good appetite.

One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the Stomach or Bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the general system, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

DAILY CHRONICLE $4 per year in advance.
WEEKLY CHRONICLE, $1 per year, in adv.

Daily Morning Chronicle

VOL. 17. PORTSMOUTH, N. H. WEDNESDAY, DEC. 19, 1860 NO. 118.

Morning Chronicle.

☞ Last week, Mrs. McAvoy, the housekeeper of Rev. Mr. Buchan, resident in Sterling, Canada, attempted to murder her employer. She attacked him while in bed asleep, with a piece of wood. From appearances intended to murder him, and then rob the house.

The remains of Christopher Columbus "a native of Genoa," which some say he wasn't, are again to be removed, the great discoverer's bones having as little rest as his body had in life. They are to be placed in a new cemetery, near the Havana, and in a silver urn, with appropriate inscriptions thereon in letters of gold; and his deeds deserve to be written in golden words. We may hope that this shall be the last disturbance of his repose.—*Trav.*

CHARCOAL, put to the roots of dahlias and other flowering plants, will redden them vividly; flowers nearly white bring thus turned to a deep red, sometimes altogether, and sometimes mixed with the lighter hue in half-a-dozen varieties, from one and the same root.

Corn, it is said, produces a clear fluid that burns without odor, without smoke, and is inexpensive, affording a good light in an ordinary kerosene lamp for half a cent an hour. There is another fluid made from it which burns more destructively, which is "set on fire of hell," destroying character and hopes, and affections, and manhood.

☞ The London Times' correspondent in China had been taken prisoner, and carried to Pekin, where he must have been regarded as a rare curiosity. This is a new incident in war.

The French Emperor is about to liberalize the political institutions of his country. The changes are not very great, but they are in the right direction and they show the tendency of the ruling mind of France.

The Pope, it is positively announced, does not mean to leave Rome. He puts his confidence, not in heaven, but in the French troops; his reliance being upon Goyon, and not upon Gabriel.—*Traveller.*

☞ David McQueston, of Manchester, a lad aged 15 years, ran all the way home from school, on Thursday last, and on reaching home died in a few moments.

We have seldom known a Presidential Message to be received by the press of the country with so unanimous a voice of—*dissatisfaction.* Excepting a few pensioned presses, no one speaks of it in terms of unqualified praise.—*Bath Times.*

☞ A new school-house has been built at the "Narrows" in Northwood, at a cost of $1500. In the Giles' district, in Raymond, the school-house has been refitted.

GEORGE W. PLUMER'S
NEW BAKING ESTABLISHMENT.
SHOPS: No. 22 Congress Street, and No. 31 State Street.
Orders from neighboring towns and the country promptly attended to.
Having taken the Shop and Bake House, No. 31 State Street, formerly occupied by Mr S. N. Plumer, the subscriber offers to his patrons ON TUESDAY, MARCH 27th, at that place, and also at the new Shop, corner of Congress and Fleet streets, (next door to Jackson & Co.'s Express Office,) a good assortment of all kinds of Bread, Cake and Pastry, including Ship Bread, Crackers, &c., &c.
The Bake House on State street will be open every Sunday morning, for supplying customers with Bread, Beans, &c., as usual.
Baking for Families carefully attended to.
In addition to our Shops, we shall with our Cart, on Tuesday morning, commence supplying customers at their doors. Our agent, Mr. Geo. I. Wilder, will attend to all orders delivered him.
Grateful for past favors, we would respectfully solicit a share of the public patronage.
GEORGE W. PLUMER.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, DECEMBER 19, 1860.

For the Chronicle.

THE MESSAGE—SECESSION.—No.4.

We repeat that the offences alleged against the North are not founded in truth. But suppose that our citizens had destroyed public presses devoted to slavery, shot down their editors,—wrapt some of their public halls, dedicated to slavery, in flames—immured many of their citizens, including clergymen and women guilty of no crime, in dungeons—imprisoned many of the free,unoffending seamen—tarred and feathered and maimed others suspected of being opposed to our free institutions—expelled others sojourning among us, from our soil by threats of violence, in violation of an express provision of the Constitution—that some of our members of Congress had assaulted, with intent to kill, a Southern Senator for defending the institution, and that the brutal outrage had been approved by our people—that we had offered large rewards for the heads of Southern statesmen—that we had violated solemn compacts in order to displace slave with free institutions—that the North had invaded a slave territory, cut down and expelled many from the South who were opposed to free institutions—for such acts of aggression the slave States would be justified in complaining and demanding redress. Many wars in past times have been waged for less causes. Nor would this nation submit to such wrongs from any foreign nation, without an appeal to arms.

NORTHERN FREEMEN! We appeal to you, irrespective of any party among us, to which you may be attached. Let all petty feuds and party divisions among you cease, at least for a time. Stand by the sacred cause of your country. Remember that the privileges, rights, and liberties you enjoy were the glorious fruits of a seven years' conflict, which exhausted the public treasure and resources, and in which our American patriots and heroes poured out their blood like water. Remember also that your priceless freedom, which required so long a period to gain, without your constant vigilance "may be lost in an hour." Keep in view that your free institutions are jeopardized by the corrupting influences of slavery, the real source of all the evils and angry passions which threaten to sever the amicable relations which formerly existed between the North and the South. You need feel no alarm at the threats to secede—for it would be ruinous and fatal to the seceders. The threats are resorted to in order to induce Northern submission to the arrogant demands of an imperiousoligarchy. Should there be unhappy divisions among ourselves, more danger may be apprehended from them than from the secession of several, or even all, the slave States from the Union.

As a united body we can defend and preserve the government and our free political institutions against any military force combined from abroad; and especially from the slave States, combining the elements of weakness "in the frame-work of their society," we stand with no fear of invasion.

At the Charleston Convention, when the Oligarchists insisted upon a platform asserting their right to extend slavery over the territories, and to property in slaves, the Democratic delegates from the North refused, and therefore incurred the implacable hatred of the South. There never can be a reunion. But the Northern Democracy may rest assured that there is now no Democratic party in the South as in times past. All former parties there are now merged in the unity of the great pro-slavery party. It was the triumph of Northern principles at the recent Presidential election, without regard to the party that nominated the successful candidate, that is now one of the pretexts for secession. Submission to Southern dictation, whether real or feigned, has reduced the Democratic party to minorities in every free State. For this the party leaders are chiefly responsible, governed less by principles than by ambition for the loaves and fishes of office. Like Southern statesmen they would rather "rule in hell than serve in heaven." The free States, for their unexampled prosperity and rapid increase,are indebted to free institutions. These will be defended, even should a resort to arms become requisite. In the conflict of antagonistic principles, which it is impossible ever to reconcile, brave and patriotic freemen will resist any attempt to remodel or impair the Charter of their rights. They will inscribe upon their banner the motto—The Constitution as it is, Liberty, and indissoluble Union of the free States. PAX.

☞ Senator Wilson has written a caustic letter, in answer to Hon. Caleb Cushing's late Speeches. He quotes largely from Mr. Cushing's former speeches, in which he denounces slavery, and advocates the very abolition sentiments which he now condemns.

Old anglers say that if you wish to catch a fine fish you must not throw your bait directly at him. Young ladies may take notice.

☞ The meeting of prominent merchants and citizens held in New York on Saturday, to consider the state of the Union, which suggested that Millard Fillmore be requested to proceed to South Carolina,&c., was not of more than seventy persons, most of them a little pro-slavery, and some not a little. Mr. O'Conor was president. In his speech he said:—

He had no fears of the unprincipled politicians of the North. He did not believe they had power to injure the Union. The only men who are dangerous to the Union are the honest and conscientious men of the North, who have imbibed the dreadful error that it is their duty to crush out slavery in the southern States. It would do no good to say that Congress could not legislate against slavery in the Territories, so long as the anti-slavery sentiment is dominant.—There was, in the speaker's opinion, but one hope for the Union; and that was that the South could be induced to wait a little while and he believed she could. As one sign of encouragement that *the North is changing its opinion of slavery*, he said the pulpit had been comparatively silent during the recent Presidential contest. This, he tho't, showed that the pulpit had reconsidered its views. He believed a million had read, and he hoped millions more would read, the sermon of Mr. Van Dyke of Brooklyn. This sermon showed not only that the pulpit had been silent, but that it had changed its opinion. [The sermon alluded to was against abolitionism as not in the Bible, and claiming that it tends to infidelity.] He thought the North was learning to look to its own vices, instead of meddling with the affairs of others.

Mr. O'Conor must be profoundly ignorant of the Northern pulpit, and of northern opinion also, if he supposes they are falling in love with slavery.

☞ A new and rather startling series of "compromise" measures is proposed by the Montgomery (Alabama) Mail. The following are fine specimens:—

"Make a full and complete surrender of all fugitive slaves to the South, and also all that are in Canada, and pay two hundred dollars per annum hire for the men, and one hundred and fifty dollars hire for the women, from the time of their escape to the time of surrender.

"Surrender immediately, dead or alive, the confederates of John Brown.

"Hang Lincoln and Hamlin, on the same gallows on which John Brown was hanged.

"Congress to pass a law making it treason for any man to introduce the subject, either by petition or otherwise, into its halls, and make the punishment imprisonment for life."

COLUMBIA, S. C., Dec. 17.—A heavy fog, combined with the small pox panic, causes a general gloom in this city.

The Convention assembled at noon. The outside attendance was small.

A general stampede has taken place hence, on account of the small-pox.

The Convention choose Mr. Jamison permanent President on the fourth ballot. A resolution was offered that when the Convention adjourned to-day it meet at Charleston to-morrow afternoon. The resolution was adopted.

Fourteen cases of small pox were reported yesterday, and seven to-day.

The Legislature has adjourned to meet in Charleston.

A lady residing in Maryland, writing to friends in this city alludes to the feeling among the slaves there. A slave woman belonging to a neighbor has been in the habit of doing her weekly washing, but recently has been careless in her work. The writer remonstrated with the woman, who replied—"You ought to be satisfied with the work, for next Spring, when Lincoln is President you may have to wash for me!" The letter says the people are constantly in dread of an outbreak of the slave population.—*Traveller.*

This is a fair specimen of the distorted idea of parties at the north, which gets to the south through dirt eating papers, and is there caught up by the negroes from reading and talk by the whites.

WASHINGTON MATTERS.—The New York papers contain the following speculations and rumors from Washington:

"Mr. Buchanan declines making a nomination for Judge of the Supreme Court at this time, because a majority of the Senators present are opposed to him, and they might reject or postpone the nomination—the effect of which would be to force him to send in different name, or leave the place vacant.

It is a fact that, with many intelligent men from different parts of the South, there exists a greater fear of servile insurrection than of anything else, and they openly express the opinion that secession will hasten rather than retard it. Some of the leading men of the South, who, I think best comprehend the whole subject of slavery, do not deny that the slaves have been wrongfully educated by their masters, and think the Republicans under Mr. Lincoln's administration, will liberate them on the 4th of March next. Everybody who knows the facts is aware that there is not a word of truth in the statement."

A SORROWFUL CASE OF DEATH BY THE ROADSIDE.—Mr. Andrew Anderson of Meriden, Ct., and Mary, his wife, started on foot from the village of West Meriden, to go home, at a late hour on Wednesday evening last, 12th inst.,—the night being very cold. Arriving near Hemlock Grove, his wife was suddenly taken with the pangs of child birth. Mr. Anderson took care of her as well as he could for a while, and then started for assistance. When he returned his wife was dead.

☞ The soldiers at Fortress Monroe (Old Point Comfort) Va., have become interested in the temperance movement, and fifty of them have recently signed the total abstinence pledge.

☞ In the U. S. SENATE, Monday, Dec. 17, Mr. Clark offered a resolution of inquiry of the President, as to whether forts Moultrie and Sumpter were properly supplied for defence, and whether a sufficient number of men were in them to defend them against a sudden attack; and also whether additional men had been ordered, or any steps taken to increase their effectiveness; also, in whose custody the arsenal at Charleston is placed, and what arms are there, or if removed, by whom, and the reason why they are not in possession of the government officers; also what instructions have been given to the officers of said forts in case a surrender is demanded by any person or authority; also the correspondence between the Commander-in-Chief of the army relative to increasing the force at those forts.

Mr. Brown objected, and the resolution was laid over.

The Degroot claim was referred to the Committee on Claims.

Wednesday and Thursday next were set apart for Territorial business, in both houses.

In the HOUSE, Mr. Cochrane of New York, proposed an amendment to the Constitution, and Mr. Florence another, both pro-slavery and impracticable.

Mr. Adrain of New Jersey offered the following preamble and resolution:

Whereas, The Constitution is the supreme law of the land, and ready and faithful obedience is the duty of all good law-abiding citizens, therefore

Resolved, That we deprecate the spirit of disobedience to the Constitution, wherever manifested, and that we earnestly recommend the repeal of all statutes by State Legislatures in conflict with and in violation of the sacred instrument and the laws of Congress passed in pursuance thereof.

Mr John Cochrane of New York offered an amendment to include the repeal of all personal liberty bills. (Applause.)

Mr. Adrain accepted the amendment, and after a colloquial debate, the resolution passed 151 to 14, and the preamble unanimously.

Mr. Lovejoy of Illinois offered a resolution similar to that of Mr. Adrain, but adding a recommendation for the repeal of nullification laws, and asserting that it is the duty of the President to protect and defend the government property.

Objection being made, Mr. Lovejoy moved to suspend the rules.

Mr. Burnett of Kentucky could not see why they should not vote on this, and offered an amendment which Mr. Lovejoy refused to accept.

Mr. Crawford of Georgia said that gentlemen were undertaking to fool each other. Let a resolution be introduced showing what southern rights are, and vote upon it.

Mr. Lovejoy's resolution was adopted by a vote of 124 to no nays.

Mr. Morris of Illinois again offered his compromise resolution, which passed—115 to 44.

Mr. Crawford of Georgia offered a resolution declaring that the Constitution recognizes property in slaves; that Congress has passed laws to aid slaveholders in the recapture of their slaves from the free States; that the Supreme Court has decided that negroes were not included either in the Declaration of Independence or the Constitution, except as slaves; that they cannot become citizens, and that the members of the House of Representatives will sustain this construction of the Constitution and of the laws of the decision of the Supreme Court.

Reuben Davis of Mississippi was excused from serving on the Select Committee.

Pending Mr. Crawford's resolution, the House adjourned.

FROM WASHINGTON.—*Washington, Dec. 17.*—The President sent in to the Senate the nomination of Mr. Black as Secretary of State, which was confirmed. No other nominations were transmitted.

The Pennsylvania and Ohio delegations are holding meetings to-night.

Secretary Thomson left this morning for North Carolina. It is understood that though he favors the secession of the Cotton States, he is friendly to the resumption of relations with the other States, when the non-slaveholding States shall consent to such constitutional guaranties as may be satisfactory.

It is not apprehended here that there will be bloodshed. Should South Carolina demand the surrender of Fort Moultrie, Maj. Anderson's instructions are deemed to be such as will enable him to retain an honorable position.

[What shall we understand by this? that the President instructs him to fire blank cartridges? or to surrender?]

The Pennsylvania delegation unanimously passed the following:

Resolved, That in our judgment it is the opinion of the people of Pennsylvania that the constitutional rights of all sections should be respected and secured; that all the laws should be faithfully and promptly executed, and that the Union of the States and the Constitution and laws of the United States should be maintained and enforced in all their integrity.

All the Ohio delegation, Senator Wade and Representative Wade excepted, were present at their conference to-night. Though no resolution was passed, the concurrent sentiment was for the maintenance of the Union and the enforcement of the laws.

FROM WASHINGTON.—*New York, Dec. 18.*—The House yesterday tabled several resolutions offered by Southerners, including one proposing a renewal of the Missouri Compromise line.

Mr. Davis of Mississippi said that as Northerners were unwilling to come forward like men, and place themselves on record, he would withdraw, and asked to be excused, which was done.

The New Hampshire delegation have held a meeting, and unanimously resolved that it is the duty of the Government to protect the public property and enforce the revenue at all hazards.

☞ B. P. Shillaber, Esq., lectures, this (Wednesday) evening, before the Hampton Lyceum.

WHERE IS THE MONEY TO COME FROM?—The present South Carolina Legislature has passed bills authorizing loans to the extent of one million three hundred thousand dollars. The last one was for a loan of $400,000 to continue the construction of the new State House, which has already cost over $3,000,000. With a State revenue of only $600,000,a funded debt of $400,000, liabilities for certain railroads amounting to $3,000,000 more, and with all the contingencies of secession and revolution before her, will capitalists be eager to exchange their solid gold for Palmetto bonds? The Solons of South Carolina are providing a nice little load for her to carry when she trips out of the Union. They are evidently pupils and admirers of Mr. Cobb.

To All Weak-Kneed Republicans.

LOOK AT THIS!

STRENGTHENING PLASTERS for all those Republicans who at *this time* have got a weak Spine, and whose Knees are weak, owing to the slavery agitation. Any person using these Plasters, and not being relieved from bowing his knees to the slave power, will certainly find them good for other weaknesses and pains. Sold cheap for cash. If there should be either of the Senators or Representatives in Congress from this State, troubled with the slave weakness,—I will supply them without pay. These valuable Strengthening Plasters are for sale at 12 and 17 cts. each, according to the size. by

B. HUTCHINGS, 4 Market Street.

COLLARS! COLLARS!

—FOR—

CHRISTMAS AND NEW YEAR'S PRESENTS.

POLLOCK FISH.

270 qtls. of fine quality of Pollock Fish on consignment and for sale cheap.

Jan1 CHARLES ROBINSON & SON.

Special Notices.

For Coughs, or for any disease of the Breathing Organs, use J. R. Stafford's Olive Tar and Iron & Sulphur Powder, which are advertised in this paper. The Olive Tar infuses Magnetism or Vitality, allaying at once any pain or oppression, and its great balsamic properties heal soreness and inflammation. The Iron and Sulphur Powders, being a soluble preparation, unite with the digestive food, and enter with it into the formation of new Blood, the Iron retaining the vital or life-giving forces in the blood, which in its circulation is diffused through the entire system.—The combined Sulphur converts the waste or worn-out particles of the blood into gases which are expelled from the body through its pores by the increased energy given to the Circulation. If is these waste or worn-out particles of blood that form Phlegm and Tubercles, and it is their acrid humor which irritates and destroys the membranes of the Throat, Bronchial Tubes, and Air Cells of the Lungs. Send for a pamphlet.

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then, who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

Eruptions, Salt Rheum, Erysipelas.

It is now generally admitted that all eruptive diseases depend upon some internal or constitutional cause, and that to use ointments or washes for them is a sure way to injure the system, and only do drive in, not to cure the disease. But HUMPHREY'S SPECIFIC HOMEOPATHIC SALT RHEUM PILLS are a true specific for all such diseases. They cure Salt Rheum, Barber's Itch, Erysipelas, Pimples on the face, Ringworm, and Nettle Rash, by curing the cause upon which they depend, and restoring the skin to a state of health and purity. Thus not only is the disease cured, but the softness and beauty of the complexion restored.

Price, 25 cents per box, with directions. Six boxes $1.

Sent by mail or express, free of charge, on receipt of the price.

Address, DR. F. HUMPHREYS & CO., 562 Broadway, New York.

Sold in Portsmouth by THACHER.
See advertisement in another column.

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herbs being extracted from them in the most objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov28 dawlm

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail in moderate excesses and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution—For particulars, send for a pamphlet to the Agent.

One dollar and six pence stamps sent to any authorized agent, will insure a bottle, by return mail. nov28 dawlm

Sold by W. R. PRESTON and all druggists.

WISTAR'S BALSAM WILD CHERRY

Coughs, Colds, Bronchitis, Asthma, Croup, Whooping Cough, Quinsy, and the numerous as well as dangerous diseases of the *Throat, Chest* and *Lungs*, prevail, in our changeable climate, at all seasons of the year; few are fortunate enough to escape their baneful influence. How important, then, to have at hand a certain remedy to all these complaints! Experience proves that this exists in *Wistar's Balsam* to an extent not found in any other remedy; however severe the suffering, the application of this soothing, healing and wonderful Balsam at once vanquishes the disease, and restores the sufferer to wonted health.

From a Respectable Druggist.

PORTSMOUTH, N. H., Aug. 3, 1860.

Messrs. S. W. FOWLE & CO., Boston.—

Gents:—Please send me a fresh supply of WISTAR'S BALSAM OF WILD CHERRY. We are selling large quantities of this long celebrated remedy for *Coughs and Colds*, and it bids fair to outlive most of the so-called specifics which are now in vogue. We can confidently recommend it as a remedy for what it is intended. Very truly yours,

NATHAN P. THACHER.

Mr. D. H. TEAGUE, of our Village,

Writes the proprietors of this great remedy, as follows:

TURNER VILLAGE, ME., July 31, 1860.

Messrs. SETH W. FOWLE & CO., Boston:—

Gents:—I do not hesitate to recommend DR. WISTAR'S BALSAM OF WILD CHERRY for *coughs* and *pulmonary affections*, having used it in my family for many years with great satisfaction; indeed it has done more good than all the other remedies I have tried, and their name is legion. If all the patent medicines in the market possessed but a portion of the merit of this excellent Balsam, there would be no occasion to condemn them as humbugs.

The medicine is also used by many of my friends and acquaintances in this town, and they have found it invaluable; and I hope that others who suffer may give it a fair trial. Very respectfully,

D. H. TEAGUE.

Prepared by SETH W. FOWLE & CO., Boston;

SOLD BY

PRESTON, KIMBALL, HUTCHINGS, J. H. THACHER, N. P. THACHER, Portsmouth; JAMES F. PACKER, Greenland; S. HANSON, JR., New Market; FOSTER & THING and WM. B. SAFFORD, Exeter; J. W. GREEN, Hampton Falls; and by dealers everywhere. 2d1 1w

Slaughtering and Dressing Swine.

Also, PIGS FOR SALE as above.

FISH AND ONIONS.

250 bushels ONIONS.
150 qtls. POLLOCK FISH.
100 boxes SMOKED HERRING.

For sale by S. L. RUSSELL, 36 Water Street.

THE WOMAN'S FRIEND SOAP,

The best article in the market for labor-saving. Try it and you will find it so. For sale at No. 1 Market street, by JOHN STAVERS.

Local.

☞ We notice that our neighbor, Mr. J. E. Small, the Photographer, is bound to keep up with the times. He has one of those new and popular instruments, called the multiplying camera, by which he can take eighteen impressions at one sitting;—by so doing, he can supply a customer with a gross of photographs in one day; and at the low rate of eighteen for a dollar. This is one of the best arrangements yet; and many will have these pictures—they are so nice for sending in letters, and for visiting cards, &c., &c. Give him a call, and he will show you in a few minutes, how Colt's revolver is outdone.

☞ Persons desiring copies of the Report of the City Missionary, can obtain them of him, or at the book store of Joseph H. Foster.

☞ We publish this morning, the award of Premiums on Crops, by the Rockingham County Agricultural Society. We shall publish the "statements" of the competitors, in a day or two.

☞ We learn from the Manchester Mirror, that on Monday, Dec. 10th, John L. Fitch, Esq., of Manchester, died, leaving a wife and two daughters. Thursday forenoon the eldest daughter, Maria Louisa, five years old last March, fell down, hurting her head some, but she cried only a short time. Afterwards she said, "I guess I hurt my head considerable." She did not show any effects of the fall till 8 1-2 o'clock Thursday evening, when she appeared to be in a state of stupor. A lady, a near neighbor, came in and went to the bed where the little girl was lying. The girl got up in bed, and putting her arms around the lady's neck, said, "my father is dead, and gone to Heaven, and I am glad of it; I want to go too;" and these were the last words she spoke that were understood.—All efforts to save her were unavailing, and she expired at 12 o'clock on Friday morning. She was a very bright and intelligent little girl.

SILVER PENNY SERIES.—These are six Holiday Books, of about 100 pages each, neatly got up, and bound in red and gilt, published by Walker, Wise & Co, Boston, and for sale in Portsmouth by J. H. Foster.

Patty Williams' Voyage. A story almost wholly true. Giving an account of a little girl's voyage to California, via Jamaica and the Isthmus.

Theda and the Mountain. By H. W. P., author of the "Little Graces, &c." This volume is dedicated "To Emmy, in memory of our last August among the Hills of New Hampshire."

Sunny Eyed Tim, the Observant Little Boy; a tissue of true incidents and incidental truths. By the author of "Faith and Patience, a story—and something more—for boys."

The Little Princess Narissa and her Silver Feathered Shoes. A charming moral tale, to illustrate the blessed results of honesty, truth, and the faithful and zealous performance of duty.

Juthoo and his Sunday School; or, Child Life in India. By a Brahmin. With an appendix of short stories.

Nobody's Child, and Other Stories. Selected by the author of "Noisy Herbert," "Our Summer House," &c.

The whole series are interesting and valuable. Each volume is complete in itself.

KORMAK, An Icelandish Romance of the Tenth Century. In six Cantos. Boston: Walker, Wise, and Company. 1861.

The author is an ardent lover of the history of the Scandinavians who discovered and colonized Iceland. He says in his preface:—

The history of this little Northern republic is full of wild and strange romance, and from its Sagas, wonderfully preserved, might be found material sufficient to employ even the myriad romance-writers of this nineteenth century, without the fear of soon exhausting the supply.

From some of these old stories has been hastily and crudely constructed the following tale, that, aiming not at literary excellence, only proposes to interest, perhaps, a leisure hour, and call attention to this much-neglected field of romance. If this shall be accomplished, the author will be repaid [for thus venturing unannounced before the public.

The poem is printed on tinted paper, with new type in imitation of the old Scotch letter, with the long S, double letters, &c. It is for sale in Portsmouth by J. H. Foster.

☞ The proposition to banish Northern teachers from South Carolina, does not seem to meet the approval of the people of that State. Several letters have appeared in the Charleston papers protesting against it. The committee of the Legislature also report against it, saying that qualified teachers cannot be obtained at the South.

FROM EUROPE.—*New York, Dec.* 18.—The steamer Etna, from Liverpool, has arrived. She brings sixty-six thousand pounds sterling in gold.

The Atlantic had sailed with £150,000. There had been 170 lives lost from an explosion in the Visca coal mine, near Newport, Wales.

☞ Mrs. Swisshelm beholds in the future, growing out of the dissolution of the Union, a millenium for all the poor, hard-worked, suffering women of the North, to be brought about by the superabundance and cheapness of run-away colored servants from the South.

ROCKINGHAM FAIR—1860.

AWARD OF PREMIUMS ON CROPS.

EXETER, Dec. 15.

To the Officers of the Rockingham County Agricultural Society:—Your Committee on Crops, having this day attended to the duty assigned them, report as follows:

We award the first premium, of $5, to Rufus C. Sanborn, Hampton Falls, for the best acre of corn.

The second premium, of $3, to James H. Dow of Rye.

The premium of $4 to James H. Dow of Rye, for the best acre of oats.

The premium of $4 to John Elkins of Danville, for the best acre of Wheat.

The premium of $4 to Rob't S. Prescott, Hampton Falls, for the best acre of Barley.

The premium of $4 to Rufus C. Sanborn, Hampton Falls, for the best acre Potatoes.

The premium of $2 for the best piece of Turnips, to Jere. Godfrey, Hampton Falls.

The premium of $2 to Chas. A. Drake of Rye, for best piece of Carrots.

The premium of $2 to Chas. Hayes of Portsmouth, for best piece of Beets.

All of which is respectfully submitted.

DEAN R. TILTON, JOHN H. KIMBALL, GEO. E. LAWRENCE, } Committee on Crops.

ANOTHER NEW STOVE

THE MODEL COOK

FOR WOOD OR COAL,

MADE BY

THE BARSTOW STOVE COMPANY

Of Providence, R. I.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking giving an oven nearly 3 ft. long! or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven, with a tin roaster in front of the fire, are obvious, viz:

1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is the most durable, tasteful and useful.

2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking oven.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires; or it can be used for a hot closet when not required for baking or roasting.

5th. By this extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time the stove occupies no more room on the floor.

John Trundy, Esq., one of our most practical and scientific mechanics, who has had large experience in the construction of stove patterns in years past, and has for many years been using one of the Stewart Stoves, has purchased one of the MODEL COOKS, and after a fair trial pronounces it far superior to the Stewart or any stove he has ever seen, for economy, convenience and dispatch. We might also refer to several other parties who are using the stove, and who award it the very highest praise.

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be *the* stove for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is wanted.

We have nought to say against any other stove, believing that a man can sell his own goods without depreciating his neighbor's; but this we do say, that we honestly believe this is the *best stove that can be found in the world;* and what is more, we think others will agree with us after a trial of it. We invite any one to examine the stove, whether they wish to purchase or not.

For sale, with a great variety of

Furnaces, Ranges, Cooking, Office and Parlor Stoves; Coal Hods, Sifters, Funnel, Stove-Repairing Pieces, Parlor Grates, Etc.

KITCHEN FURNISHING GOODS,

FARMING UTENSILS,

SHEET IRON, COPPER AND TIN MANUFACTORY.

Stoves Repaired, and Job Work, generally, promptly attended to.

Cook Stoves.

Autocrat of the Kitchen.—35,000 *in use*

THE ORIGINAL P. P. STEWART,

FUEL-SAVING AND COMFORT-PRODUCING LARGE OVEN, SUMMER AND WINTER

AIR-TIGHT COOKING STOVE,

FOR WOOD & ANTHRACITE OR BITUMINOUS COAL

Improved in 1859 with New and Extra Large Flues, and by the addition of the Celebrated Patent Double Sheet Bottom Flue.

Attention is invited to the following Points of Superiority:

DURABILITY.—Lasting, with proper care, at least 20 years. Stoves are now in use that were set up in 1838.

CAPACITY.—Baking, broiling, boiling, roasting and all other culinary operations performed *at the same time.* A barrel of flour baked into bread with a single fire.

ECONOMY.—Saving the cost of the stove in 2 or 3 years in the item of *fuel.*

VENTILATION OF OVEN.—In the Stewart Stove alone the front doors open directly into the oven, (protected by letters patent,) securing a direct draft through the *top of the oven,* by means of perforated holes in the doors and back flues. It will be borne in mind, that, as the heated air always rises, this method of ventilation is the only one of any value whatever.

ENTIRE CONTROL OF HEAT.—The heat generated by the stove, may be held therein and used, or thrown into the room, at pleasure.

WATER BACK—AND DOUBLE SHEET BOTTOM FLUE.—By which a compressing and inverting action of heat is obtained, and the oven more evenly and efficiently heated than by any other known invention.

BROILING.—Performed *on the top,* and without the possibility of smoke entering the room.

HOT WATER CONTINUOUS AND WARMING CLOSET.—Both useful and convenient, supplied by the waste heat and without extra fuel.

WATER BACK—AND DOUBLE

SEVEN YEARS!

The seven years of unrivalled success attending the

COSMOPOLITAN

Art Association,

have made it a household word throughout every quarter of our country.

Under the auspices of this popular Institution, over *three hundred thousand homes* have learned to appreciate—by beautiful works of art on their walls, and choice literature on their tables—the great benefits derived from becoming a subscriber. Subscriptions are now being received in a ratio unparalleled by that of any previous year.

TERMS OF SUBSCRIPTION.

Any person can become a member by subscribing *three dollars*, for which sum they will receive

1st.—The large and superb steel engraving, 30 x 38 inches, entitled

Falstaff Mustering His Recruits,

2d.—One copy, one year, of that elegantly illustrated magazine, the

"COSMOPOLITAN ART JOURNAL."

3d.—Four admissions, during the season, to

"The Gallery of Paintings, 548 Broadway, New York."

In addition to the above benefits, there will be given to subscribers, as gratuitous premiums, over

Five Hundred Beautiful Works of Art,

comprising valuable paintings, marbles, parians, outlines, &c., forming a truly national benefit.

THE SUPERB ENGRAVING, which every subscriber will receive, entitled "FALSTAFF MUSTERING HIS RECRUITS," is one of the most beautiful and popular ever made in this country. It is done on steel, in *fine line and stipple*, and is printed on heavy plate paper, 30 by 38 inches, forming a most choice ornament, suitable for the walls of either the library, parlor or office. Its subject is the celebrated scene of Sir John Falstaff receiving in Justice Shallow's office the recruits which had been gathered for his "Ragged Regiment." It could not be furnished by the trade for less than five dollars.

The *Art Journal* is too well known to the whole country to need commendation. It is a magnifically illustrated magazine of Art, containing Essays, Stories, Poems, Gossip, &c., by the very best writers in America.

The Engraving is sent to any part of the country by mail, with safety, being packed in a cylinder, postage prepaid.

Subscriptions will be received until the Evening of January 31, 1861, at which time the books will close, and the premiums be given to subscribers.

No person is restricted to a single subscription. Those remitting $15, are entitled to five membership, and one extra Engraving for their trouble.

Subscriptions from California, the Canadas, and all Foreign Countries, must be $3.50 instead of $3, in order to defray extra postage, &c.

For further particulars send for a copy of the elegantly illustrated *Art Journal*, pronounced the handsomest magazine in America. It contains Cat. unique of Premiums, and numerous superb engravings. Regular price, 50 cts. per number.—Specimen copies, however, will be sent to those wishing to subscribe, on receipt of 18 cents, in stamps or coin.

Address C. L. DERBY, Actuary C. A. A., 548 Broadway, New York.

N. B.—Subscriptions received received and forwarded by

Portsmouth, Nov. 23, 1860.

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, Under the act of 1837.

78 STATE, OPPOSITE KILBY ST., BOSTON.

After an *extensive practice* of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not unmatchable approach to, any which can be offered them elsewhere. The testimonials below given prove that to MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such uncommonly prompt and faithful and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the best of services rendered them, and at very reasonable charges." JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1860. R. H. EDDY.

All Ready for the Fall Campaign.

C. E. MYERS & CO.

Are now opening the best selected stock of Goods

FOR FALL AND WINTER WEAR

ever shown to their customers, consisting in part

—OF—

COTTONADES, PETERSHAMS, SHAGS, ENGLISH BEAVERS, TRICOS, FINE BROADCLOTHS, BLACK AND FANCY DOESKINS, VELVET VESTINGS, &c.

We have also on hand a fine stock of READY MADE CLOTHING, and are constantly making additions thereto. Our FURNISHING GOODS department is perfect, embracing complete, comprising UNDER SHIRTS AND DRAWERS, GLOVES, HOSIERY, BOOTS, SHOES, TRUNKS AND VALISES, OIL AND RUBBER CLOTHING.

We take this opportunity to inform the public that, owing to the unusual dullness of the times, we are selling our goods at about one-half of our usual profit.

This is no humbug. Call and be convinced at

DIARIES FOR 1861.

J. F. SHORES, Jr., No. 1 Congress Block, has just received a full supply of DIARIES for 1861, comprising 20 patterns, in various styles of binding, and printed with 2, 3, 4, 1 day to a page.—Price from 17 cts to $1.25 each.

Humphreys' Homeopathic Specific Remedies for the People

THE Remedies are carefully prepared under the direct supervision and inspection of Prof. HUMPHREYS, in order to meet that great and long realized want of the public, namely, remedies for all the more common and simple affections of life.

A moment's reflection will show that a vast majority of diseases from which we suffer and die, were, at their commencement, simple and trifling. A mere cold, a slight diarrhea, a pain in the side, or a headache, or hoarseness, at first easily cured and subdued, in time become a cough, or a fever, a dangerous dysentery, Croup or other disease, which all the powers of medicine fail to arrest.

Hence these remedies supply a great public want. Being on hand, simple, as you know at once what to take—pleasant, so as to cause no repugnance—safe, and hence obtainable at once, while the curative effects are positive and certain, they are taken, and at once the spell is broken and the danger alayed.

Experience has amply confirmed the use of these remedies for families and private persons, as being THE BEST IN USE, THE MOST SIMPLE AND CONVENIENT, THE MOST PROMPT AND RELIABLE.

Thousands now rejoice and have been using them for some few years past, in every section of the country, with almost invariable success. All speak in the highest terms of their simplicity and certainty, and among our hundreds of agents the uniform testimony is, that they give good satisfaction to their customers.

LIST OF

HUMPHREYS' SPECIFIC HOMEOPATHIC REMEDIES

No.	Price of Single Boxes—cents
1—Cures Fever, Congestion, and Inflammation, Fever, Pain, Restlessness	25

ATWOOD'S QUININE TONIC BITTERS,

The Best Aromatic Tonic ever offered to the Public.

RECOMMENDED BY THE FACULTY

For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and enforcement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachics*, and cannot fail to meet the wants of the debilitated.

It is a mild tonic to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

One of the very best Physicians in Boston has said "*but it is the best preparation of Bitters that has ever been offered to the public.*"

Put up in half-pint as well as quart bottles, in order that all may continue themselves of its superior merits.

For further particulars reference is made to the printed circulars.

BLOOD FOOD

The attention of Invalids, Physicians, Clergymen, scientific men, and the public generally, is respectfully solicited to the merits of this chemical preparation, containing **Iron, Sulphur** and **Phosphorus**, and which is identical in its composition with the *Hematic Globule*, or *red blood*.—In all diseases accompanied with

DEBILITY,

pale countenance and nervous derangement, analyzes of the blood show a deficiency of the red globules. Ruddy complexion and a rosy tint of the skin is always indicative of health. A pale, wax-like skin and countenance,—which evinces a considerable deficiency of the red globules,—accompanies a diseased organism. Preparations of **Iron** have been given for the purpose of supplying the red globules, but we contend that **Iron** alone, **Sulpur** alone, or **Phosphorus** alone, will be doing injury in most cases, but that a judicious combination of all these elements is necessary to restore the blood to its normal standard. This point, never before attained, has been reached in the **Blood Food**, and its discovery ranks as one of the most scientific and important of the age. Its effects in

CONSUMPTION

are to soften the cough, brace the nerves, strengthen the system, allay the prostrating night sweats, increase the physical and mental energy, enrich the blood by restoring the lacking red globules, increase the appetite, restore the color, and clothe the skeleton frame with flesh. The **Blood Food** will be found a specific in all *CHRONIC DISEASES of the THROAT or LUNGS*, such as *Asthma, Bronchitis, Coughs, &c.* Public speakers and singers will find it of great utility in clearing and strengthening the vocal organs. In *Dyspepsia, Liver Complaints, Dropsy, Epilepsy, Paralysis, Scrofula, Gravel, St. Vitus' Dance, Fever and Ague*, &c., its efficacy is marked and instantaneous. In no class of diseases, however, are the beneficial effects of this remedy so conspicuous as in those harrassing

FEMALE COMPLAINTS

to which the gentler sex are liable, and which tend towards Consumption, such as suppressed or difficult *Menstruation, Green Sickness, Whites*, &c., its efficacy is marked and instantaneous. In no class of diseases, however, are the beneficial effects of this remedy so conspicuous as in those harrassing

DANCING.—What can be more delightful than the sensation experienced when the "dearest girl in the world" is resting her peach-tinted cheek and golden tresses against your vest pattern, one lovely hand locked in yours, the other resting on your shoulder, while your right arm encircles her waist, as you gracefully glide along in circular motion; the enchanting strains of music stirring the soul with rapture. Such affairs cause sad commotion beneath the vest pattern aforesaid, and frequently lead men to assume the responsibility of paying their partners' board and dry-goods bills.—*Porter's Spirit.*

LAWYERS are very critical. Once a young lawyer, upon being informed of an attachment between a young lady and gentleman, inquired whether the young gentleman was "the lover or the lovee?" So an attorney in Dublin wrote a challenge to a gentleman to meet him "in the four acres, be the same more or less."

A man does not often hear his own funeral oration delivered from the pulpit, but that advantage was enjoyed lately by a papal crusader, M. Gicquel, who formed one of the congregation of the Bishop of Poitier, and heard his virtues extolled as one of the martyrs at Castelfiando.—He had turned up unexpectedly that morning from Italy.

☞ The eggs laid by the sea fowl, on the Murr Ledges, says the St. Croix Herald, are of an infinite variety of shade and color, white, brown, cream, pink, yellow, blue and green, dappled with streaks and spots of black, brown and purple, and it is utterly impossible to find two precisely alike.

SNOW AT THE SOUTH.—A dispatch from Richmond of Dec. 15th says that the snow there is quite deep, delaying the arrival of trains. At Washington, on Saturday, a violent snow storm commenced in the morning and raged all day.

☞ Kepler regarded the earth as a huge living animal, and Maury, it is said, has demonstrated the regular circulation of its blood, but Mr. Cones takes a geometrical view of it and says that for ages it has been assuming regular geometrical forms. He says:

"The masses of land and water are fully and completly determined by law; nothing entering into the earth's structure which is in the least degree fitful, capricious, or accidental."

MISSOURI ARMY RECALLED.—Governor Stewart of Missouri has recalled Gen. Frost and his brigade, whom he sent on a Tom-foolish errand to the borders of the State to fight Montgomery's shadow.

The mind has a certain vegetative power which cannot be wholly idle. If it is not laid out and cultivated into a beautiful garden, it will of itself shoot up in weeds or flowers of a wild growth.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, DECEMBER 20, 1860.

HOW TO KEEP FAST DAY.

We have already published the Presidential proclamation of a National Fast, to be kept on the 4th of January. We have no doubt our Congregations will generally respond to the call, and assemble to call on God for help and wisdom. But will he give an answer of peace? Let us go to the Scriptures for light.

In the 58th chapter Isaiah, the house of Jacob, who take delight in approaching to God, asks:

Wherefore have we fasted, say they, and thou seest not? wherefore have we afflicted our soul, and thou takest no knowledge?

To this Jehovah answers, and proceeds to show what kind of a fast he had *not* chosen:

Behold, in the day of your fast you find pleasure, and exact all your labors.

Behold, ye fast for strife and debate, and to smite with the fist of wickedness; ye shall not fast as ye do this day, to make your voice heard on high?

Is it such a fast that I have chosen? a day for a man to afflict his soul? is it to bow down his head as a bulrush, and to spread sackcloth and ashes under him; wilt thou call this a fast and an acceptable day to the Lord?

Jehovah then goes on to show what kind of a fast he *did* choose; how it should be kept; and the reward for keeping it. He enjoins breaking every yoke! letting the oppressed go free!! and undoing heavy burdens!!! and promises great prosperity. He does not recommend chains and gags, and bondage and burdens,—but the contrary,—in the following graphic language:

Is not this the fast that I have chosen? to loose the bands of wickedness, to undo the heavy burdens, and to let the oppressed go free, and that ye break every yoke?

Is it not to deal thy bread to the hungry, and that thou bring the poor that are cast out to thy house? when thou seest the naked, that thou cover him, and that thou hide not thyself from thine own flesh?

Then shall thy light break forth as the morning, and thine health shall spring forth speedily; and thy righteousness shall go before thee; the glory of the Lord shall be thy rearward.

Then shalt thou call, and the Lord shall answer; thou shalt cry, and he shall say, Here I am. If thou take away from the midst of thee the yoke, the putting forth of the finger, and speaking vanity;

And if thou draw out thy soul to the hungry, and satisfy the afflicted soul; then shall thy light rise in obscurity, and thy darkness be as the noon-day.

The reader cannot fail to make the application.

HOW THINGS GO IN WASHINGTON.—The editorial correspondent of the Atlas writing from Washington, Dec. 16, says:

There is much more backbone in the Republican party than there was a week ago. The hesitating and compromising course advised by a few newspapers and fewer leading men does not find many sympathizers here. It is well understood that the people of the North never can be made to consent to nationalize slavery, though they will doubtless be willing to make any concessions that can be reasonably demanded. Assuredly they will abide by the Constitution, and insist on the enforcement of the laws. But that they are going to reverse the policy of the founders of the government, and legislate slavery into the territories, is not to be expected.

That there is very serious trouble ahead, I have no doubt, and I have just as little that eventually all will be right again. We have got to go through this trial, possibly a bloody one, but it may as well be settled as postponed.

Toombs of Georgia arrived to-day, and his presence at this juncture indicates that Georgia is not in such a desperate hurry to get out, after all. If she manifests a disposition to negotiate, she will not secede. I think the most likely course to be pursued is nearly as follows: South Carolina is going out within three days, so far as a declaration can take her out. If she does not attack Fort Moultrie, or commit any overt act of rebellion other than passing her ordinance, the other cotton States will take time to deliberate, will send commissioners to all the slave States separately, to advise separate State secession, and a subsequent convention; in that convention, if held, the proposal will be to adopt or re-adopt the Constitution of the United States, and then graciously invite such of the free States as will submit to their dictation to join them!

Absurd as this is, it is discussed, and many of them are actually foolish enough to imagine that some of the free States would join them. But Kentucky, Virginia, Maryland, Missouri and Tennessee will not be thus entrapped; and the few doughfaces in Boston, New York and Philadelphia, who are befooling the secessionists with their flunkey meetings and dirt-eating resolutions, will be of no account when the day of trial comes.

These are extracts from a long letter.—In the same direction is the fact that on Monday the House passed the resolution offered by Mr. Morris of Ill., a Douglas Democrat, which declared an unaltered and abiding love for and faith in the Union;—that the election of Mr. Lincoln is no cause for secession, and that all the evils or abuses that may exist should and may be corrected within the Union, in a quiet and peaceful manner.

A wag on being asked what he had for dinner, replied, "A lean wife, and the ruin of man for sauce." His dinner consisted of a *spare rib* of pork and *apple* sauce.

Statements of the Competitors FOR PREMIUMS ON CROPS.

BARLEY.

R. S. PRESCOTT, Hampton Falls, raised 86 bushels of Barley on 1 acre, five-eighths, and 1 rod. The ground was broken up in the fall, and planted the next spring, 1858, with corn; put about 14 loads of manure in the hills. Next spring ploughed and put about eight loads of manure underneath the furrows, and about 10 loads in the hills. In 1860 ploughed about the 15th of April, and put 10 loads of manure under the furrow, and sowed the Barley about the 20th or 25th of April. The land is rather gravelly. After it was sowed, the ground was harrowed twice and rolled over.

STEPHEN SCAMMON, Stratham, raised 82 bushels Barley on scant an acre of land, 1 ploughed it once, and ploughed in 5 cords of manure, and harrowed it once; sowed on two bushels, harrowed it twice, and brushed it once. The land was broken up the year before, and planted with corn; put on four cords of old manure per acre.—Threshed by a machine. Barley weighed 50 lbs. to the bushel.

A. K. WARREN, Portsmouth.—On one acre and two rods, I raised 65 bushels of Barley, heaped measure. Land part gravelly and part sandy loam, on clayey bottom, where I have had a garden for the past two years. Ploughed in the fall of 1859, and again in the spring, and sowed on the 10th of April, with 2 1-2 bushels of Barley, without manure. Soaked the barley over night in lime water, rolled in plaster. Grew very long and free from weeds.

[Mr. Warren was not considered in the awards, as his statement was not received before the report of the committee was made up.]

JAMES H. DOW, Rye.—My Oats, entered for a premium, grew on 1 1-2 acres.—Sowed the last of April. Manured with barn yard manure and sea weed, ploughed under. Seed 4 bushels. Product, 108 bushels. Harvested the middle of August.—Threshed in September by Chas. A. Drake, with Whitman machine. I have sold out of this lot to

Job Jenness & Son 7 1-2 bus.	$3.15
M. Fisher & Co. 16 bus.,	7.20
M. Parry Jones 52 bus.,	23.40
I have now 30 bus., valued at	15.00
Total,	$48.75
Paid C. A. Drake for threshing,	$5.00
Paid men to clean them,	3.00
Total,	$8.00

OATS.

STEPHEN SCAMMON, Stratham, raised 85 bushels of horse-mane Oats from one acre. I ploughed in 5 cords of manure, and harrowed it well; then sowed on 2 bushels of oats, and harrowed it twice and brushed it once. It was broken up the year before, and planted with corn; 4 cords of manure per acre. Threshed by a machine. The oats 39 lbs. per bushel.]

CARROTS.

CHARLES HAYES, of Portsmouth, has raised 270 bushels of Carrots on 48 rods of land, from seed sown at different times, from the 5th to the 22d of May. The soil was a deep sandy loam; subsoil also sandy. Planted previous year with beets, carrots and cabbages. The following is a statement of the expense of raising this crop:

2 3-8 cords manure (2-3 green cellar manure and 1-3 muck) at $4 per cord	$9.50
Ploughing and harrowing	.95
Bedding and sowing	1.50
Weeding first time	6.00
" second time	6.00
Cutting through them	2.00
Digging and housing, 4 cts. per bush.	10.80
Interest on land at 6 per cent.—value $100 per acre	1.80
Total expense	$38.55

C. A. DRAKE, Rye—Grew 253 bushels of Carrots on one-quarter of an acre of ground—sandy loam, manured with seaweed, plowed 10 to 12 inches deep, sowed with a machine, 15 to 18 inches between rows. A part of the ground was planted to corn last year; the rest has been in carrots for a number of years.

A. K. WARREN, Portsmouth.—On the quarter of an acre of Carrots that I entered for premium, raised 261 bushels. Ploughed in the fall of 1859, and again in the spring. A part of the bed was sowed the first week in April. The carrots were very large, some of them weighing over 6 lbs. each.—The balance of the bed sowed the last of April; rows 18 inches apart. Not being well-thinned, I did not get my average crop. Carrots should be sowed 22 inches between the rows, and then thinned to 3 inches, and sowed early. I used 10 cords of barn manure to the acre.

WHEAT.

JOHN ELKINS, of Danville,—On April 5th, sowed 33 quarts of Spring Wheat on a fraction less than an acre, and received as the result of my labor 21 bushels and 28 quarts. Last year corn was raised on this land. The land was ploughed on the 1st of Nov. 1859; ploughed in about 10 loads of barn-yard manure; last Spring about one-fourth of the ground was cross-ploughed.—I think the Wheat was best where the ground was not ploughed last Spring. Harrowed well. After harrowing first time I applied 20 bushels dry ashes. Land warm, dry and light. The following is the expense of cultivation:

Ploughing	$2.50
Harrowing and sowing	1.75
Reaping and gathering	3.50
Threshing and cleaning	3.50
Seed—33 quarts	2.06
Interest of land—value $75	4.50
Manure and ashes	$12.00
Total expense	$29.81
Value of Crop.	
21 bushels 28 qrts. Wheat at $2	$43.75
Straw	4.25
Total value of crop	$48.00
Expense of cultivation	29.81
Balance and net gain	$18.19

NEW YORK, Dec. 19.—A petition to President Buchanan to resign is in circulation here.

☞ In the U. S. SENATE, Dec. 18, Mr. Lane of Oregon introduced a resolution calling for a convention to consult upon the present crisis. Mr. Crittenden of Kentucky, explained the resolutions which he intended to offer, which would practically recstablish the Missouri Compromise line. After some introductory remarks he offered his resolutions, which embraced an article to be proposed as an amendment to the Constitution. They also embraced provisions about fugitive slaves.

Mr. Hale said he had no doubt of the purity of the motives, the integrity and disinterested patriotism of Mr. Crittenden, but the Senator from Louisiana (Mr. Benjamin) asked what was meant by the amendment of the Senator from New York (Mr. King,) and he (Mr. Hale) now arose to ask for information. He had listened to the long and erratic speech of Mr. Wigfall, who seemed explicit in his demands, but the Senator from Kentucky (Mr. Crittenden,) seemed to be of an entirely different seat in politics. The demands put forth to day were entirely different from Mr. Wigfall's.

His desire was to know which represented the demands to be made upon our people. He wanted to know if the Senator from Kentucky represented the people of the South, or if his resolutions were simply the effusions of a sound and patriotic heart, and the people of the South were really represented by Mr. Wigfall. He would really like to know which represented the state of feeling at the South.

Mr. Saulsbury of Delaware said that there were Union men in his State for the sake of the Union. He was willing to accept the propositions of Mr. Crittenden, and asked Mr. Hale if he was willing to do so, and urge the people to accept it.

Mr. Hale said that he would not to the full extent, although he liked many of them. He had listened to the denunciations of a geographical line so long, that he could not suddenly become a convert. He would wait for some assurance that the line would be kept. He did not believe the remedy lay in new provisions to the Constitution, but in the prompt and faithful execution of those already in the bond.—He was willing to look the thing all over.—He had no doubt but that his State would render anything that was just and fair, but he would not pledge *this* for his people.—He thought they had given the pledge of fidelity and would give it still.

The resolutions were ordered to be printed, and referred to a Committee subsequently appointed. Mr. Powell's resolution was taken up and finally adopted.

Mr. Johnson of Tennessee said he was opposed to secession, and would fight the battle in the Union and on the battlements of the Constitution. He was a compromising or a conservative man, and would not demand anything but what was right. He should act on the basis of the resolutions adopted by a large body of the people of Tennessee. If the doctrine of *secession* was true then we have *no Government*. The government has no right to coerce a State, but has a right to enforce the laws against individuals in a seceding State.

The bill for admission of Kansas came up and was made the special order for Monday.

In the HOUSE, the Pacific Railway bill was taken up, but the House going into a Committee of the Whole, it was not reached.

Mr. Crawford's resolution was tabled—88 against 81. This was a pro-slavery resolution, offered yesterday.

HOWARD GREY; a Story for Boys; by C. M. Mitchell. This is one of the Holiday Books for Youth, just publishing by Chase, Nichols & Hill, Boston, and sold in this city by J. F. Shores, jr. It is a neat volume of 231 pages, with an engraved frontispiece of a shipwreck. The tale is designed to aid in the formation of industrious habits in youth; and its execution is good.

A CHRISTMAS WREATH, for Little People. By Ella Rodman. This is a similar book from the same publishers, and contains over 200 pages. The Wreath consists of five pieces, viz.,—Hetty's Little Boy, The Gold Piece, Allie's Kitten, The Lost Money, and The Little Orphan. These are natural, life-like tales, of the rich and poor, the gay and the sad.

Both volumes are of the pleasant and useful order, and will meet a ready sale.

Many of the arrests and lynchings of suspected parties at the South are influenced by sheer malice. Thus, at Jefferson City, near New Orleans, a few days ago, Dr. James Burns was informed against as an abolitionist, and as so admitted to be by his own wife. At the same time it was well known that Dr. Burns was a Democrat and a secessionist, had spoken in public against the evils of emancipation, and that his wife was bitterly opposed to abolitionism. The only reason assigned for these malignant slanders was a desire to get possession of the house occupied by the accused!

☞ On Tuesday morning at 4 o' clock in New York harbor, next the Battery, the Charleston line steamer John P. King was nearly destroyed by fire. She was valued at $160,000, and is partly insured.

The steamers James Adger and R. R. Cuyler, respectively from Charleston and Savannah, were considerably damaged by collision in going out of the dock.

☞ A fellow in Barre, Massachusetts, hired a horse and wagon to go a short journey. The owner of the horse provided a supply of oats for the trip, which the fellow bartered for rum, and the horse died of starvation.

The Charleston Courier, after reading Judge Black's opinion says:

"If there is any member of the Cabinet who can write unequivocal English, we should be pleased to have a distinct statement of position."

The Charleston Courier says it has been asked "for information, concerning the late action of the Grand Division of Sons of Temperance in Massachusetts in abolitionizing that order. Can any readers give us the correct report?"—*Boston Jour.*

No such action has been taken, or can be, by any State Grand Division, without *secession* from the Order; for every member, as he assents to the pledge, on becoming a member, makes a special reservation of his religious and political views, which the Divisions do not touch.

MARRIAGES.

In Newburyport, Mr. GEO. S. DURGIN of Newton, to Miss RUTH A. PRESCOTT of Kensington.

TWO NEW BOOKS,

JUST IN TIME FOR THE HOLIDAYS!

J. F. SHORES, JR., No. 1 Congress Block, has just received—

FAVORITE AUTHORS, a Companion Book of Prose and Poetry. Beautifully printed on tinted paper, and splendidly illustrated with 28 portraits of the authors.

HYMNS OF THE AGES. Second Series. The favor with which the first series of Hymns of the Ages was received, has led the publishers to have prepared another, with hymns of a like character, including many others, which the plan of that forced them to unwillingly reject. Bound in the same style as the first series.

Also received a variety of new JUVENILE BOOKS.

TO THE LADIES.

SCOVELL & GOODELL'S

THE WOMAN'S FRIEND SOAP,

The best article in the market for labor-saving. Try it and you will find it so. For sale at No. 1 Market street, by JOHN SLAVERS.

Special Notices.

For Coughs, or for any disease of the Breathing Organs, use J. R. Stafford's Olive Tar and Iron & Sulphur Powder, which are advertised in this paper. The Olive Tar infuses Magnetism or Vitality, allaying at once any pain or oppression, and its great balsamic properties heal soreness and inflammation. The Iron and Sulphur Powders, being a soluble preparation, unite with the digestive food, and enter with it into the formation of new Blood, the Iron retaining the vital or life-giving forces in the blood, which in its circulation is diffused through the entire system.—The combined Sulphur converts the waste or worn-out particles of the blood into forces which are expelled from the body through its pores by the increased energy given to the Circulation. It is these waste or worn-out particles of blood that form Phlegm and Tubercles, and it is their acrid humor which irritates and destroys the membranes of the Throat, Bronchial Tubes, and Air Cells of the Lungs. Send for a pamphlet.

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then, who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

Rheumatism! Rheumatism!!

It is well known that bathings, ointments, and external applications, only drive rheumatism from one part of the system to another; and sometimes with fatal results. HUMPHREY'S SPECIFIC HOMEOPATHIC RHEUMATIC PILLS, often cure the worst and most protracted cases. This simple medicated SUGAR PILL will do more to eradicate the disease, than quantities of crude medicines, and has cured when all other means have failed.

Price, 25 cents per box, with directions. Six boxes $1.

Sent by mail or express, free of charge, on receipt of the price.

Address, DR. F. HUMPHREYS & CO., 502 Broadway, New York.

Sold in Portsmouth by THACHER.
See advertisement in another column.

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established by the testimony of those for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov22 daw3m

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of

SIR J. C. CLARKE, M. D.,

Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail to moderate excesses and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, see pamphlet to the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail. nov22daw3m

Sold by W. R. PRESTON and all druggists.

THE OXYGENATED BITTERS.

The qualities of this medicine have placed it up on an imperishable foundation. In destroying disease, and inducing health, it has no parallel.

For the following complaints these Bitters are a Specific: *viz—Dyspepsia, or Indigestion, Heartburn, Acidity, Costiveness, Loss of Appetite, Headache, and General Debility.*

In many sections of our country this preparation is extensively used by physicians in their practice, and it seems to have restored many to health who were apparently beyond the reach of the healing art.

From Mr. Jonathan Chapin.

WALPOLE, N. H., May 18, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—I consider the OXYGENATED BITTERS a valuable medical compound, combining both the medical skill and conscientious honesty in the person by whom they were compounded. I have used them for *Dyspepsia*, with very good effect, and consider them a reliable remedy for that complaint. In all cases where I have known of their being used, the result has been highly in their favor. I can conscientiously recommend the OXYGENATED BITTERS to all sufferers from diseases of a dyspeptic nature. Yours, JONATHAN CHAPIN.

From Mr. C. A. Shaw.

BIDDEFORD, Me., Aug. 7, 1860.

Messrs. S. W. Fowle & Co.—Gents:—Disclaiming any intention of puffing a patent medicine, I have to assure you of my high regard for the OXYGENATED BITTERS, the beneficial effects of which I have witnessed in my own family, and I do not hesitate to pronounce them worthy the entire confidence of the community, as a remedy for that distressing class of complaints, a medicine whose merits will guarantee to it a steady sale. Yours, C. A. SHAW.

Prepared by SETH W. FOWLE & CO., Boston;

SOLD BY

PRESTON, KIMBALL, HUTCHINGS, J. H. THACHER, N. P. THACHER, Portsmouth; JAMES P. PACKER, Greenland; S. H. HANSON, JR., New Market; PORTER & TRING and WM. B. SAFFORD, Exeter; J. W. GREEN, Hampton Falls; and by dealers everywhere. e25 4w

FISH AND ONIONS.

250 bushels ONIONS.
150 qtls. POLLOCK FISH.
100 boxes SMOKED HERRING.

For sale by S. L. RUSSELL,
38 Water Street.

Local.

☞ About five hundred persons were enjoying the fun of skating, Wednesday afternoon, on the South Mill Pond. Two young men, Dow and Webster, distinguished themselves by wearing a fancy garb, called the "skater's rig,"—which, judging from the appearance of it, must be well adapted to this branch of amusement. This unique dress caused considerable comment among the "boys."

POLICE COURT, Tuesday, Dec. 18.—Thomas Mitchel, was found guilty of stealing one foot of wood from the yard of F.W. Rogers. Was ordered to pay three times the value of wood stolen, $3 fine, and cost of prosecution, $4.80, and stand committed till paid. Went to jail.

Messrs. Editors:—Will you have the kindness to call the attention of the Police to the nightly depredations on the fence leading from Mr. Austin's garden to the South Mill-Pond, and to enquire if the city is not legally bound to protect the property of a non-resident tax-payer. PROTECTION.

☞ Mr. Alger's Lecture on Ancient and Modern Chivalry, at the Temple on Tuesday evening, was attended by a fine audience, who appeared highly gratified with his eloquent discourse and spirited elocution.

THE DEFENCES OF CHARLESTON AND THEIR CONDITION.—The city and harbor of Charleston are amply provided with defences against attacks from without. There are three fortifications—forts Moultrie, Sumter and Pinckney. The first is on Sullivan Island, that is separated from the main land by a narrow stream of water that can easily be bridged, and is sometimes fordable. Pinckney is on an island in the harbor; that Gen. Scott made very strong in 1832, when he looked to the bombarding of the city. Sumter is more than three miles down the harbor. It commands the other forts and is near enough to shell the city, while itself is bomb-proof and believed to be impregnable. All three forts are well provisioned and put in a good state of defence; if they were well manned there is not power enough in all the cotton States to capture them; but unfortunately they have few men—only from sixty to one hundred each; and Mr. Buchanan refuses reinforcements; and it was on this account that Gen. Cass refused to remain in the cabinet.

The South Carolinians, who already have charge of the United States arsenal at Charleston, which was committed to the care of the State militia, with its 70,000 stands of arms and a corresponding amount of ammunition and other appointments of war, are preparing to attack Fort Moultrie. This will be seen by the following letter, from the wife of an officer, stationed at Fort Moultrie, which has been made public:

FORT MOULTRIE, DEC. 11, 1860.

Dear——; I feel too indignant. I can hardly stand the way this weak little garrison is treated by the heads of the government. Troops and proper accommodations are positively refused, and yet the Commander has orders to hold and defend the fort. Was ever *such a sacrifice* (an intentional one) known? The Secretary has sent several officers at different times to inspect here, as if that helped. It is a mere sham, to make believe that he will do something. In the meantime a crisis is very near. I am to go to Charleston the first of the week. I will not go farther if I can help it.

Within a few days we hear—and from so many sources that we cannot doubt it—that the Charlestonians are erecting two batteries, one just opposite us, at a little village, Mount Pleasant, and another on the end of this island; and they dare the Commander to interfere while they are getting ready *to fight sixty men*. In this weak little fort, I suppose President Buchanan and Secretary Floyd intend the Southern Confederacy to be cemented with the blood of this brave little garrison.

These names should be handed down to the end of time.

When the last man is shot down, I presume they will think of sending troops. The soldiers here deserve great credit—though they know what an unequal number is coming to massacre them, yet they are in good spirits and will fight desperately. Our Commander says he never saw such a brave little band. I feel desperate myself. Our only hope is in God. My love to father and all.

Your affectionate SISTER.

It is stated that the wife of Major Anderson has called on the President and demanded that he increase the force at that place, or she will take his neglect to do so as an intentional and wicked sacrifice of her husband's life, who, she declares, will never surrender the place, but rather fall in its defence.

☞ The secession convention at Charleston, South Carolina, Dec. 18, were laying their plans, appointing committees, and getting ready, apparently, for a long session. It does not look as if there would be a battle very soon, unless they fight the small pox.

A statesman should have ears to hear the distant rustling of the wings of Time. Most people only catch sight of it when it is flying. When it is overhead, it darkens their view.

He who does evil that good may come, pays a toll to the devil to let him into heaven.

NEW YORK, Dec. 19.—The Washington correspondent of the Times writes—James R. Marks arrived this afternoon with the electoral vote of Louisiana. He reports that the Louisiana Legislature refused almost unanimously to appoint commissioners to other States.

Mr. Hamlin, Vice President elect, has had an interview with Gen. Scott on the state of the country, during which the latter expressed hopes that quiet would be restored.

Mr. Hamlin also had an interview with Mr. Cass, who adheres to his original policy.

The correspondent of the World says Senator Wade has received letters threatening his personal safety since his speech.

The Fugitive Slave Law was referred to a sub committee in the Committee of 33 to-day, with instructions to see if it can be more effectually carried out.

The Times' correspondent says the conservative find little cause for confidence in the manner in which Mr. Crittenden's speech was received. There were no indications on the part of the Republicans to accede to the terms proposed, though some of the Southern Senators are of opinion that they would be more satisfactory to the more moderate Southern States.

☞ A Washington dispatch says the conservative sentiment increases daily, and thousands favor coercion, so disgusted are they with the precipitate haste of South Carolina.

SCITUATE, MASS., Dec. 19.—Constructor Samuel Hartt, of the U. S. Navy, and late chief of the Bureau of Construction, Equipment and Repairs, died at South Scituate last night.

A Startling Truth!—Hundreds die annually, from neglected coughs and colds, when by the use of a single bottle of *Dr. Wistar's Balsam of Wild Cherry* their lives could be preserved to a green old age.

Atwood's Quinine Tonic Bitters.—the best Aromatic Tonic ever offered to the public.—All the Druggists have it. See advertisement.

A RARE OPPORTUNITY TO OBTAIN A FINE-TONED PIANO,

For sale at a great bargain, or to let on reasonable terms. Apply to WILLIAM R. PRESTON.

This Piano has been in use but a few years—one of Gilbert's manufacture—is very powerful and fine-toned, and in perfect order. It can be obtained on reasonable terms by immediate application as above. dec20 3t

Portsmouth, Dec. 11, 1860.

THE GREAT INVENTION!

CLOTHING WITHOUT SEAM

MOSES & DOWNIE

Would respectfully invite the attention of the public to this new article of Clothing, they having been appointed sole Agents for the sale of the same. These fabrics are all woven in the wool, without any seam, on the cross fibre system, which combines the greatest elasticity with the greatest strength, will neither shrink nor stretch out of shape, nor crack; are nearly or entirely

WATER-PROOF,

And in point of warmth, durability, cheapness and all other desirable qualities are unquestionably superior to any other style, as all who test them must admit.

Please call and examine for yourself, at the

Sign of the Big Number,

MARKET ST., 37 PORTSMOUTH, N. H.

ANOTHER NEW STOVE

THE MODEL COOK

FOR WOOD OR COAL,

MADE BY

THE BARSTOW STOVE COMPANY

Of Providence, R. I.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking giving an oven nearly 3 ft. long! or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven, with a tin roaster in front of the fire, are obvious, yiz:

1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is the most durable, tasteful and useful.

2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking oven.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires: or it can be used for a hot closet when not required for baking or roasting.

5th. By this extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time the stove occupies no more room on the floor.

John Trundy, Esq., one of our most practical and scientific mechanics, who has had large experience in the construction of stove patterns in years past, and has for many years been using one of the Stewart Stoves, has purchased one of the MODEL COOKS, and after a fair trial pronounces it far superior to the Stewart or any stove he has ever seen, for economy, convenience and dispatch. We might also refer to several other parties who are using the stove, and who award it the very highest praise.

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be *the* stove for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is wanted.

We have nought to say against any other stove, believing that a man can sell his own goods without depreciating his neighbors; but this we do say, that we honestly believe this is the *best stove that can be found in the world*; and what is more, we think others will agree with us after a trial of it. We invite any one to examine the stove, whether they wish to purchase or not.

For sale, with a great variety of

Furnaces, Ranges, Cooking, Office and Parlor Stoves; Coal Hods, Sifters, Funnel, Stove-Repairing Pieces, Parlor Grates, Etc.

New Photographic Establishment.

Having fitted and furnished in modern style, large, pleasant and commodious rooms, the subscriber is prepared to furnish all who wish with Sun Pictures of every description from the smallest Miniature to life-size Portraits. Photographs finished in India Ink, Water and Oil Colors, or the best artists in the country. Old Daguerreotypes, &c., copied any size desired.

The subscriber having had many years' experience, from the old Daguerreotype down to the present time, keeping pace with every useful improvement, a success almost unprecedented heretofore has attended him; and by strict attention to business, and fair dealing he hopes to merit a share of public patronage.

All work from the establishment warranted to be of the first order, both for finish and durability. Prices as low as in Boston, or any other place where first-class work is performed.

Having a large skylight, pictures can be taken late in the day, and equally as well in cloudy as in fair weather. The public are respectfully invited to call and examine specimens, at **17 Pleasant Street**, opposite the New Custom House.

Cook Stoves.

Autocrat of the Kitchen.—35,000 *in use*

THE ORIGINAL P. P. STEWART,

FUEL-SAVING AND COMFORT-PRODUCING LARGE OVEN, SUMMER AND WINTER

AIR-TIGHT COOKING STOVE,

FOR WOOD & ANTHRACITE OR BITUMINOUS COAL

Improved in 1859 with New and Extra Large Flues, and by the addition of the Celebrated Patent Double Sheet Bottom Flue.

Attention is invited to the following Points of Superiority:

DURABILITY.—Lasting, with proper care, at least 20 years. Stoves are now in use that were set up in 1838.

CAPACITY.—Baking, broiling, boiling, roasting and all other culinary operations performed *at the same time*. A barrel of flour baked into bread with a single fire.

ECONOMY.—Saving the cost of the stove in 2 or 3 years in the item of fuel.

VENTILATION OF OVEN.—In the Stewart Stove alone the front doors open directly into the oven, (protected by letters patent,) securing a direct draft through the *top of the oven*, by means of perforated holes in the oven and hot flues. It will be borne in mind, that, as the heated air always rises, this method of ventilation is the only one of any value whatever.

ENTIRE CONTROL OF HEAT.—The heat generated by the stove, may be held therein and used, or thrown into the oven, at pleasure.

THE DOUBLE SHEET BOTTOM FLUE.—By which a compressing and inverting action of heat is obtained, and the oven more evenly and efficiently heated than by any other known invention.

BROILING.—Performed *on the top*, and without the possibility of smoke entering the room.

HOT WATER RESERVOIR AND WARMING CLOSET.—Both useful and convenient, supplied by the waste heat and without extra cost.

WATER BACK.—An arrangement for supplying a hot water for the bath room equal to any range.

Beware of the numerous worthless imitations now in the market. See that the name P. P. Stewart is on each stove. No other is genuine.

PROF. WOOD'S

RESTORATIVE CORDIAL

—AND—

BLOOD RENOVATOR.

Is precisely what its name indicates, *for*, while pleasant to the taste, it is revivifying, invigorating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system impervious to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted *as to cut in perfect accordance with the laws of nature, and hence soothe this weakest stomach*, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet always followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical science, and also by all who have suffered from debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous to which poor humanity is constantly liable. Such are examples as the following: Consumption, Bronchitis, Indigestion, Dyspepsia, Loss of Appetite, Faintness, Nervous Irritability, Neuralgia, Palpitation of the Heart, Melancholy, Hypochondria, Night Sweats, Languor, Giddiness, and all that class of cases, so fearfully fatal, if unattended to, and yet fatal *female Weaknesses and Irregularities*. Also Liver Derangements or Torpidity, and Liver Complaints, Diseases of the Kidneys, Scalding or Incontinence of the Urine, or any general derangement of the Urinary Organs, Pain in the Back, Side, and between the Shoulders, Suppressed Menses, Slight Colds, Hacking and Continued Cough, Emaciation, Difficulty of Breathing, and indeed we might enumerate many more still, but it would be only to say, it will not only cure the debility following Chills and Fever, but prevent all attacks from Miasmatic influences, and cure the fever, at once, if already attacked, and as it acts upon the biliary system, arousing the Liver to action, promoting, in fact, all the secretions and secretions of the system, it will infallibly prevent any deleterious consequences following upon change of climate and water, hence all travellers should take a bottle with them, and it should take a trifle-spoonful at least before eating. As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits, students, ministers and literary men. And all ladies not automed to much out-door exercise should make use of it. If they will, they will find an agreeable, pleasant, and efficient remedy against those ills which rob them of their vigor, and bear the stamp of ill health, health, and health cannot exist while the above irregularities continue. Then, again, the Cordial is a perfect Mother's Relief. Taken a month or two before the final trial, she will pass the dreadful period with perfect ease and safety. *There is no danger in the child, if the mother uses it.—Mothers, try it!* And to you we appeal to detect the illness or decline not only of your daughter, before it be too late, but also your husbands, brothers, for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel in the same downward path. Save, O save! before the fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never-failing affection will unerringly point you to Prof. Wood's Restorative Cordial and Blood Renovator as the remedy, which should always be on hand in time of need.

O. J. WOOD, Proprietor, 481 Broadway, New York, and 114 Market street, St Louis, Mo., and sold by all good Druggists. Price $1 per bottle.

Agent for Portsmouth, J. H. THACHER, corner State and Pleasant streets, and No. 3 Market Square. D eow ly

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington
Under the act of 1837.

78 STATE, OPPOSITE KILBY ST., BOSTON

After an extensive practice of upwards of two
ty years, continues to secure Patents in the Unite
States, also in Great Britain, France, and othe
foreign countries. Caveats, Specifications, A
signments, and all Papers or Drawings for Pa
tents, executed on liberal terms, with all de
patch. Researches made into American or Fo
eign works, to determine the validity or utility
Patents or inventions,—and legal or other advi
rendered in all matters touching the same. Copi
of the claims of any Patent furnished by remitti
One Dollar. Assignments recorded at Washin
ton.

This Agency is not only the largest in New Eng
land, but through it inventors have advantage
for securing patents, or ascertaining the patenta
bility of inventions, unsurpassed by, if not in
measurably superior to, any which can be offere
these parts of the Union. The subscriber will gi
prove that none is MORE SUCCESSFUL A
THE PATENT OFFICE than the subscriber; an
as SUCCESS IS THE BEST PROOF OF AD
VANTAGES AND ABILITY, he would add th
he has abundant reason to believe, and can prove
that no other office of kind can claim to be equal
for professional services so moderate. The in
mense practice of the subscriber during twent
years past has enabled him to accumulate a va
collection of specifications and official decision
relative to patents. These, besides his extensi
library of legal and mechanical works, and fu
models of patents granted in the United State
and Europe, render him able, beyond question,
offer superior facilities for obtaining Patents.

All necessity of a journey to Washington t
procure a patent, and the usual great delay ther
are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most deep
and successful practitioners with whom I ha
had official intercourse."—EDMUND BURKE,
Commissioner of Patents.

"I have no hesitation in assuring inventors th
cannot employ a person more competent, a
faithfully, and more capable of putting the
application in a form to secure for them an ear
and favorable consideration at the Office."
EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, February 5, 1858.

"Mr. R. H. Eddy has made for me, SIXTEE
applications, on all but one of which patents hav
been granted, and that one is now pending. Suc
unmistakable proof of great skill and ability
his express me to recommend all inventors t
apply to him to procure their patents, as they ma
be sure of having the most faithful attention b
strowed on their cases, and at very reasonabl
charges." JOHN TAGGART.

From Sept 17, 1857, to June 17, 1858, the sub
scriber, in the course of his large practice, mad
on TWICE rejected applications, SIXTEEN AP
PEALS, EVERY ONE of which was decided i
his FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1860. **R. H. EDDY.**

All Ready for the Fall Campaign.

DIARIES FOR 1861.

J. F. SHORES, Jr., No. 1 Congress Block,
has just received a full supply of DIARIES for
1861, comprising 20 patterns, in various styles of
binding, and printed with 3, 2, 1 day to a page.—
Price from 17 cts. to $1.25 each.

The Remedies are carefully prepared under the direct supervision and inspection of Prof. HUMPHREYS, in order to meet that great and long realized want of the public, namely, remedies for all the more common and simple ailments of life.

A moment's reflection will show that a vast majority of diseases from which we suffer and die, were, at their commencement, simple and trifling. A mere cold, a slight diarrhea, a pain in the side, or a headache, or heaviness, at first easily cured and subdued, in time become a consumption, a fever, a dangerous dysentery, Croup or other disease, which all the powers of medicine fail to arrest.

Herein these remedies supply a great public want. Being on hand, simple, so you know at once what to take—pleasant, so as to cause no repugnance—safe, and harmless according to rule, while the curative effects are positive and certain, they are taken, and at once the spell is broken and the danger allayed.

Experience has already confirmed the use of these remedies for families and private persons, as being THE BEST IN USE, THE MOST SIMPLE AND CONVENIENT, THE MOST SAFE AND RELIABLE.

Thousands are and have been using them for some five years past, in every section of the country, with almost unexampled success, and in the highest terms of their simplicity and certainty. And among our hundreds of agents the unform testimony is, that they give good satisfaction to their customers.

LIST OF

HUMPHREYS' SPECIFIC HOMEOPATHIC REMEDIES

No.		Price of Single Boxes—cents

ATWOOD'S

QUININE TONIC

BITTERS,

The Best Aromatic Tonic ever offered to the Public.

RECOMMENDED BY THE FACULTY

For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic*, and cannot fail to meet the wants of the debilitated.

It is a mild tonic to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous system, under prostrating diseases, and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhea, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

One of the very best Physicians in Boston has said "*has it is the best for paration of Bitters that has ever been offered to the public.*"

Put up in half-pint as well as quart bottles, in order that all may enjoy the benefits of its superior merits.

For further particulars reference is made to the printed circulars.

Portsmouth, N. H., Nov. 27, 1860.

BLOOD FOOD

The attention of Invalids, Physicians, Clergymen, Mothers and Nurses, is respectfully solicited to the merits of this chemical preparation, containing **Iron, Sulphur** and **Phosphorus**, which will be found a delicious compound for supplying the red globules, but we contend that **Iron alone, Sulpur alone, or Phosphorus alone** will not meet the deficiency in every case, but that a judicious combination of *all* these elements is necessary to restore the blood to its normal standard. This point, never before established, has been reached in the **Blood Food**, and its discovery ranks as one of the most scientific and important of the age. Its effects in

CONSUMPTION

are to soften the cough, improve the nerves, strengthen the system, allay the prostrating night sweats, increase the physical and mental energy, enrich the blood by restoring the lacking red globules, increase the appetite, restore the color, and clothe the skeleton frame with flesh. The **Blood Food** will be found a specific in all *CHRONIC DISEASES of the THROAT or LUNGS*, such as *Asthma, Bronchitis, Coughs, &c.* Public speakers and singers will find great utility in clearing, toning and strengthening the vocal organs. In *Dyspepsia, Liver Complaints, Dropsy, Epilepsy, Paralysis, Scrofula, Chronic Diarrhea, Dysentery, Fever and Ague, &c.*, its efficacy is marked and instantaneous. In no class of diseases, however, are the beneficial effects of this remedy so conspicuous as in those harrassing

FEMALE COMPLAINTS

to which the gentler sex are liable, and which tend towards Consumption, such as suppressed or difficult Menstruation, *Whites, Irritation, Pain, &c.*, its efficacy is marked and instantaneous. In no class of diseases, however, are the beneficial effects of this remedy so conspicuous as in those harrassing

FEMALE COMPLAINTS

to which the gentler sex are liable, and which tend towards Consumption, such as suppressed or difficult Menstruation, *Whites, Irritation, Pain, &c.*, especially when these complaints are accompanied with paleness, a dingy blue or pallor of the skin, depression of spirits, palpitation, want of appetite, and nervous prostration. We have the utmost confidence in recommending the **Blood Food** to any part of the country, cases of a loss of vitality or energy, and to those whose mental or bodily powers are prostrated through excess, either mental or bodily, and we consider it our duty to say that in all cases of *Weakness and Emaciation*, and in all diseases of the *Kidneys or Bladder*, this preparation has a claim upon the attention of sufferers which cannot be overestimated. A faithful trial will be found the most convincing proof in regard to its efficacy that could be asked for. With the above recommend, and with the numerous testimonials we have in its favor, we offer the **"Blood Food"** to the consideration of the afflicted, knowing that it will be acknowledged as pre-eminent over all other preparations, patent or official, in point of usefulness. Circulars giving the Theory upon which this remedy is founded, also certificates of remarkable cures will be sent free when desired. We forward the **Blood Food** to any part of the United States or Canadas upon receipt of price—$1 per bottle. Six for six bottles. Be careful in all cases to take none but that having our fac-simile signature upon the wrapper None other is genuine.

Prepared only by **CHURCH & DUPONT,**
No. 499 Broadway, New York.

And sold by them, and all respectable Druggists.

Sold in Portsmouth by PRESTON, THACHER, HUTCHINGS and KIMBALL. e6 1y

BININGER'S
OLD DOMINION
WHEAT-TONIC
—FOR—
FAMILY AND MEDICINAL USE.

This natural product of the most nutritious grain, recommends itself as presenting in a *concentrated* form the *nutritive* properties of *Wheat*, and thus rendered the most available for those eminent medicinal authorities, as possessing qualities that are absolutely PATHOGNO; this *consideration* renders it invaluable to those who are suffering from *Consumption, Lung Complaints, Impaired Strength, Lack of Vital Energy*, and all diseases which, in their incipient stages, require only a generous diet, and an invigorating, nourishing stimulant.

Put up in quart bottles, in iron-bound cases of one and two dozen each, and sold by all prominent Druggists, Grocers and Town Agents.

A. M. BININGER & CO.
SOLE PROPRIETORS.
No. 19 Broad Street.....New York.

For sale in Boston by M. S. BURR & CO., SETH E. PECKER, WEEKS & POTTER, D. GOODLOW & CO., G. C. GOODWIN & CO., REED, CUTLER & CO., T. G. SNOW, S. PIERCE & CO., STEPHEN WEEKS, C. S. DAVIS & CO. 4 Tu Th s S ly

BININGER'S
OLD KENTUCKY
BOURBON
"1849 RESERVE"

The *established popularity* of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky Whiskeys.

Being distilled in 1849, and manufactured expressly for us with great care, it can be relied upon as a *strictly pure* stimulant, and peculiarly efficacious for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency to *recruit and strengthen*; while age having contributed its genial charm, and enriched it with a delicious flavor and an oily body, it affords a pleasant incentive to the recovery of health, through the agreeable medium of a well pleased palate.

Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO.,
(Established 1778.)
Sole Proprietors, No. 19 Broad St., N. Y.

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

Dyspepsia Remedy

This medicine has been used by the public for five years, and is recommended for use. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Regulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other diseases arising from the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

Dose.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Headache.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at its commencement.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

General Depot, 48 Water street, New York.

Morning Chronicle.

THE CERTAINTY OF SCIENCE.—A remarkable instance of the practical value of scientific knowledge, in the science too which is least settled and certain of all, was given lately by Lieut. Maury. He sailed from this country seven days after the sailing of the Prince of Wales, and arrived in England several days before him. The British Admiralty asked his opinion of the fate of the missing vessels. He replied in writing, describing what weather the royal fleet had experienced, on what part of the ocean it had proved most severe, what course the ships had taken, and when they might be expected in port. The arrival of the vessels verified this opinion in every particular. Knowing the prevailing winds and the natural course of the storm, Lieut. Maury was able to predict the course of the ships with perfect accuracy. It is evident that such knowledge must be of the highest value to sea captains and commercial men.

ASYLUMS FOR INEBRIATES.—We have long been of the opinion that establishments of Asylums for the cure of inebriates, or in other words for the reformation of the intemperate, were imperatively demanded in our country; and that a more useful or philanthropic measure could not be proposed.

Intemperance is a physical disease, and therefore requires physical treatment—moral measures alone, cannot reach it—total abstinence from the cause which produce it, is the only remedy: and the practice of this, in nine cases out of ten, is beyond the power of the unhappy inebriate. He lacks the moral ability—hence the utility of asylums.

SECESSIONISTS AND BRITISH AND FRENCH CONSULS.—The New York World learns from authentic sources that the British and French Consuls at Charleston have been approached by the secessionists with a view to their co-operation. Both replied explicitly that any communication to them would be transmitted to the State Department at Washington.

We hope never again to see the name of Garibaldi in connexion with that of Washington, in our esteemed cotemporary the Boston Post. The American people will never swallow that, Colonel.—*Pilot.*

It is not likely to trouble the Americans much; though it may be rather unpalatable to the Irish followers of the Romish Church.

☞ The Hartford Times says that Colt's pistol factory is now driven to its full capacity. Three hundred pistols are turned out daily, finished and complete. Sharpe's rifle factory is also full of business, and hard at work to meet large orders.

Good temper is like a sunny day, it sheds a brightness over everything; it is the sweetener of toil and the soother of disquietude.

DURING a rehearsal, Braham said to Tom Cooke, who was the conductor, "Now, Tom keep the piano quiet here, because just at this part, to give effect, I intend dropping my voice."—"Do you? By the powers," said Tom, "where-abouts?—for it's just the sort of voice I should like to pick up!"

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, DECEMBER 21, 1860.

☞ The items by Thursday's Mails indicate so much caution and consideration among the secessionists in various States, as to render actual secession much less probable than it seemed three or four days ago. New York, Boston and Chicago seemed relieved, in a pecuniary sense. Hardship and suffering for lack of bread, appear in Alabama; and business in New Orleans is in a disastrous condition, hastened and intensified by the disunion and secession cry of South Carolina schemes, and their allies and tools elsewhere.

☞ The New York Herald says:—

Our export tables certainly fail to furnish any evidence of the commercial distress and paralysis so much talked of. The exports of last week, the chief articles being cotton and breadstuffs, were nearly twice as heavy as those of the corresponding week last year, and more than three times as heavy as those of the corresponding week of 1858. It is now evident that the exports from this port this year will exceed *one hundred millions of dollars*—fully thirty per cent. more than those of any previous year. But for the recent political agitations which have checked the movement of cotton from southern ports, the exports of the United States this calendar year would have amounted to a figure far beyond the most sanguine calculations. As it is, they will probably exceed $400,000,000.

We can hardly quote any change in the money market, though the feeling continues more cheerful than it was a week ago. There is so much embarrassment among houses which have relied upon collections at the South and the West that for some time to come confidence can hardly be restored.

MURDER TO GET AN INSURANCE POLICY.—Dr. Wickham, who has been on trial at Sussex, N. J., for the murder, by poison, of Mrs. Cole, has been convicted of murder in the second degree. It appears that he induced the husband to obtain an insurance upon her life for $3000, and then deliberately administered poison just as the poor woman was recovering from the exhaustion of child birth.

☞ Mrs. Tamar Davis, a noted literary woman, who has generally espoused the "contrary" side of all popular questions, and for some time was remunerated beyond her claims, by publishers in Boston and New York, has been arrested near Shiloh, N. J., for passing counterfeit bank notes. It is alleged that she altered $1 bills to $10 with a pen, and passed them at different places.

☞ Edward Brown, a wholesale liquor merchant in Philadelphia, while endeavoring to collect a bill from one Dennis McCarthy, on Monday evening, was shot by the latter, the ball entering his eye, causing instant death. McCarthy, who alleges that the deed was done in self-defence, surrendered himself to the officers.

At New Orleans the pressure is severely felt, and merchants are glad to dispose of their goods at any price. One firm (Haggerty Brothers) offer half a million dollars worth of dry goods at and below cost. Commission houses have stopped making advances on negroes. There is an average decline of four hundred dollars in the value of negroes, compared with last season, and the trade is dull.

FROZEN TO DEATH.—Theodore Rice of Westminster, Mass., a young man nineteen years of age, was found dead near his home on Thursday morning last. It is supposed that while returning home the evening before, he was taken suddenly ill, and being unable to proceed farther or make himself heard, was frozen to death.

☞ A New Orleans correspondent of the St. Louis Democrat states that New Orleans, from being heretofore a strong Union city, has suddenly changed about, and the people "rush blindly forward, as reckless of consequences as a dog with a tin pan tied to his tail." There is little business doing, and many of the principal houses have failed, and the explanaition of the change is given in the belief that "disunion will make New Orleans the greatest city on the continent."

☞ A very old craft has come to her end recently, on the English coast—the Flying Fish, wrecked off Filey. She was built at Whitby in 1783, and was consequently seventy-seven years old. Mr. Edmund Woolterton, the master and owner, has weathered the storms of seventy-one winters, having spent sixty of them at sea, and fifty of them on board the Flying Fish.

☞ The New Orleans Delta of Dec. 11 says:

The Union is entirely too sick for all the Congressional doctors at the capitol. Legislative strengthening plasters cannot do it a bit of good. * * * *No human power, much less any Congressional power, can arrest the movement which is destined to bear the South to independence and liberty.*

For liberty, read *slavery*, wide spread and perpetual, and we get the true meaning of the item.

NEWS FROM CHINA.

By the Boston Traveller Extra, of Thursday evening, we have the following important news brought by the steamer, from Queenstown, Nov. 9.

The Allies have captured Pekin. The Emperor's palace was sacked, and immense spoils taken. The Emperor had fled to Tartary.

Messrs. Parks and Lock, the English prisoners, had been returned. The two others had died of ill treatment.

The Allies will winter in Pekin and at Tien-tsin. The steamer Persia brings upwards of £500,000 in specie. Reactionary movements continued in Italy.

In England, the money market is active, but generally unchanged. The bullion in the Bank of England had decreased £195,000.

[Correspondence of the Chronicle.]

BOSTON STATION, KENTUCKY,
United States South, Dec. 14.

Business is very dull at present, owing to the excitement attending the Presidential election, and the promised secession of South Carolina. This troublesome fester on our glorious Union, at last is going to "leave the country for the country's good;" and with her will go all the cotton States, but *not one* of the border slave States.—The Union sentiment prevails here, and I know of but one disunionist in the whole region round about, and that is our pompous six-footer of a Postmaster, who "goes the entire swine" in favor of slavery, and hates us Yankees as he would the devil. The price of slaves has decreased fully forty per cent. since election, and other property pretty nearly in the same proportion.

We have had no snow of any consequence, as yet. The weather is somewhat warmer here than at home, and I miss the old skating adventures on the North Mill Pond. M. W. G.

☞ Pickpockets go into a crowd, at a fire, an alarm, or a railroad disaster, and ply their trade: and some wreckers on the coast have been said to hang out false lights, to wreck ships for plunder.

So of some papers. A correspondent of the Newburyport Herald, writing from New York, says:

The present state of uncertainty in regard to the future relations between the consumers of the South and the merchants of the North has affected business in this city to a considerable degree, but to nothing like the extent to which the New York Herald and other panic-makers represent. A system of misrepresentation is carried on by the Herald, Journal of Commerce, Express, and other less influential papers of the same character, which would astonish some of their frightened readers, did they know the utter lack of truth contained in many of their boldest assertions. During the last week the Herald announced in staring capitals, that a certain large firm had discharged between three and four hundred hands in consequence of the secession panic. There was not a word of truth in it: so to avoid a libel suit the publishers were obliged to confess, (which they did in very small type) the next day. It is within our personal knowledge that some of the most inflammatory documents purporting to have come from the South, and published as authentic in the columns of the journal most relied on here and in New England for reliable commercial information, originated but a short distance from the office of publication, and never saw the South till they reached there in the columns of the veracious journal aforesaid.

WHO DID IT?—The Bath Times gives this answer;

We have not one particle of sympathy for Republicanism, and believe its doctrines dangerous and its advocates impracticable; but if there is anything we despise it is the miserable coarse of a set of pap-fed menials who lend themselves to the falsification of facts and the misrepresentation of the position of the dominant party. Though it is nearly these months before Lincoln will have any power, or can raise a finger for good or for ill, for weal or for woe, there is a class of papers which are holding up the financial trouble of the country as the result of Republicanism. If any party is responsible for a bankrupt treasury, for an unsettled condition of the country, and for the threatened disruption of the Union, it is the party which acknowledges allegiance to James Buchanan.

☞ It will be seen by reference to the Prospectus of the New York Ledger, which will be found in another column, that the proprietor of that popular weekly has secured an array of distinguished contributors for his paper for the New Year such as has never been equalled by any publication in the world. The Ledger is always characterized by a high moral tone, and has a circulation larger than that of any other ten literary journals in the country.

WANT IN ALABAMA.—The Mobile Register of Dec. 13, publishes the following extract from a letter written by a subscriber in Choctaw county:—

"You Mobilians have but a faint idea of the misery that will be likely to exist in the country the coming year. I can assure you from my own observation, that in less than two months from this time, eight families out of ten will actually be out of corn, and a great part of them will not have the money to buy it with. And as your merchants will not fill orders, unless the cash accompanies each orders, where is it to come from?"

AUGUSTA, Ga., Dec. 19.—H. V. Johnson has been nominated for the State Convention in Jefferson county. He made a patriotic and conservative speech.

CONGRESS.

WEDNESDAY, Dec. 19.

SENATE.—Mr. Toombs was in his seat to-day, for the first time since the session commenced.

Mr. Clark moved to take up his resolution of inquiry relative to the Charleston forts, but withdrew his motion after Mr. Green suggested that the Senator from Oregon wished to amend it.

Mr. Slidell charged the reporter of the Associated Press with sending false dispatches to the South, and, if an explanation was not offered, he would to-morrow move that he be expelled from the gallery.

The House Invalid, Pension and Military Academy bills were reported by Mr. Hunter, and passed.

Mr. Johnson's amendments to the Constitution came up.

Mr. Johnson of Tennessee made a Union speech, and Mr. Lane, *late* of Oregon, and late a candidate for Vice President, made a disunion speech, full of blood and thunder.

HOUSE.—A resolution to adjourn until the 7th of January was tabled by three majority.

Mr. Sherman of Ohio reported Appropriation bills for Legislative, Executive and Judicial expenses for the year ending June, 1861.

The House then went into Committee of the Whole on the Deficiency Appropriation bill.

Mr. Sherman of Ohio offered an amendment appropriating $900,000 to carry out the law for the suppression of the slave trade.

A long debate followed. Mr. Sherman read a letter from the Secretary of the Colonization Society, showing that the government of Liberia had nearly 3800 captured Africans on its hands, and had received only $27,000, and unless they received further assistance it would have to protest against any more being landed there.

Mr. Pryor of Virginia would refuse to vote for any more appropriations under the present system. Liberia was in danger of being swamped by these shirtless cannibals. He would give that country an opportunity of illustrating her capacity for self-government. He approved of England's plan of making the captured Africans into quasi apprentices.

Mr. Sherman explained that the appropriation was to carry out existing laws and contracts.

Half-a dozen Slave State members made bitter remarks.

Mr. Reagan of Texas offered an amendment, limiting the appropriation to negroes taken from vessels bound to the United States only. Rejected.

Mr. Sherman's amendment was then adopted.

The committee rose.

Mr. Burnett of Ky. moved to reduce the amount to $450,000. Rejected.

The bill then *passed*.

Mr. Florence introduced a resolution that, the Senate concurring, when the House adjourns it be to Jan. 7th. Rejected—82 against 94. Adj.

FROM CALIFORNIA.—*Fort Kearney, Dec. 19.*—The Pony Express, from San Francisco 5th inst., has arrived.

Trade dull. Eastern news excited but little apprehension, though considerable interest was felt.

The Secretary of State has counted the returns. The following is the result; Lincoln, 38,721; Douglas, 37,964; Breckinridge, 33,971; Bell, 9,113.

The majority against calling a Constitutional Convention was 173.

The State debt was legalized by a large majority.

The flume of the Tuolumne Water Company was blown up on the night of the 1st inst., thus depriving a large mining district of water for two months, as it will take two months to repair the damage.

Oregon dates are to Dec. 28. The official count of the vote of Oregon gives Lincoln, 5368; Breckinridge, 5067; Douglas, 414; Bell 192. Lincoln's plurality 301.

NEW YORK, Dec. 20.—The Times Washington correspondent represents the feeling of Georgia as more conservative, and thinks the defeat of the immediate secessionists is probable.

The Herald correspondent says that Mr. Douglas has decided to sustain Mr. Crittenden's proposition.

It is stated that the two condemned war steamers recently sold at Havana have been bought by South Carolina.

Caleb Cushing, who is going to South Carolina, is instructed by the President to use strenuous efforts to prevent secession.

NEW YORK, Dec. 19.—Bayard Taylor, while lecturing in Brooklyn last night, when animadverting upon the late refusal in Philadelphia to let Mr. Curtis speak, was hissed.

An engine on the Hackensack Railroad ran over a handcar, upon which were several persons, killing one and injuring two others. The engineer is reported to have ran away after the accident.

☞ The New York Express suggests that Gen. Scott be made a "Dictator," according to the practice of "the Romans in times like these." How tremendously hard it is for some men to swallow the idea that they must have Abraham Lincoln for the next President of the United States.

A SAD SIGHT.—About 2 o'clock this afternoon, an Irishwoman, helpless by intoxication, was found lying on her back in Edmund's lumber yard. The wind and snow was driving over her half-covered body, and if the police had not discovered her she must have perished. She was taken to more comfortable quarters—the watch-house.—*Portland Courier.*

COLD SYMPATHY.—The Charleston Courier calls the Union meeting in Philadelphia "the Philadelphia Union Humbug."

BALTIMORE, Dec. 19.—The lighter Richmond was sunk at the mouth of the Petapsco river to-day. The captain and seven others were drowned.

MONTGOMERY, Ala., Dec. 19.—All the Banks in Alabama have suspended except the Bank of Mobile, the Southern Bank and the Northern Bank in conformity with the advice of the Governor.

☞ One day last week, a little son of Capt. John E. Salter, aged about 9 years, broke through the ice on the South Mill Pond, in this city; and it would seem that he must inevitably have been drowned, as there were few or no persons near him—but for the judicious and successful exertions of Charles A. Weeks, a lad of sixteen years or so, who was skating not far off; and who, by lying flat, crawled on the crackling ice to the edge of the hole, and drew out the little boy, after he had sunk twice,—the two being almost equally wet by this time, and both in imminent danger.

The rescued boy's family insisted on making the other a present—and finally the lads arranged that he should have a complete Rubber Suit, (to prevent his getting wet in similar circumstances,) and off they went to Moses & Downie's for his measure—and it would be difficult to say whether it is more pleasant to give or receive in this case. We mention the incident chiefly to show how much may be done in times of peril, even by a boy, if you can only be cool, and keep your wits about ye.

DIVIDENDS. — The January dividends are, doubtless, looked forward to by every one but printers, with no little degree of interest. The Boston & Lowell, Worcester, Western, Providence, and Maine Railroads pay four per cent. dividend each on New Year's day. The latter road, it is stated, has earned six and a half per cent. for the last six months. This is its forty-fifth dividend.

It is stated that the Eastern Railroad will pay a dividend of three per cent. in January. The New Market Bank pays a dividend of four and a half per cent. on the first Monday in January. The stock of this corporation sells readily at fifteen per cent. above par, notwithstanding the increase of one-third its capital stock last summer. The Bank went into operation in 1855.

☞ Rev. Mr. Lindley, Missionary to Africa, will deliver an address on that country, in relation to the spread of the gospel there, at the North Church, this (Friday) evening, at half past 7 o'clock. He is a most interesting speaker, and wherever he has gone, has been received with enthusiasm. During the recent great gathering of the friends of missions in Boston, he gave an account which all will remember who heard it, of the working of the gospel in Africa. All friends of missions are invited to hear what it is the common interest of all to know. G.

☞ The new and staunch Sleigh just built for Frank Jones' Brewery, is from the carriage-manufactory of A. J. Beck in this city.

☞ What more beautiful, appropriate and lasting Present for Christmas or New Year, than a subscription to the Cosmopolitan Art Association.

The Philadelphia Press says that within the last six weeks not less than 15,000, and perhaps 20,000 persons in that city have been thrown out of employment.

THE GREAT FAMILY PAPER.
THE GREAT FAMILY PAPER.
THE GREAT FAMILY PAPER.
THE GREAT FAMILY PAPER.
THE GREAT FAMILY PAPER.

PROSPECTUS
OF
THE NEW YORK LEDGER.

We intend to make the NEW YORK LEDGER for 1861 superior to that of 1860, or of any year in the past. Among our contributors will be the PRESIDENT OF THE UNITED STATES, EDWARD EVERETT, GEORGE BANCROFT, WILLIAM CULLEN BRYANT, JOHN G. SAXE, GEORGE P. MORRIS, N. P. WILLIS, GEORGE W. PRESCOTT, THOMAS DUNN ENGLISH, SYLVANUS COBB, JR., EMERSON BENNETT, T. S. ARTHUR, F. HAMILTON MYERS, COL. WALTER EDWARD SLOCUMB, SMITH, JOHN ESTEN COOKE, MRS. SIGOURNEY, MRS. SOUTHWORTH, FANNY FERN, ANNA CORA RITCHIE, ALICE CARY, MARY FORRESTER, MARION HARLAND, MISS E. A. DUPUY, MARY STANLEY GIBSON, PHEBE CARY, and many Clergymen, Professors in Colleges, Statesmen, and other eminent writers residing in different parts of the Union.

Our *corps* of contributors for the coming year will be so large, and will embrace such a variety of talent, that every department of literature will receive the particular attention of some one competent to do it simple and special justice. Whether it be popular romance, scientific essay, historical sketch, scholastic disquisition, spicy paragraph, pathetic ballad, humorous poem, old-fashioned love-story, timely editorial, or any other ingredient of popular and elevated journalism, that is to be furnished, the LEDGER *corps* will be sufficient to the task. In fact, our contributors will send us from week to week much more matter than we can possibly use, so that we shall always have a fresh and abundant supply, from which to select the VERY BEST. These facts, taken in connection with our largely increased means and facilities and experience, warrant us, we think, in promising our readers a family paper for the year 1861 which will be more interesting and instructive, and in every respect more valuable, even than the LEDGER has been in the past.

As an indication of the popularity of the LEDGER, we need only state the simple fact that its circulation is larger than that of any other TEN literary papers in the country. Its great success is owing to the fact that we employ the best writers in the country, and spare no expense in getting up the BEST FAMILY PAPER—a paper of high moral tone. The exalted reputation of its contributors, the practical and invariably pure and healthy character of all its articles, the care which is taken that not even one offensive word shall appear in its columns, and the superiority of its Tales and Sketches, have gained for the NEW YORK LEDGER a position which no literary paper has ever before reached.

—ANNA CORA RITCHIE, of Richmond, Va., and Col. WALTER B. DUNLAP, the author of the popular "Forest Sketches," which were published in our columns some time since, will each begin a story in the LEDGER early in the new year.—Mrs. SOUTHWORTH is also engaged upon a new tale.

In the next number of the LEDGER, we shall publish a very interesting article, written expressly for our columns, entitled A DAY WITH LORD BYRON, from the pen of the Hon. George Bancroft.

It is with much satisfaction that we announce that Mr. EVERETT will continue his valuable and interesting contributions to the LEDGER during the next year.

As this is the season of the year when Postmasters and others are in the habit of forming clubs, we direct their particular attention to

OUR TERMS.

Single copies, $2 per annum; two copies, $3;—four copies, $6; eight copies, $12. Postmasters and others who get up clubs can afterward add single copies at the rate of $1.50. The party who sends us $12 for a club of eight will be entitled to a copy *free* for his trouble. Terms invariably in advance. No subscriptions taken for a less period than one year. Canada subscribers must send twenty-six cents in addition to the subscription, to pay the American postage, which is half a cent a copy on every paper. The notes of all specie-paying banks taken at par. When a draft or check can conveniently be sent, it will be preferred, as it will prevent the possibility of the loss of money by mail.

☞ We employ no travelling agents.

Address all communications to
ROBERT BONNER, Publisher,

1 good second-hand PHAETON, 1 do. BUGGY-WAGON, 1 ditto SLEIGH, 2 ditto CHAISES.

Portsmouth, Dec. 20th, 1860.

Special Notices.

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and any medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov26 dawlm

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; they, however, will testify that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail to moderate excesses and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, send for a pamphlet to the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle by return mail. nov28 dawlm

Sold by W. R. PRESTON and all druggists.

THE OXYGENATED BITTERS.

The qualities of this medicine have placed it up on an imperishable foundation. In destroying disease, and inducing health, it has no paralell.

For the following complaints these Bitters are a Specific: viz—*Dyspepsia, or Indigestion, Heartburn, Acidity, Costiveness, Loss of Appetite, Headache, and General Debility.*

In many sections of our country this preparation is extensively used by physicians in their practice, and it seems to have restored many to health who were apparently beyond the reach of the healing art.

From Mr. Jonathan Chapin.

WALPOLE, N. H., May 18, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—I consider the OXYGENATED BITTERS a valuable medical compound, combining both high medical skill and conscientious honesty in the person by whom they were compounded. I have found them for *Dyspepsia*, with very good effect, and consider them a reliable remedy for that complaint. In all cases where I have found them beneficial used, the result has been highly in their favor I can conscientiously recommend the OXYGENATED BITTERS to all sufferers from diseases of a dyspeptic nature. Yours truly,

JONATHAN CHAPIN.

From Mr. C. A. Shaw.

BIDDEFORD, Me., Aug 7, 1860.

Messrs. S. W. Fowle & Co.—Gents—Disclaiming any intention of puffing a patent medicine, I have to assure you of my high regard for the OXYGENATED BITTERS, and the beneficial effects of which I have witnessed in my own family, and I do not hesitate to pronounce them worthy the entire confidence of the community, as a remedy for that distressing disease, *Dyspepsia*, and a medicine whose merits will guarantee to it a steady sale. Yours, C. A. SHAW.

Prepared by SETH W. FOWLE & CO., Boston;

FOR PREMIUMS ON CROPS.

CORN.

R. C. SANBORN, Hampton Falls.—The land on which my corn grew, measured 164 1-2 rods. This lot consists of a variety of soil. One part is a sandy loam with a little clay; another part is a vegetable soil, something like swamp muck, and is from ten to fifteen inches in depth. There is a living spring on this piece of land, which kept a part of it too wet for the plough, and was probably never ploughed till the autumn of 1859. In the fall of 1858, I put in about 60 rods of tile drains, three feet deep; the main drain from the spring was about three and one-half feet in depth, and four-inch tiles were used for the latter; for the side drains, two-inch tiles were used. The expense of tile, digging and laying the same, and filling ditches, was about $30.—This piece of land formerly grew grass, a part of which was of good quality, and the low land grass was of a coarse quality,—about 1 1-2 tons to the acre. This piece was ploughed in November, 1859, eight inches deep. The first of May, I spread on 7 cords of manure, part, old fine manure, and the rest new manure from the barn cellar, on the dryest portion of the lot. The lowest part had no manure spread on it. It was thoroughly harrowed and furrowed, the rows 3 1-2 feet distant, and the hills 3 feet. Four cords of hog compost, about one-third of which was taken from under an old hog-house, that had been torn down, was put in the hill. Eight or ten kernels of corn were then put in, and covered rather deep, as the ground was dry.—It was planted the 8th and 9th of May, and came up well; after which, I put two barrels of ashes on the dryest part of the piece. The corn was hoed twice in June, using the horse-hoe between the rows; and at the first hoeing, it was thinned, leaving four or five stalks in a hill.

It grew very stalky, especially that on the drained portion of the piece. The stalks were cut the 6th and 7th of September; harvested the 18th of October. The corn was well ripened, when we had the great frost, the 1st of October, and was not injured in the least. There was not a bushel of corn on the piece that was not well ripened; it was as sound and perfect as any that I ever grew. The product was 192 bushels of ears; 153 bushels of large corn (averaging 17 1-2 quarts of shelled corn to the bushel,) and 39 bushels of small corn—but sound—averaging 16 quarts of shelled corn to the bushel—making 103 bushels and 5 1-2 quarts of shelled corn.

Expense of Cultivation.

Plowing and harrowing	$8,00
Carting and spreading manure	3,00
Planting	4,50
Hoeing and cultivating	5,50
Cutting stalks, harvesting, husking	8,50
Seed	50
Manure—11 cords at $4 per cord	44,00
Ashes—6 bushels at 20 cts. per bush.	1,20
Draining	30,00
Interest on land	6,00
Total expenses	$111,20

Value of Crop.

103 bushels 5 1-2 qts. of corn at at 95 cts. per bushel	$98,00
Corn fodder	15,00
Two-thirds of manure unspent	29,33
Total	$142,33
Deduct expenses, including draining	111,20
Net profit, after deducting expense of draining	$31,13

POTATOES.

The land on which my potatoes were grown measured 165 rods. It was broken up in the Spring of 1859, and planted with corn, 16 cords of manure being used on the piece. In November 1859, this piece was ploughed, and again in April, nine inches deep, with the Michigan plough, and then well harrowed, until the soil was as mellow as a garden; it was then furrowed, the rows three feet apart: 170 lbs. of Peruvian guano, 175 lbs. of Mapes' nitrogenized Superphosphate, and 125 lbs. of plaster, mixed together, were spread along the furrows; sixteen bushels of Jackson White potatoes were then planted; they were of a medium size, cut in the middle, and two pieces were put in the hill, about eight inches apart; two feet between the hills. Planted on the 19th and 20th of April; the potatoes were hoed twice in June, and the horse-hoe was run through the rows the last of May and twice in June, and the double mold-board plow was run through twice in June. The potatoes were ripe the middle of August, and were harvested the last of September. There was not a bushel of unsound potatoes on the piece. In regard to the manure used, I would say that I planted a small part of the piece with only superphosphate in the hill, and at the time of digging could see no difference between them and those that had no manure. Where the guano and plaster were used, the potatoes yielded over a third more than where only superphosphate was used. I planted a few short rows, by way of experiment; two rows of medium-sized whole potatoes, two rows with two halves, six or eight inches apart, two rows with one-half in a hill. The two rows where one-half was put in the hill, measured about one-fourth less than either the two rows where the whole ones were put, or the two rows where the two halves were put. The two rows where the whole potatoes were put were the largest, and measured a little more than the other two rows where two halves were put.

Expense of Cultivation.

Ploughing and harrowing	$8.00
Planting	2.50
Hoeing and cultivating	6.00
Harvesting	10.00
Seed	6.50
Manure	11.50
Interest on land	6.00
Total expenses, including manure	$50.50

Value of Crop.

200 bushels a 40 cts. per bushel	$80.00
58 " 25 " "	14.50
Total value of crop	94.50
Deduct expenses	50.50
Net profit	$44.00

BARLEY.

My barley was raised on land which was planted with potatoes in 1859, and which measures 178 rods. It was manured with ten cords of coarse, strawy manure in 1859, which was plowed under. The piece was ploughed about the middle of April, and sown on the 23d, with three bushels of the common two-rowed variety of barley.—Spread on 170 lbs. of Peruvian guano, and harrowed in with the barley. Harvested on the 6th and 7th of August. Product 45 bushels.

Expense of Cultivation.

Plowing and harrowing	$4.00
Sowing barley and guano	.50
Harvesting and threshing	7.00
Guano	5.50
Seed	2.50
Interest on land	5.00
Expense, including manure	$24.50

Value of Crop.

Barley, 45 bushels, a 80 cts. bush.	$36.00
Straw, estimated two tons	12.00
Total value of crop	48.00
Deduct expenses,	24.50
Net profit	$23.50

The labor expended on raising the above crops, is reckoned at $1.00 a day.

A Startling Truth!—Hundreds die annually, from neglected coughs and colds, when by the use of a single bottle of *Dr. Wistar's Balsam of Wild Cherry* their lives could be preserved to a green old age.

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then, who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

Rheumatism! Rheumatism!!

It is well known that bathings, ointments, and external applications, only drive rheumatism from one part of the system to another; and sometimes with fatal results. HUMPHREY'S SPECIFIC HOMEOPATHIC RHEUMATIC PILLS, often cure the worst and most protracted cases. This simple medicated SUGAR PILL will do more to eradicate the disease, than quantities of crude medicines, and has cured when all other means have failed.

Price, 25 cents per box, with directions. Six boxes $1.

Sent by mail or express, free of charge, on receipt of the price.

Address, DR F. HUMPHREYS & CO., 562 Broadway, New York.

Sold in Portsmouth by THACHER.
See advertisement in another column.

DEATHS.

In Swanzey, Mrs. EUNICE HAILE, aged 79½, widow of Mr. John Haile, and mother of Ex-Gov. Haile of Hinsdale.

FAVORITE AUTHORS, a Companion Book of Prose and Poetry. Beautifully printed on tinted paper, and splendidly illustrated with 28 portraits of the authors.

HYMNS OF THE AGES. Second Series. The favor with which the first series of Hymns of the Ages was received, has led the publishers to have prepared another, with hymns of a like character, including many others, which the plan of that forced them to unwillingly reject. Bound in the same style as the first series.

Also received a variety of new JUVENILE BOOKS.

BLANKETS—CHEAP!

PROF. WOOD'S

RESTORATIVE CORDIAL

—AND—

BLOOD RENOVATOR.

Is precisely what its name indicates, for, while pleasant to the taste, it is *revivifying, exhilarating, and strengthening* to the vital powers. It also purifies, refreshes and renews the blood in all its original purity, and thus restores and renders the system invulnerable to the attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all, so thoroughly and skillfully compounded as to be the most powerful tonic, and yet so perfectly adapted *as to act in perfect accordance with the laws of nature*, and strengthen the weakest stomach, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical science, and also by all who have suffered from debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous to which poor humanity is constantly liable. As a specimen, the following: Consumption, Bronchitis, Indigestion, Dyspepsia, Loss of Appetite, Faintness, Nervous Irritability, Neuralgia, Palpitation of the Heart, Melancholy, Hypochondria, Night Sweats, Languor, Giddiness, and all that class of cases, so painfully painful if unattended to in time, called *Female Weakness and Irregularities*. Also Liver Derangements or Torpidity, and Liver Complaints, Diseases of the Kidneys, Scalding or Incontinence of the Urine, or any other general derangement of the Urinary Organs, Pain in the Back, Side, and between the Shoulders, predisposition to Slight Colds, Hacking and Obstinate Coughs, Inflammation, Difficulty of Breathing, and indeed we might enumerate many more still, but we have space only to say, it will prove a sovereign remedy for Shaking Chills and Fever, but prevent all attacks from Miasmatic Influences, and cure the diseases at once. It already stands high as a medicine for deranged or Torpidity, and Liver Complaints, Diseases of the Kidneys, Scalding or Incontinence of the Urine, or any other general derangement of the Urinary Organs, Pain in the Back, Side, and between the Shoulders, predisposition to Slight Colds, Hacking and Obstinate Coughs, Inflammation, Difficulty of Breathing, and indeed we might enumerate many more still, but we have space only to say, it will prove a sovereign remedy for Shaking Chills and Fever, but prevent all attacks from Miasmatic Influences, and cure the diseases at once. It already stands high as a medicine for the biliary system, arousing the Liver to action, promoting, in fact, all the excretions and secretions of the system, it will prove to all who try it the deleterious consequences following upon change of climate and water; hence all travellers should take a bottle with them, and it will cost all should take a tablespoonful at least before eating. As it prevents costiveness, strengthens the digestive organs, it should be in the family of all persons of sedentary habits, students, ministers and literary men. And all ladies not untomed to much outdoor exercise should always use it. If they will, they will find an agreeable, pleasant, and efficient remedy against those ills which rob them of their beauty, and which too often cause their health, and health cannot exist while the above irregularities continue. Then, again, the Cordial is a powerful aid to Nature, and

MOSES ORAN,
OR,
"THE BURGLAR'S NEST."

BY GEO. CLARENCE BLANCHARD.

CHAPTER I.
THE NEST OF THE TOMTIT.

Near the close of a cold day in October, a traveller dismounted from his jaded horse and entered a little hostelry, or tavern, situated in the then wildest region of Pennsylvania. The stranger, who was a large, stout looking man, heavily bearded, paused before the door that led into the bar-room, and peeped inquisitively in; seeing a small group sitting around the table, he walked very leisurely toward them, introducing himself in a frank, easy style.

"A good evening, gentlemen, to you all."

The company, who were earnestly engaged in conversing, hardly noticed his entrance, but when he spoke, they instantly paused and greeted the new-comer with a look plainly expressive of surprise, curiosity and anger. One of the party, who had a less sinister and surly face than the rest, gravely advanced toward him, eyeing him sharply as he said:

"You wish lodgings, my man?"

"Certainly I do, Mr. Beg, (who at the mention of his own name visibly started,) what else should I stop here for? There's my pony want's the same thing; attend to him first, and in the meanwhile I will make myself at home."

So saying, the stranger, scarcely heeding the general scowl which greeted him as he said this, coolly lit his cigar, and forthwith stretched himself in an easy posture in Tim Beg's favorite arm chair, much to the astonisment of that gentleman, who slowly moved toward the door, winking slily at his companions as he did so.

The stranger commenced to smoke, eyeing the company with a nonchalance and familiarity that took them completely by surprise.

"Vot yer doing here for?" growled a dark-visaged, ugly-looking scoundrel, whose pox-marked face was half obscured by a dirty cap. He rose as he spoke, and drew out a sharp knife.

"Oh ho!" laughed the stranger, sending up a long spiral column of smoke, and regarding the other with half a sneer. "Don't attempt to frighten me; ain't your name Dick Hatton?"

Scarcely had he asked the question before the whole party sprang instantaneously to their feet, and confronted him with the rage of tigers—and a more precious crew of cut-throats could hardly have been found.

"Kill him! kill him!" was the general cry. Pistols and bowie-knives were promiscuously drawn, and one could see they longed to lap the blood of the unfortunate man as they crowded around their victim. Dick Hatton, with an ugly grin, interposed.

"Stop, boys, the fellow is safe. I vant to catechize 'im afore he's made mince meat of. Come, now, who are ye?"

During all the tumult occasioned by his remark, the stranger had kept his easy, half-recumbent position, regardless of the menacing group, continuing to smoke with the most astonishing coolness, and eyeing them all with a sort of saucy smile that was absolutely provoking.

"Come, now, who are ye?" repeated Dick Hatton, tightening his grasp on his bowie-knife.

The ruffians pressed nearer, a dozen knives were raised, but still the stranger manifested not the slightest symptom of alarm. Carelessly divesting himself of his beard, he proceeded in the same quiet way to dispose of a black curling wig. In one second more, the gang had burst into a wild halloo, which sent Tim Beg rushing back.

"Blow my eyes!" exclaimed he, letting his pipe fall from his mouth, in his amazement. "Why, it's the Tomtit!"

"Nobody else," replied that individual, who had not changed his position, but was puffing vigorously at his cigar. "You're bright people, all of you, 'pon my word;—now, Beg, see if you can trot back to the stable, and put my horse in better quarters than you at first intended; and hearken, lad, tell that spoony of a wife of yours to fix up something hot; I'm blasted hungry. Now, then, what are you all gaping at me for?" added the Tomtit, surveying the group with a derisive smile. "Don't know me when I've cheated you so often? Nice fellows!"

The gang indeed looked very foolish, at the unexpected denouement. Their weapons were once more returned to their hiding places, and they stood staring at their chief, scarcely believing their own eyes.

"Ther devil 'imself would find it 'ard to tell ye," observed Dick, sulkily. "Vy, Beg, as knows everybody, with von eye, gets taken in. But, Tomtit, vot's the news?"

"Never you trouble your head for that, it will come in good time," replied the Tomtit, draining a glass of ale, officiously placed before him. "Everything just as I suspected. The police were on our track at Gamble's, but I fixed 'em. With this brief synopsis of the news, the Tomtit leaned back in his chair, and continued to smoke in a thoughtful, meditative manner.

In about fifteen minutes, Mrs. Beg, a portly, red-haired lady, announced that supper was ready, and the gang adjourned to a small apartment in the rear part of the building, where a rude meal was served up; a roast pig forming the principal feature of the entertainment, which was quickly washed down with a liberal supply of whisky.

"Now, then," said the Tomtit, after he had satisfied his hunger, and was stirring the components of a second glassful of punch; "now, then, boys, I am ready to tell the news. In the first place, Crib has been cribbed."

"What!" ejaculated the gang with one voice. "Crib nabbed!"

"Crib is cribbed, and that's the short and long of it," observed the Tomtit, gloomily. "Once was the time when the trade could be carried on, and none of us ran the least bit of a risk; even a 'Nest' was n't necessary; now the thing gets every day more dangerous, and the profits smaller."

"But what about Crib?" inquired several of the gang, anxiously.

"Crib," continued the Tomtit, "acted like a precious fool; I told him all the boys had left but him, but he was so blasted confident he kept lagging, and putting off, till he got cribbed. He would just close his peepers, and walk into the pit without any one helping him; confound him, he nearly dragged me with him."

The company now pressed the Tomtit for more detailed information, from which it appeared that that unlucky individual had indulged in a spree, and having boasted pretty freely of his achievements in the burglary line, was incontinently pounced upon by the Philadelphia police, who had long been on the look-out for him.

"He won't peach, I 'ope," observed Dick Hatton. "It would be a werry bad blow-up arter all the trouble of 'ouse keeping, not saying nothing about 'aving no private conveniences, and a place for to 'ide when ther vind blows 'igh."

"He aint going to peach," said Mr. Beg, authoritatively, "not he, I know him to be a bully man."

"So do I, so do I," exclaimed several voices at one.

"As to the matter of that," remarked Tomtit, "he'll keep things dark, and may be set them on the wrong scent—let him alone for that. But blast me," continued the gentleman, "that isn't the thing; we can't spare Crib; why, the whole twelve of us are wanted for next week's job, and Crib was such a locksmith that his services were next to gold; but it's just our confounded luck."

The Tomtit, with this brief reference to the valuable qualifications of Mr. Crib, proceeded to mix a third glass of whisky punch, and to swallow the same with a look of becoming sorrow and resignation.

"As he's gone," continued the Tomtit, musingly, "I suppose it's best to try a different plan; I tell you what, boys, I have a great mind to postpone this visit to Van Cleecker's for a fortnight at least, till I can get one of us in some way connected with the house; I heard the other day that the old gentleman wanted a coachman, and if I had somebody to personate one, why it would be a very rum thing to get him in there, and then, don't you see, there would be no need of a locksmith."

"Vy don't you go, Tomtit, yer vould make a rum coachee, per vould?" suggested Dick, with a grin.

"Why, as to that, I might suit the old gentleman to a hair," returned the Tomtit, complacently; "but I have something more important to manage; no, I'll tell you what, boys, I've a good mind to send one of you."

"Good," said several voices.

"I know," continued the Tomtit, "all about the house, as far as that goes, for I have visited every nook and corner myself, but still it would be very convenient to have somebody to let us in; Crib could have opened the back door easily, but seeing he's caged, we'll have to give up getting in that way."

"Hist!" suddenly exclaimed Mr. Beg, describing with his finger a rapid movement in the direction of the window. The burglars started and pricked up their ears as they distinctly heard the sound of an approaching vehicle; it was just wheeling up before the tavern, and Mr. Beg, who had been sent to reconnoitre, quickly returned to report to the anxious gang that it was only a traveller who had lost his way and wished to stay over night. "He's a jolly looking un, and has a big carpet bag, whispered Mr. Beg.

This intelligence caused a momentary excitement; the burglars started up, their fierce eyes sparkling with eager delight, but meeting the gaze of their chief, they sullenly resumed their seats.

"Is it a werry comfortable looking bag?" enquired Dick, rubbing his hands in expectation of plunder.

"Very promising looking, I should say," replied Mr. Beg, "but what shall I do with the owner?"

Four tallow candles were now brought into the room, and the burglars held a hurried conversation as to how they should dispose of their visitor; some were for dispatching him at once, others were for making away with him silently, but as a prolonged discussion seemed likely to arise, Mr. Beg was commissioned to see to the personal comfort of the gentleman, provide him with a supper, and make ready his apartment, which last direction caused Mr. Beg to grin from ear to ear.

"Mind," said Dick, "to put 'im in the room vot's got the trap-door, vich is ther werry model of convenience, and the comfortablest room in ther 'ouse."

Mr. Beg laughed approvingly at Mr. Hatton's humorous allusion to the trap-door, and left his friends to continue their consultation.

'My advice,' said Dick, 'is to run 'im down ven he's snoozing, and drop 'im in ther vat; dead men doesn't tell tales."

"Dead men does tell tales, though," interrupted one of the burglars, lowering his voice to an impressive whisper, "they come up and peach, if it's only to get a cove in trouble."

"I think so too," chimed in another, "who was known by the soubriquet of Molecat; "they'll come up sometimes ven its werry inconvenient and troublesome. Vonce, ven I was doing business in the pad line in York, we cotched a fellow who wos werry lushy. It wos a werry good haul, an' some on us was for letting him go; but he kept such a hollerin, and threatening, that, arter parleying a little, Bill Hedges he gives him a knock on the head vich silenced him; well, afore we tossed him in the river, Bill ties a big rock to his neck to prevent his coming up and breeding a lot o' nasty questions; but the werry next morning the spiteful corpse comes ashore without the rock, and holding onto a piece of Bill Hedges' jacket, vich vos the means of convicting him and sending him to the gallows."

Mr. Molecat's record of his personal experience seemed to make but little impression on his listeners, for the main subject under consideration was resumed, and a lively dobate sprung up, which was, however, not participated in by the Tomtit.

That gentleman sat quietly listening to the various opinions, deigning no other comment than an occasional nod of his head. It was evident that the burglars were unanimously in favor of instantly destroying the traveller; though they essentially varied in their proposed plan of operation.

Mr. Dick Hatton watched his leader's countenance during the progress of the conversation, but it looked stolidly indifferent.

"Vot's yer opinion, Tomtit?" he inquired anxiously. "Ain't yer going to say nothin'?"

"Of cours I am," replied Tomtit, planting his legs defiantly on table; my opinion is the opinion that's got to be adopted, and no chattering. Now look here," continued he, fixing his restless eyes on the group, you all want to make way with this traveller?"

"That's so," exclaimed the burglars.

"And I," continued Tom, slowly, "am for letting him go."

It would be impossible to describe the effect produced by this decision. The burglars jumped up, and oaths and imprecations of every description, were showered on their leader.

"I say," repeated the chief, unmoved by the threatening attitude of his men, "he shall go free,—not a hair of his head shall be touched; and who dares object?" His stern, gray eyes glanced from burglar to burglar, and they involuntarily quailed before their defiant gleam.

"Now, listen, you fools, to my reasons," continued the Tomtit angrily, as the overawed villains shrank back into their seats. "You all know next week we do a heavy job in the wholesale line; after it's done we must keep dark. The 'Nest' is the only place we are safe in, and here we must remain till the matter blows over: but if this man is missed, between that and the job, there'll be such a hue and cry raised that we won't dare to show our beads; now do you understand?"

"Well, s'pose we run the horse and wagon up the country, and bitch his clothes by the side of the river, vich will look as tho' he circumwented himself?" suggested Mr. Molecat.

The Tomtit shook his head contemptuously.

"Now, then, what would you get for the pains-taking and risk? Why, just a carpet-bag, and maybe a few trifles; people aint such fools as you take them, to go lugging money round the country—there'd be plenty of questions asked about the carpet-bag, and likely enough the horse might take it into his head to come back—horses aint fools either," observed the Tomtit, sarcastically.

Mr. Molecat scratched his head, as an expressive indication that the argument was unanswerable, and a short pause ensued.

"Vell," rem rked Dick Hatton, breaking the silence, "ther Tomtit's right, I suppose, but it does look sorter hard arter the bird's cotched to perwent the pickin' of 'im. It's mean, that's vot it is!"

The Tomtit vouchsafed no reply to this sullen speech, but lighting a fresh cigar, he rose, shook himself, and called Mr. Beg into an adjoining apartment.

"Where is the man," said he.

"In the back room, eating his supper," was that worthy's reply; "you can peep at him easy enough, for I left the door on the swing."

The Tomtit accordingly crept stealthily into the passage, and getting on his hands and knees, obtained a very excellent view of the stranger, who was quiety proceeding with his meal. Scarcely, however, had the Tomtit's restless eye peered within, than he gave a start of surprise, and retreated immediately.

"Here, Beg," he whispered, in an excited tone, as that individual followed him back again to the private room; here's a confounded go. Who do you suppose that man is?"

Mr. Beg, of course, intimated that he did not know, whereupon the Tomtit, looking around to satisfy himself that they were alone, brought his hand in the form of a trumpet close to Mr. Beg's ear, and whispered:

"It's Duffy!"

Mr. Beg's face turned deathly pale.

"What," he whispered, "the Detective?"

"The same," rejoined the Tomtit, with an expression plainly denoting agitation. 'Who or what could bring him here alone, I neither know or can guess—Beg, keep this from the boys, they're savage enough now, but if they should find out the truth, I could not control 'em. They would tear this man to pieces; but, Beg, that mustn't be; they must be led off; for it would be the worst thing yet to kill him; he would be missed as sure as preaching."

"Is this the one who has been trying so long to find our Nest?" inquired Beg.

"The very same," replied Tomtit. "You know the State government has offered a reward of over five thousand dollars for the discovery of our whereabouts, and this Duffy has been sneaking around trying to find us, not so much for the possession of the reward as some private aim; he ain't a regular Detective, or he might be led off; years ago he was on our track. I have been watching him all along, designing to finish him when a good opportunity offered, but the wiry scoundrel managed to escape me; he may disguise himself as much as he likes, he can't cheat me."

"He's disguised, then?" said Mr. Beg, amazed afresh.

"Of course he is; that fatness isn't real. He thinks he's unknown to me, but I'll pay him off yet," rejoined the Tomtit, with a silent imprecation. "I'll get rid of him, but it must not be done here. Now then, Beg, listen: Fetch me a lantern and the key of the—— You understand me."

Beg nodded his head, and flew off with alacrity. No one entertained a greater admiration of the Tomtit than that gentleman; he regarded him with the same deference a dog would show to his master, and was contented as long as he could testify his servile affection; he quickly returned with the lantern and key, and to his great surprise he found the burglar chief absorbed in the contemplation of the miniature of a young girl, seemingly some seventeen years of age, and of surpassing loveliness, and heard him mutter, *"He certainly has good cause to hate me, but I would have spared* HIM *had he kept away from the 'Nest.' Note, however, he has rushed upon his doom!"* Then becoming aware of Beg's presence, the Tomtit thrust the picture in his bosom, and turning to the inn-keeper, whispered:

"Let me out by the back-door, Beg."

"All right," was the quiet response.

"Not a word to the boys, mind; if they miss me, tell 'em I've gone to bed."

The Tomtit, with this parting caution, made his exit from the door, which Mr. Beg held open, and walked off.

The faithful custodian of the Burglar's Nest stood for a few minutes listening, till the retreating footsteps of the burglar chief had died away in the distance; then he carefully closed the door, and returned to the bar, there to muse over the surprising and startling disclosures the Tomtit had made to him.

It was one of those remarkable circumstances that sometimes happen in real life, that Mr. Detective Duffy should have unconsciously blundered into the very place he had been searching for vainly the past two years. As he sat quietly eating his supper he little dreamt that a few yards off stood a figure, the mere sight of which would have driven him to a frenzy; and well it might,—for there was a story connected with that figure, a tale so heart-rending, so terrible, so revolting,—of faith broken, of hospitality abused, of wrongs perpetrated, of an idolized daughter consigned to wretchedness,—that it could not have been passed over. It had left its impress on the care-worn features of that old man, discernible in every lineament; his gray eyes seemed to flash with the same spirit,—of deep, absorbing revenge.

And now these two men were about to meet—the Detective known to the Burglar, the Burglar unknown to the Detective—to engage in a desperate game, the issue of which was to be death to one or both. Intelligence and honesty were to be pitted against cunning and crime. What was to be the result of this fearful struggle and thirst for vengeance, we shall be able to see in our next chapter.

The above is all of this story that will be published in our columns. The continuation of it from where it leaves off here can can be found only in the New York Ledger, the great family paper, which is for sale at all the stores throughout the city and country, where papers are sold. Remember and ask for the New York Ledger of January 5, and in it you will find the continuation of the story from where it leaves off here.

The Ledger is mailed to subscribers at $2 a year, or two copies for $3. The bills of all good sound banks in any portion of the Union taken at par. Address your letters to Robert Bonner, publisher, 40 Park Row, New York. It is the handsomest and best family paper in the country, elegantly printed, and characterized by a high moral tone.

Watch and Clock Repairing.

Having secured the services of a superior Watchmaker, from Boston, I am prepared to do all Watch or Clock repairing which may be entrusted to my care, with neatness and dispatch. All work warranted.

A. L. BENNETT, No. 7 Congress street.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, DECEMBER 22, 1860.

THE SECESSION.—The South Carolina Convention, on the 19th December, passed various resolutions, to negotiate with the United States' President and Congress, with slave States, etc.

Mr. Mazyck offered a resolution that a committee be appointed to inquire and report how much of the action of Congress would be abrogated, so far as South Carolina is concerned, by its secession, and how much would remain in force. Made the special order for Thursday.

This last is a very pertinent one. Their secession abrogates nothing but their own powers.

On the 20th, Mr. Ingliss reported the following ordinance:—

"We, the people of South Carolina in convention assembled, do declare and ordain that the ordinance adopted by us, in Convention on the 23d of May, 1788, whereby the Constitution of the United States was ratified, and all acts or parts of the General Assembly of this State ratifying the amendments to said Constitution are hereby repealed, and the Union now subsisting between South Carolina and the other States, under the name of the United States of America, is hereby dissolved."

The ordinance was passed unanimously by 169 members at a quarter past one o'clock.

The news spread rapidly, and a crowd collected amid great cheering.

Mr. Miles moved that the clerk telegraph the intelligence to the members at Washington. Carried.

DESPOTISM AND LIBERTY.—A St. Petersburg letter says that the Czar has signed a decree emancipating all the serfs of Russia. The decree will be proclaimed on the first of January.

On the same day, and by the same mail which brings this item, we get the report that South Carolina has voted to secede from the Union, because she fancies that negro slavery and white subserviency to it, cannot be made perpetual in the nation, and spread over the territories. Russia is an absolute monarchy. South Carolina has been called a republic.

HOW ARE THE OFFICERS AND SOLDIERS IN THE FORTS TO BE SAVED?—The answer is given by the Washington correspondent of the Charleston Courier, in the last line of the following paragraph:

Some friends of the officer who commands at Fort Moultrie were here the other day to request the President to relieve him from the disagreeable position.—But they were advised not to press the application, for two reasons, to wit: that the Fort would not be attacked, and that, if attacked, Major Anderson *would be ordered to surrender it without firing a gun.*

A MEDIATOR.—It is telegraphed from Washington that Gen. Cushing has been sent to South Carolina with instructions from the President to use strenuous efforts to prevent secession. Mr. Buchanan does not relish the idea of being the last President of the United States; and too old and weak for the Gen. Jackson policy, he attempts other means, which he hopes will prove successful.

☞ The Burlington Free Press contains the following parody on the House that Jack built:

The House that Sam Built.—The White House.—This is the House that Sam built.

One Hundred Thousand Dollars.—This is the malt that lay in the House that Sam built.

James Buchanan.—This is the rat that ate the malt, that lay in the House that Sam built.

S. A. Douglas.—This is the cat that killed the rat, that ate the malt, that lay in the House that Sam built.

Breckinridge.—This is the dog that worried the cat, that killed the rat, that ate the malt, &c.

Bell-Everett.—This is the cow with the crumpled horn, that tossed the dog, that worried the cat, &c.

N. Y. Express.—This is the maiden all forlorn, that milked the cow with a crumpled horn, &c.

Journal of Commerce.—This is the man all tattered and torn, that kissed the maiden all forlorn, &c.

N. Y. Observer.—This is the Priest all shaven an shorn, that married the man all tattered and torn, unto the maiden all forlorn, &c.

Independent.—This is the cock that crowed in the morn to waken the Priest all shaven an shorn, that married the man all tattered and torn, &c.

Abe Lincoln.—This is the Hunter with trumpet and horn, that owned the cock that crowed in the morn, to waken the priest all shaven and shorn, that married the man all tattered and torn, unto the maiden all forlorn, that milked the cow with crumpled horn, that tossed the dog that worried the cat, that killed the rat, that ate the malt, that lay in the house that Sam built.

The Boston Post says that Sidney Webster, the law partner of Gen. Cushing, has removed to New York, and that Gen. Cushing will there open an office with him and James B. Craig; still, however, retaining his domicil in Massachusetts.

MOBILE, Dec. 19.—The news from Charleston was received with great rejoicings. The bells were rung, the military paraded, speeches were made, &c.

It is now the general opinion that nearly all the Southern States will agree to the call of a convention of the Southern States for the purpose of adopting a platform whereupon they are to stand in future relations with the non-slaveholding States. The convention will no doubt propose to the non-slaveholding States terms upon which they will remain in the Union. The constitution will then, no doubt, be amended accordingly. No one can desire an adjustment of the present differences more than the incoming President, who will find him self in a dilemma if seven or eight States should send commissioners to him on the day of his inauguration, informing him of their withdrawal from the Union, and the establishment by them of a provisional government.—*Wash. Corres. Balt. Sun.*

We don't see the dilemma. The new state of things would demand some new measures, which Congress would adopt, for which purpose the president would be obliged to call a special session immediately.—The "incoming administration" has no power as such, till March 4, and of course no duties and no responsibility. Mr. Buchanan's administration lasts till then, and his responsibility goes on with it.

☞ A San Francisco correspondent of the New York Herald thus writes: "The influence of Broderick's death had much to do with increasing Lincoln's vote. The memory of the dead Senator is cherished by thousands, who voted, I believe, for the republican candidate; and the conduct of Mr. Buchanan, in appointing a man who participated in the duel that ended in his death, to a legal office in this city, mortified and incensed thousands of citizens, irrespective of party. I have gone into these particulars because the political change is a very great one."

SERVED HIM RIGHT.—In the Burns incendiary case, charged with burning the buildings of George P. Burnham, Esq., of Melrose, Charles W. Hall, the most important government witness, (who swore before the Justice's Court that Burns furnished him with matches and went with him to set the fire,) was suddenly spirited away when the first trial came on in the Superior Court, and Burns was acquitted on one of the five indictments found against him. N. R. Robinson, a constable of Melrose, has been upon Hall's track for the last six months, and Burns was re-arrested by him a few days since upon one of the pending cases.

Thursday morning, Mr. Robinson in conjunction with officer Tuck of Haverhill, succeded in arresting Hall, and he was committed, upon surrender by his bail, to jail at Cambridge, as a witness to the trial of Burns, now set down for the second Monday in February next.

☞ At Brunswick, Me., Mr. Berry, the proprietor of the Tontine Hotel, the only one in the place, was recently indicted, convicted, and find the sum of $50 for violating the liquor law, whereupon, *a la* South Carolina, he seceded from the state —of an inn-holder—to private life, took down his sign, closed his blinds and doors, and refused to admit travellers; so that now any one wishing to stop in Brunswick must be indebted to private hospitality for a meal and a night's lodging. This is very annoying to travellers, but Mr. Berry will probably find that the greatest injury will recoil on himself.

James Hall, the keeper of a liquor shop, having sinned in like manner the requisite number of times to entitle him to six months in the county jail, in addition to a fine of $100, is now serving out his sentence. Another liquor seller has been fined $50. Two witnesses who refused to appear in obedience to the ordinary summons in the Berry case, have been fined according to law, and compelled to testify.

MANUFACTURING IN MANCHESTER.—The Manchester American says that "the cotton manufacturing interests of that city are now in unusual activity, some of the corporations doing considerable night work. A six months' supply of cotton is on hand, and the manufactures sold nearly up to the present time. Although a rumor is current that the mills are soon to run on short time, it probably has no foundation, except in the minds of alarmists. Cotton itself is rendered so cheap by the political crisis, that extensive manufacturers are purchasing heavily."

DEATH IN JAIL.—Daniel Credan, the boy who set fire to the State Reform School Buildings at Westboro', died at the jail in Worcester, of consumption. While at the jail he had been a well disposed and obedient boy, and had won the affection of those to whose care he was consigned. His mother, by his desire was with him during the last few days of his illness.

WASHINGTON, Dec. 21.—Arrangements are being made to pay the interest on the public debt by Jan. 1st in coin.

Yes: *borrowed* coin. Why not as well pay in borrowed paper?

NORFOLK, Va., Dec. 21.—At a large meeting last night resolutions were adopted recommending that national and State conventions be called to oppose coercion; also in favor of arming the State, and opposed to opening the slave trade.

CONGRESS, THURSDAY, Dec. 20.

SENATE.—Mr. Hunter reported back the Tariff bill, recommending that it be postponed to the 4th of March. Tabled.

A message was received from the House, announcing the passage of the Postal Deficiency bill.

Mr. Clark moved to take up his resolution of inquiry in regard to the condition of Fort Moultrie, &c.

Mr. Saulsbury hoped that the friends of the Union would not allow the consideration of the resolution. It would only add to the excitement, and destroy the little harmony that was left.

Mr. Clark said he did not wish to increase the excitement, but thought the resolutions would enable them to come at the truth of the whole matter.

Mr. Lane objected, and said he was for peace.

Mr. Mason supposed the object of the mover to be, after giving information by another resolution, to require that troops should be sent to those forts.

Mr. Clark said that Mr. Mason mis understood him. He wished to get at the truth and the President to get it. He had no object further than the resolution expressed.

Mr. Davis contended that the enquiries were improper, and might only embarrass the President, who could not send troops now without bringing on the collision now dreaded. He trusted there would be no collision.

The deficiency bill from the House was referred to the Committee on Finance.

Mr. Johnson's resolution was then taken up.

Mr. Pugh said that all nations were looking for the restoration of peace in this country. His colleague (Mr. Wade) spoke of peace. When he left home all was anarchy and confusion. Mr. Wade had said that the character of Mr. Lincoln was such as to preclude any fear from his administration. But he was a most obscure man. He did not believe that more than one man in a thousand who voted for him knew anything about him.

Mr. Wade asked Mr. Pugh if he knew anything about the character of Mr. Buchanan when he voted for him. (Laughter.)

Mr. Pugh said he did, and voted knowingly. He called on those living in distant States to help avert civil war, a calamity which will fall heavily on the border States.

He believed with his colleague that we shall be driven to the verge of ruin. Separate Confederacies had no charm for him, if discord, coercion and civil war were to be the consequences.

Mr. Nicholson got the floor, when further consideration of the resolution was postponed.

The Vice President announced the special committee on Mr. Powell's resolution, viz: Powell, Hunter, Crittenden, Seward, Toombs, Douglas, Collamer, Davis, Wade, Bigler, Rice, Doolittle, Grimes.

Mr. Davis of Mississippi was excused by his request, owing to the condition in which his State stood.

HOUSE.—Mr. Delano of Massachusetts offered a resolution that the President be requested to furnish information, oral or written, to the effect whether, if the forts of the harbor of Charleston be not further reinforced, they will be taken by any force hostile to the authority and supremacy of the United States. In the preamble to the resolution, Mr. Delano quoted Mr. Miles' declaration in the Charleston Convention relative to the taking of the forts by the people, if the President sent additional troops there.

Here there was considerable excitement on the southern side of the House.

The Speaker said the debate or the resolution were in order. The latter might be considered at a future time.

The report on the Watrous impeachment case will be considered on Thursday next.

The House then went into Committee of the Whole on the Nebraska railroad land grants.

In the course of the debate, Mr. Garnett of Virginia said that South Carolina, by the glorious action of her people at half-past one to-day, had withdrawn from the Union. (Suppressed applause in the lower part of the hall.)

The Committee reported the bill to the House as amended, and it was passed, 95 against 74. Adjourned to Wednesday.

WASHINGTON, Dec. 20.—The report that South Carolina had passed the ordinance of secession, was brought into the House at 4 o'clock in the afternoon. The intense excitement confused the proceedings for a long time.

The Senate confirmed the nomination of Mr. Staunton for Attorney General.

About three-fourths of the ten million loan has been paid in. Some of the larger bidders—from $100,000 to $200,000—deposited the entire amount.

The Select Committee of Thirty-three has as yet done nothing that excites particular interest. There appears to be no curiosity respecting their secret movements.

The young ladies who have seceded from the seminaries of Pennsylvania and New York, passed through Washington to-day on their return South.

NEW YORK, Dec. 21.—The Herald correspondent at Springfield says Thurlow Weed has had an interview with Lincoln.—The latter insisted upon modifying Weed's compromise plan, and repudiated the idea of a restoration of geographical lines.

The Springfield Journal says if South Carolina violates the laws there will be war.

Mr. Crittenden's resolution will be supported by Douglas, Bigler, Pugh and three other Senators.

Mr. Cushing's visit to Charleston is said to be of a private nature.

The Times Washington correspondent says Maj. Anderson has been instructed to surrender Fort Moultrie if it is attacked.

☞ The New York Congressional delegation are a unit against disunion, and will stand by the Union at all hazards. Dan. Sickles is the only one at all shaky on the subject.

COLUMBIA, S. C. Dec. 20.—Mr. Keitt resigned his seat in Congress to-day.

The Methodist Conference has passed resolutions favoring secession.

ITALY, AUSTRIA, &c.

The following items are from the European news by the Persia. There is nothing later from Gaeta.

Francis Second has issued a protest complaining of the apathy of the European sovereigns, and denouncing Victor Emanuel. Francis had concluded a loan at Vienna.

The Garibaldians had suppressed disturbances in several places. The ringleaders were shot.

The Archbishop of Naples had been mobbed and his palace threatened. After eighteen hours of riot, the mob was appeased by the Archbishop bearing the tri color.

It is reported that Napoleon had declared to the Bishop of Versailles, with much sarcasm, that the temporal power of the Pope must be put down.

Count Persigny, Minister of the Interior, has issued important circulars to the Prefects throughout France. One promises the utmost liberty to the press.

The Austrian Cabinet is reported to be discussing the propriety of martial law throughout Hungary.

It is rumored that the Hungarian Committee at Milan has proposed to tender the Crown of Hungary to Prince Napoleon.

General O'Donnell was shot in the shoulder while leaving the Spanish Senate.

The French Ambassador in Turkey is urging the French occupation in Syria.—The Porte objects.

The Emperor was about to grant an amnesty to the journals for previous infractions of the Press law.

It is reported that the Austrian Concordat with Rome is about to be annulled.

Victor Emanuel has offered to be responsible for that part of the public debt of Rome which falls to the territory occupied by Sardinia. Cardinal Antonelli met the overture with a peremptory refusal.

☞ Rev. Dr. Tefts, of Bangor, is reported as saying in Boston that the only hope of saving the Union, lies in effecting a Union in the Christian church. If that is so, (says the Providence Journal) the reading of history does not encourage us to hope that the remedy will soon be available.

SENTENCED FOR STEALING GAS.—In the Superior Court, Boston, James D. Ingersoll, convicted of stealing gas from the Boston Gas Light Company, was sentenced by Judge Ames to four months' hard labor in the House of Correction.

☞ A young lady named Ordway, was killed at Proctorsville, Vermont, last week, by being thrown from a sleigh. She was thrown against a fence with such force as to break her neck

☞ The factories at Amesbury and Salisbury have commenced to work on short time—about two-thirds the day—neither lighting up morning or evening.

PEOPLE'S LYCEUM.

The Third Lecture for the benefit of the Free-will Baptist Society in this city will be delivered

AT THE TEMPLE

On TUESDAY EVENING, Dec. 25th,

By REV. G. P. DAY, of Providence, R. I.

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then, who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

For Coughs, or for any disease of the Breathing Organs, use J. R. Stafford's Olive Tar and Iron & Sulphur Powder, which are advertised in this paper. The Olive Tar infuses Magnetism or Vitality, allaying at once any pain or oppression, and its great balsamic properties heal soreness and inflammation. The Iron and Sulphur Powders, being a soluble preparation, unite with the digestive food, and enter with it into the formation of new Blood, the Iron retaining the vital or life-giving forces in the blood, which in its circulation is diffused through the entire system.—The combined Sulphur converts the waste or worn-out particles of the blood into gases which are expelled from the body through its pores by the increased energy imparted to the Blood. It is these waste or worn-out particles of blood that form Phlegm and Tubercles, and it is their acrid humor which irritates and destroys the membranes of the Throat, Bronchial Tubes, and Air Cells of the Lungs. Send for a pamphlet.

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herb being combined with sugar in the least objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov28 dawâm

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of

SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail to moderate excess and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, send for a pamphlet to the Agent. One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail. nov28dawâm

Sold by W. R. PRESTON and all druggists.

Atwood's Quinine Tonic Bitters,—the best Aromatic Tonic ever offered to the public.—All the Druggists have it. See advertisement.

THE OXYGENATED BITTERS.

The qualities of this medicine have placed it up on an imperishable foundation. In destroying disease, and inducing health, it has no paralell.

For the following complaints these Bitters are a Specific: viz—*Dyspepsia, or Indigestion, Heartburn, Acidity, Costiveness, Loss of Appetite, Headache, and General Debility.*

In many sections of our country this preparation is extensively used by physicians in their practice, and it seems to have restored many to health who were apparently beyond the reach of the healing art.

From Mr. Jonathan Chapin.

WALPOLE, N. H., May 18, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—I consider the OXYGENATED BITTERS a valuable medical compound, combining both high medical skill and conscientious honesty in the person by whom they were compounded. I have used them for *Dyspepsia*, with very good effect, and consider them a reliable remedy for that complaint. In all cases where I have known of their being used, the result has been highly in their favor I can conscientiously recommend the OXYGENATED BITTERS to all sufferers from diseases of a dyspeptic nature Yours truly,

JONATHAN CHAPIN.

From Mr. C. A. Shaw.

BRIDGTON, Me., Aug 7, 1860.

Messrs. S. W. Fowle & Co.—Gents:—Disclaiming any intention of puffing a patent medicine, I have to assure you of my high regard for the OXYGENATED BITTERS, the beneficial effects of which I have witnessed in my own family, and I do not hesitate to recommend them as worthy the entire confidence of the community, as a remedy for that distressing disease, *Dyspepsia*, and a medicine whose merits will guarantee to it a steady sale. Yours truly, C. A. SHAW.

Prepared by SETH W. FOWLE & CO., Boston;

Local.

☞ Mr. Norton, the City Marshal, reports 147 arrests, from Oct. 1 to Dec. 20—made for the following causes, viz.:

Drunkenness 46, assaults 8, larceny 6, lodgings 48, encumbering sidewalk 19, disturbing schools 5, abuse to parents 4, vagrancy 3, riot 4, receiving stolen goods 1, obtaining money by false pretence 1, disorderly conduct in the street 1, setting fire 1.

☞ A burglarious attempt to enter the the house of Dr. M. G. Delaney, in Deer street, was made on Saturday night last.—The intention evidently was to noiselessly remove a light of glass in order to reach the fastening to a back window, but fortunately the breaking of the glass disturbed those in the house and the robber fled.

CONDEMNED.—Sch. Susan & Phebe, of Haverhill, Mass., Moses M. Hodgion master, arr. in Portsmouth harbor 13th inst, lesky, and was condemned by the Port Wardens. She has on board a cargo of lumber saved from sch. Coral of Newburyport, wrecked at Wood Island.

AN INCIDENT OF TRADE.—The Newark (N. J.) Mercury narrates the following incident:

A Southern dealer visited a carriage manufactory in Rahway some time since, with a view of purchasing a lot of carriages. After examining the assortment, he changed to observe another factory across the way, and remarked that he would step across and take a look at his stock. 'But, said the manufacturer—a Democrat of course—'that is a Black Republican house.' 'Indeed,, said the customer; then, after a pause, 'well, it won't do any harm to look; and with that, passing over to the rival establishment, he inspected the stock, finding out very soon that he could buy mere cheaply than at the first place he had visited.—He expressed his satisfaction; but, turning to the proprietor, inquired, 'What are your politics?' The reply was prompt; 'We sell carriages, sir, not principles.' 'Well, said the Southerner, 'that is plain and square, at any rate.' He at once ordered a bill of goods amounting to some hundreds of dollars, and went away perfectly satisfied. Honesty and manliness are not always detrimental, even to men in the Southern trade.

☞ The state of business in Georgia may be inferred from the following statement of the Macon Telegraph:

A few dollars, or their representatives, may now and then be seen in town; but in the country, we are told (and in fact have good reason to feel the truth of it) that money is scarce beyond all precedent, so scarce that it is impossible to pay taxes.

BUSINESS AT NEW ORLEANS.—The best planters' promises to pay are not negotiable at five per cent a month, although made in the old form, with good city names upon them as payers. Factorage houses go down like hail, and utter stagnation reigns every where. On the memorable fourth of December, when a vast amount of paper falls due in this city, sixty cotton houses suspended, and paper went to protest to the amount of $10,000,000. The oldest and best dry goods houses are offering their goods at a ruinous sacrifice, and there is hardly a house in the city which does not advertise to sell out at cost or reduced rates. But in spite of all this, nothing is sold and nothing is doing.—*Cor. St. Louis Dem.*

DEDUCTION.—The city of Philadelphia enjoys a very large, and judging from the various evidences of thrift among those engaged in it, a very profitable trade, with the Southern States. A writer in a Philadelphia paper, in alluding to this trade, says those enjoying it, have lost by the South, at least 50 per cent. on all their sales in that direction. This may be true. But to what logical deduction do we arrive in accepting this proposition? There certainly can be but one, and that is the Philadelphians must have charged a profit of from 50 to 100 per cent on their wares, or they would ere this, have grown sick of such a trade. Is it not so?—*Lawrence Jour.*

"ONE MORE TURN OF THE SCREW WILL FETCH 'EM."—When the New York Collector made this assertion and tried this policy before the election, he found himself mistaken. The politicians who side with the secessionists have been pursuing the same game since. Even Northern presses and speakers, of the baser sort, have advised this miserable policy and encouraged a tightening of the screws, no matter at what expense of suffering and embarrassment. They put great faith in what they call the bread and butter argument, the appeal to the pocket nerve. Perhaps they are right, and perhaps not. But if the men of this day and generation have the pluck of their fathers, they will not submit to wrong or abandon principle, while the corn-fields and potato-patches yield their increase, and the clam-banks continue to discount—political demagogues and abandoned presses to the contrary notwithstanding, however many may be the turns of the screw.—*Salem Register.*

THE NEW TESTAMENT.—The great mass of readers suppose the books of the New Testament appear in the order as written—that the Gospel of St. Matthew was first composed, and the Revelation last. This is a mistake. The following is well established to be the order in which the various parts came before the world: 1. St. Paul's Epistles. 2. Epistle to the Hebrews. 3. The first three Gospels. 4. Epistle of St. James. 5. The Revelation. 6. Epistle of St. Peter. 7. Acts of the Apostles. 8. Gospel and Epistles of St. John.

SENATOR SEWARD.—*Buffalo, Dec.* 20.—Mr. Seward arrived home to-night. He repudiates the assumption of his concurrence in the article in the Albany Evening Journal, and says he is in the habit of speaking for himself.

RALEIGH, N. C., Dec. 20.—The bill to arm the State was passed to a second reading in the House yesterday. An effort to take it up to-day will be made. The Assembly will take a recess until the 7th of January.

The Commissioners from Alabama and Mississippi were publicly received to-day. The sentiment here is in favor of the Union, but against submission. The North must concede, or the South goes out.

FORT KEARNEY, Dec. 19.—Denver dates of the 14th have been received. The boiler of Thorpe's mill in Nevada burst on the 13th, killing one person. The tunnel at Nevada struck a lead one hundred feet below the surface; the first bushel yielded seventeen dollars, and the second twenty-five dollars. The Gregory diggings were favorable. Thousands of miners were working at Tarryall with good success.

THE FUGITIVE SLAVE CASE IN CANADA.—*Toronto, Canada, Dec.* 20.—A large meeting was held last night, to sympathize with the fugitive slave Anderson. Strong speeches were made against rendition. A resolution was adopted to appeal the case to England, and, if necessary, that a petition be sent to the government for his release.

NEW ORLEANS, Dec. 20.—The Honduras government has pardoned Col. Rudler, Walker's second in command.

The co-operationists here are struggling to defeat the secessionists. Several secession candidates have been nominated.

☞ The Rockingham Weekly Chronicle, containing a summary of the news of the week, this day published, and for sale at the Chronicle Counting Room: price 3 cents; $1 per year, in advance.

A Startling Truth!—Hundreds die annually, from neglected coughs and colds, when by the use of a single bottle of *Dr. Wistar's Balsam of Wild Cherry* their lives could be preserved to a green old age.

MARRIAGES.

In this city, Dec. 19, at the Franklin House, by John Bennett, Esq., Mr. OLIVER E. S. SWETT to Miss ANGIL YORK, both of Westbrook, Me.

In Greenland, Nov. 17, by Rev. Mr. Robie, Mr. THOMAS PHILBRICK to Miss MARTHA DEARBORN, both of North Hampton.—Thanksgiving morning, Mr. ALBERT MAGEE of Lawrence, Mass., to Miss ANGELIA DEARBORN of North Hampton.—Thanksgiving evening, Mr. ABRAHAM HOBBS to Miss RUBY MOORE, both of North Hampton.

DEATHS.

In this city, Dec. 12, Mr. TIMOTHY H. CLARK, aged 42.

In this city, JOSEPH WIGGIN, Esq., aged 75 years, 10 mos.

At South Kingston, Dec. 16, Mrs. LYDIA HUNT, aged 88 years, 8 months, relict of Mr. Moses Hunt, a Revolutionary pensioner.

ANOTHER NEW STOVE

THE MODEL COOK

FOR WOOD OR COAL,

MADE BY

THE BARSTOW STOVE COMPANY

Of Providence, R. I.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking giving an oven nearly 3 ft. long; or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven, with a tin roaster in front of the fire, are obvious, yiz:

1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is the most durable, tasteful and useful.

2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking oven.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires; or it can be used for a hot closet when not required for baking or roasting.

5th. By this extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time the stove occupies no more room on the floor.

John Trundy, Esq., one of our most practical and scientific mechanics, who has had large experience in the construction of stove patterns in years past, and has for many years been using one of the Stewart Stoves, has purchased one of the MODEL COOKS, and after a fair trial pronounces it far superior to the Stewart or any stove he has ever seen, for economy, convenience and dispatch. We might also refer to several other parties who are using the stove, and who award it the very highest praise.

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be *the* stove for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is wanted.

We have nought to say against any other stove, believing that a man can sell his own goods without depreciating his neighbor's; but this we do say, that we honestly believe this is the *best stove that can be found in the world*; and what is more, we think others will agree with us after a trial of it. We invite any one to examine the stove, whether they wish to purchase or not.

For sale, with a great variety of

Furnaces, Ranges, Cooking, Office and Parlor Stoves; Coal Hods, Sitters, Funnel, Stove-Repairing Pieces, Parlor Grates, Etc.

Morning Chronicle.

☞ The Milledgeville (Ga) Recorder, of the 8th instant, says that the people of that State are divided, and radically divided, upon the question of resistance to Northern aggression. The election of Lincoln, says the Recorder, has divided the South into two parties, viz: a co-operation or Union resistance party, and an immediate secession or submission party. We fling our banner to the breeze under the former, and shall be found fighting untill the State Convention shall decide by solemn action, what course Georgia shall pursue. We are for co-operation and resistance in the Union by the whole South.

☞ A card signed "J. B." appears in the Boston Courier offering "one cent reward" for the arrest but not return of an agent of the said "J. B.," who answers to the name of Howell Cobb, employed at high wages to manage certain fiscal affairs, but who has mysteriously disposed of the "surplus," and now meanly skulked from his post, thus refusing to get his employer out of the scrape in which he has so largely contributed to involve him.

The Raleigh Standard says: "We hear already in North Carolina the notes of coming distress. Under the disunion panic which has been gotten up, specie is being hoarded, the banks have contracted their accomodations, creditors are pushing debtors it is evident a vast deal of property will be sacrificed under the sherif's hammer. Creditors will demand the specie, and then property worth a hundred dollars will be knocked off at twenty-five dollars, for the specie is not to be had."

Fort Moultrie was defended dy four hundred and seventy five men, in the American Revolution. In nullification times, under President Jackson, it contained eight hundred men; but now, when it should be made impregnable, the gallant commander has only sixty-four men to protect it against the assaults of an excited and hostile State.

Some of the politicians in Bath talk flippantly, in case of disunion, of forming alliances with the South. If justice is done them they may find themselves in indissoluble alliance with an institution at Thomaston, if not actually bound by a strong *cord* to a different destiny.—*Bath Times.*

Tom Hood says nothing spoils a holiday like a Sunday coat or a new pair of boots. To have time set easy, your garments must set the example.

Clothing. Clothing. Clothing!

PRICES TO SUIT THE TIMES.

CONCENTRATED LEAVEN,

FOR MAKING

Bread, Tea Cakes

All kinds of Pastry, &c., &c.,

MANUFACTURED BY

EDW. CHAMBERLIN & CO.,

Proprietors of Shawmut Chemical Works,
NO. 32 INDIA STREET, BOSTON.

CONCENTRATED LEAVEN is the result of careful chemical researches. All its ingredients are prepared in the highest state of purity, and compounded with a view to the production of bread of a far better quality, and in much less time, than by any other process, and the manufacturers submit it with entire confidence to the judgment of discriminating house-keepers, bakers, &c., to-wit:

Bread of all kinds, made by using CONCENTRATED LEAVEN, is lighter, more digestible and nutritious; has an agreeable nutty or fruit taste; is less liable to sour; will retain its moisture longer than by any other process, and the whole preparation for the oven need not exceed ten minutes.

It is valuable because it is not perishable, and may be rendered available in places and at times when yeast is not within reach, as at sea. In all climates, and under all circumstances it may be adopted, thus obviating all difficulty of procuring yeast, or other ferment, which is frequently of an inferior quality, rendering the bread more or less unwholesome.

It is also valuable as regards economy, as it has been ascertained that a saving is effected in the flour of not less than 16 per cent. In the common process, much the mechanical of the flour is lost by being converted into carbonic acid gas, or spirit, and the waste is incurred solely for the purpose of generating the vesicles for the dough. By using CONCENTRATED LEAVEN, this waste is avoided, and the gas obtained in a manner equally efficacious. Moreover, the fermentation, thus induced, destroys a part of the flour or meal, and, in consequence, a barrel of flour weighing 196 pounds, according to the common method ordinarily makes about 250 lbs. gives by this process 260 lbs., thus effecting the very important saving of 16 per cent. in the quantity of flour. By conformity to the directions on each package, any person of ordinary care and attention may conduct the process, and the result will invariably be highly satisfactory.

CERTIFICATE FROM DR. HAYES,

Assayer to the State of Massachusetts.

"I have analyzed the Concentrated LEAVEN manufactured by Messrs. Edw. Chamberlin & Co., with reference to its purity and efficacy for use in producing the effect of yeast in distending dough and thereby rendering it fit for making bread. This article is entirely composed of salts from perfectly pure materials, which leave nothing but a vegetable salt, which is essentially a desirable ferment in the bread, to raise the dough without consuming the sugar or any other principle in the flour, perfectly; and the product of the flour will produce more sweet, palatable bread than can be obtained through the aid of yeast; which for obvious reasons, is less wholesome, as it saves all risk, and much time of the pastry cook.

The experiments made by me confirm the statements of the manufacturers, and prove this compound worthy of public approval and extended use.

Respectfully,

A. A. HAYES, M. D., *State Assayer.*

16 Boylston st., Boston, Sept. 25, 1860."

HOW TO USE IT.

We append a few recipes, but it may be used with perfect success in making rolls of cake, also in fruit puddings and other pastry.

BREAKFAST AND TEA ROLLS.—Two or three teaspoonsfuls of Leaven (according to the quality of the flour) to one pint of flour; rub it thoroughly by passing two or three times through a sieve; rub in a piece of butter or half the size of an egg; and make the dough soft enough with cold milk or water, (milk is preferable,) barely stiff enough to permit rolling out. Much kneading should be avoided. Cut into form, and place immediately into a hot oven, and bake quickly.

LOAF BREAD.—The same proportions of Leaven and flour sifted together as above; rub the butter, and make the paste stiff enough to knead into a loaf, and bake immediately in a slow oven.

GRAHAM BREAD.—Three teaspoonfuls of Leaven to one quart of wheat meal, sifted together; add two eggs and about a gill of molasses; make the paste thin with milk, and bake in a slow oven.

BROWN BREAD.—Three teaspoonful of Leaven in one pint of flour, and one pint of rye meal; all well sifted together; add two eggs and about a gill of molasses; make the paste thin with milk, and bake in a slow oven.

BUCKWHEAT CAKES.—Flour and milk sufficient to make one quart of batter; add one egg then three teaspoonsfuls of Leaven; beat to a froth, and cook quick.

DUMPLINGS.—Sift together one quart of flour and two teaspoonsfuls of Leaven; rub in a piece of butter half as large as an egg; mix with cold milk or water, and boil ten minutes.

CLEAR SUGER CAKE.—Sift together two large cups of flour and two teaspoonsfuls of Leaven; put in half a cup of butter and a cup and a half of sugar; add a little cold water or milk to a stiff batter, and spice to suit the taste, and bake immediately.

CINCINNATI SPONGE CAKE.—Two cups of white sugar, beaten with the yolks of six eggs; the whites of six eggs beaten to a froth; then beat all together; add three cups of sifted flour, one cup of water, and three teaspoonsfuls of leaven; flavor with two teaspoonsful of essence of lemon, and bake in a quick oven.

JUMBLES.—Sift together one quart of flour and three tea spoonsfuls of Leaven; rub in one teacupful of butter; add a cup and a half of white sugar, and spice to suit the taste; mix stiff enough to roll out, and bake quick.

ELECTION CAKE.—One quart of flour and three teaspoonsfuls of Leaven sifted together; add a cup of butter, one pound of currants, two cups of white sugar, and one teaspoonful of cinnamon; mix with cold milk to a stiff batter, and bake in a slow oven.

CORN CAKE.—One pint each of flour and Indian meal, and three teaspoonsfuls of Leaven, well sifted together; add one gill of molasses and two eggs; make thin with milk, and bake in a slow oven.

CUP CAKE.—Five cups of flour and three teaspoonsfuls of Leaven, sifted together; add one cup of butter, two of sugar, and two eggs, all well beat together, and with milk to a stiff batter; add a cup of currants, and spice to suit the taste. Bake about half an hour.

LADIES CAKE.—Three quarters of a pound of flour and four teaspoonsfuls of Leaven sifted together; one pound of sugar and six ounces of butter beaten to a cream; the white of eight eggs well beaten, and the juice of one lemon; mix with milk.

WEBSTER CAKE.—Five cups of flour, three teaspoonsfuls of Leaven, three cups of sugar, one of butter, one of milk, and two eggs; fruit and spice to the taste. Bake about half an hour.

For Sale by Grocers Generally.

Boston, Oct., 1859. 3aw 3mos

New Photographic Establishment.

Having fitted and furnished in modern style, large, pleasant and commodious rooms, the subscriber is prepared to furnish all who wish with Sun Pictures of every description, from the smallest Miniature to life-size Portraits. Photographs finished in India Ink, Water and Oil Colors, by the best artists in the country. Old Daguerreotypes, &c., copied to any size desired.

The subscriber having had many years' experience, from the old Daguerreotype down to the present time, keeping pace with every useful improvement, a success almost unprecedented has heretofore attended him; and by strict attention to business, and fair dealing he hopes to merit a share of public patronage.

All work from the establishment warranted to be of the first order, both for finish and durability. Prices as low as in Boston, or any other place where first-class work is performed.

Having a large skylight, pictures can be taken late in the day, and equally as well on a cloudy as in fair weather. The public are respectfully invited to call and examine specimens, at **3 Pleasant Street,** opposite the New Custom House.

Portsmouth, N. H., Nov. 27, 1860.

BLOOD FOOD

The attention of Invalids, Physicians, Clergymen, scientific men, and the public generally, is respectfully solicited to the merits of this chemical preparation, containing **Iron, Sulphur** and **Phosphorus,** and which is identical in its composition with the *Hematic Globule,* or *red blood.*—In all diseases accompanied with

DEBILITY,

pale countenance and nervous derangement, analyses of the blood show a deficiency of the red globules, and in connexion and a rosy tint of the skin, is always indicative of health; while a pale, wax-like skin and countenance,—which is commonly the result of deficiency of the globules,—accompanies a diseased organism. Preparations of **Iron** have been given for the purpose of supplying the red globules, but we contend that **Iron** alone, **Sulpur** alone, or **Phosphorus** alone, will not meet the deficiency in every case, and that a judicious combination of these elements is necessary to restore the blood to its normal standard. This point, never before attained, has been reached in the **Blood Food,** and its discovery ranks as one of the most scientific and important of the age. Its effects in

CONSUMPTION

are to soften the cough, brace the nerves, strengthen the system, allay the prostrating sweats, increase the physical and mental energy, enrich the blood by restoring the lacking red globules, increase the appetite, restore the color, and to clothe the skeleton frame with flesh. The **Blood Food** will be found a specific to all *CHRONIC DISEASES of the THROAT or LUNGS,* such as *Asthma, Bronchitis, Coughs, &c.* Public speakers and singers will find it of great utility in clearing and strengthening the vocal organs. In *Dyspepsia, Liver Complaints, Dropsy, Epilepsy, Paralysis, Scrofula, Gravel, St. Vitus' Dance, Fever and Ague, &c.,* its efficacy is marked and instantaneous. In no class of diseases, however, are the beneficial effects of this remedy so conspicuous as in those harrassing

FEMALE COMPLAINTS

to which the gentler sex are liable, and which tend towards Consumption, such as suppressed or painful menstruation, *Green Sickness, Whites, &c.,* especially when these complaints are accompanied with paleness, a dingy hue or pallor of the skin, approaches of spirits, debility, palpitation, want of appetite, and nervous prostration. We have the utmost confidence in recommending the **Blood Food** to all who may be conscious of a loss of vitality or energy, and to those whose mental or bodily powers are prostrated through exercise, either of the mind or body, and we deem it our duty to state that in all cases of *Nervous Prostration and in all diseases of the Kidneys or Bladder,* this preparation has a claim upon the attention of sufferers which cannot be overestimated. A faithful trial will be found the most convincing proof in regard to its efficacy that could be adduced for. With the above remarks, and with the numerous testimonials we have in its favor, we offer the **"Blood Food"** to the consideration of the afflicted, in the knowing that it will be acknowledged as pre-eminent over all other preparations, patent or official, in point of usefulness. Circulars containing the testimony upon which this result is founded, also certificates of remarkable cures will be sent free when desired. We forward the **Blood Food** to any part of the United States or Canadas upon receipt of price—$1 per bottle, $6 for six bottles. Be careful in all cases to take no other than the genuine, with the signature upon the wrapper. None other is genuine.

Prepared only by **CHURCH & DUPONT,**
No. 409 Broadway, New York.

And sold by them, and all respectable Druggists.

Sold in Portsmouth by PRESTON, THACHER, HUTCHINGS and KIMBALL. 86 ly

BININGER'S GENUINE Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant,* when all other remedies fail, we are now bottling and selling the genuine article, a Brandy of our own importation, from one of the most responsible houses in France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be of the *highest* class in quality and character. *Put up* in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

Dyspepsia Remedy

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, Pain in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance, Fever, Ague, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the most weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use or abuse, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens,* will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, will be assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts. $1.

CHAS. F. GARDINER.
Sold in Portsmouth by PRESTON, THACHER and KIMBALL; and by Druggists generally throughout the country. au31 1yeod W

PROF. WOOD'S
RESTORATIVE CORDIAL
—AND—
BLOOD RENOVATOR,
Is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, rejuvenates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted *to act in perfect accordance with the laws of nature, and hence soothe this weakest stomach*, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Some half a dozen years only has this been held as a desideratum in the medical world, both by the thoroughly skilled in medical science, and also by all who have suffered from debility, for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous to which poor humanity is constantly liable. Such, for example, as the following: Consumption, Bronchitis, Indigestion, Dyspepsia, Loss of Appetite, Faintness, Nervous Irritability, Neuralgia, Palpitation of the Heart, Melancholy, Dyspepsia, Night Sweats, Languor, Giddiness, and all that class of cases, so fearfully fatal if unattended to in time, called *Female Weaknesses and Irregularities.* Also Liver Derangements or Torpidity, and Liver Complaints, Diseases of the Kidneys, Scalding or Incontinence of the Urine, or any other derangement of the Urinary Organs, Pain in the Back, Side, and in twean the Shoulders, predisposition to Slight Colds, Hoking and Continual Cough, Emaciation, Difficulty of Breathing, and indeed we might enumerate many more still, but we have space only to say, it will not only cure the debility following Chills and Fever, but prevent *all* attacks from Miasmatic Influences, and cure the diseases at once, if already attacked. And as it acts upon the biliary system, arousing the Liver to action, promoting, in fact, all the excretions and secretions of the system, it will inflibly prevent any deleterious consequences following upon change of climate and water; hence all travellers should take a bottle with them, and should take a tablespoonful at least before eating. As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits, students, ministers and literary men. And all ladies not untomed to much out-door exercise should always use it. If they will, they will find an agreeable, pleasant, and efficient remedy against those ills which rob them of their beauty; for beauty cannot exist without health, and health cannot exist while the above irregularities continue. Then, again, the Cordial is a perfect Mother's Relief. Taken a month or two before the final trial, she will pass the dreadful period with perfect ease and safety. *There is no mistake about its this Cordial is all we claim it.—Mothers, try it!* And to your surprise detect *the illness or decline* not only of your daughters, before it is too late, but also your sons and husbands, for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known to them, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel to the same untimely grave, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure you never failing affection will unerringly point you to Prof. Wood's Restorative Cordial and Blood Renovator as the remedy which should always be on hand in time of need.
O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St. Louis, Mo., and sold by all good Druggists. Price $1 per bottle.
Agent for Portsmouth, J. H. THACHER, corner State and Pleasant streets, and No. 12 Market Square. D eow ly

ATWOOD'S
QUININE TONIC BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhea, dysentery and cholera morbus, the public may rest assured there is not can be any better general remedy.
One of the very best Physicians in Boston has said "*that it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.
—FOR SALE BY—
CHARLES H. ATWOOD
19 CENTRAL STREET, BOSTON,
and by Druggists every where.
For sale in Portsmouth, by W. R. PRESTON and JOS. H. THACHER.
oston, Sept 1, 1860.—s3 3awly

Morning Chronicle.

Portsmouth, N. H.

MONDAY, DECEMBER 24, 1860.

SOUTH CAROLINA.—In the secession convention, Jan. 20, after the famous secession ordinance was passed, one of the richest debates sprung up that we have ever read. The members of the convention were themselves somewhat perplexed at their position. How much or how little of law they had, whether chaos had come again, and what should be done to prevent anarchy and confusion, was a difficult matter for comprehension. It has been boastfully said that they had fully counted the cost, yet the language of many members showed that they realize but little of it.—The one who came the nearest to it was he who said, "We are now homeless and houseless, and we must secure ourselves against the storm."

The laws for the collection of revenue, and the postal arrangements, engaged some attention. It was ascertained that the revenue from the Custom House did not near pay expenses, and that for the last year the Post Offices of the State had cost the government $240,000, while the receipts were less than $50,000. A distinguished Chancellor wisely declared that it was important the people should have information—that they must have light; but, in view of independence, another said: "Let postal convenience be sacrificed, if necessary; there was never anything purchased, worth having, that did not cost a sacrifice."

Mr. Gregg—After South Carolina abrogated the Constitution of the United States, are its laws still in force? I think not. All the laws of Congress fall instantly to the ground, on the act of secession.

Mr. Dunkin—The Constitution of the United States is *not entirely* abrogated by the ordinance. What is legal tender in the payment of debts? Is it not gold and silver of the United States? In the case of the clearing and entry of vessels, we are liable to have the same confiscated.

The following resolution was offered by Mr. Duncan:

Resolved, That the Governor appoint custom officers of the State and also postmasters, unless the present incumbents continue to discharge their duties.

Mr. Brown offered an amendment that the duty be collected at the existing rates, the government appointing Collectors; also continuing the postal arrangements until others are made.

Mr. Gregg offered a substitute that the importation of merchandise be free and unrestricted. Also that the Governor appoint postmasters and make temporary mail arrangements with a due regard to the mail contracts of the existing government.

Mr. Hutson offered a substitute that all citizens holding office under the United States government, be appointed under the State government; also adopting the revenue and postal laws of the United States, except that no duties are to be collected on merchandise or products of slaveholding commonwealths.

Mr. Rhett—This great revolution must go on with as little danger as possible to the country. By making the federal agents ours, the machinery will move on. The federal laws of taxation must not exist over us. I trust the present system of taxation has fallen forever.

Mr. Barnwell—We have seceded from the United States and established our independence.

Mr. Mazyk said, in regard to the mail, all restrictions must be removed. Let us appoint our own officers. Let the Collector of the port battle with the difficulties as they come.

SPRINGFIELD, Ill., Dec. 20, 1860.

The Springfield Journal of to day has a startling leader on secession, which, from the peculiar relations of the paper to the President elect, has great significance.

It says that South Carolina cannot dissolve the Union by the simple passage of resolutions or other passive demonstrations. Her federal officers may resign, and she may close her courts and Post Offices, but she cannot get out of the Union until she conquers this government. While this government endures there can be no disunion.

If South Carolina does not obstruct the collection of the revenues at her ports, nor violate any other federal law, there will be no trouble, and she will not be out of the Union. If she violates the law, then comes the tug of war.

The President of the United States, in such an emergency, has a plain duty to perform. Mr. Buchanan may shirk it, or the emergency may not exist during his administration. If not, then the Union will last through his term of office.

If the overt act on the part of South Carolina takes place on or after the 1st of March, then the duty of executing the laws will devolve upon Mr. Lincoln.

The laws of the United States must be executed. The President has no discretionary power on the subject. His duty is emphatically pronounced in the Constitution. *Mr. Lincoln will perform that duty.* Disunion by armed force is treason, and treason must and will be put down at all hazards.

☞ Forty-two young Persians, between the ages of fourteen and thirty, are now pursuing the regular course of studies in the various colleges of France. The Shah and many of the highest families in Persia are using their influence with great perseverance in inducing their wealthy countrymen to send their sons to be educated in France.

☞ General Cass is reported to have remarked recently that he could no longer remain in a Cabinet where one State ruled all the rest.

GREAT FEAT IN THE SADDLE.—A man in California has ridden 150 miles in the saddle in less than 6 hours and 30 minutes. A vast amount of human endurance and skill must have employed in the accomplishment of this notable exploit. It is only surpassed by that of Mr. Osbaldeston, who, in England, in 1831, rode two hundred miles in 8 hours and 42 minutes, including stoppages; or, 7 hours and 19 minutes running time. This was at the rate of about twenty-six miles an hour; but it is to be remembered that he had thoroughbred race-horses to do the work, and rode it in heats of four miles. Mr. Osbaldeston had twenty-eight different horses in performing the feat.

FORT MOULTRIE NOT TO BE SURRENDERED.—The following dispatch from the New York Commercial Advertiser denies the statement that Fort Moultrie was to be surrendered to the secessionists of South Carolina:—

"Information having been received in this city, that Major Anderson had received orders to surrender Fort Moultrie if attacked, it has been deemed necessary by the Secretary of War to *officially contradict* the statement.

The fortifications are as strong as any in the country, and will be defended to the last."

THE MONEY MARKET.—The New York Post of Wednesday says the money market begins to show signs of relief. On call there is an abundant supply at six a seven per cent. Those having large balances in bank drawing no interest are getting restive, and we see in many quarters a desire to find profitable employment for them.

☞ The Boston Post of Saturday says, in its money article, dated Friday afternoon:

Financially, the "Secession by vote" of South Carolina has not yet had a disastrous effect. People are feeling decidedly better.

It is said that within a few days 9000 shares of Illinois Central have been taken on European account. Three-fourths of the Erie stock is said to be holden in England.

☞ A trial was made at Lyons, recently, of a new species of locomotive, in which steam is replaced by ether. The engineer imprudently continued to smoke his cigar while getting the engine ready; a spark from the cigar dropped into the chamber which contains the ether, on which the latter became instantaneously a mass of flame. The engineer was seriously injured, and the trial was necessarily postponed.

☞ The Board of Commissioners appointed by Congress to investigate the affairs of the West Point Academy, have made their report, as we learn from the New York Post. They recommend better accommodations; more hours for sleep (eight, now seven,) and better food for the cadets; and some alterations in the programme of studies. The Commission also object to raising the standard of instruction.

MARRIAGE, &c.—A foreign correspondent of the Traveller says that in Germany, "young brides expectant make not only preparations for themselves, but for any little stranger who may happen in upon them at no distant day. A very rational proceeding certainly, but one quite alien to American notions, and which I do not think will be very speedily introduced among us."

☞ Friday, the 14th inst., was the seventy-eighth anniversary of the evacuation by the British of Charleston, S. C., which they had occupied two years, seven months, and two days. The day was celebrated on Friday with various demonstrations of honor.

☞ Some of the grand people of Paris have had their gardens roofed over with glass, and converted, with the aid of hot air and extensive importation of flowers, into "the most charming winter Paradises," where they receive their visitors and give elegant little *fetes champetre*.

☞ Saturday last, Dec. 22d, was Pilgrim's Day—the anniversary of the landing of the Puritans on Plymouth Rock. Strange that on that very day, should be received in New England, the tidings of South Carolina's flountings against liberty.

DEATH OF A BALTIMORE SECEDER.—The Agusta (Ga) Chronicle says that Col. John A. Erwin, President of the Richmond Seceders' Convention which nominated Messrs. Breckinridge and Lane last June, was found dead in his bed at his residence in Greensboro', Ala., on the morning of the 10th inst. Cause, Paralysis.

☞ According to the recent Census, the principal cities of the Union rank in population as follows: New York 1st, Philadelphia 2d, Brooklyn 3d, Baltimore 4th, Boston 5th, New Orleans 6th, St. Louis 7th, Cincinnati 8th, Chicago 9th, Buffalo 10th.

☞ Gov. Banks, of Massachusetts, has issued a proclamation in response to that of Pres. Buchanan, recommending Jan. 4, as a day of fasting and prayer, for the Nation. Gov. B. commends its observance to the people of Massachusetts.

ROCKINGHAM FAIR—1860.

Statements of Competitors for Premiums on Crops.—Concluded.

TURNIPS.

JEREMIAH GODFREY, of Hampton Falls.—The piece of land on which my turnips grew, measured 102 rods. It slopes towards the west; part of the soil is gravelly, and part of it is a dark loam, resting on a clay subsoil. In 1856, the land was in grass; and in the spring of 1857, it was ploughed, and corn raised for three years in succession—manured each year with four cords of barn manure, spread broadcast and ploughed in, about eight inches deep, and put 125 pounds of superphosphate of lime in the hill. The land was kept free from weeds.

On the 16th of May, 1860, five cords of manure, 3 1-2 from the barn yard, and 1 1-2 of sheep manure were hauled on the land, spread and ploughed in, to the depth of 9 inches. On the 18th of June, the stones were cleared off, the ground cultivated once with horse, harrowed three times and rolled once; leaving a smooth surface previous to sowing. June 19th, the seed sown in rows 30 inches apart. July 4th, sowed the ground between rows. July 7th, the piece was horse-hoed; July 23d, horse hoed and the plants were thinned to about 12 inches apart, in the rows. Aug. 3d, horse-hoed a third time. Oct. 31st to Nov. 14th, harvested the crop of six hundred and seventeen bushels of Swedish turnips.

There was a larger yield on the highest and gravelly part. There was also a marked difference in the growth, appearance and yield where the sheep manure was applied; the turnips were fairer, larger, and had less top than those on any other part of the piece. The sheep manure was evenly spread on one side of the lot, at the same rate of bulk per rod as that of the barn manure.

Expense of Cultivation.

Five cords manure	$20,00
Hauling and spreading the same	5,00
Ploughing	2,50
Clearing stones, cultivating, harrowing	2,00
Seed	30
Sowing Seed	25
Horse hoeing	1,50
Weeding and thinning plants	3,00
Pulling and topping	4,00
Picking and carting	6,00
Interest and taxes on land	4,22
Total expenses	$48,77

Value of Crop.

617 bush. turnips at 25 cts.	$154,25
Tops	5,00
Manure half spent	10,00
	$169,25
Deduct expenses	48,77
	$120,48

BEETS.

CHARLES HAYES, Portsmouth.—The quantity of land sown to beets, was 51 rods, on which I raised 310 bushels. Soil was of a deep sandy loam.

Expense of Raising.

Manure for the 51 rods, (2-3 green cellar manure, and 1-3 muck,) at rate of 8 cords per acre, at $4 per cord	$10,00
Ploughing and Harrowing	1,00
Bedding and Ridging	2,50
Weeding twice	7,00
Hoeing between	1,00
Digging and housing	12,40
Interest on land	1,91
Total Expense	$35,81

The seed was sown at different times, from the 5th to the 22d of May.

CORN.

JAMES H. DOW, of Rye.—On one acre of ground I raised 153 bushels of corn in the ear. It was dressed with rockweed and seaweed, under the furrow—about 8 cords to the acre. Manured in the hill with old barn yard manure—about 4 cords to the acre. It was harvested about the 20th of October. Eight-rowed ear, very yellow and sound.

SPRINGFIELD on Monday elected Stephen C. Bemis, democrat, Mayor, by 90 plurality. The vote stood Bemis 1,223, Harris 1,133, scattering 34; the total was 150 more than in the presidential election. The Republican says;

"The contest was only nominally political; hundreds of republicans voted for the democratic candidate, and the leading democrats supported the republican nominee with equal zeal. The question of *free rum* was the most exciting issue; the recent conviction of liquor sellers stirring up the grog shops of high and low degree to great exertions against the republican candidate, who was held responsible for the fate that had overtaken their fellows in sin."

A WARNING VOICE FROM FLORIDA.—The Tallahassee Sentinel concludes a long article with this salutary counsel to the fire-eaters:

Many excellent and good citizens will favor Florida's seceding alone, but we cannot think that they have duly or rightly considered the nature and consequences. Once taken, it can never be retraced; and should it prove, as we believe it will, a false step, the consequences will be long felt.

WASHINGTON, Dec. 21.—The Senate Select Committee met to-day and had a free interchange of opinion. Mr. Douglas said he was ready now, to unite in recommending such amendments to the Constitution as will take the slavery question out of Congress. In view of the dangers which threatened the country with revolution and civil war, he was prepared to act without regard to his previous action, and as if he had never made a speech or voted upon the subject.

Mr. Bigler has been maturing a plan which, by an amendment to the Constitution, removes slavery altogether from Congressional action. It meets with great favor.

Lieutenants Dozier and Hamilton, also several midshipmen from South Carolina, have resigned their commissions in the Navy.

CONGRESS.

FRIDAY, Dec. 21.

SENATE.—Mr. Powell moved that the vacancy in the committee of thirteen, caused by the resignation of Mr. Davis, be filled. Agreed to.

The Pacific Railroad bill was received from the House, and made the special order for Jan. 2d.

A long discussion ensued on the Baltimore Railroad bill, which authorizes a passage over the Potomac River. Mr. Kennedy favored the bill. An amendment was agreed to, providing that the Baltimore and Ohio Railroad Company shall check baggage with all roads terminating at Alexandria, Baltimore and Washington on as favorable terms as with other roads. The bill passed.

Mr. Yulee moved a reconsideration of the vote excusing Mr. Davis from the Committee of Thirteen. Carried.

Mr. Yulee said it was the wish of southern Senators that Mr. Davis should serve on the committee, and asked him if he would do so.

Mr. Davis said that owing to the urgent solicitations of his southern friends, he would serve on the committee. Adjourned to Monday.

FROM WASHINGTON.—The Washington correspondent of the Herald telegraphs as follows:—

"Hon. Charles Francis Adams, member of Congress from Massachusetts, and the representative of that State in the committee of Thirty-Three, made a long and violent speech at the session of that body, yesterday.

Mr. Adams' remarks were stoutly in maintenance of the Republican Platform, as adopted at Chicago, and in opposition to making any concessions to the South."

DEATH OF THE WIFE OF DR. DWIGHT.—Mary L., wife of Rev. H. G. O. Dwight, Missionary of the American Board in Turkey, died at Constantinople on the 16th ult.

STILL ANOTHER GOVERNOR OF KANSAS RESIGNED.—A telegraphic despatch from Leavenworth of Dec. 20th says that Mr. Medary, Governor of that Territory, has resigned. Who is the next victim?

To All Weak-Kneed Republicans.

LOOK AT THIS!

STRENGTHENING PLASTERS for all those Republicans who at *this time* have not a weak Spine, and whose Knees are weak, owing to the slavery agitation. Any person using these Plasters, and not being relieved from bowing his knees to the slave power, will certainly find them good for other weaknesses and pains. Sold cheap for cash. If there should be either of the Senators or Representatives in Congress from New England, troubled with the slave weaknesses, I will supply them without pay. These valuable Strengthening Plasters are for sale at 12 and 17 cts. each, according to the size, by

B. HUTCHINGS, 4 Market Street.

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains in health. Let all those, then, who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most sceptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov28 dawâm

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of

SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail to moderate excesses and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, send for a pamphlet to the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail. nov28 dawâm

Sold by W. R. PRESTON and all druggists.

Atwood's Quinine Tonic Bitters,—the best Aromatic Tonic ever offered to the public.—All the Druggists have it. See advertisement.

THE OXYGENATED BITTERS.

The qualities of this medicine have placed it up on an imperishable foundation. In destroying disease, and inducing health, it has no parallel.

For the following complaints these Bitters are a Specific: *viz—Dyspepsia, or Indigestion, Heartburn, Acidity, Costiveness, Loss of Appetite, Headache, and General Debility.*

In many sections of our country this preparation is extensively used by physicians in their practice, and it seems to have restored many to health who were apparently beyond the reach of the healing art.

From Mr. Jonathan Chapin.

WALPOLE, N. H., May 18, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—I consider the OXYGENATED BITTERS a valuable medical compound, combining both high medical skill and conscientious honesty in the person by whom they were compounded. I have used them for *Dyspepsia*, with very good effect, and consider them a reliable remedy for that complaint. In all cases where I have known of their being used, the result has been highly in their favor. I can conscientiously recommend the OXYGENATED BITTERS to all sufferers from diseases of a dyspeptic nature Yours truly,

JONATHAN CHAPIN.

From Mr. C. A. Shaw.

BIDDEFORD, Me., Aug. 7, 1860.

Messrs. S. W. Fowle & Co.—Gents:—Disclaiming any intention of puffing a patent medicine, I have to assure you of my high regard for the OXYGENATED BITTERS, the beneficial effects of which I have witnessed in my own family, and I do not hesitate to pronounce them worthy the entire confidence of the community, as a remedy for that distressing disease, *Dyspepsia*, and a medicine whose merits will guarantee to it a steady sale. Yours, C. A. SHAW.

Prepared by SETH W. FOWLE & CO., Boston; SOLD BY

BABIES.—A lady subscriber, while paying her subscription to our Daily, one day last week, complained that we Chronicle so few Births—and when we told her that people (generally the mothers,) are ashamed of "the children which God hath graciously given them," and often request us not to mention them in it, she said she would send us early news of all little ones the Doctor left at *her* house. But he has already carried so many there, that we fear our columns will not receive much help from that quarter—though we none the less appreciate her good sense in the matter.

☞ Benjamin Watson, who was arrested in this city, some months ago, for obtaining money under false pretences, tried and convicted,—was on Friday last, carried to Dover to receive his sentence at the Supreme Judicial Court, now in session in that city. He was accordingly sentenced to three years' hard labor in the State Prison; and in accordance therewith, was conveyed to Concord on Saturday, in charge of Sheriff Adams.

GRAND BALL.—The third annual Ball of the "Atlantic Associate Ex-6's" is announced for Tuesday evening, Dec. 25th, (Christmas night.) The affair is in the hands of a competent and efficient committee, and everything will be done to insure a pleasing entertainment. Firemen and military men from other towns, and all entitled to wear uniforms, are requested to do so. Music by Lamprey & Haines' Quadrille Band.

GAMBLING.—One day last week, at the City Rooms, under direction of the City Clerk, and in presence of His Honor the Mayor, the City Messenger, and other officials—the annual Printers' Lottery was drawn—the lot to see who shall print the City Accounts, &c.; and Mr. Gray, of the Gazette, again drew the prize. We never did have much regard for the typographical raffle, after the fuss which some folks have in past times kicked up about other innocent lotteries; and if the Chronicle fails to draw a prize for a few years longer, we think seriously of seceding.

☞ A stranger from Newmarket, on a drunken spree in this city, has for the last few days been in the habit of entering stores and dwelling houses, and purloining different articles of clothing, which might be within reach. On Saturday last, he was arrested, but the parties from which the goods were stolen, not wishing to appear against him, the City Marshal discharged him. The man left for home Saturday afternoon, and we trust he will remain there until he learns to do better. It is necessary to state that the property stolen, has been recovered.

PERSONAL. — Maj. Anderson, now in command of Fort Moultrie, at Charleston, S. C., was stationed at Fort Constitution in this harbor, fifteen years ago or more, (being then Lieutenant,) with Maj. Vinton; and is remembered and highly esteemed by many of our citizens. He is regarded as one of the most accomplished and efficient officers in the army.

Rev. Dr. Burroughs of this city, is spending the winter in Boston, stopping at the Tremont House.

Rev. D. Austin, also of this city, is spending the winter at Cambridge.

DIVIDEND BY THE EASTERN RAILROAD. At a meeting of the Directors of the Eastern Railroad, Friday, it was voted to pay Jan. 1st a dividend of two dollars per share. This is the first dividend paid since the discovery of the Tuckerman defalcation, and makes every railroad emanating from Boston a dividend paying institution.

☞ A boy of 14 years, named Samuel Wesley Staples, was severely injured on Wednesday, at Eliot, by the accidental discharge of a gun. About forty shot entered one of his arms.

☞ Rev. T. O. Lamphear of Exeter has received a unanimous call to the pastorate of the First Congregational Church in Fall River, Mass.

SAD TRAGEDY AT MANCHESTER, N. H. *Manchester, Dec.*22.—Mrs. Elizabeth Fitch, wife of the late John L. Fitch, Esq., a lawyer of considerable reputation, who died in this city on the 10th inst., after a short illness, was found dead with her daughter, a child three years old, this forenoon at half-past 10. A bottle partly filled with prussic acid was found in one room, leaving no doubt that she had poisoned herself and child with it. They were found together on a bed. Mrs. Fitch was 31 years old, and it is supposed that she had been rendered partially insane by the sudden death of her husband and a little daughter that died on the 14th inst., from the effects of a fall.

NEW YORK, Dec. 27.—Bark Lanark, of Boston, foundered Nov. 24, in lat. 22, in lon. 72; captain and crew saved in boats, and arrived here in barque Tivoli.

The vessel ashore at Hempstead is the Prussian barque Johanne Benjamin, from Newcastle for New York. Five of the crew, in attempting to land, were drowned.

All innovation upon established customs is invariably and sturdily resisted, and men are known to fight for their perjudices who would never fight for their country.

3 DAYS LATER FROM EUROPE.

ST. JOHNS, N. F., Dec. 21.—The news yacht of the Associated Press intercepted the steamship Fulton at 5 o'clock this morning off Cape Race. The Fulton left Havre on the morning and Southampton on the night of the 12th. She brings $600,000, 199 passengers, and 500 tons of merchandise.

Pekin surrendered to the Allies on the 13th October, and yielded to all demands The Emperor's summer palace was sacked, and enormous quantities of spoil taken.—The Emperor and his Tartar army all fled, and no enemy was to be seen in Pekin.

The Allies will winter in Pekin. They are encamped on the walls, and the army is healthy.

Messrs. Parker, Locke and 13 soldiers had been released, but there is little hope for the return of Brabazon, Bowlby, and the French officers missing. A woman named Anderson died from brutal treatment.

A new and distinct rebellion was reported in the province of Sheari.

The Emperor of France has granted an amnesty to two journals for previous infractions of the press law.

Victor Emanuel returned to Naples on the 17th, where he will remain two weeks.

The siege of Gaeta continued, the new batteries working with terrible effect.

The Sardinians will await the fall of Gaeta before summoning the garrison of Messina to surrender, and will besiege it in case of refusal.

Ex-Gov. Thomas, of Maryland, takes the place of Mr. Cobb, as Secretary of the Treasury, and Attorney-General Black becomes Secretary of State, in place of Gen. Cass. Each new incumbent, although to be in office only about ninety days, will probably draw $6000—the yearly salary.—*Statesman.*

NEW YORK, Dec. 21.—A special dispatch from Charleston says that the slaver Bonita arrived there yesterday. No Federal officers were there empowered to take charge, and the commander was ordered by the Secretary of the Navy to await further orders.

NEW HAVEN, Conn., Dec. 21.—A tenement house, occupied by twenty-six families, was burned this morning, and Michael Colbert, wife and four children perished in the flames.

It was wittily, but somewhat ungallantly, said that a woman is the very reverse of her mirror—the one reflects without talking, the other talks without reflecting.

WHO KNOWS?—What is more pleasing than a dark blue dress, a balmoral skirt, a white stocking, a pretty ankle and a muddy day? who'll tell us?—*Milwaukee News.*

A cynical writer asks "when women will cease to make fools of themselves." Probably when men cease to admire and love fools more than women of sense.

☞ The average weight of the Vermont Legislature was ascertained to be 163 1-4 pounds. A pretty solid body.

"I'll teach you to play pitch and toss! I'll flog you for an hour, I will." "Father," instantly replied the incorrigible, as he balanced a penny on his thumb and finger, "I'll toss you to make it two hours or nothing."

Do not trust to a weak argument because you think you have got a weak adversary; remember, a donkey will eat through his rope if you only bind him with a hay band, and be all the stronger for it.

"I say, Pat, what are you about—sweeping out the room?"—"No," answered Pat, "I am sweeping out the dirt, and leaving the room."

☞ *A Startling Truth!*—Hundreds die annually, from neglected coughs and colds, when for the use of a single bottle of *Dr. Wistar's Balsam of Wild Cherry* their lives could be preserved to a green old age.

☞ Reader, have you seen Prof. Wood's advertisement in our paper. Read it; it will interest you. tf

ANOTHER NEW STOVE

THE MODEL COOK

FOR WOOD OR COAL,

MADE BY

THE BARSTOW STOVE COMPANY

Of Providence, R. I.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking giving an oven nearly 3 ft. long! or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven, with a tin roaster in front of the fire, are obvious, viz:

1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is the most durable, tasteful and useful.

2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking oven.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires; or it can be used for a hot closet when not required for baking or roasting.

5th. By this extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time the stove occupies no more room on the floor.

John Trundy, Esq., one of our most practical and scientific mechanics, who has had large experience in the construction of stove patterns in years past, and has for many years been using one of the Stewart Stoves, has purchased one of the MODEL COOKS, and after a fair trial pronounces it far superior to the Stewart or any stove he has ever seen, for economy, convenience and dispatch. We might also refer to several other parties who are using the stove, and who award it the very highest praise.

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be *the* stove for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is wanted.

We have nought to say against any other stove, believing that a man can sell his own goods without depreciating his neighbor's; but this we do say, that we honestly believe this is the *best stove that can be found in the world;* and what is more, we think others will agree with us after a trial of it. We invite any one to examine the stove, whether they wish to purchase or not.

For sale, with a great variety of

Furnaces, Ranges, Cooking, Office and Parlor Stoves; Coal Hods, Sitters, Funnel, Stove-Repairing Pieces, Parlor Grates, Etc.

BACHMAN & CO.

Morning Chronicle.

SINGULAR SCENE IN A CHURCH.—The estimable agent of the Pennsylvania Bible Society, Rev. J. H. Torrence, delivered a sermon at the Mount Zion M. E. Church of Manayunk. In the course of his sermon, the Rev. gentleman alluded to the troubles of the country. It had been rumored on the previous Sabbath that President Buchanan was about to resign. In remarking this, the speaker used this language: "God grant that it may be so." There was an immediate response from every part of the audience: "Amen, Amen!" One of the lieutenants of the police assures us that the scene was one of the most ludicrous and surprising he ever witnessed. The Rev. gentleman had touched a chord in the heart of the people.—*Philadelphia Press.*

WOMAN'S WIT.—At Paris, recently, Mille. Cico, the piquant actress of the Palais Royal, was to be a witness in favor of soupe cosmetics used by ladies, and as French Courts invariably ask the age of witnesses, all the youngest actresses of Paris were there, and they reckoned upon a good deal of merriment and profit when Mille. Cico came to disclose her years. She was called to the stand, sworn, gave her name and profession. When the Judge said, "How old are you?" she quitted the stand, went up to the bench, stood on tiptoe, whispered in the Judge's ear the malicious secret! The bench smiled and kept her secret.

NATIONAL FAST.—Mr. Buchanan has appointed January 4th as a day for national fasting and prayer. Certainly! we ought to have had one at the commencement of his administration. Let us have the fast now, and a national thanksgiving when his term is out. We hope during his prayers he will not forget to send a regiment of soldiers to Fort Moultrie. If his proclamation had been a resignation we should have liked it better. But since the 4th of January is thus set apart for serious consideration of national affairs, we hope the morning will every where be spent in the church and in the afternoon let us have town meetings through the whole land for the people to speak.—*Newburyport Herald.*

Clothing. Clothing. Clothing!

PRICES TO SUIT THE TIMES.

CONCENTRATED LEAVEN,

FOR MAKING

Broad, Tea Cakes

All kinds of Pastry, &c., &c.,

MANUFACTURED BY

EDW. CHAMBERLIN & CO.,

Proprietors of Shawmut Chemical Works,
NO. 33 INDIA STREET, BOSTON.

CONCENTRATED LEAVEN is the result of careful chemical researches. All its ingredients are prepared in the highest state of purity, and compounded with a view to producing bread of a far better quality, and in much less time, than by any other process, and the manufacturers submit with confidence the judgment of the intelligent discriminating house-keepers, bakers, &c., &c.

Bread of all kinds, made by using CONCENTRATED LEAVEN, is lighter and more digestible, and nutritious; has an agreeable, natural taste; is less liable to sour; will retain its moisture longer than by any other process, and the whole preparation for the oven need not exceed ten minutes.

It is valuable because it is not perishable, and may be rendered available in places and at times when yeast is not within reach, or not at sea. In all climates, and under all circumstances it may be adopted, thus obviating all difficulty of procuring yeast or other ferments, which are usually of an inferior quality, rendering the bread more or less unwholesome.

It is also valuable as regards economy, as it has been ascertained that a saving is effected in the flour of not less than 16 per cent. In the common process, much of the saccharine of the flour is lost by being converted into carbonic acid gas, or spirit, and the waste is incurred solely for the purpose of generating gas to raise the dough. By using CONCENTRATED LEAVEN, this waste is avoided, and the gas obtained in a manner equally efficacious. Fermentation, as has been stated, destroys a part of the nutritious properties; in proportion, a barrel of flour weighing 196 pounds, which by the common method ordinarily makes about 220 lbs. of bread, by the process 220 lbs., is at sea. In the very important saving of 16 per cent. in the quantity of flour. By conformity to the directions on each package, any person can produce ordinary attention may conduct the process, and the result will invariably be highly satisfactory.

CERTIFICATE FROM DR. HAYES,

Assayer to the State of Massachusetts.

"I have analyzed the Concentrated Leaven manufactured by Messrs. Edw. Chamberlin & Co., with regard to its purity and efficiency of action in producing the effect of yeast in distending dough and thereby rendering it fit for making bread. This article is skillfully compounded, from perfectly pure materials, which leave nothing but a vegetable salt, which is essentially a desirable food in the bread. It raises the dough without consuming the sugar or any other principle in the flour, perfectly; and the same weight of flour will produce more sweet, palatable bread than can be obtained through the aid of yeast; while for cakes and pastry it is invaluable, as it saves all the trouble of yeast, and the pastry cook.

The experiments made by me confirm the statements of the manufacturers, and prove this compound worthy of public confidence and extended use. Respectfully,

A. A. HAYES, M. D., *State Assayer.*

16 Boylston st., Boston, Sept. 25, 1860."

HOW TO USE IT.

We append a few recipes, but it may be used with great success in all the usual kinds of cake, also in fruit puddings and other pastry.

BREAKFAST AND TEA ROLLS.—Two or three teaspoonfuls of Leaven (according to the quality of the flour) to one quart of flour; sift thoroughly by passing two or three times through a sieve; rub in a piece of butter of half the size of an egg, and make the paste with cold milk or water, (milk is preferable,) barely stiff enough to permit rolling out. Much kneading should be avoided. Cut into desired form, and place immediately into a hot oven, and bake quickly.

LOAF BREAD.—The same proportions of Leaven and flour sifted together as above; melt the butter, and make the paste stiff enough to knead into a loaf, and bake immediately in a slow oven.

GRAHAM BREAD.—Three teaspoonfuls of Leaven to one quart of wheat meal, sifted together; add two eggs and about a gill of molasses; make the paste thin with milk, and bake in a slow oven.

BROWN BREAD.—Three teaspoonful of Leaven in one pint of Indian meal, one pint of corn meal, all well sifted together; add two eggs and about a gill of molasses; make the paste thin with milk, and bake slowly.

BUCKWHEAT CAKES.—Flour and milk sufficient to make the usual batter; add one egg, then three teaspoonfuls of Leaven; beat to a froth, and cook quick.

DUMPLINGS.—Sift together one quart of flour and two teaspoonfuls of Leaven; rub in a piece of butter half as large as an egg; mix with cold milk or water, and boil ten minutes.

CHAMBER STREET CAKE.—Sift together two large cups of flour and two teaspoonfuls of Leaven; put in half a cup of butter and a cup and a half of sugar; mix with cold water or milk to a stiff batter, and spice to suit the taste, and bake immediately.

CINCINNATI SPONGE CAKE.—Two cups of white sugar; beat with the yolks of six eggs—the whites of six eggs beaten to a froth; then beat all together; add three cups of sifted flour, one cup of water, and two teaspoonfuls of Leaven; flavor with two teaspoonful of essence of lemon, and bake in a quick oven.

JUMBLES.—Sift together one quart of flour and three teaspoonfuls of Leaven; rub in one teacupful of butter; add a cup and a half of white sugar, and spice to suit the taste; mix stiff enough to roll out, and bake quick.

ELECTION CAKE.—One quart of flour and three teaspoonfuls of Leaven sifted together; add a cup of butter, one pound of currants, two cups of white sugar, one teaspoonful of cinnamon; mix with cold milk to a stiff batter, and bake in a slow oven.

GINGER CAKE.—One pint each of flour and Indian meal, and three teaspoonfuls of Leaven, well sifted together: add one gill of molasses and two eggs; mix thin with milk, and bake in a slow oven.

PLAIN CAKE.—Five cups of flour and three teaspoonfuls of Leaven, sifted together; add one cup of butter, two of sugar, and two eggs, all well beat together; mix with milk; then add a cup of currants, and spice to suit the taste. Bake about half an hour.

LADIES' CAKE.—Three quarters of a pound of flour and four teaspoonfuls of Leaven sifted together; one pound of sugar and six ounces of butter beaten to a cream; the white of eight eggs well beaten, and the juice of one lemon; mix with milk.

WEBSTER CAKE.—Five cups of flour, three teaspoonfuls of Leaven, three cups of sugar, one cup of half and half cream, and two eggs; fruit and spice to the taste. Bake about an hour.

For Sale by Grocers Generally.

New Photographic Establishment.

Having fitted and furnished in modern style, large, pleasant and commodious rooms, the subscriber is prepared to furnish all who wish with Sun Pictures of every description, from the smallest Miniature to life-size Portraits. Photographs finished in India Ink, Water and Oil Colors, by the best artists in the country. Old Daguerreotypes, &c., copied any size desired.

The subscriber having had many years' experience, from the old Daguerreotype establishment of the present time, keeping pace with every useful improvement, a success almost unprecedented has rewarded attention and fair dealing has proved to be conducive to business, and fair dealing he hopes to merit a share of public patronage.

All work from the establishment warranted to be of the first order, both for finish and durability. Prices as low as in Boston, or any other place where first-class work is performed.

Having a large skylight, pictures can be taken late in the day, and equally as well in cloudy as in fair weather. The public are respectfully invited to call and examine specimens, at 17 Pleasant Street, opposite the New Custom House.

Agent for New Hampshire.

Portsmouth, N. H., Nov. 27, 1860.

BLOOD FOOD

The attention of Invalids, Physicians, Clergymen, scientific men, and the public generally, is respectfully invited to the merits of this great medical preparation, containing **Iron, Sulphur** and **Phosphorus,** and which is identical in its composition with the human blood, or *red blood*—in all diseases accompanied with

DEBILITY,

pale countenance and nervous derangement, analyses of the blood show a deficiency of the red globules, giving the complexion and a sickly tint of the skin. Is always indicative of health; while a pale, wax-like skin and countenance,—which is almost a considerable deficiency in the red globules,—accompanies a diseased organism. Preparations of **Iron** have been given for the purpose of supplying the red globules, but we contend that **Iron** alone, **Sulpur** alone, or **Phosphorus** alone, will not meet the deficiency in every case, but that a judicious combination of these elements is necessary to restore the blood to its normal standard. This point, never before attained, has been reached in the **Blood Food,** and its discovery ranks as one of the most scientific and important of the age. Its effects in

CONSUMPTION

are to soften the cough, brace the nerves, strengthen the system, allay the prostrating night sweats, increase the physical and mental energy, enrich the blood by restoring the lacking red globules, restore the appetite, restore the color, and clothe the skeleton frame with flesh. The **Blood Food** will be found a specific in all *CHRONIC DISEASES of the THROAT or LUNGS,* such as *Asthma, Bronchitis, Coughs, &c.* Public speakers and singers will find it of great utility in clearing and strengthening the vocal organs. In *Dyspepsia, Liver Complaints, Dropsy, Epilepsy, Paralysis, Scrofula, Gravel, St. Vitus's Dance, Fever and Ague, &c.,* its efficacy is marked and instantaneous. In no class of diseases, however, are the beneficial effects of this remedy so conspicuous as in those harrassing

FEMALE COMPLAINTS

to which the gentler sex are liable, and which tend towards Consumption, such as suppressed or difficult *Menstruation, Green Sickness, Whites, &c.,* especially in these complaints the pale sickly face is invariably with pimples, a dingy hue or pallor of the skin, depression of spirits, debility, palpitation of the heart, and nervous prostration. We have the utmost confidence in recommending the **Blood Food** to all who may be conscious of a loss of vitality or energy, and to those whose mental or bodily powers are prostrated through *over-use,* either of the mind or body, and we deem it our duty to state that in all cases of *Nervous and Emaciation,* and in all diseases of the *Kidneys or Bladder,* this preparation has a claim upon the attention of the medical profession, which cannot be overlooked. A faithful trial will be found the most convincing proof in regard to its efficacy that could be asked for. With the above remarks, and with the numerous testimonials we have in its favor, we offer the **"Blood Food"** to the consideration of the afflicted, knowing that it will be acknowledged as pre-eminent over all other preparations, patant or officinal, in point of usefulness. Circulars containing the theory upon which this remedy is founded, also certificates of remarkable cures will be sent free when desired. We forward the **Blood Food** to any part of the United States or Canadas upon receipt of price—$1 per bottle, $6 for six bottles. Be careful in all cases to take no other but that having our fac-simile signature upon the wrapper. None other is genuine.

Prepared only by CHURCH & DUPONT,
No. 409 Broadway, New York.

And sold by them, and all respectable Druggists.

Sold in Portsmouth by PRESTON, THACHER, HUTCHINGS and KIMBALL. s6 ly

BININGER'S GENUINE Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of vital importance to those requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant,* when all other remedies fail, we are now bottling and selling at a reasonable rate, a Brandy of our own importation, from one of the most responsible houses in France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pints and quart bottles, in cases containing two dozen pints and one dozen quarts. It is sold by all prominent druggists, grocers and tavern agents.

The above is also for sale in original packages, viz.: Eighths and Quarter Casks.

For sale in Boston by WEEKS & POTTER, SETH E. PECKER, D. GOODNOW & CO., G. C. GOODWIN & CO.; REED, CUTLER & CO.; M. S. BURR & CO., T. L. SMITH. jy30 M W F 1y

Dyspepsia Remedy

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Cold Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Costiveness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing cases that have resisted all other dyspepsia, Kidney Complaints and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who from the injudicious use of liquors, have become dejected; and their nervous systems shattered, constitutions broken down, and subject to that horrible disease, Delirium Tremens, or Delirium Tremens, will, almost immediately, feel the happy and invigorating efficacy of Dr Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full [illegible] necessary.
One dose will remove [illegible]
One dose will cure Heartburn [illegible]
Three doses will cure Dyspepsia [illegible]
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously affected with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts $1.

A REMINISCENCE.—The visit of the Prince of Wales to Philadelphia, says the Philadelphia Bulletin, calls to mind a story concerning the visit of another or imperial personage to that city:—

When Jerome Bonaparte came to Philadelphia, in 1703, as the brother of the First Consul of France, he attracted much attention, and extraordinary honors were shown him by the political party which sympathized with his illustrious relative. The Indian Queen hotel, on the east side of Fourth street, above Chestnut, was then the fashionable house of the city, and at this establishment the future King of Westphalia made his home during his stay in the city. Mr. Bonaparte, or Prince Jerome, as he was called, was at the susceptible age of nineteen at the time of his visit here, and he was particularly subject to tender impressions.

The young gentleman had not enjoyed the advantages of as good training as the Prince of Wales has had, nor was he accompanied here by as discreet a suite. The consequence was the young Frenchman ogled all the pretty girls he met with, and where they struck his fancy particularly, he endeavored to visit them. In Fourth street below Chestnut, there lived at the time a lady who shall be nameless, who was in very straightened circumstances, who had a very beautiful neice, an orphan girl, who was an inmate of the house. Young Bonapart got his eye upon the young lady while in the street, and fell, or pretended to fall desperaely in love with her. Finally he called at her aunt's house, and declaring that his intentions were honorable, he insisted upon visiting the young lady. The aunt gave to the ardent youth a very prompt and decided denial, and sent him off with a huge flea in his ear.

Jerome afterwards went to Baltimore, where he fell in love with his usual facility, and that city instead of Philadelphia, enjoyed the doubtful honor of furnishing the susceptible Frenchman a wife, who was never recognized by his haughty brother, and who was afterwards discarded by himself.

He who is passionate and hasty, is generally honest. It is your old, dissembling hypocrite of whom you should beware. There is no deception in a bull-dog. It is only the cur that sneaks up and bites you when your back is turned.

At a recent festive meeting, a married man, who ought to have known better, proposed: "The ladies," as the beings who "divide our sorrows, double our joys and treble our expenses!"

YOUNG LADY.—"Oh, I'm so glad you like birds; which kind do you admire most? Old gent—"Well I think a goose with plenty of stuffing is about as nice as any."

None genuine unless signed by
CHAS. F. GARDINER.
Sold in Portsmouth by PRESTON, THACHER and KIMBALL; and by Apothecaries generally throughout the country. au31 1yeod W

PROF. WOOD'S
RESTORATIVE CORDIAL
—AND—
BLOOD REVOVATOR,
Is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted *as to act in perfect accordance with the laws of nature, and hence soothe this weakest stomach*, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical sciences, and also by all who have suffered from debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous to which poor humanity is constantly liable. Such, for example, as the following: Consumption, Bronchitis, Indigestion, Dyspepsia, Loss of Appetite, Faintness, Nervous Irritability, Neuralgia, Palpitation of the Heart, Melancholy, Hypochondria, Night Sweats, Languor, Giddiness, and all that class of cases, so fearfully fatal if unattended to in time, called *Female Weaknesses and Irregularities. Also* Liver Derangements or Torpidity, and Liver Complaints, Diseases of the Kidney, Scalding or Inconvenience of the Urine, or any general derangement of the Urinary Organs, Pain in the Back, Side, and between the Shoulders, predisposition to slight Colds, Hacking and Continued Cough, Emaciation, Difficulty of Breathing, and indeed we might enumerate many more still, but we have space only to say, it will not only cure the debility following Chills and Fever, but prevent all attacks from Miasmatic Influences, and cure the chills at once, if already attacked. And as it acts upon the biliary system, arousing the Liver to action, promoting, in fact, all the excretions and secretions of the system, it will infallibly prevent any deleterious consequences following upon change of climate and water; hence all travellers should take a bottle with them, and all should take a table-spoonful at least before eating. As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits, students, ministers and literary men. And all ladies not accustomed to much out-door exercise should always use it. If they will, they will find an agreeable, pleasant, and efficient remedy against those ills which rob them of their beauty; for beauty cannot exist without health, and health cannot exist while the above irregularities continue. Then, again, the Cordial is a perfect Mother's Relief. Taken a month or two before the final trial, she will pass the dreadful period with perfect ease and safety. *There is no mistake about it—this Cordial is all we claim it—Mothers, try it!* And to you we appeal to defend the illiteracy and decline not only of your daughters, before it is too late, but also your sons and husbands, for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known in time, the latter are often so mixed up with the excitement of business that it does not occur to them that they would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never-failing affection will unerringly point you to Prof. Wood's Restorative Cordial and Blood Renovator, the remedy which should always be on hand in time of need.
O. H. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St Louis, Mo., and sold by all good Druggists. Price $1 per bottle.
Agent for Portsmouth, J. H. THACHER, corner State and Pleasant streets, and No. 12 Market Square. D eow 1y

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, in a form combined with various *tonics* and *stomachics*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, *promoting* the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems of prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhea, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*And it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.
—FOR SALE BY—
CHARLES H. ATWOOD
19 CENTRAL STREET, BOSTON.
and by Druggists everywhere.
For sale in Portsmouth, by W. E. PRESTON and JOS. H. THACHER.
o.tou, Sept 1, 1860.—a3 3awly

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, DECEMBER 25, 1860.

☞ The money panic seems to be over, though many of its effects in throwing men out of work, are not over yet, and may not be for some time to come.

To begin at the North; the Boston Atlas says:

The Boston money market closed Saturday cheerfully notwithstanding the dull, easterly storm. Money was comparatively easy without any material change in rates. The banks are discounting liberally, and the specie now in vaults is above the legal limit of 15 per cent. Although we have the unusual occurrence of a Sunday and a holiday, with only one intervening day, we hear of no embarrassment among business men in meeting their obligations promptly. Some firms have actually anticipated their payments as far ahead as February.

From the New York Evening Post of Saturday we copy the following:

The week closes upon a much more satisfactory state of things, a marked revival of business having taken place in produce, exchange and mercantile paper.

The N. Y. Courier and Enquirer says:

The effect of the disruption, on paper, of the Union, was little felt in Wall street.—The stock market fluctuated a little, and was somewhat feverish at the first announcement, but it finally took a strong upward turn.

The Philadelphia Ledger of Saturday, says:

The money market, yesterday, was characterized by the same improved features of the day before.

In Charleston, S. C., however, where they raised the panic by a false alarm, it is not exactly so. The Boston Herald of Monday says:—

Business is in the most depressed condition at Charleston. Where they have been accustomed to receive 3000 bales of cotton a day, they now do not receive more than one-sixth of that amount; and the banks have little to do but renew old paper.

VITAL STATISTICS OF SOUTH CAROINA. The annual registration report of South Carolina, for 1859, has just been published. In 1850, the population was 668,507; white, 274,563; free colored, 8960; slaves, 384,984. The slaves were 57.59 per cent. of all. Their proportion has almos uniformly increased. The free colored formed in 1790,0. 72 per cent. of all the inhabitants; in 1850, 1.34 per cent. Among the whites there are a very few more than females; among the slaves, 105 females to 100 males.

In six years past, the births of slave children had been to those of free children very nearly as three to one (69,000 to 23,000). The slaves are therefore much more fruitful for their numbers than the whites; in 1859, there was, among the slaves, one birth in 26 living persons, among the free, one in 48. Among the slaves there was reported, one death in 59; among the free, only one in 137. The average age at death was, among the free, about twenty-eight and a half years. Of the 22 who died in South Carolina at the age of 100 and over, 18 were slaves. The two oldest in 1859 were colored persons. Of 314, whose deaths were attributed to old age, in the South Carolina report, only 49 were white. Nothing is said of slaves under the head of *marriages*.

☞ The New York Herald's Washington correspondent telegraphs that the Senate Special Committee had a meeting on Saturday, at which addresses were made by Douglas, Crittenden, Bigler, Wade, Doolittle, Collamer and Grimes, on Mr. Crittenden's propositions, all five of which were lost under a rule of the committee requiring a majority of both the Democrats and Republicans, the latter voting against them. The Committee adjourned to Monday.

The same correspondent says that Mr. Andrew, the Governor elect of Massachusetts, was in consultation with several of the leading Republicans, on Saturday, in reference to the present state of the country. He also says that the Governors elect of seven of the eastern and northern States recently met in New York, and unanimously determined that the Republicans should offer no compromise.

☞ The Boston Herald of Monday, has these items:—

The annoucement that Major Anderson has been ordered to surrender Fort Moultrie to the constituted authorities of South Carolina, proves to have been too true,—It is now reported that President Buchanan has been induced by General Scott to reconsider his decision not to reinforce Fort Moultrie, and it is rumored in Washington that military preparations will be commenced immediately with that view.

The disclosure by Major Anderson that orders were issued to surrender Fort Moultrie, produced intense excitement in Washington, and the impeachment of the President is not an improbable thing. It is said that the President acted on the precedent set by General Jackson in surrendering a fort in Alabama, to that State, in order to try the title. If such were the case, the right of secession might be adjudicated upon by the U. S. Supreme Court.

A torn jacket is soon mended; but hard words bruise the heart of a child.

For the Chronicle.

DIVISION OF PUBLIC PROPERTY.

Should the slave States, by mutual agreement with the free States, secede, it would seem to be reasonable that they should be allowed the benefit of a fair proportion of the public property. But should they generally rebel, and their citizens engage in war, and forcibly resist the execution of the Federal laws, such overt acts would constitute the crime of high treason against the federal government, and upon conviction thereof, their lives would be the legal forfeiture. In the event of such general rebellion, those States could have no legal or constitutional claim to a division of the public property. But should they be permitted to secede unmolested, the question arises, whether inasmuch as their separation may be advantageous to the North, it would not be expedient and liberal to allow them a proportionate share of the property, to which in the Union they have a just claim. In the case of the rebellion of two or three States, no such claim could with propriety be allowed, but they could be compelled by military force to submit to the laws of the land, and would be, were General Jackson now the chief executive, according to the sound doctrines laid down in his Proclamation in 1832, in respect to the South Carolina rebellion.

But in the event of a general rebellion of the slave States, the Executive could not execute the authority with which he is invested, without bringing on a civil war, which, if possible, should be avoided. Nothing could be gained by it. The crime of treason could not be punished, for the judicial officers have resigned, and faithful officers to fill their places would be mobbed or lynched.

A State, as a great corporation, or political organization, cannot be punished criminally, but its citizens, guilty of treason, may be, by the judicial tribunals, having ministerial officers with the physical power to execute their decrees. But that, probably, is not now the case in South Carolina, and perhaps some other States. It is not doubted but that the free States have the physical power to enforce obedience by the military force, which would surely involve the nation in the horrors of civil war, and what would be the result, cannot be foreseen. If secession would cause no detriment to our free institutions, surely the confederacy of the free States would be preserved;—all good citizens would oppose the raising an army to invade the slave States, and adopt what seems to be the prevailing sentiment—let them alone—let them "work out their own salvation," and no longer draw from the public treasury, and no longer demand Northern aid to reclaim their fugitives and guard against servile insurrections.

After mature consideration of the subject, we come to the conclusion that in a pecuniary and political point of view, the secession of the disaffected slave States would operate to the advantage of the free States. The government would then be administered according to its original principles—peaceful relations would not be disturbed within our borders—no further wars invoked for the extension of slavery by foreign conquests—the public sentiment and morals would no longer be in danger of the corrupting influences of slavery—the conflict between liberty and slavery would cease—a conflict which must continue until one or the other shall perish, while slave States remain in the Union.

Two-thirds at least of the amount of the present revenue would be expended within our limits, instead of two-thirds being appropriated to Southern objects and the salaries of Southern officers. Our postal expenditures would be reduced by millions,—all the public offices under the government would then be conferred upon citizens of the free States, instead of, as at present, more than two-thirds being given to the Southern advocates of slavery. We should no longer complain of Southern aggression, threats, and dictation of the national policy; but in the future, the legislative body would enact laws adapted to the condition of a free people. In the past the struggle has long been to adapt the national laws to the condition of the slave States. Hence the constant agitation. What a mighty change there would be, when our legislators should be permitted calmly to deliberate in respect to the enactment of laws to promote the interests and welfare of the people, instead of the endless discussion, in substance, whether freedom or slavery should triumph and be perpetuated in the Republic. PAP.

FLORIDA.—It is suggested that this spirited little State, before she goes out of the Union, should make at least some acknowledgment for her pecuniary indebtedness to the general government. Her acquisition cost us five millions of dollars, plump out of the treasury. Then we undertook, at her request, to expel the Seminoles from her soil, and the whole affair cost us about thirty-five millions, and nearly four thousand valuable lives. Leaving the latter out of account, as above all reckoning, it will see, therefore, that during the short career of Florida in the Union, she has inflicted upon the country the burdensome expense of $40,000,000. Can she run away from all obligations growing out of this account, and feel perfectly free from the duty of repaying either principal or interest to "this accursed Union," as Mr. Keitt says?

WASHINGTON, Dec. 23.—[SPECIAL DISPATCH TO THE HERALD.]—Extravagant but well credited rumors are in circulation that a revenue cutter has been despatched to Charleston harbor with orders to protect the revenue. It is known for a certainty that measures have been taken to see that the collection of customs at Charleston shall not be interfered with.

Senator Mallory of Fla. has arrived, and will resume his seat in the Senate.

Secretary Thompson has returned from North Carolina. He thinks that State will not secede.

Senator Douglas has submitted propositions before the Senate Special Committee providing for a settlement of the existing difficulties, which are reported as acceptable to Crittenden, Wigfall, Boyce and others.

THE WHITE MECHANICS OF THE SOUTH PLOTTING AGAINST SLAVE LABOR.—The Sumpter (Ga.) Republican states that considerable excitement was created there a week or two since by the discovery of a society of mechanics who were concerting measures for driving the negroes from all employment except the cotton field, and also, it is alleged, for obtaining work and food by force. The person at the head of the movement was a man named William B. Hall, who organized a "poor man's society," under the guise of a Mechanic's Society. He succeeded in getting a number of workmen to join him, but his plans were divulged by some leaky member, when some of the leading mechanics called the attention of the citizens to the matter and an investigation was had. The result was that Hall and two of his confederates, Thomas Faircloth and William Griffin, were ordered to leave the place immediately. This is a very characteristic way of settling the "irrepressible conflict between slave labor an free labor."

☞ Another bad leak in the treasury at Washington was discovered on Sunday.—Goddard Bailey, who has had charge of the Indian Trust Fund, stated that he had taken a large amount of State bonds and coupons belonging to the fund, and that they were no longer in the possession of the government. The amount abstracted is $830,000. The bonds were used to raise money for temporary purposes, and the panic had rendered the parties unable to redeem them. It is anticipated that other parties will be implicated upon his examination.

GETTING UP A SMALL POX PANIC.—The following remarkable communication appears in the Columbia South Carolinian:

Charleston Police, Look Out!—By a letter from New York, there is reason to apprehend that the Lincoln men have been gathering up all the rags they can find from the small pox hospitals, and intend an incursion in the South, to chase the secession conventions and legislatures from place to place until they are made powerless.

Six men are on the way, having left New York on Saturday, and will be probably at Kingsville to morrow, *to inoculate the cars* loaded with members.

FROM WASHINGTON.—A special dispatch to the Commercial Advertiser says the Republican members of the Committee are opposed to any amendment to the Constitution, believing that if its requirements are lived up to in all sections of the country there will be no difficulty.

The case of Gov. Magoffin of Kentucky vs. Gov. Dennison of Ohio, is commenced in the Supreme Court.

PERSONAL.—John B. Gough states that he is not a rich man, as many suppose. His taxes, all told, only amount to $52. He also states that when he commenced lecturing, an agreement was made between himself and wife that one-tenth of all his earnings should be given to charitable purposes.

SUDDEN DEATH.—Mr. Arunah Grant of Wakefield, died very suddenly last Friday evening. His wife was putting on a new pair of shoes, when he stooped down to assist her; but no sooner had he done so than he complained of feeling very unwell, and died soon after. He was in apparent good health till that evening.

☞ Rev. R. H. Spalding died at Pittsfield, Vt., Oct. 13, aged 56. In 1834 he was in charge of the Methodist Society in Epping; in 1835, Newington and Greenland; in 1836 and '37 in Salem.

☞ Major Jack Downing remarked to General Jackson, during the troubles in South Carolina thirty years ago, that he had always observed that persons who had a great deal to say about shedding the *last* drop of their blood, were amazingly particular about the *first*.

☞ Southern Senators were surprised to learn from Collamer's declaration, that the Personal Liberty bill of Vermont was passed four years before the Fugitive Slave Law, and that it related solely to the prevention of kidnapping.

FORM OF PRAYER FOR THE NEW FAST. Bishop Eastburn has prepared a special form of prayer for the National Fast recommended by the President on the Fourth of January.

☞ Mr. Samuel Emery Smith, a native of Deerfield and late of Raymond, met with an accident which produced fatal effects in Sandwich a few days ago. He fell from a load of goods and survived but a few days.

WASHINGTON, Dec. 24.—Bailey, the abstractor of the government funds, is the son of a former Attorney General of South Carolina.

Governor Floyd, Secretary of War, is implicated in the robbery and will resign.

Mr. McQueen of South Carolina will not speak when the delegation from that State retires from the House, but will write a letter for the delegation instead.

No immediate collision is anticipated.

There is no foundation for the rumor that Gov. Stevens of Washington Territory is implicated in the robbery.

Suspicion attaches to Secretary Floyd, and Russell, Major & Co., overland mail contractors—*Special Dispatch to Bos. Jour.*

It has been ascertained that several government officers of high standing are connected with the robbery of the Indian Buireau bonds. Their names have not yet transpired.

It appears that the bonds were stolen to borrow money on for the use of the Central Breckinridge Club, during the late Presidential election, and the crisis in monetary affairs has prevented the return of the bonds before the usual time to use them for their legitimate purposes.

A Cabinet meeting is being held to day.

A conference is also being held between several Senators and the friends of the parties implicated in the robbery, to see what can be done.

Several of the department officers are in jail.

The robbery amounts to nearly *one million of dollars.—Dispatch to N. Y. Herald.*

☞ The Washington correspondent of the Commercial Advertiser says that the Republican members of the Committee of Thirty-Three are opposed to any amendment to the Constitution, believing that if all its requirements are lived up to in all sections, there would be no difficulty.

Also, PIGS FOR SALE as above.

Special Notices.

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then, who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief WITHIN TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herbs being combined with sugar in the neat elegant form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov28 dawlm

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of

SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail in moderate excesses and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, send for a pamphlet to the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail. nov28 dawlm

Sold by W. R. PRESTON and all druggists.

Atwood's Quinine Tonic Bitters,—the best Aromatic Tonic ever offered to the public.—All the Druggists have it. See advertisement.

THE OXYGENATED BITTERS.

The qualities of this medicine have placed it up on an imperishable foundation. In destroying disease, and inducing health, it has no parallel.

For the following complaints these Bitters are a Specific: viz—*Dyspepsia, or Indigestion, Heartburn, Acidity, Costiveness, Loss of Appetite, Headache, and General Debility.*

In many sections of our country this preparation is extensively used by physicians in their practice, and it seems to have restored many to health who were apparently beyond the reach of the healing art.

From Mr. Jonathan Chapin.

WALPOLE, N. H., May 18, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—I consider the OXYGENATED BITTERS a valuable medical compound, combining with high medical skill and conscientious honesty in the person by whom they were compounded. I have used them for *Dyspepsia*, with very good effect, and consider them a reliable remedy for that complaint. In all cases where I have known of their being used, the result has been highly in their favor. I can conscientiously recommend the OXYGENATED BITTERS to all sufferers from diseases of a dyspeptic nature Yours truly,

JONATHAN CHAPIN.

From Mr. C. A. Shaw.

BIDDEFORD, Me., Aug. 7, 1860.

Messrs. S. W. Fowle & Co.—Gents:—Disclaiming any intention of puffing a patent medicine, I have to assure you of my high regard for the OXYGENATED BITTERS, the beneficial effects of which I have witnessed in my own family, and I do not hesitate to pronounce them worthy the entire confidence of the community, as a remedy for that distressing disease, *Dyspepsia*, and a medicine whose merits will guarantee to it a steady sale. Yours, C. A. SHAW.

☞ To-day being Christmas, of course we shall issue no Daily Chronicle on Wednesday morning.

This will make for the Chroniclers, we think, but five holidays(or five workdays on which the office is closed) for the year.—We think all working men, and women too, ought to have at least one day to themselves in every month.

MERCANTILE LYCEUM.— *Messrs. Editors*:—We wish to call attention to the entertainment furnished for to morrow (Wednesday) evening, by the Mercantile Library Association. The Salem Observer in speaking of Mr. Silvester, says: "His readings and recitations are almost faultless, and we feel confident that we express the unanimous opinion of all who have heard him, that Mr. Silvester is by far the the best male reader that has ever appeared before a Salem audience, and that Mrs. Fanny Kemble Butler is alone his superior in this peculiar sphere. Mr. S. possesses rare gifts as an elocutionist. He is a young man, less than twenty five we should judge, of fine figure and easy manner, with a charming voice, full, deep and melodious, and singularly clear and distinct enunciation." *

☞ Rev. J. A. Adams died recently in California where he had gone for his health. His age was 42. He was a native of South Newmarket, N. H., and a son of Rev. J. F. Adams now of Greenland. He graduated at College in 1842.

DOVER, Dec. 21, 1860.

Editors of the Chronicle:—*Dear Sirs*:—I have been sentenced this day to the State Prison for three years, and pay costs of prosecution. To those kind friends in Portsmouth, who befriended me while in confinement there, I return thanks from the bottom of my heart. I am now to be consigned to a State's Prison; but, as God is my Judge, I declare that I am innocent of the charge against me.

Very Respectfully, B. D. WATSON.

P. S.—Please insert the above, if you think proper. You will excuse the writing, as I have to scribble on my knee, in the prisoner's dock. B. D. W.

☞ A destructive fire took place at Exeter last Saturday evening, beginning at 10 o'clock in the basement story of Phillips' Billiard Hall, which was mostly burnt down. The small building occupied by John Wheeler as a meat market, west of the hall, was destroyed; and west of this the store occupied by Benj. Lougee was badly damaged. Mr. L. lost most of his goods. Mr. Wheeler's stock, being easily removed, was mostly saved. The tenement connecting the hall with the dwellinghouse of Rufus E. Cutler, was much damaged by water, and also the goods of Miss Mary Colkett, who occupied the same as a fancy goods store. Her loss is not ascertained; she held a stock amounting to $1200, on which was an insurance of $800, at Hartford, Conn.

John G. Cutler, proprietor of the Billiard Hall, estimates his loss at $2500. Insured for $1200 in the Conway Ins. Co., Mass.

Samuel C. Batchelder, occupant immediately below the hall, shoe dealer, lost his complete stock, estimated at $1200. Insured for $900 in the Cocheco office, Dover.

John G. Johnson, who occupied the rear of the building as a dwelling, and Mrs. Johnson, who kept a millinery store in front, have lost to the amount of $600.—Their loss is total, including furniture and stock, with perhaps the exception of one or two beds. Mr. Johnson first discovered the fire rapidly approaching his sleeping room, as he was about to retire with his family, who were driven out into the storm of snow and rain, some with half their garments, and some almost in a state of nudity.

Some of the visitors to the billiard hall were obliged to leap from the windows, not being enabled to make their exit by the stairs and doors, in the face of flame and smoke.

Rufus E. Cutler is the owner of all the buildings destroyed, and his loss is estimated at $8000, on which there is no insurance.

Nathaniel P. Cutler is a loser to the amount of $100 by the removal of his goods.

The News Letter, from which we take the account, says,—The fire was without doubt the work of an incendiary.

EUROPEAN ITEMS.—Via Liverpool, 12th.

It is supposed that the robbery of the British Consul under the sanction of the Mexican authorities will cause determined action on the part of the English Government, who are awaiting official confirmation.

The London Times editorially censures attitude of South Carolina, but admits that the Southerners have some cause on their side for demanding the right of free trade.

The French Government has issued a decree abrogating all warnings to the press.

Italian affairs remain unchanged. The army of Italy is to consist of 300,000 men, divided into northern divisions.

The programme of the new Austrian Ministers of State contained sweeping and important measures of reform.

☞ There are ten towns named Lincoln in the United States. Four of these are in New England, viz., one in N. H, one in Vermont, and one in Massachusetts. Maine also has a county by that name.

☞ H. S. Eaton of Candia, fell dead in Piermont recently. He was one of the Selectmen of Candia in 1850.

THE SOUTH CAROLINA CONVENTION.—*Charleston, Dec.* 22.—No report has yet been made on Postal matters and Customs, but it is generally conceded that when made it will provide as follows: that the revenue laws of the United States be adopted; that the Collector of the Port take an oath of allegiance to South Carolina; and that postal matters remain *unchanged*.

Mr. Dessausure, from the committee to whom was referred the communication from a portion of the members of the Georgia Legislature, reported that the communication provided that secession should not take place until Alabama, Mississippi and Florida had assembled their Conventions for final State action, but that the communication was now of no avail, as the secession of South Carolina had taken place.

Mr. Magrath, from the committee on such portion of the President's Message as relates to the property of the United States in the limits of South Carolina, said he preferred making his report in secret session. The Convention went into secret session, and continued for two hours. It is reported that a very animated discussion took place on the report.

Mr. C. D. Melton, appointed to prepare credentials for the joint commission to Washington, was sworn to keep the strictest secrecy in regard to them. The accredited papers were delivered to the commissioners to-day, who go to Washington with full powers.

Washington, Dec. 23.—The Senate Special Committee came to no conclusion yesyesterday, the Republicans asking for further time. The extremes of the committee were equally unyielding.

The reported recent declaration of the President elect that he will adhere strictly to the Chicago platform, has confirmed the wavering Republicans to that policy and increased the intensity of the southern feeling.

It is reported that the Administration has received dispatches from Charleston to the effect that an armed cutter had arrived in that neighborhood and that unless an order was immediately given for her withdrawal, South Carolina would seize the forts. The report has caused great excitement.

Mr. Cushing returned yesterday from Charleston, whither he was dispatched to obtain reliable information for the Administration. Official letters were sent him while there. His report caused an immediate Cabinet consultation.

NEW YORK, Dec. 23.—At the annual supper last night of the New England Society, addresses were made by Messrs Dana, Bryant, Hamlin and Seward. The latter counselled forbearance on the part of the Republicans, and predicted that within sixty days all the troubles of the country will have passed away.

PETERSBURG, Va., Dec. 23.—A secession pole bearing the Palmetto flag was raised yesterday in the most prominent street of this place. It was sawed down just before daybreak this morning by an unknown person, and the flag carried off. The affair caused great excitement, and a collision was feared.

CHARLESTON, Dec. 22.—A special dispatch received in this city from Washington, says that Major Anderson has been ordered to surrender the forts to the constituted authorities of South Carolina, in case the forts are attacked; but not to surrender to irresponsible parties.

NORTH CAROLINA LEGISLATURE.—*Raleigh, N. C., Dec.* 23.—The Legislature adjourned yesterday until Jan. 7th. The bill arming the State, *failed* in the House.

Life has few charms for the Dyspeptic, which is not to be wondered at, when we take into account the amount of bodily suffering which he endures. By use of the *Oxygenated Bitters*, the picture is reversed and the bright side of life appears.

We are glad to see a disposition on the part of Manufacturers in this country to excel in quality, and of consumers to purchase the best in the market, especially in the articles which enter into the food of man. We are led to the above remarks since having the pleasure of eating some very nice light biscuit, made from Herrick Allen's Gold Medal Saleratus. Our better-half pronounces it the best she ever saw. Try it. Most all the Grocers and many Druggists sell it. *

☞ Reader, have you seen Prof. Wood's advertisement in our paper. Read it; it will interest you. tf

ANOTHER NEW STOVE

THE MODEL COOK

FOR WOOD OR COAL,

MADE BY

THE BARSTOW STOVE COMPANY

Of Providence, R. I.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking giving an oven nearly 3 ft. long! or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven, with a tin roaster in front of the fire, are obvious, viz:

1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is the most durable, tasteful and useful.

2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking oven.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires; or it can be used for a hot closet when not required for baking or roasting.

5th. By this extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time the stove occupies no more room on the floor.

John Trundy, Esq., one of our most practical and scientific mechanics, who has had large experience in the construction of stove patterns in years past, and has for many years been using one of the Stewart Stoves, has purchased one of the MODEL COOKS, and after a fair trial pronounces it far superior to the Stewart or any stove he has ever seen, for economy, convenience and dispatch. We might also refer to several other parties who are using the stove, and who award it the very highest praise.

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be *the* stove for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is wanted.

We have nought to say against any other stove, believing that a man can sell his own goods without depreciating his neighbor's; but this we do say, that we honestly believe this is the *best stove that can be found in the world*; and what is more, we think others will agree with us after a trial of it. We invite any one to examine the stove, whether they wish to purchase or not.

For sale, with a great variety of

Furnaces, Ranges, Cooking, Office and Parlor Stoves! Coal Hods, Sifters, Funnel, Stove-Repairing Pieces, Parlor Grates, Etc.

BACHMAN & CO.

Morning Chronicle.

Ox Harness.—The yoke and narrow bows impinging on the ox's breast, occupy so narrow a space, as to materially annoy them and abridge their power to apply their entire weight to the draft. We have lately made the experiment of using for our oxen a very large collar, with a broad face, so as to rest over a large surface, avoiding the upper muscles of the thigh and doing away with the heavy yoke; the collars are split at the top and there buckled, so that they may be easily put on and taken off. To this collar is attached a set of traces, supported by loops hung from a saddle and attached to whiffletrees, thus permitting the oxen to act independently of each other, each drawing, as with the ordinary method of harnessing horses. Under such arrangement, the oxen throw their heads about and exhibit a vivacity never found in oxen wearing the inhuman yoke. They draw a much heavier load, and with less annoyance, nor do they lean away from the centre, calling on each other for support, as when yoked; they perform a larger amount of labor in a less space of time; indeed, they become a lively and good road team for the transportation of heavy loads.

THE WEEKLY CHRONICLE,

Containing the news of the week, at home and abroad, as published in the six previous issues of the Daily Chronicle,—is printed on *Friday* morning, and immediately delivered by our carriers to subscribers in the city, or sent by mail to any part of the State or the world.

As the Weekly Chronicle contains most of the matter from our "local" Daily columns, it will be found an attractive paper for natives of Portsmouth living abroad, and all others interested in our city.

Terms of subscription to the Weekly Chronicle, only $1 per year in advance—sent by carrier without extra charge, to any part of the city and vicinity; or by mail, postage free, to any part of Rockingham County. Direct letters, "Chronicle, Portsmouth, N. H."

CONCENTRATED LEAVEN,

FOR MAKING

Broad, Tea Cakes

All kinds of Pastry, &c., &c.,

MANUFACTURED BY

EDW. CHAMBERLIN & CO.,

Proprietors of Shawmut Chemical Works,
NO. 33 INDIA STREET, BOSTON.

CONCENTRATED LEAVEN is the result of careful chemical researches. All the ingredients are prepared in the highest state of purity, and compounded with a view to produce bread of a far better quality, and in much less time, than by any other process, and the manufacturers submit it with entire confidence to the judgment of discriminating housekeepers, bakers, &c. &c.

Bread of all kinds, made by using CONCENTRATED LEAVEN, is lighter, more digestible and nutritious; has an agreeable, sweet, taste; is less liable to sour; will retain its moisture longer than by any other process, and the whole preparation for the oven need not exceed ten minutes.

It is valuable because it is not perishable, and may be rendered available in places and at times when yeast is not within reach, as at sea. In ill climates, and under all circumstances it may be adopted, thus obviating all difficulty of procuring yeast or other ferment, which is frequently of an inferior quality, rendering the bread more or less unwholesome.

It is also valuable as regards economy, as it has been ascertained that a saving is effected in the flour of not less than 16 per cent. In the common process, much of the saccharine of the flour is lost by conversion into carbonic acid gas, or spirit, and the waste is incurred solely for the purpose of generating gas to raise the dough. By using CONCENTRATED LEAVEN, this waste is avoided, and the gas obtained in a manner equally efficacious. Fermentation, as has been stated, destroys a part of the flour itself, and in a parallel instance, a barrel of flour weighing 196 pounds, which by the common method ordinarily makes about 260 lbs. given by the process 290 lbs., showing a saving in very important saving of 16 per cent. in the quantity of flour. By conformity to the directions on the wrapper, any person, quite ignorant of ordinary cooking, can conduct the process, and the result will invariably be highly satisfactory.

CERTIFICATE FROM DR. HAYES,

Assayer to the State of Massachusetts.

"I have analyzed the Concentrated Leaven manufactured by Messrs. Edw. Chamberlin & Co., with a view to its purity and efficiency of action in producing the effect of yeast in distending dough and thereby rendering it fit for making light bread. This article is skillfully compounded, from perfectly pure materials, which leave nothing but a vegetable salt, which is essentially a delicate food in the form of bread, and digestible without consuming the sugar or any other principle in the flour, perfectly; and the same weight of flour will produce more sweet, palatable bread than can be obtained through the aid of yeast; while fermentation and pastry it is invaluable, as it saves time and much labor in the stiff dough.

The experiments made by me confirm the statements of the manufacturers, and prove this compound worthy of public approval and extended use. Respectfully,

A. A. HAYES, M. D., *State Assayer.*

16 Boylston st., Boston, Sept. 25, 1860."

HOW TO USE IT.

We append a few recipes, but it may be used with great advantage in all other kinds of cake, also in fruit pudding, and in pastry.

BREAKFAST AND TEA ROLLS.—Two or three teaspoonsfuls of Leaven (according to the quality of the flour,) to one quart of flour; mix thoroughly by passing two or three times through a sieve; rub in a piece of butter of half the size of an egg, and make the paste the paste with cold milk or water, (milk is preferable,) barely stiff enough to permit rolling out. Much kneading should be avoided. Cut into desired form, and place immediately into a hot oven, and bake quickly.

LOAF BREAD.—The same proportions of Leaven and flour sifted together as above; omit the shortening, and make up with cold water; knead into a loaf, and bake immediately in a slow oven.

GRAHAM BREAD.—Three teaspoonfuls of Leaven to one quart of wheat meal, sifted together; add two eggs and about a gill of molasses; make the paste thin with milk, and bake in a slow oven.

BROWN BREAD.—Three teaspoonsful of Leaven in one pint of flour, and one pint of corn meal; all well sifted together; add half a teacup and about a gill of molasses; make the paste thin with milk, and bake slowly.

BUCKWHEAT CAKES.—Flour and milk sufficient to make one quart of batter; add one egg and two three teaspoonsfuls of Leaven; beat to a froth, and cook quick.

DUMPLINGS.—Sift together one quart of flour and two teaspoonsfuls of Leaven; rub in a piece of butter half as large as an egg; mix with cold milk or water, and boil ten minutes.

CHAMBER STREET CAKE.—Sift together two large cups of flour and two teaspoonsfuls of Leaven, put in half a cup of butter and a cup and a half of sugar; mix with cold water or milk to a stiff batter, and spice to suit the taste, and bake immediately.

CINCINNATI SPONGE CAKE.—Two cups of white sugar, beaten with the yolks of six eggs—the whites of the eggs beaten to a stiff froth; add all together; add three cups of sifted flour, one cup of water, and three teaspoonsfuls of leaven; flavor with two teaspoonsfuls of essence of lemon, and bake in a quick oven.

JUMBLES.—Sift together one quart of flour and three tea spoonsfuls of Leaven; rub in one teacupful of butter, and one of lard; add half a cup of sugar, and spice to suit the taste; mix stiff enough to roll out, and bake quick.

SUGAR CAKES.—Take one quart of flour and three teaspoonsfuls of Leaven sifted together; add a cup of butter, one pound of currants, two cups of white sugar, and one teaspoonful of cinnamon; mix with cold milk to a stiff batter, and bake in a slow oven.

CORN CAKE.—One pint each of flour and Indian meal and three teaspoonsfuls of Leaven, well sifted together; add one gill of molasses, and two eggs; mix thin with milk and bake in a slow oven.

CUP CAKE.—Five cups of flour and three teaspoonsfuls of Leaven, sifted together; add one cup of butter, two of sugar, and two eggs; all well beat together; mix with milk; then add a cup of raisins and spice to suit the taste. Bake about half an hour.

LADIES' CAKE.—Three quarters of a pound of flour and four teaspoonsfuls of Leaven sifted together; one pound of sugar and six ounces of butter beaten to a cream; the white of eight eggs well beaten, and the juice of one lemon; mix with milk.

WEBSTER CAKE.—Five cups of flour, three teaspoonsfuls of Leaven, three cups of sugar, one of butter, one of milk, and two eggs; fruit and spice to the taste. Bake about half an hour.

For Sale by Grocers Generally.

Boston, Oct., 1860. 3aw 3mos

New Photographic Establishment.

Having fitted and furnished in modern style, large, pleasant and commodious rooms, the subscriber is prepared to furnish all who wish with fine Pictures of every description, from miniature Miniature to life-size Portraits. Photographs finished in India Ink, Water and Oil Colors, by the best artists in the country. Old Daguerreotypes, &c., copied any size desired.

The subscriber having had many years' experience, from the old Daguerreotype down to the present time, keeping pace with every useful improvement, a success almost unprecedented has heretofore attended him, and by strict attention to business, and fair dealing he hopes to merit a share of public patronage.

All work from the establishment warranted to be of the first order, both for finish and durability. Prices as low as in Boston, or any other place where first-class work is performed.

Having a large skylight, pictures can be taken late in the day, and equally as well in cloudy as in fair weather. The public are respectfully invited to call and examine specimens, at **17 Pleasant Street,** opposite the New Custom House.

Agent for New Hampshire.

Portsmouth, N. H., Nov. 27, 1860.

BLOOD FOOD

The attention of Invalids, Physicians, Clergymen, scientific men, and the public generally, is respectfully solicited to the merits of this chemical preparation, containing **Iron, Sulphur** and **Phosphorus,** and which is identical in its composition with the *Hematic Globule*, or *red blood.*—in all diseases accompanied with

DEBILITY,

pale countenance and nervous derangement, analyses of the blood show a deficiency of the red globules, fluidity contravention and a rosy tint of the skin, is always indicative of health; while a pale, wax-like skin and countenance,—which evince a considerable deficiency of the red globules,—accompanies a diseased organism. Preparations of **Iron** have been given for the purpose of supplying the red globules, but we contend that **Iron** alone, or **Sulphur** alone, or **Phosphorus** alone, will not meet the deficiency in every case, but that a judicious combination of all these elements is necessary to restore the blood to its normal standard. This point, never before attained, has been reached in the **Blood Food,** and its discoverers rank as one of the most scientific and important of the age. Its effects in

CONSUMPTION

are to soften the cough, brace the nerves, strengthen the system, allay the prostrating night sweats, increase the physical and mental energy, enrich the blood by restoring the lacking red globules, increase the appetite, restore the color, and clothe the skeleton frame with flesh. The **Blood Food** will be found a specific in all *CHRONIC DISEASES of the STOMACH or LUNGS;* such as *Asthma, Bronchitis, Coughs, &c.* Public speakers and singers will find it of great utility in clearing and strengthening the vocal organs. In *Dyspepsia, Liver Complaints, Dropsy, Epilepsy, Dyspepsia, Scrofula, Gravel, St. Vitus' Dance, Fever and Ague, &c.* its effects are marked and instantaneous. In any class of disease, however, of a chronic character, beneficial effects of this remedy so conspicuous as in those harrassing

FEMALE COMPLAINTS

to which the gentler sex are liable, and which tend towards Consumption, such as suppressed or difficult *Menstruation, Green Sickness, Whites, &c.* especially where these complaints are accompanied with paleness, a dingy hue or pallor of the skin, depression of spirits, debility, palpitation weak digestion, and nervous prostration. We have the utmost confidence in recommending the **Blood Food** to all who may be conscious of a loss of vitality or energy, and to those whose mental or bodily powers are prostrated through *over-use,* either of the mind or body, and we deem our duty fulfilled in all cases of *Weakness and Emaciation,* and in all diseases of the *Kidneys or Bladder,* this preparation has a claim upon the attention of sufferers which cannot be over-estimated. A faithful trial will be found the most convincing proof in regard to its efficacy that could be asked for. With the above remarks, and with the numerous testimonials we have in its favor, we offer the **"Blood Food"** to the consideration of the afflicted, knowing that it will be acknowledged as pre-eminent over all other preparations, patant or official, in point of usefulness. Circulars giving the Theory upon which this remedy is founded, and numerous certificates of remarkable cures will be sent free when desired. We forward the **Blood Food** to any part of the United States on receipt of price, $1 per bottle, $6 for six bottles. Be careful in all cases to take none but that having our fac-simile signature upon the wrapper. None other is genuine.

Prepared only by **CHURCH & DUPONT,**
No. 409 Broadway, New York.

And sold by them, and all respectable Druggists.

Sold in Portsmouth by PRESTON, THACHER, HUTCHINGS and KIMBALL. s6 1y

BININGER'S GENUINE Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant,* when all other remedies fail, we are now bottling and selling at reasonable rates, a Brandy of our own importation, from one of the most responsible houses in France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and tea agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

Dyspepsia Remedy

DR. DARIUS HAM'S
AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Dizziness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most protracted cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens,* will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

Dose.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder and Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will prove an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the Invigorating Spirit in pint bottles, at 50 cents, qts $1.

Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and tea agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

Morning Chronicle.

Mr. Ex-Councillor Aurin M. Chase, of Whitefield, has a pleasant way of dealing with his Democratic friends in Northern New Hampshire. They go to him and say: "Chase, the election of Lincoln is raising the Old Boy in the country." To which the Councillor replies: "Gentlemen, you *must* excuse us Republicans. We were innocent in this whole deed. We supposed every man had a right to vote according to the deductions of his understanding; and, more than that, we supposed the Republic *could* survive a Presidential Election.—You *must* pardon us this once."—*Statesman.*

CAN FLORIDA SECEDE?—Florida *belongs* to the Union by purchase, and it is a question whether Florida may not be properly coerced into submission. That territory was taken in payment of an old debt owed by Spain to citizens of the United States, in 1819. It has cost this nation, first and last, more than any other five States. The bones of more gallant men, drawn from every State in the Union, now moulder in its soil than in any five States in the Union. Can she step out?—If she can, we have one big regret for her, and that is that the United States Government did not permit Osceola to wipe the white inhabitants from her face, instead of such men as Fanning, Dade and many others.—*Lawrence Journal.*

"If the laws are to be trampled upon with impunity, and a minority is to dictate to the majority, there is an end put, at one stroke, to republican government." Such were the strong, stern words of Washington, in 1794, at the begining of the Whiskey Rebellion, in Western Pennsylvania.

THE WEEKLY CHRONICLE,

Containing the news of the week, at home and abroad, as published in the six previous issues of the Daily Chronicle,—is printed on *Friday* morning, and immediately delivered by our carriers to subscribers in the city, or sent by mail to any part of the State or the world.

As the Weekly Chronicle contains most of the matter from our "local" Daily columns, it will be found an attractive paper for natives of Portsmouth living abroad, and all others interested in our city.

Terms of subscription to the Weekly Chronicle, only $1 per year in advance—sent by carrier without extra charge, to any part of the city and vicinity; or by mail, postage free, to any part of Rockingham County. Direct letters, "Chronicle, Portsmouth, N. H."

Sold in Portsmouth by PRESTON, THACHER and KIMBALL; and by Apothecaries generally throughout the country. au31 1y eod W

PROF. WOOD'S
RESTORATIVE CORDIAL
—AND—
BLOOD RENOVATOR,
Is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted *as to act in perfect accordance with the laws of nature, and hence soothe this weakest stomach*, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical science, and also by all who have suffered from debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous to which poor humanity is constantly liable. Such, for example, as the following: Consumption, Bronchitis, Indigestion, Dyspepsia, Loss of Appetite, Faintness, Nervous Irritability, Nuralgia, Palpitation of the Heart, Melancholy, Hypochondria, Night Sweats, Languor, Giddiness, and all that class of cases, so fearfully fatal if unattended to in time, called *Female Weaknesses and Irregularities.* Also Liver Derangements or Torpidity, and Liver Complaints, *Diseases of the Kidneys*, Scalding or Incontinence of the Urine, or any general derangement of the Urinary Organs, Pain in the Back, Side, and between the Shoulders, predisposition to Slight Colds, Hacking and Continued Cough, Emaciation, Difficulty of Breathing, and indeed we might enumerate many more still, but we have space only to say, it will not only cure the debility following Chills and Fever, but prevent all attacks from Miasmatic influences, and cure the diseases at once, if already attacked. And as it acts upon the biliary system, arousing the Liver to action, promoting, in fact, all the excretions and secretions of the system, it will infallibly prevent any deleterious consequence following upon change of climate and water; hence all travellers should take a bottle with them, and all should take a table-spoonful at least before eating. As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits, students, ministers and literary men. And all ladies not accustomed to much out-door exercise should always use it. If they will, they will find it an agreeable, pleasant, and efficient remedy against those ills which rob them of their beauty; for beauty cannot exist without health, and health cannot exist while the above irregularities continue. Then, again, the Cordial is a perfect Mother's Relief. Taken a month or two before the final trial, she will pass the dreadful period with perfect ease and safety. *There is no mistake about it—this Cordial is all we claim it.—Mothers, try it!* I call on you we appeal to detect the illness or decline not only of your daughters, before it is too late, but also your sons and husbands, for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known in time, the latter are often so hurried up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never-failing affection will unerringly point you to Prof. Wood's Restorative Cordial and Blood Renovator as the remedy which should always be on hand in time of need.
O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St Louis, Mo., and sold by all good Druggists. Price $1 per bottle.
Agent for Portsmouth, J. H. THACHER, corner State and Pleasant streets, and No. 12 Market Square. D eow ly

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic and stomachic* herbs, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, setting digestion pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, in this city it was universally cured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said: *"that it is the best preparation of Bitters that has ever been offered to the public."*
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particular reference is made to the printed circulars.
—FOR SALE BY—
CHARLES H. ATWOOD
19 CENTRAL STREET, BOSTON,
and by Druggists *every where.*
For sale in Portsmouth, by W. R. PRESTON and JOS. H. THACHER.
Boston, Sept 1, 1860.—s3 3ewly

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, DECEMBER 27, 1860.

MONTGOMERY, OF KANSAS.

All the readers of newspapers have seen terrible accounts of Montgomery and his band. And some readers, perhaps may have been so vexed to find that the Hon. Judge Williams' alarming dispatches, (by which he aided the secessionists,) were a pack of lies, as to resolve to believe nothing more from Kansas.

All such had better read one more document, viz.,a letter from Capt. James Montgomery himself, which agrees pretty well with the report made by an agent of the governor of Missouri, who went to Fort Scott to investigate the case; though Montgomery's letter states the *real causes* of the difficulty, which the agent's account does not. Montgomery's letter is published in the Boston Atlas.

MOUND CITY, (Kansas), Dec. 11.

You have seen by the papers that we are having decidedly interesting times here.

Gen. Harney, who is death on niggers and indians, is here, and would like to be death on abolitionists too, but he can't 'come it.' As matters are situated, we can do better than to fight. The fact is, they went off before they were ready, and thus their deep-laid schemes are brought to naught.—This trouble, like every other we have had, will end in a triumph for freedom; and I venture the prediction that no more troops will ever be sent to southern Kansas; and I further predict that not another serious attempt will ever be made to enforce the Fugitive Slave law in southern Kansas.

Three noted scamps have been executed by the people. The last case on the docket of the People's Court was dismissed on the intercession of acting Gov. Beebe. Everything else that you have seen emanating from Judge Williams or the Democracy is utterly false.

We do not wish to speak harshly of Republican journals. We only wish to put them on their guard, lest by going off at half cock on the strength of Democratic evidence, they make themselves ridiculous. They should learn to know us better. They should also know that since Democracy has become so corrupt that the truth would ruin it, its leaders have learned never to tell the truth when they can help it.

In northern Kansas, where Republicanism has simmered down to something of the strength and consistency of dishwater, Democracy is triumphant; but here in the south, where Republicanism is the representation of free principles, Democracy makes but a poor show.

The Daily Atlas and Bee, of your city, thinks "Montgomery and his *band* are not recognized by the *people*." Montgomery has no *band*. It is a myth. Montgomery is one of the *people*, and acts with them,and the people of southern Kansas are the men who have saved the Territory to freedom. The present storm will soon blow over, and southern Kansas will be a country good to live in. Yours truly,

JAMES MONTGOMERY.

In a former letter Montgomery gives the origin of the last trouble, as follows:

Matters had got to such a pass that we had no security for our own lives. Numerous attempts were made to assassinate the leading anti-slavery men. Several barbarous murders had been perpetrated by a secret dark lantern order in our midst, and we found it impossible to bring the perpetrators to justice by course of law, as the secret order seemed to control the Courts.

We tried to indict them in the Circuit Court; but Judge Williams cut the session short before an indictment could be reached.

When the session of the United States Court came on, in which the Marshal chooses the jury, we found both juries thoroughly packed—no fewer than nine of those very *murderers* being empanelled, and not a Republican on either jury.

The executions which took place, he says were done by order of a committee, not secretly, but above board.

Dr. Jennison, in a letter to the Lawrence Republican, gives the same explanations of the troubles, in regard to the jurisdiction of the Court, packing of juries, &c. He also states that there were murderers on the jury, and that Judge Williams' son, living in *Arkansas*, was also on the jury.

A convention of the citizens of Linn and Bourbon counties, in relation to their troubles, passed resolutions declaring that the execution of the persons which caused the recent ordering out of troops was not done by a small party of ruffians, but by a committee of citizens, and that the statements of Judge Williams and others were falsehoods. One of their resolutions reads as follows;

Resolved, That the late executions in our midst were justifiable, on account of the peculiar and base criminality of those who suffered the judgment of the people's court, because of their plotting to murder and assassinate our citizens and deprive men of their dearest rights.

☞ Pecuniary considerations are beginning to enter largely into the plans of the disunionists. Baltimore is anxious to become the great Southern capital. Norfolk will put forth her pretensions, while Savannah, Charleston, Mobile and New Orleans will struggle for the prize.

☞ Our countrymen in Berlin celebrated Thanksgiving by partaking together of a feast, at which speeches were made by Germans and Americans.

☞ Ex-President Tyler is said to be hopeful of an adjustment of the national difficulties.

CONGRESS, MONDAY, Dec. 24.

SENATE.—Mr. Fessenden introduced a bill granting land and loaning the credit of the government to the People's Pacific Railroad. Tabled and ordered to be printed.

Mr. Pugh offered a resolution requesting the several States to call Conventions.

Mr. Bigler presented a bill to suppress any invasion of one State by another.

Mr. Douglas presented several amendments to the Constitution.

Mr. Wilson introduced a bill for the suppression of the slave trade.

The Kansas bill was then taken up.

Mr. Nicholson defended the South, and complimented the northern Democracy.

Mr. Doolittle thought the admission of Kansas would bring peace to the country.

Mr. Collamer favored the bill.

Mr. Davis introduced a resolution amendatory of the Constitution, that property in slaves be recognized, and as such to stand on the same footing as any other kind of property, the local laws of any State not affecting it.

Further consideration of the Kansas bill was postponed.

Adjourned until Thursday.

HOUSE.—The Speaker laid a letter before the House, from the members from South Carolina, resigning their membership, as the State had resumed its original rights. Laid on the table and ordered to be printed.

Mr. Sherman of Ohio reported the army appropriation bill.

A communication was received from the Secretary of the Interior giving information of a defalcation amounting to $870,000 in the Indian trust fund. The Secretary wishes for a full investigation to vindicate his own honor. A select committee of five with full powers was appointed.

John Cochrane of New York introduced a resolution that in the opinion of Congress, slavery should not exist in territory north of 36 30, and States formed therefrom shall be admitted into the Union with or without slavery; also asserting the sovereignty of each State, and that any attempt to compel subserviency to the Federal compact would be to levy war and precipitate revolution.

Mr. Haskin of New York proposed as a substitute for Mr. Cochrane's resolution that the Judiciary Committee inquire into the relations now existing between the general government and South Carolina; also the duty of the Executive in view of the attempted withdrawal of that State and the threatened seizure of the Federal property, and what action Congress should take.

Mr. Cochrane withdrew his resolution after some debate.

The Consular appropriation bill was passed.

☞ Burleigh, writing from New York, for the Boston Journal, says:—

A Southern gentleman of the State of Virginia—one of the most eminent and influential—has written a letter to some gentlemen in this city, that is having a marked impression, and will account for the high conservative tone taken by some of the leading Republican journals. He says that the conservative men of the South are for the Union; and if Mr. Lincoln will come out plainly and say that he will administer the government on the constitutional basis of our fathers, it is all reasonable men at the South will ask. That if South Carolina goes out of the Union, it will be all the better and all the stronger for her absence; that she has been an arrogant and annoying member of the confederation, and has made so many and so urgent exactions from the start, that once fairly out the whole land will be at peace.

THE POST OFFICE.—A Washington rumor of a late date says:—

If the Postmasters in South Carolina, retire in a body,as expected, Mr. Holt will at once give public notice that no mails for South Carolina will be made up, because they cannot be delivered at their destination. All such will be sent to the dead-letter office after a certain date, to be delivered to the parties sending the letters. It is absurd to suppose that the mails will be carried to South Carolina line, and handed over to local agents there, with whom we will have no official connection whatever. All mail contracts contain a clause giving the Postmaster-General the discretion to discontinue any route by paying one month's compensation. Of course, he must cut off the whole service in South Carolina immediately after the Government Post Offices are closed.

☞ *Last summer*, H. F. Sickles of Moline, Ill., met a prominent slaveholder in St. Louis, when an animated discussion ensued between them on the subject of politics, which ended in a bet between the parties, the slaveholder *betting a negro* with Mr. Sickles against an amount of flour equal to the value of the negro, that Abraham Lincoln could not carry Illinois or New York. The negro has been paid over and manumitted.

☞ Notwithstanding the pacific nature of the dispatches from Washington, the army authorities in New York seem to expect orders for reinforcements to be sent to Fort Moultrie. It is said that Gen. Scott has predicted the departure of 3000 men for South Carolina in less than a month. The troops on Governor's Island, most of whom are recruits, are drilling daily.

☞ Senator Toombs of Georgia, has telegraphed home a dismal dispatch about the "black republicans" in Congress, and says:

I tell you upon the faith of a true man, that all further looking to the North for security for your constitutional rights in the Union ought to be instantly abandoned.—It is fraught with nothing but ruin to you and your posterity. Secession by the 4th of March next should be thundered from the ballot-box of Georgia, on the 2d day of January next. Such a voice will be your best guarantee for liberty, security, tranquility and glory.

*That is, slavery.

☞ The Fayetteville (N. C.) Observer finds a strong anti-secession feeling in that State.

For the Chronicle.

DIVISION OF PUBLIC PROPERTY.

There is such a diversity of interests,morals, habits, customs, manners, and political and religious sentiments between the North and the South, that a further union under the same government may seem to be impracticable. The Union is not an adamantine chain, binding together all the parts. It rests upon public opinion. In its origin it was a matter of imperious necessity which no longer exists. Still, while we would not advocate disunion, yet in our humble judgment, if the rulers of the South elect to secede and establish another government,—aristocratical, oligarchical, monarchical or despotic in its features,—adapted to the condition of slaves, and to the oppression of the white masses, we say, "let them alone." The age is too enlightened long to tolerate an institution which entails squalid misery, and sinks the common people to the level of slaves. Even now there are in the South many learned and humane statesmen, who, perceiving its ruinous, appalling effects, would gladly join the common people to remove the cause of their degradation. Secession would hasten the joyful event.

Should the South, without Northern interference, establish a new form of government, which, whatever might be its form or name, would widely differ from our democratic republican government, whose principles they detest, they would, regarding their own interests, be disposed to enter into an amicable treaty with our free States. The free navigation of the Mississippi would be a *sine qua non*, and it will ever be free.—Some division of the public vessels in proportion to the expenditures of the free and slave States, and an equivalent for a quit-claim to the public buildings in the city of Washington according to their present value, might be required. But inasmuch as the free States have contributed more than the South for forts, magazines, arsenals, custom-houses, and public works, in the slave States, the latter can have no just claim to them. A division of the territories of the United States may be attended with some difficulty. But the Seceders have no right to complain of any divisional line the non-seceding States should dictate. Indeed they would forfeit all claim to the public property. But such is the superior physical power, the vast wealth and resources of the free States, it would be wiser to be generous and liberal, in preference to engaging in a fraternal conflict. PAX.

☞ In the South Carolina Secession Convention, Dec. 24, Gov. Perry of Florida was invited to a seat.

Mr. Magrath moved an ordinance that hereafter the Judges of the Courts take cognizance of cases of admiralty, maritime jurisdiction, and for all offences, as under the United States laws. Referred to the Committee on the Constitution.

The Convention took up the Address to the people of the Southern States.

Great alterations were made in it after a lengthy and not generally interesting discussion.

Mr. Duncan moved that the Convention go into secret session on the ordinance in relation to commercial affairs.

Information has been given that several lighthouse keepers were about to vacate their positions, and it is understood that during the secret session a conference will be had with the Collector of the Port on the subject.

THE ATLANTIC MONTHLY FOR JANUARY, 1861, is published. A lively sketch of Washington City constitutes the first article. The story of Midsummer and May is concluded. The other prose contributions are—A Night Under Ground, A lonely House, Barbarism of Civilization, Who was Casper Hauser? Recollections of Keats, by an old school-fellow; The European Crisis, Visit to the Asylum for Aged and Decayed Punsters, The Question of the Hour, and the Professor's Story continued. The poetical contents consist of Paul Revere's Ride, Pampanea, and Idyl and Test. Published by Ticknor & Fields, Boston. Terms, $3 per year. For sale by all book-sellers and newsmen.

☞ Wm. W. Palmer was suddenly killed at Swanzey, N. H., Saturday, while sawing off a tree that had been partly blown over and hung by the roots. As the body was covered, Mr. Palmer was struck by one of the roots, and completely buried beneath the others. He was killed instantly, and leaves a wife and two children. He was about 48 years old.

☞ A Mrs. Wortman, living in a small house on Birch street, Bangor, was found frozen to death in her room on Wednesday. It is stated that a bottle of rum was found near her.

☞ A New York bar-keeper sold a detective camphene for whisky last Sunday. He was arrested for selling liquor; but as the decoction was brought into court, it became evident that the officer, and not whisky, was "sold."

☞ A letter from Vienna states that Baron Rothschild has won four-fifths of the great prize—800,000 florins—in the State lottery.

ANTI-TOBACCO JOURNAL for Jan. 1861, is received; its contents are:

An Appeal to the Prince of Wales on the Pernicious Effects of his Cigar and Pipe; One Day and a Half in the Life of a Tobacco-chewer; The Tobacco Dyspeptic; An Appeal to the Boston Doctor, the Apologist for Tobacco in the 'Atlantic Monthly'; Prof. Lizars on Smoking; A Clergyman Emerging from Smoke; The Christian Virtues of an Old Smoker; Voices of Warning from Maine, New Hampshire, Michigan and Iowa; Appeal to the Smoker; What Harm is there in a Pinch of Snuff? True Aspect of the Tobacco Evil; Anti-Tobacco Evil; Anti-Tobacco Medal; Signs of Progress; Boys' Department.

☞ A paper published in Stockbridge, in 1800, states that the library of a deceased clergyman sold for £3, and the liquors in his cellar for £276. Commentaries are needless.

MARRIAGES.

In this city, on the 19th inst., by Rev. Mr. Medbery, Mr. HENRY A. HANDORFF, of Portsmouth, to Miss JULIA A. BLAKE, of Kittery.

I. O. S. M.

Sons of Malta are requested to meet at the City Hotel, on FRIDAY eve, Dec. 28, at 7 o'clock, on business of importance. Per order of Committee.

SEVEN YEARS!

The seven years of unrivalled success attending the
COSMOPOLITAN
Art Association,
have made it a household word throughout every quarter of our country.
Under the auspices of this popular Institution, over *three hundred thousand homes* have learned to appreciate—by beautiful works of art on their walls, and choice literature on their tables—the great benefits derived from becoming a subscriber.
Subscriptions are now being received in a ratio unparalleled by any of any previous year.

TERMS OF SUBSCRIPTION.

Any person can become a member by subscribing *three dollars*, for which sum they will receive
1st.—The large and superb steel engraving, 30 x 38 inches, entitled
Falstaff Mustering His Recruits,
2d.—One copy, one year, of that elegantly illustrated magazine, the
"COSMOPOLITAN ART JOURNAL."
3d.—Four admissions, during the season, to
"The Gallery of Paintings, 548 Broadway, New York."
In addition to the above benefits, there will be given to subscribers, as gratuitous premiums, over
Five Hundred Beautiful Works of Art,
comprising valuable paintings, marbles, parians, outlines, &c., forming a truly national benefit.
THE SUPERB ENGRAVING, which every subscriber will receive, entitled "FALSTAFF MUSTERING HIS RECRUITS," is one of the most beautiful and popular works in this country. It is done on steel, in *fine line and stipple*, and is printed on heavy plate paper, 30 by 38 inches, making a most choice ornament suitable for the walls of either the library, parlor or office. Its subject is the celebrated scene of Sir John Falstaff receiving in Justice Shallow's office the recruits which had been gathered for his "Ragged Regiment." It could not be furnished by the trade for less than five dollars.
The *Art Journal* is too well known to the whole country to need commendation. It is a magnificently illustrated magazine of Art, containing Essays, Stories, Poems, Gossip, &c., by the very best writers in America.
The Engraving is sent to any part of the country by mail, with safety, being packed in a cylinder, postage prepaid.
Subscriptions will be received until the Evening of January 31, 1861, at which time the books will close, and the premiums be given to subscribers.
No person is restricted to a single subscription. Those remitting $15, are entitled to five membership, and one extra Engraving for their trouble.
Subscriptions from California, the Canadas, and all Foreign Countries, must be $3.50 instead of $3, in order to defray extra postage, &c.
For further particulars send for a copy of the elegantly illustrated *Art Journal*, pronounced *the handsomest magazine in America*. It contains Cat alogue of Premiums, and numerous superb engravings. Regular price, 50 cts. per number.—Specimen copies, however, will be sent to those wishing to subscribe, on receipt of 18 cents, in stamps or coin.
Address C. L. DERBY, Actuary C. A. A., 548 Broadway, New York.
N. B.—Subscriptions received received and forwarded by
FRANK W. MILLER,
Agent for Portsmouth and vicinity,
Where specimen Engravings and Art Journal can be seen.
Portsmouth, Nov. 23, 1860.

Also, PIGS FOR SALE as above.

Special Notices.

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then, who are suffering from any impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

Bryan's Pulmonic Wafers!
THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.
The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the series being combined with sugar in the least objectionable form, and any child will readily take them.
Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov28 dsw3m

The Great English Remedy!
Sir Jas Clarke's celebrated Female Pills
Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.
The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail to moderate excesses and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, see pamphlet to the agent.
One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail. nov28 dsw3m
Sold by W. R. PRESTON and all druggists.

Atwood's Quinine Tonic Bitters,—the best Aromatic Tonic ever offered to the public.—All the Druggists have it. See advertisement.

THE OXYGENATED BITTERS.
The qualities of this medicine have placed it up on an imperishable foundation. In destroying disease, and inducing health, it has no parallel.
For the following complaints these Bitters are a Specific: viz—*Dyspepsia, or Indigestion, Heartburn, Acidity, Costiveness, Loss of Appetite, Headache, and General Debility.*
In many sections of our country this preparation is extensively used by physicians in their practice, and it seems to have restored many to health who were apparently beyond the reach of the healing art
From Mr. Jonathan Chapin.
WALPOLE, N. H., May 18, 1860.
Messrs. S. W. Fowle & Co.—Gentlemen:—I consider the OXYGENATED BITTERS a valuable medical compound, combining both high medical skill and conscientious honesty in the person by whom they were compounded. I have used them for *Dyspepsia*, with very good effect, and consider them a reliable remedy for that complaint. In all cases where I have known of their being used, the result has been highly in their favor. I can conscientiously recommend the OXYGENATED BITTERS to all sufferers from diseases of a dyspeptic nature Yours truly,
JONATHAN CHAPIN.
From Mr. C. A. Shaw.
BIDDEFORD, Me., Aug 7, 1860.
Messrs. S. W. Fowle & Co.—Gents:—Disclaiming any intention of puffing a patent medicine, I have to assure you of my high regard for the OXYGENATED BITTERS, the beneficial effects of which I have witnessed in my own family, and I do not hesitate to pronounce them worthy the entire confidence of the community, as a remedy for that distressing disease, *Dyspepsia*, and a medicine whose merits will guarantee to it a steady sale. Yours,
C. A. SHAW.
Prepared by SETH W. FOWLE & CO., Boston;
SOLD BY
PRESTON, KIMBALL, HUTCHINGS, J. H. THACHER, N. P. THACHER, Portsmouth; JAMES P. PACKER, Greenland; S. HANSON, Jr., New Market; FOWLE & THING and W. B. SAY FORD, Exeter; J. W. GREEN, Hampton Falls; and by dealers everywhere. s25 4w

Local.

☞ Orders have been received at our Navy Yard to prepare the sloop-of-war Macedonian for sea, and as she is about ready, will sail immediately, under sealed orders. Three hundred sailors arrived at the Yard on Tuesday; a hard looking, jolly crew, requiring the officers considerable trouble in managing them. Notwithstanding all their exertions, however, about fifty of them managed to elude the vigilance of their keepers, and escaped after the cars had stopped, by jumping out of the car windows, the doors being locked. Several of them have since been recovered.

☞ Winter has come, in reality; as the sleighing and skating will prove. The skating has been better than now; although there is enough at the present time for which to be grateful. But the sleighing could not be much better: with about six to eight inches of snow on a foundation of solid ice, and the weather mild enough to prevent its drifting previous to its being well trodden, suffice to render the travelling all that could be desired.

On Christmas day, everything available in the shape of a horse or sleigh, was procured for a ride. Old ladies, who regard it as somewhat venturesome to trust themselves in a vehicle over two feet high; younger ones, who would "run the risk"—and consequently enjoy a sleigh-ride so much the more; younger ladies still, (but not, still young ladies, judging from the way their tongues "travelled") who defied danger while under the protection of their gallant beaus; forlorn bachelors, who had no such trust imposed on, or reposed in them; smart boys, who in their ambition to be "fast," overlooked, or could not secure the company of the tender sex; extremely fast young gentlemen, who had no difficulty in obtaining the companionship of young ladies of a corresponding rate of speed; fast and slow females, who would'nt thank any one for an invitation to ride—but preferring to manage their horses, procured a team at their own expense; in short, old and young, rich and poor, male and female, were enjoying, as facilities would permit, a sleigh-ride. An incessant jingling of the merry bells was heard from the rising of the sun to its sitting, contributing to the enjoyment of hundreds of all ages.

Stable-keepers reaped a pecuniary benefit from the good sleighing, and probably are duly grateful. Liquor was freely sold and drank, and as a consequence, some of the victims disgraced themselves and their families, by riotous conduct. With these exceptions, and a few others, it was a "merry Christmas," indeed. C.

☞ It is reported by telegraph that the ship Georgianna, Salter, was burnt at sea, recently. The captain and crew were taken off by the Levi Woodbury. She was built by Marcy & Pettigrew, in 1859; and owned by Daniel Marcy, W. Petigrew, W. Martin, Portsmouth; Peter Marcy, of New Orleans; and S. C. Thwing, of Boston.

☞ The Ball of the Ex-6's came off on Christmas night, and was attended by about sixty couples, among whom were a goodly sprinkling of the firemen from our neighboring cities, as well as representatives from our City Companies, and from the Horse Guards and Goodwin Guards, whose rich uniforms, amid the Red Shirts, and the flitting about of the fair ladies of our city, rendered the scene of great beauty. Everything passed off pleasantly, and we congratulate the Ex-Sixes upon the complete success of this their third Annual Ball. *

POLICE COURT.—Before Justice Odell. Michael Crowly, a common drunkard, was fined $8 and costs (4.20.) Mittimus issued.

Michael Hurley, for an assault on Patrick Kenala, was fined $3 and costs, (4.20.)—Mittimus issued.

☞ The Second Lecture of the Ministers' Winter Series, on Temperance, will be delivered next Sunday evening, at half past 7, in the Temple, by Rev. Mr. Waterhouse, who will preach at the same place during the day. Singing, at the Temperance Lecture, by the Temple Choir and the congregation.

☞ Rev. Mr. Day's lecture before the Freewill Baptist Society's Lyceum, on Tuesday evening, at the Temple, was a very spirited and lively performance. The subject was—"True Manhood."

The next Lecture of this Course, will be delivered on Wednesday evening, Jan. 9th, by Rev. D. Mott, of Lowell.

☞ The next lecture before the Mercantile Lyceum will be given on Tuesday evening, Jan. 1, by Mrs. Caroline H. Dall,—subject: "Four women of the 19th century, Wollstoncraft, Morgan, Bronte, and Fuller."

☞ Mrs. Calhoun, relict of the distinguished Senator, has been complimented by the South Carolina State Fair with a pair of silver pitchers, as a premium for beautiful window curtains, wrought by her own hands, during a recent visit to her daughter in Prince George county, Md. ¶

☞ The Charleston secession convention had a session on Christmas day. Gov. Perry of Florida told the convention his State will follow the lead of South Carolina.

Voted to send their documents to slave-holding States only.

The convention went into secret session to discuss the regulations of the customs.—The proceedings were marked with great caution, the convention not wishing to injure the commercial interests. Several foreign vessels are in an embarrassing position.

Gov. Pickens has issued a proclamation, proclaiming to the world that "South Carolina is, and has a right to be, a separate, sovereign, free and independent State, and as such has a right to levy war, conclude peace, negotiate treaties, leagues and covenants, and to do all acts whatever, that rightly appertain to a free and independent State."

☞ Foreign news, via Queenstown, Dec. 16, by the Canada, which brings $950,000 in specie.

The bombardment of Gaeta had recommenced.

The Empress Eugenie had arrived in Paris.

English funds firm; money not hard; general interest, 4 3-4 per cent. Cotton slightly declined. American and Canadian railway stocks had improved.

WASHINGTON, Dec. 24.—The Speaker of the House has ordered the names of the South Carolina members to be retained on the roll, thus not recognizing the action of their State in severing their connection with the House as they themselves maintain.

The Washington correspondent of the Evening Post telegraphs that another loss of $80,000 has been discovered in the Department of the Interior to-day.

William H. Russell has been arrested by Marshal Rynders for alleged complicity in the Indian Trust Fund defalcation.

☞ It is still reported that President Buchanan has given private orders for the surrender of Fort Moultrie. The seceding South Carolina Representatives *drew their full pay*, and took seeds from the patent office before they left.

ACTING TO SOME PROFIT.—It is stated that Charlotte Cushman, by her four week's engagement at the Boston Theatre, realized the handsome sum of *six thousand dollars!* Charlotte is still a maid and worth about $300,000.—*Herald.*

Life has few charms for the Dyspeptic, which is not to be wondered at, when we take into account the amount of bodily suffering which he endures. By use of the *Oxygenated Bitters*, the picture is reversed and the bright side of life appears.

We are glad to see a disposition on the part of Manufacturers in this country to excel in quality, and of consumers to purchase the best in the market, especially in the articles which enter into the food of man. We are led to the above remarks since having the pleasure of eating some very nice light biscuit, made from Herrick Allen's Gold Medal Saleratus. Our better-half pronounces it the best she ever saw. Try it. Most all the Grocers and many Druggists sell it.

☞ Reader, have you seen Prof. Wood's advertisement in our paper. Read it; it will interest you. tf

MERCANTILE LYCEUM.

The Fifth Lecture of the Fifth Course before the Portsmouth Mercantile Library Association, will be given AT THE TEMPLE,

On TUESDAY EVENING, Jan. 1,

By MRS. CAROLINE H. DALL.

SUBJECT:—Four Women of the Nineteenth Century, viz., Wollstoncraft, Morgan, Bronte and Fuller.

The following Lecturers have been engaged:
A. D. RICHARDSON, Esq.
DR. J. G. HOLLAND, ("Timothy Titcomb.")
MRS. SARAH J. LIPPINCOTT, ("Grace Greenwood.")

TICKETS for the remaining lectures 75 cts.; to be obtained at the usual places.
Evening Tickets 15 cents.
Doors open at 7; Lecture to commence at 7½.

JOHN S. RAND,
Chairman Lecture Committee.

New Styles of Dress Goods.

ANOTHER NEW STOVE

THE MODEL COOK

FOR WOOD OR COAL,

MADE BY

THE BARSTOW STOVE COMPANY

Of Providence, R. I.

The novel—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking giving an oven nearly 3 ft. long! or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven, with a tin roaster in front of the fire, are obvious, *viz:*

1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is the most durable, tasteful and useful.

2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking oven.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires; or it can be used for a hot closet when not required for baking or roasting.

5th. By this extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time the stove occupies no more room on the floor.

John Trundy, Esq., one of our most practical and scientific mechanics, who has had large experience in the construction of stove patterns in years past, and has for many years been using one of the Stewart Stoves, has purchased one of the MODEL COOKS, and after a fair trial pronounces it far superior to the Stewart or any stove he has ever seen, for economy, convenience and dispatch. We might also refer to several other parties who are using the stove, and who award it the very highest praise.

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be *the* stove for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is wanted.

We have nought to say against any other stove, believing that a man can sell his own goods without depreciating his neighbor's; but this we do say, that we honestly believe this is the *best stove that can be found in the world;* and what is more, we think others will agree with us after a trial of it. We invite any one to examine the stove, whether they wish to purchase or not.

For sale, with a great variety of

Furnaces, Ranges, Cooking, Office and Parlor Stoves! Coal Hods, Sifters, Funnel, Stove-Repairing Pieces, Parlor Grates, Etc.

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents.

Late Agent of U. S. Patent Office, Washington, Under the act of 1837.

76 STATE, OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting a application in a form to secure for them an early and favorable consideration at the Patent Office." CHARLES MAGILL BUTLER, Late Commissioner of Patents.

BOSTON, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which Patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at every reasonable charge." JOHN TAGGART.

From Sept 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on which rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

Boston, Jan. 1, 1860. **R. H. EDDY.**

Clothing. Clothing. Clothing!

PRICES TO SUIT THE TIMES.

FALL AND WINTER GOODS,

The subscriber having just laid in a superior stock of Fall and Winter Goods, cordially invites the citizens of Portsmouth and vicinity to come and inspect a splendid assortment of

CONCENTRATED LEAVEN,

FOR MAKING

Bread, Tea Cakes

All kinds of Pastry, &c., &c.,

MANUFACTURED BY

EDW. CHAMBERLIN & CO.,

Proprietors of Shawmut Chemical Works,
NO. 33 INDIA STREET, BOSTON.

CONCENTRATED LEAVEN is the result of careful chemical researches. All its ingredients are prepared in the highest state of purity, and compounded with a view to produce bread of a far better quality, and in much less time, than by any other process, and the manufacturers submit it with entire confidence to the judgment of discriminating house-keepers, bakers, &c., &c.

Bread of all kinds, made by using CONCENTRATED LEAVEN, is lighter, more digestible and nutritious; has an agreeable, natural taste; is less liable to sour; will retain its moisture longer than by any other process, and the whole preparation for the oven need not exceed ten minutes.

It is valuable because it is not perishable, and may be rendered available in places and at times when yeast is not within reach, as at sea. In all climates, and under all circumstances it may be adopted, thus obviating all difficulty of procuring yeast or other ferment, which is frequently of an inferior quality, rendering the bread more or less unwholesome.

It is also valuable as regards economy, as it has been ascertained that a saving is effected in the flour of not less than 16 per cent. In the ordinary process, much of the saccharine of the flour is lost by being converted into carbonic acid gas, or spirit, and the waste is increased by the liberal quantity of yeast, or other ferment, which is frequently of an inferior quality, rendering the bread more or less unwholesome.

It is also valuable as regards economy, as it has been ascertained that a saving is effected in the flour of not less than 16 per cent. In the ordinary process, much of the saccharine of the flour is lost by being converted into carbonic acid gas, or spirit, and the waste is increased by the liberal quantity of yeast, or other ferment, which is frequently of an inferior quality, rendering the bread more or less unwholesome.

CONCENTRATED LEAVEN, this waste is avoided, and the gas obtained in a manner equally efficacious. Fermentation, as has been stated, destroys a part of the flour or meal, and, in consequence, a barrel of flour weighing 196 pounds, which by the common method ordinarily makes about 250 lbs. gives by this process 290 lbs., thus effecting the very important saving of 16 per cent. in the quantity of flour. By conformity to the directions on each package, any person capable of ordinary attention may conduct the process, and the result will invariably be highly satisfactory.

CERTIFICATE FROM DR. HAYES,

Assayer to the State of Massachusetts.

"I have analyzed the Concentrated Leaven manufactured by Messrs. Edw. Chamberlin & Co., with regard to its purity and efficiency of action in producing the effect of yeast in distending dough and thereby rendering it fit for making bread. This article is skillfully compounded, from perfectly pure materials, and I believe that it is a wholesome article, which is essentially a desirable food in the bread. It raises the dough without consuming the sugar or any other principle in the flour, perfectly; and the same weight of flour will produce more sweet, palatable bread than can be obtained through the aid of yeast; while for cakes and pastry it is invaluable, as it raves all risk, and much time of the pastry cook.

The experiments made by me in the first statements of the manufacturerers. and prove this compound worthy of public approval and extended use. Respectfully,

A. A. HAYES, M. D., *State Assayer.*

16 Boylston st., Boston, Sept. 28, 1860."

HOW TO USE IT.

We append a few recipes, but it may be used with great advantage in all other kinds of cake, also in fruit puddings and other pastry.

BREAKFAST AND TEA ROLLS.—Two or three teaspoonfuls of Leaven, according to the quality of the flour, to one quart of flour; mix thoroughly by passing two or three times through a sieve; rub in a piece of butter the size of an egg, and make the paste with cold milk or water, (milk is preferable,) barely stiff enough to permit rolling out. Much kneading should be avoided. Cut into desired form, and place immediately into a hot oven, and bake quickly.

LOAF BREAD.—The same proportions of Leaven and flour sifted together as above; omit the butter, and make the paste stiff enough to knead into a loaf, and bake immediately in a slow oven.

GRAHAM BREAD.—Three teaspoonfuls of Leaven to one quart of wheat meal, sifted together; add two ounces of molasses, a gill of lukewarm water; make the paste thin with milk, and bake in a slow oven.

BROWN BREAD.—Three teaspoonfuls of Leaven in one pint of flour, and one pint of corn meal, all well sifted together; add two eggs and about a gill of molasses; make the paste thin with milk, and bake slowly.

BUCKWHEAT CAKES.—Flour and milk sufficient to make one quart of batter; add one egg then three teaspoonfuls of Leaven; beat to a froth, and cook quick.

DUMPLINGS.—Sift together one quart of flour and two teaspoonfuls of Leaven; rub in a piece of butter half as large as an egg; mix with cold milk or water, and boil ten minutes.

CHAMBER STREET CAKE.—Sift together two large cups of flour and two teaspoonfuls of Leaven; put in half a cup of butter and a cup and a half of sugar; mix with cold water or milk to a stiff batter, and spice to suit the taste, and bake immediately.

CINCINNATI SPONGE CAKE.—Two cups of white sugar, beaten with the yolks of six eggs—the whites of six eggs beaten to a froth; then beat all together; add three cups of sifted flour, one cup of water, and three teaspoonfuls of leaven; flavor with two teaspoonful of essence of lemon, and bake in a quick oven.

JUMBLES.—Sift together one quart of flour and three tea spoonfuls of Leaven; rub in one teacupful of butter; add a cup and a half of white sugar, and spice to suit the taste; mix stiff enough to roll out, and bake quick.

ELECTION CAKE.—One quart of flour and three teaspoonfuls of Leaven sifted together; add a cup of butter, one pound of sugar, two cups of white sugar, and one teaspoonful of cinnamon; mix with cold milk to a stiff batter, and bake in a slow oven.

CORN CAKE.—One pint each of flour and Indian meal, and three teaspoonfuls of Leaven, well sifted together; add two eggs, a cup and two eggs; mix thin with milk, and bake in a slow oven.

CUP CAKE.—Five cups of flour and three teaspoonfuls of Leaven, sifted together; add one cup of butter, two of sugar, and two eggs, all well beat together; mix with milk; then add a cup of currants, and spice to suit the taste. Bake about half an hour.

LADIES' CAKE.—Three quarters of a pound of flour and four teaspoonfuls of Leaven sifted together; one pound of sugar and six ounces of butter beaten to a cream; the white of six eggs well beaten, and the juice of one lemon; mix with milk.

WEBSTER CAKE.—Five cups of flour, three teaspoonfuls of Leaven, three cups of sugar, one cup of butter, one of milk, and two eggs; fruit and spice to the taste. Bake about half an hour.

For Sale by Grocers Generally.

Boston, Oct., 1860. 3aw 3mos

New Photographic Establishment.

Having fitted and furnished in modern style, large, pleasant and commodious rooms, the subscriber is prepared to furnish all who wish with Sun Pictures of every description, from the smallest Miniature to the life-size Portrait, Photographs finished in India Ink, Water and Oil Colors, by the best artists in the country. Old Daguerreotypes, &c., copied in any size desired.

The subscriber having had many years' experience, from the old Daguerreotype down to the present time, keeping pace with every modern improvement, a success almost unprecedented has heretofore attended him; and by strict attention to business, and the fair dealing he hopes to merit a share of public patronage.

All work from the establishment warranted to be of the first order, both for finish and durability. Prices as low as in Boston, or any other place where first-class work is performed.

Having a large skylight, pictures can be taken late in the day, and equally as well in cloudy as in fair weather. The public are respectfully invited to call and examine specimens, at **17 Pleasant Street,** opposite the New Custom House.

Agent for New Hampshire.

Portsmouth, N. H., Nov. 27, 1860.

BLOOD FOOD

The attention of Invalids, Physicians, Clergymen, scientific men, and the public generally, is respectfully solicited to the merits of this chemical preparation, containing **Iron, Sulphur** and **Phosphorus,** and which is identical in its composition with the *Hematic Globule, or red blood.*—In all diseases accompanied with

DEBILITY,

pale countenance and nervous prostration, analyses of the blood show a deficiency of the red globules. Ruddy complexion and a rosy tint of the skin, is always indicative of health; while a pale, wax-like skin and countenance,—which evinces a considerable deficiency of the red globules,—accompanies a diseased organism. Prepared with **Iron** have been given for the purpose of supplying the red globules, but we contend that **Iron** alone, **Sulpur** alone, or **Phosphorus** alone, will not remove the deficiency in every case, but that a judicious combination of *all* these elements is necessary to restore the blood to its normal state. This point, never before fully attained, has been reached in the **Blood Food,** and its discovery ranks as one of the most scientific and important of the age. Its effects in

CONSUMPTION

are to soften the cough, brace the nerves, strengthen the system, allay the prostrating night sweats, increase the physical and mental energy, enrich the blood by restoring the lacking red globules, increase the appetite, restore the color, and clothe the skeleton frame with flesh. The **Blood Food** will be found a specific in all *CHRONIC DISEASES of the THROAT or LUNGS,* such as *Asthma, Bronchitis, Coughs, &c.* Public speakers and singers will find it of great utility in clearing and strengthening the vocal organs. In *Dyspepsia, Liver Complaints, Dropsy, Epilepsy, Paralysis, Scrofula, Gravel, St. Vitus' Dance, Fever and Ague, &c.,* its efficacy is marked and instantaneous. In all the above diseases, however, are the beneficial effects of this remedy so conspicuous as to those harrassing

FEMALE COMPLAINTS

to which the gentler sex are liable, and which tend to undermine constitution, and render difficult *Menstruation, Green Sickness, Whites, &c.,* especially when these complaints are accompanied with pain, a dingy hue or pallor of the skin, depression of spirits, debility, palpitation, want of appetite, and nervous prostration. We have the most confidence in recommending the **Blood Food** to all who may be conscious of a loss of vitality or energy, and to those whose mental powers are prostrated through *Indiscretion, over-use,* either of the mind or body, and we deem it our duty to say that in all cases of *Weakness and Emaciation,* and all cases of the *Diseases* or *Disorders,* this preparation has a claim upon the attention of sufferers which cannot be over-estimated. A faithful trial will be found the most convincing proof in regard to its efficacy that could be asked for. With the above remarks, and with the numerous testimonials we have in its favor, we offer the **"Blood Food"** to the public and to the afflicted, knowing that it will be acknowledged as pre-eminent over all other preparations, natural or official, in point of usefulness. Circulars giving the Theory upon which this remedy is founded, also certificates of remarkable cures will be sent free when desired. We Forward the **Blood Food** to any part of the United States or Canadas upon receipt of price—$1 per bottle. So for six bottles. Be careful in all cases to take none but that having our fac-simile signature upon the wrapper. None other is genuine.

Prepared only by **CHURCH & DUPONT,**
No. 409 Broadway, New York.

And sold by them, and all respectable Druggists.

Sold in Portsmouth by PRESTON, THACHER, HUTCHINGS and KIMBALL. s6 1y

BININGER'S GENUINE Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for Family use and invalids, that it should be procured pure and of efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic fire or adulterations, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant,* when all other remedies fail, we are now bottling and selling at reasonable rates, a Brandy of our own importation, from one of the most responsible houses in France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character.—Put up in pint and quart bottles, in cases containing two dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighth and Quarter Casks.

JOHN S. HARVEY, Real Estate Broker.

Dyspepsia Remedy

DR. DARIUS HAM'S AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with its increasing favor. It is recommended for Dyspepsia, Nervousness, Heartburn, Colic Pains, Wind in the Stomach, or Pains in the Bowels, Headache, Costiveness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens,* will, almost immediately, feel the happy and invigorating effects of Dr. Ham's Invigorating Spirit.

What it will do!

Dose.—1 wine glass full as often as necessary.
One dose will remove all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.
One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing wind and all painful feelings will be removed.
One dose will remove the most distressing pains of Colic, either in the stomach or bowels.
A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.
Persons who are deeply afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Personswho, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach, weakness, giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy; remove all obstructions and irregularities from the menstrual system, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the INVIGORATING SPIRIT in pint bottles, at 50 cents, qts. $1.

General Depot, 76 Water street, New York.

Morning Chronicle.

LOST IN THE WOOD AND FOUND SHOT. One day last week John Morrison and Thomas Danies were hunting on the hills north of Milford Village, and not being familiar with the country were lost. Daniels left Morrison, but could not find him, and after three days searching by the citizens he was discovered lying on his back, his feet under him, the gun on his breast tightly clasped in his hand, with a terrible and fatal wound in his forehead. He may have shot himself to terminate his sufferings from hunger and cold.—*Eastern Argus.*

☞ George E. Stockwell, a book-keeper at Montague & Co.'s clothing store, Greenfield, Mass., with a companion was returning from Mr. Montague's house in the evening, and while running a short race, fell into a ditch and immediately expired. He was 18 years of age.

☞ The Columbus (Ga.) Enquirer is of opinion that the immediate and solitary secessionists are not strong enough to carry more than thirty counties in that State.

☞ Bedford Brown, formerly U. S. Senator, in a recent speech, raised the question whether there would be no elements of discord to produce another dissolution, should the South form a separate confederacy.

Industry is the best financial institution. It never fails. Abstemiousness and frugality are the best bankers. They show a handsome interest, and never dishonor a draft drawn on them by their humblest customers.

SCEPTICISM has never founded empires, established principles, or changed the world's heart. The great *doers* in history have always been men of faith.—*Chapin.*

THE WEEKLY CHRONICLE,

Containing the news of the week, at home and abroad, as published in the six previous issues of the Daily Chronicle,—is printed on *Friday* morning, and immediately delivered by our carriers to subscribers in the city, or sent by mail to any part of the State or the world.

As the Weekly Chronicle contains most of the matter from our "local" Daily columns, it will be found an attractive paper for natives of Portsmouth living abroad, and all others interested in our city.

Terms of subscription to the Weekly Chronicle, only $1 per year in advance—sent by carrier without extra charge, to any part of the city and vicinity; or by mail, postage free, to any part of Rockingham County. Direct letters, "Chronicle, Portsmouth, N. H."

None genuine unless signed by
CHAS. F. GARDINER.
Sold in Portsmouth by PRESTON, THACHER and KIMBALL; and by Apothecaries generally throughout the country. au31 1yeod W

PROF. WOOD'S
RESTORATIVE CORDIAL
—AND—
BLOOD RENOVATOR,
Is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted *as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach*, and tone up the digestive organs, and allay all nervous and other *irritation*. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical science, and also by all who have suffered from debility; for it needs no medical skill or knowledge, even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous to which poor humanity is constantly liable. Such, for example, as the following: Consumption, Bronchitis, Indigestion, Dyspepsia, Loss of Appetite, Faintness, Nervous Irritability, Neuralgia, Palpitation of the Heart, Melancholy, Hypochondria, Night Sweats, Languor, Giddiness, and all that class of cases, so fearfully fatal if unattended to in time, called *Female Weaknesses and Irregularities.* Also Liver Derangements or Torpidity, and Liver Complaints, Diseases of the Kidneys, Scalding or Incontinence of the Urine, or any general derangement of the Urinary Organs, Pain in the Back, Side, and between the Shoulders, predisposition to Slight Colds, Hacking and Continued Cough, Emaciation, Difficulty of Breathing, and indeed we might enumerate many more still, but we have space only to say, it will not only cure the debility following Chills and Fever, but prevent all attacks from Miasmatic Influences, and cure the diseases at once, if already attacked. And as it acts upon the biliary system, arousing the Liver to action, *promoting, in fact, all* the excretions and secretions of the system, it will infallibly prevent any deleterious consequences following upon change of climate and water; hence all travellers should take a bottle with them, and all should take a tea-spoonful at least before eating. As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits, students, ministers and literary men. And all ladies not accustomed to much out-door exercise should always use it. If they will, they will find an agreeable, pleasant, and efficient remedy against those ills which rob them of their beauty; for beauty cannot exist without health, and health cannot exist while the above irregularities continue. Then, again, the Cordial is a perfect Mother's Relief. Taken a month or two before the final trial, she will pass the dreadful period with perfect ease and safety. *There is no mistake about it—this Cordial is all we claim it.—Mothers, try it!* And do you we appeal to, if the illness or decline not only of your daughters, beloved is to last, but also your sons and husbands, for while the former, from false delicacy, *often go down to a premature grave* rather than let their condition be known in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never-failing affection will unerringly point you to Prof. Wood's Restorative Cordial and Blood Renovator as the remedy which should always be on hand in time of need.
O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St Louis, Mo., and sold by all good Druggists. Price $1 per bottle.
Agent for Portsmouth, J. H. THACHER, corner State and Pleasant streets, and No. 12 Market Square. D cow ly

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of some of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic*s, and cannot fail to meet the wants of the debilitated.
It is a mild and tonic to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*but it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.
—FOR SALE BY—
CHARLES H. ATWOOD
19 CENTRAL STREET, BOSTON,
and by Druggists *everywhere.*
For sale in Portsmouth, by W. E. PRESTON and JOS. H. THACHER.
Boston, Sept 1, 1860.—s8 3awly

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, DECEMBER 28, 1860.

THE STOLEN BONDS.—The Boston Post's Washington correspondent gives some rich items about the bonds stolen by Bailey. *Among* them are these:—

This account, however, that is, in former administrations, has been settled *annually*. For some reason or other Mr. Thompson's account has not been settled *since he came into office!*

It is remarkable that Secretary Thompson should recently, in submitting his account, have certified that *all the bonds* were in his safe, without knowing of his own personal knowledge, that they were there. This account was *made out* and rendered by Bailey, the clerk, who knew of course the bonds were *not* in the safe.

The facts reveal a great laxity in the management of an important trust fund.—These bonds ought never to have been entrusted to the care of a third, and that an irresponsible person. They should have been kept carefully in his own custody.—Bailey is a South Carolinian and has a family here. He is said to be a gambler.

Let the reader note the fact that the Boston Post's correspondent does not wish to make the matter any worse than it is:—and then remember, that these men, Bailey & Co., and *such* as they, are the men who threaten and vote to secede, because they cannot for the next four years have the pick (and *stealings*) of the public offices of the nation.

THE SECESSION MOVEMENT at the South is regarded in a very different light by intelligent men. Those who view it as a political movement designed to force the Free State men into new concessions in regard to slavery and the slave trade, will not be surprised to read the statements made in Baltimore by the Hon. A. H. Handy, the commissioner sent from Mississippi to Maryland. In a speech made in Baltimore last week, Mr. Handy used the remarkable language:—

Secession is not intended to break up the present government, but to perpetuate it.—We do not propose to go out by way of breaking up or destroying the Union as our fathers gave it to us, but we go out for the purpose of getting further guaranties in security for our rights—not by a convention of all the Southern States, nor by Congressional tricks, which have failed in times past and will fail again. But our plan is for the Southern States to withdraw from the Union for the present, to allow amendments to the Constitution to be made guaranteeing our just rights, and if the Northern States will not make these amendments, by which these rights shall be secured to us, then we must secure them the best way we can.

RAILROAD ACCIDENT.—As the last train to Newburyport on the Boston & Maine Road was approaching Georgetown on Wednesday evening, an Irishman on the track was seen by the engineer, who rang his bell without its desired effect, and before the train could be checked the engine struck the man, throwing him fifteen feet clear of the rails, but so injuring him that he was not expected to live. His name was Thaddeus Riley, of Georgetown, and he was about 35 years old.—*Herald.*

INSURRECTION FEARED.—A dispatch from Richmond, Va., Dec. 25, says:—

"An unfounded rumor of a threatened negro insurrection found currency here last night. The military received orders to be in readiness to turn out on a given signal,—which was the discharge of three rounds from a cannon placed in Capitol square, by order of Gov. Letcher. This is the negroes' holiday, and the peculiar opportunities for intercourse which they have at this time gives color to any little alarm that may be raised."

☞ Mr. Charles Potter, his son Alfred, twenty years old, Wm. H. Warren, aged sixteen, who lived with Mr. Potter, and Wm. L. Gardner, aged twenty years, were drowned at Bristol, R. I., Saturday night, by the capsizing of a boat. They were going to Providence Island to spend Christmas with some relatives.

☞ Mobile gives 1000 majority for the secession ticket,—and in the convention, that party will have 75 out of 100 votes.

A great secession meeting took place at New Orleans, Dec. 24,—and the fever is increasing in Richmond.

OUTRAGE UPON A NEWSPAPER.—Some dastardly villain broke into the office of the Manchester (N. H.) American on Sunday night and *pied* all the type in the office.—The American intimates that the outrage was the result of combined influences, and was executed by some hired agent for the purpose of overawing the paper.

☞ James Redpath has chartered the British brig Janet Kidston, to proceed to Jersey City and thence to Port au Prince. She will take on board thirteen colored passengers, also John Brown, son of old Ossewattamie.

☞ Rev. Andrew Rankin was installed pastor of the Congregational church in Danbury on the 17th inst. Sermon by Rev. J. E. Rankin of St. Albans, Vt., son of the the pastor elect.

☞ The decline in the value of negroes is so great in Virginia that the greatest consternation prevails, and many of the richest slaveholders talk of selling out and moving to the North, says Forney's Press.

EUROPEAN NEWS to Dec. 16, by the Canada:—

Among the passengers by the Canada is the French pastor, Father Chinegny.

It was again reported that the passport system between England and France is to be abolished.

In a postscript to a letter dated Oct. 14th, Gen. Grant states that the remaining English prisoners in Pekin had not been liberated.

It was stated that 2000 Pontificial troops were about to march against the town of Ponteronoo, to overthrow the Provisional Government established there.

Foreign Office, Dec. 15.—Intelligence was received at this office this afternoon, through St. Petersburg from Pekin Nov. 9th, that peace was concluded Oct. 26th, and ratifications exchanged Nov. 5th. The allied forces had evacuated Pekin and it was expected the Emperor would return to his capital, immediately.

It is asserted that England and France have certainly insisted on Francis Second's departure from Gaeta to prevent a useless effusion of blood.

The bombardment of Gaeta was again suspended on the 9th, and not resumed.

LATEST FROM CHARLESTON.—In the Secession Convention, Dec. 26, a resolution was offered that the Governor inform the Convention in secret session, of the strength and condition of the forts in Charleston harbor. Also whether any assurances had been given that the forts would not be reinforced. Laid on the table for consideration in secret session.

A resolution that the Governor prepare the State for war was lost.

A resolution was offered that all citizens of the United States domiciled in the State at the time of the adoption of the secession ordinance, be declared citizens of the State of South Carolina.

Mr. Rhett offered an ordinance providing for the holding of Conventions in all the slaveholding States to frame a Constitution for a Southern Confederacy. Read once.

The Convention then went into secret session.

The Alabama Convention will have a secession majority.

It is rumored that troops are en route to reinforce the forts, and also that Fort Sumter was reinforced on Sunday by marines disguised as laborers.

Postal matters continue as formerly.

Many foreign ships took clearances before the Convention met, and others will probably clear under protest.

Intelligent Carolinians says it is difficult to untangle the Union knot, but, as a last resort, they will cut it.

PICTURES FROM THE HISTORY OF SPAIN;—by the Author of "Pictures from the History of the Swiss."—This new book, in blue and gilt, from the publishing house of Brown & Taggard, Boston, contains twenty on thirty chapters of most interesting events in Spanish History, admirably adapted to the youthful reader, but by no means dry to those who have numbered more years.

The writer first offers a brief sketch of the present aspect of Spain in its natural features, and the costumes, occupations, etc., of its inhabitants. A few historical events are then presented, care having been taken to select such as have been of real significance in determining the condition of the country, and the character of its people. A glance is also given at the formation of the Spanish language, and the rise of Spanish literature; and glimpses are afforded of the more distinguished Spanish artists, although by means of anecdotes rather than a formal description of their works.

The book is for sale in Portsmouth by J. H. Foster, who has also from the same publishers, "Nelly and Her Boat," being No. 3 of the Martin and Nelly Stories. They are finely printed, illustrated, and bound.

A dispatch received in Boston from Charleston states that an ordinance had been passed by the South Carolina Secession Convention, in secret session, fixing the pay of the present U. S. officers in South Carolina the same as at present, and requiring them to take the oath of allegiance to South Carolina. The customs duties, when collected, are to be deposited in the Treasury of the State, after deducting expenses.

The U. S. code of navigation and revenue laws has been adopted.

The postal and commercial ordinance has also passed.

These are the first "overt acts" of rebellion, and when an attempt is made to enforce these ordinances, it will be the duty of the President to exert the whole power of the Government to maintain the laws of the United States.

DEATH OF RALPH FARNHAM, THE LAST SURVIVOR OF THE BATTLE OF BUNKER HILL.—Ralph Farnham, the last survivor of the battle of Bunker Hill, died on Wednesday morning, Dec. 26, at the residence of his son, in Acton, Me. His age was one hundred and four years, five mos., and nineteen days. Funeral on Friday, 28th inst., at one o'clock.

OLD SOUTH (FREE) CHURCH.—Circumstances render it necessary to suspend these meetings until after the end of January; at that time, if it seem to be the will of the Lord that they be continued, due notice will be given. A. J. PENHALLOW, in behalf of the cause.

☞ The west end of the Hoosac tunnel a few days since, caved in, where the men were at work excavating, and one of the number was crushed to death.

FIRE IN DELAWARE TERRITORY.—A two-story house situate "no-where"—that is in no State, County or town, but upon a piece of land between the two States of Massachusetts and New Hampshire, between the counties of Essex and Rockingham, and between the towns of South Hampton and Salisbury, on what has been known as Delaware territory, was burned on Friday night of last week. It belonged to Oliver H. Delaware, and was not insured.

Most of our readers remember an item lately published, stating that a lessee of this house kept a free groggery, as he thought, out of the way of the law, and was quite funny in his defiance of it.

Finally, (says the Newburyport Herald,) it did not seem to be so funny a matter to the people round about; and mothers and wives and children begun to complain, and a *civil* war was declared. Armed with warrants, the police invaded the territory and arrested Ham Bartlett, one of the occupants, for violating the liquor law. He made a spirited resistance—but the officers having axes as well as warrants, stove in the windows, and broke down the doors;—and Bartlett, made prisoner, was carried into captivity to South Hampton, and held to answer before a court in Exeter, N. H., a town in a foreign land.

During the examination of the prisoner at South Hampton, the premises were visited by hundreds of persons, who ate and drank what they pleased; and in the evening the Prince of the House gave an entertainment to all his friends. But as with the King of Babylon when that city was besieged by Cyrus, and in the midst of the feast, the handwriting appeared on the walls, so here, as the clock struck 11, the wine cup flowing and circulating, the cry of fire was heard in the chambers, and in a few minutes the roof was a blaze of fire, and an hour after, the house was in ashes. So ends the Territorial question that has so long been in dispute between Salisbury and South Hampton. We shall have no more proclamations from the territory of Delaware.

☞ The Boston Commercial Bulletin, a business paper, free from politics, says:—

There is a "decidedly better feeling throughout the business community, people are disposed to look more cheerfully upon the present condition of things," and "have no great apprehension of a general upheaving of things, even if a portion of the confederacy do resolve upon stepping out."—This feeling, too, is said "not to be confined to the city—all through the manufacturing towns in this State there is a buoyant feeling." The simple fact of reduction of working time among manufacturers is to avoid the errors of 1857, and not keeping up stocks in excess of demand.

Of the shoe business the same journal remarks: "Operatives in the shoe manufacturing towns are suffering, but the present political differences are not the cause,—they may be the last straw that breaks the camel's back, but the whole system of shoe manufacture has been rotten for years, and whatever party should come into power, would not obviate the matter."

In connection with this, it should be remarked that, in most of the shoe manufacturing towns, there is a large class of operatives own the houses they live in, and raise much of their vegetables and other provisions. It is true, also, that a large number of shoes are made by small farmers in the country, as a temporary employment, who experience no great inconvenience from being thrown out of this business.

NEW HAMPSHIRE STATE AGRICULTURAL SOCIETY.—At the annual meeting of the New Hampshire Agricultural Society, held in Manchester, yesterday, the following officers were unanimously elected:—President, William F. Estes of Dover; Secretary- Aaron Young of Dover; Treasurer, Frederick Smyth of Manchester; Directors, John S. Walker of Claremont, Alfred Hoitt of Durham; John Preston of New Ipswich, Walter Harriman of Warner, and Nathaniel Berry of Hebron. The annual report shows the Society to be in good financial condition.

THE STOLEN BONDS — INJUNCTION GRANTED.—NEW YORK, Dec. 26.—In the Circuit Court to-day, on motion of the Assistant Government Attorney, acting in behalf of the Secretary of the Interior, Judge Smalley granted an injunction restraining the Bank of the Republic and its President from disposing of any of the bonds in their custody until further order of the court. The bill charges that the bonds in the possession of the bank were stolen from the safe of the Interior Department and were hypothecated by Russell.

The New York Herald's correspondent writes:—

"The two million leak in the Treasury is still a mystery. I learn from a responsible source to-night that additional developments will be made to-morrow in the Interior Department."

BOTH SIDES.—The Boston Atlas of Saturday Jan. 5, is to contain in full, a pro-slavery secession sermon, delivered in New Orleans by Rev. Dr. Palmer.—And the Atlas of Jan. 12, is to contain a Review of the same, in a sermon by Rev. Dr. Kirk, of Boston.

This is the way we do things in a free country.—But not a paper on all our southern sea-coast, *dares* to do the like.

☞ It is stated that Garibaldi's income, as a farmer, is about $300 a year.

TO SUBSCRIBERS
TO THE WEEKLY CHRONICLE.

The present number closes the eighth year and volume of our Weekly paper.—Those whose advance-paid subscriptions expire with the year, will please renew at once, if they intend to at all; so that we can enter their names on our list for 1861, and not interrupt their reception of the paper.

The few who are in arrears, will receive *no more papers* until their accounts are settled, unless for some special reason or agreement. To every reader, we wish a Happy New Year!

☞ The Readings and Recitations, of the poets and dramatists, by Mr. Silvester, were given to a delighted audience at the Temple on Wednesday evening. His reading and speaking were admirably clear and distinct; and his representations of character true and lifelike. Mrs. Malaprop never appeared to better advantage, and the "One Horse Shay" never went better.

The public will see, by an advertisement, that Mr. Silvester is to give another Reading, (of different programme,) next week, on Thursday evening, which will doubtless call out the lovers of wit, humor, and eloquence.

WHAT OF THE NIGHT?—On Christmas Eve, just before midnight, five young men, one of them a head taller than most people,—all whom had no doubt "been steaming it," or rather themselves, called at several houses on State street, below Pleasant, asking—"what will you please to give us for Christmas?" If they anywhere got what they deserved, they were not able to be out on Christmas.

On Wednesday night, or Thursday morning, about 2 o'clock, a large man in an old-fashioned sleigh, drove to the door of a house in High street, and ringing up a young lady,(who courageously but unwisely dressed herself and went to the door, instead of calling the men in the house) he asked for a former occupant of the premises. Perhaps he had been too long at a certain cup, also.

☞ The Second Lecture of the Ministers' Winter Series, on Temperance, will be delivered next Sunday evening, at half past 7, in the Temple, by Rev. Mr. Waterhouse, who will preach at the same place during the day. Singing, at the Temperance Lecture, by the Temple Choir and the congregation.

FORT MOULTRIE EVACUATED.—*The Guns Spiked and Fort Burned!—Troops Retreated to Fort Sumpter!—Charleston, Dec.* 27.—Fort Moultrie was evacuated last night and the guns spiked.

The Fort is now being demolished by fire. Only four soldiers were left in charge.

The troops have all been conveyed to Fort Sumpter. There is intens excitement.

WASHINGTON, Dec. 27.—Military men are confident that Major Anderson can hold Fort Sumter for three months.

The secessionists are dumbfounded by the evacuation and destruction of Fort Moultrie.

Secretary Floyd will certainly be impeached if he does not resign.

PITTSBURG, Pa., Dec. 27.—It is expected that the order for removing the guns from the arsenal will be revoked. There is considerable excitement. The guns have not gone yet.

☞ The $850,000 robbery at Washington, was a great piece of secessionist financiering,—meant to be kept close till next March. The panic blew it up.

To commence at ½ o'clock. dec28

A CARD TO THE SUFFERING.

The REV. WILLIAM COSGROVE, while laboring as a missionary in Japan, was cured of Consumption, when all other means had failed, by a recipe obtained from a learned physician residing in the great city of Jeddo. This recipe has cured great numbers who were suffering from Consumption, Bronchitis, Sore Throat, Coughs and Colds, and the debility and nervous depression caused by these disorders.

Desirous of benefitting others, I will send this recipe, which I have brought home with me, to all who need it, free of charge.

Address, REV. WM. COSGROVE,
dec28 W3m 439 Fulton Avenue, Brooklyn, N.Y

MERCANTILE LYCEUM.

On TUESDAY EVENING, Jan. 1.

By MRS. CAROLINE H. DALL.

SUBJECT:—Four Women of the Nineteenth Century, viz., Wollstonecraft, Morgan, Bronte and Fuller.

To be followed by

A. D. RICHARDSON, Esq., on Tuesday evening, Jan. 15. Subject—"Pike's Peak."

DR. J. G. HOLLAND, ("Timothy Titcomb,") on Tuesday evening, Jan. 29. Subject—"Work and Play."

MRS. SARAH J. LIPPINCOTT, ("Grace Greenwood,") on Tuesday evening, Feb. 12. Subject—"Home and the Houseless."

TICKETS for the remaining lectures 75 cts.; to be obtained at the usual places.
Evening Tickets 15 cents.
Doors open at 7; Lecture to commence at 7½.

JOHN S. RAND,
Chairman Lecture Committee.

SEVEN YEARS!

The seven years of unrivalled success attending the
COSMOPOLITAN
Art Association,
have made it a household word throughout every quarter of our country.

Under the auspices of this popular Institution, over *three hundred thousand homes* have learned to appreciate—by beautiful works of art on their walls, and choice literature on their tables—the great benefits derived from becoming a subscriber.

Subscriptions are now being received in a ratio unparalleled by that of any previous year.

TERMS OF SUBSCRIPTION.

Any person can become a member by subscribing *three dollars*, for which sum they will receive

1st.—The large and superb steel engraving, 30 x 38 inches, entitled

Falstaff Mustering His Recruits,

2d.—One copy, one year, of that elegantly illustrated magazine, the

"COSMOPOLITAN ART JOURNAL."

3d.—Four admissions, during the season, to

"The Gallery of Paintings, 548 Broadway, New York."

In addition to the above benefits, there will be given to subscribers, as gratuitous premiums, over

Five Hundred Beautiful Works of Art,

comprising valuable paintings, marbles, parians, outlines, &c., forming a truly national benefit.

THE SUPERB ENGRAVING, which every subscriber will receive, entitled "FALSTAFF MUSTERING HIS RECRUITS," is one of the most beautiful and popular ever made in this country. It is done on steel, in *fine line and stipple*, and is printed on fine plate paper, 30 by 38 inches, making a most choice ornament, suitable for the walls of either the library, parlor or office. Its subject is the celebrated scene of Sir John Falstaff receiving in Justice Shallow's office the recruits which had been gathered for his "Ragged Regiment." It should not be furnished by the trade for less than five dollars.

The *Art Journal* is too well known to the whole country to need commendation. It is a magnificently illustrated magazine of Art, containing Essays, Stories, Poems, Gossip, &c., by the very best writers in America.

The Engraving is sent to any part of the country by mail, with safety, being packed in a cylinder, postage prepaid.

Subscriptions will be received until the Evening of January 31, 1861, at which time the books will close, and the premium be given to subscribers.

No person is restricted to a single subscription. Those remitting $15, are entitled to five membership, and one extra Engraving for their trouble.

Subscriptions from California, the Canadas, and all Foreign Countries, must be $5.50 instead of $3, in order to defray extra postage, &c.

For further particulars send for a copy of the elegantly illustrated *Art Journal*, pronounced *the handsomest magazine in America*. It contains Catalogue of Premiums, and numerous superb engravings. Regular price, 50 cts. per number.—Specimen copies, however, will be sent to those wishing to subscribe, on receipt of 18 cents, in stamps or coin.

Address C. L. DERBY, Actuary C. A. A., 548 Broadway, New York.

N. B.—Subscriptions received received and forwarded by

Special Notices.

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov28 dawSm

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Loneness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail to moderate excesses and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, send for a pamphlet to the Agent. One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail.

Sold by W. R. PRESTON and all druggists.

THE OXYGENATED BITTERS.

The qualities of this medicine have placed it up on an imperishable foundation. In destroying disease, and inducing health, it has no paralell.

For the following complaints these Bitters are a Specific: viz—*Dyspepsia, or Indigestion, Heartburn, Acidity, Costiveness, Loss of Appetite, Headache, and General Debility.*

In many sections of our country this preparation is extensively used by physicians in their practice, and it seems to have restored many to health who were apparently beyond the reach of the healing art.

From Mr. Jonathan Chapin.

WALPOLE, N. H., May 18, 1860.

Messrs. S. W. FOWLE & CO.—Gentlemen:—I consider the OXYGENATED BITTERS a valuable medical compound, combining both high medical skill and conscientious honesty in the person by whom they were compounded. I have used them for *Dyspepsia*, with very good effect, and consider them a reliable remedy for that complaint. In all cases where I have known of their being used, the result has been highly in their favor. I can conscientiously recommend the OXYGENATED BITTERS to all sufferers from diseases of a dyspeptic nature. Yours truly,
JONATHAN CHAPIN.

From Mr. C. A. Shaw.

BIDDEFORD, Me., Aug. 7, 1860.

Messrs. S. W. FOWLE & CO.—GENTS:—Disclaiming intention of putting a patent medicine, I have to assure you of my high regard for the OXYGENATED BITTERS, the beneficial effects of which I have witnessed in my own family, and I do not hesitate to pronounce them worthy the entire confidence of the community, as a remedy for that distressing disease, *Dyspepsia*; and a medicine whose merits will guarantee to it a steady sale. Yours, C. A. SHAW.

Prepared by SETH W. FOWLE & CO., Boston;

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

CRUELTY TO A CRIPPLED COW.—On Saturday morning, a train ran over a cow on North Third street, Troy, N. Y., cutting off one of the animal's legs. The poor thing remained there till afternoon—no one claiming her—till some men came to take her away in a cart. They fastened a chain around her horns, with a team of oxen at the other end. They pulled till one of the horns broke off beneath the flesh close to the skull. Her cries of agony could be heard for blocks.—*Boston Courier.*

The *men* must have been stupid brutes, probably not quite sober. Any live yankee deserving the name of man, would have knocked the poor cow on the head before moving her.

☞ A German named Troutwein, passionately given to liquor, died at Detroit, one night last week, after drinking two quarts of cider at a draught. He had squandered a property of $25,000 in buying rum, and was known to have poured down as much as a gallon of whiskey a day. For a year or two past he had been drunk all the time.

IPSWICH.—On Tuesday, Rev. Ezekiel Dow of Warner, N. H., was installed as pastor of the Linebrook Congregational Church, which is an old society on the borders of Topsfield, organized in 1749. Its first pastor, Rev. Mr. Fisk, was dismissed seventy one years ago, since which time there has been no settled preacher. They have a good church, and by the income of a legacy left them last year, are in good pecuniary condition.

☞ Rev. Howard Moody was dismissed from his pastoral charge of the Congregational church in Canterbury, Dec. 19th.

☞ The Rockingham Weekly Chronicle, containing a summary of the news of the week, this day published, and for sale at the Chronicle Counting Room: price 3 cents; $1 per year, in advance.

Life has few charms for the Dyspeptic, which is not to be wondered at, when we take into account the amount of bodily suffering which he endures. By use of the *Oxygenated Bitters*, the picture is reversed and the bright side of life appears.

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one game he retains. Let all those, then, who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

Atwood's Quinine Tonic Bitters,—the best Aromatic Tonic ever offered to the public.—All the Druggists have it. See advertisement.

SEWING MACHINES.

We beg your indulgence to the attentive perusal of the following:

This machine embraces all the improvements of other machines combined.

It will hem, fell, gather, tuck, bind and embroider.

It will do all kinds of work, coarse or fine.

The operator can learn to run it in half an hour.

Attached to it is a HEMMER, which will turn a hem from 1-16 to 2½ inches, without previous basting.

Every Machine Warranted for Years.

PRICE $40.

I have also been appointed agent for

THE UNIVERSAL HEMMER,

Which can be attached to any machine—

PRICE $5.

ALSO ON HAND, A LARGE AND SELECT ASSORTMENT OF

WATCHES, JEWELRY,

—AND—

SILVER WARE,

SUITABLE FOR THE SEASON,

Which I invite my customers and the public to call and examine, feeling assured that I can offer

AS LARGE AN ASSORTMENT,

AND SELL AS REASONABLE,

As can be Purchased Elsewhere.

AN ARTICLE THAT SUITS AS WELL

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE

Apothecaries and consumers all testify that IT IS THE ONLY RELIABLE ARTICLE FOR THE BALD AND GREY

Read the testimony from Kentucky.

PADUCAH, KY., July 27, 1860.

Mr. W. A. BELL—Dear Sir:—I have used HEIMSTREET'S INIMITABLE HAIR RESTORATIVE, and am satisfied from an experience in all other preparations for the like purpose, that *it is the only article ever before the public worth purchasing.*

Yours truly, JOHN G. DALY.

Read the testimony from Boston.

PADUCAH, Ky., July 27, 1860.

MESSRS. W. E. HAGAN & CO., Troy, N. Y.,

Gents:—Above please find statement of Mr. John G. Daly, merchant of our city, in regard to HEIMSTREET'S INIMITABLE HAIR RESTORATIVE. This testimony is given after having used most of the preparations now before the public, *claiming* to be Hair Restoratives, and *must be considered conscious* as to the merits of the *Inimitable.* Am out of the large size. Forward by railroad double the quantity we had before. Very truly yours

ANOTHER NEW STOVE

THE MODEL COOK

FOR WOOD OR COAL,

MADE BY

THE BARSTOW STOVE COMPANY

Of Providence, R. I.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking giving an oven nearly 3 ft. long! or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven, with a tin roaster in front of the fire, are obvious, viz:

1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is the most durable, tasteful and useful.

2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking oven.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the roasting oven can be attached to the baking oven in a single moment of time, when occasion requires; or it can be used for a hot closet when not required for baking or roasting.

5th. By this extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time the stove occupies no more room on the floor.

John Trundy, Esq., one of our most practical and scientific mechanics, who has had large experience in the construction of stove patterns in years past, and has for many years been using one of the Stewart Stoves, has purchased one of the MODEL COOKS, and after a fair trial pronounces it far superior to the Stewart or any stove he has ever seen, for economy, convenience and dispatch. We might also refer to several other parties who are using the stove, and who award it the very highest praise.

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be the stove for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is wanted.

We have nought to say against any other stove, believing that a man can sell his own goods without depreciating his neighbor's; but this we do say, that we honestly believe this is the *best stove that can be found in the world;* and what is more, we think others will agree with us after a trial of it. We invite any one to examine the stove, whether they wish to purchase or not.

For sale, with a great variety of

Furnaces, Ranges, Cooking, Office and Parlor Stoves; Coal Hods, Sifters, Funnel, Stove-Repairing Pieces, Parlor Grates, Etc.

BACHMAN & CO.

Morning Chronicle.

REFORM IN EUROPE.—The news from Europe during the past week has nearly kept pace with our own in interest and importance. The climax of our unfavorable commercial intelligence has been seen to fall upon Great Britain without any disastrous effect, thus producing the general impression that the panic of 1860 is already among the things of the past. In France, the inscrutable ruler of her destinies has voluntarily liberalized the government, and taken important steps toward the return of free institutions. Italy is fast working out her own development. Austria, during the week, has announced radical reforms, hoping to stave off the revolutionary movement so plainly indicated among the Hungarians. But the czar of Russia has performed a far more noble act, for he has affixed his signature to the decree which, becoming operative on the first of the new year, is to ordain that no more shall be sold at the serfs of that mighty empire.

The present times suggest the experience of Sir Roger de Coverly, in high party times, as narrated by Addison in the Spectator. When he was a stripling and the feuds ran high between the Round Heads and the Cavaliers, the worthy Knight had occasion to inquire the way to St. Anne's Lane. His first inquiry was addressed to a Puritan, who called him a popish cur, and asked him who made Anne a saint. The lad in his confusion, wishing to avoid giving offence, asked the next gentleman he met the way to Anne's Lane; the haughty Cavalier called him a vile urchin, and told him Anne was a saint before he was born, and would be after he was hanged. The youth received two cursings, but gained no information respecting the place he wished to find.

☞ Heavy shipments of gold, $1,400,000, are on their way from California.

Pensions and Bounty Land Claims prosecuted. U. S. Passports obtained for persons going abroad. The highest cash price paid for Land Warrants.

CONCENTRATED LEAVEN,

FOR MAKING

Broad, Tea Cakes

All kinds of Pastry, &c., &c.,

MANUFACTURED BY

EDW. CHAMBERLIN & CO.,

Proprietors of Shawmut Chemical Works.

NO. 33 INDIA STREET, BOSTON.

CONCENTRATED LEAVEN is the result of careful chemical researches. All its ingredients are prepared in the highest state of purity, and compounded with a view to produce bread of a far better quality, and in much less time, than by any other process, and the manufacturers submit it with entire confidence to the judgment of discriminating housekeepers, bakers, &c. &c.

Bread of all kinds, made by using CONCENTRATED LEAVEN, is lighter, more digestible and nutritious, has an agreeable, natural taste; is less liable to sour; will retain its moisture longer than by any other process, and the whole preparation for the oven need not exceed ten minutes.

It is valuable because it is not perishable, and may be rendered available in places and at times when yeast is not attainable, as at all times, in all climates, and under all circumstances it may be adopted, thus obviating all difficulty of procuring yeast or other ferments, which is frequently of an inferior quality, rendering the bread more or less unwholesome.

It is also valuable as regards economy, as it has been ascertained that a saving is effected in the flour of not less than 16 per cent. In the common process, much of the saccharine matter which is given by being converted into carbonic acid gas, or spirit, and the waste is incurred solely for the purpose of generating gas to raise the dough. By using CONCENTRATED LEAVEN this waste is avoided, and the gas obtained in a manner equally efficacious. Fermentation, as has been stated, destroys a part of the flour or meal, in a barrel of flour a barrel of flour weighing 196 pounds, which by the common method ordinarily makes about 220 lbs. given by this process 220 lbs., thus effecting the very important saving of 16 per cent. in the quantity of flour. By conformity to the directions on each package, any person unused to ordinary attention may conduct the process, and the result will invariably be highly satisfactory.

CERTIFICATE FROM DR. HAYES,

Assayer to the State of Massachusetts.

"I have analyzed the Concentrated Leaven manufactured by Edw. Chamberlin & Co., with regard to its purity and efficiency of action in producing the effect of yeast, in distending dough and thereby rendering it light and porous. This article is skillfully compounded, from perfectly pure materials, which leave nothing injurious in the bread, which is essentially a desirable food in the bread. It raises the dough without consuming the sugar or any other principle in the flour, perhaps, rather improving it, as flour will produce more sweet, palatable bread than can be obtained through the aid of yeast; while for cakes and pastry, it is invaluable, as it saves all risk, and much time of the pastry cook.

The experiments made by me confirm the statements of the manufacturers, and prove this compound worthy of public approval and extended use.

Respectfully,
A. A. HAYES, M. D., *State Assayer.*
16 Boylston st., Boston, Sept. 25, 1860."

HOW TO USE IT.

We append a few recipes, but it may be used with great advantage in all other kinds of cake, also in fruit puddings and other pastry.

BREAKFAST AND TEA ROLLS.—Two or three teaspoonsfuls of Leaven (according to the quality of the flour,) to one quart of flour; mix thoroughly by passing two or three times through a sieve; rub in a piece of butter of half the size of an egg, and make the paste the paste with cold milk or water, (milk is preferable,) barely stiff enough to permit rolling out. Much kneading should not be used; cut into desired form, and place immediately into a hot oven, and bake quickly.

LOAF BREAD.—The same proportions of Leaven and flour sifted together as above; omit the butter, and make the paste stiff enough to knead into a loaf, and bake immediately in a quick oven.

GRAHAM BREAD.—Three teaspoonfuls of Leaven to one quart of wheat meal, sifted together; add one egg and half a cup of molasses; make the paste thin with milk, and bake in a slow oven.

BROWN BREAD.—Three teaspoonsful of Leaven to one quart of flour, one pint of meal; add all well sifted together; add two eggs and about a gill of molasses; make the paste thin with milk, and bake slowly.

BUCKWHEAT CAKES.—Flour and milk sufficient to make one quart of batter; add one egg then three teaspoonsfuls of Leaven; beat to a froth, and cook quickly.

DUMPLINGS.—Sift together one quart of flour and two teaspoonsfuls of Leaven; rub in a piece of butter half as large as an egg; mix with cold milk or water; boil ten minutes.

CHAMBER STREET CAKE.—Sift together two large cups of flour and two teaspoonsfuls of Leaven; put in half a cup of butter and a cup and a half of sugar; mix with water or milk to a stiff batter, and spice to suit the taste, and bake immediately.

CINCINNATI SPONGE CAKE.—Two cups of white sugar, beaten with the yolks of six eggs—the whites of six eggs beaten to a froth; then beat all together; add three cups of sifted flour, one cup of water, and three teaspoonsfuls of Leaven; flavor with two teaspoonsful of essence of lemon, and bake in a quick oven.

JUMBLES.—Sift together one quart of flour and three tea spoonsfuls of Leaven; rub in one teacupful of butter; add a cup and a half of white sugar, spice to suit the taste; mix stiff enough to roll out, and bake quick.

ELECTION CAKE.—One quart of flour and three teaspoonsfuls of Leaven sifted together; add a cup of butter, one pound of currants, two cups of white sugar, and one teaspoonful of cinnamon; mix with cold milk to a stiff batter, and bake in a slow oven.

CORN CAKE.—One pint each of flour and Indian meal, and three teaspoonsfuls of Leaven, well sifted together; add one gill of molasses and two eggs; mix thin with milk, and bake in a slow oven.

CUP CAKE.—Five cups of flour and three teaspoonsfuls of Leaven, sifted together; add one cup of butter, two of sugar, and two eggs, all well beat together; add milk; then add a cup of currants, and spice to suit the taste. Bake about half an hour.

LADIES' CAKE.—Three quarters of a pound of flour and four teaspoonsfuls of Leaven sifted together; one pound of sugar and six ounces of butter beaten to a cream; the whites of eight eggs well beaten, and the juice of one lemon; mix with milk.

WEBSTER CAKE.—Five cups of flour, three teaspoonsfuls of Leaven, three quarters of a pound of butter, one of milk, and two eggs; fruit and spice to the taste. Bake about half an hour.

For Sale by Grocers Generally.

BLOOD FOOD

The attention of Invalids, Physicians, Clergymen, scientific men, and the public generally, is respectfully invited to the merits of this chemical preparation, containing **Iron, Sulphur** and **Phosphorus**, and which is identical in its composition with the *Hematic Globule*, or *red blood*.—In all diseases accompanied with

DEBILITY,

pale countenance and nervous derangement, analyses of the blood show a deficiency of the red corpuscles, which, in combination with the oil of the skin, is always indicative of health; while a pale, wax-like skin and countenance,—which almost invariably follows the decrease of the globules,—accompanies a diseased organism. Preparations of **Iron** have been given for the purpose of supplying the red globules, but we contend that **Iron** alone, **Sulpur** alone, or **Phosphorus** alone, will not meet the deficiency in every case; but the Hematic combination of all these elements is necessary to restore the blood to its normal standard. This point, never before attained, has been reached in the **Blood Food**, and its discovery ranks as one of the most scientific and important of the age. Its effects in

CONSUMPTION

are to soften the cough, brace the nerves, strengthen the system, allay the prostrating night sweats, increase the physical and mental energy, enrich the blood by restoring the lacking red globules, increase the appetite, restore the color, and clothe the skeleton frame with flesh. The **Blood Food** will be found a specific in all *CHRONIC DISEASES of the THROAT or LUNGS*, such as *Asthma, Bronchitis, Coughs, &c.* Public speakers and singers will find it of great utility in clearing and strengthening the vocal organs. In *Dyspepsia, Liver Complaints, Dropsy, Epilepsy, Paralysis, Scrofula, Gravel, St. Vitus' Dance, Fever and Ague, &c.*, its efficacy is marked and instantaneous. In no class of diseases, however, are the beneficial effects of this remedy so conspicuous as in those harrassing

FEMALE COMPLAINTS

to which the gentler sex are liable, and which tend towards Consumption, such as suppressed or difficult *Menstruation, Green Sickness, Whites, &c.*, especially when these complaints are accompanied with paleness, a dingy hue or pallor of the skin, depression of spirits, debility, palpitation, want of appetite, and nervous prostration. We have the utmost confidence in recommending the **Blood Food** to all who may be conscious of a loss of vitality or energy, and to those whose mental or bodily powers are prostrated through exercise, either of the mind or body, and we deem it our duty to say that in all cases of *Weakness and Emaciation*, and in all diseases of the *Kidneys or Bladder*, a trial of the **Blood Food** is the preparation to which the attention of sufferers which cannot be over-estimated. A faithful trial will be found the most conclusive proof in regard to its efficacy that can be asked for. With the above remarks, and with the numerous testimonials we have in its favor, we offer the "**Blood Food**" to the consideration of the afflicted, knowing that it will be acknowledged as pre-eminent over all other preparations, and as unequalled, in point of usefulness. Circulars giving the Theory upon which this remedy is founded, also certificates of remarkable cures, will be sent free to any who desire it. We forward the **Blood Food** to any part of the United States or Canadas upon receipt of price—$1 per bottle, $6 for six bottles. Be careful in all cases to take none but that having our fac-simile signature upon the wrapper None other is genuine.

No. 409 Broadway, New York.

And sold by them and all respectable Druggists.

Sold in Portsmouth by PRESTON, THACHER, HUTCHINGS and KIMBALL. s6 1y

BININGER'S GENUINE Cognac Brandy

The infamous practice of adulterating Brandies having become so common that a genuine article is the exception; it is of *vital importance* to those requiring it for Family use and Invalids, that it should be of undoubted purity and efficacy.

With a view to meeting the popular demand for a Brandy in its natural state, free from alcoholic flavor and impurities, and fully appreciating the fact that it is often commended by the Medical Faculty as a *sustaining stimulant*, when all other remedies fail, we are now bottling, and offering at reasonable rates, a Brandy of our own importation, from one of the most responsible houses in France, and known as

"Bininger's Genuine Cognac Brandy."

It is mild, delicate and fruity, and is designed to be always uniform in quality and character. Put up in pint and quart bottles, in cases containing dozen pints and one dozen quarts, and is sold by all prominent druggists, grocers and town agents.

The above is also for sale in original packages, viz.: Eighths and Quarter Casks.

Dyspepsia Remedy

DR. DARIUS HAM'S

AROMATIC INVIGORATING SPIRIT.

This medicine has been used by the public for six years, with increasing favor. It is recommended to cure Dyspepsia, Nervousness, Heartburn, Cold Hands, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Low Spirits, Delirium Tremens, Intemperance, &c. It Stimulates, Exhilarates; Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Kidney Complaints, and all other deranged conditions of the Stomach and Bowels, in a speedy manner.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions impaired, and are subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.
One dose will prevent all Bad Spirits.
One dose will cure Heartburn.
Three doses will cure Indigestion.
One dose will give you a good appetite.
One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, the distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, pleasant to the stomach.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are severely afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Persons who, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach weakness, giddiness, &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstrual organs, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the Invigorating Spirit in pint bottles, at 50 cents, qts $1.

Morning Chronicle.

☞ A horribly destitute family was lately discovered by the Buffalo police. There were three women, one man, and one child, utterly without food, and almost without clothing,and when found they were burning straw from their wretched couch, as their only fuel. The bottle, the prime cause of this misery, was almost the only article found in the room, and the poor creatures were so weak and drunk that they had to be lifted into the wagon which conveyed them to the poor house.

TOO CAREFUL OF HER MONEY.—Mrs. Jane Sparks, of New York city, having a $1000 and $500 bill, sewed them for safe keeping in these perilous times upon one of her under garments, and then forgot all about it until the clothes had gone into the wash. The bills were not found, and the washerwoman was arrested, but denied all knowledge of the money.

☞ The land sale at Fort Scott, on the 3d, was attended by no bidders, and was consequently a complete failure. Gen. Harney and the United States troops were present, but none of the settlers had any money.

☞ The population of New Mexico, including the Pueblo towns, according to the census returns just taken, is 80,000. Great difficulty was experienced in taking the census, the native inhabitants not understanding the object, and suspecting that it was for some purpose of taxation.

☞ John A. Prophet, a colored man, who lived alone, near the village of Apponaug, Warwick, R. I., was found, Sunday afternoon, in the stable near his house, dead. It appeared that he went on Saturday to Providence to market, and returned in the evening wet and intoxicated, went to the stable to take care of his horse, and got down but could not get up, as he had but one leg, having had one cut off a number of years since.

A LEGACY WHERE IT WAS NEEDED.—A pauper boy in the Londonderry Almshouse, N. H., motherless and with a shiftless father, has had about $2000 left him by English relatives on his mother's side. The little fellow has plenty of friends now.

City Clothing Store - - - 8 *Market Square.*

None genuine unless signed by
CHAS. F. GARDINER.
Sold in Portsmouth by PRESTON, THACHER and KIMBALL; and by Apothecaries generally throughout the country. au21 1yeod W

PROF. WOOD'S
RESTORATIVE CORDIAL
—AND—
BLOOD REVIVATOR,
Is precisely what *its name indicates*, for, while *pleasant to the taste*, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a medicinal form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet *so perfectly adapted as to act in perfect accordance with the laws of nature, and hence soothe this weakest stomach*, and tone up the digestive organs, and allay all nervous and spasmodic irritation. It is also perfectly exhilarating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical science, and also by all who have suffered from debility, for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous to which poor humanity is constantly liable. Such, for example, as the following: Consumption, Bronchitis, Liver Complaint, Dyspepsia, Loss of Appetite, Faintness, Nervous Irritability, Neuralgia, Palpitation of the Heart, Melancholy, Hypochondria, Night Sweats, Languor, Giddiness, and all that class of cases, so fearfully fatal if unattended to in time, called *Female Weaknesses and Irregularities.* Also Liver Derangements or Torpidity, and Liver Complaints Disease of the Kidneys, Scalding or Incontinence of the Urine, or any general derangement of the Urinary Organs, Pain in the Back, Side, and between the Shoulders, predisposition to Slight Colds, Hacking and Continued Cough, Emaciation, Difficulty of Breathing, and indeed we might enumerate many more still, but we have space only to say, it will not only cure the debility following Chills and Fever, but prevent all attacks from Miasmatic Influences, and cure the diseases at once, if already attacked. And as it acts upon the biliary system, arousing the Liver to action, promoting, in fact, all the excretions and secretions of the system, it will infallibly prevent any deleterious consequences following upon change of climate and water; hence all travellers should take a bottle with them, and all should take a table-spoonful at least before eating. As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits, students, ministers and literary men. And all ladies not untomed to much out-door exercise should always use it. If they will, they will find an agreeable, pleasant, and efficient remedy against those ills which rob them of their beauty, for beauty cannot exist without health, and health cannot exist while the above irregularities continue. Then, again, the Cordial is a perfect Mothers delight. Taken a month or two before the final trial, she will pass the dreadful period with perfect ease and safety. *There is no mistake about this.—Hear what a Mother says.—Mothers, try it!* And to you we appeal to detect the illness or decline not only of your daughters, *believe it is too early* but also your sons and husbands, for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known; the latter are often so mixed up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never-failing affection will unerringly point you to Prof. Wood's Restorative Cordial and Blood Renovator as the remedy which should always be on hand in time of need.
O. J. WOOD, Proprietor, 444 Broadway, New York, and 194 Market street, St. Louis, Mo., and sold by all good Druggists. *Price* $1 per bottle.
Agent for Portsmouth, J. H. THACHER, corner State and Pleasant streets, and No. 12 Market Square. D eow 1y

ATWOOD'S
QUININE TONIC BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonics* and *stomachics*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after protracted diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For cholera, dysentery and cholera morbus, the public may rest assured there is not can be any better general remedy.
One of the very best Physicians in Boston has said *"that it is the best preparation of Bitters that has ever been offered to the public."*
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

Boston, Sept 1, 1860.—s2 3awly

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, DECEMBER 28, 1860.

THE MAN.—Mr. William Butler, Treasurer of the State of Illinois, is reported as having used the following language, in speaking of Abraham Lincoln, who had lived in his family:

He lived with us nine years—was repeatedly elected to the Legislature—as long as he would go—and finally to Congress, when he got married and lived in a house of his own. He never gets in debt—enters into no speculations, but has pursued his profession and the acquirement of knowledge with unwearied diligence. He earned the name of "Honest Abe" years ago, for from him all felt that they would always get an honest legal opinion. If the party could not convince him he had right and equity on his side, he would not espouse it for love or money, for friend or foe; but if he could make it appear that his cause was just, rich or poor, he would take hold of it with all his powers, and a knowledge of this fact had great weight with court and jury.

He has not been known to utter an oath or taste a drop of any intoxicating liquor for twenty years, and we always supposed he was a member of the Presbyterian church, which he regularly attended, taking part in the Sabbath school exercises;—but my wife, who is a member, says he is not a communicant, though his wife is. An adversary cannot scare or drive him, and what is more, no man living, however great his friend, can persuade him from doing what he thinks his right, or turn him from a known path of duty, to the right or left. I tell you he is a real "Old Hickory," yet he is a fine, good-natured genial companion; in short he is the best man I ever was acquainted with, and you may rely upon it he will prove himself equal to the position assigned him.

If this is all true, or nearly so, it is no wonder the slave power is frightened, and bellows and brays so as to frighten its timid neighbors.

☞ The New Orleans Picayune is of opinion that in the adjustment of present troubles, a revolution in the public mind of the North is necessary—a returning sense of justice. To obtain this, that paper struggles for united Southern action, which it is expected will precipitate such a revolution. No patched-up adjustments, it is said, will now effect peace. The loss of the Union, and the overthrow of the government for all the States, will be held up as inducements for the North to regard the rights of the South, and of the relation of slavery to the general government. To withdraw separately, it is argued, will be to leave behind all of the public property and other interests which the South has in view in the present struggle.

WASHINGTON, Dec. 27—11 P. M.—(Special dispatch to the Boston Atlas and Bee.)—In consequence of the receipt of telegrams from Charleston, the President has summoned a special meeting of the Cabinet. They are now in session.

Dispatches from Charleston indicate that the secessionists in that city will make some move which will bring on a serious collision with the U. S. authorities. It is even rumored that already the public property has been seized by the rebels.

Gen. Scott gives the highest praise to the military genius which prompted the occupation of Fort Sumpter. He declares that Anderson can hold it as long as he can feed his troops.

The South Carolinians in Washington are furiously excited, and the parade of bowie knives and revolvers is amusingly terrific.

SPRINGFIELD, Ill., Dec. 27.—Senator Baker of Oregon had a public reception here to-day. He made a speech scouting the idea of a Pacific Republic, and said emphatically that the Union should be preserved and the Federal laws executed North and South.

MODEST PROPOSITION.—Northern men who imagine that the repeal of Personal Liberty Laws, and a little miscellaneous dirt-eating, will turn back the secession tide, are invited to digest the following from the Charleston Mercury, in which the demands of the propagandists are stated:

And what guarantees should satisfy the South? In my estimation, nothing short of amendments to the Constitution that would make negro slavery legal and perpetual in every State of the Union, and upon every foot of territory that now belongs or every shall belong to the United States. It is not only possible, but probable, that such a reaction may take place in the public mind.

This, from a correspondent, is endorsed by the Mercury as sound doctrine.—And when the sky falls, *then*, won't we catch larks?

We should like to know if South Carolina may not be pursued, arrested and brought back into the Union to which she "owes service" and from which she has "escaped," under the fugitive slave law? She certainly has escaped—according to her showing—from a state of security, in which she owed service to the common bond, into another State—the State of Desperation and Folly.—*Bath Times.*

"Perley" says the Republican members in Congress will not agree to propose any constitutional amendment recognizing slaves as property and guaranteeing to protect them as such. If they would do so, they would deserve universal execration. The Constitution recognizes property in slaves where they are held as slaves under local law, and that is enough. Further it should not go; further, it is safe to say, it never will or can go.—*Bath (Dem.) Times.*

NEWCASTLE MEMORIAL.

The following is an extract from a discourse delivered at Newcastle, N. H., Nov. 11th, 1860, commemorative of the loss of eight citizens off the coast of Nova Scotia, who sailed from this port last Spring, on board the schooner Nile.

Text, Job XXVI. 9:—He holdeth back the face of his throne and spreadeth his cloud upon it.

* * * The event referred to, though painfully familiar to all, is one to which the crushed affections fondly cling. On the 28th of March last, at the call of duty and for a worthy purpose, they left their homes and embarked in a vessel—seaworthy, with a liberal outfit, firm health and cheerful spirits. Delayed and finally overtaken by a storm on the 15th of April, they passed forever away from mortal view.

Among the lost was Capt. Samuel Batson, the master of the Nile, in the 47th year of his age; of active habits, enterprising, resolute, persevering and successful in a profession alike honorable and essential to the best interests of mankind, leaving a widow and eight orphan children, a brother and sister to mourn his irreparable loss.

Mr. Gilman Hilliard, 34 years of age, fallen in the meridian of life; "The only son of his mother and she a widow," who can make the lamentation of Israel's king—"Oh, my son! would God I had died for thee, Oh, my son, my son!"

Mr. Henry Yeaton, aged 27 years; smitten down in manhood's prime, as described in Holy Writ, 'one dieth in his full strength, being wholly at ease and quiet,' leaving the wife of his youth and three orphan babes, the youngest of whom never knew a father's love.

Mr. Richard Thompson, a native of Kennebunkport, Me., in the 24th year of his age, removed to this place in 1857, and subsequently married to her, now his widow; coming here, he found us strangers;—embarking forever hence, he left us friends.

To these we must add the notice of three "who coming forth as a flower, were cut down," or as some fair tree, uprooted by a vernal storm, beautiful in its ruins.

John M. Meloon, aged 20 years, and adopted son of Mr. Alfred Meloon, regarded and nurtured as a beloved child, and greatly mourned by surviving friends.

Elias Hubley, aged 20 years, a native of Nova Scotia, removed here, with the numerous family in 1851, called early to follow an elder brother, who sailed hence on his final voyage in 1855. The afflicted parents have thus been caused to part with two sons and a son in-law, within this brief period.

Meschach B. Cousins, aged 17 years, Early bereft of a father and subsequently of a father-in law, he had just attained the age to be a stay and staff to his twice widowed mother, when thus called away—"They were lovely and pleasant in their lives and in their death were not divided."

Besides these seven citizens, was Mr. Thomas Powell, a resident of the city of Portsmouth, formerly of Nova Scotia, leaving as a mourner his bereaved widow.

From this scene of gloom, let the mourners look away to the throne of the Infinite Father, "who has a blessing in his darkest frown." Listen to his gracious words—"A father of the fatherless and a judge of the widow, is God in his holy habitation. Leave thy fatherless children with me, I will preserve them alive."

Are the sympathies of your hearts in accordance with those of the mourner of Bethany, who exclaimed—"Lord, if thou hadst been here, my brother had not died!" But the Lord, in the final hour, was with the loss ones, and his hand hath done this, "that killeth and maketh alive." And while you were not permitted to commit "dust to dust," yet they had a more sublime burial than earth could give. Like that of the man of God, called to go up on Pispah and die alone, and "the Lord buried him, and no man knoweth his sepulchre"—so He, who holdeth the waters in the hollow of his hand, laid these departed friends to their last rest in a fathomless sepulchre, in the vast Ocean Sepulchre of the globe.—Over them, as a winding sheet, is spread the snowy crests and foaming billows of the sea. Breezes the softest shall sigh their requiem. While beneath the lofty roof of their tomb—the cerulean concave of the sky—storm and thunder shall peal their funeral anthem.

"These ashes too—their: reclous dust,
God's guardian care shall keep,
Till the last angel rise and break
The long and dreary sleep!"

Then, when, "they that sleep in the dust of the earth shall awake," "the sea shall give up the dead which are in it,"—then shall appear the throne, "not with the cloud spread upon it," but so white, so brilliant that from its face heaven and earth shall flee away. Then shall be heard the shout—"Death is swallowed up in victory!" * * * And while all the waves and billows of sorrow thus roll in upon this community, a voice is heard above the storm—the omnific word of Him, of old the companion of the mariners on the sea of Galilee, saying—"Peace, be still!" no as it calls—"Be ye also ready!" Let us so hear, that our souls may live; through faith in Christ, love supreme, penitence heart-felt, and obedience unreserved.

To the associates of the departed, in the perils and dangers of the seas, the event calls most impressively—"Be wise to-day, 'tis madness to defer!"

Embarked on the ocean of life, take the unerring Word of God as your chart, embrace a hope in Christ as the Anchor of your souls. And while to shape your course securely, you are accustomed, with unslumbering eye, to watch yon Polar Star, so let the eye of faith turn to another—a brighter Star—as seen by eastern sages.—Then when the voyage of life is over, you may exclaim:

"Once on the raging seas, I rode,
The storm was loud,—the night was dark;
The ocean yawned, and rudely blowed
The wind, that tow'd my wandering bark.

Now safely moor'd—my perils o'er,
I'll sing, first in night's diadem,
Forever and forevermore,
The star!—the star of Bethlehem! A.

☞ When Mississippi shall secede there will be no trouble about the collecting of revenue there. She has no port of entry.

CONGRESS, THURSDAY, Dec. 27.

SENATE.—Mr. Rice presented a resolution, which was referred to the Committee of Thirteen without being read.

A bill was reported providing a Territorial Government for Arizona. Mr. Green supported the bill, stating the necessity that existed there for a Territorial Government.

Mr. Brown moved to add a section to the act of Legislation of New Mexico that the protection of slave property be enforced in Arizona

Mr. Trumbull moved an amendment that the same laws be enforced as existed at the time of annexation.

Mr. Brown said it was idle to talk of peace until slave property was recognized by the North. If the government continued to outlaw the South, there would be a separation. The South would not take less than justice. If the idea is persisted in that the government does not recognize property in slaves and protect it, then, standing in this high presence, and before Almighty God, he declared that the Union would not last ninety days. He asked that his amendment might be printed, so that the people could see what he meant.

Mr. Green hoped the discussion of political matters would be postponed. He did not think the amendment of Mr. Brown amounted to much, but would vote for it.—He said that if the nonrecognition idea was intended to be enforced, it was better to adjourn and go home, and thus dissolve the government. He denied the right of nullification, but claimed the right of secession, and was opposed to the coercion of a State.

After further debate the Senate adjourned till Monday.

HOUSE.—Mr. Stevens of Washington Territory rose to make a personal explanation relative to a special dispatch in a Boston paper, which stated that the stolen bonds had been used by the Breckinridge Central Committee.

Mr. Morris of Illinois called Mr. Stevens to order on the ground that newspaper articles were not privileged questions.

The Speaker decided that this was an explanation and not a privileged question, and therefore not objectionable.

After a debate on admitting the explanation as a privileged question, Mr. Stevens read dispatches from the Boston Herald, also from the World, stating that as he was Chairman of the Breckinridge Central Committee he felt interested.

He said that the charges in the dispatches were most false and calumnious.

Mr. Stevens said the gentleman who sent the dispatch to the Boston Herald had stated that the obnoxious words were interpolated by the editor of that paper. It was the duty of the Select Committee to investigate the matter thoroughly.

Mr. Morris of Illinois, Chairman of the Commitee, said he had informed Mr. Stevens that he had no control over the matter, but would lay it before the Committee.

Mr. Bocock of Virginia asked and was excused from serving on the Select Committee, on account of business engagements.

Mr. Morris offered a resolution empowering the Committee to sit during the proceedings of the House, either in this city or elsewhere, as advisable, and to employ reporters. Adopted.

The House then went into a Committee of the Whole on the Indian Appropriation bill. No quorum being present, it was agreed to report the bill next Monday, to which day the House adjourned.

WASHINGTON, Dec. 27.—The House Select Committee to-day rejected Mr. Rust's proposition, by a vote of 12 to 15. All the Republicans and Mr. Davis of Maryland voted in the negative. The proposition provided for the extension of the Missouri Compromise line to the Pacific: south of that line slavery was to be protected in the territories, but when formed into States on either side they were to be admitted with or without slavery.

Col. Myers and Capt. Donovan of South Carolina, and Major Wayne of Georgia have resigned their commissions in the army. The latter accepts the Adjutant Generalship of his State.

Resignations of South Carolina postmasters continue; they give as a reason that they are out of the Union.

The address proposing a border slave State Convention at Baltimore, has been numerously signed by representatives from those States.

The Administration having received a dispatch relative to Major Anderson's movements, a Cabinet meeting was called, which was in session several hours, and then adjourned till 8 o'clock to-night.

The South Carolina Commissioners have so far received no encouragement that they will be received in an official capacity. Their case will probably be submitted to Congress by the President. They have hired quarters, with the privilege of retaining them until the 4th of March, thus indicating that they do not apprehend an immediate termination of their business.

A caucus of the conservative members is called for to-morrow night. The invitation is limited to members from Kentucky, Tennessee, North Carolinia, Virginia, Maryland, Delaware, Arkansas, Missouri, New Jersey, Pennsylvania, Ohio, Indiana, Illinois and Iowa. The object of the meeting is to consider national affairs.

President Buchanan has selected *Friday—Hangman's Day*—for his National Fast. If it could be made a day to hang all who have been guilty of bringing the present evils upon the country, we fear the Government would be left almost entirely destitute of officials. The "O. P. F." would go to his grave a *longer* if not a wiser man.—*Bath Times, demo.*

CHARLESTON, Dec. 28.—The Palmetto flag was raised yesterday over the Custom House and Post Office.

At 5 o'clock P. M., the Palmetto flag was raised at Castle Pinckney.

A large military force went over last night, and Forts Moultrie and Pinckney were taken.

☞ Dr. Livingston writes from Senna to the Bishop of Oxford, that the whole region bathed by the Lakes, in the interior of Africa, is a cotton producing one of the first order.

LATEST FROM THE SOUTH.

From an Extra Traveller, Friday evening, we have the following:—

CHARLESTON, Dec. 28.—Mr. Rhett addressed the Convention, in support of the ordinance for forming a Southern confederacy. He said his object was a speedy organization for future protection.

WASHINGTON, Dec. 28.—The news of the capture of forts Moultrie and Pinckney reached the Government while a Cabinet meeting was being held.

The South Carolina Commissioners are in conference with the officers of the Government, and demand that the troops shall be immediately withdrawn. Unless this is done they will return immediately to South Carolina and prepare for the worst.

Influential members of Congress have been in consulation as to the duty and expediency of impeaching James Buchanan. If the accounts should be confirmed of the seizure of the government forts, it is thought the President will at once be impeached by the House,—which act will suspend his functions—and the Senate will proceed to his trial at their convenience.—Meanwhile Mr. Breckinridge will assume the lead, and there is little reason to doubt that the whole disposable force of the Government will be put upon a war footing.

☞ The attempted assassination of Col. Dunn of the Sicilian army, gave rise to the report that Garibaldi had been assassinated.

MARRIAGES.

In Dover, Dec. 25, Prof. JOHN R. VARNEY to Miss ISABEL G. KIMBALL.—Mr. ROBERT STEWART of Haverhill, Mass., to Miss SARAH J. MOORE, of Parsonsfield, Me.

DEATHS.

At sea, off Cape Horn, Sept. 30th, were drowned from on board ship Prima Donna, Mr. CHAS. H. PRAY, aged about 26, and Mr. GEORGE P. HACKETT, aged 19, of this city. The latter was the only son of the late Mr. George Hackett, formerly of Gilmanton.

In Dorchester, Mass., Dec. 26, Mrs. ELIZABETH ROSS, aged 81 yrs., 9 mos., widow of John P. Ross, Esq., of this city.

Funeral from the Universalist Church this (Saturday morning, at 10 o'clock.

In Nottingham, Mrs. HANNAH KELSEY, aged 84, widow of Mr. Wm. Kelsey. Mrs. K. was greatly beloved and highly respected in the social and domestic circle in which she moved, and of which she was the comfort and ornament to the close of her life.

Rehumatism! Rheumatism!!

It is well known that bathings, ointments, and external applications, only drive rheumatism from one part of the system to another; and sometimes with fatal results. HUMPHREY'S SPECIFIC HOMEOPATHIC RHEUMATIC PILLS, often cure the worst and most protracted cases. This simple medicated SUGAR PILL will do more to eradicate the disease, than quantities of crude medicines, and has cured when all other means have failed.

Price, 25 cents per box, with directions. Six boxes $1.

Sent by mail or express, free of charge, on receipt of the price.

Address, DR. F. HUMPHREYS & CO., 562 Broadway, New York.

Sold in Portsmouth by THACHER.

A CARD TO THE SUFFERING.

The REV. WILLIAM COSGROVE, while laboring as a missionary in Japan, was cured of Consumption, when all other means had failed, by a recipe obtained from a learned physician, residing in the great city of Jeddo. This recipe has cured great numbers who were suffering from Consumption, Bronchitis, Sore Throat, Coughs and Colds, and the debility and nervous depression caused by these disorders.

Desirous of benefitting others, I will send this recipe, which I brought home with me, to all who need it, free of charge.

Address, REV. WM. COSGROVE,
dec28 W3m 489 Fulton Avenue, Brooklyn, N.Y.

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then, who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly efficial in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases of a bad day's perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov28 dawSm

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail to moderate excesses and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, send for a pamphlet to the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail. nov28 dawSm

Sold by W. R. PRESTON and all druggists.

THE OXYGENATED BITTERS.

The qualities of this medicine have placed it up on an imperishable foundation. In destroying disease, and inducing health, it has no paralell.

For the following complaints these Bitters are a Specific: viz—*Dyspepsia, or Indigestion, Heartburn, Acidity, Costiveness, Loss of Appetite, Headache, and General Debility.*

In many sections of our country this preparation is extensively used by physicians in their practice, and it seems to have restored many to health who were apparently beyond the reach of the healing art.

From Mr. Jonathan Chapin.

WALPOLE, N. H., May 18, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—I consider the OXYGENATED BITTERS a valuable medical compound, combining both high medical skill and conscientious honesty in the person by whom they were compounded. I have used them for *Dyspepsia*, with very good effect, and consider them a reliable remedy for that complaint. In all cases where I have known of their being used, the result has been highly in their favor. I can conscientiously recommend the OXYGENATED BITTERS to all sufferers from diseases of a dyspeptic nature. Yours truly,
JONATHAN CHAPIN.

From Mr. C. A. Shaw.

BIDDEFORD, Me., Aug. 7, 1860.

Messrs. S. W. Fowle & Co.—Gents:—Disclaiming any intention of puffing a patent medicine, I have to assure you of my high regard for the OXYGENATED BITTERS, the beneficial effects of which I have witnessed in my own family, and I do not hesitate to pronounce them worthy the entire confidence of the community, as a remedy for that distressing disease, *Dyspepsia*, and a medicine whose use will guarantee to it a steady sale. Yours, C. A. SHAW.

Local.

☞ Two very genteel and nice Jeremy Diddlers, travelling with a fine two-horse team, have *sold* a great many farmers and others in the rural districts of Maine, lately, by palming off *cotton* broadcloth for *woollen*, after giving the ladies a dress pattern of delaine,—and taking a note payable in three months for the cloth.

The swindlers promise to take back the cloth, if not sold or wanted, when they come round again; and then leave. But they sell the notes in the nearest town,—and when they come back—well, make a note of it.

☞ Capt. Salter, of the ship Georgiana, in a letter to his friends here, states that his ship was struck by lightning, and burnt so rapidly that the crew could only save a very few things, when they took to their boats. They were out in the boats all night and were picked up next day by the ship Levi Woodbury.

ANOTHER ONE.—We suppose that the Washington financier who has made way with $830,000 of the government funds, will now follow Mr. Cobb's example, issue a secession bulletin, and go home rejoicing to his friends in South Carolina. He has only plundered a foreign government, which, in case of collision, may be considered just so much gain to the government of South Carolina. No wonder the men who have had charge of financial affairs at Washington are desirous of breaking up the government or of bringing on any other commotion, provided they can escape having their accounts overhauled. But we trust that a stand will be made against the further impunity of these offenders. If Mr. Cobb was too great a man to be held strictly responsible for his acts, let Mr. Goddard Bailey be made an example of, although he is from South Carolina.—*Boston Jour.*

THE ANTI-TOBACBO MEDAL is a little less than a red cent in size. This medal, however humble in pretensions, in the lapse of time may be of more value to the nation than the acquisition of California. On one side there meets your eye a boy, standing upright, and indignantly trampling under foot a tobacco plant—while his head has around it this pledge: "I will never use tobacco in any form." On the other side the *affinities* of tobacco are thus happily expressed: "Tobacco tends to idleness, poverty, intemperance, vice, ill-health, insanity and death." A world of truth, and such as will make men stare by and by.—*Anti-Tobacco Journal.*

☞ Anti-Tobacco Tracts, Cards, Envelopes and Medals may be obtained of Rev. Geo. Trask, Fitchburg, Mass., or at Nos. 5, 9, 13, Cornhill, Boston. More than seventy different tracts are published, written by clergymen, doctors, ladies and poets. Price, one cent single, 8 cents per dozen, 50 cents per hundred.

☞ The Paris correspondent of the Charleston Mercury, after quoting remarks on secession from French papers, says:—

You will see, clearly enough, that the South must not look to France, any more than to any other European country, for such encouragement in her struggle, or for so much as a moderately intelligent appreciation of the subject; public opinion here being entirely Uncle Tommied for the present.

The writer thinks, however, that the power of cotton is so great, from its intimate connection with the industry of the world, that it will cause a revolution in this matter, both in Europe and America, and "end in abolishing that false and ignorant philantropy which came in with Clarkson and Anacharses Clootz!"

WASHINGTON, Dec. 28.—(Special dispatch to Boston Journal.)—The Charleston forts and arsenal, except Fort Sumter, are in the hands of the rebels.

General Scott says that Major Anderson acted bravely and wisely, although without special orders. The secessionists say he must be disgraced.

It is the opinion here that if the President does not sustain Major Anderson, this government is virtually surrendered to a Southern Confederacy.

NEW YORK, Dec. 28.—It is reported that the secessionists in Charleston have taken possession of the telegraph offices, and will not allow any dispatches to be sent North until satisfactorily passing their surveillance.

The Tribune Washington correspondent says that the Charleston populace have seized the public property to retaliate upon the movement of Major Anderson, and the Cabinet consultation was upon that and other points connected with the policy to be pursued.

☞ The New Orleans Bee cannot see the way clear for the secession of Louisiana, by reason of geographical position, sugar interests, relations with the West, navigation of the Mississippi, and its commerce with the North and with Europe.

☞ The Sherman (Texas) Patriot says: "The secessionists of Texas—Cushing, DeMorse, Richardson and Marshall—are imported Yankee stock. It is strange that we have to learn our rights from such men."

The same paper says:

The election is over, and Abe Lincoln has been returned as President of the United States—the Democracy having been broken up, the leaders, despairing of a continuance in power, to proscribe and tyrannize, now seek to break up the finest government ever formed by the genius of man. It was time that old party was broken up—it has involved the country in all the excesses which are the fruit of demagoguism.

HEROIC CONDUCT OF A BOY.—This forenoon, on Little River, a little son of Dr. Mettler broke through a spot of thin ice, and was borne by the current under the ice below. Charlie Champlin, a boy thirteen years of age, son of Mr. C. A. Champlin of this city, (tailor at George Stevens',) witnessed the incident and ran to the rescue. Seeing the body floating along under the thin, transparent ice, he quickly ran a short distance below, seated himself where a cake of old ice made it strong, kicked with his heels a hole through the thin ice just ahead of the floating boy, and stuck his legs thro'. The drowning boy clutched his foot firmly, when Charlie drew him to the opening, seized him with his hands, and pulled him out alive! He was properly cared for.

Charlie Champlin is a young hero. The presence of mind, the ingenious method adopted, which not one in a hundred would have thought of, and the quick, prompt and vigorous action were remarkable—nothing less would have saved the drowning boy.—Twice before, while living at Higganum, in the summer of 1859, this same brave lad jumped into the Connecticut River, and rescued other boys struggling in deep water.—*Hartford Press, 24th.*

FORT MOULTRIE AFFAIR.—*Charleston, Dec. 27.*—The Agent of the Associated Press has had an interview with Capt. Foster, now in command of Fort Moultrie, who says that Major Anderson has acted on his own responsibility. Fort Moultrie has not been set fire to, and Capt. Foster is still in command with a few regulars.

The fire was the burning of guncarriages.

☞ At a meeting in St. James Parish, La., it was resolved in favor of a southern convention, and that said convention should summon back into the Union such northern States as have withdrawn from it by violations of the Constitution, and that if after a given time said States do not come to terms they should be expelled from the Union.

THE WEEKLY CHRONICLE,

Containing the news of the week, at home and abroad, as published in the six previous issues of the Daily Chronicle,—is printed on *Friday* morning, and immediately delivered by our carriers to subscribers in the city, or sent by mail to any part of the State or the world.

As the Weekly Chronicle contains most of the matter from our "local" Daily columns, it will be found an attractive paper for natives of Portsmouth living abroad, and all others interested in our city.

Terms of subscription to the Weekly Chronicle, only $1 per year in advance—sent by carrier without extra charge, to any part of the city and vicinity; or by mail, postage free, to any part of Rockingham County. Direct letters, "Chronicle, Portsmouth, N. H."

Life has few charms for the Dyspeptic, which is not to be wondered at, when we take into account the amount of bodily suffering which he endures. By use of the *Oxygenated Bitters*, the picture is reversed and the bright side of life appears.

I. O. S. M.

Sons of Malta are requested to meet at the City Hotel, on FRIDAY eve, Dec. 28, at 7 o'clock, on business of importance. Per order of Committee.

TO THE LADIES.

From the Journal.

THE LATE REV. WENTWORTH L. CHILDS.

Departed this life at St. Albans, in the vicinity of the City of Washington, on the 18th inst. Rev. WENTWORTH LARKIN CHILDS, only son of E. Larkin Childs, Esq. of Washington, formerly of Portsmouth. A correspondent of the National Intelligencer, "B.R.F." gives the following obituary:

The announcement of the death of few men could have saddened deeply the hearts of all who knew him so much as did that of the beloved Rector of St. Alban's Church, contained in your paper of last Friday morning. He was in the very prime of his life and of his usefulness when it pleased the Great Author of All Good, for purposes which we cannot comprehend, to bestow upon him that happy immortality promised to all who do their duty here.

WENTWORTH L. CHILDS did *all* his duty. The writer of this heart-felt tribute to his memory and his inestimable worth knew him through all his, alas! too brief existence on earth. The Apostle whom Jesus loved could not have possessed a nature more kind or heart more devoted to the best interests of humanity than did the beloved object of this brief notice. His *whole life* was a life of goodness. Descended from an ancestry pious, patriotic, young Childs, instead of devoting himself to those pleasures and recreations so fascinating to youth, moving in such a sphere, at the earliest possible moment of his young life sought to improve the mind that God had given him in a way to make it most useful to his fellow-men. At an early age he graduated with honor at Columbia College, in this District. Imbued with the deepest sense religious duty, he at once commenced studying for the Pulpit, and fitting him self for that lofty and sublime position. He soon entered earnestly into the orders of the Episcopal Ministry. He was, at an early day of his ministry, called to the Pastorate of the little Church of St. Alban's, in Montgomery county, but near this city, the duties of which he performed with a zeal, energy, and devotedness, that awakened a love in the bosoms of all with whom he was associated, that followed him to his last resting place on earth, and will *live* in their bosoms through life, and, it is sincerely believed, be reunited in that other world where nought but love can dwell.

In contemplating such a life, those left behind have, amid their grief, great cause of consolation, if not even of joy.

CITY SURVEY.

The Survey by ROBERT L. HARRIS, Civil Engineer, which has been in progress the past season, is now completed, and the Engineer's Report with the accompanying Maps of the Survey, was made to the Mayor and Aldermen on Thursday evening last. The Maps of the Survey are twenty-seven in number, each on a sheet of about 27 by 54 inches backed with cloth. The streets are all marked down on a scale of 50 feet to the inch, showing the exact width and every variation of line. Beneath each is given a profile of the grading. There are lines to show the height of the middle and of each side of the street, and lines are also drawn designating the proper grade, by which future repairs of the streets should be regulated. The plans and papers are elegantly executed, and so clear that any one of common capacity can understand them fully after fifteen minutes examination.

The work reflects much credit upon the skill and industry of Mr. Harris as an Engineer; and no one who understands the labor necessary to produce so extensive plans, which will bear the closest scrutiny for accuracy, will think that he has not fully earned the sum appropriated by the city, for a work which will never need to be again done in all future time. Had such a survey been made twenty years ago, it would ere this have paid for the expense twice over in stopping the conflicting experiments made by successive Street Commissioners.

Mr. Harris, the Civil Engineer, a native of this city, is located in Boston, and has an office at No. 4 Court street. We take pleasure in commending him to those who may need his services, as a skillfull engineer and elegant draftsman—as the work he has just completed fully shows to all who may examine it.

CHRISTMAS EVE FESTIVITIES.

There are many interesting customs of the old world which are not readily introduced into the flurry and unrest of our New-England society.—Young America is not so apt at a 'rollicking good time,' as were his old English and German ancestors, if history and song tell us aright; and it does us good to chronicle once in a while a real characteristic celebration of a European festival.

Last Monday evening a large party from town, numbering over 130, assembled at the elegant suburban residence of Mr. Charles E. Myers, to enjoy festivities suitable to the occasion. It takes a German to superintend the festival of Christmas Eve, for it is peculiarly an institution of "Father Land." Ministers, deacons and laymen, school teachers and their scholars, mayors, aldermen and the sovereign people with their families, were present, having previously forwarded every variety of Christmas gifts for a general interchange.

☞ Letters received in this city from Capt. Pray, of the ship Prima Donna, state that on the 30th of Sept., while that vessel was off Cape Horn, on the passage from Callao to Martinque, she encountered a heavy gale, &c., and two young men of this city, Charles Henry Pray, son of the late Capt. Samuel Pray, and George Hackett, son of the late Geo. W. Hackett, Esq., were washed overboard and drowned.

STATE CONVENTION.

A Train of Cars will leave Portsmouth for Concord on Tuesday, Jan. 8, at 7 o'clock, A. M. returning in the afternoon in season to connect with the Boston and Maine Railroad for the East. Regular fare. J. P. MORSE.

Among the New Year's presents, do not forget those beautiful Stereoscopic Pictures of the London Co. at Mr. Shores' store. They are a treat which will be fresh through the whole year.

CITY ORGANIZATION. The services of the organization of the new City Government will take place at the Court House on Tuesday next, Jan. 1, at 10 o'clock, A. M.

PRESENTS.—We have only to refer to our advertising columns to show where suitable articles for presents can be found.

Governor Banks, of Massachusetts, has issued a proclamation in response to that of Pres. Buchanan, recommending Jan. 4, as a day of fasting and prayer, for the nation. Gov. E. commends its observance to the people of Massachusetts.

No State proclamation will be issued in New Hampshire.

Morning Chronicle.

A SCRAP OF HISTORY.—The Louisville, Kentucky, Journal, of Tuesday, alluding to the debate between Mr. Douglas and Mr. Mason of Va., on the Fugitive Slave Law, says:

Mr. Clay said to us at the house of a relative of his, in Louisville, that in his opinion Mr. Mason purposely made the Fugitive Slave Law offensive to the North in one or more of its features, his object being to bring about the defeat of the great compromise of 1850.

CONCENTRATED RATIONS.—A Parisian cook has introduced a new kind of concentrated food. A piece about the size of a visiting card, and as thin, when dissolved in hot water, yields a capital soup. 100,000 rations may be packed in a space nine feet nine inches square.

The weight of the horse rests on as many elastic springs as there are layers in his four feet—about 4000; and all this is contrived, not only for the easy conveyance of the horse's own body, but whatever burden may be laid on him.

THE WEEKLY CHRONICLE,

Containing the news of the week, at home and abroad, as published in the six previous issues of the Daily Chronicle,—is printed on *Friday* morning, and immediately delivered by our carriers to subscribers in the city, or sent by mail to any part of the State or the world.

As the Weekly Chronicle contains most of the matter from our "local" Daily columns, it will be found an attractive paper for natives of Portsmouth living abroad, and all others interested in our city.

Terms of subscription to the Weekly Chronicle, only $1 per year in advance—sent by carrier without extra charge, to any part of the city and vicinity; or by mail, postage free, to any part of Rockingham County. Direct letters, "Chronicle, Portsmouth, N. H."

Clothing. Clothing. Clothing!

Humphreys' Specific Homeopathic Remedies for the People

THE Remedies are carefully prepared under the direct supervision and inspection of Prof. HUMPHREYS, in order to meet that great and long realized want of the public, namely, remedies for all the more common and simple ailments of life.

A moment's reflection will show that a vast majority of diseases from which we suffer and die, at first manifest themselves as a simple chill, a mere cold, a slight diarrhœa, a pain in the side, or a headache, or hoarseness, at first easily cured and subdued, in time becomes a consumption, a fever, a dangerous dysentery, Croup or other disease, which all the powers of medicine fail to arrest.

Herein these remedies supply a great public want. Being on hand, simple, so you know at once what to take—pleasant, so as to cause no repugnance—safe, and hence dangerous to life, while the curative effects are positive and certain, they are taken, and at once the spell is broken and the danger allayed.

Experience has amply confirmed the use of these remedies for families and private persons, as being THE BEST IN USE, THE MOST SIMPLE AND CONVENIENT, THE MOST PERFECT, AND MOST RELIABLE.

Thousands are and have been using them for some five years past, in every section of the country, with almost universal success. All are in the highest terms of their simplicity and certainty, and among our hundreds of agents the uniform testimony is, that they give good satisfaction to their customers.

LIST OF
HUMPHREYS' SPECIFIC HOMEOPATHIC REMEDIES

No.		Price of Single Boxes—cents
1—	Cures Fever, Congestion, and Inflammation—Heat, Pain, Restlessness	25

New Photographic Establishment.

Having fitted and furnished in modern style, large, pleasant and airy rooms, the subscriber is prepared to furnish all who wish with Sun Pictures of every description, from the smallest Miniature to life-size Portraits. Photographs finished in India Ink, Water and Oil Colors, by the best artists in the country. Old Daguerreotypes, &c., copied, and improved.

The subscriber having had many years' experience, from the old Daguerreotype down to the present time, keeping abreast with every improvement, a success almost unprecedented has heretofore attended him; and by strict attention to business, and fair dealing he hopes to merit a share of public patronage.

All work from the establishment warranted to be of the first order, both as to finish and durability. Prices as low as in Boston, or any other place where first-class work is performed.

Having a large skylight, pictures can be taken late in the day, and equally as well in cloudy as in fair weather. The public are respectfully invited to call and examine specimens at **17 Pleasant Street**, opposite the New Custom House.

BLOOD FOOD

The attention of Invalids, Physicians, Clergymen, scientific men, and the public generally, is respectfully solicited to the merits of this chemical compound, composed of **Iron, Sulphur** and **Phosphorus,** and which is identical in its nature with the *Hematic Globule*, or *red blood.*—In all diseases accompanied with

DEBILITY,

pale countenance and nervous derangement, analyses of the blood show a deficiency of the red globules. Ruddy complexion and a rosy tint of the skin, is always indicative of health; while a pale, wax-like skin and countenance, which evinces a considerable deficiency of the red globules—accompanies diseased organism. Preparations of **Iron** have been given for the purpose of supplying the red globules, but we contend that **Iron** alone, **Sulpur** alone, or **Phosphorus** alone, will not meet the deficiency in every case, but that a judicious combination of *all* these elements is necessary to restore the blood to its normal standard. This point, now believed to be attained, has been reached in the **Blood Food**, and its discovery ranks as one of the most scientific and important of the age. Its effects in

CONSUMPTION

are to soften the cough, brace the nerves, strengthen the system, allay the prostrating night sweats, increase the physical and mental energy, enrich the blood by restoring the lacking red globules, increase the appetite, restore the color, and clothe the skeleton frame with flesh. The **Blood Food** will be found a specific in all *CHRONIC DISEASES of the THROAT or LUNGS*, such as *Asthma, Bronchitis, Coughs, &c.* Public speakers and singers will find it of great utility in clearing and strengthening the vocal organs. In *Dyspepsia, Liver Complaint, Dropsy, Erysipelas, Scrofula, Gravel, St. Vitus' Dance, Fever and Ague, &c.*, its efficacy is marked and instantaneous. In all cases of disease, however, are the beneficial effects of this remedy so conspicuous as in those harrassing

FEMALE COMPLAINTS

to which the gentler sex are liable, and which tend towards Consumption, such as suppressed or difficult *Menstruation, Green Sickness, Whites, &c.*, especially when these complaints are accompanied with paleness, a dingy hue or pallor of the skin, depression of spirits, debility, palpitation and want of appetite, and nervous prostration. We have the utmost confidence in recommending the **Blood Food** to all who may be conscious of a loss of vitality or energy, and to those whose mental or physical powers are used up through *over-use*, either of the mind or body, and we claim it our duty to say that in all cases of *Weakness and Emaciation*, with or without Hectic Fever, *Gravel or Bladder*, this preparation has a claim upon the attention of sufferers which cannot be over-estimated. Aches and Pains, Delirium Tremens, Insanity, Delirium Tremens, Cold Sweats, Wind in the Stomach, or Pains in the Bowels, Headache, Drowsiness, Kidney Complaints, Loss of Memory, Delirium Tremens, Intemperance. It Stimulates, Exhilarates, Invigorates, but will not Intoxicate or Stupefy.

As a Medicine, it is quick and effectual, curing the most aggravated cases of Dyspepsia, Liver, Kidney Complaints, and all other derangements of the Stomach and Bowels, in a speedy manner.

It will restore and revive the most melancholy and drooping spirits, and restore the weak, nervous and sickly to health, strength and vigor.

Persons who, from the injudicious use of liquors, have become dejected, and their nervous systems shattered, constitutions broken down, and subject to that horrible curse to humanity, the *Delirium Tremens*, will, almost immediately, feel the happy and invigorating efficacy of Dr. Ham's Invigorating Spirit.

What it will do!

DOSE.—1 wine glass full as often as necessary.

One dose will remove all Bad Spirits.

One dose will cure Heartburn.

Three doses will cure Indigestion.

One dose will give a good appetite.

One dose will stop the distressing pains of Dyspepsia.

One dose will remove the distressing and disagreeable effects of Wind or Flatulence, and as soon as the Stomach receives the Invigorating Spirit, this distressing load and all painful feelings will be removed.

One dose will remove the most distressing pains of Colic, either in the stomach or bowels.

A few doses will remove all obstructions in the Kidney, Bladder or Urinary Organs.

Persons who are seriously afflicted with any Kidney Complaints, are assured speedy relief by a dose or two, and a radical cure by the use of one or two bottles.

NIGHTLY DISSIPATION.

Personswho, from dissipating too much over night, and feel the evil effects of poisonous liquors, in violent headaches, sickness at stomach and giddiness &c., will find one dose will remove all bad feelings.

Ladies of weak and sickly constitutions, should take the Invigorating Spirit three times a day; it will make them strong, healthy, and happy, remove all obstructions and irregularities from the menstruation, and restore the bloom of health and beauty to the careworn face.

During pregnancy it will be found an invaluable medicine to remove disagreeable sensations at the stomach.

All the proprietor asks, is a trial, and to induce this, he has put up the Invigorating Spirit in pint bottles, at 50 cents, qts $1.

BININGER'S OLD KENTUCKY BOURBON "1849 RESERVE"

The *established popularity* of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky Whiskey.

Being distilled in 1848, and manufactured expressly for us with great care, it can be relied upon as *a strictly pure* stimulant, and peculiarly effective for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency to *recreate* and *strengthen*; while age having contributed its genial charm, and enriched it with a delicious flavor and an oily body, it affords a pleasant incentive to the preservation or recovery of health, through the agreeable medium of a well pleased palate.

Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO.,

SEVEN YEARS!

The seven years of unrivalled success attending the
COSMOPOLITAN
Art Association,
have made it a household word throughout every quarter of our country.

Under the auspices of this popular Institution, over *three hundred thousand homes* have learned to appreciate—by beautiful works of art on their walls, and choice literature on their tables—the great benefits derived from becoming a subscriber.

Subscriptions are now being received in a ratio unparalleled by that of any previous year.

TERMS OF SUBSCRIPTION.

Any person can become a member by subscribing *three dollars*, for which sum they will receive

1st.—The large and superb steel engraving, 30 x 38 inches, entitled

Falstaff Mustering His Recruits,

2d.—One copy, one year, of that elegantly illustrated magazine, the

"COSMOPOLITAN ART JOURNAL."

3d.—For admissions, during the season, to

"The Gallery of Paintings, 548 Broadway, New York."

In addition to the above benefits, there will be given to subscribers, as gratuitous premiums, over

Five Hundred Beautiful Works of Art,

comprising valuable paintings, marbles, parians, outlines, &c., forming a truly national benefit.

THE SPECIAL ENGRAVING, which every subscriber will receive, entitled "FALSTAFF MUSTERING HIS RECRUITS," is one of the most beautiful and popular ever in de in this country. It is done on steel, in *fine line and stipple*, and is printed on heavy plate paper, 30 by 38 inches, making a most choice ornament, suitable for the walls of either the library, parlor or office. Its subject is the celebrated scene of Sir John Falstaff receiving in Justice Shallow's office the recruits which had been gathered for his "Ragged Regiment." It could not be furnished by the trade for less than five dollars.

The *Art Journal* is too well known to the whole country to need commendation. It is a magnificently illustrated magazine of Art, containing Essays, Stories, Poems, Gossip, &c., by the very best writers in America.

The Engraving is sent to any "art of the country by mail, with safety, being packed in a cylinder, postage prepaid.

Subscriptions will be received until the Evening of January 31, 1861, at which time the books will close, and the premiums be given to subscribers.

No person is restricted to a single subscription. Those remitting $15, are entitled to five memberships, and one extra Engraving for their trouble.

Subscriptions from California, the Canadas, and all Foreign Countries, must be $3.50 instead of $3, in order to defray extra postage, &c.

For further particulars send for a copy of the elegantly illustrated *Art Journal*, pronounced *the handsomest magazine in America*. It contains Catalogue of Premiums, and numerous superb engravings. Regular price, 50 cts. per number.—Specimen copies, however, will be sent to those wishing to subscribe, on receipt of 18 cents, in stamps or coin.

Address T. L. DERBY, Actuary C. A. A., 546 Broadway, New York.

N. B.—Subscriptions received received and forwarded by

FRANK W. MILLER,
Agent for Portsmouth and vicinity,
Where specimen Engravings and Art Journal can be seen.

GARDINER'S
Rheumatic and Neuralgia Compound.
A sure cure for Rheumatism and Neuralgia in its worst forms.

The undersigned hereby certify that they have used "Gardiner's Rheumatic and Neuralgia Compound" for the cure of Rheumatism and Neuralgia, and have in every case found immediate and permanent relief. We have full confidence in its healing qualities, and would recommend it to all who are afflicted with those harrassing diseases, as one of the most valuable medicines ever offered to the public.

S. ALCOCK, Jr., 20 South Market street, Boston; W. H. ALLEN, Boston; HENRY A. FULLER, 18 South Market street, Boston; SML. WALES, Jr., City Hotel, Boston; GEORGE H. PLUMMER, 1 Maverick Square, East Boston; HENRY D. GARDINER, Webster street, East Boston; ABRAM WEEKS, Webster street, Boston; Capt. CHAS. G. DOLLIVER, East Boston.

The best medicine for the disease I ever saw.—C. A. SMITH, No. 1 Old State House, Boston.

Have been afflicted with Rheumatism in its worst form and was entirely cured by the use of one bottle.—A. W. BRYER, Matthews' Building, Commercial street, Boston.

Gardner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

After suffering with Rheumatism for twenty years, I was entirely cured by the use of two bottles of Gardiner's Rheumatic and Neuralgia Compound.—NORMAN T. AYERS, 75 Franklin st., Boston.

The Rheumatic and Neuralgia Compound has been taken by hundreds of people for Scrofulous Humors, with great benefit. It may be given to children with perfect safety.

At wholesale by MACY & JENKINS, 67 Liberty st., New York; M. S. BURR & CO., 39 Tremont street, Boston.

Principal Depot—87 Kilby st., Boston.

None genuine unless signed by
CHAS. F. GARDINER.

Sold in Portsmouth by PRESTON, THACHER and KIMBALL; and by Apothecaries generally throughout the country. aug1 1yeod W

PROF. WOOD'S
RESTORATIVE CORDIAL
—AND—
BLOOD RENOVATOR,

Is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, refreshes and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted *as to act in perfect accordance with the laws of nature, and hence soothe this weakest stomach*, and cure in the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet is never followed by any reaction or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical science, and also by all who have suffered from debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous to which poor humanity is constantly liable. Such, for example, as the following: Consumption, Bronchitis, Indigestion, Dyspepsia, Loss of Appetite, Faintness, Nervous Irritability, Neuralgia, Palpitation of the Heart, Melancholy, Hypochondria, Night Sweats, Languor, Giddiness, and all that class of cases, so fearfully fatal if unattended to in time, called *Female Weaknesses and Irregularities.* Also Liver Derangements or Torpidity, and Liver Complaints Diseases of the Kidneys, Scalding or Inconvenience of the Urine, or any general derangement of the Urinary Organs, Pain in the Back, Side, and between the Shoulders, predisposition to Slight Colds, Hacking and Continued Cough, Emaciation, Difficulty of Breathing, and indeed we might enumerate many more still, but we have space only to say, it will not only cure the debility following Chills and Fever, but prevent all attacks from Miasmatic Influences, and cure the diseases at once, if already attacked. And as it acts upon the biliary system, arousing the Liver to action, promoting, in fact, all the excretions and secretions of the system, it will infallibly prevent any deleterious consequences following upon change of climate and water; hence all travellers should take a bottle with them, and all should take a table-spoonful at least before eating. As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits, students, ministers and literary men. And all who are not accustomed to much out-door exercise should always use it. If they will, they will find an agreeable, pleasant, and efficient remedy against those ills which rob them of their beauty; for beauty cannot exist without health, and health cannot exist while the above irregularities continue. Then, again, the Cordial is a perfect Mother's Relief. Taken a month or two before the final trial, she will pass the dreadful period in perfect ease and safety. *There is no mistake about it—this Cordial is all we claim it.—Mothers, try it!* And to you we appeal to detect the illness or ill health of any of your daughters, *before it is too late*, but also *your sons and husbands, for while the former, from false delicacy, often go down to a premature grave* rather than let their condition be known; in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never-failing affection will unerringly point you to Prof. Wood's Restorative Cordial and Blood Renovator as the remedy which should always be on hand in time of need.

O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market street, St. Louis, Mo., and sold by all good Druggists. Price $1 per bottle.

Agent for Portsmouth, J. H. THACHER, corner State and Pleasant streets, and No. 12 Market Square. D eow ly

ATWOOD'S
QUININE TONIC BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonics* and *stomachics*, and cannot fail to meet the wants of the debilitated.

It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

One of the very best Physicians in Boston has said "*that it is the best preparation of Bitters that has ever been offered to the public.*"

Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

For further particulars reference is made to the printed circulars.

—FOR SALE BY—
CHARLES H. ATWOOD
19 CENTRAL STREET, BOSTON,
and by Druggists everywhere.

For sale in Portsmouth, by W. B. PRESTON and JOS. H. THACHER.
Boston, Sept 1, 1860.—e3 3awly

Morning Chronicle.

Portsmouth, N. H.

MONDAY, DECEMBER 31, 1860.

A NOTE AND QUERY.—We cut the following from an exchange paper:

Miss Lizzie Doten, by and through whom Poe is supposed to have sent from the other sphere the remarkable poem lately published, has made a statement about it which seems frank and truthful. She says that Poe's "Raven" is the only poem of his she ever read, and that was many years ago, and that she recited the recent poem as it was impressed on her mind at the moment. The reporter not having been able to copy it all as she spoke it, she went into a trance the next day and repeated it. As Miss Doten cannot make such a poem, and assuming that she tells the truth about its production, what explanation can the philosophers give of the phenomenon?

Pshaw! pshaw! says Uncle Toby; Miss Lizzie Doten wrote very fair poetry, and prose too, a dozen years ago, before she ever saw the ghost of Edgar Poe. Moreover she has, or had, a good memory and a strong poetic turn of mind. There may be something miraculous about the case; but if it be a miracle, it is gratuitous and uncalled for. She takes to poetry as a duck waddles into the water, very naturally.

MR. CUSHING IN SOUTH CAROLINA.—Mr. Cushing's stay in South Carolina, while on his recent mission there, was surprisingly short. A Washington correspondent says he found the Palmetto State too hot to hold him. About the time that his proposed visit was announced in the press, the Charleston Mercury had an article on the position of South Carolina, containing the following significant passage:

She wants no advice at this time, and particularly from those who come here to save the Union. With all due courtesy, it is disagreeable and impertinent. We have given up the Union, and are disposed to take care of ourselves. We believe we can do it, and intend to try. Let us alone, Union-savers and friends of a hostile government. We do not mean to be balked by clap-trap expedients for postponement, either on account of Mr. Buchanan's convenience or to suit the plans of Southern submissionists in other States. A word to the wise is sufficient.

☞ The Washington and Charleston items by Saturday morning's papers, were not near so fiery as they were on Friday evening. The story about the Charleston forts appears to be a big boo for a small colt—and the famous Charleston commissioners at Washington are said to ask the President to order Maj. Anderson back to Fort Moultrie! This is a very wise move in them, and perhaps the old gentleman may do it!

But seriously, there must be some old woman at the head of affairs in Charleston, as well as in Washington. The thing is getting too ridiculous for Fast Day.

A CASE IN POINT.—The papers which daily advocate the repeal of the Personal Liberty law, publish the case of an orphan girl taken from an asylum in New York, by a villain who dyed her hair and yellowed her face, and who had nearly succeeded in enslaving her when his scheme was overthrown. Suppose he had succeeded, and after a few months, or days even, she had fled to the North, what security could she have had for the recovery of her liberty, except by just such a law? One such case happening in a century, would be a sufficient vindication of the policy of a law of the kind; not a particle less so than the vindication of national sovereignty by Capt. Ingraham, in rescuing Martin Koszta from the power of Austria.—*Atlas.*

FEAR OF INSURRECTION.—The Washington correspondent of the Philadelphia Press says a Southern lady told him on Wednesday last, that every letter from the South from her family and friends, was filled with apprehensions of servile insurrection, and that, having been accustomed to Washington society for years, she dreaded going back to her own home.

☞ The Lewiston Falls (Me.) Journal says that while a highly respectable young man of that town was treating a couple of young ladies to a Christmas sleigh-ride, in turning a corner at a rapid rate, the sleigh tipped over on one side, so that one of the ladies rolled out into a snowdrift. The young gentleman, however, was so obfuscated that he did not discover the loss of any of his precious freight until he had driven half a mile from the spot.

☞ John Dearborn of Canterbury, N. H., section hand on the Boston and Montreal Railroad, was killed on Monday afternoon at Wiers Bridge by the cars. He was found under the bridge upon the ice, badly mutilated, after the down train had passed. He was about thirty years of age, and leaves a wife.

☞ A servant girl of only twelve years, in New York city, stole $140 from the family, and had laid it all out in toys, silks, furs and jewelry for Christmas presents to her friends, when she was arrested on Monday last.

☞ Letters from Rome say that more than two millions of ducats have been already received there as the proceeds of the collection of Peter's Pence.

☞ Gen. Harney, who was sent to Kansas to "wipe out" Montgomery and his band, has returned to the Headquarters of the Department of the West, St. Louis, from which place he reports to the War Department that he could not find Montgomery or any one else to arrest. Desperately chagrined that he found nobody to shoot or hang, Gen. Harney has formed a very unfavorable opinion of Montgomery and his band, which we hope they will outlive, and of the alleged distress and suffering in Kansas, which we hope will have no effect upon the charitable contributions of the benevolent in all parts of the country.

The General says:—

I think the best and cheapest way to catch Montgomery and his party will be to furnish the Governor with funds, and let him do it in his own way.

Unluckily, there happens to be no Governor there now; funds are scarce; and Montgomery seems hard to catch, especially when you can't find him.

CHRISTMAS CAROLS, a new feature on Christmas Eve, were sung before the offices of the Boston newspapers by the choir of the Church of the Advent, on Monday night. The patrons and friends of a school at the south end, which is supported by the Rev. E. E. Hale's society, were serenaded by some of the scholars on Monday night. Thus one by one of the Christmas customs of the old world are adopted in this country.

The decorations of the King's Chapel deserve more than a passing notice. At the entrance of the broad aisle a beautiful arch of spruce, supported on either side by trees, formed an arbor. Evergreen, in artistic and tasteful wreaths, adorned the walls and ceiling. It was trained upon the pilasters, entwined in the volutes of the capitals, gracefully festooned and garlanded upon the various prominences of the interior, and carried along the blending of the arches.—The effect was that of a bower of living green. We doubt if the beauty and taste of this artistic church ornamentation has ever been exceeded in our city. As we listened to the joyful notes of the choir, as they sang "Hark tho glad sounds," &c., we almost fancied the echoes of the voices of the staid and sober worshippers of a former generation were responding along the walls and arches of this ancient place of worship.

The sermon by Rev. Dr. Peabody of Cambridge was a production of rare power, illustrating the permanent character and elastic energy of Christianity as a system of religion.—*Transcript.*

BURNED TO DEATH.—Deborah Parker of Durham, an old lady about 70 years of age, who lived alone in a small cottage, was burned to death a short time since. Late at night the neighbors discovered flames issuing from her house, and on hurrying to the spot they found the building all on fire, and through the flames the old lady was seen sitting in her chair—probably dead, at least beyond assistance. The building was entirely consumed, and the smouldering remains of the old lady were found in the ruins the next morning.—*Lewiston Falls (Me.) Journal.*

☞ The Austrian Consul at Charleston, S. C., having assured some of the leading secoders that the Emperor of Austria would acknowledge the independence of South Carolina, the Austrian Charge d'Affaires, Chevalier Hulseman, has immediately informed the gentleman that his Majesty will try hereafter to get along without his valuable services.

A BAD EXHIBIT.—The N. Y. Daybook says the late failure of Edward Lambert & Co., silk goods, is one of the worst recorded in years. The debts of the concern are said to foot up over $900,000, while the entire amount of assets are less than $500,000, and they make out over $400,000 confidential paper, which all their assets will not begin, in times like the present, to pay, giving the rest of their creditors not a dime.

PRICE OF NEGROES.—The Washington Republican has the following concerning the depreciation of negro stock, consequent upon the secession troubles:—

"A *'prime boy'* worth $2000 in flush times, was offered thirty days ago in this city at $1000, and again on Friday last at $500, without a purchaser. A widow lady in this vicinity, sold last week for $50, a *'boy'* about fifty-five years old, for whom she was receiving a hire of $8 per month."

☞ Dr. Livingston writes from Senna to the Bishop of Oxford, that the whole region bathed by the lakes, in the interior of Affica, is a cotton producing one of the first order.

☞ A middle-aged colored woman named Van Allen, died of cold and hunger in Syracuse, on Saturday night, in a miserable shanty which stood a couple of feet above the ground on stakes, and offered hardly any protection from the atmosphere, had no stove and very little furniture.

☞ Vermont will retain her three members of Congress under the new apportionment—the third through a large fraction—which is contrary to expectation.

☞ The Charleston papers publish the proceedings of Congress and dispatches from the North, under the head of "Foreign News," by way of a harmless joke.

☞ The badges which the secessionists are wearing about Washington and the South are made in New England. Our Southern friends find it more difficult than they supposed to be rid of their dependence upon the hated abolitionists of the North.

For the Chronicle.

A GREAT NATION IN PEACE.—A great nation, under a confederacy of eighteen States, more soon to be added, with a population of twenty millions,—by the natural increase, may be estimated in a quarter of a century at forty millions, exclusive of foreign immigration,—whose resources, products and wealth have been so rapidly augmented as far to exceed all former calculation,—whose metallic currency during the last thirty years has increased ten-fold, at least, giving a safer basis to the paper currency,—whose advance in the arts,sciences, and literature, give her a proud eminence in the literary world,—whose commerce, protected by an adequate naval force, extends to the remotest nations of the earth, —whose manufactures, more than sufficient for domestic supply, are exported to and vended in foreign markets,—whose agricultural, mechanical, and indeed all industrial pursuits, are fostered by the genius of free institutions, holding labor in honor,—whose government secures to all classes their natural and equal rights and privileges,—whose moral, literary, and religious institutions are the essential safeguards of Liberty,—whose patriotic devotion to the sacred cause of freedom is undoubted. Such a nation, at peace at home, with amicable relations abroad, presents a sublime spectacle! Indeed, she might be compared to a luminous pyramid rising to the skies, shedding light upon the benighted nations of the earth:

"These happy millions their own lands possess,
No tyrant awes them, nor do lords oppress."

We might allude to an adjoining nation with a white population of seven millions, and four millions of slaves, whose habits, manners, morals, religious and political institutions are almost a reverse—:whose idolized institution is the cause, not only of human degradation and the squalid misery which everywhere within its pestilential atmosphere, meets the eye, but of the sterility of the soil itself. Labor is held to be disreputable. No common or free schools for intellectual culture. No equal rights for the down-trodden, ignorant, and poverty-stricken white race. Slavery is declared to be sanctioned by the Word of God—to be the corner-stone of the temple of Freedom—the substratum of society.

How can principles so heterogenous and discordant ever be amalgamated in or adopted by a free people. Slavery was the chief cause of the down-fall of the ancient republics. Shall we not take warning? Its corrupting influences, like the silent stream which gradually undermines the majestic oak that could have defied the storms of heaven, is stealthfully but surely tending to remove the foundation-works of our free government. Why should we covet a Union attended with such inevitable results? The prospect before us is still auspicious, and if left to the peaceful enjoyment of our innumerable blessings, a united voice will proclaim that

"The star-spangled banner forever shall wave
O'er the land of the free, and the home of the brave."

A CITIZEN.

CHARLESTON, Dec. 28.—Capt. Humphrey still holds the Arsenal. Castle Pinckney and Fort Moultrie are occupied by the State troops, under the instructions of the Governor to hold peaceable possession of these forts for the protection of the Government property. The two places had only twelve men, who peaceable surrendered. The excitement is subsiding.

ATCHISON, Dec. 28.—For the week ending the 26th, 209,000 pounds of wheat, &c., have been received by the Relief Committee for the Kansas sufferers, and also several boxes of clothing. The amount distributed up to that time was 1,577,000 pounds, which has been sent to twenty-one counties.

The Bangor Union has cut off its regular telegraphic dispatches, owing to their great expenses, which, the editor says, has consumed "all the profits of his daily and weekly papers." The truth is, the people who are so anxious to learn the early news, do not sufficiently realize the cost of obtaining it, and the severe draft it makes upon the finances of those who publish the dispatches.—*Bath Times.*

☞ Of army officers, including lieutenants, there are 467 from the South and 579 from the North; and of navy officers down to and including gunners, there are 460 from the South and 712 from the North.

☞ A workman of Paris has just discovered a method of preserving gas and water pipes from rust, by enveloping them in a thick coating of clay. Such is the importance of the discovery, that the city of Paris has granted the man a pension for life.

☞ Thomas Cunningham of Lowell, who was severely burned by the bursting of a can of Kerosene on Tuesday evening of last week, died on Thursday in consequence of his injuries. He was twenty-six years of age, and leaves a wife and three young children.

☞ The resolves of the Legislature of New Hampshire, declaring the sentiments of Jackson's proclamation against the secessionists of 1832 to meet the "entire approbation" of the members, are signed by "Franklin Pierce, Speaker."

The Peterborough Transcript says the mills in that town are to run but eight hours a day.—*Union Democrat.*

We said no such thing.—*Peterborough Transcript.*

WASHINGTON, Dec. 28.—The Cabinet continued in session nearly six hours to-day, and adjourned until to-morrow without coming to a conclusion with regard to the South Carolina affairs.

Major Anderson's proceeding is generally commended for this, among other reasons, that while the comparative weakness of Fort Moultrie might provoke an attack from the mob, the impregnability of Fort Sumter places it beyond such a contingency, as it can be reduced only by a regular protracted seige, thus avoiding immediate collision.

The Senate Select Committee considered Mr. Douglas' proposition to-day. Also Mr. Bigler's proposition for extending the compromise line to the Pacific, with eight territorial governments north and four south of the line, and when any one of them shall have sufficient population to entitle it to a Representative in Congress, it shall be admitted by proclamation of the President, thus removing the question from Congress. Slavery is interdicted north and tolerated south of the line. The Committee also considered the proposition of Mr. Rice, establishing a similar line to admit all the territory north of it as one free State, to be called Washington, and all south of it one slave State to be called Jefferson. All the propositions were rejected. The Committee will probably soon report unable to agree.

The House Committee considered the proposition of Mr. Adams of Massachusetts, prohibiting Congress from passing laws intemeddling with slavery in the States where it exists. It was agreed to by a nearly unanimous vote.

WASHINGTON, Dec. 28.—It is said that the South Carolina Commissioners, in view of the alleged stipulations on the part of the President, that the garrisons at Charleston should not be augmented nor the military status of the posts changed, requested the President to inform them whether Major Anderson's movement was by his or the War Department's order, Mr. Buchanan responded negatively, adding that Major Anderson acted on his own authority.—The Commissioners then requested the President to remand Major Anderson to Fort Moultrie, but on this point the Cabinet had not come to a conclusion when it adjourned.

RICHMOND, VA., Dec. 28.—A large meeting was held last night, at which resolutions were adopted approving of the call for a State Convention to adopt measures to secure the rights of the State in the Confederacy or out of it; reprobating coercion, and deprecating the seizure of forts by seceding States before the formation of a new Confederacy.

THE GOVERNMENT DEFALCATION.—*New York, Dec.* 28.—In the Circuit Court to-day an injunction was issued against J. B. Simpson, Vice President of the Pony Express Co., Thompson & Brothers, Clark, Dodge & Co., Goddard Bailey, Richard Schell, and Russell, Majors & Co., restraining them from parting with Indian trust bonds in their possession.

RALEIGH, N. C., Dec. 28.—Most of the members of the Legislature have gone home. Various meetings have been held in different counties, at which a strong Union sentiment prevailed.

CHARLESTON, Dec. 28.—Florida advices state that the elections show that a majority of the Convention will be for immediate secession.

FAST PROCLAIMED.—*Albany, N. Y., Dec.* 28.—Governor Morgan in accordance with the proclamation of the President has set apart the 4th of January as a day for fasting and prayer.

LOUISVILLE, KY., Dec. 28.—At a large convention of workingmen last night, it was resolved to call a National Workingmen's Convention, to discountenance ultra politicians South or North.

WILMINGTON, DEL., Dec. 28.—Twenty-one guns were fired here to-day in honor of Major Anderson.

Special Notices.

Rehumatism! Rheumatism!!

It is well known that bathings, ointments, and external applications, only drive rheumatism from one part of the system to another; and sometimes with fatal results. HUMPHREY'S SPECIFIC HOMEOPATHIC RHEUMATIC PILLS, often cure the worst and most protracted cases. This simple medicated SUGAR PILL will do more to eradicate the disease, than a quantities of crude medicines, and has cured when all other means have failed.

Price, 25 cents per box, with directions. Six boxes $1.

Sent by mail or express, free of charge, on receipt of the price.

Address, DR. F. HUMPHREYS & CO., 562 Broadway, New York.

Sold in Portsmouth by THACHER.

See advertisement in another column.

☞ We call the attention of our readers to an article advertised in another column, called BLOOD FOOD. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is *food for the blood*, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then, who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or ailment, take of this BLOOD FOOD and be restored to health.

Bryan's Pulmonic Wafers!

THE MOST EFFECTUAL REMEDY FOR COUGHS, COLDS, ASTHMAS, BRONCHITIS, CONSUMPTION, &c.

The most solemn assurance is given that there is not a fact stated with respect to the powers of this invaluable remedy, which is not fully established in every class of cases for which it is recommended, by a mass of evidence which must carry conviction to the most skeptical mind; and the medicine, though thus highly effectual in its remedial character, is in the utmost degree innocent in its composition, and may be taken by the most delicate. It invariably gives relief within TEN MINUTES in all cases; and a few days' perseverance will be sufficient to effect a cure in all recent attacks of Coughs or Cold. They are *pleasant to the taste*, the active principle of the herbs being combined with sugar in the least objectionable form, and any child will readily take them.

Price 25 cents per box. Sold by W. R. PRESTON and all druggists. nov28 dawâm

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of

SIR J. CLARKE, M. D.,

Physician Extraordinary to the Queen.

The Proprietors hold hundreds of testimonials to the virtues of SIR JAMES CLARKE'S FEMALE PILLS, but their peculiar nature prevents publication; but certain it is that they are the only sure and safe remedy in use for all those painful and dangerous diseases peculiar to the female constitution. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed. *They never fail in moderate excess and to remove obstructions*, from whatever cause. They are purely vegetable, and will not injure the most delicate constitution.—For particulars, send for a pamphlet to the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, by return mail. nov28dawâm

Sold by W. R. PRESTON and all druggists.

THE OXYGENATED BITTERS.

The qualities of this medicine have placed it up on an imperishable foundation. In destroying disease, and inducing health, it has no paralell.

For the following complaints these Bitters are a Specific: viz—*Dyspepsia, or Indigestion, Heartburn, Acidity, Costiveness, Loss of Appetite, Headache, and General Debility.*

In many sections of our country this preparation is extensively used by physicians in their practice, and it seems to have restored many to health who were apparently beyond the reach of the healing art.

From Mr. Jonathan Chapin.

WALPOLE, N. H., May 18, 1860.

Messrs. S. W. Fowle & Co.—Gentlemen:—I consider the OXYGENATED BITTERS a valuable medical compound, combining both high medical skill and conscientious honesty in the person by whom they were compounded. I have used them for *Dyspepsia*, with very good effect, and consider them a reliable remedy for that complaint. In all cases where I have known of their being used, the result has been highly in their favor. I can conscientiously recommend the OXYGENATED BITTERS to all sufferers from the diseases of a dyspeptic nature Yours truly,

JONATHAN CHAPIN.

From Mr. C. A. Shaw.

BIDDEFORD, Me., Aug. 7, 1860.

Messrs. S. W. Fowle & Co.—Gents:—Disclaiming any intention of puffing a patent medicine, I have to assure you of my high regard for the OXYGENATED BITTERS, the beneficial effects of which I have witnessed in my own family, and I do not hesitate to pronounce them worthy the entire confidence of the community, as a remedy for that distressing disease, *Dyspepsia*, and a medicine whose merits will guarantee to it a steady sale. Yours, C. A. SHAW.

Local.

☞ The annual organization of the City Government will take place to-morrow.—There is as there has been in other years, some talk about changing the City Clerk, or his assistant the Messenger. It is somewhat doubtful whether either of them could be changed for the better. But there is no doubt at all, that the city and town have been largely benefitted by retaining so long and constantly, the experience and fidelity of the venerable clerk.

☞ The new, large, and very convenient Map of Rockingham County, by Smith & Coffin, is now being delivered to subscribers in Portsmouth—after long delay, caused by a fire which ruined the plate. It has received valuable improvements in being renewed.

☞ Harper for January is for sale by J. H. Locke—and all the other good magazines and papers. J. J. Dyer, Boston, general agent.

CLOSE OF THE YEAR.—There will be services appropriate to the occasion, this evening, at the Stone Church, commencing at half past seven o'clock.

☞ We are frequently under obligations to Wm. H. Brewster, Esq., of the Boston Traveller, for late copies of that paper, often of much service to us. And we are also not less indebted to Conductor Philbrick and other friends, for prompt delivery of the same—without which, they would be of little value.

THE RULING PASSION.—*Messrs. Editors*:—I must tell you of a cunning saying of our little three-year older. Admiring relations send brilliant sayings of the juveniles to Harper, the Little Pilgrim, &c.;—why not to the Chronicle?

She went to church for the first time, Christmas; and when the organ sent forth its peal, she sang with the rest, with all the strength of her little voice. When she went home, her mamma asked her how she liked. In the most plaintive tones, she said, "The minister did not say a word about my new boots!"

☞ A singular case of death occurred last week at East Machias. A son of Mr. James Munson, about eleven years old, skated into the open water near the Whittemore wharf, and perished. The little fellow swam across the open water and back again, and his comrades did their best to reach him, but without avail. The weather being very cold he soon became exhausted, and floated upon the water, not sinking at all. Every effort was made to resuscitate him, but to no purpose. He died, doubtless, of the chill of the water and air.

SUICIDE.—On Thursday afternoon, Jas. Forren, living in Portland, went to his house about 2 o'clock P. M., intoxicated, and ordered his wife out doors. He then, it appears, took a vial of laudauum, and drank about an ounce from it. After his wife discovered his situation, two physicians were called, but they did not use the stomach pump, and on Friday he died. Coroner Hall was called, but on learning the above facts, did not deem it necessary to hold an inquest.

WASHINGTON, Dec. 20.—(Special dispatch to the Boston Journal.)—The action at the meeting of the Representatives from the border slave States, last night, has had an excellent effect, and will strengthen the conservative sentiment in Virginia and Maryland, now of vital importance.

The Cabinet is in secession, discussing the demand of the South Carolina commissioners for Major Anderson's recall or censure.

(To the Associated Press.)—A caucus of the members of Congress from the border slave States was held last evening. Several propositions and resolutions were presented, which were referred to a committee of one from each State. Fourteen States were represented in the caucus.

At the Augusta Bridge, under its new management, a novel mode of transit for winter teams has been adopted. A track is laid the entire length of one carriage-way, and a large platform placed thereon, so constructed that a loaded sled can be driven upon it, and the whole easily drawn over. This saves labor to the teamster and wear and tear to the bridge. The toll by the car is eight cents upon teams of all description.—*Portland Adv.*

RALPH FARNHAM.—The death of this revolutionary patriot, it appeared by the autopsy of Dr. Reynolds of Milton and Dr. Parker of Lebanon, was caused by dropsy on the chest. Four pounds of water was taken from its cavity. The internal organs were perfectly healty.

☞ A special dispatch from Charleston, dated Baltimore, Dec. 29, says:

The mechanics at Fort Sumter have refused to bear arms, and Major Anderson has discharged them.

Another from Washington of the same date, says:

A caucus of the members of Congress from the border Slave States was held last evening. Several propositions and resolutions were presented, which were referred to a committee of one from each State.—14 States were represented in the caucus.

☞ The palm leaf works of Messrs. Hills at Amherst, have been suspended for the present.

A CENTENARIAN, ALMOST.—There is now living in the adjoining town of Tewksbury, not quite two miles from this city, an old lady named Slane, who is nearly 100 years old. She was born in Ireland, in 1761. In company with her daughter she occupies a small house, and shey support themselves by cultivating a small patch of ground adjoining the house, doing washing for their neighbors, etc. For two or three weeks past the daughter has been afflicted with a felon, which has prevented her from doing much work. The old lady has milked the cow, done up the chores, and assisted about the housework generally, without any apparent fatigue. Last fall she dug with her own hands five bushels of potatoes. She is hale and hearty, though her appearance indicates extreme old age. She bids fair to live for a number of years.—*Lowell News.*

Life has few charms for the Dyspeptic, which is not to be wondered at, when we take into account the amount of bodily suffering which he endures. By use of the *Oxygenated Bitters*, the picture is reversed and the bright side of life appears.

American and Foreign Patents.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, Under the act of 1837.

76 STATE, OPPOSITE KILBY ST., BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made ON TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1860. **R. H. EDDY.**

TO THE LADIES.

SCOVELL & GOODELL'S

SEWING MACHINES.

We beg your indulgence to the attentive perusal of the following:

ANOTHER NEW STOVE

THE MODEL COOK

FOR WOOD OR COAL,

MADE BY

THE BARSTOW STOVE COMPANY

Of Providence, R. I.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking giving an oven nearly 3 ft. long! or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! The advantages of this arrangement over that adopted for roasting in the Stewart and other stoves, by extending the oven, with a tin roaster in front of the fire, are obvious, yis:

1st. This permanent extension of the stove costs no more than the temporary extension by a tin roaster, while this is the most durable, tasteful and useful.

2d. As the flues of the stove extend over and under the entire size of the oven, it is more easily and surely heated than a tin roaster, which receives no heat except what it borrows from the baking oven.

3d. By this arrangement the processes of roasting and baking are entirely separated, while by the others they are carried on together, the fumes of both being intermingled.

4th. By this arrangement the *roasting oven can be* attached to the baking oven *in a single* moment of time, when occasion requires; or it can be used for a hot closet when not required for baking or roasting.

5th. By this extension an additional boiler hole and other room is gained on the top of the stove, while, at the same time the stove occupies no more room on the floor.

John Trundy, Esq., one of our most practical and scientific mechanics, who has had large experience in the construction of stove patterns in years past, and has for many years been using one of the Stewart Stoves, has purchased one of the MODEL COOKS, and after a fair trial pronounces it far superior to the Stewart or any stove he has ever seen, for economy, convenience and dispatch. We might also refer to several other parties who are using the stove, and who award it the very highest praise.

The MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be *the* stove for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is wanted.

We have nought to say against any other stove, believing that a man can sell his own goods without depreciating his neighbor's; but this we do say, that we honestly believe this is the *best stove that can be found in the world*; and what is more, we think others will agree with us after a trial of it. We invite any one to examine the stove, whether they wish to purchase or not.

For sale, with a great variety of

Furnaces, Ranges, Cooking, Office and Parlor Stoves; Coal Hods, Sifters, Funnel, Stove-Repairing Pieces, Parlor Grates, Etc.

BACHMAN & CO.

Morning Chronicle.

ONE CENT REWARD!—Whereas, my daughter, South Carolina, has seen fit to leave the care and protection of my house, and has gone off in company with a tribe of colored folks, this is to caution the public against harboring or trusting her on my account, as I shall pay no debts of her contracting, after this date.

Miss South Carolina once before set the house by the ears by attempting to leave my protection clandestinely, but through the vigilance of one of my watchmen—Andrew Jackson—she was brought back to duty. Her love for the black race, however, has ever since kept her in great uneasiness; until, finding my present watchman—James Buchanan—asleep upon a doorstep, she slipped out by him and got off as above stated.

Whoever will return my said daughter, shall be suitably rewarded as above. She is a lady of very peculiar appearance—having red hair, a freckled face, and an exceedingly quick and nervous gait; her dress was made up of Palmetto leaves;—her bonnet of rice straw, decorated with cockades and rosettes; her eyes are small and gray.

N. B.—The watchman, Buchanan, on discovering that she had taken advantage of his drowsiness and got away, was so alarmed as to propose a season of prayer, as a remedy for her apostacy and his apathy, a remedy, which, I am satisfied, will work no injury upon either party.

BROTHER JONATHAN.

Humphreys' Homeopathic Specific Remedies for the People.

The Remedies are carefully prepared under the direct supervision and inspection of Prof. HUMPHREYS, in order to meet that great and long realized want of the public, a reliable remedy for all the common and simple ailments of life.

A moment's reflection will show that a vast majority of diseases, from which the human race and die, were, at their commencement, simple and trifling. A mere cold, a slight diarrhœa, a pain in the side, or a headache, or hoarseness, at first easily cured and subdued, in time becomes a consumption, a fever, a dangerous dysentery, Croup or other disease, which all the powers of medicine fail to arrest.

Herein these remedies supply a great public want. Being on hand, simple, so you know at once what to take—plainly labeled, so as to cause no repugnance, and hence occasioning no risk, while the curative effects are positive and certain, they are taken, and so once the spell is broken and the danger stayed.

Experience has amply confirmed the use of these remedies for families and private persons, as being the safest, surest, pleasant, ready and convenient, THE MOST PROMPT AND RELIABLE.

Thousands are and have been using them for some five years, to the entire satisfaction of the country, with almost invariable success. All speak in the highest terms of their simplicity and certainty, and hundreds of agents can be produced, the uniform testimony is, that they give good satisfaction to their customers.

LIST OF

HUMPHREYS' SPECIFIC HOMEOPATHIC REMEDIES
